Israel has a site-specific safeguards agreement with the IAEA, which gives the IAEA access to the Soreq nuclear site for monitoring purposes. Details of this can be found on the IAEA website at:

www.iaea.ors.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter to his predecessor dated 7 June from the right hon. Member for Manchester, Gorton on Ms L. Lavell. [152282]

Dr. Howells: I replied to my right hon. Friend on 19 July.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter to his predecessor dated 4 June from the right hon. Member for Manchester, Gorton on Mr. Farooq Ahmed. [152283]

Dr. Howells: I replied to my right hon. Friend on 19 July.

Mercenaries

Mr. Caton: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government have to introduce measures to control and regulate UK-based private military and security companies working abroad. [151756]

Dr. Howells: I refer my hon. Friend to the answer I gave to the hon. Member for Lewes (Norman Baker) on 12 March 2007, *Official Report*, column 93W.

Mordechai Vanunu

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Israeli government on Mordechai Vanunu. [151414]

Dr. Howells: My right hon. Friend the Foreign Secretary has had no such discussions with the Israeli government.

We are aware that Mr. Vanunu was re-convicted on 30 April of breaching an order barring him from contacts with the foreign press. The Government raised Mr. Vanunu's case with the Israeli government on a number of occasions during his detention. After Mr Vanunu was released, we then raised the conditions of his release with the Israeli government. We have made our concerns clear to the Israeli government.

Rizana Nafeek

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Saudi Arabia on the execution of Rizana Nafeek; and if he will make a statement. [151251]

Dr. Howells: No representations have been made by my right hon. Friend the Foreign Secretary to the Government of Saudi Arabia on behalf of Rizana Nafeek, a Sri-Lankan national.

Representatives for Rizana Nafeek filed an appeal against the conviction on 15 July. The judicial process around the case is therefore ongoing. Our embassy in Riyadh will continue to monitor developments.

Russia: Diplomatic Service

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many diplomats Russia was authorised to have in the United Kingdom or accredited to the Court of St James on 13 July; and how many there will be following the decision, announced on 16 July 2007, *Official Report*, column 22, to expel diplomats. [151252]

Mr. Jim Murphy: Seventy-seven Russians are currently notified to the Foreign and Commonwealth Office (FCO) as being posted to the UK with diplomatic rank and are registered on the FCO Protocol database. I refer my hon. Friend to the statement made by my right hon. Friend the Foreign Secretary on 16 July 2007, *Official Report*, columns 27-22, in which he informed the House that four of these individuals have been asked to leave.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will undertake to make a written statement to the House should the number of authorised Russian diplomats in London vary from the levels permitted following the decision to expel four Russian diplomats which he announced on 16 July 2007, *Official Report*, column 22. [151253]

Mr. Jim Murphy: I refer my hon. Friend to the reply I gave to him today (UIN 151252). I would also remind my hon. Friend that I provided an undertaking to the Foreign Affairs Select Committee that I would inform Parliament of any changes to the measures set out in my right hon. Friend the Foreign Secretary's statement to the House on 16 July 2007, *Official Report*, columns 21-22.

UN Resolutions

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the implementation of UN Security Council Resolution 1701; and if he will make a statement. [150947]

Dr. Howells: There has been significant progress towards the implementation of UN Security Council Resolution (UNSCR) 1701. The UN Interim Force in Lebanon (UNIFIL) has successfully helped to bring peace and stability to south Lebanon. Their efforts, in conjunction with the Lebanese army, have ensured that the cessation of hostilities has been maintained with few significant breaches. There has also been steady progress on the clearance of unexploded munitions from the conflict last year. With significant UK support, UN and Lebanese teams have cleared approximately 17.5 square kilometres of contaminated land. This amounts to half of the total contaminated land.

However, the ongoing political crisis in Lebanon is hindering progress towards full implementation of UNSCR 1701. In particular, we continue to be concerned by reports of arms smuggling across the Syria/Lebanon border. We are working with international partners and the Government of Lebanon to address this issue. As part of this we are supporting a German-led project aimed at strengthening the border.

We are also deeply concerned by the firing of three rockets from south Lebanon into Israel on 17 June and an attack on a UNIFIL vehicle on 24 June that killed six soldiers. Such attacks are unacceptable and serve only to destabilise Lebanon. The UK will continue to work for the full implementation of UNSCR 1701.

The UN Secretary-General's most recent report on the implementation of UNSCR 1701 was published on 28 June. I will arrange for copies of this report to be placed in the Library of the House.

CULTURE, MEDIA AND SPORT

Blackpool

8. **Mr. Marsden:** To ask the Secretary of State for Culture, Media and Sport what estimates his Department has made of likely visitor numbers to Blackpool in the next five years. [151102]

Margaret Hodge: VisitBritain only makes forecasts of visitor numbers for the year ahead, and at a national level. No predictions have been made for visitors to Blackpool.

However, there were around 1.8 million overnight visits to Blackpool in 2006, making it the fifth most visited destination in England for domestic overnight visitors.

Playing Fields

11. **Mr. Bailey:** To ask the Secretary of State for Culture, Media and Sport what steps he is taking to secure further provision of playing fields. [151105]

Mr. Sutcliffe: The most recent data from planning applications relating to playing fields show that for two consecutive years more playing fields have been created than lost.

We now have tough measures in place to protect playing fields and planning guidance is clear that no field needed by the community should be removed.

Since 2001, over £1 billion of Lottery and Exchequer funding has been invested in community sports facilities, including playing fields and outdoor all weather pitches. The active places database shows that 93 per cent. of the population is currently within 20 minutes travel time of a playing field.

Licensing Act

12. **Mr. Vara:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the impact of the Licensing Act 2003 on live music; and if he will make a statement. [151106]

Mr. Sutcliffe: Current assessments suggest the Act has so far had a broadly neutral impact on the staging of live music.

The Live Music Forum published its report on 4 July. This found the Act had delivered many benefits, but the forum also highlighted some areas of concern.

The second stage of our own planned research into the provision of live music will be completed by the end of the year.

Tourism

13. **Mr. Whittingdale:** To ask the Secretary of State for Culture, Media and Sport how much his Department has allocated to the promotion of tourism for 2007-08. [151107]

Margaret Hodge: DCMS is investing over £55 million in tourism support at national and regional levels in 2007-08. Across the UK, the public sector now puts over £300 million a year into supporting the industry—more than ever before.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 2 May 2007, *Official Report*, column 1709W, on tourism, when his Department plans to publish the tourism strategy for the London 2012 Olympic Games. [150903]

Margaret Hodge: We hope to publish the tourism strategy for the London 2012 Olympic and Paralympic Games in September 2007.

Museums and Galleries: Free Admission

14. **Mr. Devine:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of free admission to national museums and galleries on the number and range of visitors to such institutions. [151108]

Margaret Hodge: Free museum admission for children was introduced by this Government eight years ago in April 1999. Since then the number of child visits to former charging sponsored museums in England has increased by 76 per cent. This represents an extra 12 million visits over this period.

Since the introduction of universal free access to former charging sponsored museums in England in December 2001, there has been an 87 per cent. increase in visits. This represents an extra 6 million visits a year or 29 million visits over the five years since entry charges were abolished.

Over the same period, the proportion of visits by people from black and multi-ethnic backgrounds has increased by around 54 per cent. while trend data collected between 2002-03 and 2004-05 shows that visits by people from C2DE social groups rose by 21 per cent. or 1.2 million additional visits.

Community Football

16. **John Mann:** To ask the Secretary of State for Culture, Media and Sport what funding his Department has provided for community football projects in 2007-08. [151110]

Mr. Sutcliffe: Over £20 million of both Exchequer and National Lottery funding, channelled through Sport England and the Football Foundation, will support community football projects in 2007-08.

In addition the Football Association is receiving £4 million over the period 2005-09 to support core community football projects.

And we have provided a further £5 million of Exchequer funding between 2006-08 to the Football Foundation and the Football Association for specific football projects.

Bookmakers' Pitches

17. **Mr. Hollobone:** To ask the Secretary of State for Culture, Media and Sport what measures he plans to take with regard to the certification system for race course bookmakers' pitches. [151111]

Mr. Sutcliffe: The Gambling Act replaces the certification system for racecourses with a new, streamlined licensing system. It is in both the racing and betting industries' interests to work together to ensure a smooth transition to the new system, and I plan to help them to reach agreement.

Sports Aid

18. **Mr. Jenkins:** To ask the Secretary of State for Culture, Media and Sport how many young athletes in *(a)* England and *(b)* Tamworth constituency have received financial support from SportsAid. [151112]

Mr. Sutcliffe: SportsAid is a registered charity for sports people and focuses on giving grants to young people aged 12 to 16 from funds raised from the private sector. It would not, therefore, be appropriate for Government to answer on behalf of SportsAid.

However, SportsAid receives an annual Exchequer grant from Sport England, and for this financial year, will receive £199,270 to support its operational costs.

In addition, SportsAid is responsible for administering Government funding for the talented athlete scholarship scheme (TASS), which includes TASS 2012. The programme supports young sporting talent primarily in further and higher education. Since TASS and TASS 2012 were launched, 2,648 athletes in England and two in the Tamworth constituency have received financial support.

Artists with Disabilities

19. **Mary Creagh:** To ask the Secretary of State for Culture, Media and Sport what support his Department provides for artists with disabilities. [151113]

Margaret Hodge: In 2005-06 Arts Council England (ACE) provided £12,844,929 funding and since 2004 has provided £4,138,800 in capital grants for disability-led arts organisations. Last year ACE launched a Disability Equality Scheme and it is developing a new Disability Arts Strategy for 2008-09. The Cultural Leadership programme has also funded a network of disabled artists to develop leadership opportunities.

Decibel Penguin Prize

Philip Davies: To ask the Secretary of State for Culture, Media and Sport if he will make a statement on the future of the decibel Penguin prize. [151109]

Margaret Hodge: The second decibel Penguin anthology will be published in November. Writers from all backgrounds were invited to submit personal accounts of the experience of immigration to the United Kingdom and 16 authors were chosen. This volume has received about £3,500 from Arts Council England. There are plans for one further volume next year.

British Library: Business

Mr. Love: To ask the Secretary of State for Culture, Media and Sport what action his Department is taking to promote the Business and Intellectual Property Centre at the British Library as a resource for the business community. [150537]

Margaret Hodge: DCMS operates an arm's length policy with regard to the bodies that it sponsors, and the promotion of the Business and Intellectual Property Centre is therefore a matter for the British Library Board. They are to be congratulated for their successful delivery of this new resource, which has welcomed over 25,000 users since it opened in March 2006. The Library continues to broaden its public offer, and to build its role underpinning the UK's knowledge economy.

Culture: Poole

Mr. Syms: To ask the Secretary of State for Culture, Media and Sport what events will be held in Poole as part of the Cultural Olympiad in 2012; and which of these events were planned before London secured the 2012 games. [151584]

Margaret Hodge: The intention of the Cultural Olympiad has always been for a UK wide programme that engages local communities. This remains the commitment.

The major projects set out in the London 2012 bid included Film and Video Nation, International Shakespeare Festival, Live Sites, International Exhibitions Programme, 2012 Sounds! Olympic Proms, Artists Taking the Lead, World Cultural Festival, World Festival of Youth Culture, 2012 Carnival and Celebration of Disability Arts and Sport. All these projects featured in LOCOG's briefing of 21 June. Most of these projects will offer the opportunity for people around the UK to become involved.

In addition to these programmes, there will be a four-year UK-wide Cultural Festival including grass-roots community projects starting in the summer of 2008. Supported and led by a network of Regional Creative Programmers, this Festival will encompass thousands of national, local and regional events as part of the nationwide celebrations to mark the 2012 Olympic Games and Paralympic Games. The role of the Regional Creative Programmers will be to co-ordinate the delivery of cultural events in all the regions and will act as the first point of contact for people in the regions, giving information and advice on how to join in with the Cultural Olympiad. It is too early to say what events will be held in Poole but the Creative Programmer for the South West will work with regional partners and stakeholders to help produce joint events, projects and activities.

Departments: Catering

Mr. Roger Williams: To ask the Secretary of State for Culture, Media and Sport what percentage of *(a)* beef, *(b)* sheep meat, *(c)* pork and *(d)* dairy products used in his Department in the most recent period for which figures are available were imported products. [150797]

Margaret Hodge *[holding answer 19 July 2007]:* The percentage of food products used in the Department that was imported is as follows:

(a) beef: 48 per cent. *(b)* sheep meat: 48 per cent. *(c)* 0 per cent. *(d)* 50 per cent.

Departments: Flint Bishop

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport whether *(a)* his Department and *(b)* its agencies have made payment to Flint Bishop Solicitors since 1997. [151395]

Margaret Hodge: Neither the Department nor its agency the Royal Parks, have made any payments to Flint Bishop Solicitors since 1997.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Culture, Media and Sport how many ministerial red boxes his Department bought in each of the last five years; what the cost of each was; who the suppliers were: and what tendering process was used in selecting them. [150476]

Margaret Hodge: Ministerial boxes are used by successive Ministers over many years. There were two ministerial red boxes purchased in 2006, see following table. The ministerial boxes were ordered via Banner Business Supplies Ltd. contract, therefore no tendering process was used in selecting the supplier.

2006	*Cost (£)*
Minister of State—Department for Culture, Media and Sport	620.00 + 108.50 VAT
Parliamentary Under-Secretary of State—Department for Culture, Media and Sport	740.00 + 129.50 VAT (incl. new Bramah lock and key)
Total cost	1,598.00

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151657]

Margaret Hodge: Departmental expenditure for overseas travel and subsistence by officials is shown in the table. Statistical information regarding number of visits is not routinely collected and can be obtained only at disproportionate cost.

Regarding Ministers' visits overseas, since 1999 the Government have published, on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the "Civil Service Management Code", the "Ministerial Code" and "Travel by Ministers".

	Overseas travel and subsistence costs by officials (£)
2006-07[1]	291,427.90
2005-06	287,546.56
2004-05	279,710.59
2003-04	235,210.16
2002-03	195,442.41
2001-02	129,164.75
2000-01	188,337.76
1999-2000	193,742.97
1998-99	151,307.28
1997-98	175,061.96

[1] Subject to finalisation of resource accounts.

Digital Broadcasting: Islwyn

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the percentage of homes in Islwyn constituency which have digital television. [151857]

James Purnell: No estimate has been made for the Islwyn constituency. However, according to the latest figures from the Ofcom/Digital UK Tracker Survey (Q1-2007), take up of digital television in Wales is currently estimated at 86 per cent. of households[1].

[1] Based on a sample of 319

English Heritage

Mr. Syms: To ask the Secretary of State for Culture, Media and Sport how many English Heritage sites he and his predecessor visited *(a)* in the UK and *(b)* in Poole in each of the last five years. [151582]

Margaret Hodge: My right hon. Friend the Secretary of State has not visited any English Heritage sites in his three weeks since taking office. His predecessor visited Stonehenge in September 2006, and last month she visited Torre Abbey in Torquay to see a project funded by English Heritage. I visited Castle Acre Priory on 8 July. My predecessor, my hon. Friend the Member for Tottenham (Mr. Lammy) visited seven properties managed by English Heritage during his term in office. There are no English Heritage sites in Poole; the nearest sites are Christchurch Castle and Norman House, Lulworth Castle, and Knowlton Church and Earthworks. These have not been visited by DCMS Ministers in recent years. English Heritage's remit in the UK only extends to England; the devolved administrations have their own equivalent heritage bodies.

Fashion Industry: Government Assistance

Mark Pritchard: To ask the Secretary of State for Culture, Media and Sport what steps he is taking to support the British fashion industry. [150717]

Margaret Hodge: Fashion is one of the brightest stars in the UK's creative economy, with world class standards in our colleges and cultural institutions producing some of the world's top designers.

DCMS gained responsibility for the fashion design sector in 2005. Since then we have been working with representatives from the industry to understand their issues and how Government policies and programmes can best respond to them.

The Department has ensured that the fashion design sector is an integral part of the Government's ongoing Creative Economy Programme, which aims to improve the growth and productivity of the creative industries.

DCMS works closely with industry and the other public bodies and supporting cultural and educational institutions. We are also closely monitoring the independent Model Health Inquiry and will respond to its final recommendations.

Libraries: Digital Technology

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to assist in the establishment of the European Digital Library. [150789]

Margaret Hodge: Earlier this year, DCMS and the Museums, Libraries and Archives Council (MLA) jointly ran a workshop on digitisation, cultural resources and the creative industries. The impetus behind the event was the European Commission's Conclusions on its European Digital Library (EDL) project. The workshop was attended by more than 100 key stakeholders from across the UK, representing museums, libraries, archives, academia, film, broadcasting, heritage, music, publishing and tourism, and other Government Departments. The Department is now considering how best to draw on the issues raised at the workshop to assist in the establishment of the EDL.

National Lottery: Grants

Anne Milton: To ask the Secretary of State for Culture, Media and Sport what projects that received funding from the Heritage Lottery Fund were subsequently abandoned in each year since 1997; how much funding was received for each such project; and if he will make a statement. [148589]

Margaret Hodge: Since 1994, the Heritage Lottery Fund has awarded funding to over 26,000 projects. Of these projects, 17 have not been successfully completed having already drawn down an element of funding.

The table gives funding details for each of the 17 projects.

Project title	*Applicant*	*Year project closed (FY)*	*Grant awarded (£)*	*Grant drawdown (£)*
Blaenau Ffestiniog, Plas Tan Y Bwlch Historic Gardens	Plas Tan Y Bwlch Gardens Trust	1999-2000	313,700	16,913
Williton Workhouse Conservation	Somerset Buildings Preservation Trust	2000-01	70,000	8,376
Tower Environs Scheme—Approaching the Tower	Historic Royal Palaces	2001-02	405,000	24,904
Astley Castle—Acquisition and refurbishment	Landmark Trust	2002-03	152,625	10,737
Heritage Information Exchange	The Heritage Information Trust	2003-04	365,000	77,070
Brackenhill Tower, Longtown, Cumbria	Brackenhill Trust Ltd.	2004-05	50,000	4,446
Old Market Place CAPS	Trafford Metropolitan Borough Council	2004-05	75,000	14,550
St. Peter, Church Knowle, Dorset	St. Peter's PCC	2005-06	20,500	1,993
Bradford City Centre CAPS	Bradford Metropolitan District Council	2005-06	300,000	70,591
Headstone Manor, Harrow Museum and Heritage Centre, Harrow	London Borough of Harrow	2005-06	1,003,400	177,585
Manningham CAPS	Bradford Metropolitan District Council	2005-06	180,000	33,546
Muswell Hill CAPS	London Borough of Haringey	2005-06	225,000	16,631
Terra 2000	University of Plymouth	2005-06	40,848	9,920
Congregational Church, Polesworth	Congregational Federation Ltd	2006-07	118,000	24,149
First Presbyterian Church, Newry—Restoration	First Presbyterian Church, Newry	2006-07	144,050	129,645
Food for Life!	Central Action	2006-07	31,600	15,800
Warwick Bar THI	British Waterways	2006-07	371,000	68,246

Radio: Digital Broadcasting

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if he will commission research into the use of digital radio mondiale compared to digital audio broadcasting. [150858]

James Purnell: We have no plans to do so. Ofcom are responsible for spectrum planning and have a duty to ensure the optimal use of spectrum. As such, they will need to consider whether DRM can be a platform for future radio broadcasting, in conjunction with broadcasters.

Sport England: East Sussex

Mr. Waterson: To ask the Secretary of State for Culture, Media and Sport what funding was provided to Sports England East Sussex in each of the last five years; and what the projected funding allocation is for the 2008-09 financial year. [151436]

Mr. Sutcliffe: Sport England operates at regional level through nine regional offices. Sport England South East covers the East Sussex area.

The table shows the Exchequer and Lottery funding which the Sport England South East Regional Office has awarded to East Sussex in the last five years to support and promote sporting activities and projects.

Lottery Awards are made on the basis of merit in response to applications so funding levels will fluctuate over time and depending on the quality of projects that come forward seeking funding.

Financial year	*Lottery (£)*	*Exchequer (£)*
2003-04	0	17,200
2004-05	1,710,039	173,875
2005-06	638,449	440,300
2006-07	0	253,392
Grand total	2,348,488	884,767

The total award budget for Sport England South East region 2007-08 is:

Exchequer: £1.9 million

Lottery: £12.4 million

Projected funding for the 2008-09 financial year will not be known until the outcome of the 2007 Comprehensive Spending Review.

Sports: East Sussex

Mr. Waterson: To ask the Secretary of State for Culture, Media and Sport how many community sports coaches there are in *(a)* Eastbourne and *(b)* East Sussex; and what steps he is taking to increase the number of such coaches. [151403]

Mr. Sutcliffe: Sussex County Sports Partnership advise that there are 41 Community Sports Coach posts in East Sussex. Eight of these posts are in Eastbourne and a further eight of these posts operate on a county wide basis.

The Department for Children, Schools and Families (DCSF) also provide grants to School Sports Partnerships (SSPs) to enable them to employ Community Sports Coaches. Three SSPs in East Sussex have received grants in 2007-08—Beacon/North Wealdon, Dorothy Stringer and William Parker.

Confirmation of continued DCMS funding for Community Sports Coaches is subject to the Comprehensive Spending Review. Further DCSF funding for coaches will be available from 2008-09 to deliver the five hour offer of sport to children and young people.

Visual Arts: Elderly

Mr. David Anderson: To ask the Secretary of State for Culture, Media and Sport what steps he is taking to promote art as a way of improving the wellbeing of elderly people. [151095]

Margaret Hodge: The arts can play an important role in supporting the health and wellbeing of older people. There are many examples of excellent work which promotes art for elderly people across the country. The Arts Council and the Department of Health have jointly published 'A prospectus for arts and health' and a 'Dance and health' folder, which highlights a range of examples. Copies of these will be placed in the Library of the House.

The Arts Council is also planning to have a specific focus on older people in their next corporate plan.

PRIME MINISTER

10 Downing Street: Official Hospitality

Norman Baker: To ask the Prime Minister what the date was of each reception he and his predecessor have held since May 2005; what the *(a)* venue and *(b)* purpose was of each; who (i) hosted and (ii) paid for each; what the estimated attendance was at each; and what the cost to the public purse was of each. [151280]

The Prime Minister: Information on receptions hosted by my predecessor for the financial year 2006-07 will be published shortly. For information prior to this date I refer the hon. Member to the answer given by my predecessor (the right hon. Tony Blair) on 11 October 2006, *Official Report*, column 788W.

Delivery Unit

Norman Baker: To ask the Prime Minister pursuant to his written ministerial statement of 28 June 2007, *Official Report*, column 39WS, on machinery of Government: departmental organisation, for what reasons the Prime Minister's Delivery Unit now reports jointly to him and the Chancellor of the Exchequer. [151819]

The Prime Minister: I have nothing further to add to my written statement on 28 June 2007, *Official Report*, column 39WS.

Departments: Correspondence

Mr. Lidington: To ask the Prime Minister when his Office sent to the Home Department the correspondence dated 4 April from Mr R.N.R. of Aylesbury HP22 5NL, about the registration of a child as a British citizen, which the Direct Communications Unit of his Office acknowledged on 16 April. [152004]

The Prime Minister: My office received the letter on Thursday 12 April 2007 and passed it to the Home Office for action on Monday 16 April 2007.

Departments: Manpower

Norman Baker: To ask the Prime Minister if he will list the *(a)* responsibilities, *(b)* units and *(c)* personnel he is transferring to the Cabinet Office from his purview. [151689]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for North-East Hertfordshire (Mr. Heald) on 2 July 2007, *Official Report*, column 945W.

Departments: Visits Abroad

Mrs. May: To ask the Prime Minister how many overseas visits were made by officials within his responsibility, and at what cost, in each year since 1997. [151644]

The Prime Minister: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 will be published in the normal way. All travel is undertaken in accordance with the "Civil Service Management Code" and the "Ministerial Code". As set out in the new "Ministerial Code", from next year, the list of overseas travel will cover all Ministers.

Dorneywood

Norman Baker: To ask the Prime Minister on what date the Deputy Prime Minister vacated Dorneywood; and to what use the building is now being put. [151439]

The Prime Minister: I refer the hon. Member to the answer given by my predecessor (the right hon. Tony Blair) on 12 June 2006, *Official Report*, column 883W,

and to the press briefing given by my spokesman on 18 July 2007. A transcript of this is available on the No. 10 website (http://pm.gov.uk/output/Page12547.asp) and a copy has been placed in the Library of the House.

Former Ministers

Mr. Gordon Prentice: To ask the Prime Minister if he will establish the practice of holding exit interviews with Ministers leaving the Government. [152055]

The Prime Minister: I refer my hon. Friend to the answer given to him by my predecessor (Mr. Blair) on 8 January 2007, *Official Report*, column 248W.

Government Bills

Mr. Rob Wilson: To ask the Prime Minister what procedures were followed in relation to informing HM the Queen about the announcement of the draft legislative programme; and if he will make a statement. [150801]

The Prime Minister: Discussions with Her Majesty the Queen are not disclosed.

Nuclear Weapons: Proliferation

Mr. Dai Davies: To ask the Prime Minister what *(a)* nuclear weapons reductions and *(b)* non-proliferation matters were discussed at his meeting with the United Nations Secretary-General on 11 July. [151250]

The Prime Minister: I discussed a wide range of issues with UN Secretary-General Ban Ki-moon during his recent visit.

I also refer the hon. Member to the press conference I held with UN Secretary General Ban Ki-moon on 11 July. A transcript of this is available on the No. 10 website

(http://www.pm.gov.uk/output/Page12446.asp)

and a copy has been placed in the Library of the House.

Official Residences

Norman Baker: To ask the Prime Minister (1) if he will make a statement on his plans for the future use of *(a)* Chequers and *(b)* the official residential properties used by ministers; [151267]

(2) who the present occupants are of *(a)* Chevening, *(b)* the flat above number 11 Downing Street, *(c)* the flat in 1 Carlton Gardens, *(d)* Flat 1 in Admiralty House, *(e)* Flat 2 in Admiralty House, *(f)* Flat 3 in Admiralty House and *(g)* Government House in Pimlico. [152019]

Chris Grayling: To ask the Prime Minister (1) who lives in the flat above Number 10 Downing Street; [152249]

(2) which Ministers have been allocated official Ministerial accommodation. [152250]

The Prime Minister: I refer the hon. Members to the press briefing given by my spokesman on 18 July 2007. A transcript of this is available on the No. 10 website (http://pm.gov.uk/output/Page12547.asp) and a copy has been placed in the Library of the House.

Written Questions

Mr. Dai Davies: To ask the Prime Minister if he will make it his policy when answering written questions by reference to a comment made by his official spokesman in a press briefing to include the full relevant extract in the *Official Report* rather than a direct reference to the appropriate URL to the press conference in question. [152381]

The Prime Minister: Where my answer refers to a specific document on the website, copies are made available to the hon. Member asking the question and are also placed in the Libraries of the House.

WORK AND PENSIONS

Child Support Agency: Debt Collection

Mr. Laws: To ask the Secretary of State for Work and Pensions how much Child Support Agency arrears have been contracted out for private sector collection in each month from January 2005 to June 2007; and if he will make a statement. [146147]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 20 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how much Child Support Agency arrears have been contracted out for private sector collection in each month from January 2005 to June 2007; and if he will make a statement.

The Child Support Agency conducted a pilot between August 2005 and December 2005 with two private debt collection agencies to assess the feasibility of involving the private sector in recovering child support maintenance debt. The Agency referred cases with a debt value of £30 million to the debt collection agencies involved in the pilot.

Following the pilot and a procurement exercise, the Agency signed contracts with two debt collection agencies on 7 July 2006. The amount of child support maintenance debt exported to the debt collection agencies each month is included in the attached table.

I hope you find this answer helpful.

Amount of child support maintenance debt referred to debt collection agencies

	Value (£)
2006	
July	112,951
August	2,314,650
September	13,340,556
October	12,845,655
November	16,910,770
December	22,708,701
2007	
January	12,914,223
February	30,748,063
March	29,439,756
April	42,983,965
May	36,948,660

Children: Maintenance

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of *(a)* all parents with care and *(b)* all lone parents with care were receiving child support payments from the non resident parent in the latest period for which information is available. [146171]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 20 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what proportion of (a) all parents with care and (b) all lone parents with care were receiving child support payments from the non-resident parent in the latest period for which information is available.

The information requested in part (a) can be obtained from table 7.2 of the March 2007 Child Support Agency Quarterly Summary Statistics. A copy of this is available in the House of Commons Library, it is also available on the Internet via the following link: www.dwp.gov.uk/asd/asd1/child_support/csa_quarterly_mar07.asp.

Information on lone parents receiving child support cannot be provided, as the Agency does not hold information on whether a parent with care has a current partner.

The information is case based, and a parent with care may be involved in more than one case.

I hope you find this helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will publish his Department's research on the effects of *(a)* curfews and *(b)* naming and shaming on child maintenance compliance; and if he will make a statement. [146437]

Mr. Plaskitt: In the case of curfews, it is intended that this form of enforcement is used where other lesser and direct attempts to recover the unpaid maintenance have been tried but some or all of the amount remains outstanding.

While research indicates that curfews do not tend to feature internationally, all major comparator countries that have a similar child maintenance system to the UK operate a range of enforcement options. Curfews will serve as an effective alternative to committal as such orders will create a strong incentive for the non-resident parent to pay, while not impeding his or her ability to do so by causing him or her to lose his job.

In the case of 'naming and shaming' (the publication of the names of non-resident parents who have been successfully prosecuted for information offences on the CSA website) the Department is aware that a similar approach is used in some other child maintenance systems internationally.

Both these policies need to be seen as part of the broader programme to build a stronger culture of compliance amongst non-resident parents. The intention is to promote the message that not paying for your children is unacceptable and brings consequences with it.

Mr. Laws: To ask the Secretary of State for Work and Pensions whether it is his policy that under the new Child Maintenance and Enforcement Commission, a person whose maintenance assessment is based on last year's HM Revenue and Customs income data will have an entitlement to recovery of a child maintenance overpayment if in-year income falls by up to but not in excess of 25 per cent.; and if he will make a statement. [146690]

Mr. Plaskitt: There are no plans for the Commission to have an entitlement to recover a child maintenance overpayment if in-year income falls up to but not in excess of 25 per cent.

Current plans are to amend a calculation based on HMRC latest tax year gross income if the current income differs by 25 per cent. or more. At the annual review, the latest available HMRC gross income will be used to set a new fixed term award.

Children: Poverty

Mr. Hancock: To ask the Secretary of State for Work and Pensions if he will make it his policy to introduce *(a)* a measure of severe poverty and *(b)* a severe child poverty action plan; and if he will make a statement. [148295]

Mrs. McGuire: The chapter on child poverty in last year's Opportunity for All strategy report outlined the breadth of work underway across Government to ensure that our targets to halve and ultimately eradicate child poverty are met. These commitments reflect our wider ambition to ensure that every child has the best start in life and has an equal opportunity to fulfil their potential. We are making good progress; there were 600,000 fewer children in poverty in the UK (as measured by relative low income) in 2005-06 than there were in 1998-99.

The Government's long-term measure for child poverty already includes three indicators developed following extensive consultation initiated by the DWP: absolute low income, relative low income, and material deprivation combined with relative low income. This long-term measure is also underpinned by the poverty and social exclusion indicators within Opportunity for All.

There are a number of ways that depth of poverty can be measured. Our Opportunity for All indicators includes a range of income thresholds. In addition, we have a lower income threshold implied by the absolute low income tier within our long-term measure. These indicators enable us to analyse different depths of poverty and respond accordingly.

Departments: Consultants

Mr. Meacher: To ask the Secretary of State for Work and Pensions how much the Department spent on *(a)* management consultants and *(b)* other external consultants and advisers in each year since 2000; and which of these consultants undertook work for the Department with a total contractual value in excess of £10 million over that period. [146327]

Mrs. McGuire: DWP was formed in June 2001. The following table provides spend on external consultants in each year, broken down between management and IT consultancy and includes spend on legal consultancy for 2006-07. Totals prior to 2006-07 could be obtained only by incurring disproportionate costs.

						£ million[1]
Description	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Management consultancy	23.79	47.57	223.35	98.64	77.59	116.77
IT consultancy	70.67	93.47	83.37	69.73	52.70	45.85
Legal	—	—	—	—	—	16.40

[1] Costs inclusive of VAT

For the second part of this question management information records are only available since April 2004. Contracts for consultancy related services with a total value of over £10 million awarded since this date are in the following table.

	£ million
Supplier	*Contract value*
Booz Allen Hamilton	86.79
IBM UK Ltd	49.68
Capgemini UK plc	26.25
PA Consulting Services Limited	25.58
Deloitte MCS Limited	10.31

Departments: Fringe Benefits

Tim Loughton: To ask the Secretary of State for Work and Pensions how many staff in his Department receive assistance from employee assistance programmes; and which firms provide the programmes. [151077]

Mrs. McGuire: All 120,487 staff employed by the Department for Work and Pensions, at all levels have access to the Department's employee assistance programme. This is provided by Right Corecare, a Manpower company.

In the year ending 30 June 2007, 5,402 members of staff contacted the counselling, advice and information helplines.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Work and Pensions which legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149706]

Mrs. McGuire: The information is as follows.

Acts introduced by DWP since 1997	*Sections not yet in force*
Welfare Reform and Pensions Act 1999	Section 25
Child Support, Pensions and Social Security Act 2000	Section 28
	Schedules 5 para. 12(2)-(4)
	Schedule 7 paras. 17 and 18(2)(b)
	Schedule 9 part III (1) and part V
Pensions Act 2004	Section 12(2)(c)
	Section 20(3)(c)
	Section 38(4)
	Section 38(7)(g)
	Section 41(10)(f)
	Section 42(2)(c)
	Section 43(7)(e)
	Section 47(4)(g)
	Section 50(10)(f)
	Section 95(1)(b)(ii)
	Section 96(6)(u)
	Section 101(2)(d)
	Section 108(3)
	Section 117(2)(b)
	Section 118
	Section 121(9)(b)
	Section 134(2)(d)
	Section 138(10)(a)
	Section 150(6)(d)
	Section 151(12)(a)
	Section 161(3)(b)
	Section 163(5)(b)
	Section 166(6) and (7)
	Section 169(2)(d)
	Section 173(1)(k)
	Section 177(6) and (7)
	Section 179(1)(b)
	Section 180(4)
	Section 181(2)(b)
	Section 187
	Section 188(3)(d)
	Section 189(3)(b)
	Section 209(4)(e)
	Section 209(5)
	Section 213(4)(e)
	Section 213(5)(e)
	Section 214(2)(k)
	Section 237 and 238
	Section 240
	Section 273
	Section 306(2)(i)
	Section 308
	Section 318(4)(b)
	Schedule 5 part 1 para. 13(3)(b)
	Schedule 12 para. 76(2)(e)
	Schedule 13 part 2
Disability Discrimination Act 2005	Section 6(1) and (2)
	Section 7 and 8
Welfare Reform Act 2007	Sections 1-30
	Section 31 (partly in force)
	Sections 32-39

Acts introduced by DWP since 1997	*Sections not yet in force*
	Section 40 (in force for certain purposes)
	Section 41 (partly in force)
	Sections 42 and 43
	Sections 46-53
	Section 56 and 57
	Section 58 (in force for certain purposes)
	Section 60
	Section 61 (partly in force)
	Section 63 (in force for certain purposes)
	Section 67 (in force for certain purposes)
	Schedule 1-4
	Schedule 5 (partly in force)
	Schedule 6 (in force for certain purposes)
	Schedule 7 (partly in force)

Dr. Cable: To ask the Secretary of State for Work and Pensions which Bills introduced by his Department in the last five years have contained sunset clauses; and what plans he has for the future use of such clauses. [151839]

Mrs. McGuire: The only Bill introduced by the Department for Work and Pensions in the past five years which contained a sunset clause was the Bill for the Welfare Reform Act 2007 (see section 31(3) of that Act).

While the Secretary of State for Work and Pensions has no current plans for the future use of such clauses, he will consider their use when appropriate.

Departments: Public Transport

David Simpson: To ask the Secretary of State for Work and Pensions what estimate his Department has made of the number of its staff using public transport to commute. [147347]

Mrs. McGuire: The Department has 112,000 staff in 1,221 buildings. Due to the scale of our operations we do not collect information on the commuting choices of our staff, and have no plans to do so. It is not possible to estimate the number of staff using public transport to commute, as this would be different in every building. But a variety of information is provided to staff to help them make personal choices about their commuting journeys, via our intranet site and Sustainable Development staff magazine—such as links to 'Transport Direct' and suggestions on car-sharing schemes. Businesses are encouraged to operate a green travel plan at those sites where one would be beneficial.

Departments: Translation Services

Chris Grayling: To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* translation services and *(b)* translators in each of the last five years. [149959]

Mrs. McGuire: The information is not available in the categorisations requested. In 2006-07, the Department spent around £267,500 on translation services including translators. Information is not available for previous years, other than at disproportionate cost.

Financial Assistance Scheme: Insurance

Mark Pritchard: To ask the Secretary of State for Work and Pensions what discussions he has held with the Chancellor of the Exchequer on the use of with profits insurance funds in support of the Financial Assistance Scheme. [150723]

Mr. Mike O'Brien: The Secretary of State has not yet had discussions with the Chancellor of the Exchequer about this issue.

Financial Assistance Scheme: Pensions

Mark Pritchard: To ask the Secretary of State for Work and Pensions when he expects to make a statement on the findings of the Young review. [150725]

Mr. Mike O'Brien: On 16 July the interim report of the Financial Assistance Scheme Review of Scheme Assets was published and the House was informed via a written ministerial statement. At the same time, I welcomed the first findings of the review in a press notice issued by my Department.

Home Responsibilities Protection

Steve Webb: To ask the Secretary of State for Work and Pensions pursuant to the answer of 8 February 2007, *Official Report*, column 1226W, on home responsibilities protection (HRP), what estimate he has made of the number of women who began to receive state retirement pension who had any recorded HRP, including women for whom such HRP did not reduce the number of qualifying years needed for a full state pension, in each year between 1978-79 and 2004-05. [151449]

Mr. Mike O'Brien: The available information is set out in the following table.

The second column of the table shows the number of women aged 60 in each financial year from 1985-86 to 2004-05 with some entitlement to basic state pension who had home responsibilities protection (HRP), including women for whom such HRP did not reduce the number of qualifying years required for a full basic state pension.

Number of women with HRP, including those for whom HRP did not reduce qualifying years needed for full BSP

	Number
1985-86	20,000
1986-87	30,000
1987-88	30,000
1988-89	40,000
1989-90	50,000
1990-91	60,000
1991-92	60,000
1992-93	60,000
1993-94	70,000
1994-95	70,000
1995-96	80,000

Number of women with HRP, including those for whom HRP did not reduce qualifying years needed for full BSP

	Number
1996-97	80,000
1997-98	100,000
1998-99	100,000
1999-2000	100,000
2000-01	110,000
2001-02	110,000
2002-03	130,000
2003-04	150,000
2004-05	170,000

Notes:
1. Figures are rounded to the nearest 10,000 and are consistent with the information supplied in the answer of 8 February 2007.
2. Figures refer to women living in the UK and overseas.
3. Information at this level of detail is not reliable before 1985.
4. Some women who reach state pension age in a particular year with some entitlement to basic state pension may defer their entitlement and claim in a later year.
5. HRP does not reduce the number of qualifying years required for a full basic state pension when that year is already a qualifying year or is one for which a married woman's reduced rate election is in force.
6. Figures refer to those women with some entitlement to basic state pension based on their own contribution record. Entitlement to basic state pension requires satisfying the 'first contribution condition' and the '25 per cent. rule'. Some women who do not satisfy one or both of these conditions may, nevertheless, also have HRP recorded.

Lifetime Labour Market Database 2, 2003-04

Incapacity Benefit

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people claimed incapacity benefit in each year since 1997. [150051]

Mrs. McGuire: The available information is in the following table.

Incapacity benefit/severe disablement allowance (IB/SDA) claimants: Great Britain

	Number of claimants
November 1997	2,837,400
November 1998	2,767,400
November 1999	2,738,130
November 2000	2,764,140
November 2001	2,787,710
November 2002	2,818,480
November 2003	2,822,270
November 2004	2,814,410
November 2005	2,752,900
November 2006	2,714,950

Notes:
1. Caseload figures from 1999 onwards are rounded to the nearest 10. Some additional disclosure control has also been applied.
2. Caseload figures for 1997 and 1998 are rounded to the nearest hundred.
3. Caseloads for 1997 and 1998 have been produced using 5 per cent. data and have been rated up in accordance with the Great Britain WPLS 100 per cent. IB/SDA totals.
4. 1997 and 1998 figures are from a 5 per cent. sample and are therefore subject to a degree of sampling variation.
5. From 6 April 2001, no new claims to SDA were accepted.
6. Figures include credits only cases.
Source:
1. DWP Information Directorate: Work and Pensions Longitudinal Study, 1999 onwards.
2. Department for Work and Pensions, Information Directorate, 5 per cent. sample, 1997 and 1998.

Jobseekers Allowance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 25 June 2007, *Official Report*, column 477W, on jobseeker's allowance (JSA), what proportion of JSA claimants have partners in each category. [147788]

Mr. Plaskitt *[holding answer 5 July 2007]:* The information requested is not available except at disproportionate cost.

New Deal for Disabled People

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many participants on the New Deal for Disabled People were taking part in the scheme for the second time or more in each month since 2001. [148891]

Mrs. McGuire *[holding answer 10 July 2007]:* The number of participants on new deal for disabled people in each month since the start of the programme who were taking part in the scheme for the second time or more is contained in the following table:

Month	Participants taking part for second time or more
July 2001	110
August 2001	130
September 2001	160
October 2001	190
November 2001	230
December 2001	240
January 2002	270
February 2002	340
March 2002	420
April 2002	490
May 2002	610
June 2002	700
July 2002	780
August 2002	940
September 2002	1,070
October 2002	1,190
November 2002	1,400
December 2002	1,500
January 2003	1,840
February 2003	1,830
March 2003	1,990
April 2003	2,150
May 2003	2,360
June 2003	2,550
July 2003	2,720
August 2003	2,890
September 2003	3,060
October 2003	3,240
November 2003	3,390
December 2003	3,450
January 2004	3,620
February 2004	3,810
April 2004	4,370
May 2004	4,740
June 2004	5,090
July 2004	5,590
August 2004	5,870
September 2004	6,220
October 2004	6,710
November 2004	7,080
December 2004	7,300
January 2005	7,630
February 2005	8,040
March 2005	8,510
April 2005	8,940

Month	Participants taking part for second time or more
May 2005	9,270
June 2005	9,610
July 2005	10,000
August 2005	10,310
September 2005	10,820
October 2005	11,200
November 2005	11,590
December 2005	11,840
January 2006	12,370
February 2006	12,900
March 2006	13,570
April 2006	14,110
May 2006	14,670
June 2006	15,230
July 2006	15,740
August 2006	16,260
September 2006	16,970
October 2006	17,520
November 2006	18,010

Notes:
1. Latest data are to November 2006.
2. Figures are rounded to nearest 10.

Information Directorate, DWP

New Deal Schemes: Employment

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many participants left the new deal *(a)* voluntary service, *(b)* environmental task force, *(c)* full-time education or training and *(d)* employment option for employment in Liverpool and Wirral district in November 2006. [148981]

Mrs. McGuire *[holding answer 11 July 2007]:* The information is in the following table:

Stage of leaving new deal for young people	Number leaving to employment in Liverpool and Wirral in November 2006
Employment option	10
Full-time education/training	0
Voluntary sector	0
Environmental task force	0

Notes:
1. Figures are rounded to nearest 10.
2. A total of 40 participants left new deal for young people at one of the four option stages in Liverpool and Wirral in November 2006 (not all of them left to employment).
Source:
Information Directorate, DWP

New Deal Schemes: Expenditure

Chris Grayling: To ask the Secretary of State for Work and Pensions how much was spent on the *(a)* new deal scheme, *(b)* new deal 25 plus scheme and *(c)* new deal for lone parents programme in each year since 1998. [150061]

Caroline Flint: I refer the hon. Member to the written answer given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 4 June 2007, *Official Report*, column 32W and to the Department for Work and Pensions Departmental Report 2007 (CM 7105).

Occupational Pensions

Chris Grayling: To ask the Secretary of State for Work and Pensions what percentage of private sector employers offered pensions to their employees in each year since 1997. [150045]

Mr. Mike O'Brien: The information is not available in the format requested. Such information as is available is presented in the following table:

	Percentage of firms with any pension provision
1998	34
2000	29
2003	52
2005	44

Notes:
1. All figures are estimates taken from the Employers' Pension Provision Survey. 2005 is the latest year published. The coverage of the survey is private sector employers in Great Britain.
2. Stakeholder pensions were introduced in April 2001, and from October 2001 employers with five or more employees and no other pension provision were required to provide access to stakeholder pensions. This is reflected in the increase in employer pension provision between 2000 and 2003.
3. Pension provision includes occupational schemes, group personal pensions, stakeholder pensions (including schemes with no members and/or no contributions) and firms that contribute to personal pensions.
Source:
DWP Employers' Pension Provision Survey

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average pension paid from occupational pension schemes was in each year since 1997, expressed in real terms. [150057]

Mr. Mike O'Brien: The information requested is not available. The closest information available is the average occupational pension received by pensioner benefit units, as recorded in the Department's Family Resources Survey and shown in the following table. Latest information relates to 2005-06, so average amounts are shown in 2005-06 prices.

Average amount of occupational pension income for those in receipt, before tax

£ per week, 2005-06 prices

	Pensioner couples	Single pensioners	All pensioner units
1997-98	154	80	118
1998-99	161	83	122
1999-2000	163	86	124
2000-01	178	89	134
2001-02	182	88	137
2002-03	178	93	137
2003-04	193	93	144
2004-05	196	99	150
2005-06	192	99	146

Notes:
1. Occupational pensions include widow's employee pensions and occupational pension from an overseas Government or company if paid in sterling. The average amount received by a pensioner benefit unit may include pensions paid from more than one occupational pension scheme.
2. Figures are for Great Britain.
3. Figures have been rounded to the nearest £.
4. Based on survey data and as such subject to a degree of sampling and non sampling error. Users should not read too much into movements in data between single years.
5. Pensioner units are either pensioner couples or single pensioners.
6. Pensioner couples are couples where one or more of the adults are state pension age or over.

Pensioners' Income Series, 2005-06 (Revised)

Pathways to Work

Mr. Clappison: To ask the Secretary of State for Work and Pensions what plans he has to enable voluntary and private sector providers to deliver Pathways to Work services at a sub-regional level. [150857]

Caroline Flint: Pathways to Work is currently being delivered to 40 per cent. of the country by Jobcentre Plus. We have invited private, voluntary and public sector providers to bid for contracts to deliver Pathways to Work in the remaining 60 per cent. of the country. Contract areas will be based on Jobcentre Plus Districts rather than regions. This is being tendered in two waves with the first 15 districts going live in December 2007 and the remaining 16 districts in April 2008.

Pensions: Financial Assistance Scheme

Mr. Touhig: To ask the Secretary of State for Work and Pensions (1) what the average payment will be under the Financial Assistance Scheme for a member of the Abingdon Carpets pension scheme; [147298]

(2) how many members of the Abingdon Carpets pension scheme are forecast to receive 80 per cent. of their core pension under the Financial Assistance Scheme. [147300]

Mr. Mike O'Brien: Abingdon Carpets' pension scheme qualified for Financial Assistance Scheme (FAS) on 25 October 2005. Five members of the scheme are currently in receipt of FAS initial payments, these are currently set at 60 per cent. of the expected core pension, but will rise to 80 per cent. once the scheme fully winds up.

The average yearly payment these members receive is 1194.58p (gross), 931.90p (net).

Under the changes to the FAS announced by the Chancellor of the Exchequer in his Budget Statement on 21 March 2007, all qualifying members of a qualifying pension scheme stand to receive 80 per cent. of their expected core pension (subject to the cap)

The changes require regulations which we hope will come into force before the end of the year.

State Retirement Pensions: Wansdyke

Dan Norris: To ask the Secretary of State for Work and Pensions how many recipients of the state retirement pension there are in Wansdyke constituency. [149901]

Mr. Mike O'Brien: The information as at November 2006 is in the following table.

	Number
Men	7,350
Women	12,050
Total	19,410

Notes:
1. Figures are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. The constituency used for the state pension data is that used for the Westminster Parliament.

Source:
DWP Information Directorate, Work and Pensions Longitudinal Study.

Taxation: Fringe Benefits

Tim Loughton: To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Treasury on the taxation of employee assistance programmes as a benefit in kind. [151076]

Mrs. McGuire: There are regular meetings with Treasury officials on a wide range of matters affecting the Department.

COMMUNITIES AND LOCAL GOVERNMENT

Aerials: Planning Permission

Sandra Gidley: To ask the Secretary of State for Communities and Local Government how many new mobile telephone masts were erected in *(a)* Hampshire and *(b)* England in each year since 1997. [151048]

Mr. Iain Wright: The information requested is not held centrally and could be provided only at disproportionate cost.

Anti-Semitism

Mr. Amess: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the level of anti-Semitism in the UK; and if she will make a statement. [151002]

Mr. Dhanda: The Department for Communities and Local Government does not carry out assessments on the level of anti-Semitism in the UK. However, hate crime of this nature is a matter the police take seriously. There is good cooperation between the Community Security Trust and police forces in areas with a significant Jewish community.

Council Housing: Newcastle Upon Tyne

Mr. Henderson: To ask the Secretary of State for Communities and Local Government how many council houses are planned to be built *(a)* in the city of Newcastle upon Tyne and *(b)* in Newcastle upon Tyne North constituency in each of the next five years. [149852]

Mr. Iain Wright: Plans for new housing will be developed in the context of sub-regional housing strategies. The Housing Green Paper will set out ways to increase the supply of affordable housing, with a bigger role for local authorities.

Council Housing: Standards

Paul Holmes: To ask the Secretary of State for Communities and Local Government how many and what proportion of council houses were classified as non-decent *(a)* in 2004 and *(b)* at the latest date for which figures are available; and how many and what proportion of the total stock of council houses are awaiting repair. [150086]

Mr. Iain Wright: In 2004 the English Housing Condition Survey estimated there were 800,000 non-decent council homes representing 35 per cent. of the total council stock. Latest figures from the survey for 2005 estimate a reduction to 730,000 non-decent homes, 34 per cent. of total stock.

The survey also indicates that, among those non-decent homes, 185,000 failed its repair criterion, representing 8 per cent. of total council stock in 2004. For 2005 the figures are 150,000 failing the repair criterion, representing 7 per cent. of total council stock.

In order to be decent, homes must be in a reasonable state of repair. Details of the repair criterion and the decent homes standard are published on the Communities and Local Government website at http://www.communities.gov.uk/index.asp?id=1152190.

Council Tax

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the reasons for the council tax collection rates of *(a)* Manchester, *(b)* Salford and *(c)* Hackney councils in 2006-07. [152408]

John Healey: The collection and enforcement of council tax is a matter for individual billing authorities. Communities and Local Government has made no assessment of the reasons for 2006-07 collection rates in Manchester, Salford or Hackney. Across England, in-year collection of council tax rose for the seventh successive year in 2006-07, to 96.9 per cent. of the total collectable.

Council Tax: Bankruptcy

Dr. Cable: To ask the Secretary of State for Communities and Local Government which local authorities pursue council tax arrears using petitions for bankruptcy; and if she will make a statement. [150885]

John Healey: The information requested is not held centrally.

Dr. Cable: To ask the Secretary of State for Communities and Local Government if she will issue guidance to local authorities on the pursuance of council tax arrears using petitions for bankruptcy; and if she will make a statement. [150893]

John Healey: The Council Tax (Administration and Enforcement) Regulations 1992 (SI 1992/613) provide billing authorities with a range of powers to enforce payment of council tax from those who refuse to pay. It is up to each billing authority to consider how best to use these powers in the interests of all their taxpayers who do pay their bills. The Department has no plans to issue guidance on using petitions for bankruptcy.

Departments: Berkeley Group

Mr. Moss: To ask the Secretary of State for Communities and Local Government whether the right hon. Member for Hull East met *(a)* directors, representatives or lawyers acting for and *(b)* employees of (i) Berkeley Group Holdings plc, (ii) St. George plc, (iii) Berkeley Homes plc, (iv) St. James Group Ltd, (v) Berkeley First Ltd, (vi) Berkeley Commercial Development Ltd and (vii) Berkeley Strategic Land Ltd in a ministerial capacity since June 1997; and whether any officials in her Department held such meetings. [147931]

Mr. Iain Wright: A precise answer to this question could be provided only at disproportionate cost, given the span of 10 years.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Communities and Local Government how many ministerial red boxes her Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150438]

Mr. Iain Wright: The information for Communities and Local Government and its predecessor Department the Office of the Deputy Prime Minister is as follows:

	Number of ministerial red boxes	*Total cost (£)*
2003	5	4,888
2004	0	—
2005	0	—
2006	3	2,532
2007	0	—

The supplier was Banner Business Supplies Ltd through a call-off contract arrangement.

Ministerial boxes are used by successive Ministers over many years.

Departments: Public Transport

David Simpson: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of its staff using public transport to commute. [147322]

Mr. Iain Wright: Based on our most recent sample survey of staff we estimate that 93 per cent. of staff working at London headquarters use public transport for the main part of their journey to work. The Department makes provision for those who wish to cycle to work but limited car parking is only provided for those with medically certified requirements. Loans are available for either season ticket or cycle purchase to encourage the use of these modes of transport.

Derelict Land: Greater London

Mr. Evennett: To ask the Secretary of State for Communities and Local Government how many planning applications for housing developments in London on brownfield sites were rejected by the Planning Inspectorate in each of the last five years. [150250]

Mr. Iain Wright: The Planning Inspectorate does not record information centrally relating specifically to planning applications on brownfield sites being rejected. It cannot be retrieved without disproportionate cost.

First Time Buyers

Sandra Gidley: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average age of *(a)* males and *(b)* females, when they move out of the parental home; and what the average age of first time buyers in (i) Hampshire and (ii) England was in each year since 1997. [151039]

Mr. Iain Wright: Data at the Hampshire level are unavailable due to sample sizes. The information for first time buyers is provided for the UK rather than England.

Based on the Survey of English Housing for 2005-06, the average age of males when leaving the parental home in England was estimated at 25 years. The average age for females in England was estimated at 22 years.

The Council of Mortgage Lenders (CML) figures for median age of first time buyers are available on their website at:

http://www.cml.org.uk/cml/filegrab/1ML2.xls?ref=4624

This is based on data from all mortgage completions in the UK and the data are presented in the following table:

Median age of first time buyer: UK

	Age
1997	29
1998	29
1999	30
2000	30
2001	30
2002	31
2003	31
2004	31
2005	30
2006	29

Source:
CML.

Floods: Finance

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 16 July 2007, *Official Report*, column 77W, on Floods: Milton Keynes, (1) why Milton Keynes Unitary Authority did not receive a payment from the Flood Recovery Grant Scheme; [151821]

(2) what criteria were used in assessing which local authorities received payments from the Flood Recovery Grant Scheme; [151822]

John Healey: As announced by the Prime Minister on 7 July, the £10 million Flood Recovery Grant Scheme was established to support the work being undertaken by local authorities in helping their communities to recover from the exceptional and widespread flooding which had occurred.

Our particular intention was that authorities should use it to help those in greatest and most immediate need, and on that basis we developed a methodology which balanced fairness with moving rapidly to announcing allocations. Informed by a brief and useful consultation with local government, I allocated grant on the basis of the relative numbers of households affected by flooding in lower-tier local authority areas. This was explained in the letters sent by officials notifying chief executives that grant had been allocated to their authorities. The allocations confirmed on both 13 and 20 July were based on the best available such information held at the time of decision.

Floods: Rescue Services

Mr. Syms: To ask the Secretary of State for Communities and Local Government whether she plans to review the Fire and Rescue Service's capability to respond to incidents of flooding. [151589]

Mr. Dhanda: Communities and Local Government is conducting a lessons learned exercise into the Fire and Rescue Service's response to the recent flooding, as a contribution to the wider Cabinet Office-led review of the wider flood management and response. Any identified issues relating to flood response capability will be addressed appropriately. A flooding workstream, led by the Department for the Environment, Food and Rural Affairs, as part of the cross-government Capabilities Programme, assesses whether local responders have what they need to address the flooding risks we face. This complements capability assessments made by responders at the local level.

Hazardous Substances: Castle Point

Bob Spink: To ask the Secretary of State for Communities and Local Government how many *(a)* objections and *(b)* letters of support were received within the specified time limit in respect of the Calor Gas LNG applications *(a)* CPT/3/06/HAZ, *(b)* CPT/4/06/FUL and *(c)* CPT413/06/FUL. [150807]

Mr. Iain Wright: Officials will collate this information as soon as possible. I will write to the hon. Member and place a copy of my letter in the Library of the House.

Hazardous Substances: Planning Permission

Bob Spink: To ask the Secretary of State for Communities and Local Government (1) what advice her Department gives on the siting of control of major accident hazards sites to planning authorities and inspectors; [149733]

(2) how many control of major accident hazards site applications were *(a)* made and *(b)* appealed against in each of the last 10 years; [149734]

(3) what estimate she has made of the safe distance for separation for control of major accident hazards sites from *(a)* residential houses, *(b)* schools and *(c)* businesses; and if she will make a statement. [149735]

Mr. Iain Wright *[holding answer 16 May 2007]:* Decisions on proposals for development are taken by a local planning authority, or a Planning Inspector, in accordance with its development plan. Decisions are based upon the plans and policies contained within the regional spatial strategy prepared by the regional planning body and local development documents prepared by the local planning authority.

The Town and Country Planning (Regional Planning) (England) Regulations 2004 (SI No. 2203) and the Town and Country Planning (Local Development) (England) Regulations 2004 (SI No. 2204) specify the form and content of regional spatial strategies and development plan documents. In preparing their plans, planning bodies are required to have regard to the objectives of preventing major accidents and of limiting the consequences of such accidents; and to the need, in the long term, to maintain appropriate distances between major accident hazards sites and residential areas and other locations frequented by the public.

Guidance issued in Planning Policy Statement 12 on Local Development Frameworks makes clear that, in preparing or reviewing local development documents, local planning authorities need to ensure that they include a policy or policies on the location of establishments where hazardous substances are used or stored, and on the development of land within the vicinity of such establishments. Article 10 of the Town and Country Planning (General Development Procedure Order) 1995 requires a local planning authority to consult the Health and Safety Executive and the Environment Agency before determining planning applications for new major accident hazard sites, or for modifications to existing sites. They must also consult with these bodies when residential and other specified types of development is proposed within an area that the Health and Safety Executive has notified to the local planning authority because of the presence of hazardous substances within the vicinity.

Applications for development of sites that fall within the scope of control of major accident hazards regulations are made to local planning authorities. Records of such applications are not held centrally and the information requested could be provided only at disproportionate cost.

With regard to appropriate separation distances, I refer the hon. Member to the answer given on 23 July 2007, *Official Report*, UIN 150808.

Homelessness

Ms Keeble: To ask the Secretary of State for Communities and Local Government how many people were sleeping rough *(a)* three months ago, *(b)* six months ago, *(c)* 12 months ago and *(d)* at the most recent date for which figures are available. [150894]

Mr. Iain Wright: Communities and Local Government publishes an annual national rough sleeping estimate. The most recent estimate, published in September 2006, showed 502 people were sleeping rough in England on any single night.

Homelessness: Finance

Greg Mulholland: To ask the Secretary of State for Communities and Local Government what funding *(a)* Leeds city council and *(b)* voluntary sector organisations in Leeds have received from the Homelessness Directorate under the Hostels Improvement Programme. [151447]

Mr. Iain Wright: Leeds city council has received £430,000 funding under the Hostels Capital Improvement Programme (HCIP) for Faith Lodge hostel run by St. George's Crypt . The HCIP will provide over £90 million in the period 2004-05 to 2007-08, to around 175 projects in 62 local authority areas in England to make hostels and other facilities for homeless people places of change. 14 projects have been allocated HCIP funding totalling over £8 million in Yorkshire and Humberside region.

Homelessness: Government Assistance

Sandra Gidley: To ask the Secretary of State for Communities and Local Government how much the Government spent on organisations to help the homeless in *(a)* Southampton, *(b)* Hampshire and *(c)* England in each year since 1997. [151046]

Mr. Iain Wright: There are two grant programmes that specifically support organisations to help the homeless. The Supporting People programme, implemented in 2003 and the Homelessness Grant programme.

The following tables indicate the amount of funding.

Supporting People Programme

			£
Total	*Southampton*	*Hampshire*	*England*
2003-04	4,279,742	3,503,139	353,318,583

Total	—	—	90,000,000

Housing: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Communities and Local Government how many homes there were in Bournemouth in *(a)* 2001, *(b)* 2003 and *(c)* 2007. [149233]

Mr. Iain Wright *[holding answer 12 July 2007]:* The dwelling stock in Bournemouth local authority area in 2001, 2003 and 2006 was 76,485; 76,798 and 86,138 respectively. Figures are as reported by the local authority and represent the stock as at 31 March in each year. The Department does not yet have the equivalent figures for 2007.

Source:

Housing Strategy Statistical Appendix from local authorities

Housing: Combined Heat And Power

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what discussions she has had with the Secretary of State for Business, Enterprise and Regulatory Reform on the opportunities for the installation of community and large-scale combined heat and power and their associated heat grids in the new housing development and eco-towns announced by the Prime Minister to the House on 11 July. [150398]

Yvette Cooper: I am today launching the Eco-towns Prospectus, which sets out the Government's vision for new towns of five to 20,000 homes which will be exemplar "green" developments, with the aim of achieving zero carbon across the whole development. Community and large scale combined heat and power could play an important role in meeting this objective and we are looking to each project to act as an exemplar for particular aspects of low and zero carbon technology. Alongside this and other sustainability objectives, we intend that eco-towns should play a key role in easing the affordability crisis by ensuring that between 30 and 50 per cent. of their new housing is affordable as well as meeting our other essential criteria on high quality design, good provision for jobs, sustainable travel, services and community development. The launch of the prospectus today will be accompanied by an invitation for local authorities and other stakeholders to respond with their views on potential sites.

Housing: Construction

Mr. Meacher: To ask the Secretary of State for Communities and Local Government how many houses were built by *(a)* the private sector, *(b)* housing associations and *(c)* local authorities in each year since 1990. [150883]

Mr. Iain Wright: New build completions by tenure in each year since 1991-92 are tabulated as follows.

New build completions by tenure, England

	Total[1]	Private[2]	Local authority[3]	Registered social landlords[3]
1991-92	155,132	125,058	7,113	22,961
1992-93	142,461	98,880	2,579	41,002
1993-94	147,714	103,538	1,451	42,725
1994-95	157,966	110,947	853	46,166
1995-96	154,599	103,873	757	49,969
1996-97	146,246	112,188	451	33,607
1997-98	149,555	121,022	323	28,210
1998-99	140,708	113,992	178	26,538
1999-2000	142,046	119,667	58	22,321
2000-01	133,255	112,137	179	20,939
2001-02	129,866	108,064	63	21,739
2002-03	137,739	116,202	199	21,338

2004-05	155,893	128,422	100	27,371
2005-06	163,398	130,072	299	33,027
2006-07	167,691	145,554	245	—

Sources:

[1] Total and local authority new build completions from P2 returns submitted local authorities and National House Building Council (NHBC)

[2] Private tenure is derived from the total "P2 completions" minus local authority and Housing Corporation registered social landlord figures. These figures will not match published live tables which are sourced from P2 only.

[3] Figures are total affordable new build as reported by the Housing Corporation and include social for rent and intermediate housing eg low cost home ownership.

New build registered social landlord and council dwellings only make up part of the affordable supply; the remainder being acquired by registered social landlords. In 2005-06, acquisitions by registered social landlords numbered 11,834, taking the total affordable housing provision to 44,861.

Housing: Energy

Mr. Drew: To ask the Secretary of State for Communities and Local Government when she expects the national calculation methodology for delivering the energy performance of buildings to be made available; and when it will be included within the building regulations. [150928]

Mr. Iain Wright: The Notice of Approval of methodologies for calculating the energy performance of buildings (approved for the purposes of regulation 17A of the Building Regulations) was published on 11 May 2007. Methodologies are available or are in the process of being developed for different types of building and application. A complete set of calculation methodologies is expected to be available in the autumn.

Housing: Essex

Bob Spink: To ask the Secretary of State for Communities and Local Government what percentage of *(a)* local authority, *(b)* housing association, *(c)* private sector and *(d)* all housing in (i) Castle Point and (ii) Essex was judged to be unfit in each year since 2002. [150066]

Mr. Iain Wright: The percentage of *(a)* local authority, *(b)* housing association, *(c)* private sector and *(d)* all housing in (i) Castle Point and (ii) Essex, judged to be unfit in each year since 2002 is given in the following table. The data are as reported by local authorities.

Table 1: Percentage of unfit dwellings within each tenure and all housing, as reported by local authorities

	2002		2003		2004		2005		2006	
	Castle Point	Essex	Castle Point	Essex	Castle Point	Essex	Castle Point	Essex	Castle Point	Essex
(a) LA	2.1	3.4	0	0.1	0	0.0	0	0.5	0	0.6

Source:
Communities and Local Government Housing Strategy Statistical Appendix return (HSSA).

Bob Spink: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the average rent levels in Essex for *(a)* council, *(b)* housing association and *(c)* private rented accommodation. [150067]

Mr. Iain Wright: The average weekly rent in Essex as at 31 March 2006 for *(a)* council and *(b)* housing association is £62.29 and £75.01 respectively. Information on average rent in *(c)* private rented accommodation in Essex is not available, although at regional level, the average monthly rent in the East of England is £530 per month.

Average weekly rents by local authority district are published for *(a)* the local authority sector and *(b)* the registered social landlord sector on the Communities and Local Government website in tables 702 and 704 respectively. The links for these tables are given as follows:

Table 702: http://www.communities.gov.uk/pub/266/Table702_id1156266.xls

Table 704: http://www.communities.gov.uk/pub/268/Table704_id1156268.xls

Information on *(c)* average rent paid by private renters in Essex is not available. This information is available by region on the Communities and Local Government website in table 734. The link for this table is given as follows:

http://www.communities.gov.uk/pub/282/Table734_id1156282.xls

Housing: Hampshire

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what land holdings disposals were made by each council district, unitary and county council area in Hampshire between 1997 and 2006 which have been built on for housing; and what percentage of housing was affordable. [149951]

Mr. Iain Wright: The depth of information requested by the hon. Member is not kept centrally by Government Departments. I would suggest that he direct this enquiry to the local planning authorities for the areas in which he is interested.

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what land is planned to be disposed of by each council district, unitary and county council in Hampshire between 2007 and 2011; how many houses are expected to be built; and what percentage is expected to be affordable housing. [149952]

Mr. Iain Wright: The information requested by the hon. Member is not kept centrally by Government Departments. I would suggest that he direct this enquiry to the local planning authorities for the areas in which he is interested. Future figures on affordable housing are determined by local planning authorities who have a range of affordable housing policies in place with a variable threshold and percentage sought for affordable housing.

Housing: Hazardous Substances

Bob Spink: To ask the Secretary of State for Communities and Local Government what research her Department has *(a)* commissioned and *(b)* evaluated on separation distances between sites with potential for major accidents and residential areas in common usage among major international comparators; and if she will make a statement. [150808]

Mr. Iain Wright: The Department has commissioned no research on separation distances between sites with the potential for major accident hazards and residential use.

It is for local planning authorities to determine whether development should be allowed in the vicinity of sites with the potential for major accident hazards.

Local planning authorities are notified by the Health and Safety Executive (HSE) of a consultation distance around such sites and they must take account of the HSE's advice of the level of risk for any development proposed with this area.

HSE reviews consultation distances around these sites in the light of new information about the risks such sites present, including information obtained by evaluation of accidents in other countries.

Housing: Immigration

Mr. Clappison: To ask the Secretary of State for Communities and Local Government what her most recent assessment is of the likely impact of net immigration on housing demand in England over the next 20 years; and what assessments have been made of this impact in each year since 1997. [142053]

Mr. Iain Wright: The 2004 based household projections show that the biggest factor contributing to household growth is an increasing tendency for people to live alone.

Since 1997, Communities and Local Government have released three sets of household projections that included an assessment of the impact of migration on household formation.

2004 based household projections: Released March 2007

These project the formation of 223,000 additional households each year between 2004 and 2026 of which 73,000 (33 per cent.) are attributable to net migration into England.

2003 based household projections: Released March 2006

These projected the formation of 209,000 additional households each year between 2003 and 2026 of which 65,000 (31 per cent.) were attributable to net migration into England.

1996 based household projections: Released October 1999

These projected the formation of 150,000 additional households each year between 2001 and 2021 of which 38,000 (26 per cent.) were attributable to net migration into England.

Housing: Low Incomes

Andrew George: To ask the Secretary of State for Communities and Local Government what proportion of all planning permissions granted *(a)* for part or full residential developments and *(b)* for all homes in each planning authority in the Government zone of the south-west in each of the last 10 years for which records are available were for affordable homes. [148368]

Mr. Iain Wright: I refer the hon. Member to the answer given today, (UIN 148447).

Andrew George: To ask the Secretary of State for Communities and Local Government by what mechanism she monitors local planning authority decisions on affordable housing in Cornwall. [148447]

Mr. Iain Wright *[holding answer 9 July 2007]:* The Secretary of State monitors housing projects where registered social landlords are or will be involved, through local housing authorities returns. This will include most projects which include affordable housing, but not necessarily all, because private sector developers may also plan to build units of affordable housing. She does not monitor planning decisions for affordable housing as such. Local authorities monitor the actual delivery of affordable housing in their annual monitoring reports which are published and submitted to the Secretary of State. In Penwith district 31 affordable houses were built in 2005-06, 10 per cent. of the total new houses built. In Kerrier district, 22 affordable houses were built in 2005-06, 9 per cent. of the new houses built.

Mrs. Maria Miller: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 15 June 2007, *Official Report*, column 1340W, on housing: low incomes, what the *(a)* estimated and *(b)* actual (i) costs and (ii) receipts of the Design for Manufacture competition have been to English Partnerships, broken down by type; and if she will make a statement. [149608]

Mr. Iain Wright *[holding answer 16 July 2007]:* This information is not held centrally and could be provided only at disproportionate cost.

Mrs. Maria Miller: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 15 June 2007, *Official Report*, column 1340W, on housing: low incomes, how many affordable homes are being built across the 10 new mixed communities developments, broken down by *(a)* development site and *(b)* type of tenure; and if she will make a statement. [149609]

Mr. Iain Wright *[holding answer 16 July 2007]:* I refer the hon. Member to the answer given by my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper) on 26 June 2007 to the hon. Member for Brentwood and Ongar (Mr. Pickles) *Official Report*, column 628W. Each of the 10 sites included in the Design for Manufacture competition will include a high proportion of affordable homes of different tenures, such as social rent or homes available for share equity purchase.

Mr. Frank Field: To ask the Secretary of State for Communities and Local Government how many new social housing units were built in the last *(a)* one, *(b)* two and *(c)* five years. [149654]

Mr. Iain Wright *[holding answer 16 July 2007]:* The numbers of homes built for social rent, in England, in the last one, two and five years are tabulated in the following table. Not all social rent housing supply is through new build completions; supply can also come from the acquisition and refurbishment of private sector homes. For completeness the numbers of social rent homes provided through the acquisition and refurbishment of market properties are also shown.

Social rent housing supply: England

1 April to 31 March	*New build*	*Acquisitions*	*Total supply*
2005-06 (one year)	20,912	2,437	23,349
2004-06 (two years)	39,315	5,051	44,366
2001-06 (five years)	93,785	23,944	117,729

Source:
Statistical returns from local authorities. Housing Corporation

Mr. Henderson: To ask the Secretary of State for Communities and Local Government what requirements her Department makes of local authorities wishing to renegotiate section 106 agreements. [149851]

Mr. Iain Wright: Planning obligations (also known as section 106 agreements), may be discharged or modified by agreement between the local planning authority and all the persons against whom they are enforceable, or by application to the local planning authority after five years.

The powers for modifying and discharging planning obligations are contained in sections 106A and 106B of the Town and Country Planning Act 1990.

Requirements placed on local planning authorities for the handling of applications are set out in the Town and Country Planning (Modification and Discharge of Planning Obligations) Regulations 1992 (SI 1992/ 2832).

These regulations require that local planning authorities publicise applications, including making available for inspection the relevant part of the instrument which created the obligation; invite and consider representations from the public; give clear and precise reasons for their decision; and inform applicants of their right of appeal.

Frank Dobson: To ask the Secretary of State for Communities and Local Government whether the sites being considered by the Government for release for development of affordable homes include sites owned by the Department of Culture, Media and Sport. [152020]

Yvette Cooper: The recent review of surplus sites owned by central Government Departments and their agencies identified over 550 new sites, in addition to those which were not already on the register of surplus public sector sites. The review of central Government surplus sites is continuing and English Partnerships is undertaking an immediate evaluation of the potential for additional housing on these sites, including one site owned by the Department for Culture, Media and Sport.

The Ministry of Defence will release seven major sites immediately to English Partnerships with potential for 7,000 new and affordable homes, including sites at Aldershot and Chichester. A review is being undertaken to identify further sites.

A portfolio of Highways Agency and the British Rail Residuary Body surplus sites is being identified and transferred to English Partnerships and brought forward for new and affordable housing.

The Department of Health will transfer 13 new sites into the programme for new and affordable homes. In addition, NHS Trusts are identifying the surplus land they hold with potential for further new housing.

Housing: Sales

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how many and what percentage of houses were sold by the Government in *(a)* Cornwall, *(b)* the south west and *(c)* England in each year since 1997. [147702]

Mr. Iain Wright: Information is available on numbers of local authority dwellings sold through the right to buy scheme. The numbers of right to buy sales and local authority stock figures for each year since 1998-99 are tabulated as follows. Figures for these areas prior to 1998-99 are not readily available.

Sales and stock of local authority social rent housing

	1998-99	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*

Proportion of stock sold during period (percentage)	1.2	1.7	1.7	1.8	2.3	2.8	2.1	1.2

Notes:
1. Figures shown are as reported by local authorities.
2. Cornwall has been defined to include the local authority areas of Caradon, Carrick, Kerrier, North Cornwall, Penwith and Restormel.

Source:
Statistical returns from local authorities (HSSA. P1B)

Housing: Standards

Bob Spink: To ask the Secretary of State for Communities and Local Government if she will take steps to ensure that the Planning Inspectorate make clear to developers and local authorities that low quality in the design of housing schemes is a legitimate basis upon which planning applications may be refused; and if she will make a statement. [149980]

Mr. Iain Wright *[holding answer 16 July 2007]:* Planning policy statement (PPS) 1: Delivering Sustainable Development emphasises the importance of good design in new development and PPS3: Housing seeks to achieve high quality housing. Planning inspectors are aware of the heightened importance of good design in new housing development, of the need for housing schemes to be appropriate to their context and locally distinctive, and to take opportunities for improving an area's character and quality. The Department is aware that inspectors, in applying the policies in these PPSs and related Government documents, are refusing housing appeals on grounds of failure to meet these policies.

Housing: Sutton

Mr. Burstow: To ask the Secretary of State for Communities and Local Government when she received the Sutton Housing Partnership's decent homes funding bid; when she expects to acknowledge its receipt; and when she expects to make a decision about the bid. [146678]

Mr. Iain Wright: Communities and Local Government received the funding bid from Sutton Housing Partnership on 31 July 2006 under Round 6 of the Arms Length Management Organisation (ALMO) decent homes programme, and acknowledged receipt on that date. We have received many bids in Round 6 from local authorities who are seeking to secure additional funding and join those already on the ALMO programme. We are continuing to consider these bids very carefully, paying particular attention to overall costs and value for money, in the context of the current Comprehensive Spending Review.

Housing: Thames Gateway

Bob Spink: To ask the Secretary of State for Communities and Local Government what response she has made to the recommendations made by the Williams Commission in its report, Quality First: The Commission on Design of Affordable Housing in the Thames Gateway; and if she will make a statement. [149979]

Mr. Iain Wright *[holding answer 16 July 2007]:* The Housing Corporation will launch its full prospectus for the next Affordable Housing Programme in September. The Corporation is proposing to include a substantial section on the Thames Gateway covering the approach and response to the Williams report. We will consider these proposals prior to publication of the prospectus.

Industrial Development: Planning Permission

Mr. Pope: To ask the Secretary of State for Communities and Local Government what planning guidelines she plans to issue to local authorities on the effect of the climate change targets for 2010 on planning applications for industrial development. [148023]

Mr. Iain Wright: The Government published a draft planning policy statement (PPS) on climate change for consultation at the end of 2006. This makes clear that planning should be a positive force for change and help secure progress against the UK's emissions targets, both by direct influence on energy use and emissions, and in bringing together and encouraging action by others. The PPS will apply to all development; it expects all planning authorities, in enabling the provision of new homes, jobs, services and infrastructure and shaping the places where people live and work, to secure the highest viable standards of resource and energy efficiency and reduction in carbon emissions. The final PPS will be published later this year.

Local Government Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to assist local authorities in implementing their obligations under the single status agreement. [152390]

John Healey: Local authorities are responsible for meeting their statutory requirements as employers, and for implementing any agreements which they may make.

We are considering requests for equal pay capitalisation in the current financial year.

Local Government: Cumbria

Tim Farron: To ask the Secretary of State for Communities and Local Government if she will ensure that a current Minister in her Department meets representatives from Cumbrian district councils before any decision is made on the bid for unitary status from Cumbria county council. [151443]

John Healey: During our stakeholder consultation there was the opportunity for all local authorities to meet Ministers and to make written representations. The consultation period ended on the 22 June. In the interests of fairness and impartiality, during this stage of the process, it would not be appropriate for me to have meetings with any affected councils to discuss unitary proposals.

Multiple Occupation: Tyne and Wear

Jim Cousins: To ask the Secretary of State for Communities and Local Government how many houses in multiple occupation there were in each local authority in Tyne and Wear in each year since 2001 as recorded in the Housing Strategy Statistical Appendix. [148075]

Mr. Iain Wright: The number of houses in multiple occupation in each local authority within the metropolitan county of Tyne and Wear in each year since 2001, as recorded in the Housing Strategy Statistical Appendix, is given in the following table:

Number of houses in multiple occupation (whether registered or not) as at 1 April by region, as reported by local authorities

	2001	*2002*	*2003*	*2004*	*2005*	*2006*
Gateshead	30	30	100	100	86	51
Newcastle upon Tyne	1,000	—	3,262	1,000	4,000	—
North Tyneside	150	141	141	141	149	152
South Tyneside	130	52	38	36	31	
Sunderland	1,546	1,000	800	640	742	1,419
Tyne and Wear (metropolitan county)	2,856	1,223	4,341	1,917	5,008	1,622

Source:
Communities and Local Government Housing Strategy Statistical Appendix return (HSSA)

Planning Reform Bill

Mrs. Lait: To ask the Secretary of State for Communities and Local Government when she expects to be in a position to publish the Planning Reform Bill. [152377]

John Healey: The Planning Reform Bill is among the proposed Bills for the third session set out in the draft legislative programme in "The Governance of Britain—The Government's Draft Legislative Programme" (CM 7175). It will not be published before the Queen's Speech.

Regional Government

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what administrative support her Department is providing to the new Ministers for the Regions. [152376]

John Healey: On the 28 June 2007 the Prime Minister appointed my hon. Friend the Member for Exeter (Mr. Bradshaw) to be Minister for the South West. The role of Regional Ministers is set out in paragraphs 115 to 118 in 'The Governance of Britain'.

Regional Government: South West Region

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government if she will list the duties and responsibilities of the Minister for the south-west region; what the budget is for that position; how many staff are employed in relation to those duties; and if she will make a statement. [151715]

John Healey: On the 28 June 2007 the Prime Minister appointed my hon. Friend the Member for Exeter (Mr. Bradshaw) to be Minister for the south-west. The role of Regional Ministers is set out in paragraphs 115 to 118 in 'The Governance of Britain'.

Right To Buy Scheme

Mr. Paul Murphy: To ask the Secretary of State for Communities and Local Government whether she plans to restrict tenants' right to buy council and housing association properties in England. [150222]

Mr. Iain Wright: There are no plans for any restrictions on the right of social tenants to buy the homes that they rent from local authority or housing association landlords in England.

Rights of Way

Mr. Hancock: To ask the Secretary of State for Communities and Local Government whether the independent Planning Commission proposed in the White Paper Planning for a Sustainable Future will have the power to close and divert public rights of way; and if she will make a statement. [149510]

Mr. Iain Wright: As explained in chapter 5 of "Planning for a Sustainable Future" (cm 7120), we propose that within the new single unified consent regime the infrastructure planning commission would have the power to close and divert public rights of way where they are considered necessary for the development of a nationally significant infrastructure project. Consistent with existing legislation, the power would only be exercised where the commission is satisfied that alternative rights of way are being provided or the current rights of way are not needed.

Second Homes

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how many second homes there were in *(a)* Cornwall, *(b)* the south west and *(c)* England in each year since 1997; and what percentage of all homes this represented. [147700]

Mr. Iain Wright: The number of second homes in *(a)* Cornwall, *(b)* the south west and *(c)* England in each year since 1997; and what percentage of all homes this represented is shown in the following table:

Period	*Cornwall*		*South West*		*England*	
	Number	*Percentage of all homes*	*Number*	*Percentage of all homes*	*Number*	*Percentage of all homes*
1997-98[1]	n/a	n/a	n/a	n/a	203,000	1.0
1998-99[1]	n/a	n/a	n/a	n/a	224,000	1.1
1999-2000[1]	n/a	n/a	41,000	1.9	234,000	1.1
2000-01[1]	n/a	n/a	41,000	2.0	241,000	1.2
2001-02[1]	n/a	n/a	39,000	1.9	226,000	1.1
2002-03[1]	n/a	n/a	49,000	2.3	235,000	1.1
2003-04[1]	n/a	n/a	60,000	2.8	253,000	1.2

Period	Cornwall		South West		England	
	Number	Percentage of all homes	Number	Percentage of all homes	Number	Percentage of all homes
2004[2]	13,509	5.7	50,397	2.2	228,896	1.0
2005[2]	13,221	5.6	50,250	2.2	236,331	1.1
2006[2]	13,040	5.4	51,459	2.2	240,047	1.1

Sources:
[1] Survey of English Housing (three-year moving averages).
[2] Council Tax Base returns
Note:
n/a = not available.

For 1997-98 to 2003-04, the data shown are estimates from the Survey of English Housing. Estimates for Cornwall are not available because it is only a sample survey and reliable estimates can only be derived down to regional level.

For 2004 to 2006, the data are based on Council Tax Base returns that are completed by local authorities. These figures are only available from 2004 onwards.

Social Policy: Australia

Mark Pritchard: To ask the Secretary of State for Communities and Local Government if she will hold discussions with her Australian counterpart on lessons which can be drawn from public policy on matters of social cohesion in Australia. [150732]

Mr. Dhanda: Officials in the Department have regular dialogue with counterparts in Australia working on social cohesion, and regularly engage with delegations from Australia and other countries to consider international comparisons.

Travelling People

Mr. Boswell: To ask the Secretary of State for Communities and Local Government what provision is planned for traveller sites within the proposed eco-towns. [151417]

Mr. Iain Wright: Eco-towns, as announced in the Government statement of 7 March 2007, will be sustainable communities supporting a mix of housing types and tenure. Subject to the outcome of the Comprehensive Spending Review, decisions about the detailed criteria and housing mix for eco-towns will be taken following further assessment work, and we hope to announce these later this year.

Travelling People: Regional Government

Mr. Clappison: To ask the Secretary of State for Communities and Local Government what assessment she has made of the potential impact of the Government's announcement of the abolition of regional assemblies on the Government's plans to create additional Gypsy and Traveller sites; what plans she has for the consultation process on Gypsy and Traveller sites being undertaken by the East of England Regional Assembly due to end on 31 July; and if she will make a statement on the future of the Government's plans to create additional Gypsy and Traveller sites in Hertfordshire. [151697]

Mr. Iain Wright: The announcement on the outcome of the Sub-National Review made it clear that we will consult on the move to single regional strategies. In the meantime, we expect the current round of revisions to Regional Spatial Strategies, including those on provision for Gypsies and Travellers, to be completed at the earliest opportunity.

As the hon. Member notes, the consultation in the East of England is being run by the East of England Regional Assembly, and its results will inform the review of the Regional Spatial Strategy. With regards to Hertfordshire, plans for future sites should reflect the needs identified by Gypsy and Traveller Accommodation Needs Assessments and by the proposed revision to the Regional Spatial Strategy, which is itself informed by the results of those assessments.

Tree Preservation Orders

Mr. Andrew Turner: To ask the Secretary of State for Communities and Local Government whether a tree preservation order may be placed on a tree or series of trees, subsequent to a planning application being granted; and whether such an order overrides the application. [148411]

Mr. Iain Wright: Section 197 of the Town and Country Planning Act 1990 places a duty on planning authorities to make adequate provision for the protection and planting of trees when granting planning permission. The planning authority should therefore take the presence of trees into account when determining planning applications.

Tree preservation orders cannot be used to prevent development for which full planning permission has already been granted. They may be used, however, to protect trees which do not have to be removed in order to implement the approved development, or where only outline permission has been granted.

Valuation Office: Databases

Alistair Burt: To ask the Secretary of State for Communities and Local Government for what reasons the Valuation Office Agency requested access to the Home Condition Report register in its submissions to the Office of the Deputy Prime Minister and the Department for Communities and Local Government. [150667]

John Healey: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) by my right hon. Friend the Member for Bristol, South (Dawn Primarolo) on 26 March 2006, *Official Report*, column 724W.

INNOVATION, UNIVERSITIES AND SKILLS

Degrees

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* full-time and *(b)* part-time students who (i) applied and (ii) were accepted for (A) honours degrees, (B) foundation degrees and (C) HNDs were aged (1) 18, (2) 19, (3) 20, (4) 21 to 24, (5) 25 to 30 and (6) over 30 years of age in each year since 1997, broken down by socioeconomic group. [148117]

Bill Rammell: The available information is shown in the tables. The figures are taken from data collected by the Universities and Colleges Admissions Service (UCAS) which are limited to students who apply to full-time undergraduate courses via the UCAS application system. The figures do not therefore cover part-time students, nor those full-time students who apply directly to Higher Education Institutions.

UCAS do not allocate applicants to specific course types because students can submit up to six applications to one or more of First Degree, Foundation Degree, HMD or other courses. For acceptances, the figures for Degrees include both First Degrees and Foundation Degrees.

From 2002 entry, the information is only available by four broad age bands. A new classification of social background, the National Statistics Socio-economic Classification (NS-SEC), was introduced in 2002, which replaced the classification based on Social Class. The two classifications are not directly comparable.

NORTHERN IRELAND

Historical Inquiries

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland if he will list the historical inquiries which *(a)* are being undertaken and *(b)* are about to be commenced in Northern Ireland; and if he will make a statement. [151718]

Paul Goggins: The Historic Enquiry Team (HET) is tasked with re-examining all 3,268 murders related to the security situation during the period from 1968 until the signing of the Belfast Agreement. The HET generally examines cases in chronological order and is currently working on cases from 1972.

The Bloody Sunday Inquiry was set up following a resolution of the House on 29 January 1998 to inquire into the events on 30 January 1972 which led to loss of life in connection with a procession in Londonderry.

The Robert Hamill Inquiry, the Rosemary Nelson Inquiry and the Billy Wright Inquiry were established to inquire into the deaths of these individuals. The inquiries' terms of reference were announced by my right hon. Friend the Member for Torfaen (Mr. Murphy) in a written statement on 16 November 2004, *Official Report*, columns 83-84WS. My right hon. Friend the Member for Torfaen announced on 23 September 2004 that steps would be taken to enable the establishment of an inquiry into the murder of Patrick Finucane, which would be held on the basis of new legislation.

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how much has been spent by *(a)* the police and *(b)* other agencies on historical inquiries in Northern Ireland; and if he will make a statement. [151719]

Paul Goggins: The Historic Enquires Team project has been allocated £34 million over six years, this is a significant sum. Estimated expenditure to 31 March 2007 is £9.9 million. This project involves the PSNI, Police Ombudsman, Forensic Science Agency and PPS. Government are committed to ensuring that this work is adequately resourced.

The expenditure by the Bloody Sunday Inquiry, the Robert Hamill Inquiry, the Rosemary Nelson Inquiry and the Billy Wright Inquiry is set out in the following table:

	Rounded expenditure to end April 2007 (£ million)
Bloody Sunday Inquiry	[1]178.264
Robert Hamill Inquiry	10.41
Billy Wright Inquiry	7.21
Rosemary Nelson Inquiry	15.17

[1] Of this total cost (rounded) £143.1 million falls to the NIO, the remaining £35.2 million falls to the MOD

The estimated cost to PSNI of providing information to historic inquires other than investigations being carried out by HET is £7.17 million. This includes £1.9 million to investigate 'cold' non-terrorist murder cases, as well as £1-1.5 million for legal cost in respect of all historic inquires work.

Missing Persons

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what steps are being taken by the Police Service of Northern Ireland to locate the remains of those considered disappeared; and if he will make a statement. [150930]

Mr. Woodward: The Police Service of Northern Ireland seconded one officer to a small project team set up by the Independent Commission for the Location of

Victims Remains (ICLVR) for a period of six months. The Garda Siochana also seconded a member of their force to the ICLVR on a part-time basis.

The PSNI continue to offer every assistance to the ICLVR it can provide. However, of the nine remaining sets of remains to be found, all are suspected to be in the Republic of Ireland with the exception of one which the ICLVR believe to be in France. This limits the steps which can be taken by the PSNI to assist in locating remains.

Missing Persons: Religion

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland are classed as disappeared; what percentage are *(a)* Catholic and *(b)* Protestant; and if he will make a statement. [150929]

Mr. Woodward: 'The disappeared' is the term used in respect of those individuals widely believed to have been murdered by paramilitaries during 'the troubles' in Northern Ireland, and whose bodies were secretly buried. Only those who disappeared prior to the signing of the Good Friday agreement (10 April 1998) fall within the remit of the Independent Commission for the Location of Victims' Remains.

14 people fell into this category. To date, five bodies have been recovered, but the burial sites of the remaining nine are unknown. PIRA admitted responsibility for 10 of the 14, while one was admitted by the INLA. No attribution has been given to the remaining three, but it is largely the view of the families that they were victims of PIRA.

100 per cent. of those referred to as 'the disappeared' were from the Catholic community.

Police: Inquiries

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what percentage of the Police Service of Northern Ireland's budget has been spent on historical inquiries in the last two years; and if he will make a statement. [150933]

Paul Goggins: The Historic Enquires Team (HET) project is a NIO funded project which the PSNI Historic Enquires Team are undertaking. The total funding for this project is £34 million over six years. This funding is divided between all the participants; PSNI Historic Enquiries Team, Office of the Police Ombudsman for Northern Ireland, Forensic Science Northern Ireland, and Public Prosecution Service. The overall budget for PSNI HET work is £24.2 million over six years.

The actual spend for PSNI HET work for 2005-06 was £3.95 million and for 2006-07 £4.18 million.

Rape

Mark Durkan: To ask the Secretary of State for Northern Ireland how many rapes have been committed by individuals under the age of 17 years in Northern Ireland in the last 10 years. [148058]

Paul Goggins: It is not possible to determine the number of rapes committed by individuals under the age of 17 in each of the last 10 years. However, information is available as to:

(a) the number of offences recorded by PSNI and cleared by issuing at least one person a charge or summons; and

(b) the number of prosecutions and convictions in the criminal courts in Northern Ireland.

Age-related data on rapes recorded and cleared by issuing a charge or summons are only available from 1 April 2001 until 31 March 2007. During this period, 34 rape offences were recorded and also cleared by a charge or summons in which the accused person was under the age of 17[1].

Between 1996 and 2005, the latest years for which data are available for prosecutions and convictions, there were seven prosecutions[2] and no convictions for rape where the defendants were under the age of 17[3].

[1]PSNI follow Home Office counting rules which means that only one accused person is required to clear a crime, even in cases where there are multiple offenders. In this respect the figure noted may not include all persons under 17, if they were not the first person noted as clearing the crime.

[2]Data for prosecutions and convictions are collated on the principal offence rule; thus only the most serious offence with which an offender is charged is included.

[3]It is not possible routinely to compare data relating to the number charged or summoned for rape offences from recorded crime figures and data relating to the number of prosecutions and convictions, as these figures are collected on a different basis. PSNI recorded crime figures relate to the number of notifiable crimes reported and/or subsequently cleared; whereas figures for prosecutions and convictions refer to the number of offenders who have been subsequently brought before the criminal courts in Northern Ireland. In addition, PSNI recorded crime figures denote each offence as it has been initially recorded and this may differ from the offence for which a suspect or suspects are subsequently proceeded against in the courts.

Sexual Offences

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 5 July 2007, *Official Report*, column 1175W, on sexual offences, how many and what percentage of allegations of rape made to the police in each of the last three years were later withdrawn by the individual; how many and what percentage of cases referred to the Public Prosecution Service subsequently failed to result in a prosecution for lack of evidence; and how many and what percentage of cases brought to prosecution resulted in conviction. [149029]

Paul Goggins: Figures relating to the percentage of rape allegations which are withdrawn by the individual are not recorded in the format requested.

The Public Prosecution Service have advised that the number of persons reported for an offence of rape who were not prosecuted because the available evidence was not sufficient to pass the test for prosecution is as follows:

2004: 29 (35 per cent.) out of 83 persons;

2005: 90 (66 per cent.) out of 136 persons;

2006: 136 (79 per cent.) out of 172 persons.

The number of persons directed for prosecution for rape or some other related offence and whose trial concluded with a conviction for at least one offence (whether of rape or of some other related offence) is as follows:

2004: 27 (61 per cent.) out of 44 persons;

2005: 17 (63 per cent.) out of 27 persons;

2006: five (50 per cent.) out of 10 persons.

These figures represent only those cases which have been concluded at court. A number of cases are still awaiting trial, or are currently passing through the courts. These cases are not included in the totals above. For example, in 2006, 36 cases were directed for prosecution, of which five have so far resulted in conviction, five have not, and the remaining 26 either await trial or are in the process of being tried.

The Government are committed to improving the rates of successful prosecution in rape cases. PSNI's CARE units deal with the investigation of serious adult sexual offences and sexual and physical abuse of children and are staffed by highly skilled and trained personnel. The PSNI CARE teams are dedicated to enhancing the service to victims of rape and sexual assault and are seeking to enhance the investigative process so that more offenders are brought before the courts.

We have made significant progress towards establishing a sexual assault referral centre in Northern Ireland and are working in partnership with colleagues in DHSSPS, PSNI, the medical profession and the voluntary sector to develop an appropriate range of services. In addition, PSNI and the Public Prosecution Service have recently begun to analyse a number of rape investigations, in order that they continue to develop models of best investigative practice. In particular, attention will focus upon case building and the significant number of cases that currently do not make the threshold for prosecution.

JUSTICE

Asylum and Immigration Tribunal

Mr. Lidington: To ask the Secretary of State for Justice when the Asylum and Immigration Tribunal notified *(a)* the Home Office and *(b)* HM High Commission, Harare of its decision in the case of Ms L.K., wife of Mr. P.H. of Aylesbury (reference AIT OA/44119/2006). [152001]

Bridget Prentice: Information shows that the Immigration Judge determination for appeal reference OA/44119/2006 was served upon the Border and Immigration Agency (BIA) on 3 July 2007.

In Entry Clearance and Family Visitor appeals the determination is served upon the BIA (formerly the Immigration and Nationality Directorate) who will arrange for the forwarding of the determination to the entry clearance post that made the original refusal.

Aylesbury Prison: Prisoners Release

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners have been released from HMP Aylesbury under the end of custody licence scheme since 27 June 2007; how many of those released have since been returned to *(a)* HMP Aylesbury and *(b)* other prisons; and to which other prisons such prisoners have been returned. [150710]

Mr. Hanson: One prisoner from HMP Aylesbury was released under end of custody licence between 29 June and 5 July. 12 prisoners overall were returned to prison during this period out of a total released of 1,701. Information on the numbers of prisoners returned to each prison by individual establishment is not available.

These figures are based on statistics published on 16 July and updates will be published monthly.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Bailiffs

Mr. Bellingham: To ask the Secretary of State for Justice what steps his Department plans to take to ensure that local authorities, magistrates courts and bailiffs *(a)* are aware of and *(b)* comply with the 2002 National Standards for Enforcement Agents, with particular reference to page 9, covering vulnerable situations. [150925]

Maria Eagle: The leaflet "Effective Enforcement—National Standards for Enforcement Agents" was produced with the assistance of and endorsed by industry and Government, including local authorities. The guidance is not legally binding; rather it sets out what the Department, those in the industry and some major users including creditor groups regard as a benchmark for professional standards within enforcement.

Much of the content within the national standards leaflet will now be reflected in the underpinning regulations arising from provisions in the Tribunals, Courts and Enforcement Bill, which finished its parliamentary passage on 17 July. This will include training requirements for bailiffs for an enhanced and extended certification regime. Agents will be required to have a working knowledge of all the relevant areas of enforcement law and of the national standards in particular how to deal with vulnerable and potentially vulnerable debtors and others present at the premises. This will provide considerable protection for genuinely impoverished and vulnerable debtors.

As part of the development of the underpinning rules and regulations and implementation of the provisions in the Bill HMCS will now be re-engaging with all interested parties. We will use this opportunity to remind the industry including local authorities, magistrates courts and bailiffs themselves of the contents and purpose of the national standards. The outcome of this consultation process will inform the implementation timetable.

Care Proceedings

Tim Loughton: To ask the Secretary of State for Justice (1) what the average number of court hearings per child care case was in each of the last five years; [150644]

(2) how many child care cases have come to court *(a)* within a month, *(b)* between one and three months, *(c)* between three and six months, *(d)* between six and 12 months, *(e)* in over a year and *(f)* in over 18 months in the last 10 years; [150647]

(3) how many care cases involving a child came to court in each of the last five years. [150648]

Bridget Prentice: Information on the number of court hearings per child care case is not held centrally.

Table 1 shows the length of time from receipt of application to final order for care cases in England and Wales grouped as requested. The data are presented separately by family proceedings courts and county courts as more complex cases are transferred to the county courts. These data are only available from 2005 for the family proceedings courts and 2003 for the county courts.

Table 2 shows the number of care applications to the courts in England and Wales in each of the last four years. Application data for all jurisdictions prior to 2003 are not available.

Table 1: Completed care cases by time between date of application and final order and by court jurisdiction, 2003 to 2006, England and Wales

	2003		2004		2005		2006	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
Family proceedings courts								
Within a month	—	—	—	—	35	1	16	0
Between one and three months	—	—	—	—	52	2	48	1
Between three and six months	—	—	—	—	554	16	429	12
Between six and 12 months	—	—	—	—	1,953	57	2,074	58
Between one year and 18 months	—	—	—	—	567	16	767	22
Over 18 months	—	—	—	—	279	8	215	6
Total	—	—	—	—	3,440	100	3,549	100
County courts								
Within a month	16	1	8	0	6	0	6	0
Between one and three months	41	1	43	1	35	1	42	1
Between three and six months	292	10	272	8	281	9	222	8
Between six and 12 months	1,454	48	1,536	48	1,651	53	1,594	54
Between one year and 18 months	764	25	762	24	702	23	687	23
Over 18 months	463	15	585	18	431	14	403	14
Total	3,030	100	3,206	100	3,106	100	2,954	100

Notes:
1. Cases transferred from the family proceedings court to the county court are counted solely in the latter, but are measured from date of initial application to the family proceedings court.
2. Family proceedings court data are measured by child, county court data by case. One case may involve more than one child.

Table 2: Care applications, 2003 to 2006, England and Wales

	2003	2004	2005	2006[1]
Care applications	11,046	12,099	14,389	13,446

[1] Figures for 2006 are provisional and subject to change.
Note:
Figures relate to the number of children who were the subject of each care application. An application relating to two children will be counted twice.

Care Proceedings: Legal Aid Scheme

Tim Loughton: To ask the Secretary of State for Justice what the average cost per case of providing legal aid to those involved in childcare cases was in each of the last 10 years. [150649]

Maria Eagle: The information is not available in the format requested. The Legal Services Commission record bills on its systems and two or more bills can relate to the same case where more than one person is assisted in that case. The average gross cost of a bill in public law child care cases between 1999-2000 and 2006-07 is set out in the following table. Prior to 1999-2000 the information is not available as bills were analysed by court venue rather than the type of assistance provided.

	Average gross cost (£)
1999-2000	3,999
2000-01	4,066
2001-02	4,687
2002-03	5,439
2003-04	5,895
2004-05	5,827
2005-06	6,425
2006-07	7,691

Tim Loughton: To ask the Secretary of State for Justice how many people *(a)* applied for and *(b)* received legal aid for the costs of representation in care cases involving children in each of the last five years. [150650]

Maria Eagle: The number of people who applied for and received representation in public law child care cases in each of the last five years is as follows:

	Applications	*Certificates issued*[1]
2002-03	27,556	27,084
2003-04	25,692	25,390
2004-05	27,048	26,822
2005-06	28,109	27,898
2006-07	28,744	28,497

[1]Applications granted.

Constituencies

Mr. Boswell: To ask the Secretary of State for Justice if he will review the Boundary Commission's mechanisms for co-ordinating its work on parliamentary constituencies and local government boundaries. [151690]

Bridget Prentice: Reviews of parliamentary constituency and local government boundaries in England are currently conducted by separate bodies: respectively the Boundary Commission for England, and the Boundary Committee for England (part of the Electoral Commission).

The Eleventh Report of the Committee on Standards in Public Life has recommended that the Boundary Committee for England be removed from the Electoral Commission and re-established as a separate organisation. It has also recommended that a single secretariat be established to support jointly both organisations, in large part to improve the co-ordination of their work.

The Government will be responding to the CSPL recommendations shortly.

Coroners

Mr. Hollobone: To ask the Secretary of State for Justice how the proposed non-statutory Chief Coroner would enforce decisions; whether such decisions would be subject to judicial review; and if he will make a statement. [151692]

Bridget Prentice: I am currently considering what the role and responsibilities of a non-statutory Chief Coroner might be, and whether such a post would provide a helpful addition to current arrangements at this time.

Mr. Hollobone: To ask the Secretary of State for Justice who is responsible for providing coroners' court facilities; and who will be responsible under his Department's proposals for reform. [151693]

Bridget Prentice: Coroners have a statutory duty to undertake inquests and order post-mortem examinations, and the relevant local authority is responsible for meeting the costs. A number of coroners have dedicated courts provided by their local authority. Where this is not the case coroners liaise with their local authorities and local HMCS court managers to secure the use of suitable court accommodation. In a reformed system these basic arrangements will not change. Where difficulties with court provision are identified we will continue to work with coroners and other stakeholders to help find local solutions.

Coroners: Armed Forces

Dr. Murrison: To ask the Secretary of State for Justice how many coroner's inquests arising from *(a)* Iraq and *(b)* Afghanistan have been completed; and how many were completed by coroners other than the Oxfordshire and Wiltshire coroner. [151638]

Bridget Prentice: 109 inquests arising from Iraq since 2003 have been completed. Four of these have been held by coroners other than the Oxfordshire or Wiltshire and Swindon coroners.

Eight inquests arising from Afghanistan since 2001 have been completed. Four of these have been completed by coroners other than the Oxfordshire and Wiltshire and Swindon coroners.

Departments: Crime

Mr. Clegg: To ask the Secretary of State for Justice what criminal offences have been introduced by his Department in primary legislation since October 2006. [149720]

Maria Eagle: For my Department during the period in question, the only primary legislation that introduced criminal offences was the Fraud Act 2006. That Act, owned by the Home Office until the creation of the Ministry of Justice, created a mixture of new offences and those that replaced earlier existing criminal offences. However counting all offences created by the Fraud Act including those replacing existing offences the Act created five new offences:

These are as follows:

Section 1 Fraud. This replaced various deception offences in the Theft Acts 1968 and 1978, the Theft Act (Northern Ireland) 1969 and the Theft (Northern Ireland) Order 1978.

Section 6 Possession etc. of articles for use in frauds: This is a new offence but it replaced the "cheat" elements of section 25 of the Theft Act 1968 and section 24 of the Theft Act (Northern Ireland) 1969. The new offence in section 6 is broader than the cheat element of section 24 and section 25 had been.

Section 7 Making or supplying articles for use in frauds.

Section 9 Participating in a fraudulent business carried on by a sole trader etc.

Section 11 Obtaining services dishonestly: This replaced section 1 of the Theft Act 1978 and Article 3 of the Theft (Northern Ireland) Order 1978.

Departments: Departmental Responsibilities

Nick Herbert: To ask the Secretary of State for Justice when he expects to make a statement on discussions with the working group of the judiciary on creation of his Department. [150505]

Mr. Straw: I have met with the Lord Chief Justice on a number of occasions since my appointment to discuss a variety of issues, including those raised in the judicial working group.

I will keep Parliament informed of any significant developments.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Justice how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148813]

Maria Eagle: The following table sets out the proportion of staff who took early retirement between 1 April 2002 and 31 March 2007, broken down by grade.

A breakdown of cost would be provided by the civil service pension payroll provider (Capita Hartshead) but could be obtained only at a disproportionate cost.

Dispute Resolution Procedures

Mr. Heald: To ask the Secretary of State for Justice what assessment his Department has made of the Joint Industry Board for the Electrical Contracting Industry's dispute resolution procedures; and if he will make a statement. [150038]

Bridget Prentice: My Department has made no assessment. However, I refer the hon. Member to the answer given by my hon. Friend the Minister for Employment Relations and Postal Affairs on 17 July 2007, *Official Report*, columns 284-85W.

Electronic Tagging

Tim Loughton: To ask the Secretary of State for Justice how many cases of tagged offenders *(a)* disarming their tags and *(b)* breaking curfews while tagged have been reported to police in each of the last three years; and how many resulted in prosecution. [150339]

Mr. Hanson: The electronic monitoring contractors are only required to report to the police breaches of curfew for those subject to court bail conditions under the Bail Act 1976. According to data provided by the contactors the number of breaches reported to the police in such cases, in the previous two financial years, is as follows:

Financial year	Deliberate tag tampers (including removals)	Other breaches
2005-06	1,073	11,435
2006-07	1,942	43,843

The large increase in the number of reported breaches in 2006-07 reflects the increase in the number of people made subject to bail conditions with a curfew requirement compared to the previous year.

The figures include multiple breaches/tag tampers committed by tagged persons on bail and reported to the police. Data for the year 2004-05 are not available as they relate to the previous contract, and could be provided only through a manual trawl of records at disproportionate cost.

The system is designed to ensure that any attempt to remove a tag within the curfew address automatically registers as a tamper at the electronic monitoring service provider's control centre.

Data on the number of cases resulting in prosecution are not available centrally and could be provided only at disproportionate cost, through collating information from each police force.

Electronic Tagging: East Sussex

Mr. Waterson: To ask the Secretary of State for Justice how many offences were committed by tagged offenders in *(a)* Eastbourne and *(b)* East Sussex in each year since 2003. [151360]

Mr. Hanson: Data on reoffending by offenders wearing electronic tags are collated centrally only in respect of offenders released on to the Home Detention Curfew Scheme. The data are not broken down by areas in which subsequent offences are committed. To provide such information would involve a manual trawl of all reoffending data since 2003; such an exercise would incur disproportionate cost.

General Commissioners of Income Tax

Mr. Bellingham: To ask the Secretary of State for Justice what estimate he has made of the number of Clerks to the General Commissioner who will be involved in the final year scheme. [150921]

Bridget Prentice: The final year scheme will involve all of the Clerks who are in office when the year begins. There are currently 234 Clerks.

Mr. Bellingham: To ask the Secretary of State for Justice what the cost to the public purse of the Clerks to the General Commissioner of Taxes was in 2006-07. [150922]

Bridget Prentice: The total cost of the Clerks to the General Commissioners in 2006-07 was £2,393,000.

Mr. Bellingham: To ask the Secretary of State for Justice what the cost of the remuneration will be under the proposed final year scheme for Clerks to General Commissioners. [150931]

Bridget Prentice: It is not possible to say at this stage what the costs of remuneration will be in the final year. This is because the final package of remuneration will be based on the work the Clerks do in the preceding year. Some of the details of the scheme are also still to be finalised. Officials are currently drawing up draft proposals for discussion with the Association of Clerks. These will be ready by the end of the summer.

Legal Aid Scheme: Children

Mr. Bellingham: To ask the Secretary of State for Justice what proportion of the legal aid budget dedicated to public law Children Act matters was spent on expert witnesses in each year from 2001-02 to 2005-06. [150919]

Maria Eagle: The information is not available and could be obtained only at disproportionate cost. The Legal Services Commission does not keep records to that level of detail and records only solicitor disbursements generally.

Legal Aid Scheme: Expert Evidence

Mr. Bellingham: To ask the Secretary of State for Justice what proportion of the legal aid budget was spent on expert witnesses in each year from 2001-02 to 2005-06. [150926]

Maria Eagle: The information is not available and could be obtained only at disproportionate cost. The Legal Services Commission does not keep records to that level of detail and records only solicitor disbursements generally.

Mediation

Mr. Heald: To ask the Secretary of State for Justice on how many occasions the Legal Services Commission used sanctions against solicitors for not providing advice to clients on mediation in family disputes in each of the last three years. [150037]

Maria Eagle: None. Under the Law Society's Family Law Protocol, family solicitors are required to advise clients on the benefits of mediation where it is appropriate for the client. Legally aided clients are required to consider mediation before proceedings are issued.

There are no specific contract sanctions available at present. The discussions that the solicitor has with the client on the potential use of mediation are evidenced by the completion of a 'Suitability of Mediation' form. If this form is not completed and submitted when the solicitor applies for funding to issue proceedings, the application will be rejected and not processed until the solicitor has completed the form and resubmitted the application for funding.

The LSC will be monitoring the number of referrals made by individual firms to mediation. An improved monitoring system, to be implemented in October 2007, will extract information from LSC databases on the reasons used by individual firms for exemption from mediation. Where it is shown that solicitors' firms do not make appropriate and timely referrals, the LSC Relationship Manager will have discussions with the firm about this. Funding to continue with proceedings will be refused until the solicitor has demonstrated that mediation has been assessed as not appropriate, or has been attempted and broken down.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he intends to answer the letter to his predecessor of 29 May from the right hon. Member for Manchester, Gorton with regard to Mr Paul Southworth. [150490]

Bridget Prentice: The Secretary of State for Justice and Lord Chancellor will write to the right hon. Member soon and apologises for the unacceptable delay which was due to an administrative error.

Sir Michael Spicer: To ask the Secretary of State for Justice when he will reply to the letter of 12th June 2007 (Ministry of Justice Reference: 162453/13868) from the hon. Member for West Worcestershire. [150764]

Bridget Prentice: My right hon. Friend the Member for Delyn (Mr. Hanson) will write to the hon. Member soon and apologises for the unacceptable delay, which was due to an administrative error.

Oakhill Secure Training Centre

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the Written Ministerial Statement of 12 July 2007, *Official Report*, column 69WS, on Oakhill Secure Training Centre, what recent assessment he has made of staff levels at secure training centres. [150621]

Mr. Hanson: The contracts with the operating companies specify minimum staffing levels. These assume that the centre is operating at full capacity.

Hassockfield, Medway and Rainsbrook met minimum staffing levels throughout the period 1 June to 8 July. During this period, there were three days on which staffing levels at Oakhill fell below the minimum staffing level. However, on each of these days there was a sufficient number of staff to care for and work with the number of young people who were placed at the centre at that time.

The issue of staffing shortfalls is being addressed by the Oakhill contractor, Group 4 Securicor. The contractor has drawn up a recovery plan which the Youth Justice Board is monitoring. The Board is working with the contractor on the implementation of the action plan.

Prison Service: Corruption

Mr. Garnier: To ask the Secretary of State for Justice what his most recent assessment is of levels of corruption within the Prison Service; and if he will make a statement. [150736]

Mr. Hanson: I refer to my noble friend the Lord Falconer of Thoroton's statement in the other place on 10 May 2007. We recognise that there are small pockets of corruption in Her Majesty's Prison Service. We are focusing on five steps: properly identifying the extent of the threat; working to improve our intelligence on matters of corruption; working to implement common standards across the prison estate; ensuring we reinforce a culture where corruption is not tolerated; and working closely with police and other interested agencies.

Mr. Bellingham: To ask the Secretary of State for Justice (1) on what date Michael Spurr was interviewed as part of the Tasker investigation; and if he will make a statement; [150961]

(2) pursuant to the answer of 5 June 2007, *Official Report*, column 390W, on the Tasker inquiry, who the previous commissioning authority referred to in the answer was; and if he will make a statement; [150962]

(3) on what date *(a)* Keith Munns and *(b)* Nick Pascoe received a copy of the partial report of the Tasker inquiry; and if he will make a statement; [150963]

(4) on what date Keith Munns was interviewed as part of the Tasker inquiry; on what date he relinquished responsibility as commissioning authority for the inquiry; to whom he relinquished it; and if he will make a statement; [150964]

(5) on what date Nick Pascoe took over the commissioning authority role for the Tasker inquiry; who the commissioning authority was immediately before that; and if he will make a statement; [150965]

(6) who was responsible as commissioning authority for the Tasker inquiry after Keith Munns was interviewed as part of the investigation; and if he will make a statement; [150974]

(7) whether the Deputy Director General of HM Prison Service had access to the partial report of the Tasker inquiry prior to *(a)* agreeing to be interviewed and *(b)* being interviewed as part of the investigation; and if he will make a statement; [150975]

(8) who acted as commissioning authority for the Tasker inquiry between the retirement of Keith Munns and the transfer to Nick Pascoe; and if he will make a statement; [150976]

(9) on what date Ron Tasker was informed that *(a)* Keith Munns had ceased to be the commissioning authority for his investigation and *(b)* Nick Pascoe had assumed responsibility; whether a draft of his interim report had been submitted to the commissioning authority previous to either of these dates; to whom the draft of the interim report was submitted and on what date; and if he will make a statement; [150977]

(10) what representations were received by *(a)* Helen Edwards and *(b)* Phil Wheatley on Keith Munns' role as commissioning authority for the Tasker inquiry (i) while area manager for London, (ii) at the point of his retirement and (iii) subsequent to his retirement; and if he will make a statement; [150978]

(11) whether the Deputy Director General of HM Prison Service had access to the interim report of the Tasker inquiry before being interviewed as part of the inquiry on 10 May 2007; and if he will make a statement; [150981]

(12) pursuant to the answer of 7 March 2007, *Official Report*, column 2057W, on the Prison Service: public appointments, to whom Keith Munns was reporting when he was supporting the completion of the Tasker inquiry report; whether he was supporting Nick Pascoe or Michael Spurr in the preparation of the interim report of the Tasker inquiry; whether Michael Spurr was acting as the commissioning authority at the time of the appointment of Keith Munns for that role; on what date that appointment took place; and if he will make a statement; [151041]

(13) pursuant to the answer of 2 May 2007, *Official Report*, column 1684W, on the Tasker inquiry, what the change in the terms of reference for the Tasker investigation was; and if he will make a statement; [151050]

(14) on what date the Deputy Director General of HM Prison Service first asked Nick Pascoe to assume responsibility as commissioning authority for the Tasker inquiry; on what date he became commissioning authority; and if he will make a statement; [151051]

(15) whether the Deputy Director General of HM Prison Service has held responsibility as commissioning authority for the Tasker inquiry; and if he will make a statement; [151053]

(16) pursuant to the answers of 31 January 2007, *Official Report*, column 201W, on the Tasker investigation, 6 March 2007, *Official Report*, column 1941W, on the Prison Service: disclosure of information and 23 April 2007, *Official Report*, column 980W, on Wandsworth Prison, what the cause is of the delay in the completion of the report of the Tasker inquiry; what estimate he has made of the additional cost incurred as a consequence of these delays; when he expects the Tasker report to be *(a)* completed and *(b)* submitted; and if he will make a statement. [151075]

Maria Eagle: Due to the number and detail of the linked questions it has not been possible to provide a full response. I will write to the hon. Member once I have considered fully.

Prison Service: Manpower

Mr. Garnier: To ask the Secretary of State for Justice how many prison officers were working in the Prison Service in each year since 1997; what the average prison officer to prisoner ratio was at each *(a)* adult prison, *(b)* young offender institution and *(c)* secure training centre in each year; what plans he has to increase the number of prison officers; and if he will make a statement. [150709]

Mr. Hanson: The available information (we do not have complete information for private sector prisons or secure training units STCs) is set out in the tables.

There are no figures available for STCs but the supervision level is typically one member of staff to between 2.5 - 3.5 young offenders.

In the public sector Prison Service a Business Change Team will work alongside the HR Directorate to plan and co-ordinate recruitment activity for new prisoner places and the transfer of experienced staff to enable new prisoner places to operate effectively. Normal recruitment activity continues to be largely managed at area level to ensure that staffing continues within agreed operating margins.

Officer grade staff in public sector Prison Service and contracted prisons[1,2,3,4]

Date as at 31 March:	*Officers*
1997	23,058
1998	23,602
1999	24,113
2000	24,346
2001[5]	24,023
2002[5]	23,581
2003	24,527
2004[5]	25,461
2005[5]	26,246
2006	26,747
2007	27,053

[1] Figures include both publicly and privately managed prison establishments but not secure training centres.
[2] Figures are provided on a headcount basis ie part-time officers count as one.
[3] Figures relate to prison officers, senior officers and principal officers within the public sector Prison Service and prison custody officers within contracted prisons
[4] Officers employed within public sector Prison Service Headquarters are included
[5] The data for private sector prisons are incomplete.

[1] The ratio is the average prisoner population against the average number of officer grade staff except for the 1997-98 and 1998-99 officer figures where a snapshot at the start of the year is used. This is the standard form of ratio that is captured.
[2] A blank entry means that the establishment was either not open during the year, not that category during the year or, for contracted establishments, officer numbers were not available for the period. An establishment can therefore appear in more than one table.
[4] Staff numbers for Blakenhurst and Buckley Hall are not available for the period when they were privately managed.
[4] GSL reported staff numbers together for the three prisons they manage—Altcourse, Rye Hill and Wolds.

[1] The ratio is the average prisoner population against the average number of officer grade staff except for the 1997-98 and 1998-99 officer figures where a snapshot at the start of the year is used. This is the standard form of ratio that is captured.
[2] A blank entry means that the establishment was either not open during the year, not that category during the year or, for contracted establishments, officer numbers were not available for the period. An establishment can therefore appear in more than one table.

Prison Service: Overtime

Mr. Heath: To ask the Secretary of State for Justice how much was spent on staff overtime in *(a)* the Prison Service and *(b)* the Probation Service in the last five years for which figures are available. [150133]

Mr. Hanson: Expenditure on overtime in HM Prison Service is as follows.

	£
2006-07	10,610,045.39
2005-06	11,290,807.25
2004-05	11,845,928.68
2003-04	12,253,706.70
2002-03	12,074,887.73

In addition, the prison service has operated in some establishments a Coptracted Supplementary Hours (CSH) scheme to meet specific operational needs, by which it

pays for agreed volumes of additional hours from individual staff for specific periods at a standardised hourly rate. In some localised circumstances it is also possible for staff to work additional hours, for which they receive time off in lieu of payment. The expenditure on CSH (to nearest thousand pounds) is as follows:

	£
2006-07	19,684,000
2005-06	15,226,000
2004-05	17,183,000
2003-04	18,341,000
2002-03	[1]

[1] Not separately recorded.

Expenditure on overtime in the contracted out prisons is not collected by the Ministry of Justice.

The Ministry of Justice does not currently collect information on overtime expenditure from the 42 probation boards.

Prison Service: Professional Standards Unit

Mr. Bellingham: To ask the Secretary of State for Justice pursuant to the answer of 12 June 2007, *Official Report*, column 951W, on the Prison Service: Professional Standards Unit, who has the responsibility for the *(a)* monitoring and *(b)* checking of formal investigations within HM Prison Service; what the role of the Professional Standards Unit is in this regard; and if he will make a statement. [151042]

Mr. Hanson: The Investigation Support Section of the Professional Standards Unit registers, tracks the progress of and logs all formal investigations. The Commissioning Authority, not the Professional Standards Unit, is responsible for checking the quality of the report and ensuring that terms of reference have been met.

Prisoners

Nick Herbert: To ask the Secretary of State for Justice what projection he has made of *(a)* the operational prison capacity and *(b)* the certified nominal accommodation of the prison estate in England and Wales on (a) 1 October, (b) 1 January, (c) 1 April and (d) 1 July in each year to April 2012. [150504]

Mr. Hanson: NOMS undertakes a rolling programme of refurbishment on the prison estate. As schemes come back into use following refurbishment, other schemes are taken forward and the accommodation is taken out of use.

8,000 new prison places were announced by the Home Secretary in July 2006 and a further 1,500 places by the Lord Chancellor on 19 June. The programme is still in the planning stages and the number of places to be provided beyond 2007 has not been finalised.

Prisoners Release

Mr. Garnier: To ask the Secretary of State for Justice from which prisons prisoners have been released under the End of Custody Licence Scheme; and how many prisoners have been released under the scheme, broken down by offence for which they were imprisoned. [150749]

Mr. Hanson: Figures showing the numbers of prisoners who were released under End of Custody Licence between 29 June and 5 July from prison establishments within England and Wales, showing from which prison they were released and the offence group for which they were serving sentences, can be found in the following table. These figures are based on statistics published on 16 July and updates will be published monthly.

The End of Custody Licence was introduced on 29 June 2007. Eligible prisoners serving between four weeks and less than four years may be released under licence from prison up to 18 days before their automatic release date.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Table 1: ECL releases: by offence, sentence length, age, ethnic group and sex

	Male	*Female*	*Total*
All ECL releases between 29 June 2007 and 5 July 2007	1,552	149	1,701
By offence			
Violence against the person[1]	317	27	344
Robbery	22	2	24
Burglary	148	1	149
Theft and Handling	354	50	404
Fraud and Forgery	31	6	37
Drug offences	57	8	65
Motoring offences	213	6	219
Other offences	379	48	427
Offence not recorded	31	1	32

[1] Excludes serious violent offences such as murder, manslaughter, wounding with intent to commit grievous bodily harm, possession of a firearm with intent to endanger life, child cruelty and serious explosives offences. A full list of exclusions can be found in Prison Service Instruction 27/2007.

Note:

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing. See Data Sources and Quality section of report for more information.

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners were released under the End of Custody Licence Scheme on each day since 27 June 2007; and how many of those released have since been re-arrested for further suspected offences. [150794]

Mr. Hanson: Figures showing the daily number of releases of prisoners released on End of Custody Licence up to the end of the period for which published material is available, and the numbers returned to prison, are in the following tables:

Date	*Number of releases*
Friday 29 June 2007	884
Monday 2 July 2007	506
Tuesday 3 July 2007	124
Wednesday 4 July 2007	87
Thursday 5 July 2007	100

	Number
Decisions to recall as notified to NOMS	30
By reason for recall:	
Re-offended1	6
Failed to reside2	6
Out of touch3	11
Poor behaviour4	7
Number of offenders unlawfully at large on 5 July 2007	18

Information on the number of arrests for suspected offences is not held centrally.

These figures are based on statistics published on 16 July and updates will be published monthly. The End of Custody Licence was introduced on 29 June 2007.

Eligible prisoners serving between four weeks and less than four years may be released under licence from prison up to 18 days before their automatic release date. These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Dorset

Mr. Syms: To ask the Secretary of State for Justice what the *(a)* certified normal capacity and *(b)* current prison population for prisons is in Dorset. [151594]

Mr. Hanson: The data requested are provided in the following table. These figures are for 20 July 2007.

Prison	*Certified normal accommodation*[1]	*Operational capacity*[2]	*Population*
Dorchester	147	260	235
Guys Marsh	520	578	561
Portland	519	557	543
Verne	558	593	586

[1] The Certified normal accommodation (CNA) of a prison measures its capacity to accommodate prisoners in uncrowded conditions.
[2] Operational capacity for establishments is the total number of prisoners that an establishment can hold taking into account control, security and the proper operation of the planned regime.

Probation

Mr. Heath: To ask the Secretary of State for Justice how many offenders were being monitored by each local probation service in each of the last 10 years. [150792]

Mr. Hanson: Information on the number of persons supervised by each probation service area in England and Wales at 31 December in each year from 2002 to 2005 is shown in the following table. Data for 2006 are due to be published on 31 July 2007. The data at local area level were not sufficiently robust for publication prior to 2002.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Total persons supervised by each probation service area at 31 December, 2002 to 2005

	2002	*2003*	*2004*	*2005*

Probation: Finance

Mr. Heath: To ask the Secretary of State for Justice what the budget was of each local probation service in each of the last 10 years. [150791]

Mr. Hanson: The resource budget allocations to probation boards from 2001-02 are given in the table. Prior to 2001-02, probation services were delivered through local Probation Committees which were partly funded by local authorities and were organised on a slightly different basis.

During the six year period from 2001-02 there have been changes to the budget allocation methodology and to accounting treatment, which will affect the comparability of the figures.

Probation boards end-year budgets

Boards	*2006-07*	*2005-06*	*2004-05*	*2003-04*	*2002-03*	*Revenue (£000) 2001-02*

South Wales	24,402	23,098	20,917	19,328	18,104	17,062
Total	828,817	786,995	690,312	661,130	609,348	557,686

Note:
The 2002-03 figures for Warwickshire and North Yorkshire are estimated.

Probation: Manpower

Mr. Heath: To ask the Secretary of State for Justice how many *(a)* members of staff and *(b)* probation officers were employed by each local probation service in each of the last 10 years. [150790]

Mr. Hanson: Information is not available for the full period requested. Data collected prior to 1 April 2003 are unreliable, and are not directly comparable with the more accurate figures collected since that time. The figures presented in the following table show full time equivalent (FTE) figures for the period 2003-2006. The figures for each year are as at 31 December.

Public Defender Service: Liverpool

Mr. Djanogly: To ask the Secretary of State for Justice what the cost was of establishing the Public Defender Service Office in St. John's Street, Liverpool; and what its running costs have been since establishment. [151776]

Maria Eagle: The set up costs and annual running costs of the Liverpool Public Defender Service Office are as follows:

	Amount (£)
2001-02	[1]164,348
2001-02	[2]385,332
2002-03	[2]488,927
2003-04	[2]564,784
2004-05	[2]682,617
2005-06	[2]639,983

[1] Set up costs. [2] Running costs.

These figures were published in the PDS Annual Reports which are available on the Legal Services Commission's website (www.legalservices.gov.uk).

Public Defender Service: Pilot Schemes

Mr. Djanogly: To ask the Secretary of State for Justice what the expected completion dates are of the public defence pilots in *(a)* Swansea, *(b)* Middlesbrough, *(c)* Birmingham, *(d)* Cheltenham and *(e)* other locations. [151778]

Maria Eagle: The Public Defender Service pilot, running in Birmingham, Cheltenham, Liverpool, Middlesbrough, Pontypridd, Swansea, Chester and Darlington, concluded on 31 March 2005. The Middlesbrough office closed during 2006, and in February 2007 the Legal Services Commission proposed to close the Birmingham, Chester and Liverpool offices. All operated in areas with ample

alternative Criminal Defence Service supply. The Cheltenham, Darlington, Pontypridd and Swansea offices continue to operate.

Mr. Djanogly: To ask the Secretary of State for Justice what assessment the Government have made of the Public Defence Office pilots. [151779]

Maria Eagle: The Government commissioned an independent team of leading academics, lead by Professor Lee Bridges of the University of Warwick, to undertake a full evaluation of the PDS pilot. The final report entitled "Evaluation of the Public Defender Service in England and Wales" was published in January 2007 and can be found on the Legal Services Commission's website at:

www.legalservices.gov.uk/docs/pds/Public_Defenders_Report_PDFVersion6.pdf.

A copy of the final report can also be found in the Libraries of the House.

Public Defender Service: Standards

Mr. Djanogly: To ask the Secretary of State for Justice if he will assess the comparative *(a)* cost and *(b)* quality of service of the Public Defender Service Office and private sector criminal defence lawyers. [151777]

Maria Eagle: The Independent Evaluation of the Public Defender Service (PDS) in England and Wales, which was published in January 2007, includes an assessment of the comparative cost and quality provided by the PDS. The final report entitled "Evaluation of the Public Defender Service in England and Wales" was published in January 2007 and can be found on the Legal Services Commission's website at:

www.legalservices.gov.uk/docs/pds/Public_Defenders_Report_PDFVersion6.pdf.

A copy of the final report can also be found in the Libraries of the House.

Repossession Orders: Greater London

Tom Brake: To ask the Secretary of State for Justice how many court orders were issued for the repossession of homes by each London county court in each of the last three years. [150562]

Bridget Prentice: The table shows the number of mortgage possession orders made in each London county court since 2004.

The civil procedure rules provide that all claims for the repossession of land must be commenced in the district in which the land is situated. However, these county courts cover areas that are not necessarily consistent with other administrative or constituency boundaries, and therefore for example, possession orders made at Croydon county court may relate to properties in other London boroughs besides Croydon.

These figures do not indicate how many houses have been repossessed through the courts, since not all orders result in the properties actually being repossessed.

Number of mortgage possession orders made in the county courts in London, 2004-06

	Possession orders made[1]		
	2004	*2005*	*2006*
Barnet	287	552	580
Bow	897	1,423	1,702
Brentford	372	602	779
Bromley	585	1,037	1,121
Central London	265	506	409
Clerkenwell and Shoreditch	406	661	804
Croydon	895	1,474	1,856
Edmonton	644	1,121	1,249
Ilford	392	562	650
Kingston-upon-Thames	209	356	420
Lambeth	553	920	1,089
Mayors and City	3	1	9
Romford	486	900	981
Uxbridge	347	515	595
Wandsworth	340	555	582
West London	141	287	293
Willesden	497	893	1,080
Woolwich	343	524	903
London total	7,662	12,990	15,102

[1] Includes suspended orders. The court, following a judicial hearing, may grant an order for possession immediately. This entitles the claimant to apply for a warrant to have the defendant evicted. However, even where a warrant for possession is issued, the parties can still negotiate a compromise to prevent eviction.

Road Traffic Offences: Prisoners Release

Mr. Burrowes: To ask the Secretary of State for Justice for convictions in relation to which types of motoring offence prisoners are eligible for early release under the early release scheme. [150992]

Mr. Hanson: The End of Custody Licence came into use on 29 June 2007. Eligible prisoners serving four weeks or more but less than four years may be released under licence from prison up to 18 days before their automatic release date. Full details of the eligibility criteria are set out in Prison Service Instruction 27/2007. Prisoners convicted of motoring offences are eligible for release on End of Custody Licence.

Theft: Bicycles

Mr. Waterson: To ask the Secretary of State for Justice how many people were *(a)* prosecuted and *(b)* sentenced for bicycle thefts in (i) Eastbourne and (ii) East Sussex in each of the last five years. [151381]

Maria Eagle: One person was prosecuted and one sentenced in the Eastbourne and Hailsham court area in 2001 for bicycle theft. In the same year, 10 people were prosecuted and six sentenced in the Eastern Sussex court area for the same offence.

From 1 January 2002 it was not possible to separately identify people prosecuted and sentenced in the Eastbourne and Hailsham court from those in other courts within the Eastern Sussex court area. The following table shows the number of people prosecuted and sentenced in the Eastern Sussex court area from 2002 to 2005, the latest year for which data are available.

Number of people proceeded against at magistrates courts and sentenced at all courts, for bicycle thefts in the Eastern Sussex court area: 2001 to 2005[1, 2]

	Proceeded against	*Sentenced*
2002	1	1
2003	3	3
2004	3	3
2005	3	2

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Note:

In 2001 it was possible to give the number of people proceeded against and sentenced for bicycle theft within the Eastbourne and Hailsham court area. However, from 1 January 2002 it is not possible to separate data in relation to the individual courts within the Eastern Sussex court area.

Thorn Cross Young Offender Institution: Vocational Education

Helen Southworth: To ask the Secretary of State for Justice how many inmates of Thorn Cross Young Offenders Institute have acquired vocational qualifications whilst detained at the institute. [150870]

Mr. Hanson: In the periods 2005-06 and 2006-07, 104 and 145 prisoners respectively acquired vocational qualifications at HMYOI Thorn Cross. In the first three months of the current business year 2007-08, 91 prisoners have so far gained a vocational qualification at the establishment.

Tribunals

Mr. Bellingham: To ask the Secretary of State for Justice what recent estimate he has made of the cost of setting up the new tribunals service under the Tribunals, Courts and Enforcement Bill if enacted. [150918]

Bridget Prentice: The Tribunals Service has been operating as a government agency since April 2006. The net running costs in 2006-07 were £286.8 million. The Regulatory Impact Assessment for the Tribunals, Courts and Enforcement Bill was published on the 16 November 2006. That identified the estimated additional cost of implementation as £50,000. This was for establishing the Tribunal Procedure Committee as set out in The Regulatory Impact Assessment. These estimates will be updated as required by the Cabinet Office guidance on Impact Assessments.

Written Answers to Questions

Monday 23 July 2007

HEALTH

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health what change there has been in the number of patients seeking advice and treatment for alcohol related illnesses since 2004. [150480]

Dawn Primarolo: The information is not available in the format requested. Estimates of the proportion of adults (aged 16 and over) in Great Britain, who have discussed drinking with their general practitioner or another medical person, are available from the Office for National Statistics Omnibus Survey. Estimated proportions are based on all drinkers. Questions on alcohol are included in the Omnibus Survey biennially and the data is provided in table 1 for 2004 and 2006.

The number of alcohol related illnesses is not available in the format requested. Data are available providing the number of adults, aged 16 and over, admitted to national health service hospitals in England with a primary or secondary diagnosis that is specifically related to alcohol consumption. These figures are presented in table 2 and are published in "Statistics on Alcohol: England 2007" produced by The Information Centre for health and social care, available at: www.ic.nhs.uk/pubs/alcohol07. Numbers of those admitted with a diagnosis of an accident, illness or disease that does not specifically relate to alcohol but can be attributed to alcohol consumption are not currently available.

Table 1 Discussion of drinking in the last year, by gender, 2004 and 2006—Great Britain

		Percentage[1]
Discussed drinking with:	*2004*	*2006*
Men[2]		
GP	8	11
Someone else at the surgery	1	2
Doctor elsewhere	1	1
Other medical person elsewhere	1	2
Not discussed drinking	89	86
Women[2]		
GP	5	5
Someone else at the surgery	1	1
Doctor elsewhere	1	1
Other medical person elsewhere	1	1
Not discussed drinking	92	92
Bases		
Men	1,384	1,017
Women	1,645	1,156

[1] Percentages may sum to more than 100 per cent. as respondents could give more than one answer
[2] Aged 16 and over
[3] Percentages are based on respondents who drink alcohol
Source:
Drinking: Adults' behaviour and knowledge in 2006. Office for National Statistics

Table 2 NHS[1] hospital admissions[2] for adults[3] where there was either a primary[4] or secondary—England

		Number
	2004-05	*2005-06*
Primary diagnosis	48,082	52,271
Primary or secondary diagnosis	164,787	187,643

[1] The data include private patients in NHS hospitals (but not private patients in private hospitals)
[2] A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year
[3] Aged 16 and over
[4] The primary diagnosis is the first of up to 14 diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital
[5] The figures for primary or secondary diagnosis represent a count of all finished in-year admissions where the diagnosis was mentioned in any of the 14 diagnosis fields in a HES record
[6] Figures have not been adjusted for shortfalls in data
[7] Figures do not include hospital admissions for accidents, illnesses or diseases that do not directly relate to alcohol consumption but can be attributed to alcohol consumption

Hospital Episode Statistics. The Information Centre, 2007

Barnet Primary Care Trust: Pay

Mr. Dismore: To ask the Secretary of State for Health (1) what steps he is taking to improve payroll arrangements at Barnet primary care trust, with particular reference to the time taken to correct errors; and if he will make a statement; [150376]

(2) how many employees of Barnet primary care trust experienced payroll errors in each of the last six months; and if he will make a statement. [150450]

Ann Keen: This is a local matter and is the responsibility of Barnet primary care trust.

Cancer: Medical Treatments

Mr. Jamie Reed: To ask the Secretary of State for Health (1) whether his Department has undertaken a cost-benefit analysis of the use of photodynamic therapy cancer treatments compared with other cancer treatments in respect of *(a)* patient care and *(b)* NHS finances; [151341]

(2) whether his Department plans to extend the use and availability of photodynamic therapy cancer treatments; [151342]

(3) what the median cost per patient was of photodynamic therapy cancer treatment in comparison to other cancer treatments in the latest period for which figures are available; [151343]

(4) what obstacles exist to widening the use and availability of photodynamic therapy cancer treatments within the NHS; [151344]

(5) what representations he has received from *(a)* medical bodies and *(b)* cancer charities on photodynamic therapy cancer treatment; [151345]

(6) how many NHS patients with relevant conditions were offered photodynamic therapy cancer treatments in the latest period for which figures are available; [151346]

(7) what assessment his Department has made of the impact of photodynamic therapy cancer treatments within the NHS on *(a)* patient throughput, *(b)* bed use and *(c)* patient recovery times. [151348]

Ann Keen: The Department has made no assessment of the impact of photodynamic therapy (PDT) cancer treatments within the national health service on patient throughput, bed use and patient recovery times. The department has not made a cost-benefit analysis of the use of photodynamic therapy cancer treatments compared with other cancer treatments in respect of patient care and NHS finances.

Information on the number of patients offered photodynamic therapy cancer treatment or the cost per patient of photodynamic therapy cancer treatment is not collected by the Department.

As part of its programme of work on interventional procedures, the National Institute for Health and Clinical Excellence (NICE) has issued guidance on the use of PDT in the treatment of several cancers.

NICE has stated that PDT for the treatment of Barrett's oesophagus, advanced bronchial carcinoma, endobronchial carcinoma, bile duct cancer and skin tumours is safe and works well enough for use in the NHS, provided normal arrangements are in place for consent, audit and clinical governance.

NICE has also issued guidance on the use of PDT for early stage oesophageal cancer, stating that current evidence on PDT for the treatment of this disease is not adequate to support its use without special arrangements for consent, audit and clinical governance.

It will be for the NHS locally to decide whether to offer this treatment to patients. Where a local decision is made to do so, it will be for the relevant primary care trust to plan how to make PDT available to patients and identify any obstacles which might need to be overcome.

The Department has received a number of written representations about photodynamic therapy cancer treatment from the charity Killing Cancer.

Chemicals: Health Hazards

Chris Huhne: To ask the Secretary of State for Health what recent research his Department has conducted into the impact on *(a)* indoor air quality and *(b)* human health of the use of air fresheners. [151749]

Dawn Primarolo: In 1997, the Department together with the Department of the Environment, Transport and the Regions (DETR) commissioned a joint research programme on the effects on health of exposure to air pollutants and damp in the home. This programme focused on indoor air pollution and its effects on health. In particular, the health effects on sensitive individuals within the population and the interactions between indoor air pollutants and health effects of damp in the domestic environment. There were 13 projects in total, seven of which were funded directly by the Department. Further details of these projects can be found at table three of "Air Pollution Research Funded" which is available on the Department's website at:

www.dh.gov.uk/assetRoot/04/07/06/08/04070608.pdf.

Copies are available in the Library.

Air freshening products contain volatile organic compounds (VOCs) and in 1997, the Department's Committee on the Medical Effects of Air Pollutants (COMEAP) was asked to consider the health effects of exposure to VOCs in the home. As part of this, COMEAP considered data collected by the Buildings Research Establishment on behalf of the DETR and had published a statement in their 1997-98 annual report which is available at

www.advisorybodies.doh.gov.uk/comeap/pdfs/comeap9798.pdf.

Copies are available in the Library.

COMEAP has published a document "Guidance on the Effects on Health of Indoor Air Pollutants" on its website

www.advisorybodies.doh.gov.uk/comeap/pdfs/guidanceindoorairqualityDec04.pdf.

Copies have been placed in the Library.

This contains a brief section on volatile organic compounds and on household products. It advises that ensuring good ventilation in homes is the best way to reduce exposure.

Clostridium: Disease Control

Bob Spink: To ask the Secretary of State for Health what recent advice his Department has given to hospitals on the *(a)* prevention and *(b)* treatment of clostridium difficile. [151451]

Ann Keen: In addition to the answer given to the hon. Member on 19 March 2007, *Official Report*, column 725W, we issued a revised version of "Saving Lives: a delivery programme to reduce healthcare associated infections including MRSA" on 21 June 2007. This includes an updated high impact intervention on *Clostridium difficile* (C.difficile) and "Antimicrobial prescribing—A summary of good practice". The latter is relevant because improved prescribing helps to prevent C.difficile infection.

Dehydration

Dr. Kumar: To ask the Secretary of State for Health what assessment his Department has made of the effect of mild dehydration on mental performance in *(a)* children and *(b)* adults. [151141]

Dawn Primarolo: The Government have not assessed the effect of mild dehydration on mental performance.

The Government do, however, advise that 6-8 glasses (about 1.2 litres) of water, or other fluids, should be consumed every day to prevent dehydration. This is based on physiological studies and this amount should be increased when the weather is warm or when exercising.

Dental Services: Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for Health how many NHS dentists practised in Gloucestershire in each of the last 10 years for which figures are available, broken down by constituency. [151716]

Ann Keen: Numbers of national health service dentists in England as at 31 March 1997 to 2006 are available in the "NHS Dental Activity and Workforce Report England: 31 March 2006". Information at parliamentary constituency area is available in Annex G. Annex E also contains information at strategic health authority (SHA) and primary care trust (PCT) area. This information is based on the old contractual arrangements. This report is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-March-2006

Numbers of NHS dentists in England as at 30 June, 30 September, 31 December 2006 and 31 March 2007 are available in Table G of Annex 3 of the NHS Dental Statistics for England Q4: 31 March 2007 report. These data are not provided at constituency level.

This report is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dentalq4

The figures for quarter 4 and the earlier quarters in the year are provisional and are subject to revision. The final work force figure for 2006-07 will not be available until August 2007 when the information centre for health and social care will publish an end year report on the first 12 months of the new contractual arrangements.

This information is based on the new dental contractual arrangements and is not directly comparable with earlier information.

In both sets of figures, no account is taken of the level of service, if any, that each dentist provides.

Dental Services: Lancashire

Mr. Wallace: To ask the Secretary of State for Health what proportion of people in *(a)* Morecambe Bay Primary Care Trust and *(b)* North Lancashire NHS Trust are registered with an NHS dentist. [152015]

Ann Keen: Registration data no longer forms part of the data available under the new national health service dental contractual arrangements, introduced on 1 April 2006. The new measure is patients seen in the previous 24 months and is not comparable to the registration data for earlier years.

The numbers of patients seen as a percentage of the population in the previous 24 months are available in table F2 of Annex 3 of the "NHS Dental Statistics for England Q4: 31 March 2007" report. Information is for the previous 24 months ending 31 March, 30 June, 30 September, 31 December 2006 and 31 March 2007 and is available at strategic health authority and primary care trust (PCT) area in England.

This report is available in the Library. It is also available at:

www.ic.nhs.uk/pubs/dentalq4.

As from 1 October 2006, Morecambe Bay PCT has been integrated into Cumbria PCT and North Lancashire PCT. Information for Cumbria PCT and North Lancashire PCT is included in the report.

Mr. Wallace: To ask the Secretary of State for Health how many dentists in *(a)* North Lancashire NHS Trust and *(b)* Morecambe Bay have NHS patients. [152016]

Ann Keen: Information on private dentists is not collected centrally.

The numbers of dentists on open national health service contracts are available in Table G of Annex 3 of the NHS Dental Statistics for England Q4: 31 March 2007 report. Information is as at 30 June, 30 September, 31 December 2006 and 31 March 2007 and is available at strategic health authority and primary care trust (PCT) area in England.

This report is available in the Library. It is also available at:

www.ic.nhs.uk/pubs/dentalq4.

The figures for quarter 4 and the earlier quarters in the year are provisional and are subject to revision. The final workforce figure for 2006-07 will not be available until August 2007 when the Information Centre for health and social care will publish an end year report on the first 12 months of the new contractual arrangements.

In the figures in the report, no account is taken of the level of service, if any, that each dentist provides.

As from 1 October 2006, Morecambe Bay PCT has been integrated into Cumbria PCT and North Lancashire PCT. Information for Cumbria PCT and North Lancashire PCT is included in the above report.

Departments: Finance

Mr. Hoban: To ask the Secretary of State for Health if he will place in the Library a copy of the final settlement letter his Department received from HM Treasury as part of the 2002 Spending Review process. [148902]

Mr. Bradshaw: No. Publishing Spending Review papers would be prejudicial to the conduct of public affairs.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Health whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151399]

Dawn Primarolo: After looking into both of our financial databases which cover financial years 2001-02 to date, we can find no evidence that the firm in question was ever entered on to our systems to received payments from the Department.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Health how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151658]

Dawn Primarolo: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Library. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the "Civil Service Management Code" and the "Ministerial Code".

Doctors: Training

Peter Bottomley: To ask the Secretary of State for Health how many representations his Department has received from doctors on problems with *(a)* Modernising Medical Careers and *(b)* the Medical Training Application Service. [148310]

Ann Keen: The Department has received representations concerning the Modernising Medical Careers (MMC) programme.

The Department has also met with many stakeholders. In the light of the widespread concern an independent review of the MMC recruitment and selection process was set up; led by Professor Neil Douglas, vice chair of the Academy of Medical Royal Colleges and president of the Royal College of Physicians of Edinburgh. Members of the review group included representatives of the Royal Colleges, the British Medical Association, the four United Kingdom Health Departments and NHS Employers.

Epilepsy

Mrs. Gillan: To ask the Secretary of State for Health what discussions he has had with the Welsh Assembly Health Minister on the Commissioning Directive on Epilepsy Services developed in response to the National Institute for Health and Clinical Excellence Sentinel Clinical Audit of Epilepsy. [151510]

Ann Keen: We have had no discussions with the Welsh Assembly Health Minister on this matter.

Exercise: Children

Tim Loughton: To ask the Secretary of State for Health how much his Department has spent on promoting physical activity among children in each of the last 10 years; and which projects have been funded. [150356]

Dawn Primarolo: The Department and the national health service promote the benefits of physical activity in many ways to professionals, the public and other stakeholders. This complements investment across government to encourage and enable healthy active lifestyles, for example through the physical educations, schools sport and club links programme.

In particular, primary care trusts are required to have systematic and managed health promotion programmes, including action on exercise, that are responsive to local needs. Spending on the promotion of sport and physical recreation by the NHS is not recorded centrally.

Alongside spending by the NHS to support local delivery of physical activity programmes for adults and children, the Department has funded pilot work to inform interventions. This has included:

the local exercise action pilot scheme (LEAP), which has been jointly funded by the Department, Sport England and the Countryside Agency with an overall cost of £2.5 million between 2003 and 2006. The LEAP pilots included interventions targeted towards children, adults and older people.

a joint Department of Health, Department for Education and Skills, and Youth Sport Trust pilot programme Schools on the Move, which includes resource materials for schools, teachers and young people to help integrate pedometers into the life of the school. The Department has invested £100,000 in the pilot during 2005 and 2006.

National programmes to promote physical activity arising out of this pilot work include a £494,000 school pedometer programme, distributing 40,000 pedometers to 250 schools in deprived areas to encourage children to become more active, and enabling all schools to access resources to support increased physical activity.

The Public Health White Paper "Choosing Health" included a commitment to develop continuing professional programmes for schools to support physical activity and we have invested £160,000 in a schools physical activity guide as part of the healthy schools toolkit.

The Secretary of State for Health, through the Section 64 General Scheme of Grants (S64 of the Health Services and Public Health Act 1968), has power to make grants to voluntary organisations in England whose activities support the Department of Health's policy priorities.

The Department has provided funding to physical activity based programmes under the Section 64 Scheme to the following organisations:

Sustrans;

Amateur Swimming Association;

English Federation of Disability Sport;

National Heart Forum; and

British Trust for Conservation Volunteers.

Delivery of programmes to encourage children and young people to lead healthy active lifestyles extends beyond the remit of any single government department.

The Department for Children, Schools and Families (DCSF) and the Department for Culture, Media and Sport share a public service agreement (PSA) target to increase the percentage of 5 to 16-year-olds spending at least two hours a week on high quality PE and school sport.

The Government are investing £1.5 billion, including lottery funding, in the five years to 2008 in support of this target and on 13 July the Prime Minister announced a £100 million campaign to give every child the chance of five hours of sport every week in the run up to 2012.

The Government are also investing in walking and cycling to school. DCSF and the Department for

Transport are providing £7.5 million to fund a network of school travel advisers to develop and implement school travel plans. By March 2005 more than 10,000 schools had developed approved travel plans, and £55 million in capital grants has been given to schools to spend on items such as secure bike shelters and new entrances.

In March 2006 the BIG Lottery fund launched the £155 million Children's Play initiative in England.

Family Planning

Sandra Gidley: To ask the Secretary of State for Health (1) what assessment his Department has made of the effectiveness of provision of family planning services by primary care trusts; [150968]

(2) what steps he plans to take to implement the recommendations of the baseline review of contraceptive services. [151057]

Dawn Primarolo: We have undertaken a Baseline Review of Contraceptive Services 2005 (Contraceptive Services Audit) and published the findings on the 17 May 2007. We are developing best practice guidance on reproductive health care which will address the key issues arising from the review later this year.

A copy of the findings of the review has been placed in the Library. The findings are also available on the Department's website at:

www.dh.gov.uk/prod_consum_dh/groups/dh_digitalassets/@dh/@en/documents/digitalasset/dh_074794.pdf

Fluoride: Drinking Water

Sir Paul Beresford: To ask the Secretary of State for Health what progress has been made in the promotion of fluoridated water supplies following the passing of the Water Act 2003. [151918]

Ann Keen: The fluoridation of water has the potential to reduce inequalities in oral health. We are aware of three strategic health authorities that are undertaking feasibility studies on fluoridation schemes. They will make formal announcements if they decide to proceed with local consultations.

Genito-urinary Medicine: Finance

Tim Loughton: To ask the Secretary of State for Health how many primary care trusts reduced their spending on community sexual health services from the amounts initially allocated in the 2006-07 financial year. [150666]

Dawn Primarolo: This information is not collected centrally.

Genito-urinary Medicine: Waiting Lists

Tim Loughton: To ask the Secretary of State for Health what the average waiting times are for community sexual health clinics. [150664]

Dawn Primarolo: Sexual health services are provided in a variety of settings including acute national health service trusts, community services and general practice.

Currently data on waiting times are only collected from genito-urinary medicine clinics. Data from the genito-urinary medicine monthly monitoring return showed that in May 2007 85 per cent. of first attendances were offered an appointment to be seen within 48 hours of contacting a service.

Health: Schools

Sandra Gidley: To ask the Secretary of State for Health what percentage of school children spent at least two hours a week on high quality PE and school sport within and beyond the curriculum; and whether the target of 75 per cent. for such performance set in the Choosing Health paper has been achieved. [150287]

Kevin Brennan: I have been asked to reply.

The 2005/06 School Sport Survey found that overall, 80 per cent. of pupils in schools within a school sport partnership took part in at least two hours of high quality PE and school sport in a typical week—exceeding the 2006 PSA target of 75 per cent.

Hepatitis

Sandra Gidley: To ask the Secretary of State for Health how many cases of *(a)* hepatitis A, *(b)* typhoid and *(c)* hepatitis B were diagnosed in each month since January 2001. [150945]

Dawn Primarolo: The latest available information, which is by quarter and calendar year, is shown in the tables.

Laboratory reports of hepatitis A infection in England and Wales, 2001-05

	Quarter	2001	2002	2003	2004	2005
January-March	1	239	260	303	224	129
April-June	2	195	335	247	137	123
July-September	3	186	365	260	142	135
October-December	4	176	397	218	168	73
Total		796	1,357	1,028	671	460

Laboratory reports of acute hepatitis B infection in England and Wales, 2001-03[1]

	Quarter	2001	2002	2003
January-March	1	160	204	219
April-June	2	140	240	193
July-September	3	159	221	178
October-December	4	142	257	162
Total		601	922	752

[1] In England and Wales acute hepatitis B cases are reported to the Health Protection Agency. In 2004, there was a substantial deterioration in the quality of acute hepatitis B reporting and since 2004 data have not been available. The Health Protection Agency is working to improve the quality of information on acute hepatitis B reporting and provisional data should be available from the start of 2007 later this year.

Laboratory reports of Salmonella typhi (causative agent of typhoid) in England and Wales, 2001-06

	Quarter	2001	2002	2003	2004	2005	2006

Health Protection Agency (HPA)

Home Care Services: Oxygen

Sandra Gidley: To ask the Secretary of State for Health how much was spent on the new domiciliary oxygen service in *(a)* England, *(b)* each strategic health authority and *(c)* each health trust in its first year of operation. [151011]

Dawn Primarolo: The new domiciliary oxygen service started on 1 February 2006. The first full year operational costs relate to 2006-07. These details are set out in the following table.

Domiciliary Oxygen Service: 2006-07

	Total expenditure (£000)
England	71,786,157
Strategic health authority (SHA)	
North East SHA	7,135,372
North West SHA	9,606,498
Yorkshire And The Humber SHA	6,561,058
East Midlands SHA	5,518,053
West Midlands SHA	7,767,896
East of England SHA	10,762,053
London SHA	7,265,996
South East Coast SHA	4,873,611
South Central SHA	4,361,402
South West SHA	7,934,217
Primary care trust	
Ashton, Leigh and Wigan	422,298

Source:
NHS Business Services Authority

Sandra Gidley: To ask the Secretary of State for Health how many people in England were dependent on a domiciliary oxygen system in their homes in each of the last 10 years. [151012]

Dawn Primarolo: The Department does not hold information on the number of people using the home oxygen service in England prior to 2006-07, as the information collected was based on the number of oxygen cylinders dispensed, not the number of patients using the service. However, information was available on the number of patients using the oxygen concentrator service under contracts with specialist suppliers. The 2004 estimate used to support procurement of the new service was that around 60,000 patients used the service (of which 20,000 used concentrators).

Data available from the new integrated service contract implemented from 1 February 2006 show that there are some 79,000 patients using oxygen at home.

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the average delivery time for *(a)* routine and *(b)* emergency oxygen supplies to outpatients (i) before and (ii) after the introduction of the new home oxygen service. [151015]

Dawn Primarolo: Prior to the introduction of the new home oxygen service on 1 February 2006, there were no explicit requirements on those providing an oxygen cylinder service or an oxygen concentrator service to deliver a service urgently or within another specified period. Therefore, no data are available to assess average delivery time prior to that date.

The new service contract requires the service provider to meet specific response times for each oxygen service provided under the contract. These are:

emergency or urgent supply of oxygen to be delivered within four hours of receipt of an order from a healthcare professional;

an order supporting the discharge of a patient from hospital to be delivered on the day following receipt of the order or on a date specified by the healthcare professional in the order; and

an order for short burst oxygen therapy, long-term oxygen therapy, or an ambulatory oxygen service to be provided within three working days of receipt of an order either from a health care professional or from the patient directly (for re-supply).

Each supplier must meet these service requirements under the terms of the contract and delivery times are a key indicator used in monitoring supplier performance. There is no average delivery time. A supplier will either pass or fail in meeting these requirements. Current data show that suppliers are achieving around 99 per cent. compliance with this service requirement.

Hospitals: Admissions

Mr. Lansley: To ask the Secretary of State for Health what the mean length of stay was for patients admitted to hospital in each year since 1997-98 *(a)* in England and *(b)* broken down by strategic health authority area. [149487]

Mr. Bradshaw: Information has been placed in the Library.

Hospitals: Finance

Greg Clark: To ask the Secretary of State for Health pursuant to the answer of 16 July 2007, *Official Report*, columns 173-34W, on hospitals: finance, on what date in 2008 he expects the financial close of the Maidstone and Tunbridge Wells Pembury hospital private finance initiative scheme to take place. [151637]

Mr. Bradshaw: Financial close on the Pembury hospital private finance initiative scheme for Maidstone and Tunbridge Wells hospital NHS trust is expected by the end of March 2008.

Hospitals: West Sussex

Peter Bottomley: To ask the Secretary of State for Health what knowledge *(a)* the central NHS and *(b)* his Department had of the hurdles for hospital services set out in the current consultation in West Sussex in advance of the commencement of the consultation. [150130]

Dawn Primarolo: Proposals for service change and consultation on those proposals is a matter for the national health service locally.

We would expect any local proposals brought forward for consultation to have taken into account variety of issues and to be both financially and clinically viable.

Tim Loughton: To ask the Secretary of State for Health what plans he has for further disposals of land at the Southlands hospital site in Shoreham-by-Sea, West Sussex. [150366]

Mr. Bradshaw: The disposal of land at Southlands hospital site is a matter for the local national health service.

Influenza: Disease Control

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the paper summarising the published scientific data currently available on pre-pandemic and pandemic vaccines presented to the meeting of the Joint Committee on Vaccinations and Immunisations on 14 February 2007. [152174]

Dawn Primarolo: A copy of the paper on pre-pandemic and pandemic influenza vaccines: summary of the evidence has been placed in the Library from the meeting of Joint Committee on Vaccinations and Immunisations on 14 February 2007.

Lung Diseases

Mr. Hepburn: To ask the Secretary of State for Health how many people were diagnosed with mesothelioma in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [150556]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 23 July 2007:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many people have been diagnosed with mesothelioma in (a) Jarrow constituency, (b) South Tyneside, (c) the North East and (d) England in each year since 1997. I am replying in her absence. (150556)

The most recent available figures for newly diagnosed cases of cancer registered in England are for the year 2004. Figures for patients diagnosed with mesothelioma in Jarrow constituency, South Tyneside county district, North East government office region (GOR) and England, from 1997, are given in the table below.

Numbers of newly diagnosed cases of mesothelioma[1] registered in Jarrow constituency, South Tyneside county district, North East GOR and England, 1997-2004

	Jarrow constituency	South Tyneside county district	North East GOR	England
1997	3	8	110	1,287
1998	5	19	120	1,476
1999	2	9	127	1,564
2000	2	20	147	1,612
2001	3	14	145	1,800
2002	3	10	140	1,788
2003	5	10	128	1,828
2004	5	14	151	1,834

[1] Figures selected using the International Classification of Diseases, Tenth Revision (ICD10) C45.

Members: Correspondence

Mr. Baron: To ask the Secretary of State for Health when he expects to reply to the letter from the hon. Member for Billericay, dated 31 May, on the subject of testosterone deficiency. [151823]

Ann Keen: A reply was issued on 19 July 2007.

Mesothelioma

Mr. Hepburn: To ask the Secretary of State for Health how many people were treated for mesothelioma in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [150560]

Ann Keen: While we do collect figures on the number of people treated for mesothelioma, we do collect figures on finished consultant episodes where the primary diagnosis was mesothelioma.

The requested information is detailed in the following table, these figures relate only to admitted patients and do not include any patients who are treated for mesothelioma in accident and emergency but not admitted, patients treated in an out-patient setting or patients treated in the community. The figures are not for patients, as one patient may have had more than one episode.

Count of finished consultant episodes where the primary diagnosis was Mesothelioma[1] for selected organisations—national health service hospitals, England

	Finished consultant episodes			
	North east strategic health authorities			
	South Tyneside primary care trust (5KG) as PCT of residence	*Northumberland, Tyne and Wear strategic health authority (Q09) as SHA of residence*	*County Durham and Tees Valley strategic health authority (Q10) as SHA of residence*	*England*
2005-06	40	316	303	6,436
2004-05	28	348	242	5,671
2003-04	56	443	230	5,697
2002-03	53	267	173	4,685
2001-02	59	321	129	4,563
2000-01	57	315	122	4,442
1999-2000	58	401	121	4,155
1998-99	39	373	98	3,773
1997-98	11	186	69	3,075

[1] The ICD-10 codes used in this analysis were as follows:
C45 Mesothelioma
D19 Benign neoplasm of mesothelial tissue
Notes:
1. Finished Consultant Episode (FCE):
An FCE is defined as a period of admitted patient care under one consultant within one health care provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Ungrossed Data:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
3. Diagnosis (primary diagnosis):
The primary diagnosis is the first of up to 14 (seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
4. Assessing growth through time:
HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
5. PCT and SHA data quality:
PCT and SHA data were added to historic data-years in the HES database using 2002-03 boundaries, as a one-off exercise in 2004. The quality of the data on PCT of treatment and SHA of treatment is poor in 1996-97, 1997-98 and 1998-99, with over a third of all finished episodes having missing values in these years. Data quality of PCT of general practitioners practice and SHA of GP practice in 1997-98 and 1998-99 is also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.

HES, The Information Centre for health and social care

MRSA

Mr. Hancock: To ask the Secretary of State for Health (1) why MRSA is not a recognised cause of death; and if he will make a statement; [150538]

(2) if he will make it his policy to adopt the recommendations of the *(a)* World Health Organisation and *(b)* Office of National Statistics and allow MRSA to be cited on a death certificate as a contributory factor. [150539]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 23 July 2007:

The National Statistician has been asked to reply to your questions asking why MRSA is not a recognised cause of death and whether it will be policy to adopt the recommendations of the (a) World Health Organisation and (b) Office of National Statistics and allow MRSA to be cited on a death certificate as a contributory factor. I am replying in her absence. (150539, 150538)

Diseases caused by infection with Meticillin Resistant Staphylococcus Aureus bacteria (eg MRSA septicaemia, MRSA pneumonia, MRSA wound infection etc) are recognised as causes of death and can be cited on death certificates. The Office for National Statistics publishes annual statistics on deaths certified as due to or contributed to by MRSA.

The World Health Organisation (WHO) makes recommendations, in the International Classification of Diseases, currently in its tenth revision (ICD-10), on certification of cause of death by doctors, coding and classification of diseases, and selection of a single cause for each death for statistical purposes. The General Register Office and ONS follow ICD-10 recommendations and go further, as explained below.

Doctors have a statutory duty, under the Births and Deaths Registration Act 1953, to certify the cause of death to the best of their knowledge and belief. GRO produces books of Medical Certificates of Cause of Death (MCCDs), in the format recommended by WHO, and supplies these to doctors through local registrars of births and deaths. The books include notes to doctors, based on ICD-10, on how to complete the MCCD. These ask the doctor to describe the sequence of illnesses or events that led directly to death in part I of the MCCD, ending on the last used line with the underlying cause of death. The underlying cause is defined by WHO as the disease or (external cause of) injury that initiated the morbid train of events leading directly to death. Certifiers are also asked to write in part II of the certificate any other conditions which contributed to the death but were not part of the direct sequence. WHO makes clear that the certifying doctor must use his/her clinical judgement to decide which of the conditions present at or before death contributed to the death and so should be included on the certificate.

In addition to the notes in the front of every book of MCCDs, the ONS Death Certification Advisory Group (DCAG) published updated guidance to certifiers in ACP News and on the GRO website (www.gro.gov.uk/medcert/) in June 2005. This guidance, which is also supplied to doctors with every new book of MCCDs, includes specific advice about certifying deaths involving health care associated infections (HCAI). The Department of health's Chief Medical Officer, Sir Liam Donaldson, in his 'CMO Update' no 42 of July 2005, which is sent to all registered doctors, drew attention to the DCAG guidance in a short article entitled 'Certifying deaths involving MRSA' http://www.dh.gov.uk/en/PublicationsAndStatistics/LettersAndCirculars/CMOUpdate/DH_4115663). These publications, from ONS/GRO and the Department of Health, make absolutely clear that doctors should include MRSA and other HCAI on the death certificate in the appropriate place if they believe that the infection was part of the direct causal sequence or contributed to the death.

WHO recommends that the underlying cause of death is tabulated for routine mortality statistics because preventing it would prevent not just the death, but the whole period of illness leading up to death and so result in the greatest health gain. MRSA infection is often associated with health care, and so it will not usually be the underlying cause of death, which may be the disease or injury necessitating the care during which the MRSA infection was acquired. Because of the public, policy, professional and media interest in the subject of MRSA infection, ONS provides more than just routine underlying cause statistics. Using ICD-10 codes and the full text from MCCDs, ONS publishes annual figures on the number of deaths in which MRSA was mentioned anywhere on the death certificate, in addition to those where it was selected as the underlying cause of death. Figures for 2001 to 2005 were published in Health Statistics Quarterly no 33, which is available in the House of Commons library, in February 2007. Statistics based on death certificates which cited MRSA have also been quoted in answer to a number of previous Parliamentary questions and published in Hansard. In 2005 there were 1,629 death certificates that cited MRSA in England and Wales and in 29% of these (467 deaths) MRSA was the underlying cause of death.

National Institute for Health and Clinical Excellence

Mr. Evans: To ask the Secretary of State for Health how many people are employed by the National Institute for Health and Clinical Excellence; and what its budget is for 2007-08. [151767]

Dawn Primarolo: Information on the number of people employed by the National Institute for Health and Clinical Excellence (NICE) is not held by the Department. NICE is an independent body and should be contacted direct for this information. In 2007-08, NICE'S total budget is £35.05 million, of which £33,349 million was funding direct from the Department.

NHS Foundation Trusts

Graham Stringer: To ask the Secretary of State for Health what estimate he has made of the number of foundation hospitals whose boards met wholly in private; and what percentage this figure represents of the total number of foundation hospitals. [151511]

Mr. Bradshaw: The Department does not hold this information. Legislation governing national health service foundation trusts allows them to open board of governors meetings to the public. There is no equivalent provision for meetings of the board of directors. The way in which these meetings are conducted is a matter for individual trusts. Directors would need to justify decisions on the conduct of their meetings with governors, who can hold directors to account for the performance of the trust and are responsible for communicating with the membership community information relating to the performance of the organisation.

NHS Trusts: Eastern Region

Mr. Keith Simpson: To ask the Secretary of State for Health what the cost to the public purse has been of *(a)* early retirement and *(b)* redundancy agreements for (i) chief executives and (ii) executive directors who were not reappointed following reorganisation of the primary care trusts and NHS trusts in the eastern region. [149464]

Mr. Ivan Lewis *[holding answer 17 July 2007]:* The costs of early retirement and redundancy payments are not collected centrally.

NHS: Cost-effectiveness

Dr. Gibson: To ask the Secretary of State for Health (1) whether the National Institute for Health and Clinical Excellence appraises the cost-effectiveness of the price paid for treatments by the NHS; [151476]

(2) what assessment he has made of the likely impact on the NHS of the provision of a range of discounts for erythropoietin in National Institute for Health and Clinical Excellence guidance. [151477]

Dawn Primarolo: The National Institute for Health and Clinical Excellence (NICE) 'Guide to the methods of technology appraisal', describes all aspects of appraisal methodology, including the principles and methods of health technology assessment. The Guide states that "estimates of...prices for particular resources should be used consistently across appraisals", and that the Institute uses the "public list price" of a treatment when conducting its appraisals.

The Guide is published on the NICE website at:

www.nice.org.uk/page.aspx?o=201973

NICE is currently undertaking a review of its 'Guide to the methods of technology appraisal', which underpins the technology appraisal programme. NICE expects to commence a three-month public consultation on its findings in November 2007.

NICE's technology appraisal guidance on the use of erythropoietin analogues in the management of cancer treatment induced anaemia is due to be published in November 2007. The appraisal is being conducted in line with NICE's published methodology.

NHS: Email

Dr. Pugh: To ask the Secretary of State for Health what the expected cost is of converting the NHS e-mail system to Microsoft Exchange; and what added functions will be provided by the new system. [150561]

Mr. Bradshaw: NHSmail first went live October 2004. There are over 260,000 NHSmail users registered for the national health service e-mail and directory service which is increasing every week with an average of one million messages sent or received across the NHSmail platform daily.

Since 2004 the technological and market environment has changed significantly. A number of opportunities for technology refresh were built into the original NHSmail contract. The move to Microsoft Exchange is the first of those. The cost of the transition will not exceed the existing programme budget. Costs have been controlled partly by the licences gained through the renewal of the enterprise agreement with Microsoft and partly through the reuse of existing infrastructure.

The move to Exchange will deliver new functionality and improved usability to NHSmail users. These include full mobile access via an extensive range of wireless devices, facilitating access to the many peripatetic workers in the NHS, full support for shared calendar use between doctors and managers, easier navigation between screens and functions, and the ability to share contacts between users. Exchange will also enable much faster recovery should any event impact one of the two data centres.

NHSmail carries out annual user surveys, and the Exchange-based service meets all of the most common requests for change reflected in survey results.

Other additional features are currently under consideration, such as instant messaging, which we believe will further increase the service appeal to NHS staff. As a result of this and the features described above, early contact with NHS trusts and NHS staff indicates that the transition to Exchange is likely to increase NHSmail user take-up above the current rate of 5,000 new users per month.

NHS: Finance

Lyn Brown: To ask the Secretary of State for Health what assessment he has made of the accuracy of data used to calculate local health allocations. [149779]

Mr. Bradshaw: Revenue allocations to primary care trusts are informed by a fair funding formula. The formula is overseen by an independent body, the Advisory Committee on Resource Allocation (ACRA). ACRA's role is to ensure equity in resource allocation. In order to achieve this objective, ACRA ensures that the most up-to-date, accurate and robust data available at the time of making allocations are used in the formula.

NHS: ICT

Peter Bottomley: To ask the Secretary of State for Health (1) if he will make a statement on the future of Cerner's products and services within the NHS IT system; [150472]

(2) in which NHS hospitals Cerner's Millennium product is working satisfactorily; and if he will make a statement on the expected roll out programme; [150473]

(3) if he will make an evaluation of the effectiveness of Cerner's Millennium system. [150474]

Mr. Bradshaw: Cerner is the chosen subcontractor of two of the local service providers (LSPs) under the national programme for information technology in the national health service, Fujitsu in the South and BT in London, for the provision of secondary care systems.

In the South, six health communities have to date gone live with the Cerner Millennium system provided through the national programme. Each health community typically comprises an acute NHS trust and the associated primary care trust sites in its area. Details are provided in the following table.

Trust name	*Total users*	*Peak users*	*Average users*	*Go live date*
Buckinghamshire Hospitals NHS Trust	880	700	450	25 September 2006
Milton Keynes General Hospital NHS Trust	2,000	980	420	24 February 2007
Nuffield Orthopaedic Centre NHS Trust	900	170	130	22 December 2005
Surrey and Sussex Healthcare NHS Trust	2,875	620	400	20 April 2007
Weston Area Health NHS Trust	1,700	1,400	450	29 July 2006
Winchester and Eastleigh Health. .e NHS Trust	1,821	980	360	10 February 2007
Total	10,176	4,850	2,210	

To date, 1.4 million patient records have been entered in the systems in use in the South.

Five further systems are planned to go live in the South during 2007, 24 in 2008, and 19 in 2009. In London, three Millennium deployments are planned in 2007, the first, at Barnet and Chase Farm Hospitals Trust, due to go live before the end of July, and a further four in 2008. Go live dates in each strategic health authority (SHA) area are determined by agreement with the NHS bodies concerned.

The Millennium system is a robust product built on modern architecture, with greater patient data security and stability than older systems. It is used in many other countries and currently has a worldwide patient base of some 100 million patients. The version of Millennium being deployed through the national programme is based on that purchased in 2005 by two London NHS hospital trusts, the Homerton, and Newham University Hospitals Trusts. This version, release 0, contains the patient administration service functionality, is compliant with Choose and Book, and has the ability to order pathology tests and radiological diagnoses, and receive the reports. Subsequent releases will include ever greater functionality, particularly clinical functionality, bringing increasing benefits to patients and those who treat them.

Current users of the Homerton and Newham systems, who have had two years to become familiar with the system and to make local improvements, have expressed their satisfaction with the system. Further positive feedback has been received from a number of users, especially nurses.

Though the current Millennium release version has less functionality than that of certain advanced alternative systems in some trusts, this limitation is a necessary step in building up a fully integrated secondary care system through subsequent releases. Meanwhile, NHS Connecting for Health and SHAs are working closely with the LSPs and Cerner to further develop and improve the product, its functionality, and its ease of use.

NHS: Manpower

Mr. Spring: To ask the Secretary of State for Health how many people are employed in the NHS in *(a)* England and *(b)* Suffolk; and what percentage of each is employed in (i) management, (ii) administrative, (iii) scientific, (iv) research, (v) clinical medical, nursing and midwifery and (vi) other roles. [150544]

Mr. Bradshaw: This information is shown in the table. The annual workforce census does not separately identify research staff.

Qualified ambulance staff have been excluded as the East of England Ambulance Service Trust falls within the Suffolk region, but serves a much wider area. Consequently the number of ambulance staff in Suffolk is much higher than would be expected, which also distorts the percentages in the other staff group areas.

National health service staff in England and Suffolk by specified staff group, as at 30 September 2006

	England	Percentage	Of which: Suffolk	Percentage
All NHS staff[1]	1,306,622	100.0	13,013	100.0
Frontline Medical Staff[2]	659,017	50.4	6,324	48.6
of which				
HCHS Doctors[3]	90,243	6.9	778	6.0
GMPs[4]	36,008	2.8	434	3.3
Qualified Nurses (incl. Midwifery, Health Visitors and Practice Nurses)	398,269	30.5	3,820	29.4
Qualified scientific, therapeutic and technical staff	134,497	10.3	1,292	9.9
Qualified ambulance staff	—	—	—	—
Clerical and administrative staff	219,080	16.8	1,962	15.1
Managers and senior managers	35,309	2.7	293	2.3
Others	393,216	30.1	4,434	34.1

[1] The figures for Suffolk are based on 2006 Primary Care Trust and trust boundaries and consists of Ipswich Hospital NHS Trust, Suffolk Mental Health Partnership Trust, Suffolk PCT, West Suffolk Hospitals NHS Trust and East of England Ambulance Service NHS Trust.
[2] Front line medical staff includes HCHS doctors, general medical practitioners, qualified nurses (including GP practice nurses), qualified scientific, therapeutic & technical staff and Qualified ambulance staff.
[3] Excludes medical hospital practitioners and medical clinical assistants, most of whom are general practitioners (GPs) working part time in hospitals.
[4] General Medical practitioners includes GP providers, GP others, GP retainers and GP registrars.
Source:
Annual Workforce Census

Mr. Soames: To ask the Secretary of State for Health how many people are employed in the NHS in *(a)* England and *(b)* West Sussex; and what percentage of each is employed in (i) management, (ii) administrative, (iii) scientific, (iv) research, (v) clinical medical, nursing and midwifery and (vi) other roles. [151785]

Mr. Bradshaw: The information requested is shown in the following table.

NHS staff in England and West Sussex[1] by specified staff group, as at 30 September 2006

			Number (headcount) Of which:	
	England	Percentage	West Sussex	Percentage
All NHS staff	1,338,779	100.0	29,263	100.0
Frontline medical staff[2]	675,260	50.4	15,261	52.2
of which:				
HCHS doctors[3]	90,243	6.7	2,075	7.1
GMPs[4]	36,008	2.7	569	1.9
Qualified nurses (incl. midwifery, health visitors and practice nurses)	398,335	29.8	8,502	29.1
Qualified scientific, therapeutic and technical staff	134,498	10.0	2,558	8.7
Qualified ambulance staff	16,176	1.2	1,557	5.3
Clerical and administrative staff	224,302	16.8	4,925	16.8
Managers and senior managers	36,751	2.7	807	2.8
Others	402,466	30.1	8,270	28.3

[1] The figures for West Sussex are based on 2006 primary care trust and trust boundaries and consists of Brighton and Sussex university hospitals NHS trust, Queen Victoria hospital NHS trust, Royal West Sussex NHS trust, Surrey and Sussex Healthcare NHS trust, Sussex Partnership NHS trust, Worthing and Southlands hospitals NHS trust, West Sussex PCT and South East Coast ambulance service NHS trust
[2] Front line medical staff includes HCHS doctors, general medical practitioners, qualified nurses (including GP practice nurses), qualified scientific, therapeutic and technical staff and qualified ambulance staff
[3] Excludes medical hospital practitioners and medical clinical assistants, most of whom are GPs working part-time in hospitals
[4] General medical practitioners includes GP providers, GP others, GP retainers and GP registrars.

The Information Centre Non-Medical, Medical and Dental and General and Personal Medical Services Censuses

NHS: Parking

Mr. Hancock: To ask the Secretary of State for Health what his policy is on the provision of car parking facilities for NHS staff who *(a)* work at NHS sites and *(b)* visit people in their homes. [150536]

Mr. Bradshaw: The Department has provided advice to the national health service, in Health Technical Memorandum 07-03 Transport management and car parking, about the provision of car parking through the development of transport management plans. A copy is available in the Library.

Specific arrangements for the provision of car parking facilities for NHS staff will ultimately be determined at local level; will be dependent on local authority planning approval; and will be dependent on the needs of staff, patients and visitors alike.

Parking facilities for health care professionals who visit people in their own home are similarly governed by local circumstances and availability.

Obesity

Sandra Gidley: To ask the Secretary of State for Health what his most recent estimate is of the *(a)* obesity and *(b)* smoking rate in (i) England, (ii) Hampshire and (iii) Southampton. [150966]

Dawn Primarolo: The information is not available in the format requested. The latest data on obesity prevalence is available from the 2005 Health Survey for England (HSE). Table 1 shows the prevalence of obesity among men and women aged 16 and over in England in 2005.

Data on prevalence of obesity is not available for Hampshire. However, from the HSE we can provide the percentages of obesity among adults, aged 16 and over, for the Hampshire and Isle of Wight Strategic Health Authority, for the combined years 2002-04. This information is shown in table 2.

Information on obesity prevalence in Southampton is not available. However estimated prevalence of obesity among adults, aged 16 and over, along with associated confidence intervals are provided for the wards in the Southampton local authority (LA). These estimates, for the combined years 2000-02, are taken from the synthetic estimates of healthy lifestyle behaviours and are shown in table 3.

Data on the percentage of adults, aged 16 and over, who smoke are available from the 2005 general household survey. The data are not available for Hampshire, however they are available by Government office region (GOR). Data are provided on the percentage of adults who smoke in England and in the South East GOR, which incorporates Hampshire, in table 4.

Information for Southampton's smoking prevalence is not available. However, estimated prevalence of adult smokers aged 16 and over, along with associated confidence intervals are provided for the wards in the Southampton LA. These estimates are also taken from the Synthetic Estimates of Healthy Lifestyle Behaviours. These estimates are for the combined years 2000-02, and are shown in table 5.

Table 1: Prevalence of obesity among adults, by gender, 2005[1], England

	Percentage/Number
Men	22.1
Women	24.3
Bases (unweighted)	
Men	2,930
Women	3,409
Bases (weighted)	
Men	3,144
Women	3,184

[1] Data are weighted for non-response.

Obesity: Children

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the number of children classified as *(a)* overweight and *(b)* obese by the age of three years (i) at the present time and (ii) in 1997. [151071]

Dawn Primarolo: The information is not available in the exact format requested. Data on children's overweight and obesity prevalence are taken from the Health Survey for England. We can provide the prevalence of children aged two to three who are overweight or obese in England in 2002-04 combined. Data are aggregated over three years, 2002, 2003 and 2004 to achieve a sufficiently large sample for analysis at this level. These data are shown in table 1 and are published in 'Statistics on Obesity, Physical Activity and Diet, England 2006'. Copies are available in the Library and at:

www.ic.nhs.uk/statistics-and-data-collections/health-and-lifestyles/obesity/statistics-on-obesity-physical-activity-and-diet-england-2006.

We can also provide the prevalence of overweight and obesity among children aged two to 10, from 1997 to 2005. Data for 2005 are the latest data available. These data are shown in table 2 and are published in the 'Health Survey for England—Updating of trend tables to include 2005 data', and at:

www.ic.nhs.uk/statistics-and-data-collections/health-and-lifestyles/health-survey-for-england/health-survey-for-england--updating-of-trend-tables-to-include-2005-data.

Table 1: Overweight and obesity prevalence among children aged two to three, 2002-04[1] England

	Percentage
Obese	11.6
Overweight including obese	25.2
Base (unweighted)	1,130
Base (weighted)	1,232

Health Survey for England—Updating of trend tables to include 2005 data

Ovarian Cancer: Medical Treatments

Dr. Gibson: To ask the Secretary of State for Health what appraisal the National Institute for Health and Clinical Excellence has carried out on treatments for ovarian cancer. [151513]

Dawn Primarolo: The National Institute for Health and Clinical Excellence has issued technology appraisal guidance on the use of paclitaxel for ovarian cancer (updated in January 2003) and on the use of topotecan, pegylated liposomal doxorubicin hydrochloride (PLDH) and paclitaxel for the treatment of advanced ovarian cancer (May 2005).

Physiotherapy

David Taylor: To ask the Secretary of State for Health what estimate he has made of the number of physiotherapists the NHS in England will need to employ in each of the next three financial years. [150901]

Mr. Bradshaw: Workforce planning is a matter for local determination. It is for local workforce planners to determine the physiotherapy needs of their local population with appropriate support from the workforce review team (WRT), national workforce projects and NHS Employers.

Projected estimates on the future number of physiotherapists are published on the WRT website:

www.healthcareworkforce.nhs.uk/workforce_review_team/

Ritalin

Tim Loughton: To ask the Secretary of State for Health how many children were prescribed a methylphenidate in each of the last 10 years. [150652]

Ann Keen: We do not collect that information centrally. Data are, however, available on the number of prescriptions for central nervous system stimulants and drugs used for attention deficit hyperactive disorder including methylphenidate (Ritalin) dispensed to children under 16 years and those aged 16 to 18 years in full-time education.

The following table gives numbers of prescriptions by age.

Financial year	*Items under 16*	*Items 16 to 18 in full-time education*
1996-97	48,264	2,058
1997-98	86,247	3,388
1998-99	112,294	4,596
1999-2000	144,894	7,698
2000-01	171,244	7,873
2001-02	200,202	9,225
2002-03	247,115	11,935
2003-04	289,009	17,218
2004-05	338,909	24,906
2005-06	379,334	31,694
2006-07	454,797	40,339

Royal Brompton Hospital: Clostridium

Bob Spink: To ask the Secretary of State for Health what the incidence of clostridium difficile in the Royal Brompton hospital was in each of the last three years, broken down by age category of patient. [151450]

Ann Keen: The data requested are not available. Mandatory surveillance for Clostridium difficile infection in people aged 65 years and over commenced in January 2004 and covers acute national health service trusts in England rather that individual hospitals.

Reported figures for the Royal Brompton and Harefield Hospital NHS Trust are shown in the following table.

Number of reported cases of Clostridium difficile

January to December each year	*The Royal Brompton and Harefield Hospital NHS Trust*
2004	25
2005	21
2006	14

HPA

School Fruit and Vegetable Scheme

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the long-term effects of the school free fruit and vegetable programme. [151064]

Dawn Primarolo: An initial evaluation of the school fruit and vegetable scheme was carried out in November 2004. At that stage the children who participated in the evaluation had only been receiving free fruit and vegetables

since June 2004. The results provided a useful insight into the initial impact of the scheme but it was recognised that further work would need to be undertaken to measure the impact of the scheme over a longer period. In 2006 we commissioned a further evaluation of the school fruit and vegetable scheme. The report of the further evaluation will be published shortly.

School Fruit and Vegetable Scheme: Expenditure

Tim Loughton: To ask the Secretary of State for Health how much has been spent on the free fruit and vegetable programme in schools in each year since it was introduced. [151065]

Dawn Primarolo: The lottery provided £16 million towards the original pilots of the National School Fruit Scheme between 2000 and 2002. Lottery funding also provided £42 million to support scaling-up of the original pilots across five Government regions between 2002 and 2004.

The Department spent £0.75 million in 2001-02 and £0.3 million in 2002-03 on administering and evaluating the national school fruit scheme pilots.

The national rollout to all local education authority infant, primary and special schools across England of the scheme was completed at the end of 2004 and in the year 2004-05 the Department spent £28.5 million on the scheme.

From April 2005 the Department has fully funded the school fruit and vegetable. The cost of the scheme in 2005-06 was £37.83 million and £36.77 million in 2006-07.

As the scheme has developed we have been able to achieve efficiencies in the overall administration of the scheme and the supply and distribution of the fruit and vegetables which has resulted in spending on the scheme reducing over the last year.

Simvastatin

Bob Spink: To ask the Secretary of State for Health what advice the National Institute for Health and Clinical Excellence has produced on the use of statins; and if he will make a statement. [150816]

Dawn Primarolo: The National Institute for Health and Clinical Excellence (NICE) published technology appraisal guidance on "Cardiovascular Disease – Statins" in January 2006. This guidance has been placed in the Library and is available on NICE's website at www.guidance.nice.org.uk/TA94

Smoking

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the percentage of the population of *(a)* Hampshire, *(b)* England and *(c)* Southampton that smoke, broken down by (i) sex, (ii) age, (iii) religion and (iv) NHS trust. [150960]

Dawn Primarolo: The information is not available in the format requested. Data on the percentage of adults, aged 16 and over, who smoke are available from the 2005 General Household Survey (GHS), and are available by Government office region (GOR). Data are provided on the percentage of men and women, aged 16 and over, who smoke in the South East GOR which incorporates Hampshire. This information is given in table 1. The sample sizes are too small at GOR level to break down by age.

Data on the percentage of adult smokers, aged 16 and over, in England is also available from the 2005 (GHS). These are broken down by gender and age and are provided in table 2.

Data on smoking prevalence collected from surveys are not available level by religion or by national health service trust.

Information for Southampton's smoking prevalence is not available. However, the estimated prevalence of adult smokers, aged 16 and over, along with associated confidence intervals are provided for the wards in the Southampton local authority. These estimates are taken from the Synthetic Estimates of Healthy Lifestyle Behaviours and are published on the Neighbourhood Statistics website, available at:

neighbourhood.statistics.gov.uk/dissemination/Download1.do

These estimates are for the combined years 2000-02 and are shown in table 3. This information is not available broken down by gender, age, religion or NHS trust.

Table 1: Prevalence of cigarette smoking in South East GOR, by gender, 2005[1,2]

Synthetic Estimates of Healthy Lifestyle Behaviours at ward Level, 2000-02. The Information Centre, Neighbourhood Statistics 2005

Smoking: Health Hazards

Mr. Keetch: To ask the Secretary of State for Health how much was spent by the NHS on treating patients with smoking-related illnesses in Hereford constituency in the last 12 months. [150755]

Dawn Primarolo: The information requested is not centrally collected.

West Sussex Primary Care Trust: Finance

Tim Loughton: To ask the Secretary of State for Health what the cost is of the West Sussex Primary Care Trust Fit for the Future hospital reconfiguration consultation. [151063]

Dawn Primarolo: The information is not held centrally but can be obtained from West Sussex Primary Care Trust.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will place in the Library the guidance issued by his Department to local authorities in each month since January 2005 on the establishment of academies; and if he will make a statement. [149888]

Jim Knight: A large number of publications issued by my Department to local authorities include guidance on academies. The most recent specific guidance to

local authorities on academies is included in '400 Academies—Prospectus for Sponsors and Local Authorities' (ISBN: 1-84478-682-X) published in May 2007. Copies of this have been placed in the Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what value for money assessment of academies has been *(a)* completed and *(b)* planned; and if he will make a statement. [150838]

Jim Knight: The National Audit Office has examined whether the academies programme is able to meet its objectives and to deliver value for money. Its report 'The Academies Programme' was prepared under section 6 of the National Audit Act 1983 for presentation to the House of Commons in accordance with section 9 of the Act, and was published on 23 February 2007. The report examined whether the academies programme was "able to meet its objectives and to deliver value for money", and concluded that:

"Given the progress made by most academies so far in improving the quality of education for their pupils, the academies programme is on track to deliver good value for money."

Academies are a key element of the drive to raise standards; raising aspirations and creating opportunity in some of the most disadvantaged communities in the country. There are no current plans for further "value for money" reviews of the programme.

Academies: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what financial provision for academies has been made for each year from 2005-06 to 2012-13 in his Department's budget; and if he will make a statement. [149889]

Jim Knight: The following table details the financial provision for academies for each of the years in question where such provision is known.

Budgets for subsequent years will depend on the final allocation of the Department's comprehensive spending review settlement.

	Revenue	*£ million Capital*
2005-06	[1]145.5	[1]251.7
2006-07	[1]265.8	[1]385.7
2007-08	[2]565.0	[3]517.0

[1] Actual outturn
[2] Estimated outturn
[3] Current baseline

Adoption: Standards

John Hemming: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect of the targets on adoption on the numbers of children remaining with their birth families. [150788]

Kevin Brennan: A national adoption target was announced in 2000 to increase the number of adoptions of looked after children by 40 per cent. by the year ending March 2005, and to exceed this by achieving, if possible, a 50 per cent. increase by the end of March 2006.

The target related to children who were already looked after.

The Department for Children, Schools and Families collects statistics on the number of adoptions of Looked After Children in England. Relevant information is published in the document "Children Looked After By Local Authorities Year Ending March 2006" which is available at:

http://www.dfes.gov.uk/rsgateway/DB/VOL/v000721/index.shtml.

Babies: Care Proceedings

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children under the age of one had care proceedings initiated for them in each of the last three years. [151068]

Kevin Brennan: Information on the initiation of care proceedings is not collected centrally. The information provided in the table relates to the number of children looked after who became subject to a care order and were aged under one year old at the time the care order became effective.

Children looked after during years ending 31 March, 2004, 2005, 2006 aged under 1 year old who became subject to a care order[1, 2, 3]: England

Number

	Year ending 31 March		
	2004	*2005*	*2006*
Number of children aged under one year	3,000	3,100	3,100

[1] Figures include children who started to be looked after during the year as a result of a care order being granted and children who started to be looked after under any other legal status, including Section 20 of the Children Act, and subsequently became subject to a care order during the year.
[2] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 to the nearest 10 otherwise.
[3] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

SSDA903

Building Schools for the Future Programme

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what recent estimate he has made of the *(a)* annual and *(b)* net present value costs of the Building Schools for the Future programme in each year between 2003-04 and 2020-21; and if he will make a statement. [150700]

Jim Knight: Currently we are investing around £2.2 billion a year through the Building Schools for the Future programme. An announcement about the level of investment over the next spending period 2008-09 to 2010-11 will be made later this year. Beyond that, future levels of investment will depend on the outcome of future spending decisions. My Department has made no estimate of the net present value of costs.

Children in Care

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many children have been *(a)* in care and *(b)* taken into care in each year since 1990-91; if he will place in the Library a breakdown of the reasons why children went into care; and if he will make a statement. [150155]

Kevin Brennan: The number of children who were looked after during the years ending 31 March 1991 to 2006 is shown in table 1.

The number of children who were taken into care during the years ending 31 March 2002 to 2006 is shown in table 2.

"Children taken into care" are children who started to be looked after under the following legal statuses: interim or full care orders, and police protection or emergency protection or child assessment orders. They exclude children freed for adoption or for whom a placement order was granted, they exclude children under voluntary accommodation and they also exclude children under youth justice legal statuses.

The remaining information requested can be provided only at a disproportionate cost.

Table 1: All children[1] looked after at 31 March, 1991-2006[1,2], England

	Number
1991[3]	59,800
1992[3]	55,500
1993[3]	51,200
1994[3]	49,500
1995[3]	49,900
1996[3]	50,800
1997[3]	51,400
1998[4]	53,300
1999[4]	55,500
2000[4]	58,100
2001[4]	58,900
2002[4]	59,700
2003[4]	60,800
2004[3]	61,200
2005[3]	60,900
2006[3]	60,300

[1] Figures exclude children looked after under an agreed series of short term placements.
[2] Historical data may differ from older publications. In previous years' publications, this table used data from CLA100. To be consistent with tables elsewhere, data in this publication are now taken from the SSDA903 throughout, and the breakdowns may therefore differ slightly from figures in previous publications.
[3] Figures are taken from the SSDA903 return which in 1990-91 to 1996-97, 2003-04, 2004-05 and 2005-06 covered all looked after children.
[4] Figures are taken from the SSDA903 one-third sample survey.

Table 2: Looked after children taken into care during the years ending 31 March 2002 to 2006[1,2,3,4,5,6,7], England

	2002[3]	2003[3]	2004[4]	2005[2]	Number 2006[2]
England	7,400	8,100	7,500	7,700	7,600

[1] Figures exclude children looked after under an agreed series of short term placements.
[2] Figures are taken from the SSDA903 return which in 2003-04, 2004-05 and 2005-06 covered all looked after children.
[3] Figures are taken from the SSDA903 one-third sample survey.
[4] Only the first occasion on which a child was taken into care in the year has been counted.
[5] "Children taken into care" are children who started to be looked after under the following legal statuses: interim or full care orders, and police protection or emergency protection or child assessment orders. They exclude children freed for adoption or for whom a placement order was granted, they exclude children under voluntary accommodation and they also exclude children under youth justice legal statuses.
[6] Historical figures may differ from older publications. This is mainly due to the implementation of amendments sent by some local authorities after the publication date of previous materials.
[7] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 or to the nearest 10 otherwise.

Children in Care: Care Homes

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many looked after children are accommodated in independent children's homes; [150331]

(2) how many independent children's homes have been registered in each of the last five years; [150332]

(3) how many independent children's homes have been de-registered in each of the last five years; and for what reasons. [150334]

Kevin Brennan: Data on the number of looked after children who are accommodated in independent children's homes are not available from the Department for Children, Schools and Families (DCSF).

Data on the number of independent children's homes that have been (a) registered and (b) de-registered in each of the last five years are not held centrally by the Department for Children, Schools and Families (DCSF).

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what the average annual cost is of housing a looked after child in an independent children's home. [150333]

Kevin Brennan: The average annual cost of a placement for a looked after child in an independent children's home in England for 2005-06 (the latest year for which figures are available) was £120,000.

Children in Care: East Sussex

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how many newborn babies were taken into care in *(a)* Eastbourne and *(b)* East Sussex in the last 12 months. [151370]

Kevin Brennan: The number of newborn babies, aged seven days or less, taken into care in England for year ending 31 March 2006 was 670. Of these, 10 were the

responsibility of East Sussex local authority. The corresponding number for Eastbourne is unknown as information is collected at local authority level.

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families what representations he received on the number of newborn babies taken into care in *(a)* Eastbourne and *(b)* East Sussex in the last 12 months. [151371]

Kevin Brennan: The information requested can be provided only at a disproportionate cost.

Children: Adoption

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children have been adopted in each of the last 10 years, broken down by age. [150330]

Kevin Brennan: Statistical information on the total number of adoptions in England and Wales by age of child for the years 1995-2005 is included in table 6.2b in the Statistics Series "Marriage, divorce and adoptions", volume FM2, published by the Office for National Statistics. A copy of this publication is available in the House Library and on the National Statistics website at

www.statistics.gov.uk/downloads/theme_population/FM2no32/FM2_32.pdf

Statistics for 2006 have not yet been published.

Children: Care Orders

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what percentage of children subject to a care order attend *(a)* a community school, *(b)* a foundation school, *(c)* a specialist school, *(d)* a city technology college, *(e)* an academy, *(f)* a community or foundation special school, *(g)* a faith school and *(h)* a grammar school. [150743]

Kevin Brennan: The information requested is not available.

We are determined to improve outcomes for all children in care. Our recent White Paper Care Matters: Time for Change sets out specific proposals to improve their education. This includes: a £500 educational allowance for children in care at risk of falling behind at school; putting the 'designated teacher' on a statutory footing to improve the expertise in schools; appointing 'virtual school heads' to oversee their education; improving attendance and reducing exclusions; reducing mobility of school placements, particularly in the crucial years before GCSEs; and a bursary of a minimum of £2000 for all children in care who go on to university.

These proposals build on the measures already in place: a specific duty on local authorities to promote the educational achievement of children in care and a requirement to give them the highest priority in school admission arrangements.

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families in what circumstances sensitive material, as defined by the Data Protection Act 1998, will appear on the ContactPoint database. [150734]

Kevin Brennan: ContactPoint will not hold detailed case information. In addition to basic identifying information for the child or young person, it will hold only contact details for the parent or carer, and for practitioners providing services to a child or young person. In the case of sensitive services—defined as sexual health, mental health or substance abuse—practitioner contact details will only be added to ContactPoint with informed, explicit consent. ContactPoint will also have the facility for practitioners to indicate to others if they are a lead professional and have undertaken a common assessment, in relation to a child or young person.

ContactPoint has developed a strong, collaborative relationship with the Information Commissioner's Office based on a shared desire to ensure that ContactPoint operates within the Data Protection Act. Richard Thomas, the Information Commissioner has recently written to the Project Director and confirmed that

"The information that you require to populate ContactPoint is of an administrative nature, it reveals nothing about an individual's health or condition and it does not strike me as sensitive."

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how the effectiveness of the ContactPoint Audit system will be monitored. [150746]

Kevin Brennan: ContactPoint will identify all users seeking access through a method of strong authentication involving physical security tokens, PIN numbers and passwords. Where access is mediated, ContactPoint will authenticate the identity of both the user and the mediator to the same high level. All ContactPoint activity will be audited, including the query parameters and the results returned.

User managers will regularly run analysis reports that will highlight potential inappropriate usage patterns for investigation. In addition, random samples of activity will be automatically extracted and analysed. The ContactPoint central team will monitor user managers to ensure that the audit reports are being run.

These measures provide a high level of assurance that the ContactPoint audit function is robust, and activity can be correctly attributed to an individual authorised user.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families in what circumstances people will have access to ContactPoint without having first undergone a Criminal Records Bureau check. [150747]

Kevin Brennan: The only users who will be granted to access ContactPoint, without undergoing an enhanced Criminal Records Bureau (CRB) check, will be authorised members or employees of a police authority, a chief officer of police for a police area in England, or officers of the British Transport Police Authority. Their access will be granted by virtue of the fact that all officers and staff undergo equivalent vetting and checks but not the enhanced CRB check itself.

Children: Mental Health Services

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what steps he is taking to improve access to mental health services for children; and if he will make a statement. [150750]

Jim Knight: The CAMHS Standard of the Children's National Service Framework for England (published September 2004) set out a 10 year programme of improvements for child and adolescent mental health services (CAMHS). The aim is that all children and young people, from birth to their eighteenth birthday, who have mental health problems and disorders, will have access to timely, integrated, high quality multidisciplinary mental health services to ensure effective assessment, treatment and support, for them, their parents or carers, and other family members.

This commitment to improve CAMHS has been backed by significant additional funding, over £400 million in the last four years, to local authorities and the NHS. We will continue to build on these improvements and ensure that the promotion of children's mental health and emotional well being remains a priority for schools and children's services.

City Academies: Sponsorship

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families with which potential sponsors of city academies his Department is holding discussions. [148917]

Jim Knight: Potential sponsors are those who have not yet formally entered into a funding agreement. Those who have projects which are in the public domain are listed as follows.

A number of potential sponsors are in very early discussions about academy projects. Their details have therefore not been provided.

The list of potential sponsors the Department is currently in discussions with are:

Absolute Return for Kids (ARK),

Classroom Assistants

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what change there has been in the number of teaching assistants in England since 1996-97; what assessment he has made of the effects of that change on levels of pupil attainment; and if he will make a statement. [150691]

Jim Knight: In January 2007, there were approximately 162,900 (full-time equivalent) teaching assistants in schools in England. This is an increase of 102,300 since 1997, more than doubling the number of teaching assistants.

The Department for Children, Schools and Families, in conjunction with the Welsh Assembly Government, have commissioned a five-year research study (2004-09) to provide a detailed analysis of the impact of support staff on teaching and learning, in addition to comprehensive and reliable information on the types, characteristics and deployment of support staff (including teaching assistants) in schools in England and Wales. Early findings published in 2006 (Blatchford et al, DfES Research Report 776) suggested that many teachers felt support staff were having a positive effect on pupil learning and behaviour. Teachers also felt that support staff benefited their teaching in a number of ways, for example, by allowing them to differentiate the work for more pupils. Subsequent publications will report in more detail on the role of support staff in teaching and learning and provide a systematic analysis of the effect of support staff on pupil outcomes, including attainment.

In 2002, Ofsted reported that

"In virtually every year group and at every level of free school meal eligibility, the quality of teaching in lessons with teaching assistants is better than in those without".

(Applies to primary only. Source: Teaching Assistants in Primary Schools: An Evaluation of the Quality and Impact of their Work April 2002).

In 2006, the National Foundation for Educational Research concluded that

"In departments that had dedicated support staff, both teachers and departmental heads were significantly more satisfied with the amount and quality of in-class support and administrative support they received. There was evidence that being based in one department was also of benefit to the support staff themselves, both in terms of their overall satisfaction and access to professional development."

(Source: The deployment of teachers and support staff to deliver the maths and science curriculum in secondary schools—NFER 2006).

In January 2003, the National Agreement, "Raising Standards, Tackling Workload" was signed by the Government, employers, and the majority of the school work force unions. The agreement set out the shared vision for the school work force of the future and featured a series of phased reforms to help schools raise standards of achievement of all their pupils and tackle work load issues. It is vital that schools make the most effective use of teachers' time, ensuring that they spend their time only on activities that really need the professional skills and judgment of a teacher. The increased use of teaching assistants (and other support staff) in schools, providing high quality support in the classroom and by taking on a number of administrative tasks previously carried out by teachers, has therefore been integral to the Government's drive to raise standards for pupils and tackle teacher work load.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many teaching assistants are employed in each *(a)* Government region and *(b)* local education authority. [151182]

Jim Knight: The following tables provide the number of full-time equivalent teaching assistants employed in local authority maintained schools in England by Government Office region and local authority, January 2006.

Local authority figures for January 2007 are expected to be published on 27 September.

Climate Change: Curriculum

Dr. Alasdair McDonnell: To ask the Secretary of State for Children, Schools and Families what provision is made in the national curriculum for educating children about renewable energy; and what measures are in place to ensure that all school children are suitably educated about climate change. [150611]

Jim Knight: Under both the current national curriculum in England for science and the new science curriculum to be taught in schools from September 2008, pupils aged 11-14 are taught about renewable energy and the possible impact of human activity, such as the burning of fossil fuels, on the environment. The current geography curriculum for 11 to 14-year-olds requires pupils to be taught about resource planning and management issues, for example developing alternative energy sources. From September 2008, 'environmental interaction and sustainable development' will be one of the key concepts in the new geography curriculum for 11 to 14-year-olds with a requirement to study climate change.

In May 2007, DCSF and DEFRA sent a climate change pack to every secondary school in England. The online teacher guidance accompanying the pack provides material to support the teaching of climate change in geography, science and citizenship. The pack is part of the wider DCSF Sustainable Schools programme which aims to embed sustainability in the curriculum, how schools operate (eg reducing energy usage) and in their work with the local community www.teachernet.gov.uk/sustainableschools. In addition to work being supported by DCSF, DEFRA have sponsored a number of projects aimed at raising awareness of climate change through the Climate Challenge Fund. Seventeen out of the 83 projects have schools as their main audience or have specifically targeted aspects of their project, www.climatechallenge.gov.uk. The Department for Business, Enterprise and Regulatory Reform (BERR) has developed programmes for renewable energy education for primary and secondary schools www.berr.gov.uk/energy/sources/renewables/renewables-schools. BERR has provided grant funds to hundreds of schools for installations of microgeneration on their properties, and currently provides these through phase 2 of the Low Carbon Buildings Programme www.lowcarbonbuildingsphase2.org.uk.

Creative Partnerships Initiative: Disadvantaged

Mr. Allen: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of the ability of schools in disadvantaged communities to pay 50 per cent. of the costs of engagement in the Creative Partnership programme; and if he will make a statement; [150905]

(2) what plans he has to increase funding to extend the Creative Partnership programme to more schools in England; and if he will make a statement. [150906]

Jim Knight: We are currently considering options for the future funding of the Creative Partnerships programme beyond 2008.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Children, Schools and Families how many people in his Department and its predecessor have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149197]

Kevin Brennan: From May 2006 to June 2007 in the Department, and its predecessor, one person was disciplined for inappropriate use of the internet while at work, and one person was disciplined for using work telephones to access premium rate telephone numbers.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Children, Schools and Families what legislative provisions introduced by his Department's predecessor since 1997 have been repealed. [149585]

Kevin Brennan: The following table sets out the legislative provisions, introduced by my Department's predecessors in relation to England since 1997, that have been repealed:

Act	*Section*	
Teaching and Higher Education Act	section 20	Inspection of institutions training teachers for schools
School Standards and Framework Act 1998	section 2	Plans by LEAs for reducing infant class sizes

Act	Section	
	section 6	Preparation of Education Development Plans
	section 7	Approval, modification and review of statement and proposals
	section 13	Disapplication of Pay and Conditions Order in relation to teachers and participating schools
	sections14-19	Intervention in schools causing concern—amended to apply to Wales only
	section 24	School Organisation Committees
	section 26	School Organisation Plans
	section 26A	Plans of local Learning and Skills Councils
	sections 28, 29, 31, 32, 33, 34 and 35	Amended to apply to Wales only in respect of school organisation
	sections 36-44	Government of maintained schools
	sections 54-57	Staffing and conduct of schools
	sections 64-68	Exclusion of pupils
	section 91	Special arrangements to preserve religious character of foundation or voluntary aided schools
	section 93	Fixing admission numbers
	sections 115-116	LEA functions concerning school lunches
	sections 120 and 121	Early years development and childcare plans
	sections 122-134	Publication of inspection reports
	section 135	Inspection

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Children, Schools and Families how many ministerial red boxes his Department and its predecessor bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150486]

Kevin Brennan: Red boxes are ordered as and when they are needed from the Department's stationery supplier, Business Banner Supplies. Ministerial boxes are used by successive Ministers over many years.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Children, Schools and Families how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149258]

Kevin Brennan: No complaints of racial abuse were investigated in my Department, and its predecessor, in the last 12 months. Formal complaints of racial abuse would be investigated quickly and thoroughly and, where complaints were upheld, appropriate disciplinary action would be taken. All cases are treated seriously.

The Department believes that each and every individual has the right to be treated fairly, with dignity and respect. As such, we do not tolerate unacceptable behaviour towards others. The overall aim of our harassment and bullying policy is to prevent such unacceptable behaviour occurring but, where it does occur, to ensure that appropriate and effective action is taken to deal with it and prevent it happening again. This applies to everyone in the Department. Every individual is personally responsible for their own behaviour, and every manager is responsible for enforcing the policy in accordance with the guidance and procedures set out in our staff handbook.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what evidence he has evaluated on whether there has been grade inflation in *(a)* GCSEs and *(b)* A levels since 1990; and if he will make a statement. [151195]

Jim Knight: It is for the Qualifications and Curriculum Authority (QCA) as the independent regulator to act to ensure that standards in both GCSE and A level are maintained. Since 1997, QCA has carried out reviews of standards in a wide range of A level and GCSE subjects. The reports are available on their website at http://www.qca.org.uk

The Independent Committee on Examination Standards chaired by Dr. Barry McGaw, Director for Education at OECD, published its findings about A levels in December 2004. The report concluded that:

> no examination system at the school or other level is so tightly or carefully managed;
>
> strategies for maintaining comparable examination standards across awarding bodies are adequate to the task;

the awarding bodies have broadly consistent and well-regulated systems for setting question papers, managing marking and awarding grades; and

QCA has robust systems in place to monitor and regulate the work of the awarding bodies.

The improvements we have seen reflect the hard work of pupils and teachers supported by record investment; double the number of support staff and billions invested in rebuilding schools.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his policy is on the use of multiple choice questions in GCSE English exams; and if he will make a statement. [151196]

Jim Knight: It is for the Qualifications and Curriculum Authority (QCA) as the independent regulator to ensure that exams are fit for purpose and to make judgments on how to govern the use of multiple choice questions.

While elements of multiple choice testing may be included, this would be within the context of an exam that maintains the high standards of GCSE and requires a suitably challenging breadth and depth of knowledge. For instance, candidates will still have to read Shakespeare, write essays and give reasoned, individual responses to texts to pass English GCSE.

Education: Departmental Responsibilities

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families for which public service agreement targets of the former Department for Education and Skills his Department now has responsibility. [147741]

Kevin Brennan: The Department is responsible for the following PSA targets, each of which were agreed between the former Department for Education and Skills and HM Treasury as part of the 2004 Spending Review:

1. Improve children's communication and social and emotional development so that by 2008 53 per cent. of children reach a good level of development at the end of the Foundation Stage; and reduce inequalities between the level of development achieved by children in the 30 per cent. most disadvantaged Super Output Areas and the rest of England by four percentage points from 16 per cent. to 12 per cent. (Joint with the Department for Work and Pensions)

2. As a contribution to reducing the proportion of children living in households where no-one is working, by 2008: increase the stock of Ofsted-registered childcare by 10 per cent.; increase the number of children in lower-income working families using formal childcare by 120,000; and introduce by April 2005 a successful light-touch child care approval scheme. (Joint with the Department for Work and Pensions)

3. Reduce the under-18 conception rate by 50 per cent. by 2010 as part of a broader strategy to improve sexual health. (Joint with the Department of Health)

4. Halt the year-on-year rise in obesity among children under 11 by 2010 in the context of a broader strategy to tackle obesity in the population as a whole. (Joint with the Department of Health and the Department for Culture, Media and Sport)

5. Narrow the gap in educational achievement between looked after children and that of their peers; and improve their educational support and the stability of their lives so that by 2008 80 per cent. of children under 16 who have been looked after for 2.5 or more years will have been living in the same placement for at least two years, or are placed for adoption.

6. Raise standards in English and mathematics so that: by 2006, 85 per cent. of 11-year-olds achieve level 4 or above, with this level of performance sustained to 2008; and by 2008 the proportion of schools in which fewer than 65 per cent. of pupils achieve level 4 or above is reduced by 40 per cent.

7. Raise standards in English, mathematics, ICT and science in secondary education so that: by 2007 85 per cent. of 14-year-olds achieve level 5 or above in English, mathematics and ICT (80 per cent. in science) nationally, with this level of performance sustained to 2008; and by 2008 in all schools at least 50 per cent. of pupils achieve level 5 or above in English, mathematics and science.

8. Improve levels of school attendance so that by 2008, school absence is reduced by 8 per cent. compared to 2003.

9. Enhance the take-up of sporting opportunities by 5 to 16-year-olds so that the percentage of school children in England who spend a minimum of two hours each week on high quality PE and sport within and beyond the curriculum increases from 25 per cent. in 2002 to 75 per cent. by 2006 and to 85 per cent. by 2008, and to at least 75 per cent. in each School Sport Partnership by 2008. (Joint with the Department for Culture, Media and Sport)

10. By 2008, 60 per cent. of those aged 16 to achieve the equivalent of 5 GCSEs at grades A*-C; and in all schools at least 20 per cent. of pupils to achieve this standard by 2004, rising to 25 per cent. by 2006 and 30 per cent. by 2008.

11. Increase the proportion of 19-year-olds who achieve at least level 2 by three percentage points between 2004 and 2006; and a further two percentage points between 2006 and 2008, and increase the proportion of young people who achieve level 3.

12. Reduce the proportion of young people not in education, employment or training (NEET) by two percentage points by 2010.

Extended Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of schools he expects to provide extended hours services in each year to 2011; and if he will make a statement. [149099]

Kevin Brennan: Our target is for all schools in England to be providing access to the extended schools full core offer of services by 2010 with half of all primary schools and a third of all secondary schools providing these services by September 2008. To help us meet our target we are aiming to have 6,000 schools delivering access to the full core offer of services by September 2007. With over 5,700 schools already providing these services, we are making excellent progress towards meeting our target.

The extended schools core offer of services includes primary schools providing access to child care from 8 am to 6 pm all year round in response to demand, all schools offering access to a range of study support activities beyond the school day, parenting support, swift and easy referral and opening up facilities to the wider community.

Family Courts

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families if he will publish in full responses received to the Government's consultation on improving transparency and privacy in family courts; and what action he proposes to take as a result of the consultation. [150927]

Bridget Prentice: I have been asked to reply.

The Government published the consultation 'Confidence and confidentiality: Improving transparency and privacy in family courts' on 11 July 2006. The consultation paper and the response paper (published on 22 March 2007) can be found at:

http://www.dca.gov.uk/consult/courttransparencey1106/cp1106.htm.

Copies of the responses will be sent to the hon. Member shortly.

Having carefully considered the range of views expressed in the consultation, we concluded that a new approach was needed to improve confidence in the family courts. This would focus on information coming out of the courts rather than who could attend proceedings.

The Government published a further consultation paper on 20 June 2007, setting out what we intend to do and inviting views on a small number of additional proposals. This can be found at:

http://www.justice.gov.uk/publications/cp1007.htm.

Copies will also be placed in the Libraries of the House.

Foster Care: Poole

Mr. Syms: To ask the Secretary of State for Children, Schools and Families how many foster parents are required in the Poole area to meet demand for placements. [151577]

Kevin Brennan: Data on the number of foster parents who are required in the Poole area to meet the current demand for placements are not collected centrally by the Department for Children, Schools and Families (DCSF).

Foundation Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools have taken up *(a)* foundation and *(b)* trust status. [150802]

Jim Knight: There are 927 foundation schools and 15 foundation special schools as of the 17 July 2007.

Trust Schools are foundation schools that have acquired a foundation established otherwise than under the School Standards and Framework Act 1998. Prior to the commencement of the relevant provisions of the Education and Inspections Act 2006 (25 May 2007), foundation schools did not have to follow a statutory process to acquire a foundation. The Department accordingly did not collect information on how many foundation schools acquired foundations before this date.

There are over 200 schools currently working towards acquiring Trust status—over 140 primary, secondary and specials schools, alongside 69 full pathfinder schools. As of the present time, no schools have implemented proposals to become foundation schools with foundations (Trust Schools) under the Education and Inspections Act 2006. However, the first of the pathfinder schools plan to become Trust schools from September 2007.

General Certificate of Secondary Education: Mathematics

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what the mark required for an A grade in GCSE in mathematics was in each year since 1988-89; [149077]

(2) what average mark was required to achieve a grade *(a)* A, *(b)* B, *(c)* C and *(d)* E for GCSE (i) mathematics, (ii) English, (iii) physics and (iv) history in each year since 1990-91; and if he will make a statement. [149141]

Jim Knight: This information is not held centrally.

Head Teachers: Retirement

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of headteachers in England are within *(a)* one year, *(b)* two years, *(c)* three years, *(d)* five years and *(e)* 10 years of standard pension age; and if he will make a statement. [150805]

Jim Knight: The normal pension age (NPA) of teachers who entered service before 1 January 2007 is 60. Entrants to the profession from that date have a NPA of 65. NPA is the age at which members of the teachers' pension scheme can retire without any actuarial reduction to their pension benefits.

The following table provides the percentage of full-time head teachers in service in the maintained schools sector in England within one year, two years, three years, five years and 10 years of the NPA 60, in March 2005, the latest information available.

Full-time head teachers in maintained sector schools in England, percentage in service by number of years before the normal pension age (age 60), March 2005 (provisional)

Years before NPA	*Percentage of head teachers*[1]
Less than:	
1	2.1
2	6.2
3	11.3
5	23.9
10	57.7

[1] Percentages are cumulative

Source:
Database of Teacher Records.

Reforms of the teachers' pension scheme that were introduced in January 2007—and which include a NPA of 65 for new entrants—included new provisions that are specifically aimed at encouraging teachers to extend their working lives. These new provisions will provide a real and attractive alternative to teachers' traditional approach to retirement.

The National College for School Leadership is currently undergoing an extensive programme of work on succession planning.

Health Education: Alcoholic Drinks

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families how much he has allocated for the provision of alcohol awareness programmes in schools over the next three years; and how much was spent on such programmes in each of the last three years. [150414]

Kevin Brennan: The Government recently published the new Alcohol Strategy for England, which highlights young people as one of three priority groups. Alcohol education is delivered alongside education on drugs and volatile substances as part of Personal Social and Health Education, and is a vital element of the current approach.

DCSF does not provide ring-fenced funding for schools' drug education lessons, which are funded from schools' general budgets.

The Government provide ring-fenced funding to prevent substance misuse among young people. The Young People's Substance Misuse Partnership Grant (YPSMPG) is made available to local authorities for the provision of universal, targeted and specialist responses commissioned and delivered at locally, based on their area's needs and priorities. The grant funds a range of different projects across the country determined at local level, which are available for young people.

The grant brings together into a single pot funding from the Home Office, the Department of Health, the Youth Justice Board and the Department for Children, Schools and Families. The following table details the total YPSMPG expenditure for the past five years (note that the first year, 2003/04, was a pilot year in 27 local authority areas):

	£ million
2003/04	[1]14.9
2004/05	58.8
2005/06	66.6
2006/07	64.1
2007/08	55.5

[1] YPSMPG pilot in only 27 local authorities

The YPSMPG is used in addition to mainstream funding to provide a comprehensive range of services for young people up to 18 years:

Universal—substance misuse education, information and advice and prevention campaigns

Targeted—early identification, assessment and prevention interventions with vulnerable young people in risk groups

Specialist—provision of specialist substance misuse treatment for under 18's

In addition to supporting the work of local partnerships, The Government fund specific programmes targeting messages for young people about substances, including the FRANK campaign which has become a credible source of information and advice for young people and their parents. The cross departmental campaign was launched in 2003 funded by Home Office and Department of Health, with the Department for Children Schools and Families contributing from 2006/07.

	£ million
2003/04	4.25
2004/05	4.30
2005/06	6.17
2006/07	9.05

The Government are committed to expanding and improving the quality of school drug education (Inc tobacco, alcohol, volatile substance), through encouraging the development of well structured high quality programmes of PSHE across all key stages.

The national health schools standard requires schools to demonstrate effective PSHE provision. The Government have also invested over £6 million on Blueprint, the largest research programme ever run in this country designed to test the effectiveness of a multi-component approach to drug education, involving an intensive set of school lessons for 11-13 year olds supported by work with parents, communities, health professionals and local media. The full results of the programme will be available over the next 12 months or so.

Health Education: Drugs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how much has been spent on *(a)* drug awareness, *(b)* alcohol awareness and *(c)* volatile substance abuse programmes aimed at school age children in each of the last five years; and if he will list the projects funded. [150343]

Kevin Brennan: The Government are committed to reducing substance misuse related harm among young people, including harm arising from the misuse of drugs, alcohol and volatile substances. Education and awareness on these substances is a vital element of the current approach, and we have issued schools with guidance on drugs education. DCSF does not provide ring-fenced funding for schools' drug education lessons, which are funded from schools' general budgets.

The Government provide ring-fenced funding to prevent substance misuse among young people. The Young People's Substance Misuse Partnership Grant (YPSMPG) is made available to local authorities for the provision of universal, targeted and specialist responses commissioned and delivered locally, based on their area's needs and priorities. The Government are committed to expanding and improving the quality of school drug education (inc. tobacco, alcohol, volatile substance), through encouraging the development of well structured high quality programmes of PSHE across all key stages. The National Health Schools Standard requires schools to demonstrate effective PSHE provision. The Government have also invested over £6 million on Blueprint, the largest research programme ever run in this country designed to test the effectiveness of a multi-component approach to drug education, involving an intensive set of school lessons for 11 to 13-year-olds supported by work with parents, communities, health professionals and local media. The full results of the programme will be available over the next 12 months or so.

The Department of Health lead on the Framework for Volatile Substance Abuse targeted at children and young people (launched on 20 July 2005). The document called "Out of Sight?...not out of mind" outlines a number of key recommendations that the Government intend to take forward in partnership with key stakeholders at local, regional and national level.

The stated aims of the VSA Framework are to:

Provide effective education on VSA to all children and young people, including the most disadvantaged

Provide effective targeted interventions for children and young people abusing or at risk of abusing volatile substances

Reduce the availability and accessibility of volatile substances, with a focus on butane gas lighter refills

Build the capacity of parents, carers and practitioners to identify and work effectively with children and young people who are abusing or at risk of abusing volatile substances

Increase the evidence base with regard to what works in reducing deaths and harm from VSA.

Health Education: Sex

Andrew George: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of the teaching of sex and relationships education in schools; and what plans he has to standardise teaching according to age and content; [148570]

(2) if he will make sex and relationships education a mandatory part of personal, social and health education; [148571]

(3) whether he plans to employ more specially-trained staff to deliver sex and relationship education; [148472]

(4) whether he plans to incorporate information about lesbian, gay, bisexual and transgender relationships into sex and relationship education. [148473]

Jim Knight: The Department has not undertaken or commissioned any recent assessment of sex and relationship education (SRE) in schools. Ofsted is responsible for assessing the quality of schools' provision in the area of personal, social and health education (PSHE), including SRE, through its inspection framework and subject reports, and last reported on SRE in "Sex and Relationships Education in Schools" in 2002.

The Department's "Sex and Relationship Education Guidance" for schools outlines their responsibilities in this area and provides information on the issues to be covered at each of the four key stages, taking account of the age and the physical and emotional maturity of the young people. The guidance is clear that schools need to make sure that SRE meets, and is sensitive to, the needs of all pupils whatever their developing sexuality. Pupils should be helped to understand difference and respect themselves and others in order to prevent and remove prejudice.

Certain aspects of SRE must be delivered as part of the statutory curriculum for science, and legislation requires that head teachers and school governing bodies must have regard to the Department's guidance when delivering a broader range of SRE within the framework for PSHE. All schools are expected to meet the statutory requirements and have an up-to-date policy on SRE. Beyond this, there are no plans to regulate SRE further, as this would be contrary to curriculum reforms designed to give schools greater flexibilities.

It is for schools to determine whom they employ to deliver any area of the curriculum. We are however committed to helping schools improve their planning and delivery of this important area, and there is a Government-funded continuing professional development programme for PSHE, which all teachers of SRE are encouraged to undertake. The programme, which is also open to community nurses, supports standards in the delivery of PSHE teaching, including SRE. To date, over 6,000 teachers and nurses have benefited from the programme.

Other measures to support high quality SRE provision include:

(1) The Department's funding for a new PSHE subject association. The association provides support and advice to teachers in all areas of PSHE, including SRE;

(2) Increased funding (£13.2 million) in 2007-08 for the national Healthy Schools Programme. This key programme requires schools, for the purposes of accreditation, to demonstrate that they have a SRE programme in line with DCSF guidance. We expect all schools to have reached or be working towards Healthy School status by 2009;

(3) Detailed guidance to teachers from the Qualifications and Curriculum Authority, covering how schools can evaluate what young people are learning through PSHE, including SRE; and

(4) Developing a SRE pupil assessment tool for use by schools and teachers to establish whether SRE provision is meeting the needs of the young people receiving it.

Local Education Authorities: Inspections

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will make a statement on his plans for the inspection of local education authorities. [150701]

Jim Knight: The Secretary of State has no plans to request separate inspections of local authority education functions. These functions are within the scope of Ofsted's annual performance assessments of children's services, and of joint area reviews of children's services by Ofsted and other inspectorates. The Secretary of State has approved a timetable for a programme of joint area reviews, to cover every local authority in England between 2005 and 2008.

Playing Fields

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools sold their playing fields in each of the last 10 years, broken down by local authority. [151334]

Kevin Brennan: In the last 10 years the Secretary of State has approved 187 applications that involve the sale of an area of land capable of forming a sports pitch of at least 0.2 hectares at schools in England. The analysis is shown in the following table.

Local authority	*Total*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*

Primary Education: Class Sizes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the annual cost of reducing class sizes at Key Stage 1 in English schools to *(a)* 20 or fewer and *(b)* 25 or fewer. [150696]

Jim Knight: There is no clear evidence that further reductions in the infant class size limit from 30 would have further impact on overall pupil attainment, and therefore we have not done any work in costing this. Teachers, supported by teaching assistants, are free to organise their classes into small groups if they consider it will benefit individual pupils' learning.

Private Education: Per Capita Costs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of capital spending per pupil by independent schools in England; and if he will make a statement. [149100]

Jim Knight: These data are not collected by the Department. However, the 2007 Independent Schools Council Census, comprising 1,276 schools and around 80 per cent. of pupils in the independent sector, indicates that capital expenditure per pupil for the schools included in the census was on average £1,387 per pupil in 2006-07.

Pupil Exclusions: Greater London

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families how many school exclusions there were in each London borough in each of the last 10 years; and if he will make a statement. [149400]

Jim Knight: Data on school exclusions for all local education authorities in England, including those for London and covering the years 1997/98 to 2005/06, have been placed in the House Library.

Pupils: Absenteeism

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the total number of unauthorised absences was in each *(a)* government region and *(b)* local education authority in each year since 1997. [151175]

Jim Knight: Figures on the percentage of unauthorised absence for each local authority from 1997 onwards is available in the House of Commons Library. Figures on the total number of unauthorised absence broken down by local authority and government office region are available only at a disproportionate cost.

Unauthorised absence is absence without leave from a teacher or other authorised representative of the school. This includes all unexplained or unjustified absences, such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy.

Pupils: Allergies

Bob Spink: To ask the Secretary of State for Children, Schools and Families (1) if he will commission research on the performance of pupils with hay fever at *(a)* GCSE and *(b)* A level; and if he will make a statement; [150818]

(2) if he will take steps to ensure that advice is provided by the Joint Council for Qualifications to examination centres on provision to be made for those affected by hay fever during an examination. [150845]

Jim Knight: I am satisfied that the current arrangements are sufficient to ensure that students who suffer from hay fever are not disadvantaged in taking general qualifications such as GCSEs and A levels. Under the annual regulations and guidance on Access Arrangements and Special Consideration produced by the Joint Council for Qualifications (JCQ) on behalf of the awarding bodies, candidates who suffer from hay fever on the day of an examination may apply via their examination centre for "special consideration", which can result in an increase in their marks by up to 2 per cent., depending on the circumstances. The JCQ sends these regulations each year to all examination centres and they are also available on the JCQ's website.

Pupils: Discipline

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what plans he has to use Ofsted to improve behaviour in schools. [149937]

Kevin Brennan: Inspectors make a judgment about standards of behaviour every time they inspect a school. Ofsted will further strengthen their focus on behaviour by giving inspectors additional guidance that clearly identifies the characteristics of satisfactory and inadequate standards of behaviour. Ofsted inspectors will continue to make monitoring visits to schools judged to have inadequate standards of behaviour to make sure they improve.

Ofsted will also strengthen the behaviour-related aspects of the school self-evaluation form. This provides the opportunity for schools to identify the proportion of lessons where pupils do not make the progress they should as a result of low level disruption or the bad behaviour of individuals.

Taken together, these changes will provide an even stronger incentive for schools to maintain high standards and improve them where they are currently not good enough.

Pupils: Fingerprints

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what guidance his Department has issued to schools about the collection of fingerprints from children. [150344]

Jim Knight: Guidance on the use of biometric technologies in schools will shortly be issued by the British Educational Communications and Technology Agency (Becta) on behalf of my Department.

Pupils: School Choice

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many children were placed in schools other than their first place preference school in each local education authority in each year since 1996-97. [150839]

Jim Knight: We do not collate this information centrally.

Pupils: Special Educational Needs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of schools have more than *(a)* 50 per cent. of pupils on the special needs register, *(b)* 30 per cent. of pupils on the special needs register, *(c)* 20 per cent. of pupils on the special needs register, *(d)* 10 per cent. of children with statements and *(e)* 20 per cent. of children with statements. [150675]

Jim Knight: Information on the number and percentage of pupils with Special Educational Needs (SEN) in schools is published in a Statistical First Release "Special Educational Needs in England, January 2007" and is available on the Department's Research and Statistics Gateway at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000732/index.shtml

School Census

School Leaving

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his estimate is of the cost to the Exchequer in *(a)* 2007-08, *(b)* 2008-09, *(c)* 2009-10, *(d)* 2010-11 and *(e)* 2011-12 of raising the education leaving age to 18 years; and if he will make a statement. [149894]

Jim Knight: We plan to raise the participation age to 17 from September 2013 and 18 from September 2015. This will not involve additional costs over current plans in 2007-08, 2008-09 and 2009-10. We estimate that it will incur additional capital costs of £28.2 million in 2010-11 and £19.7 million in 2011-12, and additional training costs of £0.2 million in 2010-11 and £0.5 million in 2011-12.

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number and proportion of English school pupils taking *(a)* hot and *(b)* cold school lunches in each reporting period in each year since 1990-91; and if he will make a statement. [150671]

Kevin Brennan: The Department does not collect data about the number and proportion of English school pupils taking hot and cold school lunches.

There is no requirement on authorities or schools to provide a hot school lunch. However, most authorities do offer pupils a hot meal and the transitional funding for school food we are providing authorities between 2005 and 2008 (£220 million for 05-08) is conditional upon local authorities developing plans to begin the reintroduction of hot meals by 2008.

Schools: Aerials

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many mobile telephone masts in each local education authority area are sited *(a)* on and *(b)* within one mile of (i) primary and (ii) secondary school property. [151157]

Jim Knight: We do not hold this information but there is a website[1] operated by the Office of Communications that gives information on the location and operating characteristics of all mobile phone base stations in the United Kingdom.

[1] http://www.sitefinder.ofcom.org.uk/

Schools: Construction

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many new schools were established in England in each year since 1980-81. [150702]

Jim Knight: The number of schools opened in England between 1980 and 2007 are given in the following table. To date, there are some 52 schools proposed to open in 2008, though, of course, this figure is subject to change.

It must be noted that, prior to 2002, school details were recorded on three separate databases which did not demand school opening dates. Therefore, while the figures given are correct as recorded, they should be viewed within this context.

Numbers of schools opened between 1980 and 2007

Year of opening	Number opened
1980	[1]—
1981	[1]—
1982	[1]—

Numbers of schools opened between 1980 and 2007

2006	138
2007	186
Total	1,599

[1] No data

Source:
EduBase

The figures include schools that opened as a result of the amalgamation or merger of two or more schools; schools that have closed but reopened as voluntary schools with a religious character; and schools that have opened in local authorities that have moved from a three-tier to a two-tier system.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) how many schools in each local education authority *(a)* have been built since 1997 and *(b)* are planned to be built; [151224]

(2) how many schools in each local education authority have been built since the Education and Inspections Act 2006 came into force; and how many plans for new schools to be built have been drawn up since then; [151225]

(3) what percentage of schools that decided to rebuild at least 70 per cent. or more of their existing floor space were rebuilt with private finance initiative funding in each of the last 10 years, broken down by local education authority; [151462]

(4) which local education authorities have made plans to rebuild less than 70 per cent. of their floor space of schools since 1997; [151526]

(5) what percentage of the schools which have decided to rebuild less than 70 per cent. of existing floor space of schools since 1997 was funded by *(a)* a design and build conventional capital and *(b)* private finance initiative funding; [151533]

(6) how many local education authorities have made plans to rebuild at least 70 per cent. or more of the existing floor space of a school since 1997, broken down by local education authority. [151535]

Jim Knight: We hold only some of this information centrally.

Earlier this year we collected data from all education authorities on their schools building investment. This includes, for instance, the number of new schools built each year over the past 10 years, either as additional schools or as replacement of existing schools, by each authority. This is the one area where the data we hold relate directly to one of these questions.

The data also include the numbers of schools where authorities have renewed over 80 per cent. of the floor area of schools, and where they have renewed from 50 per cent. to 80 per cent. This information is available in the House Library.

The information we requested was on completed projects, not on local authorities' plans.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what discretionary funding schemes there are for schools administered by his Department; what the *(a)* purpose and *(b)* cost of the scheme was in each case in each year since 2004-05; what the budget is for each in each year to 2011-12; and if he will make a statement. [150672]

Jim Knight: Information has been placed in the House Libraries detailing which specific grants were allocated to local authorities for schools or to support schools and pupils, for each year, between 2004-05 and 2007-08. The grants are in addition to the main funding for schools, provided though the local government finance system up to 2005-06 and the Dedicated Schools Grant since 2006-07. With the exception of the Ethnic Minority Achievement Grant, recurrent grants that are devolved to schools are not ring-fenced at school level.

DCSF is still agreeing the exact split of budgets with DIUS so it is not possible to give details of funding from 2008-11 at this moment. We will announce these in the autumn. The spending review settlement provided for a significant increase in DfES funding over the next three years to reach £75.5 billion by 2010-11, approximately £11 billion higher than in 2007-08.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of schools funding is distributed without reference to pupil numbers; and if he will make a statement. [150703]

Jim Knight: The core funding for schools is delivered through the Dedicated Schools Grant (DSG) which was introduced in 2006-07 following two public consultations in 2005. The DSG was £28 billion in 2007-08 and all of this was distributed with reference to pupil numbers.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what schemes will be funded in 2008-09 with the *(a)* Standards Fund, *(b)* School Standard Grant, *(c)* Information and Communications Technology Scheme and *(d)* academics and specialist schools budget. [150889]

Jim Knight: DCSF is still agreeing the exact split of budgets with DIUS so it is not possible to give details of funding from 2008-11 at this moment. The spending review settlement provided for a significant increase in DFES funding over the next three years to reach £75.5 billion by 2010-11, approximately £11 billion higher than in 2007-08. Details of specific schemes will be announced in the autumn.

Schools: Governing Bodies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what plans he has to increase the representation of parents on school organisation committees; and if he will make a statement. [150690]

Jim Knight: School Organisation Committees were abolished by section 29 of the Education and Inspections Act 2006 which came into force on 25 May 2007.

Under new decision-making arrangements introduced from this date, decisions on statutory proposals to make changes to local school organisation are normally decided by local authorities, except for proposals for a new school where the local authority is the proposer or has a role in the trust of a proposed trust school. Such new school proposals are decided by the schools adjudicator. Other proposals may be decided by the schools adjudicator if the local authority fails to decide proposals within two months or following an appeal by the bodies for which there is explicit provision in the relevant legislation. Statutory guidance to local authorities and the schools adjudicator makes clear that they should have regard to the views of parents when considering proposals.

Schools: Human Rights

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many schools have adopted UNICEF's Rights Respecting Schools Programme; and if he will list them; [150345]

(2) what his policy is on promoting UNICEF's Rights Respecting Schools Programme; [150346]

(3) what assessment he has made of the effect of UNICEF's Rights Respecting Schools programme on the behaviour of children in those schools that have adopted it. [150347]

Kevin Brennan: The Rights, Respect and Responsibilities (RRR) programme provides a framework of values based on the UN Convention on the Rights of the Child. Rights Respecting School awards are made by UNICEF to schools which teach children's and human rights and where rights and respect are modelled in all relationships. The Department has not made a systematic assessment of the RRR programme's effect on pupils' behaviour, but we know of schools which implement the programme and which have reported improvements in behaviour.

Helping pupils understand their rights and responsibilities, which is central to RRR, can reinforce the Department's Social and Emotional Aspects of Learning (SEAL) programme, which has been shown to have positive effects on behaviour.

Behaviour-related guidance, training and curriculum materials produced by the Department emphasise the importance of promoting mutual respect and personal responsibility and while the Department does not actively promote the specific RRR framework, schools are free to adopt it. The Department does not collect information about the numbers of schools involved in RRR.

Schools: Inspections

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many Ofsted school inspections took place in each year from 1992-93 to 2006-07; how many have taken place in 2007-08; and if he will make a statement. [149083]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Schools: Nurses

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many *(a)* part-time and *(b)* full-time school nurses were employed by local authorities in each of the last three years. [150741]

Jim Knight: The information is not available in the format requested.

The table provides the full-time equivalent number of matrons, nurses and medical staff employed in local authority maintained schools by local authority in each January from 2004 to 2006. The number of nurses cannot be provided separately. These figures can be provided only on a full-time equivalent basis and cannot be broken down by full and part-time staff.

2007 local authority figures are likely to be available on 27 September.

Full-time equivalent matrons, nurses and medical staff[1] employed in local authority maintained schools in England by government office region and local authorities, January 2004 to 2006

School Census

Schools: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools have been built with private finance initiative funding since May 1997. [151461]

Jim Knight: Since May 1997, we have built 884 schools with private finance initiative funding. Currently 651 of these schools are open and 232 schools are under construction.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what the average number of pupils attending private finance initiative funded schools was in each of the last 10 years, broken down by local education authority. [151534]

Jim Knight: The Department does not hold this information centrally specifically for PFI funded schools. Detailed information on average number of pupils attending PFI funded schools is held at local authority level.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many private finance initiative funded schools have experienced a fall in pupil numbers since opening in each of the last 10 years, broken down by local education authority. [151539]

Jim Knight: The Department does not hold information centrally on specifically how many PFI schools have experienced a fall in pupil numbers in each of the last 10 years. This level of detailed information is held at the local authority level.

Schools: Pupils

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what guidance has been given to local education authorities in relation to surplus school places and the reintroduction of new schools; and if he will make a statement. [150688]

Jim Knight: Statutory guidance issued to local authorities, in their capacity as decision makers, makes it clear that when considering proposals to establish a new school, they should take into account not only the existence of spare capacity in neighbouring schools, but also the schools' standards and popularity, together with any evidence of parents' aspirations for a new school. Where proposals for a new school will add to surplus capacity, but there is a strong case for approval on parental preference and standards grounds, the guidance includes a presumption to approve the proposals but makes it clear that the local authority should consider parallel action to remove any resulting surplus.

Schools: Special Educational Needs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what plans he has to separate the assessment of and funding of special educational needs in schools; and if he will make a statement. [150154]

Kevin Brennan: There are no plans to alter the system of assessing and funding provision to meet children's special educational needs (SEN). However, we will consider carefully the results of the Education and Skills Committee's recent consultation on the proposal to separate local authority assessments of children's SEN from funding the educational provision set out in any subsequent SEN statement.

Schools: Sports

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what steps the Government are taking to promote competitive school sports. [151228]

Kevin Brennan: This Government are committed to the expansion of competitive school sport. The PE national curriculum requires that all pupils are taught competitive games throughout their compulsory schooling. Competition is also a key component of the national school sport strategy. The 2005-06 school sport survey found that:

71 per cent. of pupils are now participating in intra-school competitive activities and 37 per cent. of pupils are taking part in inter-school competition. Both figures have been rising year on year;

97 per cent. of schools held a competitive sports day in the last academic year and the network of school sport partnerships staged over 10,700 festivals of sport—multi-sport events organised by secondary pupils for partnership primary schools.

In addition, the Prime Minister announced on 13 July extra funding to extend the network of competition managers. This will see the number of competition managers rise from the present 59, to a national network of 225 by 2010. The competition managers are creating a stronger framework for competitive sport and working across primary and secondary schools to increase the amount of competitive sport they offer.

Schools: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools were classed as requiring significant improvement in each reporting period since 2005. [150682]

Jim Knight: The following table gives the number of schools that were judged to require significant improvement in each term since September 2005 and the number of schools that were removed from this Ofsted category. A school which requires significant improvement is normally re-inspected after around 12 months, when they are either removed from the category, kept in the category for a further 12 months or are placed in special measures.

The most recent information published by Ofsted was for the spring term this year.

Schools requiring significant improvement

	Autumn 2005	*Spring 2006*	*Summer 2006*	*Autumn 2006*	*Spring 2007*
Number of schools requiring significant improvement	120	124	73	112	87
Number of schools removed from the category or closed	[1]0	[1]0	[2]5	58	101
Number of schools in the category at the end of each term	120	244	312	366	352

[1] No re-inspections
[2] No re-inspections; five closures

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the expected cost to the public purse of school improvement partners in each year from 2007-08 to 2010-11. [150876]

Jim Knight: The Department for Children, Schools and Families provides two streams of funding for school improvement partners (SIPs). First, it contributes to the cost to local authorities of providing a SIP for every secondary school and, from April 2008, for every primary school and every special school. The funding is to help local authorities meet the cost of the SIP programme additional to that of previous local authority link adviser arrangements. The funding will be £15.8 million in financial year 2007-08. Allocations of funding for SIPs for 2008-11 will be announced in the autumn as part of wider announcements for the next CSR period.

The second stream of funding is part of the Department's central support provided by the Primary and Secondary National Strategies. The SIP element of that support covers SIPs' accreditation, support to local authorities for introducing and managing SIPs, quality assurance of the programme and regional and national co-ordination of the work of SIPs. The cost of this in 2007-08 is £8.7 million. The cost of this work will vary annually depending on the level of support required and is also subject to the announcement of allocations for 2008-11 in the autumn.

Both streams of funding have a direct and beneficial impact on the resource available to schools to help with school improvement and raising standards.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what additional resources his Department provides to schools classified as causing concern to help them improve. [151239]

Jim Knight: A range of resources is made available by my Department to support schools causing concern. This includes guidance on such schools (available on the DCSF Standards website); central funding from a variety of sources, including the Fresh Start programme, that is paid to local authorities through the Standards Fund; a number of intervention and capacity building programmes such as the Raising Attainment in Teaching and Learning (RAIL) programme for secondary schools and the Intensifying Support Programme (ISP) for primary schools; and a network of school improvement delivery agencies some of whose work includes the provision of teaching materials and consultancy support.

Every local authority has been allocated a share of an additional £30 million, over the 2006-07 and 2007-08 financial years, to support their school

improvement work. Additional funding is also available from my Department's interventions budget, to support specific school improvement projects.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools which are private finance initiative funded were *(a)* categorised as causing concern and *(b)* placed in special measures in each of the last five years. [151459]

Jim Knight: The Department does not centrally hold information specifically on how many PFI schools are categorised as causing concern or placed in special measures. This level of detailed information is held at local authority level for PFI funded schools.

Secondary Education: Admissions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of secondary schools contained more than 1,000 pupils in each year from 1990-91 to 2007-08; [150689]

(2) how many pupils there were in English primary schools at Key Stage *(a)* 1 and *(b)* 2 equivalent in each year since 1985-86; and if he will make a statement. [150752]

Jim Knight: The requested information cannot be provided within the deadline required by Parliament.

Secondary Education: Specialist Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether it is his policy to make all secondary schools independent specialist schools; and if he will make a statement. [150687]

Jim Knight: It is not this Government's policy to make all secondary schools independent specialist schools.

Any maintained secondary school in England may apply to be designated as specialist in one, or a combination of two, specialisms. Currently over 85 per cent. of all secondary schools in England are part of the Specialist Schools programme and have a subject specialism. The current target for the programme is that 95 per cent. of all schools will be specialist by 2008 and we are well on the way to achieving this.

Special Educational Needs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average time taken was to carry out an assessment for a statement of special educational needs in each year since 1996-97, broken down by local education authority; and if he will make a statement. [150698]

Jim Knight: The Government do not collect information on the time taken by local authorities to carry out statutory assessments of children with special educational needs. However, where they have decided that a statement is appropriate, local authorities are required to issue a draft statement within 18 weeks of receiving a request for an assessment and a final statement within 26 weeks (with exceptions set out in regulations made under the Education Act 1996).

The Audit Commission publish figures on the proportion of draft statements issued by each local authority within 18 weeks of the start of the statutory assessment process. This information[1], broken down by local authority is available from http://www.audit-commission.gov.uk/performance/dataprovision.asp.

[1] Best Value Performance Indicator 43a and b give the proportion of draft statements issued within 18 weeks excluding and including the permitted exceptions to the time limits respectively since 2000-01. The proportion of draft statements issued within 18 weeks excluding exceptions was collected as indicator K12b from 1997-98 until 1999-2000 and as indicator K10b in 1996-97.

The following table gives the national percentages of draft statements issued within 18 weeks for the years requested.

	Percentage of draft statements issued within 18 weeks excluding permitted exceptions	*Percentage of draft statements issued within 18 weeks including permitted exceptions*[1]
2005-06	96.0	82.7
2004-05	92.0	76.4
2003-04	89.3	68.2
2002-03	86.9	64.7
2001-02	85.4	62.0
2000-01[2]	82.5	57.1
1999-2000	77.2	—
1998-99	66.5	—
1997-98[3]	53.5	—
1996-97[4]	48.2	—

[1] Data not collected in this format prior to 2000-01.
[2] From 2000-01 onwards, these data reflect Best Value Performance Indicator 43a and 43b.
[3] From, 1997-98 until 1999-2000, these data reflect Local Authority Performance Indicator K12b.
[4] In 1996-97, these data reflect Local Authority Performance Indicator K10b.

Special Educational Needs: Free Schools Meals

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) what percentage of pupils receiving free school meals in each *(a)* local education authority and *(b)* type of school had special educational needs statements in each of the last 10 years; [151244]

(2) what percentage of students with special educational needs statements in each local education authority attended a school characterised as one of the top 200 schools in the country in each of the last 10 years; [151243]

(3) what percentage of pupils receiving free school meals in each local education authority attended a school characterised as one of the top 200 schools in each of the last 10 years; [151245]

(4) what percentage of pupils receiving free school meals in each local education authority attended a school classified as being in a school causing concern category in each of the last 10 years; [151246]

(5) how many classes of 30 or more pupils there were in each *(a)* local education authority and *(b)* type of school in each of the last 10 years; [151213]

(6) how many members of *(a)* primary and *(b)* secondary school staff in each local education authority were physically assaulted in each of the last 10 years; [151234]

(7) how many single sex schools there were in each of the last 10 years; [151227]

(8) how many faith-based schools there were in each of the last 10 years, broken down by religion; [151211]

(9) how many special educational needs students were educated solely in special schools in each of the last 10 years; [151207]

(10) how many special needs schools there were in each local education authority in each of the last 10 years; [151205]

(11) what the average ratio of special educational needs pupils to non-special educational needs pupils was in each local education authority's classes in each of the last 10 years; [151242]

(12) how many pupils with special educational needs were educated in mainstream schools in each of the last 10 years. [151206]

Jim Knight: The information requested cannot be provided within the deadline required by Parliament.

Specialist Schools

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many specialist schools there were in each of the last 10 years. [151212]

Jim Knight: The number of specialist schools in each year from 1997 to 2007 was as follows:

	Number of specialist schools
1997	221
1998	304
1999	377
2000	513
2001	664
2002	972
2003	1,435
2004	1,945
2005	2,376
2006	2,607
2007	2,807

Around 86 per cent. of all secondary schools are now specialist and we are well on track to meet the target that 95 per cent. of eligible secondary schools should be specialist by 2008.

Specialist Schools: Sports

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families how many specialist sport schools there are; and what steps his Department is taking to ensure that there are at least 400 sports specialist schools and academies. [150299]

Kevin Brennan: There are already 433 designated sports colleges, composed of:

371 schools with sport as a first specialism;

22 schools with sport as a combined specialism;

26 schools with sport as a second specialism; and

14 academies with sport as a focus.

The Department part funds the Youth Sport Trust to provide guidance and support to schools seeking to apply for sports college status. We are now working towards our ambition to establish 450 sports colleges and academies with a sports focus.

Teachers: Training

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many people failed to complete teacher training courses in each year from 2000 to 2007. [151180]

Jim Knight: Information about failure to complete initial teacher training (ITT) courses is only available for trainees in their final year of training. The following tables show the number of final year initial teacher training (ITT) trainees for each academic year between 1999/2000 and 2005/06 who did not gain qualified teacher status (QTS) in their final year of training and, of these, the number who left their course before completion and the number where the outcome of QTS is unknown for:

1. Mainstream initial teacher training (ITT) trainees
2. Employment-based routes (EBR) trainees

Mainstream final year ITT trainees

		Number of mainstream final year trainees who have not gained QTS			
	Total number of mainstream trainees in their final year	*Number of mainstream final year trainees gaining QTS*	*Known not to have completed course*	*Undefined outcome*	*Other outcome*	*Total*
1999/2000	24,650	21,690	1,290	350	1,330	2,960
2000/01	25,720	22,640	1,350	480	1,250	3,080
2001/02	26,350	23,280	1,130	0	1,940	3,070
2002/03	28,570	25,430	1,050	10	2,090	3,140
2003/04	30,970	27,340	1,470	0	2,160	3,630
2004/05	31,360	27,150	1,410	20	2,780	4,210
2005/06	31,310	27,100	1,310	10	2,900	4,210

Notes:
1. Includes trainees from universities and other higher education (HE) institutions, school centred initial teacher training (SCITT) and Open universities (OU), but exclude employment-based routes (EBR).
2. Numbers are individually rounded to the nearest 10, therefore may not sum.
3. 'Other outcome' includes final year trainees who are yet to complete their course, those with withheld QTS (including those where their skills test was not met, their standards were not met and where both their standards and skills test were not met) and those where the skill test has not been taken (include those whose standards were met and those whose standards were not met).
Source:
TDA performance profiles.

Employment-based routes (EBR) trainees

			Number of EBR final year trainees who have not gained QTS			
	Total number of EBR trainees in their final year	*Number of EBR final year trainees gaining QTS*	*Known not to have completed course*	*Undefined outcome*	*Other outcome*	*Total*
2001/02	2,440	2,210	30	0	190	230
2002/03	4,030	3,670	340	0	20	360
2003/04	4,950	4,470	440	0	30	470
2004/05	7,220	6,600	260	0	350	610
2005/06	6,970	6,090	420	0	450	870

Notes:
1. Includes trainees from employment-based routes (EBR) only.
2. Numbers are individually rounded to the nearest 10, therefore may not sum.
3. 'Other outcome' includes final year trainees who are yet to complete their course, those with withheld QTS (including those where their skills test was not met, their standards were not met and where both their standards and skills test were not met) and those where the skill test has not been taken (include those whose standards were met and those whose standards were not met).

TDA performance profiles.

Truancy: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the total spending by his Department was on anti-truancy programmes in each year since 1996-97; and what assessment of value for money has been made of such spending. [150887]

Kevin Brennan: I refer the hon. Member to the replies given on 16 April 2007, *Official Report*, column 313W, to the hon. Member for Brent, East (Sarah Teather), on 22 January 2007, *Official Report*, column 1486W, to the hon. Member for South Holland and The Deepings (Mr. Hayes), on 16 January 2007, *Official Report*, columns 1061-62W, to the hon. Member for Cheadle (Mark Hunter) and on 23 October 2006, *Official Report*, column 1566W, to the hon. Member for Eastleigh (Chris Huhne).

In 2007/08 we have committed the following amounts:

£0.6 million on attendance consultancy to support to local authorities;

£100,000 on absence data collections (in addition to school census collections);

£126,000 for publicity and promotion materials on attendance and absence; and

£15,000 on events for local authorities to share effective practice on attendance management.

As a result of our focus on providing challenge and support to 436 secondary schools with high levels of persistent absence, we have seen a 22 per cent. reduction in the number of persistently absent pupils in those schools over the autumn and spring terms of 2006-07 compared to the same period in 2005-06.

Trust Schools

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many trust schools there are; and how many are planned to be built in the next five years. [151226]

Jim Knight: At present, no schools have implemented proposals to become foundation schools with foundations (Trust Schools) under the Education and Inspections Act 2006. However, the first of the Pathfinder schools plan to become Trust Schools from September 2007. There are currently 33 Pathfinder projects involving around 70 schools. All of these schools are expected to become Trust Schools by September 2008. With the addition of around 140 Early Adopters this means that there are currently more than 200 schools working towards Trust status. This is a school driven policy therefore there are no set targets. However the Department for Children, Schools and Families will work towards having 300 schools, which by the end of the year will have become Trust Schools or are working towards this.

Forming a Trust does not involve new buildings. There is no additional capital and they will be funded through the local authority like any other maintained school.

Young People: Drugs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children and young people under the age of 18 years were admitted to hospital due to the ingestion of *(a)* illegal drugs and *(b)* volatile substances in each of the last five years. [150737]

Dawn Primarolo: I have been asked to reply

The specific information requested is not collected. However, the following table shows the number of finished admission episodes of young people under the age of 18, for the most commonly abused illegal drugs and volatile substances, for the last five years.

Count of finished admission episodes for selected primary diagnoses for ages 0-17 years for 2001 to 2006, national health service hospitals, England

	Illegal drugs	Volatile substances
2001-02	1,345	633
2002-03	1,367	630
2003-04	1,336	692
2004-05	1,138	903
2005-06	1,253	1,005

Source:
Hospital Episode Statistics, The Information Centre for health and social care.

Young People: Education

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what percentage of *(a)* all children and *(b)* looked-after children over the age of 16 years were in full-time education in each of the last five years. [150742]

Jim Knight: The information requested is shown in the following table.

Percentage of looked after children in Year 11 in full-time education, compared with all children

	Looked after children[1]	All children[2]
2002	56	72
2003	57	72
2004	59	73
2005	61	75
2006	64	78

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Advisory Conciliation and Arbitration Service

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many disputes and claims were handled by the Advisory, Conciliation and Arbitration Service in each of the regions in each of the last five years. [150301]

Mr. McFadden: The number of individual conciliation claims handled by ACAS during the five years up to 2006-07 is as follows:

Region	2002-03	2003-04	2004-05	2005-06	2006-07	Five-year total
London	15,109	15,214	12,435	33,001	8,905	84,664
South and East	10,414	10,666	8,473	8,094	9,965	47,612
East of England	7,355	7,442	5,804	5,100	5,126	30,827
East Midlands	6,090	7,493	5,224	6,105	6,864	31,776
West Midlands	7,977	8,724	6,662	9,670	7,100	40,133
North East	5,294	5,928	9,120	8,349	9,006	37,697
Yorkshire and Humber	8,015	9,202	7,110	7,887	8,081	40,295
North West	14,310	15,932	11,783	15,445	12,521	69,991
Scotland	9,309	10,366	7,138	8,379	7,703	42,895
South West	5,815	6,888	5,035	4,543	5,248	27,529
Wales	4,765	4,704	3,049	3,139	3,520	19,177
Total, all regions	94,433	102,559	81,833	109,712	84,039	472,596

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many Advisory, Conciliation and Arbitration Service employees there are in each region. [150302]

Mr. McFadden: The number of people employed by ACAS as of June 2007 is as follows:

ACAS region	Total number of employees
London	88
Midlands and Eastern	152
North West	96
Northern	110
Scotland	49
Wales, South West and the South	139
ACAS National (Head Office)	141
Total	775

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which regions are covered by the Advisory, Conciliation and Arbitration Service. [150303]

Mr. McFadden: ACAS operates in all of the regional development agency regions in England. It also operates in Scotland and Wales but does not cover Northern Ireland.

Bankruptcy

Miss Begg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many bankrupt individuals were advised by the official receiver of the fast track voluntary agreement option in each year since the implementation of the Enterprise Act 2002. [149506]

Mr. McFadden: The official receiver does not keep statistics on this matter.

However, all bankrupts are provided with a copy of the booklet "A Guide to Bankruptcy" which includes details about alternatives to bankruptcy including fast track voluntary arrangements.

A leaflet on FTVAs is also available on the Insolvency Service website.

Business: Torbay

Mr. Sanders: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will list the schemes available to support entrepreneurs in Torbay; and what the budget is of each. [150811]

Mr. Timms: The Department of Business, Enterprise and Regulatory Reform currently supports the following schemes for entrepreneurs in Torbay. This support is provided through the South West Regional Development Agency (SWRDA).

Vantage Point Innovation Centre at South Devon College, Paignton

Lymington Road Innovation Centre, Torquay.

To date, SWRDA has contributed £1.8 million to these schemes matched with £0.78 million of European Regional Development Funds (ERDF) from the South West European Objective 2 Programme. The Objective 2 programme is also contributing £3.4 million ERDF towards the £7.1 million infrastructure development costs of the White Rock Business Park, Paignton.

In addition to these schemes that are specific to Torbay, the Department also supports entrepreneurs in Torbay through the following regional schemes. This support, which is also provided through SWRDA, is funded on a regional basis and there is no budget specifically earmarked for entrepreneurs in Torbay. The SWRDA contribution to each scheme is shown in brackets.

Business support to Small and Medium Enterprises delivered through the Business Link core offer (£14.8 million per annum)

South West Angels Investor Network (total investment of £1.4 million)

Grant for Research and Development (£1.5 million per annum).

The Objective 2 programme has also provided over £21.7 million ERDF and £1.2 million of European Social Funds (ESF) to support businesses and entrepreneurs across the Objective 2 area which includes Torbay. The Objective 2 contribution to each project is shown in brackets.

Business Link (D&C)—Adding Value to the Business Support Network (£1,497,151 ERDF)

Business Link (D&C)—Developing the Business Support Network (£3,008,825 ERDF)

Business Link (D&C)—Social Enterprise Loan Fund (£1,200,000 ESF)

Devon County Council—Broadband4Devon (£5,366,000 ERDF)

SWIG (South West Investment Group)—Business Development Funds (£420,995 ERDF)

SWIG—Business Rural Enterprise Fund (£102,000 ERDF)

SWIG—Business Growth Fund (£700,000 ERDF)

Finance South West (Venture Capital Funds) (£9,630,070 ERDF)

Environment Agency—Envision (£1,078,656 ERDF).

Coal: Environment Protection

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department has taken to ensure the use and sale of cleaner coal and gas across the UK. [150609]

Malcolm Wicks: The Government have been taking action on a number of fronts to ensure fossil fuels such as coal and natural gas are used cleanly. The two key areas for reducing CO_2, SO_2 and NO_x are as follows.

The development of the Carbon Abatement Technology Strategy for Fossil Fuel Use, published in June 2005 (reference URN 05/844) sets out a path towards the cleaner use of fossil fuels enabling them to have a role in a sustainable world with significant reductions in carbon dioxide emissions. As a result of this the Government announced in the Budget this year a competition to demonstrate carbon capture and storage power plant which has the potential to reduce CO_2 emissions from power plant by up to 90 per cent. The Strategy document is available in the House of Commons Library and also can be found at

www.berr.go.uk/energy/sources/sustainability/carbon-abatement-tech/techstrategy.

Additionally the Government are implementing the European Commission's 'large combustion plant directive', (LCPD, 2001/80/EC) aimed at significantly reducing SO_2 and NO_x emissions as well as dust from power plant and other large industrial installations. This directive comes into effect from the start of 2008. Website Address:

www.defra.gov.uk/environment/airquality/eu-int/eu-directives/lcpd.

Combined Heat and Power: Housing

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the opportunity to install combined heat and power and associated heat grids in the new housing developments and eco-towns announced by the Prime Minister to the House on 11 July. [150389]

Malcolm Wicks: As stated in the recently-published Energy White Paper, the Government are committed to reducing carbon dioxide emissions from heat. Many current policies contribute to reducing carbon dioxide emissions from heat—for example the EU ETS, the climate change levy, tax incentives for CHP and the Energy Efficiency Commitment. In addition, policies such as the Warm Front programme to tackle fuel poverty help to reduce emissions.

The Government published a Biomass Strategy alongside the Energy White Paper. The strategy provides a framework for the development of biomass, including its application to combined heat and power. The Government are currently also consulting on proposals to band the Renewables Obligation. The proposals contain mechanisms which are designed to encourage biomass CHP.

The Government recognise the value of considering the heat sector in a holistic and focused way. Further work is therefore being carried out into the policy options available to reduce the carbon impact of heat and its use. The work examines the full range of policy options, including the range of existing policy mechanisms such as the EU ETS.

The Government recognise that Combined Heat and Power has an important role to play alongside other low carbon technologies. However, the market is best placed to decide which technologies are most effective in supplying the UK's energy while also meeting our carbon reduction goals. It will be for the proposers of Eco Towns to bring forward their ideas on how heating and electricity generation can be supplied from

renewable sources, including combined heat and power and associated heat grids as appropriate. These will be assessed against Government policies for promoting renewable and decentralised energy supply. My hon. Friend the Minister for Housing, will shortly be publishing a prospectus for Eco Towns setting out the growth expectations for sourcing heat and power use from renewable energy.

Competition: Public Houses

Mark Pritchard: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will ask the Serious Fraud Office to investigate allegations of the abuse of market share of *(a)* brewing companies and *(b)* leisure companies with large managed and tenanted public house property portfolios. [150721]

Mr. Thomas: Ensuring that markets operate freely and fairly is a matter for the independent competition authorities, rather than for Government. The UK competition framework has established the Office of Fair Trading (OFT) as an independent statutory body which is responsible for ensuring that markets operate competitively. The OFT has the powers to investigate and take action if companies are abusing a dominant position in a market or behaving anti-competitively.

Departments: EU Budget

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what responsibilities he has delegated to regional Ministers in respect of European Union funding; and if he will make a statement. [150842]

Mr. Timms: The role of regional Ministers is set out in paragraphs 115 to 118 in "The Governance of Britain" (cmd 7170).

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many ministerial red boxes his Department and its predecessor bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150439]

Mr. Thomas: The number of Ministers red boxes ordered by BERR and its predecessor over the previous five years were as follows:

	Number	*Cost (£)*
2002-03	0	—
2003-04	0	—
2004-05	1	604.50
2005-06	9	749 each
2006-07	8	749 each

Banner Business Supplies are the sole supplier of Ministers boxes and are an Office of Government Commerce (OGC) approved supplier.

Electricity Generation: Renewable Energy

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of electricity was generated by renewable sources in the UK in the last period for which figures are available. [150618]

Malcolm Wicks: In 2006, 4.6 per cent. of electricity was generated by renewable sources in the UK.

Source:

Quarterly Energy Trends (June 2007), page 18, Table 2.

Electronic Equipment: Waste Disposal

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what in-store facilities are being made available in Staffordshire for customers to return white goods under the Waste Electrical and Electronic Equipment Directive. [150305]

Malcolm Wicks: Detailed figures at a county level are not available, but all retailers of electrical and electronic equipment are obliged to offer in-store take-back if they are not members of the Distributor Takeback Scheme.

Within Staffordshire all 13 local authority civic amenity sites have been approved as designated collection facilities and are playing their part in the UK WEEE system.

Energy Supply

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department plans to take to increase and improve the energy security of the UK. [151544]

Malcolm Wicks: The Department remains committed to open, competitive markets as the means to deliver energy security through diversity of energy supply and fuels. The Energy White Paper published in May 2007 set out in detail the Government's strategy for energy security. Specific measures include reform of the planning and consents process, to help facilitate delivery of energy infrastructure projects, continuing to press for fully competitive and transparent international markets, and provision of more detailed, forward looking information to the market through the Energy Markets Outlook. We will also maximise the economic production of our domestic energy sources, which, together with energy saving measures, will help reduce our dependence on energy imports.

Energy Supply: Meters

Mr. Henderson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made with his Department's consultation with gas and energy suppliers on the introduction of display devices on meters for gas and electricity customers. [149850]

Malcolm Wicks: The Government set out their proposals on display devices in the Energy White Paper. They stated that the Government would require the provision of displays with new and replacement meters, and that

consumers would be able to request for a display to be provided free of charge. They will shortly issue a consultation taking forward these proposals.

Mark Lazarowicz: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the energy demand research project trials will have an impact on the timetable for the roll-out of smart meters. [149914]

Malcolm Wicks: Data from the Energy Demand Reduction Project, together with information from other work being undertaken by the Government, Ofgem and energy suppliers, will inform the Government's and the industry's approach to a roll-out of smart meters.

The trials will be important for number aspects of a roll-out programme, which the Government expect to be complete within 10 years. The Government will shortly issue a consultation on their approach to smart metering.

Mark Lazarowicz: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) if he will bring forward legislation for the introduction of domestic smart meters; [149916]

(2) when he expects the start of the roll-out of smart meters with visual displays of real-time information which allow communication between the meter, the energy supplier and the customer. [149915]

Malcolm Wicks: In the Energy White Paper, the Government made clear their expectation that domestic gas and electricity customers would have access to smart meters over the next 10 years. Its forthcoming consultation on the metering and billing proposals in the Energy White Paper will include a call for evidence on smart meters. This evidence, together with information from a range of other activities will inform the Government's decision on how best to roll out smart meters to the domestic market.

Energy Supply: Russia

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make representations to his European Union counterparts on the involvement of Russian energy companies and the purchase of energy sources from Russia within the European Union. [151545]

Malcolm Wicks: We are in regular contact with our European colleagues on energy issues; ensuring security of supply and the development of the internet market are key issues in these discussions.

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will review the involvement of Russian energy companies in the UK market. [151546]

Malcolm Wicks: Russian energy companies play only a minor role in the UK energy market and the Government therefore do not plan a review.

Energy businesses operating in our market are subject to the applicable regulatory regimes, which are there to safeguard the interests of customers.

Energy Technologies Institute: Consultants

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which external consultants have been appointed by his Department to assess private sector bids for involvement in the Energy Technologies Institute. [148910]

Ian Pearson: I have been asked to reply.

The Energy Technologies Institute is still being established as a 50:50 public/private partnership. The Department has not employed external consultants to assess potential private sector bids for involvement.

Energy Technologies Institute: Finance

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost has been of establishing the Energy Technologies Institute. [148911]

Ian Pearson: I have been asked to reply.

The then Secretary of State for Trade and Industry published the prospectus for the Energy Technologies Institute (ETI) on 14 September 2006. It envisaged that the Institute would be fully operational in 2008, with 50:50 public/private sector funding. The intention is that the institute will be legally established later in the autumn. Direct costs so far incurred in supporting the establishment of ETI amount to approximately £573,700.

Export Credit Guarantees

Roger Berry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many applications for Export Credits Guarantee Department (ECGD) cover were received in the periods *(a)* 1 July 2005 to 30 June 2006 and *(b)* 1 July 2006 to date, stating in each case how many applications were made on (i) the standard ECGD forms downloaded from its website and (ii) bespoke forms. [144886]

Malcolm Wicks: The information requested is as follows.

	(a) 1 July 2005 to 30 June 2006	*(b) 1 July 2006 - to date*
Number of standard applications	91	35
Number of non-standard applications	2	1

The number of standard applications for the period of 1 July 2005 to 30 June 2006 is approximate, as it was not ECGD's practice at that time to maintain a central record of application forms received.

Industrial Disputes: Mediation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department holds a record of all mediation services providing employment dispute resolution services; and if he will make a statement. [150860]

Mr. McFadden: The Department does not hold this information.

The consultation "Resolving Disputes in the Workplace" covered the area of mediation, and the Government will publish its plans for the way forward in resolving disputes in the workplace in due course.

Internet: Privacy

Mr. David Anderson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with counterparts in other countries on the promotion of internet privacy practice. [150244]

Mr. Timms: I have had no such discussions since my recent appointment. These issues are an important aspect of the discussions within Europe and globally about policy issues arising from the internet.

The rapidly increasing use of the internet gives rise to a range of issues relating to privacy. These include the problem of spam, issues around identity and on-line authentication, how to make the internet a safe place for children, and the problem of identity theft when such mechanisms fail. Privacy concerns also emerge in relation to the adoption of new technologies such as radio frequency identification and law enforcement initiatives such as the retention of and access to communications data. We also expect the European Commission to come forward with proposals to enhance privacy of data in their review of the telecommunications framework.

Low Carbon Buildings Programme

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been allocated under phase one of the Low Carbon Buildings Programme *(a)* in total and *(b)* in each region in each month since the scheme began; and if he will make a statement. [149421]

Malcolm Wicks: The following table provides the data for all Low Carbon Buildings Programme Phase 1 funding streams as at 12 July 2007.

LCBP Phase 1—grant allocations by region and month—household funding stream

Region	Month application received	Number of applications	Grant offered (£)
East Midlands		416	457,454
	May 2006	26	29,533

	May 2007	15	20,168
	June 2007	17	19,986
	July 2007	3	2,550
Grand total		5,751	8,718,655

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much funding was allocated to be spent under *(a)* stream 1, *(b)* stream 2A and *(c)* stream 2B of the Low Carbon Buildings Programme; and if he will make a statement. [149459]

Malcolm Wicks *[holding answer 16 July 2007]:* The Low Carbon Buildings Programme Phase 1 was launched in April 2006 with a £30 million budget. £1.5 million was allocated to the Clear Skies and Solar PV Major Demonstration programmes to smooth the transition between these programmes and the Low Carbon Buildings Programme. The allocations by funding stream for the remainder were as follows:

Funding stream	Allocation[1] (£ million)
Household	6.5
Community	4.0
Large-scale projects up to £100,000 grants	6.0
Large-scale projects up to £1 million grants	12.0

[1] Including management fees

A further £6.2 million of the total budget was re-allocated to the household stream in October 2006 given the higher than anticipated demand from householders. The revised allocations by funding stream were as follows:

Funding stream	Allocation[1] (£ million)
Household	12.7
Community	2.9
Large-scale projects up to £100,000 grants	2.9
Large-scale projects up to £1 million grants	10.0

[1] Including management fees

In the Budget 2007, the Chancellor announced that an additional £6 million would be made available to the household stream. The current allocations by funding stream are therefore as follows:

Funding stream	Allocation[1] (£ million)
Household	18.7
Community	2.9
Large-scale projects up to £100,000 grants	2.9
Large-scale projects up to £1 million grants	10.0

[1] Including management fees

National Institute for Medical Research

Mr. Dismore: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate was made of the *(a)* value and *(b)* area of the Temperance Hospital site in Camden when his Department sought approval from HM Treasury for its purchase for the National Institute for Medical Research; and if he will make a statement. [143111]

Ian Pearson: I have been asked to reply.

The National Institute for Medical Research (NIMR) is a wholly owned institute of the Medical Research Council (MRC). The MRC sought professional advice on the valuation of the National Temperance Hospital (NTH) site. This advised that the valuation of the site was in the range £12 million to £42 million, with a figure between the two extremes being more realistic. The area of the NTH site is 0.9 acres.

Overseas Companies: Chile

Malcolm Bruce: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many UK-registered companies currently operate or have a base in the regions of *(a)* Araucania and *(b)* Los Lagos in Chile. [150495]

Mr. Thomas: UK Trade and Investment's team in Chile is aware of two UK companies with operations in Los Lagos. They are not aware of any UK-registered companies operating in the Araucania region.

Paternity Leave

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the merits of increasing statutory paternity leave. [150095]

Mr. McFadden: The Government believe in the importance of increasing opportunities for individuals to achieve a balance between work and caring responsibilities. This is why they introduced two weeks' paid paternity leave in 2003.

Small Businesses: Floods

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the businesses affected in the North Yorkshire area by the recent flooding will be eligible for the small-scale small business recovery scheme which is being offered to small businesses in South Yorkshire. [150615]

Mr. Timms: The Yorkshire Forward Small Business Recovery Fund is a regional scheme and companies in North Yorkshire affected by the recent flooding are eligible to apply. The scheme provides up to £2,500 per company for immediate recovery needs.

Tidal Power: Severn Estuary

Mr. Paul Murphy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the *(a)* advantages and *(b)* disadvantages of tidal power generation in the Severn estuary; and if he will make a statement. [150217]

Malcolm Wicks: Between 1978 and 1994 the Government supported a comprehensive programme of research and development on tidal energy. These studies considered tidal energy schemes at a number of potential sites, including within the Severn estuary. The results of the Severn studies were reported in Energy Paper 57 (ISBN 0 11 412952 5) and an overall assessment of the tidal programme was published in 1994 (ETSU R-82).

A study is currently under way that is looking in some detail at the issues arising on tidal power. The study is being led by the Sustainable Development Commission (SDC) working together with my Department, Welsh Assembly Government, the devolved administrations and the South West Regional Development Agency. The study will provide a strategic, independent and evidence-based consideration of all the environmental, social and economic aspects of options for tidal power in the Severn estuary from a sustainable development perspective.

The final report is expected to be published in September. Further details of the study can be seen at:

www.sd-commission.org.uk/pages/tidal.html.

Trade: China

Ben Chapman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of whether the number of Mandarin speakers in the UK will be enough to cope with the expected level of trade growth between the UK and China in the next 20 years. [149998]

Mr. Thomas: The Government place great importance on developing the skills base of the United Kingdom and recognises the value of foreign languages.

The Department for Children, Schools and Families is leading on a number of initiatives to promote the Chinese language and culture in the UK educational system.

The recent Qualifications and Curriculum Authority review announced plans to free up requirements in languages so that schools can offer major world languages such as Mandarin, at Key Stage 3.

In addition, the Government are actively encouraging better understanding of Chinese business practices and culture. UK Trade and Investment, along with our partners at the China-Britain Business Council provide a wide range of practical services to support British companies to trade with, and invest in China. This includes support on the ground from Mandarin speakers. The Department for Business, Enterprise and Regulatory Reform however does not make assessments on foreign language capacity of the workforce.

Unsolicited Goods and Services: Telephone Services

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the merits of requiring companies to display their telephone number when making unsolicited calls. [150783]

Mr. Timms *[holding answer 19 July 2007]:* This matter is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the Chief Executive of Ofcom to reply directly to my hon. Friend. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

Wind Power

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the future use of wind power. [150266]

Malcolm Wicks *[holding answer 19 July 2007]:* As stated in the Energy White Paper "Meeting the Energy Challenge", published earlier this year "renewable energy has a key role to play in reducing carbon emissions and achieving security of supply".

http://www.berr.gov.uk/files/file39387.pdf

In February this year the UK became one of only eight countries to surpass two gigawatts of wind generation. It took 14 years to reach the first gigawatt of electricity from wind and only a further 20 months to reach the second gigawatt.

The UK has one of the best wind profiles in Europe and as such wind technologies both onshore and offshore have the potential to supply a significant percentage of our energy needs.

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many windfarms there are in the UK; and where they are located. [150267]

Malcolm Wicks *[holding answer 19 July 2007]:* According to the British Wind Energy Association (BWEA) there are currently a total of 148 wind farms in the UK, 143 onshore and five offshore.

The locations of these wind farms are:

Wind farm	Location	Latitude	Longitude
Dommuie	Aberdeenshire	57 27 01N	02 41 35W
Boyndie Airfield	Aberdeenshire	57 38 47N	02 36 17W

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking with business to encourage the creation of wind farms. [150268]

Malcolm Wicks *[holding answer 19 July 2007]:* My Department are continuing to work with the renewables industry to overcome the barriers for deployment.

The Renewables Obligation (RO) is the Government's main support mechanism for supporting renewables generation. The RO places an obligation on suppliers to source a specific and annually increasing proportion of their sales from renewable sources. The RO is currently technology blind so that as long as the generation is from an eligible renewable source the generator will receive one Renewable Obligation Certificate (ROC) for every 1 MW of renewable generation.

We are currently changing the RO to allow banding whereby differing values of ROC's dependent on what the generating source is and we announced in the Energy White Paper the proposed bands for renewables under the RO.

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what further wind farm developments are planned. [150269]

Malcolm Wicks *[holding answer 19 July 2007]:* It is for the wind farm developers to decide the best location for the wind farms and for them to take them through the planning process.

According to the British Wind Energy Association (BWEA) there are currently:

32 onshore and seven offshore wind farms are under construction.

96 onshore and seven offshore wind farms are consented but not yet under construction.

217 onshore and seven offshore wind farms are in planning.

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with his colleagues in HM Treasury on tax incentives related to wind power. [150270]

Malcolm Wicks *[holding answer 19 July 2007]:* I have had no recent discussions with my colleagues at HM Treasury on tax incentives for wind farms.

HOUSE OF COMMONS COMMISSION

Recruitment

Mr. Doran: To ask the hon. Member for North Devon, representing the House of Commons Commission if he will make a statement on senior staff appointments in the House. [152080]

Nick Harvey: Mr. Speaker announced on 28 June that Sir Philip Mawer had written to him saying he wished to step down from the appointment as Parliamentary Commissioner for Standards on 31 December 2007. By that date, Sir Philip will have served for almost six years. The Commission has agreed that the process of recruiting a successor by open competition should begin. The post was advertised in the press on 22 July and the Commission plans to make a recommendation for the House to consider early in the new Session.

The Librarian was appointed on a three year contract in December 2004. The Commission has agreed to make the appointment permanent.

The Serjeant at Arms was appointed on a three year contract starting in December 2004. Following the Tebbit review of the management and services of the House, involving a re-allocation of duties (including the creation of a new post to direct key support services and facilities for Members and others) and after careful consideration the Speaker accepted the House authorities' recommendation not to approve renewal of the contract. Further details on implementation of the Tebbit recommendations are contained in my answer to another question today from the Chairman of the Administration Committee.

Tebbit Review

Mr. Doran: To ask the hon. Member for North Devon, representing the House of Commons Commission what progress has been made on the Tebbit Review of Management and Services of the House. [152079]

Nick Harvey: The House of Commons Commission has fast tracked several areas of the Tebbit review on management and services. These include the amalgamation of Estates and Works; the expansion of the Office of the Clerk into that of the Chief Executive and the reorganisation of the Board of Management on functional lines.

A new Parliamentary Director of Estates is to be appointed to take forward an estate strategy which will prioritise large and costly projects facing the House in the future, including refurbishment of the cast iron roofs and large scale mechanical and electrical works servicing the Chamber.

The Commission has instructed the Clerk of the House to push ahead with a reorganisation of the Office of the Clerk (to be named Office of the Chief Executive) which will be at the centre of moving forward a coordinated strategy for achieving delivery of services, ensuring better planning, customer satisfaction and value for money which are highlighted in the Tebbit report. The Commission also approved proposals for restructuring of the Board of Management on functional lines in terms of Chamber and allied services, support facilities for Members, their staff and others on the estate, information and communication services (including IT/IS), and finance/HR, with the possibility of two external members of the board.

SCOTLAND

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Scotland what legislative provisions introduced by his Department since 1997 have been *(a)* repealed and *(b)* not brought into force. [149615]

Dr. Cable: To ask the Secretary of State for Scotland which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152497]

David Cairns: The Scotland Office was established on 1 July 1999 and has respectively supported and been responsible for two Acts; the Sunday Working (Scotland) Act 2003 and the Scottish Parliament (Constituencies) Act 2004. All the provisions of both Acts remain in force.

Elections

Jo Swinson: To ask the Secretary of State for Scotland on what date the request was received from the Electoral Commission Inquiry to bring forward legislation to allow it to access the ballot papers from the recent Scottish Parliamentary election. [150707]

David Cairns: A request from Mr. Ron Gould, who is leading the Electoral Commission's review of the Scottish elections in May, was received on 14 June 2007, for access to the electronic images of ballot papers. Following consultation with the Electoral Commission including statutory consultation on the draft order, legislation to allow access both to the electronic images and to the ballot papers themselves was introduced on 2 July, debated in both Houses on 17 July and approved by Parliament on 23 July.

SOLICITOR-GENERAL

Legal Costs

Mr. Dismore: To ask the Solicitor-General who the 10 highest paid barristers were in respect of fees paid by *(a)* the Treasury Solicitors and *(b)* the Crown Prosecution Service in each of the last three years; what the fee income was in each case for each year; and if he will make a statement. [146611]

The Solicitor-General: The information requested for 2004-05, 2005-06 and 2006-07 in respect of fees paid by the Treasury Solicitor and the Crown Prosecution Service has been placed in the Library.

INTERNATIONAL DEVELOPMENT

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for International Development what legislative provisions introduced by his Department since 1997 (1) have not yet been brought into force; [149744]

(2) have been repealed. [149743]

Mr. Malik: None.

Departments: Official Visits

David Simpson: To ask the Secretary of State for International Development how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149049]

Mr. Malik: It is not possible to disaggregate costs in respect of hotel accommodation without incurring a disproportionate cost. We are able to provide figures for travel and subsistence costs for our Department, which reflect all domestic and overseas travel for Ministers, Advisors and Officials and include costs for all travel, accommodation and subsistence. The cost for the last 12 months was £10,838,328.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for International Development how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151649]

Mr. Malik: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Developing Countries: Water

Andrew George: To ask the Secretary of State for International Development what support he has given to governments in developing countries to provide *(a)* training for water and sanitation workers and providers and *(b)* education for water and sanitation workers and providers. [152452]

Mr. Thomas: DFID recognises that capacity building is vital to achieving the millennium development goal targets for water and sanitation. DFID supports a range of institutions and initiatives that have capacity building at the core of their work. In particular, DFID:

- funds capacity building networks such as the Water Supply and Sanitation Collaborative Council and the Global Water Partnership;
- works closely with UNICEF at country level in both Africa and Asia in its work in supporting governments implement water and sanitation projects and programmes, as well as centrally with their head office;
- works with others to build capacity e.g. DFID supports the World Bank's Community Driven Development Programme and is planning to provide funding for another World Bank programme building district level capacity in Ethiopia;
- funds programmes to strengthen research networks in developing countries (e.g. the £3.9 million RiPPLE programme in Ethiopia);
- will build on the work it has done in the past through the WELL Resource Centre supporting centres of excellence in Kenya, Nigeria, Ghana, Zimbabwe, India;
- is providing over £1 million of additional funding for the Partners for Water and Sanitation capacity building initiative, working in Ethiopia, South Africa, Uganda and Nigeria.

DFID assesses the in-country capacity of the sector as part of its standard institutional appraisal for water projects and programmes, and when necessary includes a capacity building component.

Republic of Congo: Debts

John Bercow: To ask the Secretary of State for International Development what assessment he has made of the Republic of Congo's (Brazzaville) compliance with its commitments under the Heavily Indebted Poor Countries initiative. [149797]

Mr. Thomas: DFID has not made its own assessment as it relies on the assessment of the IMF and World Bank, which administer HIPC. According to the Annual Report of the World Bank and IMF Boards in May 2006 the Republic of Congo's overall progress in the necessary reforms has been limited and slow. There have been improvements in the management of forestry, the social sectors and health, as well as in developing a poverty reduction strategy. However, there has been limited progress in procurement, debt management, the oil sector and civil society involvement in reducing corruption. There has been no progress in strengthening public investment management.

Sierra Leone: Palliative Care

Mr. Ian Taylor: To ask the Secretary of State for International Development what financial support his Department has provided for palliative care in Sierra Leone in the last three years; what support is planned for the future; and if he will make a statement. [151846]

Mr. Thomas: DFID has not provided financial support for palliative care in Sierra Leone within the last three years. DFID Sierra Leone has pledged £50 million over the next 10 years to strengthen basic health systems and is currently working on the design of a health programme.

TRANSPORT

Accidents: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* serious travel-related accidents there were in (i) the City of York and (ii) Yorkshire and the Humber in each year since 1992. [152204]

Jim Fitzpatrick: The number of reported fatal and serious personal injury road accidents in the City of York local authority and Yorkshire and the Humber in each year since 1992 are given in the following table.

Number of accidents

	City of York		*Yorkshire and the Humber*	
	Fatal	*Serious*	*Fatal*	*Serious*
1992	4	110	373	3,858
1993	4	84	351	3,459
1994	2	67	294	3,333
1995	3	69	313	3,396
1996[1]	3	59	292	3,220
1997	7	111	295	3,175
1998	4	70	286	3,001
1999	8	106	285	2,922
2000	12	73	288	2,800
2001	6	108	299	2,858
2002	8	103	294	2,893
2003	8	70	296	2,808
2004	7	94	288	2,709
2005	9	71	276	2,507
2006	6	114	278	2,538

[1] In April 1996 the City of York local authority became a unitary authority and increased in size.

Information relating to light railways is not available, and providing the information requested for railway and air accidents would entail disproportionate costs.

Automatic Number Plate Recognition

Alistair Burt: To ask the Secretary of State for Transport what guidance has been given to local authorities on the installation and use of automatic number plate recognition systems. [151309]

Jim Fitzpatrick: No specific advice has been given by the Department to local authorities on the installation and use of automatic number plate recognition systems.

Aviation: Security

Sir Paul Beresford: To ask the Secretary of State for Transport what assessment she has made of the adequacy of security measures at UK airfields from which private aircraft and pilots operate. [152024]

Jim Fitzpatrick *[holding answer 23 July 2007]:* Aviation security measures in the UK National Aviation Security Programme are constantly kept under review. We are working closely with the EU in considering the appropriateness of security measures for smaller aircraft. The security measures in the UK National Aviation Security Programme apply to aircraft over a certain size used for civil public transport purposes and the airfields from which they operate from.

Bicycles: Parking

Emily Thornberry: To ask the Secretary of State for Transport how many cycle parking spaces were installed by each highway authority in England in each of the last five years. [152050]

Ms Rosie Winterton: This information is not collected centrally.

Birmingham New Street Station

Richard Burden: To ask the Secretary of State for Transport further to the oral answer to the hon. Member for Birmingham, Northfield of 17 July 2007, *Official Report*, columns 146-47, on Birmingham New Street, what further clarification of the further information is required from partners putting forward the redevelopment case for New Street station; and if she will make a statement. [152084]

Mr. Tom Harris: We are very clear that something has to and will be done to improve New Street station.

This is fully recognised within the proposed funding provision for the railway for the next planning period (2009-14) and the funding elements for major improvements for the rail related aspects of Birmingham New Street station have today been announced as being given high priority by government.

The proposals of Birmingham city council and its partners seek a very significant investment commitment from the public purse. The Department is therefore scrutinising these proposals carefully and has asked for information to ensure that the funding sought from government represents best value.

This information includes alternative proposals for optimising the benefits of public investment and clarification of proposals for ensuring that the public sector's contribution is set at the right level.

Blue Badge Scheme

Robert Neill: To ask the Secretary of State for Transport (1) when she expects to announce the results of her Department's review of eligibility for the Blue Badge parking scheme; [152102]

(2) for what reasons people with inflammatory bowel disease are not eligible for the Blue Badge parking scheme; and if she will extend eligibility for the scheme to such people. [152103]

Ms Rosie Winterton: The Blue Badge Disabled Parking Scheme is primarily designed to assist people with severe difficulty in walking. People with specific conditions, such as inflammatory bowel disease, are therefore not eligible for a badge unless their walking is very seriously affected.

The Department for Transport (DFT) is currently conducting a strategic review of the Blue Badge Scheme, which will consider whether the scheme should be extended to other disability groups.

The strategic review will report to DFT Ministers in September 2007. A subsequent announcement will follow prior to the publication of a comprehensive Blue Badge reform strategy by April 2008.

Bus Services

Susan Kramer: To ask the Secretary of State for Transport how many bus services have been *(a)* withdrawn and *(b)* added to service (i) in total and (ii) in each traffic area region in each year since 2004-05. [152132]

Ms Rosie Winterton: The information is not available without incurring disproportionate costs.

Hugh Bayley: To ask the Secretary of State for Transport what the percentage change in bus usage in *(a)* England, *(b)* Yorkshire and the Humber, *(c)* the City of York and *(d)* London has been since 1997. [152202]

Ms Rosie Winterton: The information requested for England, Yorkshire and the Humber and London is available from Table E of the "Public Transport Statistics Bulletin GB: 2006 Edition", a copy of which is held in the House of Commons Library.

The information for York is not available from DfT sources. York City council reported an increase in bus passenger journeys of 57 per cent. between 2000-01 and 2005-06 in its delivery report for its first local transport plan.

Bus Services: East Sussex

Mr. Waterson: To ask the Secretary of State for Transport how much was spent by her Department on bus subsidy in East Sussex in the last 12 months, broken down by parliamentary constituency. [151430]

Ms Rosie Winterton: The Department provides grants to local transport authorities through the Rural Bus Subsidy Grant, Rural and Urban Bus Challenge and Kickstart schemes. A total of £1.146 million was paid under these schemes to East Sussex county council in the financial year 2006-07. Figures are not available by parliamentary constituency.

In addition, the Department pays Bus Service Operators Grant to operators of local bus services throughout the country but information on this expenditure is not collected on a parliamentary constituency basis.

Information is not available in the form requested on local authority expenditure on bus support from the Government's unhypothecated Revenue Support Grant or their own resources.

Departments: East Sussex

Mr. Waterson: To ask the Secretary of State for Transport how much funding her Department allocated to projects in *(a)* Eastbourne and *(b)* East Sussex in each of the last 10 years. [151432]

Ms Rosie Winterton: The following table shows the capital funding allocated to East Sussex county council in the local transport capital settlements from 1998-99 to 2007-08. From 2000-01 to 2007-08 the figures shown include block allocations for integrated transport block and highways capital maintenance, along with specific funding for major schemes.

For most of the funding it has been for the county council to decide on its distribution between Eastbourne and the rest of the county, according to its local policies and priorities.

East Sussex council

	£ million
1998-99	5.449
1999-2000	5.478
2000-01	8.043
2001-02	10.061
2002-03	10.767
2003-04	10.694
2004-05	11.955
2005-06	10.931
2006-07	12.005
2007-08	10.473

Departments: Land

Mr. Hancock: To ask the Secretary of State for Transport what disposals her Department made of land in Hampshire in each year since 1997; and whether she required any of the land to be used for social housing. [149898]

Jim Fitzpatrick: The Department for Transport was formed in 2002 and since that date has disposed of the following plots of land in Hampshire:

	Number
2002	4 plots sold
2003	0 plots sold
2004	4 plots sold
2005	8 plots sold
2006	6 plots sold
2007 (as at 17 April)	1

It is the responsibility of local planning authorities to identify and release land for housing as part of the planning process. This means that the requirement for the provision of social housing will need to be negotiated and agreed with the local planning authority. The Government have implemented a number of initiatives to assist with land supply for housing. A Register of Surplus Public Sector Land held by central Government bodies has been established. English Partnerships review the sites on the register to identify those which could have the potential for housing development. As of June 2007 there were over 700 sites on the register. Sites are continually being added as they are identified as surplus by landowners and removed once expressions of interest are received after a site has been marketed.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Transport which Bills introduced by her Department in the last five years contained sunset clauses; and what plans she has for the future use of such clauses. [151834]

Jim Fitzpatrick: Of the enacted Bills introduced by the Department for Transport in the last five years one contains a sunset provision.

Under section 16 of the Road Safety Act 2006 no order can be made under the new section 34D of the Road Traffic Offenders Act 1988 (orders relating to the alcohol ignition interlock programme) after the end of 2010 or such later date as the Secretary of State may specify by order, subject to any order by the Secretary of State terminating the restriction. In the intervening period ("the experimental period") section 16 imposes more limited restrictions on the making of orders under section 34D.

The appropriateness of a sunset clause for the whole or any part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Motor Vehicles: Insurance

Susan Kramer: To ask the Secretary of State for Transport if she will estimate the average cost of car insurance to the individual. [152155]

Jim Fitzpatrick: The latest insurance industry estimates available are for the year 2005 and are that the average cost of car insurance for all drivers is £370 per annum.

Motor Vehicles: Safety Measures

Mr. Greg Knight: To ask the Secretary of State for Transport what progress she has made in discussions with her EU counterparts on the Government's policy that motorists in the UK should not be required to use daytime running lights; and if she will make a statement. [151703]

Jim Fitzpatrick: The Secretary of State has not yet had an opportunity to discuss daytime running lights (DRLs) with her EU counterparts. However, the Department for Transport and the Secretary of State will continue to work with our EU partners on this subject to make sure the concerns of the UK Government are considered in any decision on the fitment and use of DRLs.

Motor Vehicles: York

Hugh Bayley: To ask the Secretary of State for Transport how many vehicles in York pay reduced vehicle excise duty (VED) because they have smaller engines; and how many are exempt from VED because they are old vehicles. [152203]

Jim Fitzpatrick: The rate of vehicle excise duty (VED) is directly linked to engine capacity for motorcycles, tricycles and private and light goods vehicles registered prior to 1 March 2001. At the end of March 2007, the numbers of licensed vehicles within these tax classes, registered to keepers residing in the City of York unitary authority were as follows:

Tax class	*Engine capacity*	*Number of licensed vehicles*
Private and light goods	Not over 1549 cc	13,389
Private and light goods	Over 1549 cc	23,345
Motorcycles	Not over 150 cc	1,841
Motorcycles	151 cc to 400 cc	312
Motorcycles	401 cc to 600 cc	717
Motorcycles	Over 600 cc	1,492
Tricycles	Not over 150 cc	1
Tricycles	Over 150 cc	42

At the end of March 2007, there were also 850 licensed vehicles registered within the City of York that were exempt from VED due to them being constructed prior to 1 January 1973.

Railways: Poole

Mr. Syms: To ask the Secretary of State for Transport what plans she has to increase capacity on commuter trains between Poole and London, measured by *(a)* new carriages and *(b)* passenger numbers; and when the new capacity will be rolled out. [151575]

Mr. Tom Harris: Stagecoach South Western replaced the train units that serve the train service to Weymouth from commencement of the new franchise (February 2007). The train service consisted of five car class 442 units with a capacity of 495 passengers which were replaced with five car class 444 units with a capacity of 520 passengers. The department is not aware of any further plans by Stagecoach South Western to increase capacity on this line.

Road Traffic Control: Ambulance Services

Mr. Greg Knight: To ask the Secretary of State for Transport what assessment her Department has made of the impact of speed humps on ambulances; and if she will make a statement. [151897]

Ms Rosie Winterton: The Department has commissioned extensive research into the development of traffic calming technique. This research covers the impacts of road humps on vehicles, including ambulances, and their occupants. As a result, the Department recommends the use of 75 mm high (instead of the 100 mm maximum height permitted under regulations) road humps with shallow gradients, or speed cushions, where emergency services may be expected to pass on a regular basis.

Rolling Stock: Leasing

Mrs. Dunwoody: To ask the Secretary of State for Transport what the total cost was to the public purse of the high speed trains fleet recently leased to SNCF; how long the period of the lease is; and what return is expected for *(a)* the Exchequer and *(b)* Eurostar. [150758]

Mr. Tom Harris: Eurostar UK Ltd. (EUKL) has recently leased its Regional Eurostar trains to SNCF to reduce the cost of stabling and maintaining trains for which it has no current use. The lease agreed with SNCF runs to 2013, however, the value of the deal is commercially sensitive and cannot be released in answer to this question. Income from the lease will accrue to EUKL, improving London and Continental Railways' (EUKL's parent company) overall financial position and reducing the Department for Transport's exposure to supporting Eurostar's costs. The Regional Eurostar trains were ordered by British Rail in 1991 at a cost of £180 million.

Shipping: Radioactive Materials

Chris Huhne: To ask the Secretary of State for Transport whether radioactive materials may legally be transported *(a)* on passenger ferries and *(b)* through the channel tunnel. [151927]

Jim Fitzpatrick: Provided that shipments are made in accordance with the International Maritime Dangerous Goods (IMDG) Code there is no legal reason why radioactive material may not be transported by passenger ferry.

Provided that shipments are made in accordance with the requirements and restrictions established in Volume F (Carriage of Dangerous Goods) of Eurotunnel's Safety Arrangements, there is no legal reason why radioactive material may not be transported through the channel tunnel.

Transport: Lancashire

Geraldine Smith: To ask the Secretary of State for Transport what the estimated cost was of the next best option (western route) which Lancashire County Council submitted in her Department as their major business scheme in 2005; what environmental mitigation measures were identified for this route; and what the estimated cost was of any such measures. [152329]

Ms Rosie Winterton: Lancashire county council's 2005 major scheme business case for the Heysham to M6 link did not include an estimated cost for the next best option (the western route). However, it did include an explanation of the reasons why the local authority had rejected the western route. A copy of the business case is available on Lancashire county council's website at

www.lancashire.gov.uk.

Transport: York

Hugh Bayley: To ask the Secretary of State for Transport how much Government grant the City of York received for transport schemes in each year since the unitary authority was established. [152201]

Ms Rosie Winterton: A local transport capital settlement is made annually and includes funding to support local transport projects. The settlements are published on the Department for Transport website at:

www.dft.gov.uk/pgr/regional/ltp/capital

Most Government support for day to day highways and transport services is provided within the revenue support grant. It is up to local authorities to determine how much of this support to use on individual services according to their local policies and priorities.

Travel: Surveys

Susan Kramer: To ask the Secretary of State for Transport what the average *(a)* number and *(b)* distance of trips as calculated by the National Travel Survey was by (i) car driver, (ii) car passenger, (iii) bus, (iv) walking and (v) other modes of transport for the purposes of (A) commuting, (B) business, (C) education, (D) escort education, (E) shopping and (F) other reasons, broken down by (1) sex and (2) ages (v) under 17 years, (w) 17 to 29 years, (x) 30 to 49 years, (y) 50 to 59 years and (z) over 60 years in the latest period for which figures are available. [152136]

Ms Rosie Winterton: I refer the hon. Member to the answer given to the hon. Member for Orkney and Shetland (Mr. Carmichael) on 28 November 2006, *Official Report*, columns 527-28W.

Vehicle and Operator Services Agency

Kerry McCarthy: To ask the Secretary of State for Transport how much has been paid by the Department in consultancy fees to Deloitte and Touche in respect of its study into the possible outsourcing of elements of the work of the Vehicle and Operator Services Agency. [152434]

Jim Fitzpatrick: Payments to Deloitte and Touche LLP, from July 2006 (when the contract was awarded) to the end of June 2007, that are related to the current review of services provided by the Vehicle and Operator Services Agency have been £1,072,904.

DEFENCE

Arborfield Garrison

Mr. Redwood: To ask the Secretary of State for Defence whether his Department plans to seek planning permission for more housing development at Arborfield Garrison prior to disposal of surplus property and land. [150923]

Derek Twigg: The Ministry of Defence is required to obtain market value when disposing of surplus assets. Officials work closely with English Partnerships, regional development agencies, local authorities and other key stakeholders when considering its disposal strategy. This will often include an assessment of development and regeneration opportunities which can be taken forward by prospective purchasers.

Currently we are promoting the surplus land holdings at Arborfield Garrison within the emerging Local Development Framework for a residential-led mixed use re-development. This may lead to a planning application being made by MOD prior to disposal of the land.

Mr. Redwood: To ask the Secretary of State for Defence what area of land at Arborfield Garrison he expects to become surplus to his Department's requirements by 2012; and how much of that area is designated brownfield. [150924]

Derek Twigg: Arborfield Garrison consists of Rowcroft Barracks, Hazebrouck Barracks and West Court Officers' Mess that are due to become surplus to the Department's requirements by 2012. The site areas are respectively 50.753 hectares, 67.332 hectares and 28.393 hectares. In accordance with Planning Policy Statement 3: Housing, we consider most of the land holdings as previously developed land (often referred to as brownfield land).

In addition there is 2.24 hectares not assigned to any of the above sites and a number of Service families accommodation, owned by Annington Homes Limited (AHL), that will become surplus to this Department and will be handed back to AHL under the terms of the 1996 Sale Agreement.

Armed Forces: Casualties

Mr. Harper: To ask the Secretary of State for Defence how many casualty admissions there have been to *(a)* Selly Oak, *(b)* Ramstein and *(c)* other Ministry of Defence medical facilities from (i) Operation Telic, (ii) Operation Herrick and (iii) other theatres in each year since 1997. [148264]

Derek Twigg: The Royal Centre for Defence Medicine (RCDM) (formerly CDM), officially opened at Selly Oak in April 2001. Figures prior to this date are not available. Since opening, RCDM has handled the following numbers of patients who will have been admitted to any of five separate hospitals in Birmingham (this includes Selly Oak hospital). RCDM is the main reception centre for our casualties from all operations. The figures include all war fighting and non-war fighting physical injuries and illnesses. Figures for other operations include deployed operations, permanent operations, Permanent Joint Operating Bases, British Forces Germany, all Royal Navy ships and overseas locations, and exercise areas of all three services.

The admissions to RCDM from Operation Telic (commenced in 2003) are shown in the following table:

	Total
2003	512
2004	430
2005	321
2006	353
2007	[1]178

[1] January to June

Admissions to RCDM from Operation Herrick (commenced in 2005):

	Total
2005	24
2006	113
2007	[1]145

[1] January to June

Admissions to RCDM from other operations:

	Total
2001	393
2002	504
2003	146
2004	477
2005	598
2006	557
2007	[1]248

[1] January to June

With regard to the number of admissions to the United States medical facility in Ramstein, Germany, I will write to the hon. Member and place a copy my letter in the Library of the House.

Field hospital admissions and Aeromedical figures are published on a fortnightly basis on the MOD website and updated regularly.

Statistics for other theatres of operations from 1997 onwards are not held centrally and could be provided only at disproportionate cost.

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence how many faulty *(a)* gas and *(b)* electrical appliances in accommodation maintained by Modern Housing Solutions were repaired or replaced in each year since 2005. [149667]

Derek Twigg: Modern Housing Solutions (MHS) has only been responsible for the maintenance of service families accommodation in England and Wales since January 2006.

MHS does not separately identify the information requested.

Armed Forces: Private Education

Mr. Pope: To ask the Secretary of State for Defence how much was spent on providing education in independent schools for the children of *(a)* officers and *(b)* other ranks of the armed forces in the last year for which figures are available. [150902]

Derek Twigg: Information on cost details of Service Education Allowances that have been spent by Service parents to help provide education for their children at independent schools is not held. When an eligible Service parent claims a Service Education Allowance, it can be used to help provide continuity of education for their child(ren) in either the independent or state maintained school sector; this is the parents' choice. The allowances can also be used at independent or state maintained education establishments that offer professional or vocational qualifications for the post-16 age group. All of these schools and establishments are listed on the Ministry of Defence's Accredited Schools Database.

The net cost of Service Education Allowances for the academic year 2005-06 was £93.6 million and for 2006-07 is estimated to be £93.7 million.

From 1 April 2007, all Service Education Allowances are now managed by the Joint Personnel Administration system. I am able to provide information on the number of Service Education Allowance claimants for 2005-06. This is shown in the following table:

Service	*Officers*	*Other ranks*	*Total*
Royal Navy	920	457	1,377
Army	2,675	1,605	4,280
Royal Air Force	1,286	971	2,257
Total claimants	4,881	3,033	7,914

Information on the cost for officer and other rank claimants from the legacy single Service administration systems could be provided only at disproportionate cost.

Armed Forces: Temporary Accommodation

Nick Harvey: To ask the Secretary of State for Defence what the total cost was of placing service families in hotels in each year since 2005. [150027]

Derek Twigg: Records of hotel costs in England and Wales incurred prior to 1 January 2006 are no longer available. However, the costs incurred since January 2006 are:

January-December 2006: £49,081

January-30 June 2007: £28,271

It will take more time to identify hotel costs for Scotland, Northern Ireland and Overseas and I will write to the hon. Member. A copy of my letter will be placed in the Library of the House.

Defence Export Services Organisation

Mr. Andrew Smith: To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Export Services Organisation. [151453]

Mr. Bob Ainsworth: I refer my right hon. Friend to the answer given to the hon. Member for Twickenham (Dr. Cable) on 16 July 2007, *Official Report*, column 13W.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Defence how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151975]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Departments: Crime

Mr. Clegg: To ask the Secretary of State for Defence what criminal offences have been created by primary legislation sponsored by his Department since October 2006. [149594]

Derek Twigg: The Ministry of Defence has sponsored one piece of primary legislation since October 2006; the Armed Forces Act 2006. That Act maintains in force, with modifications, a number of offences which are currently in the Service Discipline Acts (the Army Act 1955, the Air Force Act 1955 and the Naval Discipline Act 1957). A summary of the main offences in the Act is as follows.

Assisting an enemy, section 1

Misconduct on operations, section 2

Obstructing operations, section 3

Looting, section 4

Failure to escape etc, section 5

Mutiny, section 6,

Failure to suppress mutiny, section 7

Desertion, section 8,

Absence without leave, section 9,

Failure to cause apprehension of deserters or absentees, section 10,

Misconduct towards a superior officer, section 11

Disobedience to lawful commands, section 12

Contravention of standing orders, section 13

Using force against a sentry, section 14

Failure to attend for or perform duty etc, section 15

Malingering, section 16,

Disclosure of information useful to an enemy, section 17,

Making false records etc, section 18,

Conduct prejudicial to good order and discipline, section 19,

Unfitness or misconduct through alcohol or drugs, section 20,

Fighting or threatening behaviour etc, section 21,

Ill-treatment of subordinates, section 22,

Disgraceful conduct of a cruel or indecent kind, section 23,

Damage to or loss of public or service property, section 24,

Misapplying or wasting public or service property, section 25,

Obstructing or failing to assist a service policeman, section 27,

Resistance to arrest etc, section 28,

Offences in relation to service custody, section 29,

Allowing escape, or unlawful release, of prisoners etc, section 30,

Hazarding of ship, section 31,

Giving false air signals etc, section 32

Dangerous flying etc, section 33,

Low flying, section 34,

Annoyance by flying, section 35,

Inaccurate certification, section 36,

Prize offences by officer in command of ship or aircraft, section 37,

Other prize offences, section 38,

Attempts, section 39,

Incitement, section 40,

Aiding, abetting, counselling or procuring, section 41,

Sections 42 to 48 do not create offences but provide for criminal conduct punishable by the law of England and Wales to be dealt with under the 2006 Act.

Failure to attend a hearing following release from custody after charge, section 107

Service restraining orders, section 229

Financial statement orders, section 266

Failing to provide a drug sample, section 305

Failing to comply with requirement for a sample for analysis, section 306,

Misbehaviour in court etc, section 309

Aiding or abetting etc desertion or absence without leave, section 344

Aiding or abetting etc malingering, section 345,

Obstructing persons subject to service law in course of duty, section 346.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Defence what legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149567]

Derek Twigg: The MOD has been responsible for the introduction of four Acts since 1997.

The Armed Forces Discipline Act 2000 and The Armed Forces Pay and Compensation Act 2004 are both in force.

The Armed Forces Act 2001, with the exception of three sections, is in force. It is intended to bring the Armed Forces Act 2006 fully into force by January 2009.

Departments: Manpower

Mr. Heald: To ask the Secretary of State for Defence how many staff at the Main Building, Whitehall funded by the public purse in his Department are classified as people without posts. [152256]

Derek Twigg: Fewer then five staff at Main Building are classified as people without posts. Due to the low numbers involved the information is not broken down further as this could identify the individuals and breach disclosure and confidentiality policy.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Defence how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151651]

Derek Twigg: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Library of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Ex-servicemen: Pay

Dr. Murrison: To ask the Secretary of State for Defence what the average time period between discharge and payment of gratuity was for persons leaving each service in each year since 1997. [150125]

Derek Twigg: Information on the average time period between discharge and payment of gratuities (i.e. discharge related grants and pensions) since 1997 is not held centrally and could be provided only at disproportionate cost.

Modern Housing Solutions: Standards

Nick Harvey: To ask the Secretary of State for Defence if he will place in the Library the results of all customer satisfaction surveys carried out for his Department by Modern Housing Solutions since 2005. [150025]

Derek Twigg: Modern Housing Solutions (MHS) has been delivering services since 1 January 2006, producing monthly progress reports for occupants. The report for June is published on its website at: www.modernhousingsolutions.com/assets/documents/update.pdf and includes the results of MHS's customer satisfaction survey for weeks ending 1 March to 24 May 2007.

It will take a little time to collate the requested information for the period 1 January 2006 to the end of February 2007. I will write to the hon. Member and place a copy of my letter in the Library of the House.

HOME DEPARTMENT

Anti-Semitism

Mr. Amess: To ask the Secretary of State for the Home Department what legal provisions are in place to prevent *(a)* the preaching of hatred and *(b)* incitement to commit criminal acts against the Jewish community in England and Wales; and if she will make a statement. [151003]

Mr. Coaker: Part III of the Public Order Act 1986 contains a number of offences covering acts intended or likely to stir up racial hatred. These include: use of words or behaviour or display of written material which is threatening, abusive or insulting; publishing or distributing such written material; presenting or directing a public performance of a play involving the use of threatening, abusive or insulting words or behaviour; distributing, showing or playing recordings of images or sounds which are threatening, abusive or insulting; providing, producing, directing or appearing in a programme service involving threatening, abusive or insulting visual images or sounds; and possessing threatening, abusive or insulting written material or recordings of visual images or sounds with a view to displaying, publishing, distributing or playing them in a programme service. Anti-Semitic hatred is covered by these offences as Jews are defined as a racial group. The maximum penalty for inciting racial hatred is seven years' imprisonment.

In addition to the range of existing incitement offences, the Crime and Disorder Act 1998 created nine racially-aggravated offences, including assaults, criminal damage and harassment, which make available to the courts higher maximum penalties where there is evidence of racist motivation or racial hostility in connection with the offence. The Act also requires a judge or

magistrate dealing with any offence which is racially-aggravated to state in open court that they have found it to be so aggravated, and therefore meriting an increased sentence.

The Powers of Criminal Courts (Sentencing) Act 2000 introduces a requirement for courts to take account of racial or religious motivation in sentencing for other offences.

Mr. Amess: To ask the Secretary of State for the Home Department what assistance she has *(a)* given and *(b)* plans to give to the Jewish community in England and Wales to protect it against attacks and violence; and if she will make a statement. [151004]

Mr. Coaker: I can assure the hon. gentleman that this Government take all attacks and violence seriously, and particularly those motivated by prejudice and hatred. We have in place a programme of work to tackle all hate crime, including that motivated by anti-Semitism, based on: increasing reporting; ensuring a more effective response from authorities; bringing more offences to justice; using local data to prevent hate crime from happening in the first place; and better understanding the extent and nature of all hate crimes.

If any members of the community have been the subject of an attack or violence, they should contact the police immediately. If they are worried that they may be the subject of an attack or violence, they should contact their local police Crime Prevention Officer, who can offer specific advice as to protective security measures that may be taken.

Antisocial Behaviour: East Sussex

Mr. Waterson: To ask the Secretary of State for the Home Department what assessment she has made of the levels of perception of antisocial behaviour in *(a)* Eastbourne and *(b)* East Sussex. [151363]

Mr. Coaker: The data are not available in the form requested. Antisocial behaviour (ASB) is measured through a measure of perceptions using the British Crime Survey (BCS). The size of the sample in the British Crime Survey means that we cannot provide reliable data for geographical areas smaller than police force areas. This applies both to the local authority level of Eastbourne and the county level of East Sussex. Due to changes in the measure of antisocial behaviour, police force area data comparable to the national figures are only available for 2004-05 to 2006-07, and the national measure of perceptions of ASB only back to 2001-02.

The following table sets out the national BCS figures for the last six years and the comparable figure for Sussex police force area.

Percentage of people perceiving high levels of ASB in their local area

Percentage

	National	*Sussex police force area*	*Statistically significantly different (at the 95 per cent. level) from the national average*
2001-02	19	—	—
2002-03	21	—	—
2003-04	16	—	—
2004-05	17	17	No
2005-06	17	14	No
2006-07	18	15	No

Note:
The measure of antisocial behaviour used is based on a scale constructed from seven questions on problems due to noisy neighbours or loud parties, teenagers and young people hanging around, rubbish and litter, vandalism, people using or dealing drugs, people being drunk or rowdy and abandoned cars.

Asylum: Poole

Mr. Syms: To ask the Secretary of State for the Home Department how many asylum seekers resident in Poole have been waiting for three months or longer for initial decisions to be made. [151592]

Mr. Byrne: Information on numbers of asylum applications and decision outcomes relating to asylum seekers in particular areas of the UK is not collated as are statistics regarding the location of asylum seekers not in receipt of support.

There were no asylum seekers recorded as receiving asylum support in Poole as at the end of March 2007.

The numbers of asylum seekers in receipt of support, broken down by Government office region and local authority, are published on a quarterly and annual basis. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Further breakdowns of those in receipt of support, by parliamentary constituency, are also available from the Library of the House.

Mr. Syms: To ask the Secretary of State for the Home Department how many asylum seekers have arrived in Poole in the last five years. [151596]

Mr. Byrne: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The numbers of asylum seekers in receipt of support are available broken down by Government office region, local authority and parliamentary constituency.

The following table shows the number of asylum seekers recorded as receiving asylum support in Poole as at the end of each year for the last five years. These figures exclude any asylum seekers who may be living in Poole but not receiving support.

The numbers of asylum seekers in receipt of support, broken down by Government office region and local authority, are published on a quarterly and annual basis. Copies of these publications are available from the Library

As at the end of December	In dispersed accommodation	In receipt of subsistence only support	Total in receipt of support
2002	0	10	10
2003	0	5	5
2004	0	[1]	[1]
2005	0	5	5
2006	0	[1]	[1]

[1] 1or 2

Note:
All figures are rounded to the nearest 5.

Asylum: York

Hugh Bayley: To ask the Secretary of State for the Home Department how many asylum applicants she estimates are living in York. [151610]

Mr. Byrne: Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The numbers of asylum seekers in receipt of support are available broken down by Government office region, local authority and Parliamentary constituency.

As at the end of March 2007 there were fewer than three asylum seekers receiving support in York. This figure excludes any asylum seekers who may be living in York but are not receiving support.

The numbers of asylum seekers in receipt of support, broken down by Government office region and local authority, are published on a quarterly and annual basis. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Further breakdowns, of those in receipt of support by parliamentary constituency, are also available from the Library of the House.

BAE Systems: Saudi Arabia

Mr. Moore: To ask the Secretary of State for the Home Department what requests she and her Department have received from the United States Administration for co-operation in the US Department of Justice's investigation into the Al Yamamah arms deal; and if she will make a statement. [151085]

Meg Hillier: I can confirm that the Home Office has received a request for assistance from the USA in respect of corruption allegations concerning BAE Systems. The request will be dealt with in accordance with the bi-lateral treaty on mutual legal assistance between the UK and the USA. It would be inappropriate to comment further.

Crime: North Yorkshire

Hugh Bayley: To ask the Secretary of State for the Home Department how many *(a)* violent crimes and *(b)* crimes were recorded in (i) North Yorkshire and (ii) City of York in each of the last 10 years. [151609]

Mr. Coaker: The available information relates to the North Yorkshire police force area and the York Crime and Disorder Reduction Partnership (CDRP) area and is given in the tables.

Table 1: Recorded offences of violence against the person and total crime—1997

	Violence against the person		Total crime	
	York CDRP	North Yorkshire	York CDRP	North Yorkshire
1997	n/a	2,425	n/a	50,252

n/a - not available

Table 2: Recorded offences of violence against the person and total crime—1998-99 to 2001-02

	Violence against the person		Total crime	
	York CDRP	North Yorkshire	York CDRP	North Yorkshire
1998-99	n/a	4,827	n/a	55,309
1999-2000	n/a	5,101	n/a	53,554
2000-01	1,504	4,895	19,291	51,532
2001-02	1,656	5,624	22,890	59,125

n/a = Not available

Notes:
1. The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
2. The data in this table is prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 3: Recorded offences of violence against the person and total crime—2002-03 to 2006-07

	Violence against the person		Total crime	
	York CDRP	North Yorkshire	York CDRP	North Yorkshire
2002-03	2,575	8,108	25,630	67,239
2003-04	3,459	9,610	29,347	71,473
2004-05	4,000	12,045	23,080	61,615
2005-06	3,810	11,473	22,784	58,850
2006-07	3,285	10,087	20,935	54,526

Note:
The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Crimes of Violence: Southampton

Sandra Gidley: To ask the Secretary of State for the Home Department what steps she is taking to reduce the incidence of violent crime in Southampton. [151058]

Mr. Coaker: The Government are currently taking forward a very full range of work which will continue to reduce violent crime. We have, for example, recently passed the Violent Crime Reduction Act, which gives the police and local communities the powers they need to tackle guns, knives and alcohol-related violence.

Southampton is one of the areas included in the Tackling Violent Crime Programme, through which the Home Office is working intensively with practitioners in a number of local areas with high levels of more serious violent crime, to support their efforts to reduce alcohol-related crime and domestic violence, to improve police and other agencies' performance and partnership working, and to improve local strategies.

Southampton was also the first area in the South East to adopt a violence prevention initiative based on Accident and Emergency Unit information sharing.

This follows a successful model of community violence prevention developed in Cardiff, which has demonstrated that hospital A&E intelligence can be pivotal in directing violence reduction initiatives, and ultimately reducing the harm caused by violent crime.

Sexual violence is also a priority. Funding has been provided this year for the Southampton Rape Crisis and Abuse Centre, a registered charity providing support, advocacy, counselling and therapy, and for No Limits, Southampton, an organisation which provides information, advice and counselling services for young people. Two independent sexual violence advisers, who provide targeted professional support to victims of sex crimes, are based in Southampton.

Southampton Safe City Partnership are engaged in, and sponsor, a range of initiatives, including:

Improved crime recording and analysis

Domestic violence advocacy to assist victims and reduce repeat offending

Dedicated hate crime and harassment reporting line to the police and local authority

Extended Designated Public Places Order use

Test purchases with on and off licences

CCTV in taxi cabs

Best Bar None Scheme

Taxi Marshals

Nightlink Bus

Dedicated police monitoring of CCTV to identify incidents of violence early.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for the Home Department what volume of correspondence her Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150440]

Mr. Byrne: Information on the volumes of correspondence sent by Royal Mail and by other commercial delivery services for the last five years are not held.

The volume of correspondence dispatched from the Home Office headquarters in 2 Marsham Street in year 2006-07 sent by Royal Mail comprise 32,902 individual items and 6,613 sacks of mail (approximately 200 items per sack). Other commercial mail delivery services were not used in 2006-07 other than limited use of courier companies.

Driving Under Influence: Great Yarmouth

Mr. Anthony Wright: To ask the Secretary of State for the Home Department how many instances of drink driving there were in Great Yarmouth in each of the last 10 years, broken down by *(a)* age and *(b)* sex. [151969]

Mr. Coaker: Screening breath tests data held by the Office for Criminal Justice Reform are available by police force area only. Information is not collected centrally on the age or sex of persons required to take a screening breath test.

Drugs: Crime

Mr. Vara: To ask the Secretary of State for the Home Department what percentage of crimes committed have been identified as having drug and alcohol abuse as a *(a)* primary and *(b)* contributory factor, broken down by category of crime; and if she will make a statement. [151992]

Mr. Coaker: The information requested is not available centrally from the recorded crime statistics. It is not possible to identify whether alcohol or drug abuse are contributory factors since the circumstances of individual crimes are not collected in the statistics.

Entry Clearances: Waiting Lists

Sandra Gidley: To ask the Secretary of State for the Home Department what the average waiting time was for *(a)* visa and *(b)* leave to remain applications in each year since 1997. [151047]

Meg Munn: I have been asked to reply.

UKvisas do not keep statistics on average waiting times for visa applications. Since 2005, UKvisas performance has been measured against the following Public Service Agreement (PSA) standards:

PS A 1: 90 per cent. of straightforward non-settlement applications to be processed within 24 hours.

PS A 2: 90 per cent. of non-settlement applications requiring further enquiries or interview to be processed within 15 days.

PS A 3: 90 per cent. of settlement applications to be processed within 12 weeks.

UKvisas exceeded these standards in the 2004-05 and 2005-06 financial years. In 2004-05, 91 per cent. of PSA 1 applications were processed within 24 hours, 90 per cent. of PSA 2 applications were processed within 15 days and 99 per cent. of PSA 3 applications processed within 12 weeks. In 2005-06, 93 per cent. of PSA 1 applications were processed within 24 hours, 94 per cent. of PSA 2 applications were processed within 15 days and 97 per cent. of PSA 3 applications processed within 12 weeks.

Prior to 2004, service delivery was measured against target times for length of interviews which entry clearance officers were required to meet rather than the total time taken to process visa applications. Figures for the 2006-07 financial year are not yet available.

The Border and Immigration Agency do not keep statistics on average waiting times for leave to remain applications. Performance is measured against the published service standards which can be found on the immigration website at:

http://www.ind.homeoffice.gov.uk/6353/11464/servicestandardsapr07.xls.

Firearms: Crime

Tim Loughton: To ask the Secretary of State for the Home Department how many people under the age of 21 have been charged with firearms offences in each of the last five years. [150327]

Mr. Coaker: Information on charges brought by the police are only held by the police themselves and not reported to the Office for Criminal Justice Reform.

However, data on cases brought to court are collected, and information on the number of persons under 21 years of age proceeded against for firearms offences in England and Wales for the years 2001-05 is provided in the table.

Data for 2006 will be available in the autumn.

Number of persons aged under 21 years proceeded against at magistrates courts for firearms offences, England and Wales 2001-05[1,2,3]

	Number proceeded against
2001	1,193
2002	1,014
2003	959
2004	1,273
2005	1,444

[1] These data are provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] See the following offence table for offences used.

	Offence
Indictable firearms offences	
514-516	Possession of firearms with intent to endanger life or injure property
517-519	Using firearms with intent to resist arrest
813-815	Possessing firearms at time of committing, or being arrested for, an offence
816-818	Possessing firearms with intent to commit an indictable offence or resist arrest
823-825	Possessing firearms with intent to cause fear of violence
8103	Possessing firearms or ammunition without certificate (Section 1)[2]
8115	Shortening a shot gun
8104	Possessing shot gun without certificate
8109-8110	Selling firearms to person without a certificate
8117	Possessing or distributing prohibited weapons or ammunition
8126-8127	Carrying loaded firearm in public place
8135-8137	Possession of firearms by persons previously convicted of crime
8170	Possessing or distributing prohibited weapons designed for discharge of noxious liquid etc.[2]
other81	Other indictable offence
Summary firearms offences	
11504	Non-compliance with condition of firearms certificate (Section 1)[3]
11528	Carrying air weapon or imitation weapon in public place[4]
11532-11534	Trespassing with firearm on land
11541-11543	Person under 17 acquiring firearm subject to control under Section 1
11559-11560	Making false statement in order to procure grant or renewal of firearm or shot gun certificate
11506	Non-compliance with condition of shot gun certificate
11546	Person under 14 having an air weapon or ammunition
11547	Person under 17 having an air weapon in a public place
other 115 + 14103	Other summary firearms offence

Foreign Workers: Health Professions

Mr. Clegg: To ask the Secretary of State for the Home Department what data were used to make statements in the Race Equality Impact Assessment on the changes in immigration rules for postgraduate doctors and dentists, where those data are not provided within the assessment itself. [149762]

Jacqui Smith: The Race Equality Impact Assessment on the changes in the immigration rules for postgraduate doctors and dentists drew upon management information provided by Work Permits (UK) and discussions with the Department for Health on the increasing competition for training programmes.

Identity Cards

Mr. Oaten: To ask the Secretary of State for the Home Department when the identity cards pilot scheme is expected to report; and if she will make a statement. [150826]

Meg Hillier *[holding answer 19 July 2007]:* There has yet to be a pilot of the identity cards scheme. However, there is provision in section 44(4) of the Identity Cards Act 2006 that will enable provisions of the Act to be brought into force in stages so as to allow for a trial in a particular area or relating to a particular category of persons. It also allows for transitional provisions following any such trial.

Identity Cards: Travelling People

Mr. Boswell: To ask the Secretary of State for the Home Department what assessment she has made of the implications of the introduction of identity cards for Gypsy and Traveller communities. [151419]

Meg Hillier: Issues relating to the Gypsy and Traveller communities were raised as part of the consultation on identity cards legislation and were included in the summary of responses, published in October 2004 (Cm 6348). Once identity cards are introduced, it is expected that Gypsies and Travellers would be able to apply for an identity card at the same time as applying for a passport.

Immigration: Bulgaria

Hugh Robertson: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of *(a)* Romanians and *(b)* Bulgarians (i) available to fill the agricultural labour requirement in 2008; and what assessment she has made of whether they possess the necessary skills. [151699]

Mr. Byrne *[holding answer 23 July 2007]:* The seasonal agricultural workers scheme is a low skilled scheme designed to help meet any shortfall in the supply of seasonal labour from within the UK and

those ED states with access to our labour market. As this is a low skilled scheme, we contract with operators to undertake with the individual the necessary assessment of suitability.

A recent International Organisation for Migration (IOM) survey in Bulgaria and Romania shows there is good reason to believe A2 nationals will offer an adequate pool of SAWS recruits. The survey found that 5 per cent. of the sample of respondents (which was representative of the population at large) would consider working in the UK. Of those 50 per cent. would consider working in agriculture and 38 per cent. intended to remain for less than six months. We are in regular contact with the operators and our embassies in Romanian and Bulgaria and will continue to monitor the situation.

Offensive Weapons: East Sussex

Mr. Waterson: To ask the Secretary of State for the Home Department how many people were *(a)* injured and *(b)* killed as a result of knife crime offences in (i) Eastbourne and (ii) East Sussex in each year since 1997. [151365]

Mr. Coaker: The information available centrally relates to homicides by sharp instrument recorded each year between 1997-98 and 2005-06. As figures are not collected below police force area level, data relating to Sussex police are given in the following table.

Offences currently recorded[1] as homicide by sharp instrument[2]: Sussex police, 1997-98 to 2005-06

Year offence initially recorded	*Number recorded*
1997-98	4
1998-99	4
1999-2000	5
2000-01	5

Based on England and Wales totals as published in 'Homicides, Firearm Offences and Intimate Violence 2005-06' (Home Office Statistical Bulletin 02/07).

Passports: Fraud

Mr. Burstow: To ask the Secretary of State for the Home Department which consultants were employed by the *(a)* Identity and Passport Service and *(b)* her Department to examine and give advice on passport security and fraud detection and prevention in each of the last five years; what the (i) duration, (ii) purpose and (iii) cost was of each contract; what reports were submitted; and if she will make a statement. [151506]

Meg Hillier *[holding answer 23 July 2007]:* IPS has not generally awarded specific consultancy contracts for advice on passport security, fraud detection and prevention. It has operated a model of engaging specialist contractors on an interim management basis to provide guidance and knowledge to supplement in-house expertise.

Two contracts were awarded in 2004 on a consultancy basis. These are in the following table:

Contractor	*Work*	*Date*	*Price (£)*
Price Waterhouse Coopers LLP	Development of a testing strategy for establishing extent and nature of fraudulent applications	February to April 2004	62,790
BDA Training	Implement common sampling process for detection of fraudulent passport applications	November to December 2004	17,850

Seasonal Agricultural Workers' Scheme

Hugh Robertson: To ask the Secretary of State for the Home Department what discussions her Department has had with operators of the seasonal agricultural workers scheme on the future of the scheme; and if she will make a statement. [151695]

Mr. Byrne *[holding answer 23 July 2007]:* There have been a number of meetings, both at ministerial and official level, with operators and their representatives since October 2006 about the future of the Seasonal Agricultural Workers Scheme (SAWS). Those discussions have centred on the implications of the Government's obligations regarding EU Community preference, restrictions on Bulgarian and Romanian nationals and the future role of the Migration Advisory Committee.

Hugh Robertson: To ask the Secretary of State for the Home Department what assessment has been made of the ability of the Seasonal Agricultural Workers Scheme to fill the requirement for agricultural labour in 2008. [151698]

Mr. Byrne *[holding answer 23 July 2007]:* The Seasonal Agricultural Workers Scheme (SAWS) allows farmers and growers in the UK to recruit overseas workers to undertake work that is both seasonal and agricultural. The scheme helps to meet any shortfall in the supply of seasonal labour from within the UK and those EU states with access to our labour market.

It is not the purpose of SAWS to fill the requirement for agricultural labour in the UK, and it has only ever met a small proportion of the total requirement for agricultural labour. Migrants from a number of other routes such as working holidaymakers are also free to work in the agricultural sector.

The horticultural industry is also able to recruit workers from throughout the EEA.

Hugh Robertson: To ask the Secretary of State for the Home Department what Seasonal Agricultural Workers Scheme quota will be set for 2008. [151700]

Mr. Byrne *[holding answer 23 July 2007]:* As in previous years, an announcement will be made on next year's quota in time to allow operators to recruit workers for 2008.

Hugh Robertson: To ask the Secretary of State for the Home Department what steps have been taken following the meeting with the National Farmers Union about the Seasonal Agricultural Workers Scheme on 2 May 2007. [151701]

Mr. Byrne *[holding answer 23 July 2007]:* I met with Lord Rooker, Minister for Sustainable Food and Farming and Animal Health, on 15 May 2007 and we are arranging a further meeting with operators and the National Farmers Union to discuss the scheme.

Technology: Safety

Margaret Moran: To ask the Secretary of State for the Home Department what assessment she has made of the implications for *(a)* public safety and *(b)* the (i) safety and (ii) privacy of individuals of use of mobile and location-based technology. [149449]

Mr. Coaker: The Government meets with the communication service providers, children's charities and other interested parties to keep these matters under review. We are supportive of the industry Code of Practice for the use of mobile technology to provide passive location services in the UK. This code governs the way services are run and provide consumer (particularly child) protection measures that supplement legal and regulatory requirements. We will work with industry to ensure that the Code of Practice is updated to take account of technological advances.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Carbon Emissions: Imports

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs if he will commission research to quantify the amount of carbon dioxide emissions generated by imports to the UK of Chinese-manufactured goods. [150800]

Mr. Woolas: DEFRA's evidence and innovation strategy considers some of the 'embedded' environmental impacts of the international supply chains that feed UK consumption. Research projects relevant to embodied carbon emissions include:

Support for a British Standards Institute project to develop a publicly accessible specification for embedded greenhouse gas emissions of products and services.

The development of an embedded carbon emissions indicator to enable more accurate measurement of embedded carbon emissions in supply chains outside the UK. This is based on a multi-regional model that, in the first instance, divides the world into three regions (OECD-Europe, other OECD and non-OECD countries) enabling a more accurate estimation of carbon dioxide emissions embedded UK trade than previously possible. To date, UK emissions factors for this data have been used but do not give an accurate result, as the impacts can vary depending on the sources of energy used in the producing country. This model will enable a more accurate representation of the emission, albeit not specifically for Chinese energy sources.

Environment Protection: York City Council

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* purpose and *(b)* value was of each special grant awarded to City of York council for environmental purposes in each year since 2006. [151565]

Mr. Woolas: Details of grants awarded to City of York council for environmental purposes since 2006 are shown in the following table.

	Grant	*Purpose of grant*	*Amount (£)*
2005-07	Yorkshire Forward	City of York's Eco Depot	600,000
2006-07	Direct Consultancy Support[1]	Waste Composition Project	49,916
2007-08	Direct Consultancy Support[1]	Waste Composition Project	49,916
2005-06	Waste Performance and Efficiency Grant	General Waste and Recycling	145,790
2006-07	Waste Performance and Efficiency Grant	General Waste and Recycling	38,705
2007-08	Waste Performance and Efficiency Grant	General Waste and Recycling	406,075
2005-06	Joint Municipal Waste Strategy[2]	Revision and Development	72,183

[1] Joint project between North Yorkshire county council and City of York council.
[2] Awarded to North Yorkshire county council. City of York council was one of the named constituent councils for this project.

Exhaust Emissions: Delivery Services

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the impact of internet and catalogue shopping home deliveries on levels of carbon dioxide emissions in the last five years. [150070]

Mr. Woolas: No assessment has been made by my Department.

Fisheries: Migrant Workers

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the percentage of Cornish fishing crews which are migrant workers. [152029]

Jonathan Shaw *[holding answer 23 July 2007]:* My Department does not hold the information requested.

Flood Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will review the adequacy of the budgets for flood defences; and if he will make a statement. [151148]

Mr. Woolas: I refer the hon. Member to the statement given by the Secretary of State on 2 July 2007, *Official Report*, column 689, in which he stated the Government have always recognised the need to spend more on flood defence because of changes in climate. DEFRA and local authority spend on flood

and coastal erosion risk management has increased from £307 million in 1996-97 to £600 million this year and will increase further to £800 million in 2010-11.

Floods: Housing

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes have been *(a)* built, *(b)* built on flood plains, *(c)* built in areas of significant flood risk and *(d)* built against the advice of the Environment Agency due to flood risk in (i) each region and (ii) England in the last 10 years. [148954]

Mr. Iain Wright: I have been asked to reply.

With regards to the homes that have been *(a)* built and *(b)* built on flood plains information from the Communities and Local Government's Land Use Change Statistics and Completions data show the total number of dwellings built and the estimated number built on floodplains. Between 1996 and 2005 (the most recent 10 years for which data are available) there were 1,441,200 dwellings completed, of which an estimated 133,600 were built on flood risk areas.

Data are not available on the number of homes built against Environment Agency advice.

I also refer the hon. Member to the answer given by my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper) to the hon. Member for Shrewsbury and Atcham (Daniel Kawczynski) on 8 January 2007, *Official Report*, column 369W.

Floods: Warnings

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the take up is of the automatic flood warning system in *(a)* North Yorkshire, *(b)* South Yorkshire, *(c)* East Yorkshire and *(d)* England. [150822]

Mr. Woolas: The Environment Agency reported that the take up for Floodline Warnings Direct in these areas is as follows:

North Yorkshire (excluding the City of York): 3,516 properties which is 29 per cent. of those offered Floodline Warnings Direct.

South Yorkshire: 1,653 properties which is 39 per cent. of those offered Floodline Warnings Direct.

East Yorkshire: 2,694 properties which is 45 per cent. of those offered Floodline Warnings Direct.

England: 250,606 properties which is 30 per cent. of those offered Floodline Warnings Direct.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to review the flood warning system. [150823]

Mr. Woolas: My right hon. Friend the Secretary of State announced a Lessons Learned exercise on the summer flooding on 12 July. Any lessons about the operation of the operation of the flood warning system will be picked up as part of that exercise.

Under the Government's making space for water strategy for flood and coastal erosion risk management, the technical feasibility of extending warnings to include other types of flooding than from rivers or the sea is currently under study.

Fly Tipping: East of England

Mr. Vara: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 25 June 2007, *Official Report*, column 82W, on flytipping: East of England, how many incidents of flytipping were reported in each local authority in the UK in *(a)* 2004-05 and *(b)* 2005-06; what the estimated cost was of dealing with incidents of flytipping; and how many (i) prosecutions and (ii) successful prosecutions there were for flytipping in each local authority in the UK in each year. [149878]

Jonathan Shaw: The Flycapture database, which was set up in 2004 by DEFRA, the Environment Agency and the Local Government Association, records the number of fly tipping incidents dealt with by the Environment Agency and local authorities and the enforcement action taken. The Environment Agency deals only with larger scale fly-tipping incidents.

As it is quite lengthy, I am arranging for a table showing the number of incidents and prosecutions recorded on Flycapture for 2004-05 and 2005-06 in England to be placed in the House Library.

Data for 2006-07 have not yet been finalised, but will be available in the summer.

Greenhouse Gas Emissions: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what the change in greenhouse gas emissions has been in percentage terms in *(a)* Yorkshire and the Humber and *(b)* City of York since 2003. [151558]

Joan Ruddock: DEFRA does not hold greenhouse gas emissions data at the geographical level necessary to derive these reductions. Experimental local authority carbon dioxide emissions data are currently available for 2003 and 2004 only— however, due to changes in the underlying methodology, year-on-year comparisons using these data would be inappropriate.

I have placed experimental emissions estimates for 2003 and 2004 in the Library of the House.

Land Drainage

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency spent on drainage on each local authority area in each of the last three years. [151455]

Mr. Woolas: The Environment Agency is responsible for managing flood risk from designated main rivers and the sea with local authorities (and, in low-lying areas, internal drainage boards) responsible for managing flood risk from other watercourses.

Local authorities, highway authorities and water and sewerage companies all have varying responsibilities for drainage of surface water.

I am unable to provide a breakdown of spend on flood risk management by local authority area without incurring disproportionate cost.

Land Use: Flood Control

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to give greater weight in the higher level scheme to land management measures that would reduce the risk to communities from flooding. [150760]

Mr. Woolas: There is funding available under the higher level scheme for the creation of wildlife habitats which may also have flood risk management benefits. My officials are currently reviewing the progress of environmental stewardship to see whether the scheme is on course to meet its environmental outcomes. In particular the review will consider how the scheme can mitigate the effects of climate change which may have a bearing on flood management issues.

Radioactive Materials: Storage

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the Nuclear Decommissioning Agency's choice of sites for storing nuclear waste. [150727]

Malcolm Wicks: I have been asked to reply.

Government considers that it is essential that radioactive waste is stored safely and securely at all times pending its disposal, in line with HSE requirements on Nuclear Site Licensees and the recommendations of the independent Committee on Radioactive Waste Management (CoRWM).

In response to CoRWM's 2006 recommendations, the NDA is reviewing the adequacy of waste storage arrangements across its sites, focusing on the service life of facilities required to accommodate waste until a disposal facility is available. In a separate study NDA's contractors have been looking at possible opportunities to optimise intermediate level waste storage. The preliminary view is that there may be opportunities to consolidate storage at some NDA sites using facilities that are already in site baseline plans, as well as opportunities for minimising waste generation. There are currently no plans for new stores located off NDA sites. The outcomes of these studies will inform the review of the NDA's Strategy, which it expects to begin during 2008. The NDA's Strategy will be the subject of public consultation and subject to approval by Government.

Rights of Way

Mr. Chope: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it the policy of the Government to exclude built-up areas in towns and villages from the extinguishment provisions of the Countryside and Rights of Way Act 2000 and exercise his powers to that effect under Section 54. [152315]

Jonathan Shaw: Section 54 of the Countryside and Rights of Way (CROW) Act does provide for "excepted rights of way" which are exempted from the extinguishment provisions of the Act and come into force in 2026. The relevant sections in the Act require regulations to be implemented, and are yet to be implemented in Parliament. The Government will publish a consultation paper in due course to seek views on the scope of the provisions before any regulations are brought into force.

Rights of Way: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what parts of *(a)* York and *(b)* north Yorkshire have been opened to the public under the Countryside and Rights of Way Act 2000; and if he will make a statement. [151517]

Jonathan Shaw: The former Countryside Agency mapped 748 hectares of open country and registered common land in the administrative area of York city council, equivalent to 2.7 per cent. of the administrative area.

The agency mapped a total of 178,990 hectares in north Yorkshire as open country and common land. That includes 95,060 hectares of the Yorkshire Dales National Park and 44,450 hectares of the North York Moors National Park.

Sewers: East Sussex

Mr. Waterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many miles of sewers there are in *(a)* Eastbourne and *(b)* East Sussex; and what percentage are over 100 years old. [151405]

Mr. Woolas: DEFRA does not hold this information. Southern Water are responsible for the public sewers in Eastbourne and East Sussex and would hold any available information relating to the age and length of sewers in this area.

Wood: Recycling

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the reasons for the level of recycling of timber; and what steps he is taking to increase the level. [150706]

Joan Ruddock: Recent research[1] carried out on DEFRA's behalf, suggests that it is generally better, in carbon and energy terms, to recover energy from waste wood than to recycle it, with either option being far better than landfill. It estimated that 16 per cent. of waste wood in the UK is currently recycled and 80 per cent. landfilled.

No specific assessment has been made of the reasons for the current level of wood recycling. However the waste and resources action programme (WRAP) continues to play an important role in developing recycling capacity for clean waste wood and markets for the resulting products.

Most waste wood is, however, unsuitable for recycling and the waste strategy for England 2007 sets out the Government's intention to recover more energy from wood that would otherwise be landfilled. DEFRA's waste implementation programme is taking forward a

programme of work to develop energy markets for waste wood by addressing the informational and practical barriers to expansion.

[1] Carbon Balances and Energy Impacts of the Management of UK Wastes, report by ERM (with Colder Associates) for DEFRA, Final Report, March 2007.

CULTURE, MEDIA AND SPORT

Arts Council of England: Finance

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport how much grant in aid he plans to allocate Arts Council England in each of the next three years; and if he will make a statement. [150535]

James Purnell: Discussions on the comprehensive spending review are continuing between DCMS and HM Treasury. No decision has yet been taken about grant in aid for Arts Council England for the next three years.

Arts: National Lottery

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much was allocated from the National Lottery to *(a)* the Heritage Lottery Fund and *(b)* UK Arts Lottery Distributors in each financial year since 1994, not including investment income. [152324]

Mr. Sutcliffe: The total operator proceeds for each financial year for *(a)* the Heritage Lottery Fund were:

	Heritage lottery fund (£ million)
1994-95	57.875
1995-96	288.674
1996-97	291.484
1997-98	327.210
1998-99	253.665
1999-2000	244.801
2000-01	258.010
2001-02	275.800
2002-03	225.185
2003-04	216.452
2004-05	226.088
2005-06	230.631
2006-07	200.930

Note:
Figures rounded to the nearest thousand pounds

and *(b)* the Arts Council of England, Arts Council of Wales, Arts Council of Northern Ireland, Scottish Arts Council, Scottish Screen and the UK Film Council were:

£ million

	Arts Council of England	*UK Film Council.*	*Arts Council of Northern Ireland*	*Scottish Arts Council*	*Arts Council of Wales*	*Scottish Screen*
1994-95	48.210	—	1.621	5.151	2.894	—
1995-96	240.465	—	8.083	25.692	14.434	—
1996-97	242.806	—	8.162	25.942	14.574	—
1997-98	272.566	—	9.162	29.122	16.361	—
1998-99	211.303	—	7.103	22.576	12.683	—
1999-2000	188.072	15.848	6.854	21.787	12.240	—
2000-01	183.445	31.477	7.224	17.628	12.901	5.335
2001-02	196.094	33.648	7.722	21.347	13.790	3.199
2002-03	159.556	28.023	6.305	17.377	11.259	2.664

2006-07	142.861	24.513	5.626	15.552	10.046	2.331

Note:
Figures rounded to the nearest thousand pounds

Betting: Regulation

Tony Baldry: To ask the Secretary of State for Culture, Media and Sport when he expects to receive the conclusions of his Department's working group on regulation and administration of on-course betting. [152333]

Mr. Sutcliffe: Following an approach from the Bookmakers' Committee, my Department facilitated the setting up of the Working Group on the Regulation and Administration of On Course Bookmaking in February 2007. It is chaired by the chief executive of the National Joint Pitch Council and includes representatives of the betting and racing industries. DCMS is not represented on the group.

The group originally planned to report in April 2007. However, it has taken it longer than originally expected to fulfil its terms of reference. We are expecting it to publish its draft proposals for consultation soon.

Digital Switchover Help Scheme

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport whether those eligible for the targeted assistance scheme in relation to digital switchover are entitled to a digital box with the technical potential for later upgrading with a return path and IPTV slot. [149755]

James Purnell: The digital terrestrial set top boxes provided under the digital switchover help scheme will

meet the scheme's core receiver requirements. These requirements do not at present require that the boxes have a return path but nor do they rule it out. The requirements will be kept under review throughout the process of switchover by an emerging technologies group, which will assess the case for changes, including the possible provision of a return path, based on their usability and cost-effectiveness, and will, where appropriate, recommend that DCMS and the BBC amend the requirements.

National Joint Pitch Council

Tony Baldry: To ask the Secretary of State for Culture, Media and Sport whether his Department's working group on regulation and administration of on-course betting has identified those administrative functions of the National Joint Pitch Council which are not provided for in regulations under the Gambling Act 2005; and if he will make a statement. [152332]

Mr. Sutcliffe: The Working Group on the Regulation and Administration of On Course Bookmaking is independent of my Department. It was set up following an approach from the Bookmakers' Committee, includes representatives of the betting and racing industries and is chaired by the chief executive of the National Joint Pitch Council. Its terms of reference include a requirement to

"Agree a comprehensive list of the current administrative functions of the NJPC that are not preserved in regulations under the Gambling Act 2005".

I understand that its members are in the process of completing this task and will publish their findings for public consultation soon. I am further aware that the Group decided of its own volition to exclude any consideration of pitch tenure issues.

National Lottery: Wales

Mr. Touhig: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the diversion of Lottery funding for the London Olympics on future Lottery funding in Wales. [151856]

Mr. Sutcliffe: As announced on 15 March, it is proposed that the Arts Council of Wales will contribute £8.1 million and the Sports Council for Wales £7.3 million.

Of the relevant UK-wide distributing bodies, it is proposed that the Heritage Lottery Fund will make a contribution of £161.2 million and Big Lottery Fund a contribution of £638.1 million. It is for these distributors to determine the proportion of their funding which goes to Wales. No funds will be transferred before 2009.

In addition, non-Olympic good causes may lose about 5 per cent. of their income as a result of sales diversion from Olympic Lottery games during the eight years from 2005 to 2012.

Grants already made need not be affected. Furthermore, the Big Lottery Fund will maintain, and extend from 2009 to 2012, its commitment to provide 60 to 70 per cent. of its funding to the voluntary and community sector, at the levels planned before the announcement of the Olympic transfer.

Sports: Children

Ms Keeble: To ask the Secretary of State for Culture, Media and Sport what steps he plans to take to increase sporting participation among children nationally as part of the legacy of the 2012 Games. [151118]

James Purnell *[holding answer 23 July 2007]:* Our continued investment in the National School Sport Strategy, jointly delivered by the Department for Culture, Media and Sport and the Department for Children, Schools and Families, will help us to achieve a sustainable legacy of sporting participation for children and young people now and beyond the Games in 2012. There is a PSA target to increase the percentage of 5-16 year olds participating in a minimum of two hours high quality PE and school sport each week to 85 per cent. by 2008. The 2005-06 annual survey of schools in school sport partnerships showed that 80 per cent. of children and young people were already doing so.

The Government's long-term aim has been to offer all 5-16 year olds four hours of sport by 2010, through a combination of provision in the school day, out of school and community activities. On 13 July 2007 the Prime Minister announced an additional £100 million funding to increase this offer to five hours per week of sport for children and young people aged 5-16, plus three hours per week for young people aged 16-19, by 2010.

Sports: National Lottery

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much Lottery funding was provided to *(a)* athletics, *(b)* swimming and *(c)* rowing in each year since 1998. [152289]

Mr. Sutcliffe: The amount of lottery funding provided to athletics, swimming and rowing in each year since 1998 is in the following table.

Lottery funding

£

	Athletics	*Swimming*	*Rowing*
1998-99	3,045,016	15,791,917	1,790,466
1999-2000	12,161,588	26,119,732	1,908,205
2000-01	19,904,669	18,325,175	1,685,659
2001-02	7,040,174	30,088,993	9,295,194
2002-03	5,134,124	20,282,823	1,914,826
2003-04	9,715,394	3,016,870	400,245
2004-05	32,006,607	19,257,243	18,890,457
2005-06	21,922,334	5,466,592	618,753
2006-07	4,540,492	6,454,689	1,926,034

Sports: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Culture, Media and Sport how much the Government spent on sport in *(a)* Yorkshire and the Humber and *(b)* City of York in each year since 1997. [152186]

Mr. Sutcliffe: Data for the past 10 years could be provided only at disproportionate cost. The following table shows the Government (Exchequer) funding for

Yorkshire and Humber in each of the last seven years. It is not possible to isolate figures for the City of York as Sport England does not hold data in that format.

	Exchequer (£)
2001-02	139,078
2002-03	25,000
2003-04	205,020
2004-05	893,066
2005-06	1,014,442
2006-07	876,054
2007-08	48,000
Total	3,200,660

COMMUNITIES AND LOCAL GOVERNMENT

Buildings: Energy

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what plans she has to encourage the refurbishment of existing buildings to increase energy efficiency. [151254]

Mr. Iain Wright: Buildings account for 45 per cent. of total UK carbon emissions—27 per cent. from homes and 18 per cent. from non-domestic buildings—so reducing emissions from buildings will be a vital contribution to delivering our overall target of reducing UK carbon emissions by 60 per cent. on 1990 levels by 2050.

Despite recent growth in the number of domestic and office appliances, heating is still the major use of energy in buildings—around 75 per cent. of building energy consumption relates to space and water heating—so insulation, draught-proofing and efficient heating systems and controls are key to delivering significant energy efficiencies.

Existing programmes and policies such as Decent Homes, Warm Front, and the Energy Efficiency Commitment, and information and advice from the Government-funded Energy Saving Trust and Carbon Trust continue to encourage and support energy efficiency refurbishments of existing buildings. These programmes have already had a significant impact on the existing building stock. The latest annual report on the English House Condition Survey, published in June this year, found that the average energy efficiency rating of the housing stock had progressively improved from 1996.

In addition, we will shortly begin to roll out the requirement for Energy Performance Certificates and air conditioning inspections which will provide building owners and occupants, for the first time, with information on the energy performance of their buildings and what can be done to improve their performance.

We are currently consulting on proposals for a new three-year Carbon Emissions Reduction Target to run from 2008 to 2011 that would double the activity under the existing Energy Efficiency Commitment that comes to an end in 2008. We announced, in the Energy White Paper in May this year, our intention to introduce a new cap and trade scheme, the Carbon Reduction Commitment, for large organisations to provide a greater incentive for them to take up energy efficiency measures and to consult on a proposal to roll out advanced and smart metering services to all but the smallest business users.

We are also looking at how to further improve the targeting of advice to households to encourage energy efficiency improvements and we are reviewing what other measures could be taken to improve non-domestic buildings.

Business: Renewable Energy

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many business premises in England have *(a)* small-scale wind turbines and *(b)* solar panels, according to Valuation Office Agency valuation records. [152414]

John Healey: The information requested is not held centrally and could be provided only at disproportionate cost.

Communities England: Finance

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government what funding has been allocated to Communities England for *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10. [147967]

Mr. Iain Wright: The creation of the new homes agency is subject to the agreement of Parliament, and until this has been granted no money can be allocated. Following parliamentary approval, any future budgets allocated to the homes agency are subject to the outcome of the comprehensive spending review.

Council Housing: East Sussex

Mr. Waterson: To ask the Secretary of State for Communities and Local Government how many units of council housing there are in *(a)* Eastbourne and *(b)* East Sussex. [151426]

Mr. Iain Wright: Eastbourne local authority reported a stock of 3,825 council dwellings as at 1 April 2006 the latest date available. East Sussex local authorities—Eastbourne, Hastings, Lewes, Rother and Wealden—reported a stock of 10,380 council dwellings as at 1 April 2006.

Source:

Local authority returns (Housing Strategy Statistical Appendix).

Mr. Waterson: To ask the Secretary of State for Communities and Local Government how many dwellings were *(a)* constructed for private sale, *(b)* built by housing associations and *(c)* built by local authorities in (i) Eastbourne and (ii) East Sussex in each of the last 10 years. [151435]

Mr. Iain Wright: Figures for the number of private dwelling completions as reported by Eastbourne and East Sussex local authorities are presented in the tables:

Private new build completions, 1997-98 to 2006-07

	Eastbourne	*East Sussex (including Eastbourne)*
1997-98	73	512
1998-99	132	1,215
1999-2000	328	1,114
2000-01	377	1,126
2001-02	451	1,102
2002-03	431	1,177
2003-04	540	1,057
2004-05	437	1,170
2005-06	426	1,053
2006-07	255	1,250

Source:
P2 new build return to CLG from local authorities and the national House Building Council. Figures for 1997-98 to 2000-01 are missing some monthly returns from local authorities.

Figures for 1997-98 to 2000-01 are missing some monthly returns from local authorities Figures for the number of new build affordable dwellings as reported by the Housing Corporation are presented below. These affordable figures include social rent and intermediate housing e.g. low cost home ownership

Affordable new build dwellings, 1997-98 to 2006-07

	Eastbourne	*East Sussex (including Eastbourne)*
1997-98	138	432
1998-99	106	334
1999-2000	3	59
2000-01	47	169
2001-02	32	141
2002-03	27	127
2003-04	39	226
2004-05	—	64
2005-06	42	100
2006-07	n/a	n/a

n/a = not available *Source:* Housing Corporation and local authority returns.

No reported local authority dwellings have been built in the last 10 years in Eastbourne and East Sussex.

Council Housing: Waiting Lists

Hugh Bayley: To ask the Secretary of State for Communities and Local Government what the average waiting time was for social housing rented properties with *(a)* one bedroom *(b)* two bedrooms, *(c)* three bedrooms and *(d)* four or more bedrooms for households on the housing waiting list in each local authority area in England in the last period for which figures are available. [151496]

Mr. Iain Wright: The information on average waiting time on a housing list for households is not held centrally.

Hugh Bayley: To ask the Secretary of State for Communities and Local Government what percentage of the households on the housing waiting list in each local authority area in England at the start of 2006-07 were housed in social rented housing by the end of that year. [151497]

Mr. Iain Wright: The information on number of households on the waiting list which are subsequently housed in social rented housing is not held centrally.

For information, although not related to households on waiting lists who were subsequently housed in social rented housing, the numbers of households on the waiting list for social housing by local authority, as at 1 April each year, is published on the Communities and Local Government website in Table 600. The link for this table is as follows:

http://www.communities.gov.uk/embedded_object.asp?id=1163853

Departments: Contracts

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government how her Department monitors contracts issued by public bodies reporting to her Department, with particular reference to the terms and conditions applied to their work forces. [151554]

Mr. Iain Wright: Communities and Local Government awards contracts incorporating standard terms and conditions that reinforce and promote work force related legislation.

For contracts where the transfer of undertakings (TUPE) regulations would apply, specific conditions are applied to protect employees' rights when the business in which they are employed changes hands.

Communities and Local Government promotes the adoption of procurement best practice among its affiliated, autonomous organisations. This includes the adoption of standard terms and conditions and addressing TUPE regulations as well as other specific work force related issues when merited.

Communities and Local Government promotes the use of effective contract management to ensure compliance.

Departments: Crime

Mr. Clegg: To ask the Secretary of State for Communities and Local Government what criminal offences have been created by primary legislation sponsored by her Department since October 2006. [149596]

Hazel Blears: The Department for Communities and Local Government has not created any primary legislation since October 2006, and therefore no new criminal offences have been created.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Communities and Local Government how many people in her Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149196]

Mr. Iain Wright: The Department has not conducted formal proceedings against any staff for inappropriate use of the internet while at work, or for using work

telephones to access premium rate phone lines while at work, in the last 12 months.

Full details of Community and Local Government's approach to the appropriate use of IT and telephones while at work are made available to all staff through the Department's staff handbook. The rules make it clear that the inappropriate use of IT and telephones may constitute a disciplinary offence. Within Communities and Local Government, all users of the Department's IT and telephones are required to make a personal commitment regarding appropriate use of the systems.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Communities and Local Government what legislative provisions introduced by her Department and its predecessors since 1997 have not yet been brought into force. [149565]

Hazel Blears: The Department (and its predecessors) has been responsible for the introduction of 17 Acts since 1997 all of which have been brought into force.

Mr. Clegg: To ask the Secretary of State for Communities and Local Government what legislative provisions introduced by her Department and its predecessor since 1997 have been repealed. [149584]

Hazel Blears: The Department (and its predecessors) has been responsible for the introduction of 17 Acts since 1997 of which the Local Government Finance (Supplementary Credit Approvals) Act 1997 has been repealed as it was superseded by the Local Government Act 2003.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Communities and Local Government how much was spent on overnight accommodation by civil servants within her Department's areas of responsibilities in the last 12 months. [149041]

Mr. Iain Wright: For the 12-month period June 2006 to June 2007 the amount spent on overnight accommodation by civil servants in the Department for Communities and Local Government, excluding Government Offices, departmental agencies and NDPBs, was £928,118.

Departments: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Communities and Local Government how much was spent on private finance initiative projects for which her Department has responsibility in each of the last 10 years; and how much is projected to be spent in each of the next three years, broken down by local authority. [151527]

Mr. Iain Wright: This Department sponsors 45 signed local authority projects. The total revenue spent by the local authorities on those projects in the last 10 years and forecast for the next three years is as follows:

	£ million
1998-99	11
1999-2000	16
2000-01	19
2001-02	34
2002-03	42
2003-04	62
2004-05	81
2005-06	86
2006-07	117
2007-08	140
2008-09	152
2009-10	149
2010-11	146

Forecasts of revenue payments for any projects spending revenue in the next three years, but which are not yet signed, is not available.

Information on individual projects is available on the HM Treasury website at:

www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Communities and Local Government how many complaints of racial abuse relating to staff for which her Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149257]

Mr. Iain Wright: There have been no formal complaints of racial abuse relating to staff in the Department in the last 12 months.

Departments: Standards

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which Public Service Agreement targets have been *(a)* met and *(b)* not met by her Department. [152539]

Mr. Iain Wright: I refer the hon. Member to the Communities and Local Government Annual Report which was published on 17 May 2007. Departmental performance across the 10 public service agreement targets is set out in detail in chapters 3 to 9.

Disadvantaged: East Riding

Mr. Greg Knight: To ask the Secretary of State for Communities and Local Government what programmes her Department is sponsoring in the East Riding of Yorkshire area to promote social inclusion. [151895]

Mr. Dhanda: The East Riding of Yorkshire receives funding from the Department of Communities and Local Government through its Local Area Agreement. This Neighbourhood Element funding is part of resources to build safer and stronger communities. It is up to local partners to decide exactly how these funds are spent, and there has been a focus on improving certain neighbourhoods in the coastal town of Bridlington.

The Department also funds community cohesion activities by small grants distributed through regional Government Offices. The East Riding recently benefited from grants towards the Helping Hands project in Goole which offers support to migrant workers and their families, and towards the Wilberforce Way Walk to commemorate the abolition of slavery and promote community cohesion.

Goole also benefits from regional housing funding for its Advance Goole project to tackle private sector housing issues in part of the town. This aims to create a more mixed and sustainable market to help increase social inclusion.

Empty Property

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many *(a)* buy-to-let properties and *(b)* empty buy-to-let properties there are in each local authority area. [149428]

Mr. Iain Wright: This information is not held centrally. Details on mortgage types, such as buy-to-let are held by the mortgage lenders.

Floods: Expenditure

Robert Neill: To ask the Secretary of State for Communities and Local Government what the cost was of the clear up operation to each affected local authority following recent flooding. [151454]

John Healey: It is too early to say what the cost will be to each affected local authority of the clear up operation following recent flooding. Local authorities are continuing to make their own assessments of the impact of the floods and of the work that will be needed for the recovery process and information improves by the day. We remain in close contact with the affected local authorities and continue to monitor the situation carefully as more information becomes available.

Homelessness: Ex-servicemen

Greg Mulholland: To ask the Secretary of State for Communities and Local Government how many former UK armed forces service personnel in *(a)* Leeds, *(b)* West Yorkshire and *(c)* England are estimated to be homeless. [151446]

Mr. Iain Wright *[holding answer 23 July 2007]:* The Department does not have a comprehensive estimate of the number of former armed forces service personnel that are homeless, but it does collect information on statutory homelessness from local authorities (which cover some ex-HM forces personnel).

Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level, in respect of households rather than people.

Information reported includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation.

Based on information supplied by local authorities for 2006-07, around 50 households accepted as owed the main homelessness duty in England were in priority need primarily as a result of being vulnerable through having served in HM forces. Some authorities also report secondary priority need categories (when an household falls in to more than one priority need group), and there were an additional 40 households reported here. In total, this represents 0.1 per cent. of all acceptances in the year.

In the same year, around 200 households accepted as owed the main homelessness duty cited the reason for loss of their last settled home as having left HM forces, representing 0.3 per cent. of acceptances.

A table has been placed in the Library which shows the number of household acceptances who have (i) the primary and (ii) the secondary priority need of being vulnerable through having served in HM forces, and (iii) cited the reason for loss of last settled home as having left HM forces. The data are provided for all local authorities, including Leeds, Bradford, Calderdale, Kirklees and Wakefield.

It is important to note that many of those households with the HM forces priority need may also have the reason for loss of having left HM forces accommodation, and so there is likely to be some overlap between the two sets of figures.

Housing: Building Regulations

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether building regulations apply to the construction of porches outside a domestic dwelling. [152515]

Mr. Iain Wright: The Building Regulations 2000 do not apply to porches constructed at ground level which are less than 30 square metres in area provided they comply with the relevant parts of Approved Documents Part N—Glazing, and Part P—Electrical Safety.

Housing: Finance

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how much housing funding was provided by the Government in each county of England in each year since 1997. [147699]

Mr. Iain Wright: The total housing funding for each county in the year 2005-06 is in the following table. Figures for other years can be obtained only at disproportionate cost owing to the complexity involved in compiling data on a county-wise basis across so many different funding programmes.

Funding for housing comprises both direct investment and supported investment. Direct investment includes housing capital grants, Housing Corporation capital investment, housing market renewal funding, disabled facilities grants, transfer gap funding and Gypsy sites grants. Housing capital grants are not provided direct to counties but to district councils.

Supported investment includes housing revenue account (HRA) subsidy in the form of major repairs allowance, ALMOs supported borrowing allocations and LAs supported capital expenditure allocations.

Total government investment in housing 2005-06

County	*Total (£)*
Avon	61,059,286
Bedfordshire	24,435,315
Berkshire	45,431,667
Buckinghamshire	49,043,888
Cambridgeshire	37,218,319
Cheshire	46,811,477
Cleveland	25,568,908
Cornwall	29,766,397
Cumbria	24,486,059
Derbyshire	75,691,163
Devon	49,256,868
Dorset	47,636,765
Durham	46,988,587
East Sussex	44,158,644
Essex	143,657,206
Gloucestershire	37,107,148
Greater Manchester	427,493,162
Hampshire	90,572,099
Hereford and Worcester	32,429,370
Hertfordshire	68,952,897
Humberside	57,385,753
Inner London	781,578,439
Isle of Wight	10,472,631
Kent	78,915,070
Lancashire	133,873,129
Leicestershire	63,339,544
Lincolnshire	29,000,383
Merseyside	139,616,618
North Yorkshire	36,252,043
Norfolk	42,314,655
Northamptonshire	47,064,168
Northumberland	33,402,565
Nottinghamshire	84,136,970
Outer London	749,483,158
Oxfordshire	20,736,123
South Yorkshire	281,113,551
Shropshire	33,226,042
Somerset	17,260,609
Staffordshire	167,575,689
Suffolk	18,680,395
Surrey	61,525,233
Tyne and Wear	118,352,732
West Midlands	238,475,063
West Yorkshire	278,699,223
Warwickshire	21,557,294
West Sussex	34,026,191
Wiltshire	21,245,956

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how much and what proportion of English housing funding was provided to *(a)* Cornwall and *(b)* the South West in each year since 1997; and how much housing funding was provided to England in each of those years. [148610]

Mr. Iain Wright: Housing Funding for Cornwall in the year 2005-06 was £29.8 million and for the South West Region as whole was £258.5 million. Figures for other years can be obtained only at disproportionate cost owing to the time involved in compiling data on a county-wide basis across so many different funding programmes.

Funding for housing comprises both direct investment and supported investment. Direct investment includes housing capital grants, Housing Corporation capital investment, housing market renewal funding, disabled facilities grants, transfer gap funding and Gypsy sites grants.

Supported investment includes housing revenue account (HRA) subsidy in the form of major repairs allowance, ALMOs supported borrowing allocations and LAs supported capital allocations.

Housing capital grants are not provided direct to counties but to district councils.

Figures for housing capital investment by Communities and Local Government and its predecessor Departments for England between 1997-98 and 2006-07 are given in the following table.

	Value (£ million)
1997-98	1,894
1998-99	2,098
1999-2000	2,173
2000-01	2,866
2001-02	3,312
2002-03	3,598
2003-04	4,685
2004-05	4,767
2005-06	5,151
2006-07	5,189

Housing: Hampshire

Sandra Gidley: To ask the Secretary of State for Communities and Local Government how many people in *(a)* Romsey, *(b)* Southampton and *(c)* Hampshire are on waiting lists for social housing; and how many units of social housing have been built in (i) Romsey, (ii) Southampton and (iii) Hampshire since 1997. [151038]

Mr. Iain Wright: The constituency of Romsey covers most of Test Valley district council but also includes a small part of Eastleigh district council and Southampton city council. Information is not collected at the constituency level, only at local authority level and includes households rather than people.

The number of households on the waiting list for social housing in *(a)* local authorities covering the Romsey area (Test Valley, Eastleigh and Southampton) *(b)* Southampton and *(c)* Hampshire, as at 1 April each year since 1997, are presented in table 1.

Table 1: Households on the waiting list for social housing in (a) Romsey (Test Valley, Eastleigh and Southampton), (b) Southampton and (c) Hampshire

	Test Valley	*Eastleigh*	*Southampton*	*Hampshire*
1997	1,873	967	2,329	15,341
1998	1,768	1,169	3,902	17,144
1999	1,723	1,200	3,699	19,127
2000	1,611	1,361	4,522	22,070
2001	1,440	1,481	5,148	22,634
2002	1,645	1,623	5,811	24,071

Table 1: Households on the waiting list for social housing in (a) Romsey (Test Valley, Eastleigh and Southampton), (b) Southampton and (c) Hampshire

	Test Valley	Eastleigh	Southampton	Hampshire
2003	2,189	3,424	6,697	24,558
2004	2,092	4,446	8,128	28,635
2005	2,698	4,515	9,225	30,357
2006	2,885	5,014	11,126	32,361

Note:
As reported by local authorities.
Source:
Communities and Local Government Housing Strategy Statistical Appendix return (HSSA)

These figures are also published on the Communities and Local Government website in table 600. The link for this table is given as follows:

http://www.communities.gov.uk/embedded_object.asp?id=1163853

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Not everyone on the waiting list is necessarily in urgent housing need. The waiting list includes those who consider social housing as their preferred or one of a number of housing options, and those who decide to get onto the waiting list ladder before they need or want to move house—particularly where the priority system is heavily based on waiting time.

The numbers of social rent homes provided by local authorities and registered social landlords in *(a)* local authorities covering the Romsey area (Test Valley, Eastleigh and Southampton) *(b)* Southampton and *(c)* Hampshire, since 1997 are presented in table 2 as follows. Homes are provided through new build as well as acquisitions. Figures are as reported by local authorities and the Housing Corporation.

Table 2: Numbers of social rent homes provided by local authorities and registered social landlords in (a) Romsey (Test Valley, Eastleigh and Southampton), (b) Southampton and (c) Hampshire

	Test Valley	Eastleigh	Southampton	Hampshire
1996-97	142	87	167	1,998
1997-98	57	177	229	1,645
1998-99	68	137	266	1,561
1999-2000	52	105	191	1,119
2000-01	92	62	236	1,033
2001-02	48	37	140	1,101
2002-03	160	34	178	817
2003-04	13	96	92	1,045
2004-05	80	132	162	969
2005-06	63	47	114	856

Housing Corporation and local authorities

Housing: Low Incomes

Adam Afriyie: To ask the Secretary of State for Communities and Local Government what plans she has to increase the availability of affordable housing in *(a)* Windsor and *(b)* the South East of England. [148785]

Mr. Iain Wright *[holding answer 12 July 2007]:* The future level and distribution of housing provision across the South East will be determined by the Regional Spatial Strategy (RSS) for the South East. The draft RSS (South East Plan) affordable housing policy proposes that the future provision of affordable housing in the region should have regard to the overall regional target that 25 per cent. of all new housing should be social rented accommodation and 10 per cent. other forms of affordable housing. The policies contained in the draft RSS, including those relating to future plans for affordable housing provision were the subject of an Examination in Public by an Independent Panel. The Panel are due to hand their report to Government on 31 July 2007. The Panel Report will be published by the Government as soon as practicable following that date. Any proposed changes to the Draft RSS by the Government will be published for a further statutory consultation later in the year.

To pre-empt the outcome of the Panel Report and the Statutory Process by making a statement at this time would not be appropriate.

The Draft RSS (South East Plan) proposes an annual average of 281 net dwelling completions in Windsor and Maidenhead and an annual average of 28,900 in the region during the period between 2006 and 2026.

Mr. Soames: To ask the Secretary of State for Communities and Local Government how many affordable homes were built in West Sussex in each year since 1997. [151783]

Mr. Iain Wright *[holding answer 23 July 2007]:* The numbers of affordable homes built in West Sussex in each financial year since 1997-98 are presented in the following table. West Sussex has been taken to include the local authority areas of Adur, Arun, Chichester, Crawley, Horsham, Mid Sussex and Worthing. Affordable housing includes both social rent and intermediate housing (e.g. low cost home ownership).

Not all affordable housing supply is through new build completions, supply can also come from the acquisition and refurbishment of private sector homes. Between 1 April 1997 and 31 March 2006 an additional 1,500 affordable homes were supplied through acquisitions which are not shown in the following table. Figures for 2006-07 are not yet available.

Affordable housing new build: West Sussex

Financial year	Number of homes
1997-98	484
1998-99	682
1999-2000	353
2000-01	190
2001-02	182
2002-03	538
2003-04	400
2004-05	391
2005-06	649

Housing Corporation, local authorities

Housing: Single People

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the proportion of new households which will be single person households in the next 12 months. [152406]

Mr. Iain Wright: One person households account for 70 per cent. of the new households projected to form up to 2026, in England.

Housing: South Eastern Region

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many new dwellings were constructed in the South East Government office region or equivalent area in each year since 1979. [152394]

Mr. Iain Wright: The total number of new build completions in the South East of England since 1979 is as follows:

	New build completions
1980-81	36,646
1981-82	31,333
1982-83	30,943
1983-84	39,098
1984-85	39,927
1985-86	37,158
1986-87	42,158
1987-88	41,265
1988-89	41,865
1989-90	36,114
1990-91	29,867
1991-92	27,373
1992-93	24,040
1993-94	25,797
1994-95	26,955
1995-96	26,992
1996-97	25,048
1997-98	25,441
1998-99	23,199
1999-2000	22,797

P2 return from local authorities and the National House Building Council.

Housing: Standards

Alan Simpson: To ask the Secretary of State for Communities and Local Government if the Government will set a target date for improving the standard assessment procedure (SAP) rating of the two million properties identified in the English House Condition Survey 2005 with a SAP rating below 30. [148431]

Mr. Iain Wright: We currently have no plans to set a specific target date for improving the SAP ratings of these homes, as we have existing policies and programmes which are successfully raising levels of domestic energy efficiency throughout England.

The Government are committed to meeting its statutory requirement of eradicating fuel poverty in the households of vulnerable people by 2010 and in all households across England by 2016. To date 1.4 million households have received help in making their home more energy efficient, through the "Warm Front" programme.

Additionally, the decent homes standard requires homes to have both efficient heating and effective insulation. Since 1997 we have reduced the number of non-decent social sector homes by over 1 million, with over 700,000 council homes receiving work to improve their central heating and over 600,000 local authority dwellings receiving work to improve their insulation.

We have increased the proportion of vulnerable households in the private sector who live in decent homes to 66 per cent., up from 43 per cent. in 1996.

Landlord and Tenant: Rents

Jeremy Corbyn: To ask the Secretary of State for Communities and Local Government what studies have been undertaken by her Department on the levels of rent paid by private sector tenants and their security of tenure; and whether there are any plans to change policy in this areas. [150508]

Mr. Iain Wright *[holding answer 18 July 2007]:* Through the annual Survey of English Housing the Department collects a range of information about the attitudes of private tenants towards their accommodation. This includes information on rents and satisfaction levels with accommodation. The Department has not undertaken any studies in relation to security of tenure in the private rented sector.

We monitor the operation of the private rented housing market to ensure that the sector continues to offer good quality and safe accommodation for people who do not qualify for social housing and are not in a position to enter home ownership. We have no immediate plans to make changes to the legislation on rent levels and security of tenure governed by the Housing Act 1988.

Local Authorities: Newspaper Press

Mrs. Lait: To ask the Secretary of State for Communities and Local Government for which purposes local authorities are required to place notices in local newspapers. [152398]

Mr. Iain Wright: The Government's policy is that information should be made widely available by public bodies, including local authorities, through a variety of appropriate channels. We will take the opportunity, where possible, to allow authorities more discretion on how best to publicise matters in their area. We do not hold centrally, information on the requirements placed on local authorities to insert notices in local newspapers.

Local Government: Grants

Mr. Gauke: To ask the Secretary of State for Communities and Local Government if she will list the central grant payment to local authorities in each year since 1997. [152318]

John Healey: The following table shows the total amount of formula grant, which comprises Revenue Support Grant, redistributed business rates, principal formula Police Grant, SSA Reduction Grant (SSA

Review). SSA Reduction Grant (Police Funding Review) and Central Support Protection Grant, where appropriate, for all authorities, the previous year's formula grant adjusted for changes in funding and function to enable like-for-like comparisons, the change in formula grant and the percentage change in formula grant for the period 1997-98 to 2007-08.

Current year	Previous year's adjusted formula grant (£ million)	Current year's formula grant (£ million)	Change (£ million)	Percentage change
1998-99	34,799.547	35,436.867	637.320	1.8
1999-2000	35,436.867	37,110.829	1,673.962	4.7
2000-01	37,110.980	38,516.380	1,405.400	3.8
2001-02	38,343.957	40,024.446	1,680.489	4.4
2002-03	38,399.009	40,323.132	1,924.123	5.0
2003-04	41,444.087	43,894.370	2,450.282	5.9
2004-05	43,706.797	46,124.222	2,417.425	5.5
2005-06	46,428.755	49,015.925	2,587.170	5.6
2006-07	24,091.464	24,813.914	722.450	3.0
2007-08	24,706.400	25,633.008	926.608	3.8

Prior to 2006-07 support for schools was provided via formula grant; from 2006-07 onwards support for schools was provided via the Dedicated Schools Grant.

Members: Official Correspondence

Mr. Andrew Turner: To ask the Secretary of State for Communities and Local Government when she expects to reply to question 148411 tabled by the hon. Member for Isle of Wight on 4 July 2007 on tree preservation orders. [151775]

Mr. Iain Wright *[holding answer 23 July 2007]:* I answered the question from the hon. Member on 23 July 2007.

Ordnance Survey Act 1841: Fines

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many fines were levied for breaching the Ordnance Survey Act 1841, in relation to preventing a representative of Ordnance Survey from entering a property to conduct an inspection in each year since 1997. [152418]

Mr. Iain Wright: There has been no breach of the Ordnance Survey Act 1841 requiring formal action in relation to prevention of a representative of Ordnance Survey from entering a property in any year since 1997. No fines have been levied in any of these years.

Planning

Anne Main: To ask the Secretary of State for Communities and Local Government how a single-issue revision to a planning policy may be initiated; on which occasions such a revision has been initiated in the last 10 years; and what the subject was of each such revision. [149975]

Mr. Iain Wright: A single-issue revision to a national planning policy is initiated when Government decide that an aspect of planning policy needs to be changed or withdrawn. There is a variety of reasons which might prompt Government to revise policy. These include for example, when policies are not being implemented as expected, where new information emerges that suggest a change is needed, or where a change is required as a result of a court judgment.

The following table sets out all single-issue revisions that have been made since 1997, and the planning policy document to which the amendment relates.

	Title of document	Amendment to which planning policy document
2007	Circular 03/2007 "The Town and Country Planning (Control of Advertisements) (England) Regulations 2007"	Planning Policy Guidance note 19: (1992)
2007	Circular 01/07 "Revisions to Principles of Selection for Listed Buildings"	Planning Policy Guidance note 15: Planning and the Historic Environment (1994)
2006	Written Ministerial Statement "PPS22" (Yvette Cooper)	Planning Policy Statement 22: Renewable Energy (2004)
2005	"Planning for Sustainable Communities in Rural Areas"	Planning Policy Guidance note 3: Housing (2000)
2005	"Supporting the Delivery of New Housing"	Planning Policy Guidance note 3: Housing (2000)
2005	Circular 09/2005 "Arrangements for Handling Heritage Applications—Notification to National Amenity Societies Direction 2005"	Planning Policy Guidance note 15: Planning and the Historic Environment (1994)
2005	Circular 02/2005 "Temporary Stop Notice"	Planning Policy Guidance note 18: Enforcing Planning Control (1991)
2001	DETR News Release 155 and PQ Mark Todd—"Countryside Planning"—(21 March 2001, *Official Report*, columns 253-55W)	Planning Policy Guidance note 7: The Countryside (2004)
2001	Circular 01/2001 "Arrangements for Handling Heritage Applications—Notification and Directions by the Secretary of State"	Planning Policy Guidance note 15: Planning and the Historic Environment (1994)
2000	DETR News Release 416 and PQ Dr. Whitehead—"Areas of Outstanding Natural Beauty"—(13 June 2000, *Official Report*, columns 555-56W)	Planning Policy Guidance note 7: The Countryside (2004)
1997	Circular 14/97 "Planning and the Historic Environment—Notification and Directions by the Secretary of State"	Planning Policy Guidance note 15: Planning and the Historic Environment (1994)

Planning Permission: Appeals

Mrs. Lait: To ask the Secretary of State for Communities and Local Government within what period of time from a planning appeal being received the Planning Inspectorate is obliged to set a start date for the appeal. [152371]

Mr. Iain Wright: There is no statutory period, following receipt of a planning appeal, for setting a starting date. However, when an appeal is received, and provided it is submitted within the time limit and contains all the essential documents listed in the appeal form, it typically takes the Planning Inspectorate five to seven working days to set the starting date.

Planning Permission: Cornwall

Andrew George: To ask the Secretary of State for Communities and Local Government how many planning applications that have limited weeks per year

occupancy as an incorporated feature have been approved in Cornwall in the last 10 years. [152095]

Mr. Iain Wright: The information requested is not held centrally.

Communities and Local Government collects quarterly aggregate statistics on development control from all local planning authorities in England. However, we do not collect information on individual planning applications.

Property Development: East Sussex

Mr. Waterson: To ask the Secretary of State for Communities and Local Government what percentage of *(a)* parkland and *(b)* greenfield land has been developed in (i) Eastbourne and (ii) East Sussex in the last 10 years. [151357]

Mr. Iain Wright: Information on the percentage of "parkland" that has been developed in Eastbourne or East Sussex is not available centrally and could be provided only at disproportionate cost. This is because central Government do not hold data on the stock of "parkland". The land use change statistics do not have a category which corresponds exactly to "parkland". The nearest category would be "outdoor recreation".

Land use change statistics show the amount of land changing its use from "outdoor recreation" to previously-developed ("brownfield"), but this figure can only be compared against the overall amount of change or the total area of Eastbourne or East Sussex.

The land use change statistics show that between 1996 and 2005:

(i) 1.5 per cent. of the land changing its use in Eastbourne changed from "outdoor recreation" to a developed ("brownfield") use. This change is 0.1 per cent. of the total area of Eastbourne district.

(ii) 0.7 per cent. of the land changing its use in East Sussex changed from "outdoor recreation" to a developed ("brownfield") use. This change is less than 0.1 per cent. of the total area of East Sussex.

Information on the percentage of "greenfield" land that has been developed in Eastbourne or East Sussex is not available centrally and could be provided only at disproportionate cost. This is because central Government do not hold data on the stock of "greenfield" land.

Land use change statistics show the amount of land changing its use from non previously-developed ("greenfield") to developed ("brownfield"), but this figure can only be compared against the overall amount of change or the total area of Eastbourne or East Sussex.

Land use change statistics show that between 1996 and 2005:

(i) 24.8 per cent. of land changing its use in Eastbourne changed from a non previously-developed ("greenfield") use to a previously-developed ("brownfield") use. This change is 1.4 per cent. of the total area of Eastbourne district,

(ii) 13.1 per cent. of land changing its use in East Sussex changed from a non previously-developed ("greenfield") use to a previously-developed ("brownfield") use. This change is 0.4 per cent. of the total area of East Sussex.

Second Homes: Rural Areas

Andrew George: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect of second homes and holiday lets on the social cohesion of small rural communities. [152097]

Mr. Iain Wright: This is an issue on which the Government are seeking to improve the evidence base. The National Housing and Planning Advice Unit, established in November 2006, has recently announced plans to conduct research to explore the impact of second homes across the country—including in small rural communities—working with the Department for Food and Rural Affairs and Communities and Local Government.

Sewers: Repairs and Maintenance

Robert Neill: To ask the Secretary of State for Communities and Local Government whether the Government provides funding to local authorities in England specifically for the maintenance of drains. [152054]

John Healey: The Government provide funding for local authority responsibilities in relation to drains maintenance as part of the general formula grant.

Social Sector Working Party on Housing: Meetings

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what she next expects the Social Sector Working Party on housing to meet. [151885]

Mr. Iain Wright: The Chairman of the Social Sector Working Party is arranging the next meeting of the Working Party for September.

Travelling People: Caravan Sites

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many Travellers in England were recorded as occupying unauthorised encampments in each year since 1997. [152405]

Mr. Iain Wright: Communities and Local Government publishes data on the number of Gypsy and Traveller caravans on both authorised and unauthorised sites, on a twice yearly basis. This information is available on our website:

http://www.communities.gov.uk/index.asp?id=1153575

The table shows the number of Gypsy and Traveller caravans on unauthorised encampments in England published on a twice yearly basis since 1997.

	Total number of unauthorised encampments in England
January 1997	1,704
July 1997	2,770
January 1998	1,792
July 1998	2,951
January 1999	1,717

	Total number of unauthorised encampments in England
July 1999	2,555
January 2000	1,788
July 2000	2,513
January 2001	1,638
July 2001	2,382
January 2002	1,637
July 2002	2,261
January 2003	1,620
July 2003	2,315
January 2004	1,594
July 2004	2,377
January 2005	1,301
July 2005	2,099
January 2006	1,118
July 2006	1,772
January 2007	1,286

PRIME MINISTER

Departments: Recruitment

Mrs. May: To ask the Prime Minister how much his Office paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151666]

The Prime Minister: I refer the right hon. Member to the answer given to him by the Parliamentary Secretary to the Cabinet Office, my hon. Friend the for Lincoln (Gillian Merron) today.

Departments: Written Questions

Norman Baker: To ask the Prime Minister if he will make an assessment of conformity of Answers he has given to written parliamentary questions with Cabinet Office guidance on the matter; and if he will make a statement. [152108]

The Prime Minister: Section 1 of the Ministerial Code provides guidance to Ministers on answering parliamentary questions.

MINISTER FOR WOMEN

Pensions: Family Credit

Steve Webb: To ask the Minister for Women and Equality pursuant to the answer of 2 July 2007, *Official Report*, column 945W, on pensions: family credit, how many current recipients of state-earnings-related pensions *(a)* in total and *(b)* born in each year from 1939 to 1947 have an enhanced pension in respect of previous receipt of family credit; and if she will estimate the average amount of enhancement for those currently benefiting. [147988]

Mr. Mike O'Brien *[holding answer 9 July 2007]:* I have been asked to reply.

The information is not collated centrally and can be obtained only at disproportionate cost.

NORTHERN IRELAND

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Northern Ireland whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151401]

Mr. Woodward: The Northern Ireland Office and its agencies have not made any payments to Flint Bishop Solicitors.

Police: Inquiries

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what percentage of the Police Service Northern Ireland officer-time has been spent on historical inquiries in the last two years; and if he will make a statement. [150934]

Paul Goggins: The PSNI is committed to providing all material in its possession to assist the inquiries to carry out their legal obligations. To deliver on this commitment, the organisation has sought to maximise the role of PSNI support staff in order to maintain the operational effectiveness of its police officers. To achieve this, PSNI has committed resources to dedicated units and teams such as:

Historic Enquiries Team (HET)
Retrospective Murder Review Unit (RMRU)
Public Inquiry Unit (PIU)
Stevens Enquiry Team
Police Ombudsman (NI) liaison
Murder Archive/Exhibit Store
Rosemary Nelson Murder Inquiry team

These units and teams currently employ 288 staff, the majority of whom are support staff. 19.5 PSNI officers have dedicated roles within these teams which interact directly with colleagues across the organisation on a regular basis.

There is no straightforward way to establish the percentage of time spent on historical inquiries. Providing an accurate response to the question asked would entail disproportionate time and resources.

HEALTH

Junior Doctors

13. **John Barrett:** To ask the Secretary of State for Health what estimate he has made of the number of junior doctors who have not been successful in securing a training post for 1 August. [151801]

Alan Johnson: 14,681 applicants in England were not successful in round 1. However, round 2 is ongoing and all applicants in substantive national health service employment will continue to have employment until 31 October. As most applicants are currently NHS employees and will still be needed in the NHS, most unsuccessful applicants should be able to find or return to a service post.

For those appointable doctors who are not successful at the end of round 2 we have prepared an extra package of support which includes:

about 1,000 extra one-year and GP training posts;

access to career information via local Deaneries;

a careers website for junior doctors; and

educational grants.

In this way, any junior doctor who has been judged to be appointable by an interview panel of senior doctors will have access to a training or educational opportunity next year.

In addition, we are currently in discussions with Foundation Programme Directors and Deans to see what options might be available for Foundation Programme doctors who complete the programme but are unsuccessful in securing specialty training posts.

We are also opening up discussions with the BMA, the Academy of Royal Colleges and other representatives of the medical profession to discuss whether there is any risk that high academic achievers may be missed by the end of the recruitment process and if so how we can avoid that happening.

NHS Reconfiguration

16. **Mr. Hands:** To ask the Secretary of State for Health what recent assessment he has made of the progress of the reconfiguration of NHS institutions. [151804]

Ann Keen: The NHS is changing because medicines and treatments are changing. If we do not keep up with the times, services will not keep on improving. Local services are changing for the benefit of patients. That means safer surgery, quicker recovery times, shortened lengths of stay in hospital, more people receiving hospital-style treatment in their own homes, and more investment in local services.

Changes to local services are however a matter for the local NHS.

Minor Injury Units

17. **Richard Younger-Ross:** To ask the Secretary of State for Health if he will make a statement on the future role of minor injury units. [151805]

Mr. Bradshaw: The national health service locally is best placed to understand the needs of patients and staff, working with them and other key groups to plan, develop and improve services. The key is ensuring appropriate, timely and safe access to care for patients.

There was some temporary reduction in Minor Injury Unit opening hours last year as part of the financial recovery plan and the formation of Devon Primary Care Trust (PCT). The PCT is now in surplus and is conducting a full review with Devon county council with its social community services.

Primary Care Services

18. **Ms Butler:** To ask the Secretary of State for Health what proposals he has to improve access to primary care services; and if he will make a statement. [151806]

Mr. Bradshaw: I would like to draw my hon. Friend's attention to the written statement given today by my right hon. Friend, the Secretary of State for Health.

Polyclinics

19. **Clive Efford:** To ask the Secretary of State for Health if he will make a statement on the role of polyclinics in the NHS. [151807]

Mr. Bradshaw: Polyclinics provide the opportunities for care closer to people's homes, rather than in hospitals. Whether a particular area would benefit from a polyclinic will be a decision for the health service locally, in consultation with the public and national health service staff.

BCG Vaccination

20. **Jeremy Wright:** To ask the Secretary of State for Health what assessment he has made of availability of the BCG vaccination; and if he will make a statement. [151808]

Dawn Primarolo: The Chief Medical Officer's letter of 6 July 2005 announced that the universal *Bacille Calmette Guérin* (BCG) vaccination programme was being replaced by a programme targeted at children in high risk groups.

Contracts are in place for the continued supply of BCG vaccine for those who require it.

Maternity Units

21. **Miss McIntosh:** To ask the Secretary of State for Health what representations he has received on maintaining the number of maternity units in England; and if he will make a statement. [151809]

Ann Keen: Since January 2006, we have received over 25,000 pieces of correspondence concerning local NHS service change. Of these, we know that 619, for example, were part of a campaign against the proposed closure of Stroud Hospital maternity unit.

Waiting Times

22. **Ian Lucas:** To ask the Secretary of State for Health what recent discussions he has had with the Health Minister of the Welsh Assembly Government on waiting times for Welsh patients treated by the National Health Service in England. [151810]

Mr. Bradshaw: There have been no recent discussions between Department of Health Ministers and the Welsh Assembly Government on this matter. However, cross-border matters such as this one are discussed at regular meetings between the Welsh Assembly Government and Wales Office Ministers, of which the Department is kept aware, and at regular meetings of officials.

Epilepsy

23. **Judy Mallaber:** To ask the Secretary of State for Health what steps he is taking to encourage primary care trusts to improve epilepsy services and in particular promote awareness of the risk of sudden deaths. [151811]

Ann Keen: Through the Action Plan on Epilepsy, National Service Framework for Long-Term Conditions and National Institute for Health and Clinical Excellence guidance we have provided local national health service organisations with evidence-based markers of good practice to support service improvements. This includes an emphasis on supporting and empowering patients to manage their condition and mitigate the risk of sudden death.

NHS Finance: Coventry

24. **Mr. Jim Cunningham:** To ask the Secretary of State for Health what assessment he has made of trends in funding levels to Coventry NHS trusts since 1992. [151812]

Dawn Primarolo: The Department holds data on the total income of University Hospitals Coventry and Warwickshire National Health Service Trust (Walsgrave Hospitals NHS Trust in 1999-2000) for the period 1999-2000 to 2005-06.

However, no assessment of these data have been undertaken by the Department as revenue allocations are made directly to primary care trusts (PCTs), not to NHS trusts or individual hospitals. NHS trusts receive most of their income through the commissioning arrangements they have with PCTs.

In addition, strategic health authorities monitor the financial position of NHS trusts to ensure that all NHS organisations within their areas are maintaining financial stability.

Peripheral Arterial Disease

Lorely Burt: To ask the Secretary of State for Health what steps his Department is taking to address mortality and morbidity caused by peripheral arterial disease in England. [151802]

Dawn Primarolo: There is no specific work programme on peripheral arterial disease but a number of the Department's initiatives are relevant to the prevention or treatment of this condition. For example the Quality and Outcomes Framework of the general practitioner (GP) contract provide incentives for GPs to control key risk factors for peripheral arterial disease, such as smoking and hypertension.

Social Care

Mr. Rob Wilson: To ask the Secretary of State for Health when he plans to bring forward proposals on the future funding of social care. [151803]

Mr. Ivan Lewis: The comprehensive spending review will be published in the autumn and will set the level of central Government funding for local government for 2008-09 to 2010-11, including for adult social care services.

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health how many alcohol related deaths there have been amongst teenagers in the last *(a)* 12 months and *(b)* five years in (i) Hampshire and (ii) England. [151008]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your recent question asking how many alcohol related deaths there have been amongst teenagers in the last (a) 12 months and (b) five years in (i) Hampshire and (ii) England. I am replying in her absence. (151008).

The attached table provides the number of deaths of persons aged 13 to 19 with an alcohol-related underlying cause in (a) 2006 (the latest year available) and (b) the five year period 2002 to 2006, in (i) Hampshire county and (ii) England.

Table 1: Number of deaths with an alcohol-related underlying cause of death[1], persons aged 13 to 19, Hampshire and England[2], 2006 and 2002-06[3]

		Deaths (persons)
	2006	*2002-06*
Hampshire	0	1
England	3	21

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The specific causes of death categorised as alcohol-related, and their corresponding ICD-10 codes, are shown in the following box.
[2] Based on local authority boundaries as of 2007.
[3] Figures are for deaths registered in each calendar year.

Box : Alcohol-related causes of death— International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	*ICD-10 code(s)*
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excl. Biliary cirrhosis)	K74 (excl. K74.3-K74.5)
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by and exposure to alcohol, undetermined intent	Y15

Alcoholic Drinks: Young People

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to prevent the sale of alcohol to minors. [150475]

Mr. Coaker: I have been asked to reply.

We have carried out two Tackling Underage Sales of Alcohol Campaigns (the most recent of which included a 10-week operational phase which concluded on 13 July) through which police and trading standards officers have targeted over 3,000 potential problem premises that break the law by selling alcohol to under-18s. These national campaigns make use of tough sanctions available under newly commenced legislation to prosecute the premises licence-holder,

where there are persistent sales of alcohol to children. Prior to this, we carried out four national Alcohol Misuse Enforcement Campaigns (AMECs) between 2004 and 2006.

As a consequence of these test-purchase campaigns, retailers have strengthened their procedures and training of staff in relation to alcohol sales. Most retailers have now adopted the 'Challenge 21' policy, whereby anyone appearing to be under 21 is asked to produce a valid form of identification prior to any sale of alcohol. Test-purchase failure rates have dropped accordingly, indicating that it is increasingly difficult for under-18s to purchase alcohol illegally. During AMEC one in 2004, the overall test-purchase failure rate was 50 per cent. By AMEC four in the summer of 2006, it had reached 29 per cent. and 21 per cent. for the on and off-licence trade respectively, and 18 per cent. for supermarkets. In addition, the Licensing Act 2003 also increased penalties for selling alcohol to children with the maximum fine increasing to £5,000 on conviction, and the possibility for courts to suspend or order forfeit of personal licences on a first offence as opposed to a second conviction, as was previously the case.

Baby Care Units

Sandra Gidley: To ask the Secretary of State for Health how many babies born in England in each of the last five years required neonatal care in a specialist unit. [150276]

Ann Keen: Information is not available in the format requested. However, information is in the following table on the number of finished consultant episodes (FCE) where neonatal care was provided in a specialist unit. This is not equivalent to the number of babies requiring care in a specialist unit. A baby may have had more than one FCE of neonatal care in a specialist unit.

Count of finished consultant episodes where neonatal care was provided in a specialist unit, 2001-02 to 2005-06 NHS hospitals, England

		Special care	Level 2 intensive care	Level 1 intensive care	Total episodes
2005-06	General episode	18,598	3,475	4,394	
	Birth episode	31,936	4,062	6,196	
	Total	50,534	7,537	10,590	68,661
2004-05	General episode	17,202	2,854	4,020	
	Birth episode	31,121	4,069	5,480	
	Total	48,323	6,923	9,500	64,746
2003-04	General episode	18,259	3,160	4,063	
	Birth episode	28,946	4,400	5,123	
	Total	47,205	7,560	9,186	63,951
2002-03	General episode	15,062	2,784	3,516	
	Birth episode	28,884	4,421	5,063	
	Total	43,946	7,205	8,579	59,730
2001-02	General episode	19,763	2,956	3,962	
	Birth episode	28,756	4,305	6,099	
	Total	48,519	7,261	10,061	65,841

Notes:
1. Definitions of neonatal care provided in specialist units. Special care: care given in a special nursery, transitional care ward or postnatal ward, which provides care and treatment exceeding normal routine care. Some aspects of special care can be undertaken by a mother supervised by qualified nursing staff. Special nursing care includes support for and education of the infants parents.
2. Level 2 intensive care: (high dependency intensive care): care given in an intensive or special care nursery, which provides continuous skilled supervision by qualified and specially trained nursing staff who may care for more babies than in level 1 intensive care. Care includes support for the infant's parents.
3. Level 1 intensive care: (maximal intensive care): care given in an intensive or special care nursery, which provides continuous skilled supervision by qualified and specially trained nursing and medical staff. Care includes support for the infant's parents.
4. Definitions of general and birth episodes General episode: A general episode is any episode which is not covered under other episode types. Other episode types include birth episodes, delivery episodes, patients formally detained under the provisions mental health legislation or long term psychiatric patients, other birth events and other delivery events.
5. Birth episode: A birth episode is the hospital episode that commences at birth. If a baby is transferred from another episode or re-admitted to hospital after discharge this new episode will not be classified as a birth episode, regardless of the age of the baby.
6. FCE An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
7. Data quality Hospital Episode Statistics (HES) are compiled from data sent by over 300 national health service trusts and primary care trusts in England. The Information Centre for Health And Social Care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
8. Ungrossed data Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

HES, The Information Centre for health and social care.

Camping Sites: Sanitation

Sir John Butterfill: To ask the Secretary of State for Health what steps she has taken to ensure that the use of land in Parliament Square as a campsite complies with Section 269 of the Public Health Act 1936; and if she will make a statement. [143364]

Mr. Iain Wright: I have been asked to reply.

The Government have taken no action to ensure the use of land in Parliament square as a campsite complies with section 269 of the Public Health Act 1936.

Cancer: Medical Treatments

Mr. Jamie Reed: To ask the Secretary of State for Health what assessment his Department has made of the effectiveness of photodynamic therapy for cancer treatment within the NHS. [151339]

Ann Keen: I refer the hon. Member to the answer given on 15 June 2007, *Official Report*, column 1382W and on 16 July 2007, *Official Report*, columns 154-55W.

Mr. Jamie Reed: To ask the Secretary of State for Health which NHS hospitals provide photodynamic therapy cancer treatments. [151340]

Ann Keen: I refer the hon. Member to the answer given on 16 July 2007, *Official Report*, columns 154-55W.

Contraception: Finance

Sandra Gidley: To ask the Secretary of State for Health what the cost to the NHS was of emergency hormonal contraception in each of the last 10 years. [150969]

Dawn Primarolo: Only partial information is collected centrally.

The information shown in the table is for prescriptions dispensed in the community in England. This does not include emergency hormonal contraception supplied by community contraception clinics or issued under Patient Group Directions.

	Cost (£000)
1999	0.6
2000	1,377.7
2001	1,953.6
2002	2,174.4
2003	2,283.7
2004	2,129.0
2005	1,945.9
2006	2,210.0

Source:
Prescription information is taken from the Prescription Cost Analysis system, supplied by the Prescription Pricing Division of the Business Services Authority, and is based on a full analysis of all prescriptions dispensed in the community i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. The data do not cover drugs dispensed in hospitals.

Dental Services

Hugh Bayley: To ask the Secretary of State for Health what percentage of the *(a)* adult and *(b)* child population of (i) Selby and York Primary Care Trust area, (ii) North Yorkshire Primary Care Trust area, (iii) Yorkshire and the Humber and (iv) England was registered with an NHS general dental practitioner in 2006. [151617]

Ann Keen: I refer the hon. Member to the answer given on 14 May 2007, *Official Report*, columns 578-79W.

Dental Services: Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for Health if he will make a statement on the future of NHS dental services in Gloucestershire. [151717]

Ann Keen *[holding answer 23 July 2007]:* Under the dental reforms launched in 2006, primary care trusts (PCTs) are now responsible for providing or commissioning national health service dental services to meet local needs.

We understand that Gloucestershire PCT regards NHS dental services as a local priority and has announced plans to expand local services.

Doctors: Vacancies

Peter Bottomley: To ask the Secretary of State for Health how many hospital doctor vacancies there are, broken down by grade and specialty, in each *(a)* deanery and *(b)* trust. [150383]

Ann Keen: This information is not collected centrally.

There are details of Medical Training Application Service (MTAS) vacancies by grade/level and specialty and this is on the Modernising Medical Careers website at www.mmc.nhs.uk. MTAS vacancies are also posted on Deanery websites.

Drinks: Nutrition

Dr. Kumar: To ask the Secretary of State for Health if he will assess the *(a)* calorific content and *(b)* hydrating properties of (i) orange juice, (ii) water, (iii) low-calorie carbonated drinks and (iv) fruit smoothies. [150753]

Dawn Primarolo: Data on the calorific content of foods can be found in the McCance and Widdowson's 'The Composition of Foods' series. Latest data from this series published in 2002 are set out in the following table.

Food	*Energy (kcal/100g)*
Orange juice, unsweetened	[1]36
Water	0
Low calorie carbonated drinks e.g. diet cola	[1]1
Fruit smoothies	[2]42-94

[1] Data are an average figure for a composite sample of products available on the market at the time of analysis.
[2] Fruit smoothies have not yet been analysed for The Composition of Foods. Information made available by market leaders suggest energy values in this range, depending on products formulation.
Source:
Food Standards Agency (2002) McCance and Widdowson's 'The Composition of Foods', Sixth summary edition. Cambridge: Royal Society of Chemistry.

The Government have no plans to commission an assessment of the hydration properties of certain fluids.

The Food Standards Agency advises people to consume 6 to 8 glasses (1.2 litres) of water, or other fluids, every day to prevent dehydration. This amount should be increased when the weather is warm or when exercising.

Genito-Urinary Medicine: Closures

Tim Loughton: To ask the Secretary of State for Health how many community sexual health clinics closed in each of the last five years. [150640]

Dawn Primarolo: This information is not collected centrally.

Health Professions: Registration

Mr. Gordon Prentice: To ask the Secretary of State for Health what steps the Health Professions Council takes to ensure protected titles are not used by those not entitled to use them. [150016]

Mr. Bradshaw: A person commits an offence if they use a protected title and they are not registered with the relevant health professions regulator, including the Health Professions Council (HPC). I understand from the HPC that if it comes to their notice that a person is using a protected title without being registered it will issue a warning letter. If the person does not register (if qualified) and continues to use the title, the HPC can issue a 'cease and desist' letter. In most cases this action has been effective and the HPC says that it has not yet had to prosecute a case. Anyone improperly using a protected title may be subject to prosecution and a fine of up to £5,000.

Health Services: Autism

Dr. Gibson: To ask the Secretary of State for Health what estimate he has made of the amount spent on *(a)* Asperger's adult services and *(b)* autism services in Norfolk in each of the last five years. [150866]

Ann Keen: The Department has not estimated the amounts spent on Asperger's adult services and autism services in Norfolk. It is the responsibility of primary care trust to ensure that the services they commission meet the needs of the communities that they serve.

Health Services: Community Care

Mr. Rooney: To ask the Secretary of State for Health (1) whether the NHS has responsibility under the Continuing Care Guidance to provide *(a)* chiropody, *(b)* physiotherapy, *(c)* speech and language therapy, *(d)* occupational therapy, *(e)* dietetic services and *(f)* continence services and pads in all care settings; [152073]

(2) for what reasons guidance notes HSC2001(15): LAC(2001)18 and HSC(2003)006: LAC(2003)7 have been withdrawn. [152074]

Ann Keen: The National Framework for NHS Continuing Healthcare, which was published on 26 June, makes it clear that it is the responsibility of primary care trusts (PCTs) to identify, commission and contract for all services required to meet the needs of individuals who qualify for NHS Continuing Healthcare and for the healthcare part of a joint care package.

The National Framework supersedes HSC2001/15: LAC(2001)18. Guidance in HSC2003/006 : LAC(2003)7, remains current until 30 September 2007, but we will soon publish the guidance that supersedes it.

Health Services: Tourism

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the number of holidaymakers resident in *(a)* Hampshire and *(b)* England requiring treatment when they returned to the UK in each of the last five years; and what treatments they required. [150946]

Dawn Primarolo: This information is not centrally held by the Department.

Home Care Services: Oxygen

Sandra Gidley: To ask the Secretary of State for Health what the average cost to the NHS is of providing *(a)* routine and *(b)* emergency domiciliary oxygen supplies in each health trust. [151013]

Dawn Primarolo: The Department does not hold this information centrally. There are 10 regional contracts supporting the provision of home oxygen to patients at home in England. Four services are available—emergency or urgent supply, short burst oxygen therapy, long-term oxygen therapy and ambulatory oxygen. The price for each service varies within the different service contract regions. Costs will also vary according to the number of patients using a service or combination of services and the patient's individual needs (for example, the amount of oxygen a patient uses each day).

Hospitals: Standards

Tom Brake: To ask the Secretary of State for Health how many hospitals are carrying out consultations on *(a)* bed closures and *(b)* service reductions. [151087]

Ann Keen: Any proposals for the reconfiguration of services are a matter for the national health service locally.

There is a well established and well understood process for managing formal public consultations on proposals for major service change so that the public and other stakeholders can help to inform the local debate.

Human Papilloma Virus: Vaccination

Christine Russell: To ask the Secretary of State for Health (1) if he will take steps to ensure that the Joint Committee on Immunisation and Vaccination considers the benefits of the Australian model for introducing a human papilloma virus immunisation programme; [152443]

(2) if he will consider allowing young women up to the age of 25 to self-refer for human papilloma virus vaccination for two years after the proposed programme begins in 2008. [152444]

Dawn Primarolo: The Department has agreed in principle to accept the advice from the Joint Committee on Vaccination and Immunisation (JCVI) that human papilloma virus vaccines should be introduced routinely for girls aged around 12-13 years, subject to independent peer review of the cost benefit analysis. Details of the programme will be finalised in the coming months, following further advice from JCVI and discussions with the national health service on the implementation of the programme. JCVI is currently considering the evidence regarding the benefits and costs of vaccinating older girls, and will provide advice on this issue in due course.

Influenza: Vaccination

Mr. Lansley: To ask the Secretary of State for Health what plans he has to conduct a public debate on vaccine prioritisation in the event of an influenza pandemic, as recommended by the Joint Committee on

Vaccination and Immunisation in its meeting of 14 February 2007; and whether he plans to conduct a public debate on antiviral prioritisation in the event of an influenza pandemic. [152331]

Dawn Primarolo: In the event that the United Kingdom is involved in a worldwide pandemic influenza outbreak, the public will have an active role to play in ensuring the country's effective response.

Building on the research already undertaken, it is proposed to start an ongoing programme of public engagement by the end of 2007. This will include debating vaccine and antiviral prioritisation as well as other issues of public concern in accord with the "National Framework for responding to an influenza pandemic" that was issued in draft in March 2007.

Kidney Patients: Portsmouth

Mr. Hancock: To ask the Secretary of State for Health what plans he has to implement the National Service Framework for Renal Services in Portsmouth. [151521]

Ann Keen: It is up to the national health service locally to implement the National Service Framework for Renal Services. The Department, however, is assisting the NHS in doing so by providing guidance and policy development expertise on subjects which are particularly challenging.

Malaria

Sandra Gidley: To ask the Secretary of State for Health how many British nationals have *(a)* been diagnosed with and *(b)* died of malaria in each year since 2001. [150944]

Dawn Primarolo: Information on the nationality of patients that are diagnosed with or died from malaria are not collected. However, the Health Protection Agency does publish an annual table of imported malaria cases and deaths, shown in the following table.

The information is available on the Health Protection Agency website at:

www.hpa.org.uk/infection/topics_az/malaria/cases_deaths.htm

Imported malaria cases and deaths, United Kingdom 2001-06

	Total (number of cases)	*Deaths*
2006	1,758	8
2005	1,754	11
2004	1,660	5
2003	1,722	16
2002	1,945	9
2001	2,050	9

Midwives: Employment

Mr. Hancock: To ask the Secretary of State for Health if he will assess the merits of providing all midwives, qualifying from universities in England with a guarantee of one year's paid employment as a midwife in the NHS in England. [151514]

Ann Keen: The Department has consulted with NHS Employers, strategic health authorities (SHA) and the Social Partnership Forum on maximising employment opportunities for newly qualified health care graduates. The consistent message from these consultations is that solutions need to be flexible, locally driven and founded on partnerships between employers, staff side and the higher education sector. Any new initiatives also need to be appropriately tested first.

Accordingly, East of England SHA have offered to undertake a feasibility study into establishing a local voluntary guaranteed employment scheme. The feasibility study will last for one year and was launched on 15 May by East of England SHA. The outcome of the feasibility study will determine whether employment guarantee schemes are a viable option. If so, the nature and length of these schemes will be defined upon relevant factors established through the study.

Midwives: Training

Mr. Frank Field: To ask the Secretary of State for Health if he will assess the merits of providing for six month preceptorship training for graduate midwives funded by primary care trusts; and if he will make a statement. [150278]

Ann Keen: There are no plans to carry out an assessment centrally.

It is for primary care trusts in partnership with local stakeholders to assess the needs of their local communities and to commission services accordingly, including the provision of preceptorships. While preceptorships are not mandatory, they are good practice and widely implemented across the responsibilities of a registered midwife and requirements of the post as set out in the terms and conditions of employment during that period.

MRSA: Disease Control

Anne Milton: To ask the Secretary of State for Health pursuant to his answer of 9 July 2007, *Official Report*, column 1314W, on MRSA: disease control, if he will place in the Library a copy of the reports investigating the use of ozone to treat hospital infections. [150514]

Ann Keen: The reports on the seven products that use ozone reviewed by the Rapid Review Panel have been placed in the Library.

Nurses: Pay

Mr. Hollobone: To ask the Secretary of State for Health if he will make a statement on the implementation of the nurses' pay award 2007. [151904]

Ann Keen *[holding answer 23 July 2007]:* Discussions continue between the Department, the NHS employers organisation and the national health service unions about this year's pay award. We are hopeful the outcome from these talks will enable the award to be implemented shortly.

Nurses: Training

Mr. Burstow: To ask the Secretary of State for Health what steps have been taken to *(a)* provide and *(b)* increase take-up of (i) training and (ii) education for existing school nurses in each of the last 10 years; and if he will make a statement. [148711]

Ann Keen: Post-registration training needs for NHS staff is a matter for local NHS bodies to determine in light of local priorities and local assessment of training needs.

Vaccines: Sleeping Contracts

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 2 October 2006, *Official Report*, column 2531W, on Vaccines (Sleeping Contracts), when negotiations are required to be completed with vaccine manufacturers under the procurement directives; what progress has been made in placing a sleeping contract; and if he will make a statement. [152327]

Dawn Primarolo: Negotiations with vaccine manufacturers have now been completed and a statement will be made in due course.

DUCHY OF LANCASTER

Admiralty House

Mr. Spring: To ask the Chancellor of the Duchy of Lancaster what government property within Admiralty House has been *(a)* used and *(b)* not used for official purposes since 27 June. [152455]

Edward Miliband: The ground floor State Rooms have been used for a number of Government and military events since 27 June. The former Deputy Prime Minister will be vacating one of the residential flats shortly and the other two flats are currently unallocated.

Departments: Employment Agencies

Mrs. May: To ask the Chancellor of the Duchy of Lancaster how much the Cabinet Office paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151675]

Gillian Merron: It is not possible to identify from the Department's accounting system, how much the Cabinet Office paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. This information is therefore not available.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151393]

Gillian Merron: The Cabinet Office has not made any payments to Flint Bishop Solicitors since 1997.

Departments: ICT

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what his Department's budget has been for the Government Communication Network in each year since its inception. [151275]

Gillian Merron: The 2005-06 budget for the team supporting the GCN was £2.1 million; the budget was the same in 2006-07 at £2.1 million.

Departments: Manpower

Mr. Spring: To ask the Chancellor of the Duchy of Lancaster how many people are employed in the Cabinet Office in *(a)* headcount and *(b)* full-time equivalent. [152456]

Gillian Merron: As at 30 June 2007, Cabinet Office had *(a)* 1,541 staff employed in headcount and *(b)* 1,502.53 employed as full-time equivalent.

Departments: Official Cars

Norman Baker: To ask the Chancellor of the Duchy of Lancaster which former Ministers *(a)* occupied ministerial residences and *(b)* had access to ministerial cars and chauffeurs at 18 July 2007. [151035]

Edward Miliband *[holding answer 19 July 2007]:* My right hon. Friends the Members for Kingston upon Hull, East (Mr. Prescott) and Derby, South (Margaret Beckett) are finalising arrangements to move out of Admiralty House and Carlton Gardens respectively.

The use of official cars by any former Ministers after their departure from office is on the advice of the security authorities. In line with successive administrations, the Government do not comment on security issues.

Former Ministers: Redundancy Pay

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what the total potential amount is of severance payments for those eligible who left office upon the change of Prime Minister, broken down by *(a)* Department and *(b)* individual former Minister; and whether any eligible former Ministers have refused to accept any or all of the severance payment available. [151441]

Edward Miliband *[holding answer 23 July 2007]:* The arrangements for ministerial severance pay are set out in the Ministerial and other Pensions and Salaries Act 1991. Severance pay is paid by individual Departments.

Legal Costs

Mr. Dismore: To ask the Chancellor of the Duchy of Lancaster who the 10 highest paid barristers were in respect of fees paid by a) the Treasury Solicitor and b) the Crown Prosecution Service in each of the last three years; what the fee income concerned was in each case; and if she will make a statement. [146612]

Edward Miliband: I refer the hon. Member to the answer given to him by the Solicitor-General today.

Ministers: Pay

Malcolm Bruce: To ask the Chancellor of the Duchy of Lancaster what procedures are required to enable Ministers who wish to take a reduced or no ministerial salary to do so. [151879]

Edward Miliband *[holding answer 23 July 2007]:* If a Minister appointed to a paid ministerial position wishes to forgo all or part of their salary, they should advise the Prime Minister and their Department.

Olympic Games: Greater London

Mr. Syms: To ask the Minister for the Olympics if she will hold a London 2012: Your Games, Your Say question and answer session in Poole. [151595]

Tessa Jowell: In partnership with the London Organising Committee of the Olympic Games and Paralympic Games (LOCOG), I have committed to conducting regular public meetings in all the nations and regions of the UK before 2012 to give local people the opportunity to question members of the Olympic Family about all aspects of preparations for the London Games. The full programme of meetings and their locations is yet to be decided but I can confirm that residents of the South West will have an opportunity to take part in one such event.

Public Administration Select Committee: Government Responses

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster when he expects to provide the Government's response to the *(a)* First, *(b)* Fourth, *(c)* Fifth, *(d)* Sixth and *(e)* Seventh Reports of Session 2005-06 of the Public Administration Select Committee. [151694]

Edward Miliband: The Government responded to the Public Administration Select Committee's First Report of Session 2005-06 by way of a statement on the floor of the House on 28 March 2006, *Official Report*, columns 681-84. The Government responded to the Committee's Sixth Report of Session 2005-06 on 2 November 2006 (HC 1081). The Government expect to respond to the other reports referred to in due course.

JUSTICE

Antisocial Behaviour: Poole

Mr. Syms: To ask the Secretary of State for Justice how many incidents of antisocial behaviour involving mini-motorbikes or other off-road vehicles were reported in Poole in each of the last five years; and how many of these have resulted in *(a)* prosecution and *(b)* antisocial behaviour orders. [151566]

Maria Eagle: Incidents relating to antisocial behaviour involving mini-motorbikes and details of antisocial behaviour orders relating to mini-motorbikes in Poole are not collected centrally by the Ministry of Justice or the Home Office.

The statistical collections on the Court Proceedings Database held by the Office for Criminal Justice Reform for offences committed by mini-motorcyclists cannot be distinguished from other motor vehicle offences because the offence as defined in legislation is not specific to any type of motor vehicle (e.g. driving on a footpath or vehicle not taxed or insured against third party risks) or it is not identified separately, and grouped together with other miscellaneous motoring offences.

Mr. Syms: To ask the Secretary of State for Justice how many penalty notices for disorder have been given in Poole in the last five years. [151593]

Maria Eagle: The Penalty Notice for Disorder (PND) Scheme was introduced to all police forces in England and Wales in 2004, under provisions in the Criminal Justice and Police Act 2001.

The Office for Criminal Justice Reform collects data on PNDs at police force area level only; more detailed information on the number of PNDs issued by police division is held on local police force databases.

Poole is part of Dorset police force area. Data show that the number of PNDs issued by Dorset constabulary was 516 in 2004, 1,381 in 2005 and 2,262 in 2006 (provisional).

Driving Offences: Measurement

Anne Milton: To ask the Secretary of State for Justice how many *(a)* drivers and *(b)* companies were prosecuted in each of the last five years for infringement of weight restrictions on roads. [151474]

Maria Eagle: The Court Proceedings Database held by the Office for Criminal Justice Reform does not separately identify the offence of exceeding the weight limit on a specified road from other summary motoring offences within the offence group 'Other load offences'.

Driving Under Influence: Sentencing

Susan Kramer: To ask the Secretary of State for Justice how many convictions for drink-driving resulted in custodial sentences in *(a)* 2005 and *(b)* 2006, broken down by police authority. [151860]

Maria Eagle: Data for 2005 will not be available until after the Statistical Bulletin "Motoring Offences and Breath Test Statistics, England and Wales, 2005" is published in the autumn. Data for 2006 will be published next year.

Fixed Penalties: Yorkshire and Humberside

Greg Mulholland: To ask the Secretary of State for Justice how many fixed penalty notices were issued by West Yorkshire Police in *(a)* 2005 and *(b)* 2006; how many of those notices have been paid; how many have been sent to be determined in court; and how many have remained unanswered. [151283]

Maria Eagle: The information collected by the Office for Criminal Justice Reform identifies the number of motoring offences fixed penalty notices issued by result at police force area level. (Data are collected on the disposal, i.e. paid, fine registration certificate issued etc.). However, because of the time taken for the procedures for payment to be enforced, the data are collected approximately nine months later than the period of issue.

2005 data will be available in the 2006 publication "Offences relating to motor vehicles, England and Wales, Supplementary tables" which is expected to be published in 2008. 2006 data will be in the 2009 publication.

Police Cautions

Mr. Vara: To ask the Secretary of State for Justice how many *(a)* cautions, *(b)* on-the-spot fines and *(c)* formal warnings were issued by each police force in each of the last 10 years, for which figures are available. [152033]

Maria Eagle: The number of defendants cautioned from 1996 to 2005 in England and Wales, broken down by police force area is shown in the following table. Data for 2006 will be available in the autumn of 2007.

In addition, the Penalty Notice for Disorder (PND) Scheme was introduced to all police forces in England and Wales in 2004. Under the scheme, police can issue 'on-the-spot fines' of £50 or £80 for a specified range of minor disorder offences. The number of PNDs issued in 2004 and 2005 by police force area, together with provisional data for 2006, is shown in the following tables.

Formal warnings were also introduced in 2004; the number of offenders issued with a formal warning for 2004-05, 2005-06 and 2006-07 is shown in the following tables. These data are presented by financial year, rather than calendar year.

Number of defendants cautioned, in England and Wales, broken down by police force area, 1996 to 2005[1,2]

Police force area	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*
Avon and Somerset	3,910	3,773	4,534	5,197	4,764	4,351	4,286	4,615	5,075	6,107
Bedfordshire	2,664	2,940	2,789	2,833	2,265	3,112	2,628	2,827	3,080	3,455
Cambridgeshire	2,523	2,477	2,621	2,569	2,308	2,207	2,114	2,063	2,618	3,985
Cheshire	4,602	4,048	4,587	3,592	3,111	2,780	2,085	3,051	3,268	4,572
City of London	1,067	1,146	751	709	559	902	1,083	974	605	807
Cleveland	7,757	7,242	5,583	4,321	3,267	3,087	3,020	3,256	3,490	3,617
Cumbria	2,688	2,902	3,015	3,032	2,337	2,505	2,392	2,615	2,753	2,652

n/a = Not available.

Prison Service: Convictions

Mr. Garnier: To ask the Secretary of State for Justice how many prison service employees were convicted of offences in each of the last 10 years for which figures are available, broken down by *(a)* offence, *(b)* length of sentence following conviction and *(c)* grade of employee. [150735]

Mr. Hanson: Currently information is not held centrally to answer the question to the level of detail required and could be obtained only by contacting

each public sector prison establishment, headquarters group and outstation, which would incur a disproportionate cost. However, the Government plan to develop a shared service centre which, when fully live, will have improved IT capability that will enable us to produce accurate reports on information such as disciplinary action taken following receipt of a criminal conviction.

Prisoners: Foreigners

Mr. Evans: To ask the Secretary of State for Justice how many inmates of prisons in England and Wales were foreign nationals in each of the last five years. [151766]

Mr. Hanson: Figures showing the numbers of foreign national prisoners held in prison establishments in England and Wales can be found in the following table.

Foreign national prisoners held in prisons in England and Wales June 2002-06

	Foreign national prisoners	*British nationals*	*Not recorded*	*All prisoners*
2002	7,719	62,553	946	71,218
2003	8,728	62,417	1,142	72,286
2004	8,941	64,379	1,168	74,488
2005	9,651	65,670	869	76,190
2006	10,879	66,160	944	77,982
2007 (April)	11,231	68,124	905	80,261

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Rehabilitation

Mrs. Gillan: To ask the Secretary of State for Justice how many prisoners in each prison in Wales are registered as having a drug or alcohol problem; and how many are engaged in a rehabilitation course. [152321]

Mr. Hanson: No records are kept of the number of offenders with drug or alcohol problems. The numbers engaged in drug treatment (2006-07) in Welsh prisons are given in the following table

Wales prisons	*Clinical interventions*[1]	*CARATs*[2] *(assessments)*	*Drug rehabilitation programme starts* [3]
Cardiff	788	732	96
Parc	400	362	96
Prescoed/ Usk	n/a	236	n/a
Swansea	453	402	152

n/a = not available. [1] Clinical intervention may involve detoxification or maintenance. [2] Counselling, assessments, referral, advice and throughcare. CARAT assessments used as a proxy measure of engagement. [3] Entrants to intensive rehabilitation programmes are referred by CARAT teams.

No central records are kept of the number of offenders engaged specifically in treatment for an alcohol problem.

Mrs. Gillan: To ask the Secretary of State for Justice if he will publish the report on the 12 step drug rehabilitation programme in Swansea prison which led to its closure. [152322]

Mr. Hanson: There was no formal report informing the closure of the 12 Step Programme at HMP Swansea. The decision was reached after detailed discussions between the Governor of HMP Swansea and the Wales Area Drug Co-ordinator, with support from the National Drug Programme Delivery Unit (NDPDU). A key factor involved in the decision was the NDPDU audit reports. Copies of which I have placed in the Library of the House.

Mrs. Gillan: To ask the Secretary of State for Justice what *(a)* drug and *(b)* alcohol rehabilitation courses are available at each prison in England and Wales. [152323]

Mr. Hanson: A comprehensive framework is in place to address the needs of those with substance misuse problems:

clinical services are available in all local and remand prisons, including alcohol detoxification (see following list 1);

Counselling, Assessment, Referral, Advice and Throughcare (CARAT) services are available in all prisons with the exception of HMP Blantyre House. CARAT teams provide support to those where alcohol is part of a multiple drug misuse problem;

the substance misuse service for 16 to 18-year-olds provides support for those with an alcohol problem (see following list 2);

intensive drug rehabilitation programmes are run in 102 prisons (see following list 3,);

Alcoholics Anonymous run groups in approximately 60 per cent. of prisons—the list of prisons is not held centrally and I will write to the hon. Member and place a copy of the list in the Library of the House; and

intensive alcohol rehabilitation programmes are currently being piloted at HMP Bullingdon and HMP Featherstone.

Prisoners: Scotland

Mrs. Gillan: To ask the Secretary of State for Justice (1) how many prisoners of Scottish origin are serving sentences in prisons in England and Wales, broken down by prison establishment; [152320]

(2) how many prisoners of English or Welsh origin are serving sentences in Scottish prisons. [152319]

Mr. Hanson: The information requested is not held centrally and could be obtained only by manually requesting every prisoner to identify their country of origin at a disproportionate cost.

Young Offenders: Restraint Techniques

David T.C. Davies: To ask the Secretary of State for Justice how many inmates of young offender institutions received injuries requiring an overnight stay in hospital following restraint by prison officers in each of the last three years. [152037]

Maria Eagle: The information requested is held locally but not collated centrally and could be provided only at disproportionate cost. To obtain this information would require every prison that holds young offenders to check the record of every instance of use of force over the last three years to see if hospitalisation was involved.

Young Offenders: Smoking

David T.C. Davies: To ask the Secretary of State for Justice whether juveniles held in *(a)* secure training centres and *(b)* secure children's homes are allowed to smoke cigarettes. [152039]

Mr. Hanson: Young people held in secure training centres and secure children's homes are not allowed to smoke.

TREASURY

Average Earnings: Cornwall

Andrew George: To ask the Chancellor of the Exchequer what the average wage in Cornwall was at the latest date for which figures are available. [152107]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the average wage in Cornwall was at the latest date for which figures are available. I am replying in her absence. (152107)

Levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all full-time employees on adult rates of pay, whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

I attach a table showing the mean and median gross weekly earnings for all full-time employees in Cornwall and Isles of Scilly for the year 2006.

Gross weekly pay for employee jobs[a] by place of work: 2006—Cornwall and Isles of Scilly

£

	Full-time employees	*Full-time male*	*Full-time female*
Median	358	386	*321
Mean	412	446	366

[a] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

Guide to quality:

The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an average of £200 with a CV of 5 per cent. (£10), we would expect the population average to be within the range £180 to £220.

Key:

* CV <= 5 per cent.
CV >5 per cent. and <= 10 per cent.

Source:

Annual Survey of Hours and Earnings, Office for National Statistics.

Capital Gains Tax

Jim Cousins: To ask the Chancellor of the Exchequer if he will *(a)* update the estimates given for the cost of capital gains tax business paper relief in 2001-02 and 2002-03 in his Tax Ready Reckoner November 2002 and *(b)* give an estimate for the years from 2003-04 to 2007-08. [148562]

Jane Kennedy: The estimates of the cost of the relief as published in the Tax Ready Reckoners and in table A3.1 of Financial Statement and Budget Reports are for business and non-business assets combined. Taper relief is dependent upon the volume of disposals, which in turn is driven by changes in asset prices, particularly share prices. The movement between 2001-02 and 2002-03 was also influenced by the maturing of business asset taper relief.

The latest estimates of the Exchequer impact of taper relief for 2001-02 to 2006-07 are as follows.

	Estimated cost (£ million)
2001-02	550
2002-03	3,500
2003-04	2,750
2004-05	3,500
2005-06	4,620
2006-07	6,020

Figures for 2005-06 and 2006-07 are available in the 'Estimated costs of the principal tax expenditure and structural reliefs' table at http//www.hmrc.gov.uk/stats/tax_expenditures/table1-5.pdf. Figures for 2007-08 are not available.

The estimated costs are not the same as the yield from abolition of taper relief as they do not take into account any behavioural changes which would occur if taper relief was abolished.

Carbon Emissions: Pollution Control

Chris Huhne: To ask the Chancellor of the Exchequer what cumulative cuts in carbon emissions measures outlined in the Budget were *(a)* predicted to be delivered and *(b)* delivered in each year since 1997. [151989]

Angela Eagle: The environmental impact of Budget measures (including carbon savings where appropriate) is set out in Table 7.2 of the Budget 2007 document. This information is included in the environmental section of each Budget and pre-Budget report since 1998.

Civil Servants: Poole

Mr. Syms: To ask the Chancellor of the Exchequer how many civil service posts he expects to be moved to Poole in the next five years. [151585]

Andy Burnham: Departments are responsible for meeting their Lyons relocation targets and some have yet to finalise their plans for meeting the remainder of the 2010 target. HM Treasury does not hold comprehensive data on where Departments intend to move staff to over the next five years.

Civil Service: Norfolk

Mr. Anthony Wright: To ask the Chancellor of the Exchequer how many jobs have been moved into *(a)* Great Yarmouth and *(b)* Norfolk as a result of the Lyons review. [151952]

Andy Burnham: By December 2006 15 posts had been relocated from London and the south-east to Norfolk as part of the Lyons relocation programme. None of these posts had moved to Great Yarmouth.

Climate Change Levy

Mr. Anthony Wright: To ask the Chancellor of the Exchequer what assessment he has made of the effectiveness of the climate change levy in reducing carbon dioxide emissions. [151971]

Angela Eagle: The climate change levy is estimated to have reduced emissions by a cumulative 16.5 million tonnes of carbon up to 2005 and by 2010 it is estimated to deliver savings of over 3.5 million tonnes of carbon per year.

Council of Economic Advisers

Chris Grayling: To ask the Chancellor of the Exchequer who the members are of the Council of Economic Advisers. [152459]

Angela Eagle: The Chancellor has appointed Andrew Maugham to the Council of Economic Advisers.

Council Tax: Valuation

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Surrey Heath (Michael Gove) of 21 June 2007, *Official Report*, column 2138W, on council tax: valuation, which company provides the laser measuring devices; and what the total expenditure by the Valuation Office Agency on purchasing items from that firm was in each of the last three years. [151138]

Jane Kennedy: The Valuation Office Agency purchases its surveying equipment, including laser measuring devices, from a company called Survey Express Services Ltd. (SES) and is invoiced in bulk. It is not possible to identify individual purchases without incurring disproportionate cost.

Customs Officers: Complaints

Keith Vaz: To ask the Chancellor of the Exchequer how many complaints were made against the behaviour of Customs officers during searches at British ports in each year since 1997. [151302]

Jane Kennedy: The total number of all types of complaint including staff behaviour made each year is published in the annual reports of HM Revenue and Customs, previously HM Customs and Excise. Centrally held records do not provide the further detail requested.

Departments: Agencies

Mrs. May: To ask the Chancellor of the Exchequer how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151672]

Angela Eagle: As explained in the answer given by the then Financial Secretary the hon. Member for Wentworth (John Healey) on 28 June 2007, *Official Report*, column 873W, the fees paid to recruitment agencies for the Chancellor's Department could be provided only at disproportionate cost. Information on spending on recruitment consultancy is not held in a format whereby it can be separated out from other external management consultancy, or from the cost of agency staff.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Chancellor of the Exchequer whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151391]

Angela Eagle: In 2001 HM Customs and Excise made two payments totalling £15,749 to Flint Bishop Solicitors, recorded under their former name of Flint Bishop and Barnett. HM Customs and Excise merged with the Inland Revenue in 2005 to form HM Revenue and Customs.

No other Chancellor's departments or their agencies have found any records of payments to Flint Bishop Solicitors within the last five years. Changes in accounting systems mean that a positive confirmation for all bodies over the whole period since 1997 could be provided only at disproportionate cost.

Departments: Legislation

Dr. Cable: To ask the Chancellor of the Exchequer which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151845]

Angela Eagle: No Acts that received Royal Assent during this period contain sunset provisions, although by their nature the annual Appropriation and Consolidated Fund Acts, and many of the provisions of the Finance Acts and other tax legislation, are time limited or temporary in effect.

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Sexual Harassment

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Rayleigh (Mr. Francois) of 12 June 2007, *Official Report*, column 938W, on Departments: sexual harassment, what steps are being taken to tackle *(a)* sexual harassment and *(b)* sexual discrimination in the Valuation Office Agency. [151140]

Jane Kennedy: The Valuation Office Agency has a Gender Equality Scheme and Action Plan which includes impact assessing the agency's policies in relation to diversity strands including "gender" and an action plan specifically to address "gender" issues.

In addition to this the agency produces a monitoring report for diversity strands including "gender" and has a related consultative group chaired by a Management Board member.

The agency also promotes and runs a "Springboard" mentoring programme of positive action for women and conducts equal pay audits to monitor remuneration. The agency plans to incorporate the gender equality duty into all staff training.

Employment: East Sussex

Mr. Waterson: To ask the Chancellor of the Exchequer how many *(a)* Eastbourne and *(b)* East Sussex residents were in employment in (i) April 1997 and (ii) the most recent period for which figures are available. [151413]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your Parliamentary Questions asking how many (a) Eastbourne and (b) East Sussex residents were in employment in (i) April 1997 and (ii) the most recent period for which figures are available. I am replying in her absence. (151413)

The Office for National Statistics compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

The attached table shows the number of people aged 16 and over, resident in the Eastbourne constituency, and for residents of East Sussex, who were in employment, for the 12 months ending February 1997, from the local area LFS and for the 12 months ending in December 2006 from the APS. Corresponding headline employment rates, for persons of working age (males aged 16 to 64 and females aged 16 to 59), are also provided. The rates allow changes to be seen in the context of changing population numbers.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. In this case, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over the period.

Employment in the Eastbourne parliamentary constituency and the county of East Sussex

	Eastbourne		*East Sussex*	
	Level[1] *(thousand)*	*Rate*[2] *(percentage)*	*Level*[1] *(thousand)*	*Rate*[2] *(percentage)*
February 1997	40	73.6	207	75.8
December 2006	47	75.6	233	76.1

[1] Persons aged 16 and over.

[2] Persons of working age—males aged 16 to 64 and females aged 16 to 59.

Notes:

1. Estimates are subject to sampling variability.
2. Changes in the estimates over time should be treated with particular caution.

Source:

Annual local area Labour Force Survey; Annual Population Survey.

Employment: Parents

Mr. Rooney: To ask the Chancellor of the Exchequer what the employment rate is of non-resident parents where the parent with care is a lone parent receiving *(a)* income support and *(b)* working tax credit. [152071]

Jane Kennedy: This information is not available.

Employment: York

Hugh Bayley: To ask the Chancellor of the Exchequer how many people were *(a)* employed (i) full-time and (ii) part-time and *(b)* unemployed in *(A)* City of York constituency, *(B)* City of York Council area, *(C)* Yorkshire and the Humber and *(D)* the United Kingdom (1) at the latest date for which figures are available and (2) at the same date in each of the previous 10 years. [151614]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your Parliamentary Question asking how many people were (a) employed (i) full-time and (ii) part-time and (b) unemployed in (A) City of York constituency, (B) City of York Council area, (C) Yorkshire and the Humber and (D) the United Kingdom (1) at the latest date for which figures are available and (2) at the same date in each of the previous 10 years. I am replying in her absence. (151614)

The Office for National Statistics (ONS) compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation (ILO) definitions.

Table 1 attached, shows the number of people, aged 16 and over, resident in the City of York constituency, who were in full-time and part-time employment, for the 12 months ending in February for 1997 to 2004 from the local area LFS and for the 12 months ending in March for 2005 and 2006, and for the latest period, the 12 months ending in December 2006, from the APS. The table also shows corresponding data for residents of the City of York Unitary Authority, Yorkshire and the Humber and Great Britain.

For unitary and local authorities, the ONS produces estimates of total unemployment, following ILO definitions, from a statistical model. Annual estimates for other areas are compiled from the annual local area LFS and the APS following ILO definitions.

Table 2 attached, shows the number of people, aged 16 and over, resident in the City of York constituency, who were unemployed, for the 12 months ending in February for 1997 to 2004 from the local area LFS and for the 12 months ending in March for 2005 and 2006, and for the latest period, the 12 months ending in December 2006, from the APS.

The table also shows corresponding data for residents of the City of York Unitary Authority, Yorkshire and the Humber and Great Britain. Corresponding headline employment rates, for persons of working age (males aged 16 to 64 and females aged 16 to 59), are also provided. The rates allow changes to be seen in the context of changing population numbers.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. In this case, for the City of York constituency and the City of York Unitary Authority, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over the period.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 3, attached, shows the annual average number of people, resident in the City of York constituency, the City of York Unitary Constituency, Yorkshire and the Humber and the United Kingdom, claiming JSA from 1997 to 2006. The number of claimants is also shown as a percentage of the resident working age population.

Table 1: Full-time and part-time employment: City of York constituency, City of York unitary authority, Yorkshire and the Humber and Great Britain

Thousand

Jobcentre Plus administrative data

Forfeiture: Motor Vehicles

Keith Vaz: To ask the Chancellor of the Exchequer how many cars were impounded by Customs officers in each year since 1997, broken down by reason for impounding. [151299]

Jane Kennedy: The number of vehicles seized is published in the annual reports of HM Revenue and Customs, previously HM Customs and Excise. Centrally held records do not provide the breakdown required.

Keith Vaz: To ask the Chancellor of the Exchequer how many successful appeals there were against the impounding of vehicles by Customs officers in each year since 1997; and if he will make a statement. [151300]

Jane Kennedy: Centrally held records do not provide the breakdown requested.

Futurebuilders Fund

Tim Loughton: To ask the Chancellor of the Exchequer which projects dealing with children's *(a)* physical and *(b)* mental health have received Futurebuilders funding; and how much was received by each. [150363]

Phil Hope: I have been asked to reply.

A total of £18,787,579 Futurebuilder investments in grant and loan finance have been made in 21 projects specifically dealing with children's physical and mental health. These are listed in the following table:

	£
(a) Children's physical and mental health	
Chiltern Centre for Disabled Children	14,000
Real Life Parenting	16,000
Nottingham Regional Society for Adults and Children with Autism	18,000
National Blind Children's Society	20,000
Makaton	513,000
British Institute for Brain Injured Children (BIBIC)	732,000
Bayis Sheli	3,200,000
TreeHouse	5,209,357
Bangladeshi Parents and Carers Association	1,209,000
First Step Opportunity Group	462,000

	£
Springboard Opportunity Group	130,900
Total	11,524,257
(b) Children's mental health	
Headliners (formerly Children's Express)	18,237
Pupil Parent Partnership	20,000
COASTS	58,335
Med Theatre	78,750
Bubble Theatre	104,000
Antidote	155,000
CHeCC (Cross-Herts Community Counselling)	385,000
St. Christopher's Fellowship	1,473,000
Place2Be	2,718,000
The Lighthouse Group	2,253,000
Total	7,263,322

HM Revenue and Customs: Great Yarmouth

Mr. Anthony Wright: To ask the Chancellor of the Exchequer how many HM Revenue and Customs staff employed in Havenbridge House Great Yarmouth *(a)* are female and *(b)* work flexitime. [151964]

Jane Kennedy: As at 1 July 2007, 145 HM Revenue and Customs staff were employed in Havenbridge House, Great Yarmouth, of whom 97 were female.

Flexitime is not a contractual right for any HMRC staff, but most staff are able to work flexibly within their contracted hours provided this does not conflict with local business need.

HM Revenue and Customs: Manpower

Mr. Anthony Wright: To ask the Chancellor of the Exchequer how many staff HM Revenue and Customs employs; and how many more posts are planned to be lost to meet the targets set in the Gershon Review. [151955]

Jane Kennedy: As at 1 July 2007 HMRC employed 86,948 full-time equivalent staff and had reduced its workforce by 12,132 posts since 1 April 2004. This leaves a balance of 368 full-time equivalent posts to achieve the Department's efficiency target of a net reduction of 12,500 posts by 31 March 2008.

Mr. Anthony Wright: To ask the Chancellor of the Exchequer how HM Revenue and Customs staff are encouraged to respond to consultations arising from the Gershon Review. [151956]

Jane Kennedy: HM Revenue and Customs is undertaking a major restructuring programme to enable it to meet the staffing reduction targets arising from the Gershon Review, and other PSA efficiency and customer service targets.

All staff have been encouraged to take part in consultation exercises both on business and accommodation restructuring proposals.

Housing

Alistair Burt: To ask the Chancellor of the Exchequer how many domestic properties in England have greenhouses according to Valuation Office Agency records. [151319]

Jane Kennedy: I refer the hon. Member to the answer given on 19 June 2007, *Official Report*, 1667W.

Housing: Prices

Andrew George: To ask the Chancellor of the Exchequer what proportion the average national income was of the average house price in *(a)* Cornwall and *(b)* England at the most recent date for which figures are available. [152106]

Angela Eagle: The Annual Survey of Hours and Earnings reports that average male full-time earnings in 2006 were £32,744. Data from the Land Registry shows that in 2006 Q3 the mean house price in England was £214,471, and in Cornwall £217,776. Therefore the proportion of average national income to average house prices in Cornwall and England are 6.7 and 6.5 respectively.

Income Tax: Tax Rates and Bands

Mr. Gauke: To ask the Chancellor of the Exchequer if he will estimate the net difference in income tax revenue collected since 1997 if the top rate of income tax had been uprated in line with earnings. [152028]

Jane Kennedy *[holding answer 23 July 2007]:* The estimated costs of uprating the threshold at which taxpayers start paying income tax at the higher rate in line with earnings from 1998-99 are in the table.

	£ million
	Cost
1998-99	40
1999-2000	340
2000-01	890
2001-02	1,020
2002-03	1,600
2003-04	1,830
2004-05	2,200
2005-06	2,470
2006-07	2,920
2007-08	3,240

These are based on the Survey of Personal Incomes, of which 2004-05 is the latest available. Estimates for later years are based on projections in line with Budget 2007 assumptions.

Infectious Diseases: Death

Mr. Waterson: To ask the Chancellor of the Exchequer how many deaths where the death certificate refers to healthcare-acquired infections there were in *(a)* hospital and *(b)* care homes in (i) Eastbourne and (ii) East Sussex in each of the last 10 years. [151498]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your recent question asking how many deaths where the death certificate refers to healthcare-acquired infections there were in (a) hospital and (b) care homes in (i) Eastbourne and (ii) East Sussex in each of the last 10 years. I am replying in her absence. (151498)

Death certificates record the place where a person dies, but not where any infections may have been acquired. It is not possible from the information on a death certificate to know whether an infection was acquired in the hospital or other place where a patient died. Patients are often transferred between hospitals, nursing homes and other establishments and may have acquired infections in a different place from where they died.

ONS does not receive information on 'healthcare-acquired infections' but special analyses of deaths involving two infections that are often associated with healthcare, MRSA and Clostridium difficile, are undertaken annually by ONS for England and Wales. The most recent figures were published in reports in Health Statistics Quarterly 33 in February of this year. This publication is available in the House of Commons library.

The table below provides data on the number of death certificates of persons normally resident in East Sussex on which MRSA and Clostridium difficile were mentioned, from 1996 to 2005, the latest year for which figures are available. Breaking these figures down to local authority lever risks identifying individuals, and so figures can not be provided for Eastbourne.

Figures are reported in Health Statistics Quarterly for deaths involving MRSA and Clostridium difficile by place of death, including general hospitals and nursing homes. These figures show that in England and Wales around 90 per cent of these deaths occur in NHS general hospitals. Breaking down the number of deaths in East Sussex by place of death would risk identifying individuals. Figures by place of death can therefore not be provided for either East Sussex or Eastbourne.

Number of death certificates where (a) Meticillin-resistant Staphylococcus aureus[1] and (b) Clostridium difficile[2] was mentioned, in residents of East Sussex[3], 1996-2005[4,5]

	(a) MRSA	(b) Clostridium difficile
1996	[6]—	[5]n/a
1997	[6]—	[5]n/a
1998	9	[5]n/a
1999	10	23
2000	14	[5]n/a
2001	10	10
2002	15	17
2003	18	37
2004	14	19
2005	24	36

[1] Identified using the methodology described in Griffiths C, Lamagni TL, Crowcroft NS, Duckworth G and Rooney C (2004). Trends in MRSA in England and Wales: analysis of morbidity and mortality data for 1993-2002. Health Statistics Quarterly 21, 15-22.

[2] Identified using the methodology described in Office for National Statistics: Report: Deaths involving Clostridium difficile: England and Wales, 2001-2005. Health Statistics Quarterly 33, 71-75.

[3] Figures are provided for usual residents of the current county of East Sussex. Deaths of residents of Brighton and Hove unitary authority are therefore excluded.

[4] Data are for deaths occurring in each calendar year

[5] Deaths involving Clostridium difficile can only be identified using the Tenth Revision of the International Classification of Diseases (ICD-10). This has been used by ONS for coding mortality from 2001 onwards and in 1999 for a bridge coding study. Data are therefore not available for 1996-1998 and 2000 when the Ninth Revision of the ICD was in use.

[6] Where less than five deaths, numbers have been suppressed in line with ONS guidelines on disclosure and confidentiality.

Local Government Finance Funding Changes Independent Inquiry

Alistair Burt: To ask the Chancellor of the Exchequer (1) whether representatives of his Department made any written submission or representation to the Lyons Inquiry on local government; [151324]

(2) whether *(a)* HM Revenue and Customs and *(b)* the Valuation Office Agency made any written submission or representation to the Lyons Inquiry on local government. [151327]

Angela Eagle: No submissions or representations were made on behalf of HMRC, VOA or HM Treasury. The inquiry published written submissions as part of its final report, archived at

http://www.lyonsinquiry.org.

Married People: Separation

Mr. Laws: To ask the Chancellor of the Exchequer how many married couples have separated but are still married; and if he will make a statement. [151192]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your request for how many married couples have separated but are still married. I am replying in her absence. (151192)

The Annual Population Survey (APS) combines results from the Labour Force Survey (LFS) and the English, Welsh and Scottish Labour Force Survey boosts. Marital status of individuals is asked, but the number of couples, according to whether they have separated or not, is not collected.

In 2006 the APS indicates that there were 1.2 million individuals in the UK who were married and separated from their husband or wife. This figure does not include those individuals who were in a legally recognised Civil Partnership and separated from their civil partner. The comparable figure for married individuals living with their husband or wife is 24.5 million.

As with any sample survey, estimates from the APS are subject to a margin of uncertainty.

Pensions

Martin Horwood: To ask the Chancellor of the Exchequer if he will assess the potential impact of extending the possibility of exchanging private pension rights for a cash sum of a value greater than 25 per cent. of the total to situations where the total of that person's pension rights is greater than one per cent. of the Lifetime Allowance; and if he will make a statement. [151332]

Kitty Ussher: The tax rules provide that where a member's total pension benefit rights in registered pension schemes do not exceed one per cent of the lifetime allowance then the member may commute some or all those benefits in return for receiving a taxable lump sum between age 60 and age 75. This process is known as "trivial commutation".

At PBR 2006 the Government announced that HMRC would discuss with interested parties the concerns raised regarding the administration costs of paying trivial

commutation lump sums under these rules. The Government will explore the way in which the current rules impact across a range of interests, bearing in mind both the potential impact on individual pensioners, pension savers, and pension providers and the way the rules fit with the Government's wider objectives in encouraging pension saving to produce an income stream in retirement.

Personal Income: York

Hugh Bayley: To ask the Chancellor of the Exchequer what the average wage for *(a)* full-time and *(b)* part-time (i) male and (ii) female employees is; and what the average household income for working age households was in City of York council area in (A) cash and (B) real terms in 2006. [151612]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 24 July 2007:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average wage for (a) full-time and (b) part-time (i) male and (ii) female employee is and what the average household income for working age households was in City of York council area in (A) cash and (B) real terms in 2006. (151612)

Levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all full-time and part-time employees on adult rates of pay, whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

I attach a table showing the mean and median Gross Weekly Earnings for all full-time and part-time employees in the city of York Unitary authority, for the year 2006.

Estimates of average household income for working age households by council area are not available. Household income statistics for all households in the UK, based on the Family Resources Survey, are produced by the Department for Work and Pensions.

Gross weekly pay for employee jobs[a] by place of work - 2006—City of York Unitary Authority

£

	Full-time employees	*Full-time males*	*Full-time female*	*Part-time employees*	*Part-time male*	*Part-time female*
Median	455	*491	*391	*134	[b]x	*145
Mean	529	*578	444	*167	**148	*174

[a] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

[b] Figure not published for reasons of quality.

Guide to quality:

The Coefficient of Variation (CV) indicates the duality of a figure, the smaller the CV value the higher the quality.

The true value is likely to lie within +/- twice the CV—for example, for an average of £200 with a CV of 5 per cent. (10), we would expect the population average to be within the range £180 to £220.

Key:

CV <= 5 per cent.

* CV> 5 per cent. and <= 10 per cent.

** CV> 10 per cent. and<=20 per cent.

x CV>20 per cent.

Source:

Annual Survey of Hours and Earnings, Office for National Statistics.

Police Informers: Pay

Mr. Hoban: To ask the Chancellor of the Exchequer what the total value was of rewards paid to informers by HM Revenue and Customs in each year since 1997. [148916]

Jane Kennedy: Rewards have been paid to informers by the two former departments, HM Customs and Excise and the Inland Revenue, as follows:

	£
1997-98	1,670,812
1998-99	1,052,033
1999-2000	1,083,895
2000-01	1,603,301
2001-02	1,464,400
2002-03	984,422
2003-04	946,399

In line with an undertaking given during the debate on the Commissioners Revenue and Customs Bill, the amount of reward payments made by HMRC is published in our annual report. This was done in the 2004-05 HMRC Annual Report (page 69), the 2005-06 HMRC Annual Report (page 75) and Spring 2007 Departmental Report (the new format for our Annual Report, on page 45).

Private Finance Initiative

Chris Grayling: To ask the Chancellor of the Exchequer (1) how much his Department has spent on legal advice for the private finance initiative credit guarantee finance pilots; [152428]

(2) what assessment he has made of the lessons of the private finance initiative credit guarantee finance pilots; [152430]

(3) whether the private finance initiative credit guarantee finance scheme will be rolled out nationally. [152431]

Angela Eagle: The Government continue to monitor and assess the Credit Guarantee Finance (CGF) scheme. The Government have previously announced that they do not intend to use CGF for more than a limited proportion of their PFI programme.

The total amount HM Treasury has spent on legal advice for CGF pilots is £361,000.

Public Expenditure

Alistair Burt: To ask the Chancellor of the Exchequer what the reasons are for the timing of the Comprehensive Spending Review 2007; and if he will make a statement. [150673]

Andy Burnham: In July 2005, the Government announced its decision that, with the start of the next spending review period coming a decade after the first Comprehensive Spending Review (CSR), the time was right for a second CSR. In the context of a rapidly changing world, the CSR would undertake a fundamental examination of the balance and pattern of public expenditure, and identify the investment and reforms necessary to equip the UK for the decade ahead. The Government announced that Departments budgets for 2007-08 would be unaltered from those previously announced and that the next CSR would conclude in 2007, setting departments budgets for the years 2008-09, 2009-10 and 2010-11. As announced at Budget 2007,

the CSR will conclude by autumn 2007, at which point the Government will set out the final conclusions of the CSR.

Taxation: Disclosure of Information

Mr. Heald: To ask the Chancellor of the Exchequer when his Department first exchanged tax information in bulk about a class of taxpayers with another country; what sort of information has been exchanged in this way; whether such information is exchanged electronically; and if he will make a statement. [152042]

Jane Kennedy: HM Revenue and Customs' records indicate that such exchanges have taken place on a reciprocal basis since at least the mid 1970s. Most exchanges relate to payments of interest, royalties, pensions and commissions made from a source in one country to persons resident in the other country. Information is exchanged in secure electronic form.

Taxation: Domicil

Dr. Cable: To ask the Chancellor of the Exchequer (1) what the cost to date has been of the review into non-domicile taxation, broken down into *(a)* staff costs, *(b)* administration costs, *(c)* office costs, *(d)* stationery costs, *(e)* entertainment costs and *(f)* other costs; and if he will make a statement; [150884]

(2) how many staff have worked on the review of non-domicile taxation carried out by his Department since 2002; and if he will make a statement. [150899]

Jane Kennedy: A number of HMRC and HMT staff have contributed directly or indirectly to the review since 2002, it is not possible to provide an exact number. The review is currently being managed by two HMT officials, supported by a number of other officials in HMT and HMRC who contribute to the review alongside other duties.

Information on costs of individual stands of policy work is not held centrally.

Dr. Cable: To ask the Chancellor of the Exchequer how many investigations were undertaken into the income and assets held overseas by non-domiciled UK taxpayers in each of the last five years for which information is available; and if he will make a statement. [150898]

Jane Kennedy: The information is not held centrally and could be collected only at disproportionate cost.

Teenage Pregnancy

Mr. Rob Wilson: To ask the Chancellor of the Exchequer how many teenage pregnancies there were in each of the last 10 years, broken down by *(a)* age and *(b)* local authority. [151359]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply. A copy of his reply has been placed in the Library.

Terrorism: Finance

Dr. Cable: To ask the Chancellor of the Exchequer how many organisations found to have terrorist links have had their assets frozen; how much funding was frozen in total; how much such funding was returned to legitimate authorities in each of the last 10 years for which information is available; and if he will make a statement. [150519]

Kitty Ussher: Since 2001, a total of approximately £570,000 of suspected terrorist funds have been frozen in the UK including funds belonging to six designated organisations. All assets frozen remain the property of the designated individuals or organisations and are not disposed of by the Treasury. The Treasury reports to Parliament quarterly on the operation of its asset-freezing regime, including detail on the total amount of funds frozen. The latest such report was laid before Parliament on 12 July 2007.

Unemployment

Mr. Clappison: To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of economically inactive people who want a job; [151491]

(2) what estimate he has made of the number of non-UK citizens who were economically active in the UK labour supply in each year since 1997; and what proportion of the labour force this represented in each year; [151490]

(3) what estimate he has made of the number of individuals registered as inactive in the UK due to sickness and disability; and what benchmarking he has conducted of this number against numbers in other EU member states; [151489]

(4) how many and what proportion of people in the working age population were non-UK citizens in each year since 1997. [151470]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July2007:

The National Statistician has been asked to reply to your four parliamentary questions about economic activity and economic inactivity. The replies to these four questions have been combined. I am replying in her absence. (151470, 151489, .151490, 151491)

Table 1 gives estimates of the numbers of UK and foreign nationals of working age and the numbers and rates of economic activity for the three months ending December in each year for 1997, 1999 and 2001 to 2006. Comparable estimates are not available for 1998 and 2000. These estimates are not seasonally adjusted. The data shown are based on labour force survey (LFS) household population and not the total UK population to enable consistent economic activity data to be shown. It should be noted the LFS data shown by nationality:

excludes those who have not been resident in the UK for six months

excludes students in halls who do not have a UK resident parent

excludes people in most other types of communal establishments (e.g. hotels, boarding houses, hostels, mobile home sites, etc.)

is consistent with population estimates that only includes migrants staying for 12 months or more

is consistent with population estimates published in spring 2003 which are significantly lower than the latest population estimates and also the headline labour market statistics published each month by the Office for National Statistics; LFS estimates by nationality for the period requested are not yet available consistent with latest population estimates.

Table 2 gives estimates of the economically inactive people split by those who want a job and those who do not want a job. A further disaggregation for those who are long term sick or disabled is also shown. These data are for the three months ending December 2006, and are not seasonally adjusted.

Estimates for economic inactivity for EU member states are available from the Eurostat website which is accessible via the House of Commons Library.

The LFS estimates at the detailed level required for this answer are only available consistent with the UK population estimates published in February and March 2003 and do not yet incorporate the more recent population estimates that are used in the headline labour market series.

Estimates are taken from the LFS. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

All persons of working age[1, 2] and economic activity for UK and foreign nationals, United Kingdom, not seasonally adjusted

	All persons of working age [1, 2]			Economically active			
	Total	Non-UK nationals		UK nationals		Non-UK nationals	
Three months ending December each year	Numbers (thousand)	Numbers (thousand)	% of total	Numbers (thousand)	Rates (%)[3]	Numbers (thousand)	Rates (%)[3]
1997	35,209	1,604	4.6	26,504	78.9	1,082	67.5
1999	35,473	1,659	4.7	26,881	79.5	1,107	66.7
2001	35,897	1,929	5.4	26,896	79.2	1,300	67.4
2002	36,068	2,066	5.7	27,015	79.5	1,414	68.5
2003	36,213	2,130	5.9	26,968	79.1	1,460	68.5
2004	36,364	2,332	6.4	26,955	79.2	1,646	70.6
2005	36,510	2,451	6.7	26,908	79.0	1,767	72.1
2006	36,652	2,757	7.5	26,862	79.2	2,052	74.4

[1] LFS microdata for working age household population that excludes communal establishments, is consistent with population estimates first published in spring 2003.
[2] Men aged 16 to 64 and women age 16 to 59.
[3] Economically active people of working age as a percentage of all persons.
Notes:
1 Comparable data are not available for 1998 and 2000.
2 It should also be noted that the nationality question in the LFS is an undercount because: - it excludes those who have not been resident in the UK for six months. - it excludes students in halls who do not have a UK resident parent. - it excludes people in most other types of communal establishments (e.g. hotels, boarding houses, hostels, mobile home sites, etc). - it is grossed to population estimates that only include migrants staying for 12 months or more. - microdata is only grossed to population estimates consistent with those published in spring 2003 which are significantly lower than the latest population estimates.

ONS Labour Force Survey (LFS)

Unemployment: Young People

Mr. Waterson: To ask the Chancellor of the Exchequer how many people aged 24 years or under were considered to be economically inactive in *(a)* Eastbourne and *(b)* East Sussex in each of the last 10 years. [151434]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 24 July 2007:

The National Statistician has been asked to reply to your Parliamentary Question asking how many people aged 24 years or under were considered to be economically inactive in (a) Eastbourne and (b) East Sussex in each of the last 10 years. I am replying in her absence. (151434)

The Office for National Statistics (ONS) compiles statistics of inactivity from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

The attached table shows the number of economically inactive persons, aged 16 to 24, resident in the Eastbourne constituency and the county of East Sussex, from the annual local area LFS, for the 12-month periods ending in February from 1997 to 2004 and from the APS for the 12-month periods ending in March 2005 and March 2006.

As these estimates are for a subset of the population in a small geographical area, they are based on very small sample sizes, and are therefore subject to large margins of uncertainty. In this case, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over time.

Economic inactivity of 16 to 24 year olds in Eastbourne parliamentary constituency and the county of East Sussex

Thousand

	Economically inactive 16 to 24 year olds	
12 months ending	Eastbourne	East Sussex
February 1997	3	11
February 1998	2	9
February 1999	2	6

Economic inactivity of 16 to 24 year olds in Eastbourne parliamentary constituency and the county of East Sussex

Thousand

12 months ending	*Economically inactive 16 to 24 year olds*	
	Eastbourne	*East Sussex*
February 2000	[1]—	8
February 2001	2	11
February 2002	1	10
February 2003	3	11
February 2004	2	8
March 2005	2	10
March 2006	3	10

[1] Sample size are too small to provide estimates.

Notes:

1. Data are subject to sampling variability.
2. Changes in the estimates over time should be treated with caution.

Annual local area Labour Force Survey; Annual Population Survey.

Valuation Office Agency

Alistair Burt: To ask the Chancellor of the Exchequer what meetings the Valuation Office Agency has had with the Australian Valuation Office in the last five years. [151322]

Jane Kennedy: There is no central record of meetings held between the Valuation Office Agency and the Australian Valuation Office and the information could not be obtained without disproportionate cost.

Alistair Burt: To ask the Chancellor of the Exchequer which divisions of the Valuation Office Agency the secondees from the *(a)* Australian Valuation Office and *(b)* Hong Kong Valuation Office were working within. [151323]

Jane Kennedy: The secondees worked in the Valuation Office Agency's Chief Executive's Office (Non-Domestic Rating Section) and the London City Group and London District Valuer Service, respectively.

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 15 June 2007, *Official Report*, column 1424W, on the Valuation Office Agency, if he will place in the Library a copy of the review. [150631]

Jane Kennedy: Office of Government Commerce (OGC) Gateway Reviews are conducted on a confidential basis for Senior Responsible Owners (SROs) of projects and programmes across government. To place this report in the public domain would put at risk an important process that has recorded £2.5 billion of value for money through avoided costs in central civil government since 2003.

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answers to the hon. Member for Meriden of 26 January 2007, *Official Report*, column 2134W, and 15 June 2007, *Official Report*, column 1422W, on the Valuation Office Agency, how many flights and to which destinations were made in 2006-07; and what estimate he has made of how much carbon dioxide each contributed to the 83 tonnes of carbon dioxide. [151137]

Jane Kennedy: The Valuation Office Agency paid for 412 flights in the financial year 2006-07. Data are not held on how much each flight contributed to the 83 tonnes of CO_2 emissions.

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer of 15 June 2007, *Official Report*, column 1424W to the hon. Member for Meriden, on the Valuation Office Agency, which organisation conducted the review. [151139]

Jane Kennedy: The review was conducted by the Office of Government Commerce.

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answers to the hon. Member for Meriden (Mrs. Spelman) of 26 January 2007, *Official Report*, column 2134W, and 18 June 2007, *Official Report*, column 1500W, on the Valuation Office Agency, what conferences were attended during the visit to Japan. [151150]

Jane Kennedy: None.

Valuation Office Agency: HM Revenue and Customs

Alistair Burt: To ask the Chancellor of the Exchequer what access the Valuation Office Agency (VOA) has to data held by HM Revenue and Customs to assist the VOA in its statutory functions. [150642]

Jane Kennedy: I refer the hon. Gentleman to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 14 February 2006, *Official Report*, column 1851W.

Valuation Office Agency: Hong Kong

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Meriden of 20 June 2007, *Official Report*, column 1888W, on the Valuation Office Agency: Hong Kong, whether the Agency provided valuation advice on *(a)* domestic valuations and *(b)* business valuations. [150626]

Jane Kennedy: The valuation advice related to land for commercial development. No valuation advice was given relating to domestic property.

Valuation Office Agency: Optical Equipment

Alistair Burt: To ask the Chancellor of the Exchequer how many telescopic viewers the Valuation Office Agency has purchased in the last 36 months; and at what cost. [150629]

Jane Kennedy: I refer the hon. Member to the answer given to the hon. Member for Surrey Heath (Michael Gove) on 20 June 2007, *Official Report*, column 1877W. The Valuation Office Agency has not purchased any telescopic viewers in the last 36 months.

Alistair Burt: To ask the Chancellor of the Exchequer what use the Valuation Office Agency is making of Ordnance Survey's pictometry oblique imagery. [151325]

Jane Kennedy: I refer the hon. Gentleman to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 24 January 2007, *Official Report*, column 1901W.

Valuation Office Agency: Digital Versatile Disks

Alistair Burt: To ask the Chancellor of the Exchequer which DVDs have been produced by the Valuation Office Agency in the last 36 months; how many copies of such DVDs were produced; and what the cost was to the public purse of development, production and distribution. [151321]

Jane Kennedy: The VGA has produced no DVDs over the last 36 months.

Valuation Office Agency: Expenditure

Alistair Burt: To ask the Chancellor of the Exchequer what expenditure the Valuation Office Agency has undertaken on *(a)* its import system and *(b)* infrastructure electronic billing authority reports since January 2005. [151329]

Jane Kennedy: The expenditure undertaken in providing and implementing the Electronic Billing Authority Reports application in the period January 2005 to 31 March 2007 was £1,478,352 (excluding VAT). The annual service charges in respect of the application are £31,929 (excluding VAT).

Valuation Office Agency: ICT

Alistair Burt: To ask the Chancellor of the Exchequer how many local authorities submit information to the Valuation Office Agency via electronic billing authority reports. [151330]

Jane Kennedy: The latest figures are that 160 local authorities have submitted information to the Valuation Office Agency via Electronic Billing Authority Reports.

Valuation Office Agency: Training

Alistair Burt: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 25 June 2007, *Official Report*, column 400W, on Valuation Office: training, from which company the media training was commissioned; and what the functions were of the staff who were trained. [151201]

Jane Kennedy: Media training was provided by the Government News Network. The staff trained were senior management whose function is to manage Valuation Offices.

Valuation Office Agency: Visits Abroad

Alistair Burt: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 25 June 2007, *Official Report*, column 400W to the hon. Member for Brentwood and Ongar, on Valuation Office: visits abroad, how many staff visited each country; and at what cost; [151199]

(2) what the purpose was of each visit to *(a)* Australia, *(b)* Canada, *(c)* New Zealand, *(d)* the USA and *(e)* Lithuania. [151200]

Jane Kennedy: One member of staff attended conferences in Canada, New Zealand, USA and Australia. All costs were met by the conference organisers or by staff members. Four members of staff attended a conference in Lithuania. The total cost to the Valuation Office Agency (VOA) was £2,000. The Agency has also seconded staff to Australia. The cost to the VOA from 1 January 2007 was £8,481.

Valuation Office Agency: Non-domestic Rates

Alistair Burt: To ask the Chancellor of the Exchequer whether the Valuation Office Agency plans to collate value significant codes for the purposes of valuations of non-domestic dwelling for business rates. [151320]

Jane Kennedy: The Valuation Office Agency has no plans to collate Value Significant Codes for the purposes of valuations of properties for non-domestic rates.

Welfare Tax Credits

Mr. Gauke: To ask the Chancellor of the Exchequer how many *(a)* couples and *(b)* couples with household incomes of over £50,000 are claiming tax credits, broken down by region. [152317]

Jane Kennedy: The information requested is provided in the following table.

Table 1: average number of families benefiting from tax credit awards in each country and each government office region of England, 2005-06 (couples only)

	All families	*Income used to taper in-work awards Over £50,000*
United Kingdom	3,643	139
England	3,024	117
North East	172	5
North West	439	15
Yorks and The Humber	344	10
East Midlands	290	10
West Midlands	360	11
East	333	15
London	321	14
South East	445	24
South West	320	11
Wales	196	5
Scotland	294	13
Northern Ireland	115	4
Foreign and not known	13	0

WORK AND PENSIONS

Antisocial Behaviour: Housing Benefit

Mr. Clappison: To ask the Secretary of State for Work and Pensions what the timetable is for pilot schemes in respect of the withdrawal of housing

benefit as a sanction against households evicted for antisocial behaviour and who refuse to engage in a rehabilitation programme. [150850]

Mr. Plaskitt: We will pilot the scheme in eight local authorities, starting 1 November 2007, for a period of two years.

Child Support Agency: Fees and Charges

Mr. Laws: To ask the Secretary of State for Work and Pensions for what reasons the Child Support Agency ceased its policy of charging a fee for use of its services in 1995; and if he will make a statement. [146434]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 24 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, for what reasons the Child Support Agency ceased its policy of charging a fee for use of its services in 1995; and if he will make a statement.

The Child Support Agency ceased to charge fees for its services in 1995. The Child Support Fees Regulations 1992 (S.I. 1992/3094) which covered the amount and circumstances in which fees could be charged were subsequently revoked in 1996.

As the 1998 Green Paper 'Children First' explained, the decision to firstly cease applying these regulations and to later revoke them was based on concerns about the unacceptable levels of service the Agency was providing. The regulation making power within the Act was retained to allow for the reintroduction of fees once the Agency could provide a level of service that would warrant it.

I hope you find this answer helpful.

Children: Maintenance

Mr. Laws: To ask the Secretary of State for Work and Pensions what amount of Child Support Agency arrears has been collected directly from non-resident parents' assets in each year since 1996-97; and if he will make a statement. [146435]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

You asked the Secretary of State for Work and Pensions, what amount of Child Support Agency arrears has been collected directly from non-resident parents' assets in each year since 1996-97; and if he will make a statement.

When enforcing the collection of child support arrears, all appropriate means of civil debt recovery proceedings will be considered to ensure effective, timely and efficient recovery of outstanding debt.

The attached table outlines what payments have been received directly by non-resident parents' assets in England & Wales and Scotland.

I hope you find this answer helpful.

Payments received directly by non-resident parents' assets in England and Wales and Scotland

£

Payments received by process	*2004-05*	*2005-06*	*2006-07*
England and Wales			
Bailiff	2,966,000	5,249,000	6,987,000
Order for recovery	90,000	120,000	101,000
Charging order/order for sale	1,027,000	1,493,000	2,357,000
Third party debt order	430,000	508,000	588,000
Scotland			
Attachment and exceptional attachment	26,000	54,000	118,000
Inhibition	72,000	306,000	242,000
Arrestment	28,000	53,000	147,000
Total	4,639,000	7,783,000	10,540,000

Notes:
1. Due to the implementation of a new management information system in 2003 the information requested is available only from 2004-05. The table details the amounts recovered by the various enforcement tools available to the agency.
2. Figures are rounded to the nearest thousand.

Mr. Laws: To ask the Secretary of State for Work and Pensions what assessment he has made of the capacity of the private and voluntary sectors to provide low cost and free advice to separating parents on child maintenance issues; and if he will make a statement. [146703]

Mr. Plaskitt: From October 2008 we will have established an Information and Support Service where both parents can easily access free information and guidance in relation to child maintenance. To inform the design of this service we are actively engaging with voluntary sector organisations that have expertise in this area. The Department is also in the process of undertaking an assessment of the market capacity to deliver an information service from 2008 onwards. This assessment is necessary to inform our decision making regarding how the services can be most effectively delivered. We will not begin our procurement processes until this assessment is complete which we envisage will be late autumn 2007.

Counselling: Separation

Miss McIntosh: To ask the Secretary of State for Work and Pensions what plans he has to introduce further advice and counselling services for separating couples with children. [147244]

Mr. Plaskitt: The Information and Support Service is a critical element of our reform programme. We will provide a national service available to all separate and separating parents who need help to think through their options or establish maintenance arrangements. A key aspect of this will be a national contact centre with web-based support and a face-to-face service where appropriate.

These services will provide high quality information products including a guide for parents and a standard maintenance agreement form and will signpost other

relevant parenting services. We will pro-actively direct low income families towards this service with the support of Jobcentre Plus and HMRC.

We also recognise that separating parents are not always clear about the issues they need to address and, likewise, the need to resolve wider separation issues first can act as a barrier to making maintenance arrangements. With this in mind, the Commission may also provide guides and links to key public and voluntary sector services and literature on non-maintenance related issues such as housing, benefits, debt and contact.

In order to fully understand what services separated or separating parents require we will carry out additional research that will help us develop further our understanding of what information and support services will be needed in the future.

Departments: Agencies

Mrs. May: To ask the Secretary of State for Work and Pensions how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151663]

Mrs. McGuire: The information is not held centrally and could be obtained only at disproportionate cost.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Work and Pensions how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151641]

Mrs. McGuire: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Disabled: Children

Mr. Clappison: To ask the Secretary of State for Work and Pensions what steps have been taken to promote inter-departmental working to help disabled children and their families following the former Prime Minister's overview, 'Improving the Life Chances of Disabled People', with particular reference to measures to help unemployed parents of disabled children who are seeking work; and if he will make a statement. [150853]

Mrs. McGuire: In January 2005, the Prime Minister's Strategy Unit published their report, 'Improving the Life Chances of Disabled People'. The report set out the Government's vision and made recommendations relating to disabled children, young people making the transition to adulthood, employment and independent living.

The Office for Disability Issues was established in December 2005 and is working across Government to improve outcomes for disabled people, including through a ministerial group and the board of management, both of which bring together a range of Departments to oversee delivery of the Government's strategy.

The chapter of the Life Chances report which considered employment did not make any specific recommendations relating to parents with disabled children. However, proposals set out in the July 2007 Green Paper, 'In Work, Better Off' are intended to make better use of the new deal approach for people who claim benefit as unemployed and are actively seeking work but who face significant barriers to finding work, including caring responsibilities at home.

More recently, the joint HMT/DfES children and young people's review, 'Aiming High for Disabled Children: Better Support for Families', published in May 2007, looked at how services can provide greater support for families with disabled children. The report's findings are feeding into the comprehensive spending review and will be implemented through a cross-Government framework.

Employment Schemes

Dr. Tony Wright: To ask the Secretary of State for Work and Pensions how many job applicants have undertaken a 15 day work trial since the inception of the trial programme; and how many of these have resulted in the applicant taking the position. [146558]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

Letter from Lesley Strathie, dated 24 July 2007:

The Secretary of State for Work and Pensions has asked me to reply to your question about the number of job applicants undertaking a work trial and the number of these resulting in the applicant taking the position since the inception of the work trial programme. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Work trials were first introduced in 1989, since when they have formed part of an overall and constantly evolving package of measures to assist employers meet their recruitment needs. Until 2000 we did not routinely capture detailed management information on work trials. Since then, we have recorded information on the number of customers undertaking a work trial, but not the number of people confirmed permanently in the job. Our success in helping people into work is measured in terms of the number of people who leave benefit and move into work, but this is not broken down specifically to identify those securing a job through the help of a work trial.

The table below shows the number of work trial starts since April 2000.

April to March each year	*Work trial starts*
2000-01	6,580
2001-02	4,390
2002-03	3,340
2003-04	2,240
2004-05	1,700
2005-06	2,040
2006-07	3,640

Although we do not keep data on the number of people confirmed in post following a work trial, internal research suggests that up to 50% of those people who secured the job would not have done so without the help of a work trial.

I hope this is helpful.

Financial Assistance Scheme: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions how many residents of Peterborough constituency have been in receipt of funds under the Financial Assistance Scheme; and if he will make a statement. [151555]

Mr. Mike O'Brien: As at 13 July 2007, there are 24 residents of Peterborough constituency in receipt of assistance from the Financial Assistance Scheme.

Housing Benefit

Mr. Paice: To ask the Secretary of State for Work and Pensions if he will make a statement on the introduction of the local housing allowance; and what assessment he has made of the impact of its introduction on residents in rural areas. [150705]

Mr. Plaskitt: Local housing allowance (LHA) will be introduced nationally from 7 April 2008 and the preparation for its implementation is under way in all local authorities. It has been extensively evaluated in nine pathfinder areas and tested for operational readiness in a further nine. These local authorities were chosen to provide a range of different housing markets, geographical factors and labour markets.

One of the pathfinders, Teignbridge, is largely a rural area. As in the other eight evaluated LHA pathfinder areas, the implementation and delivery in Teignbridge was considered successful and the impact of the local housing allowance is covered in the local housing allowance evaluation publications.

Incapacity Benefit

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many and what proportion of incapacity benefit claimants had been in receipt of incapacity benefit for five years or more in each year since 1997. [150848]

Mrs. McGuire: The available information is in the following table.

Incapacity benefit (IB)/severe disablement allowance (SDA) claimants with duration of five years or over, Great Britain

As at November each year:	*IB/SDA claimants with duration of five years or over*	*Percentage of IB/SDA claimants with duration of five years or over*
2000	1,233,030	44.6
2001	1,311,790	47.1
2002	1,392,350	49.4
2003	1,433,850	50.8
2004	1,468,620	52.2
2005	1,489,980	54.1
2006	1,500,380	55.3

Notes:
1. Caseload figures are rounded to the nearest 10. Some additional disclosure control has also been applied.
2. 'Claimant' figures include credits only cases.
3. Figures for claimants with a duration of claim of five years or over are not available prior to 2000 as IB was not introduced until April 1995.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data

Incapacity Benefit: Mentally Ill

Chris Grayling: To ask the Secretary of State for Work and Pensions what percentage of people claiming incapacity benefit did so due to mental and behavioural disorders in each year since 1997. [150052]

Mrs. McGuire: The available information is in the following table.

Percentage of incapacity benefit/severe disablement allowance (IB/SDA) claimants with a mental and behavioural disorder, Great Britain

As at November:	*Percentage*
1997	27.1
1998	29.1
1999	31.0
2000	32.7
2001	34.2
2002	35.7
2003	37.2
2004	38.5
2005	39.4
2006	40.6

Notes:
1. Caseload figures from 1999 onwards are rounded to the nearest 10. Some additional disclosure control has also been applied.
2. Caseload figures for 1997 and 1998 are rounded to the nearest 100.
3. Caseloads for 1997 and 1998 have been produced using 5 per cent. data and have been rated up in accordance with the Great Britain WPLS 100 per cent. IB/SDA totals.
4. 1997 and 1998 figures are from a 5 per cent. sample and are therefore subject to a degree of sampling variation.
5. From 6 April 2001, no new claims to SDA were accepted.
6. Figures include credits only cases.

Source:
1. DWP Information Directorate: Work and Pensions Longitudinal Study, 1999 onwards.
2. Department for Work and Pensions, Information Directorate, 5 per cent sample, 1997 and 1998.

Jobseeker's Allowance

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people have received jobseeker's allowance in the last 12 months. [150054]

Mr. Plaskitt: The information is in the following table.

Jobseeker's allowance claimants, Great Britain June 2006 to May 2007

	Number
June 2006	927,300
July 2006	927,400
August 2006	925,800
September 2006	929,100
October 2006	927,400
November 2006	920,000
December 2006	912,300
January 2007	897,000
February 2007	894,200
March 2007	880,000
April 2007	864,400
May 2007	855,300

Notes:
1. Figures are rounded to the nearest 100.
2. Figures are taken from the second Thursday of each month.

Source:
Count of unemployment-benefits, Jobcentre Plus computer systems (including clerically held cases).

Chris Grayling: To ask the Secretary of State for Work and Pensions what percentage of those claiming jobseeker's allowance in each year since 1997 had partners. [150060]

Mr. Plaskitt: The information is in the following table.

Percentage of jobseeker's allowance claimants with partners[1], Great Britain

As at November at year	Percentage
1997	14.09
1998	13.96
1999	16.15
2000	15.14
2001	13.39
2002	12.53
2003	12.11
2004	11.05
2005	10.80
2006	11.14

[1] The figures for jobseeker's allowance with partners are based on cases where there is payment of additional benefit for a partner.

Notes:
1. There are a number of cases where partner status is unknown.
2. Figures for 1997 and 1998 are based on a five per cent sample, and are therefore subject to a degree of sampling variation.

Source:
Department of Work and Pensions, Information Directorate, 5 per cent. sample, 1997 and 1998, Work and Pensions Longitudinal Study, 1999 onwards.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions when he will reply to the letter to his predecessor dated 29 May from the right hon. Member for Manchester, Gorton with regard to Mr. Muzzamal Hussain. [149156]

Mr. Plaskitt: The Secretary of State replied on 16 July 2007.

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions when he will answer the letter to his predecessor of 31 May from the right hon. Member for Manchester, Gorton with regard to Mr. Stephen Chetwyn. [150466]

Mr. Plaskitt: The Secretary of State replied on 19 July 2007.

National Insurance: Fraud

Chris Grayling: To ask the Secretary of State for Work and Pensions how many staff in his Department and its agencies work on national insurance number fraud. [149973]

Mr. Plaskitt: We do not employ a specific number of staff to investigate national insurance number fraud. Benefit fraud investigators in the Department for Work and Pensions deal with allegations of benefit fraud relating to all aspects of benefits and services administered by this Department.

Pensions

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* Eastbourne, *(b)* East Sussex, *(c)* England and *(d)* the UK are (i) eligible for and (ii) receive pension credits. [151411]

Mr. Mike O'Brien: Estimates of pension credit eligibility are not available below the level of Great Britain. Latest estimates of the number of pensioners eligible for pension credit in Great Britain can be found in 'Pension Credit Estimates of Take-Up in 2005-06'. A copy of the report is available in the Library.

The following table shows the number of households in Eastbourne, the local authorities that make up East Sussex, England and Great Britain receiving pension credit at February 2007.

In Northern Ireland pension credit administration is a matter for the Secretary of State for Northern Ireland.

Region	Pension credit household recipients
Eastbourne parliamentary constituency	5,410
East Sussex	
Eastbourne local authority	5,130
Hastings local authority	5,060
Lewes local authority	4,020
Rother local authority	4,630
Wealden local authority	5,330
England	2,283,630
Great Britain	2,729,490

Notes:
1. The figures provided are early estimates. The preferred data source for figures supplied by DWP is the Work and Pensions Longitudinal Study (WPLS). However, the figures provided are the latest available figures, which are taken from the GMS scan at 2 March 2007. These are adjusted using the historical relationship between WPLS and GMS data to give an estimate of the final WPLS figure.
2. Caseloads are rounded to the nearest 10.
3. Households are those people who claim pension credit either for themselves only or on behalf of a household.
4. Parliamentary constituencies are based on the 2005 parliamentary boundaries.
5. Figures at county level are not available from the early estimates, so we have provided the local authority figures that make up East Sussex county.

Source:
DWP 100 per cent. data from the Generalised Matching Service (GMS) pension credit scan taken as at 2nd March 2007.

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the rates of basic state pension payable to *(a)* single pensioners and *(b)* couples were in (i) 1996-97 and (ii) 2006-07; and what the rates would have been in 2006-07 if they had been uprated in line with prices between 1996-97 and 2006-07. [151623]

Mr. Mike O'Brien: The information requested is as follows:

	Single	£ Couple
1996-97	61.15	97.75
2006-07 (actual)	84.25	134.75
2006-07 (price uprated)	79.68	127.37

Notes:
1. All figures in cash terms.
2. Uprating calculations employ historic RPI series.
3. There is no such thing as a 'singles rate' though the maximum rate of the Category A pension is commonly referred to as the 'singles rate'. Similarly the sum of the Category A and Category B(L) pension is often referred to as the 'couples rate'.
3. Category B(L) pension is about 60 per cent. of the full-rate basic Category A pension. It is payable by virtue of a spouse's qualifying years or earnings.

Pensions: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the average value of state pensions, benefits and other payments was to *(a)* single pensioners and *(b)* pensioner couples in York in 1996-97 and each year since then. [151530]

Mr. Mike O'Brien: The information is not available and could be obtained only at disproportionate cost.

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many people *(a)* in the City of York local authority area and *(b)* City of York constituency receive (i) basic state pension and (ii) pension credit; and what the average weekly value of pension credit received is in each case. [151629]

Mr. Mike O'Brien: The answer is in the following tables.

Basic state pension recipients at September 2006

	Number
York local authority	35,200
City of York parliamentary constituency	17,900

Notes:
1. Data is taken from 5 per cent. extract of the Pensions Strategy Computer System (PSCS), therefore figures are subject to a degree of sampling variation. They are also adjusted to be consistent with the overall caseload from the WPLS.
2. Caseload figures are rounded to the nearest hundred.
Source:
Five per cent sample, DWP Information Directorate

Number of households receiving pension credit and the average weekly amount of pension credit payments at February 2007

	Pension credit household recipients	*Average weekly amount*
York local authority	6,720	40.22
City of York parliamentary constituency	4,440	41.07

Notes:
1. The figures provided are early estimates. The preferred data source for figures supplied by DWP is the Work and Pensions Longitudinal Study (WPLS). However, the figures provided are the latest available figures, which are taken from the GMS scan at 2 March 2007. These are adjusted using the historical relationship between WPLS and GMS data to give an estimate of the final WPLS figure.
2. Caseloads are rounded to the nearest 10.
3. Households are those people who claim pension credit either for themselves only or on behalf of a household.
Source:
DWP 100 per cent. data from the Generalised Matching Service (GMS) Pension Credit scan taken as at 2 March 2007.

Social Security Benefits

Mr. David Anderson: To ask the Secretary of State for Work and Pensions what support his Department provides for people signed off incapacity benefit and awaiting jobseeker's allowance. [147461]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

Letter from Lesley Strathie, dated 24 July 2007:

The Secretary of State has asked me to reply to your question about support provided for people signed off Incapacity Benefit and awaiting Jobseeker's Allowance. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Payments to people who transfer between benefits, without a break, including from Incapacity Benefit to Jobseeker's Allowance, are not normally subject to delay, providing they meet all the conditions for benefit entitlement. If there are delays customers can request an interim payment, or apply for a crisis loan payment from the Social Fund.

I hope this is helpful.

Social Security Benefits: EC Nationals

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many EU citizens in the UK claiming *(a)* jobseeker's allowance and *(b)* incapacity benefit have been in receipt of these benefits for more than (i) six months, (ii) 12 months and (iii) two years. [151632]

Mr. Plaskitt: The information is not available.

Social Security Benefits: York

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many people in City of York constituency were in receipt of each benefit administered by his Department *(a)* at the latest date for which figures are available and *(b)* on the same date in each of the previous 10 years; and how much was spent in the constituency on each benefit in each year. [151631]

Mr. Plaskitt: The information requested is not available at constituency level and could be provided only at disproportionate cost.

Unemployment

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what estimate he has made of the numbers of people both looking for work and available for work who are not claiming either unemployment or incapacity benefit. [147943]

Mr. Plaskitt: The information requested is not available.

However, the Office for National Statistics publishes an estimate of the number of people unemployed on the International Labour Organisation (ILO) definition— those who are not in employment but are actively seeking and available for work. This figure is derived from the Labour Force Survey, based on criteria set down by the ILO, and stood at 1.677 million in February to April 2007.

CHILDREN, SCHOOLS AND FAMILIES

Adoption

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families (1) how many children in each local authority in England were *(a)* considered

and *(b)* successfully placed for adoption in (i) 2004-05 and (ii) 2005-06. [152325]

(2) how many children in the age groups corresponding most closely to the age group *(a)* under 12 months, *(b)* one to four years, *(c)* five to nine years, *(d)* 10 to 14 years and *(e)* 15 to 18 years registered with Isle of Wight council were adopted in the last period for which figures are available. [152326]

Kevin Brennan: Information on the number of children in each local authority in England who were considered for adoption is not collected centrally by the Department for Children, Schools and Families (DCSF).

Information on the number of children in each local authority in England who were placed for adoption in (i) 2004-05 and (ii) 2005-06 has been placed in the House Library. The data are also available in table 4 of the Statistical Volume on Children Looked After By Local Authorities Year Ending 31 March 2006 on my Department's website at:

http://www.dfes.gov.uk/rsgateway/DB/VOL/v000721/TablesfinalRENAMED.xls

The number of children looked after by the Isle of Wight local authority who were adopted in the year ending 31 March 2006, is shown in the following table.

Children looked after who were adopted in the year ending 31 March 2006[1,2], England

Number

		Age at adoption				
	All children	*Under 1*	*1 to 4*	*5 to 9*	*10 to 15*	*16 and over*
Children adopted in England	3,700	190	2,300	940	180	20
Children adopted in the Isle of Wight	10	*	*	*	0	0

1. Figures exclude children looked after under an agreed series of short-term placements.
2. Figures are derived from the SSDA903 return.
3. To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 or to the nearest 10 otherwise. Data at local authority level are rounded to the nearest 5. Where the number was 5 or less (other than 0) this has been suppressed and replaced with an asterisk '*'.

Adoption: Standards

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children were adopted in each local authority in England in each of the last three years; and what the target increases in adoption rates were in each case. [151066]

Kevin Brennan: The information requested has been placed in the House Library.

Classroom Assistants

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how much has been allocated for the employment of teaching assistants in each year since 2000; and what funding has been allocated for each of the next three years; [151183]

(2) what average number of hours was worked per week by teaching assistants in *(a)* each government region, *(b)* each local education authority and *(c)* England, in the latest period for which figures are available. [151184]

Jim Knight: The information requested is not collected centrally.

The allocation of funds for the employment of teaching assistants is a matter for individual schools and local authorities.

Research commissioned by the Department into the deployment and impact of support staff in schools has looked at a range of characteristics of support staff as well as their deployment and impact on pupils. The first wave of the study, conducted in 2004, estimated that teaching assistants work an average of 26 hours per week. The report of the first wave can be found at http://www.dfes.gov.uk/research/data/uploadfiles/RR776.pdf. The report of the second wave of the study, which will contain an updated estimate of average hours from fieldwork completed in 2006, will be published on Thursday 26 July.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what formal training is required for a person to obtain a post as a classroom assistant specifically working with special educational needs pupils. [151209]

Jim Knight: The employment and deployment of support staff, together with any training required in order to take up a post, is a matter for schools or local authorities to determine as the employer.

Support staffs, including teaching assistants, play an important role in schools, often working closely with pupils with special educational needs (SEN) and disabilities. In recognition of this, the Training and Development Agency for Schools (TDA), which has responsibility for the training and development of the whole school workforce, has developed national occupational standards for teaching/classroom assistants. These contain elements relevant to working with pupils with SEN or particular educational needs. National Vocational Qualifications at level 2 and 3 are based on these standards.

In addition, the TDA has also developed induction training materials for teaching assistants and introductory training materials for other support staff working in primary and secondary schools. Both sets of materials contain discrete modules covering inclusion, SEN and disabilities.

The professional standards for higher level teaching assistants (HLTAs), for which the TDA is also responsible, require HLTAs to know how to support learners in accessing the curriculum, in accordance with the SEN code of practice.

All schools can use their own budget to fund the training and development of their staff. They also receive a school development grant which they are able to use to support improvements in any aspect of teaching and learning. This can include sending teaching assistants on specialised training courses. Local authorities may retain a proportion of this grant, in certain circumstances, to provide specific training and development in relation to SEN and disabilities. The TDA also provides local authorities with grant funding to support candidates through the HTLA training and assessment process.

Classroom Assistants: Pay

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average salary is of a teaching assistant. [151185]

Jim Knight: The salaries for all support staff are for local determination and are set either by local authorities (in the case of community and voluntary controlled schools) or governing bodies (in the case of foundation and voluntary aided schools). Due to the many variations in local pay across the country it is not possible to give an average salary.

Departments: Contracts

Mrs. May: To ask the Secretary of State for Children, Schools and Families which of his Department's contracts have been rewritten since 27 June; and what estimate he has made of the resulting cost. [148420]

Ed Balls: The Department does not maintain a central record of all contracts that have been or are about to be awarded. Contracts which are in the process of being awarded will have the name of the contracting authority changed from the Department for Education and Skills to the relevant new departmental title at little cost.

Departments: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what the annual value of private finance initiative projects within his responsibility was in each of the last five years, broken down by local education authority. [151540]

Jim Knight: Information on schools private finance initiative contracts, including balance sheet treatment and unitary charges, is included in HM Treasury's PFI Signed Projects List, which is available through:

www.hmtreasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats

This is a working document containing information on current signed PFI projects. It is updated on a 6-monthly basis to reflect the updates HM Treasury receives from Departments at Budget and pre-Budget report.

Digital Versatile Disks

Colin Challen: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on the Y Touring Group's DVD production, "Every Breath"; and how many DVDs are being produced. [151598]

Jim Knight: The Department is working with the Y Touring Group, through the Central Office of Information, to produce a DVD version of their "Every Breath" play to be used as a teaching resource in schools. A total budget of £61,000 has been allocated to this project. An initial production run of approximately 2,000 DVDs is planned. These will be made available to schools via the Online Publication System. The level of demand will be monitored and stock managed accordingly.

Education and Skills Bill

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether his Department will be the lead Department on the forthcoming Education and Skills Bill; and if he will make a statement. [151197]

Jim Knight: The Education and Skills Bill will be a joint bill between the Department for Children, Schools and Families and the Department for Innovation, Universities and Skills. The Bill will include provisions to raise to 18 the minimum age at which young people can leave education or training, and to implement recommendations of the recent Leitch review of skills. The Department will be the lead Department on the Bill, but I will be working closely with my ministerial colleagues in DIUS.

Family Courts: Counselling

Mr. Heald: To ask the Secretary of State for Children, Schools and Families (1) what steps his Department is taking to encourage mediation in family disputes in *(a)* publicly funded cases, *(b)* privately funded cases and *(c)* cases in which only one party is publicly funded; and whether his Department has set targets for mediation; [150032]

(2) what representations his Department and its predecessors have received from children's charities on mediation in family disputes; and if he will make a statement. [150035]

Bridget Prentice: I have been asked to reply.

The Government believe that mediation can offer considerable advantages over going to court in the settling of family disputes, especially where children are involved, irrespective of how cases are funded. To support and encourage mediation, we have established the Family Mediation Helpline and supporting website. The Helpline telephone number is 0845 60 26 627 and the website address is www.FamilyMediationHelpline.co.uk. We have sponsored a public awareness campaign; are facilitating judicial awareness seminars and supporting in-court referral schemes.

Provisions of the Children and Adoption Act 2006 will enable the court to direct parties in child contact disputes to attend a meeting about mediation. Referrals will also be encouraged through changes to court forms, particularly in relation to disputes over children.

The Legal Services Commission's revised Family Fee scheme will remove the financial disincentives for solicitors to make referrals to mediation. Under the scheme, it will be in the interests of the solicitor to make a referral to mediation and to do so at an earlier stage.

The Ministry does not set targets for mediation because we do not think that a target in this area would be desirable. There are certain cases which are unsuitable for mediation because there is an imbalance of power between the parties. We do not wish to see such cases, which include those where one of the parties has been subject to domestic violence, forced into mediation. In addition, while we can advise parties about the benefits of mediation it would be a breach of the parties' human rights to prevent them having their case heard in court.

Finally, neither this nor predecessor Departments have received any representations from children's charities regarding mediation in family disputes.

Health Education: Sex

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families at what pupil age schools begin teaching sex education in each local education authority. [151162]

Jim Knight: Certain aspects of sex and relationship education (SRE) are a statutory requirement as part of national curriculum science. This stipulates the issues that schools are required to cover at each of the four key stages. Beyond this, the Department's 'Sex and Relationship Education Guidance' outlines how schools can deliver a broader programme of SRE using the framework for Personal, Social and Health Education (PSHE). The guidance provides information on the issues to be covered in both primary and secondary schools, but it is for individual schools to determine their own SRE policy, including how SRE is delivered and when. The Department does not collect information on this.

Primary Education

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many primary schools in each local education authority have voluntarily introduced classes in foreign languages, music or art. [151155]

Jim Knight: The following table details the proportion of schools in each local authority who reported in autumn 2006 that they were teaching languages in class time. These data were obtained from recent research commissioned by the Department, which estimated the proportion of schools teaching languages in class time based on a nationally representative sample.

Music and art and design are compulsory national curriculum subjects for all primary age pupils in maintained schools. All schools must teach the statutory programmes of study, but it is up to them to decide exactly how they deliver them. Schools may also provide extra-curricular activity in music and art, for example school choirs or art clubs that may be run after school, but no information is held centrally on the numbers of schools doing such activities.

Q1a: Do schools offer KS2 pupils the opportunity to learn a foreign language within class time?

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to promote the teaching of foreign languages, music or art at primary school level. [151166]

Jim Knight: One of the three overarching objectives in the National Languages Strategy, published in 2002, was an entitlement that by 2010 all 7 to 11-year-old pupils will be able to learn a language at least in part in class time. Already some 70 per cent. of schools are providing primary languages within class time, so are making excellent progress towards this goal. We have backed this by action on a range of fronts including: training over 2,000 primary teachers with a languages specialism and aiming to train 6,000 by 2010; committing £49 million over 2006-07 and 2007-08 to support the introduction of primary languages; developing new schemes of work for French, German and Spanish; and setting up the Primary Languages Training Zone, an interactive website for teachers, school leaders and trainers involved in the delivery of primary languages.

In October 2006, we commissioned a languages review, which was chaired by Lord Dearing and which reported in March 2007. We have accepted Lord Dearing's recommendation that languages should become a compulsory part of the primary curriculum when it is next reviewed. This will mean that all pupils will learn languages for seven years. We hope that learning languages earlier will inspire children with a love of languages and motivate them to continue learning languages post-14.

Music and Art and Design are compulsory National Curriculum subjects for all five to 14-year-olds. To begin to realise our aim that every primary pupil who wants to should have an opportunity to learn a musical instrument the Government have invested £30 million in primary instrumental and vocal tuition over the last two years. We are putting a further £10 million this year into a national singing programme aiming to make singing an integral part of every child's school day. The Government are investing £36.5 million this year in the creative partnerships programme which promotes schools working with creative artists.

Pupils: Per Capita Costs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average capital cost per pupil of *(a)* an academy and *(b)* a local education authority controlled state secondary school; and if he will make a statement. [150813]

Jim Knight: The average capital cost per pupil of an academy is £20,400. This figure has been calculated by reference to the actual or estimated capital cost of establishing the first 91 academies in relation to their pupil capacity.

Comparable figures for maintained secondary schools constructed in recent years are unavailable centrally. But a typical cost per pupil for construction of a 1,000-pupil maintained secondary would be in the range of £18,750 to £22,900 per pupil, excluding site acquisition costs.

There are considerable variations in building costs according to region and the nature of sites.

Reading: Teaching Methods

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools in each local education authority taught synthetic phonics in each of the last five years. [151236]

Jim Knight: Phonics has been part of the national curriculum since it was introduced in 1998. However, we do not hold information on the number of schools teaching synthetic phonics.

Schools

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools in each local education authority have *(a)* expanded their capacity in each of the last 10 years and *(b)* are in the process of expanding their capacity. [151204]

Jim Knight: The information requested has been placed in the House Library.

Schools: Chelmsford

Mr. Burns: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 July 2007, *Official Report*, column 119W, on schools: Chelmsford, for what reasons he did not provide the requested figures for the Chelmsford borough council area; and if he will do so. [151442]

Jim Knight: Figures were requested for Chelmsford local authority area and because Chelmsford is not a local education authority area the reply provided information for Essex local authority area. I apologise that this was not made clear. Figures for Chelmsford district council are provided in the following table:

All schools: number (headcount) of pupils[1], as at January 2007 (provisional), Chelmsford district council area

	Headcount of pupils
Maintained Nursery	291
Maintained Primary	12,351
Maintained Secondary	13,131
Maintained Special	450
Non-Maintained Special	[2]—
Pupil Referral Units	[2]—
Independent Schools	1,954
City Technology Colleges and Academies	[2]—

[1] Excludes dually registered pupils.
[2] Not applicable, no schools of this type
Source:
School Census

Schools: Closures

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools closed in each of the last 10 years; and what the case for closure was in each case. [151237]

Jim Knight: The following table sets out the number of maintained, mainstream schools which have closed following decisions taken under local decision making arrangements, which were introduced in September 1999, including the reasons for their closure.

Reason for Closure

	Cease to maintain	Change religious character	Due to amalgamation	For an academy	For fresh start	To allow for a new establishment	Total
2000	13	—	96	—	8	—	117
2001	26	4	194	1	3	3	231
2002	33	9	181	3	1	1	228
2003	38	10	173	8	5	1	235
2004	53	6	192	6	7	—	264
2005	39	8	218	7	7	—	272
2006	41	4	222	17	3	1	288
2007	4	—	12	1	1	—	18
Total	247	41	1,281	43	35	6	1,653

Information held on proposals that were decided under the arrangements that operated prior to September 1999 is not reliable and has therefore been excluded. The figures for the early years of this table will therefore exclude closures that were decided before September 1999.

Schools: Construction

Philip Davies: To ask the Secretary of State for Children, Schools and Families how many new *(a)* primary schools, *(b)* secondary schools and *(c)* academies were built in each of the last five years (i) with and (ii) without sprinklers. [151478]

Jim Knight: The Department for Children, Schools and Families does not hold this information.

Schools: Fire Extinguishers

Philip Davies: To ask the Secretary of State for Children, Schools and Families what guidance is given by his Department on the fitting of sprinklers in schools. [151479]

Jim Knight: The Department for Children, Schools and Families has advised all local authorities and fire brigades that we expect new schools to be fitted with sprinkler systems in future. However, the decision as to whether or not to install sprinkler systems will be based on a risk analysis and there may be a few cases where new schools are at a low risk of fire and where sprinklers would not represent good value for money. The risk analysis and cost benefit analysis tools we have recently published to help clients decide whether or not to install sprinkler systems in schools can also be used to determine whether or not an existing school should have sprinklers fitted, as part of a refurbishment project.

In the autumn we will be publishing a standard specification for sprinkler systems in schools in our Standard Specifications Layouts and Designs series of guidance documents. Also, in August, we will be publishing the new Building Bulletin 100 Designing and Managing against the Risk of Fire in Schools which will be the normal means of compliance with Building Regulations Part B. This will include comprehensive guidance on when to install sprinkler systems in schools.

Schools: Fires

Philip Davies: To ask the Secretary of State for Children, Schools and Families how many fires there were in schools in each of the last five years. [151481]

Jim Knight: The latest figures we have are from the Department for Communities and Local Government (DCLG) for England and Wales and cover 2000-04, with provisional figures for 2005.

	Number of fires	*Total costs (£ million)*	*Arson (Percentage)*
2000	1,275	45	63
2001	1,529	67	58
2002	1,332	67	55
2003	1,313	61	60
2004	1,291	52	56
2005[2]	1,166	[1]—	45

[1] Not available
[2] Provisional

The costs are rounded to the nearest £1 million and are derived from the (then) ODPM's cost of Fire Estimates, published last year. They cover property damage and the costs of the fire and rescue services attending the fires.

Schools: First Aid

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) what steps the Government are taking to encourage the teaching of first aid to students and members of school staff; [151158]

(2) how many *(a)* primary and *(b)* secondary schools in each local education authority area taught first aid to their students in each of the last 10 years. [151160]

Jim Knight: The Department does not collect information on when schools cover first aid teaching with pupils.

The Department's Safety Education: Guidance for schools DFS/0161/2002 provides information on how the framework for personal, social and health education (PSHE) can address the issue of accidental injury in children and young people. The framework includes teaching young people at primary school level about school rules relating to health and safety issues, and at secondary school level to develop skills to cope with emergencies, including first aid and resuscitation techniques. Beyond this, the guidance also highlights how other parts of the national curriculum can be used to develop children's ability to recognise hazards and respond appropriately to risky situations.

The Department encourages schools to develop strategies that are effective at a local level in raising the profile of safety education and dealing with medical emergencies, working with suitable partners where appropriate to do so. We are aware of the valuable support that organisations such as the British Red Cross offer individual schools or groups of schools at a local level to enrich curriculum work in this area.

Advice on first aid training for school staff is included in the Department's Guidance on First Aid for Schools by means of which we encourage first aid provision for schools and their pupils.

Schools: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many private finance initiative funded schools closed prematurely in each of the last five years; and what the cost was to the public purse of *(a)* establishing and *(b)* closing those schools. [151471]

Jim Knight: The Department is only aware of one public finance funded school which has closed prematurely in the last five years. (College of Media, Arts and Technology in Brighton and Hove). All detailed cost information for establishing and closing this school is held at the local authority level.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many schools have been funded via the private finance initiative in the last five years, broken down by local education authority area. [151472]

Jim Knight: Since April 2001, 457 schools have been funded via the private finance initiative. The following table gives a breakdown by local authority area.

York	York—Four schools	4
Total schools	—	457

This is the most up-to-date information that the Department holds, but there may be more current information held at LA level.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what percentage of all school building projects was financed through *(a)* private finance initiative funding and *(b)* capital funding in each of the last 10 years, broken down by local education authority. [151536]

Jim Knight: The Department holds information on central Government allocations to local education authorities each year for conventional capital funding, and for PFI credits, but not on all school building projects. Local authorities have considerable flexibility to decide how to use their investment, for instance on the number, size and type of project, and we collect only some information on how capital allocations are used.

I am arranging for information on PFI and conventional funding allocations to authorities over the past 10 years to be placed in the House Library.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many of the schools procured under private finance initiative since 1997 are now conventional capital projects using design and build contracts. [151537]

Jim Knight: The Department does not routinely collect this information. To the best of our knowledge none of the schools procured under PFI since 1997 are now conventional capital projects using Design and Build contracts.

Special Educational Needs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many statements of special educational needs were issued in each year since 1994-95, broken down by local authority; and what proportion of children in each authority had statements in the latest year for which information is available. [150695]

Jim Knight: Information on statements of special educational needs from 2000 onwards by local authority as at January each year has been placed in the Library. Figures for earlier years are not readily available.

Young People: Antisocial Behaviour Orders

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children and young people (1) were sent to a penal establishment for breaching their antisocial behaviour order in each of the last three years; [150738]

(2) received an antisocial behaviour order in each of the last three years. [150739]

Mr. Coaker: I have been asked to reply.

The Home Office has the lead responsibility for antisocial behaviour policy.

The number of persons aged 10-17 who received an antisocial behaviour order (ASBO) in the last three years is as follows:

625 in 2003,

1,320 in 2004 and

1,558 in 2005.

The latest data available for breaches of ASBO and custody are for 2003. The figures show that 30 young people in total between 2000 and 2003 were sentenced to custody for breach of ASBO alone—in all other cases, they were convicted for other offences at the same time.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education: Learning Disability

Helen Southworth: To ask the Secretary of State for Innovation, Universities and Skills what steps he plans to take to ensure that adults with a learning disability have access to learning opportunities to acquire and maintain life skills including literacy and numeracy. [150917]

Mr. Lammy: Adult learners with learning difficulties and/or disabilities (LLDD) remain an important priority for the Government, as set out in the Learning and Skills Council's "Annual Statement of Priorities and in Progression through Partnership" the Government's strategy for improving outcomes for LLDD learners, which was published in June 2007.

In 2004/05, expenditure on LLDD provision rose by 15 per cent. from the previous year to £1.5 billion. Funding per learner is expected to continue to rise.

LLDD learners are one of the priority groups targeted by the Skills for Life strategy, which offers free literacy and numeracy provision to adults.

In response to the report, "Freedom to Learn", the Skills for Life Strategy Unit in the Department produced a range of materials to support the teaching and learning infrastructure for adults with learning difficulties and/or disabilities. These include tailored curriculum frameworks, guidance for teachers, assessment materials, teaching and learning materials, and a framework for understanding dyslexia. We have also tested the entire Skills for Life learning infrastructure to ensure it properly supports LLDD learners, and commissioned a training programme for staff in the sector.

The Quality Improvement Agency is now working to further improve the quality of LLDD teaching and learning.

Apprentices: East Sussex

Mr. Waterson: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeship places there are for 16 and 17 year olds in *(a)* Eastbourne and *(b)* East Sussex; and what plans he has for the provision of such places in the future. [151353]

Mr. Lammy: (i) The following table shows the number of apprenticeship starts for 16 to 18-year-olds in *(a)* Eastbourne and *(b)* East Sussex in 2005-06.

	Eastbourne	*East Sussex*
Apprenticeship starts for 16 to 18-year-olds	130	560
Advanced apprenticeship starts for 16 to 18-year-olds	40	170

Note:
Numbers have been rounded to the nearest 10.
Source:
Learning and Skills Council (LSC) Work Based Learning (WBL) Individualised Learner Record (ILR)

(ii) We want to continue the expansion of apprenticeships so that by 2013 every suitably qualified young person will be able to take up a place on the programme.

We are working with the LSC to promote apprenticeships to employers of all sizes and so increase their take-up. Many employers are already on board with 130,000 offering apprenticeships in England with over 180 apprenticeships available across more than 80 industry sectors.

We have increased the completion rate to 59 per cent. and rising—up from only 24 per cent. five years ago. We plan to increase this further in the next three years to match that of other top competitors. The Government

are working with the LSC and key partners to deliver provider incentives; foster provider collaboration; improve staff training; and develop with Sector Skills Councils guidance for individual sectors.

Diplomas will also provide clear progression routes into apprenticeships and, indeed, contain apprenticeship components within their content where specified by the Diploma Development Partnerships.

We are also building stronger links with higher education to ensure that apprentices who have the ambition and capacity to do so can enter higher education.

Mr. Syms: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeship schemes are operating in the Poole area. [151579]

Mr. Lammy: Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). There were 380 learners on apprenticeships and 180 on advanced apprenticeships in Poole parliamentary constituency (based on home postcode of the learner) in 2005-06.

Note:

Numbers have been rounded to the nearest 10.

Source:

Learning and Skills Council (LSC) Work Based Learning (WBL) Individualised Learner Record (ILR)

Apprentices: Gravesham

Mr. Holloway: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeship schemes are operating in the Gravesham area. [149996]

Mr. Lammy: Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). There were 340 learners on apprenticeships and 190 on advanced apprenticeships in Gravesham parliamentary constituency (based on home post code of the learner) in 2005/06.

Note:

Numbers have been rounded to the nearest 10.

Source:

Learning and Skills Council (LSC) Work Based Learning (WBL) Individualised Learner Record (ILR)

Apprentices: York

Hugh Bayley: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeships there were in York in 2005-06. [151625]

Mr. Lammy: Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). There were 640 learners on apprenticeships and 280 on advanced apprenticeships in City of York parliamentary constituency (based on home post code of the learner) in 2005/06.

Note:

Numbers have been rounded to the nearest 10.

Source:

Learning and Skills Council (LSC) Work Based Learning (WBL) Individualised Learner Record (ILR).

Degrees: Ethnic Groups

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of students from *(a)* Asian Bangladeshi, *(b)* Asian Chinese, *(c)* Asian Indian, *(d)* Asian Pakistani, *(e)* other Asian, *(f)* Black African, *(g)* Black Caribbean, *(h)* Other Black, *(i)* White and *(j)* other ethnic backgrounds received (i) a first class, (ii) an upper second, (iii) a lower second, (iv) a third class, (v) another pass and (vi) a fail in undergraduate honours degrees in each year since 1997. [148118]

Bill Rammell: The available information on students obtaining first degree qualifications is given in two tables which have been placed in the Libraries.

A new ethnicity classification was introduced on the Higher Education Statistics Agency (HESA) student record in 2001/02 which allowed those students of mixed ethnicity to be classified in more detail. Additionally for the earlier figures, students qualifying from dormant modes of study are excluded, whereas such students are included in the population count for 2001/02 onwards. As such, figures for 2000/01 and earlier are not strictly comparable with those for 2001/02 onwards.

Information for 2006/07 will be available in January 2008.

Higher Education: Finance

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the number and proportion of universities with a *(a)* financial deficit, *(b)* diminishing budget surplus and *(c)* risk of insolvency. [150526]

Bill Rammell: There are no universities at imminent risk of insolvency, although six institutions were judged by the Higher Education Funding Council for England to be "at higher risk" in March 2007 and are being supported by the council. Higher education institutions will also be able to draw on new funding streams we have introduced such as income from variable tuition fees and voluntary giving to strengthen their financial position, and the number of institutions with historical cost deficits is forecast to fall from 14 per cent. now to 5 per cent. in 2010.

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what discussions his Department and its predecessor have held with university representatives or vice-chancellors on raising university tuition fees. [151333]

Bill Rammell: Whenever this issue has been raised either by university representatives, vice-chancellors or student unions we have consistently said that before any changes could even be considered there will be an independent commission in 2009 which will examine the evidence from the first three years of the new fees regime, and which will report directly to Parliament. That remains the case. Draft terms of reference for the commission were published in January 2004. It would be premature to speculate now about what the commission

might recommend or indeed whether Parliament would agree with any recommendations.

Higher Education: NHS

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how premises on which leases had been taken for the NHS University were disposed of. [150524]

Ann Keen: I have been asked to reply.

The handover report produced by the chief executive of the national health service university (NHSU) on closure of the organisation states that the NHSU did not own land or buildings.

All leases were terminated by October 2005 in accordance with the lease for each property.

Nanotechnology

Mark Pritchard: To ask the Secretary of State for Innovation, Universities and Skills what Government-funded research and development support has been given to the development of UK nanotechnology companies. [150718]

Ian Pearson: I refer the hon. Member to the reply given by my hon. Friend the Minister of State for Science and Innovation at DTI on 21 June concerning overall Government spend on nanotechnology. Estimated Government support for nanotechnology work over the last 10 years amounts to around £408 million.

The Technology Strategy Board (an Executive NDPB of DIUS) invests to support nanotechnology companies through two initiatives:

(i) A portfolio of 26 Nanotechnology Collaborative R and D projects is being supported, which brings together business and academia to undertake joint research that has a future commercial use. Funding of £14 million since 2004 (against £32 million total project costs) has been provided to consortia involving business and academia, with business providing just over half of the funding; and

(ii) The network of 24 UK-based Nanotechnology Centres, with a total budget of £54 million over five years, provides open access facilities to enable companies (particularly SMEs) to use expensive pieces of equipment to test new ideas and prototypes.

Additionally, EPSRC currently funds 167 research grants classified as having a significant nanotechnology component that have a formal collaboration with UK industry. These grants have a total value of £86 million.

Student Wastage

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the non-completion rate was of students who took *(a)* A-levels, *(b)* other academic level 3 qualifications and *(c)* vocational level 3 qualifications in each of the last five years. [149789]

Bill Rammell: Projected non-completion rates are released by the Higher Education Statistics Agency (HESA) each year within the Performance Indicators in Higher Education publication. The latest available non-completion projections are shown in table 1.

Table 1: Proportion of UK-domiciled entrants to full-time first degree courses in UK higher education institutions (HEIs) who are projected to neither obtain an award nor transfer to another institution

Academic year	Percentage
1999/2000	15.9
2000/01	15.0
2001/02	14.1
2002/03	14.4
2003/04	14.9

Source:
"Performance Indicators in Higher Education", published by HESA

The 2004/05 figure will be released by HESA on 19 July 2007. These non-completion rates are not available broken down by entry qualification.

Drop-out is more likely to occur during the first year of higher education. The performance indicators also include non-continuation rates, which show the proportion of entrants who are not detected in higher education after their first year. The latest available non-continuation rates are shown in table 2.

Table 2: Proportion of UK-domiciled young entrants to full-time first degree courses at UK HEIs not continuing in higher education after their first year

Academic year	Percentage
1999/2000	7.8
2000/01	7.1
2001/02	7.3
2002/03	7.8
2003/04	7.7

Source:
"Performance Indicators in Higher Education", published by HESA

The 2004/05 figure will be released by HESA on 19 July 2007. The 2002/03 and 2003/04 non-continuation rates are available broken down by entry qualification, as shown in table 3.

Table 3: Percentage of UK-domiciled young entrants to full-time first degrees in UK HEIs in 2002/03 and 2003/04 not continuing in higher education after their first year

Entry qualification categories/tariff points	Entrants 2002/03	Entrants 2003/04
A-levels or highers:		
Unknown	11.3	12.6
Up to 200	11.7	11.9
201 to 290	7.9	8.1
291 to 380	4.9	5.3
Above 380	2.6	2.8
Other qualifications	11.4	11.6
All qualifications	7.8	7.7

Source:
Higher Education Funding Council for England (HEFCE)

Student Wastage: Age

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the non-completion rate was of students who entered higher education between the ages of *(a)* 18 and 20, *(b)* 21 and 25, *(c)* 25 and 30 and *(d)* 30 years and above in each of the last five years. [149784]

Bill Rammell: Projected non-completion rates are released by the Higher Education Statistics Agency (HESA) each year within the Performance Indicators in Higher Education publication. The latest available non-completion projections are shown in table 1.

Table 1: Proportion of UK-domiciled entrants to full-time first degree courses in UK higher education institutions (HEIs) who are projected to neither obtain an award nor transfer to another institution

Academic Year	Percentage
1999-2000	15.9
2000-01	15.0
2001-02	14.1
2002-03	14.4
2003-04	14.9
2004-05	14.2

These non-completion rates are not available broken down by age group.

Drop-out is more likely to occur during the first year of higher education. The performance indicators also include non-continuation rates, which show the proportion of entrants who are not detected in higher education after their first year. The latest available non-continuation rates are shown in table 2.

Table 2: Proportion of UK-domiciled entrants to full-time first degree courses at UK HEIs not continuing in higher education after their first year

Academic year	1999/2000	2000/01	2001/02	2002/03	2003/04	2004/05
Young (under 21)	7.8	7.1	7.3	7.8	7.7	7.2
Mature (21 and over)	15.9	14.5	14.9	15.4	15.6	14.4
All entrants	9.7	8.7	9.0	9.5	9.5	8.8

Source: "Performance Indicators in Higher Education", published by HESA.

A more detailed age breakdown is not available.

Student Wastage: Gender

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills (1) what estimate he has made of the non-completion rate of *(a)* male and *(b)* female students, broken down by number of UCAS tariff points on entry; [149782]

(2) what the non-completion rate was of *(a)* female and *(b)* male students who entered higher education between the ages of (i) 18 and 20, (ii) 21 and 25, (iii) 25 and 30 and (iv) 30 years and above in each of the last five years, broken down by ethnicity; [149785]

(3) what the non-completion rate was of *(a)* female and *(b)* male students in each of the last five years, broken down by ethnicity; [149787]

(4) what the non-completion rates were of *(a)* UK domiciled, *(b)* non-UK but EU domiciled and *(c)* non-EU domiciled (i) males and (ii) females in each of the last 10 years. [149790]

Bill Rammell: Table 1 contains the latest available projected non-completion indicators for entrants to full-time first degree courses.

Table 1: Proportion of UK-domiciled entrants to full-time first degree courses at UK higher education institutions who are projected to neither obtain an award nor transfer to another institution

Academic year	Percentage
1999/2000	15.9
2000/01	15.0
2001/02	14.1

Figures for non-continuation indicators broken down by ethnicity are not available.

Figures for non-completion and non-continuation indicators are available for UK-domiciled students only.

FOREIGN AND COMMONWEALTH OFFICE

Angola: Democracy

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of the attitude of the Government of

Angola towards *(a)* a free press, *(b)* unbiased judiciary, *(c)* freedom for opposition groups to operate without harassment and *(d)* institutionalised corruption; and if he will make a statement. [151624]

Meg Munn: In Angola there is an independent press and a few radio stations that are free to voice criticism of the Government. However, in the provinces the Government-run media largely dominates media coverage. There is only one independent nationwide broadcaster, Radio Vorgan (run by the main opposition party, União Nacional para a Independência Total de Angola (UNITA).

The Government of Angola is taking measures to reform the judiciary and associated legislation, much of which pre-dates the civil war, which ended in 2002. Our embassy in Luanda has sponsored three projects in conjunction with the Bar Association of Angola to assist in the development of the judiciary. We welcome the Government's introduction of a new press law, which is currently in preparation and will provide more scope for independent reporting. Both the Constitutional Law and the Penal Code are also under review.

There is complex legislation relating to the registration of political parties which is rigorously enforced. There are 12 opposition parties represented in Parliament. The UNITA congress is currently under way in Luanda and has received coverage in the independent and Government-run media. Representatives of other smaller political parties and members of the Diplomatic Corps have also attended the congress. We welcome the Government's announcement that legislative and presidential elections will be held in 2008 and 2009 respectively and continue to monitor the political landscape closely.

The Government of Angola have taken several steps to improve transparency in public financial management. Internationally qualified auditors conduct rigorous cost and fiscal audits for all oil companies, including the national oil company, Sonangol. A new procurement law is being drafted. A Court of Auditors was created in 2001, which helps to review and audit public expenditure allocations and has handed down embezzlement sentences. However, much still needs to be done, not only on transparency of public financial management, but also on strengthening Government accountability to the people. We continue to encourage the Government of Angola to sign up to the principles of the Extractive Industries Transparency Initiative.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151974]

Mr. Jim Murphy: The Foreign and Commonwealth Office (FCO) has spent the following amounts on the hire of air conditioning units in the last five years:

	£
2006-07	0
2005-06	4,235.00
2004-05	2,492.00
2003-04	4,632.52
2002-03	9,958.00

All sums aforementioned are net of VAT.

The information provided is applicable to the FCO's UK estate only.

Departments: Flint Bishop

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* his Department and *(b)* its agencies have made payment to Flint Bishop Solicitors since 1997. [151398]

Mr. Jim Murphy: The Foreign and Commonwealth Office has not made any payments to Flint Bishop Solicitors in this period.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149559]

Mr. Jim Murphy: The Foreign and Commonwealth Office has been responsible for the introduction of 12 Acts of Parliament since 1997 of which the Nuclear Explosions (Prohibitions and Inspections) Act 1998 and the Arms Control and Disarmament (Inspections) Act 2003 have not yet been brought into force.

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what legislative provisions introduced by his Department since 1997 have been repealed. [149588]

Mr. Jim Murphy: The Foreign and Commonwealth Office has been responsible for the introduction of 12 Acts of Parliament since 1997, none of which have been repealed.

Departments: Private Education

Mr. Pope: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent on providing education in independent schools for the children of employees of his Department *(a)* who are based in the UK and *(b)* in total in the last year for which figures are available. [150916]

Meg Munn: It is a condition of employment that members of the Diplomatic Service must be prepared to serve anywhere in the world at any time during their career, sometimes at very short notice. Those with children also have a legal obligation as parents to ensure that their children receive full-time education from the age of five years. The Foreign and Commonwealth Office's (FCO) provisions for children's education are intended to help staff meet these potentially conflicting obligations.

We expect children who accompany their parents on postings overseas to use free state schooling if it is available locally and suitable. If suitable English-language schooling is not available free of charge

locally, but is available at fee-charging schools, we refund fees to enable children to receive the education they would be entitled to in the UK.

With staff and their families having to move at regular intervals, sometimes at short notice and at times which may disrupt schooling for their children, and education facilities at posts overseas varying (or not being available at all), continuity of education can be problematic particularly during the important exam years. The FCO's continuity of education allowance addresses this problem by enabling children to board at schools in the UK as long as their parents remain subject to the world-wide mobility obligation and take up postings overseas.

The amount we spent in the financial year 2006-07 on providing education in independent schools for children whose parents are temporarily based in the UK is £7.6 million. The total amount we have spent on continuity of education allowance for staff in the UK and overseas during the financial year 2006-07 is £13 million.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Foreign and Commonwealth Affairs how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151642]

Mr. Jim Murphy: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the "Civil Service Management Code", the "Ministerial Code" and "Travel by Ministers".

Entry Clearances: Health Professions

Anne Milton: To ask the Secretary of State for Foreign and Commonwealth Affairs how many medical students from non-EEA countries applied for visas to complete training in the UK in each of the last five years; how many were accepted; and if he will make a statement. [151142]

Meg Munn: Subject to satisfying the relevant paragraph of the immigration rules, overseas qualified medical personnel can enter the UK in either the postgraduate doctor, PLAB test (Professional and Linguistic Assessment Board Test), or clinical attachment categories. We do not distinguish between undergraduate and graduate students.

Applications recorded in each category are:

	Received	*Issued*	*Refused*
2006			
Clinical Attachment	873	111	72
Nurses—Supervised Practice	1,136	695	393
PLAB Test	758	698	83
Post Graduate Dentist	7	7	1
Post Graduate Doctor	638	589	51
Post Graduate GP	4	2	2
Student Nurse	1,305	840	600
2005			
Clinical Attachment	304	284	13
Nurses—Supervised Practice	4	0	0
PLAB Test	581	502	41
Post Graduate Dentist	20	17	0
Post Graduate Doctor	1,423	1,352	44
Post Graduate GP	1	1	0
Student Nurse	5,128	3,554	1,518
2004			
PLAB Test	1	0	1
Post Graduate Dentist	11	10	0
Post Graduate Doctor	1,079	1,058	12
Student Nurse	7,468	5,444	1,904
2003			
Post Graduate Dentist	12	12	0
Post Graduate Doctor	989	970	6
Student Nurse	4,614	3,977	605
2002			
Post Graduate Dentist	23	20	0
Post Graduate Doctor	847	848	2
Student Nurse	1,583	1,410	169

Prior to 2005 data were not kept on all categories. These statistics have not been published and should be used for information purposes only.

The total number of applications issued and refused may not equal the number of applications received due to applications being withdrawn or lapsed. Additionally, applications can be carried forward from one year to the next before being resolved, for example if they have been referred to the Home Office for a decision or deferred for further inquiries.

EU Reform: Treaties

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs in which areas he expects qualified majority voting to replace unanimity under the new European Constitutional Treaty. [148188]

Mr. Jim Murphy: The Treaty establishing a Constitution for Europe is now defunct. The mandate for a Reform Treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned."

The Government expect the new Reform Treaty to contain extensions of Qualified Majority Voting (QMV) under 50 Articles. However, the number of extensions that will apply to the UK will be significantly less than 50. We expect 13 extensions will not apply to the UK. Nine of these relate to Justice and Home Affairs (where we have secured an extension of

our existing opt-in mechanism). Three relate to the euro (where our opt-out applies). One relates to social security (where we will have an emergency brake including a veto power).

Existing areas of policy activity moved from unanimity to QMV

1. Immigration and frontier controls (UK opt-in)

2. Judicial co-operation in criminal matters (UK opt-in)

3. Minimum rules for criminal offences and sanctions (UK opt-in)

4. Eurojust (structure, operation, field of action and tasks) (UK opt-in)

5. Police co-operation (data sharing and training) (UK opt-in)

6. Europol (structure, operation, field of action and tasks) (UK opt-in)

7. Social security (measures to facilitate free movement of workers) (emergency brake including a veto power)

8. Co-ordination of provisions for self-employed persons (measures to facilitate self-employment in other member states)

9. Transport (removes existing limited derogation)

10. Culture (incentive measures to promote cultural awareness and diversity)

Existing institutional/procedural measures moved from unanimity to QMV

11. Appointment of European Central Bank executive board (UK opt-out)

12. Comitology (rules enabling member states to oversee the Commission's exercise of its implementing powers)

13. Financial regulations (rules on budgetary and accounting procedures)

14. Specialised courts (establishment of specialised first instance courts)

15. European Court of Justice statute

16. Amendments to certain parts of the statute of the European System of Central Banks

17. Presidency of Council configurations (arrangements for rotation)

Existing areas of policy activity where there is a new specific legal base subject to QMV

18. Use of the euro (UK opt-out)

19. Measures relating to the broad economic guidelines and excessive deficit procedure (applicable only to eurozone members) (UK opt-out)

20. Border checks (establishment of integrated management system for external borders) (UK opt-in)

21. Mechanism for peer review of member states' implementation of policies in the Justice and Home Affairs (JHA) area (UK opt-in)

22. Crime prevention (UK opt-in)

23. Implementation of own resources decisions

24. Provisions enabling repeal of the aspects of an Article related to state aids policy and the effect of the past division of Germany

25. Procedure for entry into the euro

26. Provisions enabling repeal of an Article on transport policy as it affects areas of Germany affected by its past division

27. Authorisation, co-ordination and supervision of intellectual property rights protection

28. Services of general economic interest (clarification of EU rules/principles applying public services)

29. Diplomatic and consular protection

30. Humanitarian aid operations

31. Energy (measures on energy markets, energy security and energy saving)

32. Tourism (promotion of competitiveness and best practice)

33. Civil protection (assistance to prevent or protect against natural or man-made disasters)

34. Implementation of solidarity clause (assistance, if requested, in the event of a natural or man-made disaster)

35. Urgent financing of Common Foreign and Security Policy (CFSP) measures (start up measures for 'Petersberg' tasks)

36. Urgent aid to third countries

37. Aspects of the Common Commercial Policy (definition of general framework for its implementation)

New areas of EU policy activity subject to QMV

38. European Research Area (removal of barriers to free flow of research)

39. Space policy (measures to promote joint initiatives and research and development)

40. Sport (incentive measures to promote sport)

41. Administrative co-operation (capacity building measures)

42. Membership of structured co-operation in defence (procedural issues relating to its establishment)

New institutional/procedural measures subject to QMV

43. Election of European Council President

44. Appointment of High Representative of the Union for Foreign Affairs and Security Policy

45. Council review of general rules on composition of the Committee of the Regions and European Economic and Social Committee

46. Citizens' initiatives (petition procedure)

47. Principles of European administration (staff regulation measures)

48. Negotiation of withdrawal agreement

49. Judicial appointments panel (composition and operation)

50. Role of the High Representative of the Union for Foreign Affairs and Security Policy in CFSP implementing measures (measures proposed by the High Representative following a specific request from the European Council)

European Council

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a document containing proposals relating to the decisions taken at the European Council on 21 and 22 June, referred to in Presidential Conclusions (Doc. 11177/07), was available to his predecessor prior to 7 June; and if he will make a statement. [150841]

Mr. Jim Murphy: The German presidency first released a draft mandate for the Inter-Governmental Conference on the evening of 19 June. This document was discussed at the European Council.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 June 2007, *Official Report*, column 251W, on the European Council, when the Presidency Conclusions were received by the Government. [151878]

Mr. Jim Murphy: The Presidency Conclusions were received by the Government at the European Council.

Iraq: Oil

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has consulted major UK oil companies on contracts for them in Iraq. [151847]

Meg Munn: The Government have not held discussions on oil contracts in Iraq with any major British oil companies.

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs when officials from his Department first received a copy of the draft Iraqi oil law. [151848]

Meg Munn: Foreign and Commonwealth Office officials first obtained a copy of a draft of the hydrocarbons law at the end of October 2006.

Iraq: Peace-keeping Operations

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Iraq Commission's report on the future of British policy in Iraq; and if he will make a statement. [151086]

Meg Munn: We welcome all constructive contributions to the ongoing debate on policy in Iraq. Many of the recommendations in the Iraq Commission's report are in line with the policies we are already pursuing. We continue to work hard to support the Government of Iraq in its efforts to establish security, deliver basic services and make progress on national reconciliation. The most important figures in determining the future of Iraq are Iraqis themselves, but we believe the international community and states in the region have a key role to play in supporting the Iraqi government.

Italy: Diplomatic Service

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to *(a)* the answer of 16 April 2007, *Official Report*, column 37W, on Italy: diplomatic service, and *(b)* evidence taken before the Foreign Affairs Committee on 17 July 2004 from former ambassador Sir Ivor Roberts, if he will now place in the Library a copy of Sir Ivor's valedictory telegram following its circulation to about 4,000 recipients; and if he will make a statement. [152424]

Mr. Jim Murphy: As my right hon. Friend the then Foreign Secretary (Margaret Beckett) outlined in her answer to my hon. Friend on 16 April 2007, *Official Report*, column 37W, Sir Ivor Roberts provided advice in his valedictory telegram on a confidential basis. Placing a copy of this telegram in the Library of the House would be likely to inhibit the frank and confidential provision of advice.

Russia: Sanctions

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to inform the House when he *(a)* relaxes and *(b)* varies any of the sanctions against Russia to which he referred in his statement on 16 July 2007, *Official Report*, column 22, on Alexander Litvinenko (case update). [152462]

Mr. Jim Murphy: I refer my hon. Friend to the reply I gave him on 23 July 2007, *Official Report*, column 710W.

Sudan: Sanctions

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the current UK and EU sanctions against Sudan; and if he will make a statement. [151991]

Meg Munn: Sanctions are most successful when implemented multilaterally. The EU has an effective arms embargo in place covering the whole of Sudan. The existing UN arms embargo, established in UN Security Council Resolution 1591, applies to rebels in the whole of Sudan, but to the Government of Sudan (GoS) in Darfur only. Amnesty International and the Panel of Experts have reported that all sides are violating the UN arms embargo. Such reports highlight the limitations in the UN arms embargo.

Sanctions are an important tool for applying pressure on the Sudanese Government. We consider that it was the threat of further UN sanctions that persuaded the Sudanese Government to agree to the hybrid AU-UN peacekeeping force on 12 June. This is a significant achievement and an important step towards restoring stability, the protection of civilians and ensuring full humanitarian access in Darfur.

We will maintain pressure on the GoS and rebels, and will pursue further targeted sanctions against any party that obstructs progress on the peacekeeping force, ceasefire, political process or humanitarian access.

Taiwan: Nuclear Power

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the government of Taiwan on its plan to expand its civil nuclear energy programme. [150715]

Meg Munn: The UK does not recognise Taiwan as a state or country, nor its authorities as a government.

However, we have strong commercial, educational and cultural links with Taiwan and discussions have taken place between UK Trade and Investment, including an export promoter from London, and the Taiwanese Atomic Energy Council. No commercial prospects were found. We have a good dialogue with the Bureau of Energy on renewable sectors. We have been asked about the prospects for further nuclear development in the UK.

Tibet: Passports

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK recognised the validity of Tibetan passports for travel to the UK before the Chinese invasion of Tibet. [151001]

Meg Munn: A Tibetan trade delegation entered the UK on passports issued by the autonomous Tibetan authorities on 20 November 1948. Official records of whether other Tibetan passports were accepted by the UK during this period are not readily available.

Uganda: Politics and Government

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he made of the transition to multi-party democracy in Uganda; what reports he has received that the old one-party ideological training institute at Kyankwanzi is still used to instil the ruling National Movement Organisation political ideologies in Ugandan civil servants, police and military personnel; and if he will make a statement. [152151]

Meg Munn: In February 2006 Uganda held its first multi-party elections in 25 years. The reintroduction of a multi-party system was an important achievement. However there is still much to be done, particularly with regard to respect for the independence of the judiciary and political space for the opposition.

It is essential, therefore, that the government and the opposition parties continue to work together to embed the evolving multi-party democracy and ensure transparency. The UK, along with other international partners, has a regular dialogue with the Government of Uganda on all aspects of developing multi-party democracy.

We are aware that the Kyankwanzi National Leadership Institute remains in use and is responsible for preparing senior government officials. We have no specific reports on what training is provided.

UK Membership of EC: Ethnic Groups

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what campaigns her Department has commissioned to raise awareness of the effect of membership of the European Union for the United Kingdom among *(a)* ethnic minority and *(b)* immigrant groups in the United Kingdom. [146101]

Mr. Jim Murphy: The Government are committed to engaging with the UK public on EU issues.

The Foreign and Commonwealth Office hosts the www.europe.gov.uk website and has produced a "Guide to the European Union" publication. Working with colleagues across Government, we continue to support activities to generate greater public awareness of EU issues and a more mature debate about them.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Departments: Equality

John McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what response his Department has made to the Commission for Racial Equality's assessment of its Race Equality Scheme; and how his Department plans to continue to monitor its Race Equality Scheme. [151304]

Mr. McFadden: On 31 October 2006 we responded to the Commission for Racial Equality stating that the detailed comments provided will be used to inform our work to review the race equality scheme in the future.

Progress against the action plans detailed in the race equality scheme is reviewed as part of our annual departmental report and we will publish the first report on the equality schemes in 2008.

John McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what action his Department has taken to mainstream the impact assessment and consultation arrangements set out in the Race Equality Scheme; [151305]

(2) how race equality impact assessments and departmental consultation exercises are taken into account in his Department's policy making process; [151306]

(3) whether any new mechanisms for *(a)* monitoring, *(b)* consultation and *(c)* responses to consultation in relation to the Race Equality Scheme have been put in place by his Department; [151307]

(4) how his Department ensures that existing policies are assessed in accordance with the Race Equality Duty; and whether his Department has identified any adverse implications for some racial groups resulting from departmental policies. [151308]

Mr. McFadden: BERR follows Government-wide guidance on the conduct of consultations and impact assessment. A new impact assessment process was launched in May 2007. Equality impact assessments are an integral part of that process.

Officials from across BERR are being trained in the new procedures. We aim to ensure that equality impacts are properly considered as part of the evidence base in the policy development process.

BERR and its Agencies recognise the importance of monitoring our policies and services for impacts on race equality and obtaining feedback from stakeholders.

When BERR published its race equality scheme in June 2006 we reviewed and updated guidelines first issued in 2003 and incorporated them into a 'Toolkit for Equality Duties'. This includes advice on different monitoring methods including statistical analysis, qualitative analysis and customer surveys. No departmental policies to date have been assessed as having adverse implications for racial groups.

Progress against the action plans detailed in the race equality scheme is reviewed as part of our annual departmental report and we will publish the first report on the equality schemes in 2008.

Energy Supply: Meters

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what consideration will be made in the forthcoming consultation on smart meters of the potential introduction of meters with internal communications and displays instead of pure real time displays; and what assessment he has made of the effect such an introduction would have on the UK's implementation of the Energy Services Directive; [150878]

(2) whether gas supplies will be considered as part of the forthcoming consultation on smart meters; [150879]

(3) if he will meet industry representatives to discuss the forthcoming consultation on smart meters. [150880]

Malcolm Wicks *[holding answer 19 July 2007]:* The Government will shortly issue a consultation on its approach to billing, smart metering and display devices. This consultation will cover electricity, gas and heat. My Department, as part of that consultation process, will continue to have further discussions with interested parties, including energy suppliers, meter manufacturers, and consumer and environmental groups. Information from the consultation and other work being undertaken by the Government, Ofgem and energy suppliers will inform the Government's approach on smart meters as a whole, including implementation of article 13 of the energy service directive.

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how the roll-out of smart meters in the UK is planned to be funded. [151171]

Malcolm Wicks: The Government will shortly issue a consultation document on metering and billing, including smart metering. Information from the consultation and other work being undertaken by the Government, Ofgem and energy suppliers will inform the Government's approach on smart meters.

Energy Supply: Russia

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the net value of traded energy stocks was between Russia and the UK in the latest year for which figures are available. [151548]

Malcolm Wicks: Estimates of the quantities and value of British trade specifically with Russia of coal and oil during 2005 are available electronically in Annex G of the current "Digest of United Kingdom Energy Statistics" http://www.dti.gov.uk/energy/statistics/source/trade/page18526.html and are reported as follows.

	Crude oil		*Steam coal*	
	Imports	*Exports*	*Imports*	*Exports*
Quantity (million tonnes)	7.05	—	16.75	—
Value (£ billion)	1.46	—	0.65[1]	—

[1] Based on average import value per tonne.

It is not possible to ascertain what share of gas or electricity imports passing through third countries may have originated in Russia.

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of energy used in the UK is imported from Russia; and what types of energy are imported from that country. [151550]

Malcolm Wicks: Based on data published in Annex G of the "Digest of United Kingdom Energy Statistics" http://www.dti.gov.uk/energy/statistics/source/trade/page18526.html, direct energy imports from Russia during 2005 consisted of coal (11.5 Mtoe) and crude oil (7.0 Mtoe), which in total represented approximately 7.5 per cent. of primary energy demand in the UK. It is not possible to ascertain how much gas or electricity passing through third countries may have originated in Russia.

It should be noted that, as a result of commercial decisions, around two-thirds of the UK's crude oil production is exported annually such that UK "net" imports of crude oil in 2005 were only 0.9 million tonnes.

Industrial Diseases: Compensation

Mr. Grieve: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been refunded by firms of solicitors who abused the terms of payment in respect of the Miners' Compensation Scheme, broken down by firm. [151757]

Malcolm Wicks: The Department meets the costs of claimants' legal representatives under the terms of both the Vibration White Finger and Chronic Obstructive Pulmonary Disease schemes. However, we would not be privy to any additional agreement reached between claimants and their solicitors.

Despite this, the Department understands that solicitors have repaid well over £2.5 million to date as a result of actions taken by the Department to draw attention to these issues as well as actions taken by the Legal Complaints Service and Solicitors Regulation Authority. The Department is unable to provide a breakdown of this figure by firms of solicitors.

Industrial Disputes: Arbitration

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the cost to *(a)* the Government, *(b)* businesses and *(c)* employees of making mediation a compulsory step in employment disputes. [151289]

Mr. McFadden: The Department has made no estimate of these costs. The arguments for and against compulsory mediation were assessed by Michael Gibbons in his independent review "A review of Employment Dispute Resolution in Great Britain", published in March 2007. The review concluded that

"the Government should adopt a voluntary approach to encourage and enable more use of alternative dispute resolution techniques in order to settle disputes early".

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations his Department has received from trade unions on mediation in employment disputes. [151291]

Mr. McFadden: The Department has received a number of representations in response to its consultation, "Resolving disputes in the workplace", which closed on 20 June. These include representations from trades unions. We are currently assessing all responses to the consultation and the Government will publish its plans for the way forward in due course. Responses will be made available in the public domain.

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department holds figures on the proportion of employees which work for the same company following the resolution of an employment dispute *(a)* through mediation and *(b)* through other forms of resolution. [151296]

Mr. McFadden: The information is as follows:

(a) The Government do not hold records on the outcome of private mediation, which is a confidential process between the parties concerned.

(b) Statistics on disputes which Acas helps to resolve through providing conciliation services are included in the Acas annual report. Statistics on disputes resolved through employment tribunals may be found in the employment tribunal service annual report. This includes figures for the number of orders of reinstatement made by tribunals. There is no system for tracking the employment history of claimants to tribunals after the end of the tribunal process and so the Government have no figures for the proportion of employees who remain with the same employer following the resolution at tribunal of their dispute.

Industrial Disputes: Small Businesses

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the costs and benefits of compulsory mediation in employment disputes involving small firms. [151294]

Mr. McFadden: The arguments for and against compulsory mediation were assessed by Michael Gibbons in his independent review "A review of Employment Dispute Resolution in Great Britain", published in March 2007. The review concluded that:

"the Government should adopt a voluntary approach to encourage and enable more use of alternative dispute resolution techniques in order to settle disputes early".

Post Office Card Account

Julia Goldsworthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many adults without access to a bank account have a Post Office Card Account. [150170]

Mr. Plaskitt *[holding answer 17 July 2007]:* As Minister in DWP with responsibility for the Post Office card account I have been asked to reply.

There are just over four million customers currently using Post Office card accounts. Research for the Financial Inclusion Taskforce[1] showed that around 73 per cent. of people with a Post Office card account also had access to a bank account. This suggests that around one million Post Office card account customers do not have access to a bank account.

[1] "Access to Financial Services by those on the Margins of Banking", published in November 2006.

Regional Development Agencies: Flint Bishop

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether each regional development agency has made payments to Flint Bishop solicitors since 1997. [151379]

Mr. Timms: I am informed that the Regional Development Agencies have made no payments to Flint Bishop Solicitors.

Severn Barrage

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether primary legislation will be required to implement any proposal to build a Severn tidal barrage. [151705]

Malcolm Wicks: There is a distinct possibility that primary legislation will be required. This will be dependent on the nature of the proposal.

Written Answers to Questions

Wednesday 25 July 2007

TRANSPORT

Aviation: Radioactive Materials

Chris Huhne: To ask the Secretary of State for Transport what information her Department holds on the numbers and movements of flights involving radioactive materials carried within UK airspace. [151924]

Jim Fitzpatrick: There is no regulatory requirement for consignors of radioactive material routinely to notify this Department of shipments. Consequently this Department does not hold detailed information on the numbers of flights or materials carried.

In 2003 the National Radiological Protection Board (now the Radiation Protection Division of the Health Protection Agency (HPA)), acting under contract to the Department for Transport carried out a survey into the radiological consequences of the transport of radioactive material by air. This survey involved gathering data on the numbers of flights transporting radioactive material and hence will provide picture of operations during one particular year (2001).

The report of this work 'Survey into the Radiological Impact of the Normal Transport of Radioactive Material by Air—Final Report March 2003 (NRPB-W39)' has been placed in the House Library and is available on the HPA website at the following address:

http://www.hpa.org.Uk/radiation/publications/w_series_reports/2003/nrpb_w39.htm

Departments: Land

Mr. Hancock: To ask the Secretary of State for Transport what land she expects to be disposed of by *(a)* her Department and *(b)* Network Rail between 2007 to 2011; and whether she plans to require that land to be used for social housing. [149895]

Jim Fitzpatrick: Information on current and expected surplus Department for Transport land, covering the next three years, has been placed in the Library of the House. Information on 2011 is not yet available and not all of the sites would necessarily be suitable for housing.

Network Rail is a private sector company whose activities are governed by the regulatory regime and general law. The independent Office of Rail Regulation regulates and monitors the disposal of Network Rail's land.

It is the responsibility of local planning authorities to identify and release land for housing as part of the planning process. This means that the requirement for the provision of social housing will need to be negotiated and agreed with the local planning authority. The Government have implemented a number of initiatives to assist with land supply for housing. A register of surplus public sector land held by central Government bodies has been established.

English Partnerships review the sites on the register to identify those which could have the potential for housing development. As at June 2007 there were over 700 sites on the register. Sites are continually being added as they are identified as surplus by landowners and removed once expressions of interest are received after a site has been marketed.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Transport which Bills introduced by her Department in the last five years did not contain sunset clauses; and if she will make a statement. [152491]

Jim Fitzpatrick: Of the enacted Bills introduced by the Department for Transport in the last five years, for the following Acts did not contain any sunset clauses.

The Railways and Transport Safety Act 2003

The Traffic Management Act 2004

The Railways Act 2005

The Civil Aviation Act 2006

The Merchant Shipping (Pollution) Act 2006

The appropriateness of a sunset clause for the whole or any part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Driving Offences: Mobile Phones

Mr. Amess: To ask the Secretary of State for Transport how much her Department has allocated in each of the next two years to raising awareness of the dangers of using a mobile phone while driving; and if she will make a statement. [152769]

Jim Fitzpatrick: Our communications activity to raise awareness of the dangers of using a mobile phone while driving, forms part of the Department's £16 million THINK! road safety campaign, which conveys messages/advice on issues such as drink-driving, speed, motorcycling, use of seat belts and child/teen road safety. Priorities within the campaign are informed by the killed and seriously injured statistics.

In financial year 2006-07, we allocated £1.6 million to raise awareness of the dangers and changes in penalties for using a mobile phone while driving. A high profile campaign was launched in January 2007 using a mix of television, press, radio and online advertising. There was also an enforcement element to the campaign which was supported by the work of the police.

Expenditure allocated to the campaign for financial year 2007-08 is £1 million. We are planning an advertising campaign in February 2008 to mark the one-year anniversary of the change in legislation. It is expected that the campaign will comprise television, radio, online and PR activity.

Mr. Amess: To ask the Secretary of State for Transport (1) what assessment she *(a)* has made and *(b)* plans to make on the effectiveness of section 41D of the Road Traffic Act 1988 in reducing the number of (i) males and (ii) females driving while using a mobile telephone; [152863]

(2) what research she has *(a)* commissioned and *(b)* evaluated on the effect on driving standards if persons guilty of an offence under section 41D of the Road Traffic Act 1988, in lieu of a fine, attend a driving safety course paid for by the offender that includes instruction on the dangers of driving while using a mobile telephone; and if she will make a statement. [152864]

Jim Fitzpatrick: The Department undertakes observational surveys of the number of drivers using mobile phones while driving on a regular basis. The survey for 2007 is under way at the moment and the results will be published later this year. The survey does not differentiate the gender of drivers using mobile phones. The most recent survey published in August 2006 is TRL Leaflet 2100 which is available online at www.trl.co.uk/store/report_list.asp?pid=211

Research has not been specifically undertaken or commissioned on the effect on driving standards if drivers who would otherwise be prosecuted were to attend driver improvement courses that explained the dangers of using mobile phones while driving.

London Underground: Repairs and Maintenance

Harry Cohen: To ask the Secretary of State for Transport what future maintenance arrangements for the London Underground are being considered by her Department following the entering into administration of Metronet. [152620]

Ms Rosie Winterton: It is for the PPP administrators, working with Transport for London and London Underground, to identify the best long-term outcome in terms of the continuance of Metronet's tube maintenance activities. It would be premature to comment on what form this may take while the administration process is still in its early stages.

Lorries

Mr. Arbuthnot: To ask the Secretary of State for Transport pursuant to the answer of 25 June 2007, *Official Report*, column 520W, on lorries, what level of heavy goods vehicle movements per day on *(a)* A-class roads and *(b)* motorways causes significant structural or surface wear effects. [152704]

Mr. Tom Harris: The effect on the structural and surface conditions of a road as a result of an increase in heavy goods traffic is dependent on the prior condition of the road. A detailed survey of a particular road would be necessary to establish the prior structural and surface conditions in order to assess the impact of future traffic. However, motorways in England are well built and typically a busy motorway carries 20,000 heavy goods vehicles per day. A doubling of this flow is likely to have a significant effect on the structural and surface conditions. On the A class roads, the type of construction and the structural and surface conditions are extremely variable. It is not possible to produce a similar estimate.

Metronet: Finance

Harry Cohen: To ask the Secretary of State for Transport what public sector finance commitment is expected to be incurred following the entering into administration of Metronet. [152621]

Ms Rosie Winterton: Transport for London and London Underground are in discussions with PPP administrators to identify the best long term financial outcome resulting from the administration of Metronet's activities. It would be premature to comment on any public sector finance commitment while those discussions are still in their early stages.

Motor Vehicles: Testing

Mr. Goodwill: To ask the Secretary of State for Transport what the MOT failure rate is for cars at *(a)* three, *(b)* four, *(c)* five, *(d)* six, *(e)* seven, *(f)* eight, *(g)* nine and *(h)* 10 years old. [151465]

Jim Fitzpatrick: The data held by the Vehicle and Operator Services Agency (VOSA) for the failure rate for class 4 vehicles (cars) completed MOT tests carried out from 1 April 2006 to 31 March 2007 is shown in the following table. VOSA does not hold these records by vehicle age but by the year of registered first use.

Year of first use	*Total MOT tests*[1] *(number)*	*Failure rate (percentage)*
2004	782,616	20.51
2003	2,679,600	21.56
2002	2,671,415	24.58
2001	2,538,661	28.57
2000	2,245,549	33.52
1999	2,109,115	37.81
1998	2,025,417	41.64
1997	1,813,091	44.58

[1] Excludes retests

VOSA publishes the overall failure rate for vehicles in an effectiveness report which is available from the House of Commons Library, Business and Transport section. This is also available online at:

www.vosa.gov.uk .

Railway Stations: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Transport what assessment she has made of the proposals to build a railway station at the Ricoh Arena in Coventry; what discussions she has had with Coventry city council on the proposals; and what estimate she has made of the cost of the establishment of such a station. [151908]

Mr. Tom Harris: It is for the local authority to develop a proposal for a new station which is deliverable, affordable and has a business case. Discussions took place over three years ago following a report which was submitted to the Strategic Rail Authority. The report concluded that the business case was low and there were questions over its deliverability.

The Department would consider any further work showing that such a station was feasible, fundable and offered value for money.

Roads: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Transport how many roads originally built under private finance initiative contracts have had to undergo reconstruction in each of the last 10 years; and what the cost was to the public purse for the reconstruction of these roads. [152472]

Ms Rosie Winterton: No roads originally built under private finance initiative contracts have had to undergo reconstruction in the last 10 years.

Shipping: Radioactive Materials

Chris Huhne: To ask the Secretary of State for Transport how many times nuclear flasks were shipped from *(a)* Torness, Hunterston and Hartlepool power stations and *(b)* Bradwell, Sizewell and Dungeness power stations to Sellafield in each of the last five years. [151926]

Jim Fitzpatrick: The total number of flasks shipped from each power station were as follows:

(a) AGR stations

	Torness	Hunterston B	Hartlepool	Dungeness B
2002	50	50	50	24
2003	47	60	63	49
2004	42	43	48	48
2005	46	51	35	41
2006	51	55	52	44
2007 (to July)	27	14	12	35

(b) Magnox stations

	Bradwell	Sizewell A	Dungeness A
2002	43	59	77
2003	34	75	53
2004	52	72	50
2005	75	25	24
2006	36	48	48
2007 (to July)	0	31	20

Transport: Radioactive Materials

Chris Huhne: To ask the Secretary of State for Transport how many accidents there were involving the transportation of radioactive material by *(a)* air, *(b)* road, *(c)* rail and *(d)* ship in each year since 1977. [151931]

Jim Fitzpatrick: Since 1989, annual reports detailing all abnormal events involving the transport of radioactive material in the UK have been prepared by the Health Protection Agency (HPA), working under contract to the Department for Transport. In addition, periodic reports have been produced examining trends in events since the late 1950s. The latest reports in these series are:

Radiological consequences resulting from accidents and incidents involving the transport of radioactive materials in the UK - 2005 review (HPA-RPD-021)

Review of events involving the transport of radioactive materials in the UK, from 1958 to 2004, and their radiological consequences (HPA-RPD-014)

A full list of earlier reports can be found in the reference section of each report. The report detailing events that occurred during 2006 will be published later this year.

Copies of these reports have been placed in the House Library and recent ones are available on the HPA website. A list of recent reports is also available on the Department's website at the following address.

http://www.dft.gov.uk/pgr/freight/dgt1/publications/notes/theradiologicalimpactofthetr1178

Vehicle and Operator Services Agency: Manpower

Kerry McCarthy: To ask the Secretary of State for Transport how many staff were employed by the Vehicle and Operator Services Agency in each of the last three years; and what percentage of these were employed on *(a)* a supply, *(b)* a temporary and *(c)* an agency basis. [152436]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) publishes the average number of staff employed (full time equivalent) in its annual report and accounts which is available on line at www.vosa.gov.uk and from the House of Commons Library, Business and Transport Section.

(a) VOSA does not employ any staff on a supply basis.

(b) The average number of VOSA staff employed on a casual/fixed term contact, i.e. temporary basis, is shown in the following table:

	Average number of Staff	Percentage average total staff
2004-05	86	3.2
2005-06	76	2.9
2006-07	88	3.5

(c) VOSA's annual report and accounts gives the average number of agency and consultancy staff. It is not possible to separately determine agency support.

Vehicle Data Recording Devices

Harry Cohen: To ask the Secretary of State for Transport what assessment her Department has made of the merits of requiring the installation of event data recorders in all new vehicles. [152612]

Jim Fitzpatrick: The Department for Transport has not conducted a detailed assessment of this technology; however, there is significant international interest in this subject and research for the European Commission recently reported on the competing technologies, their compatibility with all classes of vehicle and their usefulness in accident reconstruction. The programme also reviewed the legal implications for their use. The European Commission has extended their research to consider the drafting of technical, legal and administrative standards for use as mandatory or as recommended requirements for electronic data recorder implementation in Europe.

We have held discussions with the European Commission and intend to contribute to the development of the standards for this technology.

PUBLIC ACCOUNTS COMMISSION

National Audit Office

Dr. Pugh: To ask the Chairman of the Public Accounts Commission if the Commission will publish *(a)* all papers originally supplied to it on the Comptroller and Auditor General's travel expenses and related Inland Revenue payments made by the National Audit Office and *(b)* any subsequent revisions or amendments to those papers. [151172]

Mr. Alan Williams: All papers supplied to the Commission on the Comptroller and Auditor General's travel expenses and related Inland Revenue payments made by the National Audit Office have been published on the Commission's website

http://www.parliament.uk/parliamentary_committees/public_accounts_commisison.cfm.

DEFENCE

Armed Forces: Manpower

Hugh Bayley: To ask the Secretary of State for Defence how many *(a)* regular military personnel, *(b)* Territorial Army and other part-time military personnel and *(c)* civilian personnel were employed by his Department in (i) total, (ii) Yorkshire and the Humber, (iii) North Yorkshire and (iv) City of York in each year since 1979. [152184]

Derek Twigg: The following table shows total UK Regular Forces and Civilian Personnel Strength at 1 April, in each year since 1979.

As at 1 April:	*UK regular forces*	*Civilian personnel*
1979	315,000	[1]—
1980	320,600	[1]—
1981	333,800	[1]—
1982	327,600	[1]—
1983	320,600	[1]—
1984	325,900	[1]—
1985	326,200	[1]—
1986	322,500	[1]—
1987	319,900	[1]—
1988	316,900	[1]—
1989	311,700	[1]—
1990	305,800	[1]—
1991	299,500	[1]—
1992	293,500	[1]—
1993	274,800	159,600
1994	254,500	149,100
1995	233,300	141,300
1996	221,900	135,400
1997	210,800	133,300
1998	210,100	126,300
1999	208,600	123,000
2000	207,600	121,300
2001	205,600	118,200
2002	204,700	110,100
2003	206,900	107,600
2004	207,000	109,000
2005	201,100	108,500
2006	195,900	103,900
2007	[2] 190,400	98,000

[1] denotes not available. Civilian data prior to 1993 are not available in centrally held databases. As a result it is not possible to produce a consistent time series since 1979 without incurring disproportionate cost.

[2] denotes provisional. Due to the introduction of a new Joint Personnel Administration (JPA) system, armed forces data at 1 April 2007 are provisional and subject to review. Numbers are rounded to the nearest 100.

Notes:

1. UK regular forces includes Nursing services and excludes Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists. It includes trained and untrained personnel.
2. Civilian strengths are based on the revised definition of MOD civilian personnel introduced in April 2004. MOD civilian total includes locally engaged civilians, Royal fleet auxiliary personnel and overseas personnel outside UK.

The strength of UK Reserve Forces (including Volunteer and Regular Reserves) from 1990 to 2006 is available in table 2.14 of United Kingdom Defence Statistics (UKDS) 2006 and is available at:

http://www.dasa.mod.uk/natstats/ukds/2006/c2/table214.html

Data on the Reserve Forces are not available in centrally held databases. As a result it is not possible to produce a consistent time series since 1979 without incurring disproportionate cost.

The strength of UK Regular Forces posted in the Yorkshire and Humber Government Office Region (GOR) is available in table 4 of Tri-Service Publication (TSP) 10—UK Regular Forces distribution across UK. The most recent tri-service publication is at 1 April 2006 and is available at:

http://www.dasa.mod.uk/natstats/tsp 10/tsp_10_apr06.pdf

Copies of TSP 10 are available in the Library of the House and are also available at

www.dasa.mod.uk.

TSP 10 data are not available in centrally held databases. As a result it is not possible to produce a consistent time series since 1979 without incurring disproportionate cost.

Data on the posted location of Volunteer Reserve forces are not held centrally and could be provided only at disproportionate cost.

The following table shows civilian personnel strength in Yorkshire and the Humber, North Yorkshire and the City of York.

	Civilian Personnel		
As at 1 April:	*Yorkshire and the Humber*	*North Yorkshire*	*City of York*
1993	5,320	n/a	
1994	5,080	n/a	n/a
1995	4,670	n/a	n/a
1996	3,860	n/a	n/a
1997	3,750	n/a	n/a
1998	3,510	n/a	n/a
1999	3,490	n/a	n/a
2000	3,300	n/a	n/a
2001	3,290	n/a	n/a
2002	3,410	n/a	n/a
2003	3,560	n/a	n/a
2004	3,910	n/a	n/a

	Civilian Personnel		
As at 1 April:	Yorkshire and the Humber	North Yorkshire	City of York
2005	3,910	n/a	n/a
2006	3,690	2,000	760
2007	3,590	1,980	650

n/a = not available

Note:

Civilian data by local authority for North Yorkshire and City of York is only available for April 2006 onwards. Prior to this it is not possible to produce a consistent time series without incurring disproportionate cost.

Bombs

Mr. Caton: To ask the Secretary of State for Defence what the minimum number of submunitions is which a weapon must carry for it to be defined as a cluster munition. [151751]

Mr. Bob Ainsworth: There is no international definition of a cluster munition, nor of the number of sub-munitions a weapon must carry in order to be classed as a cluster munition. An element of the UK's own understanding is that a weapon should carry more than 10 sub-munitions in order to satisfy the definition of a cluster munition.

British Merchant Fleet

Mr. Hancock: To ask the Secretary of State for Defence what recent research he has *(a)* commissioned and *(b)* evaluated on the implications of likely future numbers in UK Merchant Navy officers for future military operations. [151523]

Mr. Bob Ainsworth: There has been no specific research commissioned or evaluated recently by the Department on the implications of the likely future numbers of UK Merchant Navy officers on future military operations.

Defence Export Services Organisation

Nick Harvey: To ask the Secretary of State for Defence what plans the Government have for the future of the Defence Export Services Organisation; and if he will make a statement. [151758]

Mr. Bob Ainsworth: I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for Defence on 16 July 2007, *Official Report*, column 13W, to the hon. Member for Twickenham (Dr. Cable).

Mr. Wallace: To ask the Secretary of State for Defence how many staff are employed by the Defence Export Service Organisation (DESO); what estimate he has made of the volume of UK defence exports which are principally attributable to the work of DESO since 1995; and if he will make a statement on the future of DESO. [152014]

Mr. Bob Ainsworth *[holding answer 23 July 2007]:* For the number of staff employed in the Defence Exports Services Organisation (DESO), I refer the hon. Member to the answer given by my predecessor on 1 March 2007, *Official Report*, column 1542W, to the hon. Member for Totnes (Mr. Steen). On the future of DESO, I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for Defence on 16 July 2007, *Official Report*, column 13W, to the hon. Member for Twickenham (Dr. Cable).

The annual value of total export orders won in recent years is given in UK Defence Statistics, published annually. These reflect a number of factors, including the contribution made by support from DESO.

Defence Medical Services: Manpower

Mr. Harper: To ask the Secretary of State for Defence what the *(a)* requirement and *(b)* percentage of required personnel in post is in the medical corps of the (i) Army, (ii) Royal Navy and (iii) Royal Air Force. [148272]

Derek Twigg: The information for uniformed medical and dental professional (i.e. a total of doctor, dentist, nurse and allied health professional cadres) is set out in the following table. The numbers are as at 1 April 2007.

	RN	Army	RAF
Requirement	1,529	4,803	1,919
Manning	1,242	3,417	1,527
Percentage in post	81.22	71.14	79.57

The Department is taking active steps to address the shortfalls, through a range of pay and non-remunerative initiatives including:

(a) Payment of "Golden Hellos" to direct entrants into specialist areas where there is greatest shortfall.

(b) Payment of Financial Retention Initiatives to encourage individuals in operational pinch point specialities to return to and remain in speciality.

(c) Managing medical deployments on a tri-Service basis allowing the workload to be shared more evenly and maximising capabilities.

(d) Prioritising resources to support operations.

(e) Establishing alternative means of meeting operational commitments (e.g. use of Reserves and civilian agency contractors and working closely with allies on operations.

(f) Continued development of military career pathways. For example, we are implementing the Defence Nursing Strategy to enhance the career pathway for military nurses. As part of this initiative, Defence Specialist Nursing Advisors have been appointed for each specialism, to plan and manage recruitment and retention in their own specialism.

(g) Encouraging personnel to train and remain in operational pinch point specialities.

The Department has met all the operational requirements and the level of medical care remains extremely high.

Departments: Land

Mr. Hancock: To ask the Secretary of State for Defence what land he expects to be disposed of by his Department between 2007 to 2011; and whether he plans to require that land to be used for social housing. [149896]

Derek Twigg: This Department keeps its estate under constant review to meet present and planned future requirements, with a view to disposing of surplus assets as quickly as possible. A list of the sites in the present programme and those earmarked for future disposal is available in the Library of the House of Commons.

The MOD welcomes the Government's latest housing initiative and will assist with the (draft) Housing Green Paper by continuing to work closely with English Partnerships, the Regional Development Agencies, local authorities and other key stakeholders when considering its disposal strategy. This will often include an assessment of development and regeneration opportunities, including the need for social housing, through the preparation of a planning briefer outline planning application.

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for Defence what incentives he has considered to encourage staff in his Department to use public transport. [148806]

Derek Twigg: The Ministry of Defence encourages the use of more sustainable travel as part its work on sustainable development. The Department offers civilian staff interest free loans to purchase bicycles and public transport season tickets for commuting to and from their place of work.

Depleted Uranium

Nick Harvey: To ask the Secretary of State for Defence what recent estimate he has made of the number of blue on blue incidents in which UK forces have been hit by depleted uranium munitions; and if he will make a statement. [151764]

Derek Twigg: The Ministry of Defence is aware of one friendly fire incident on 28 March 2003 in Iraq in which British troops were injured or killed by depleted uranium based ammunition.

Gulf War Syndrome

Mr. Hancock: To ask the Secretary of State for Defence what representations he has received from the Royal British Legion on Gulf War illnesses. [152370]

Derek Twigg: The Royal British Legion (RBL), Gulf War Group, recently published a policy paper entitled "Gulf War: a legacy of suspicion" on concerns with respect to 1990-91 Gulf veterans' illnesses. I was sent a copy of this following my attendance at their conference to consider the points raised by the report. I will provide them with a formal response, explaining our position on the policy priorities set out in the document.

Gulf War Syndrome: Ex Gratia Payments

Mr. Hancock: To ask the Secretary of State for Defence if he will make an ex gratia payment to Gulf War veterans who have suffered illnesses; and if he will make a statement. [152367]

Derek Twigg: Gulf veterans receive compensation proportionate to the seriousness of their disablement in the form of war pensions and attributable armed forces pensions, in the same way as other ex-servicemen or women who suffer illness or injury as a result of their service. The Ministry of Defence has no plans to make an ex gratia payment to Gulf War Veterans.

Iraq: Bombs

Mr. Drew: To ask the Secretary of State for Defence what research the UK has undertaken to assess the humanitarian impact of the use of cluster munitions containing M85 submunitions in *(a)* Iraq and *(b)* Lebanon. [150990]

Mr. Bob Ainsworth *[holding answer 23 July 2007]:* The UK does not carry out post-conflict humanitarian impact assessments after munitions, including cluster munitions, have been used; there is no requirement to do so under International Humanitarian Law. The priority following operations is to clear unexploded ordnance in order to provide freedom of movement for our forces and conduct the highest priority clearance operations that threaten civilian lives.

We recognise that Explosive Remnants of War, caused by unexploded ordnance, including cluster munitions, are a humanitarian problem. That is why the UK has played an active role at the UN in creating a new legally binding protocol containing a number of new legally binding provisions that will provide significant humanitarian benefit to those civilians in areas affected by Explosive Remnants of War. We are urging all states to sign and ratify this protocol as soon as possible. We are in the process of ratifying this and the MOD is in the process of implementing its provisions. The universal implementation of this will drive a significant reduction in the post-conflict effects of Explosive Remnants of War.

We are still waiting for the outcome of the Israeli inquiry into their use of cluster munitions in Lebanon. To date the UK has contributed £2.7 million towards the clearance of unexploded munitions, including cluster munitions, in Lebanon. This is specifically intended to minimise the humanitarian impact of unexploded submunitions and other Explosive Remnants of War.

Military Aircraft: Helicopters

Mr. Jim Cunningham: To ask the Secretary of State for Defence what plans he has to increase the number of operationally deployable helicopters. [149468]

Mr. Bob Ainsworth *[holding answer 17 July 2007]:* We announced on 30 March the purchase of six new Merlin helicopters, which will be available within a year, and the conversion of existing Chinook Mk 3 helicopters currently estimated to be available in two years. We keep our equipment requirements under constant review to ensure the appropriate number of platforms is available for operational deployment. In addition, work under the Future Rotorcraft Capability programme will ensure we are able to meet our battlefield support helicopter capabilities in the long-term.

Navy: Career Structure

Dr. Julian Lewis: To ask the Secretary of State for Defence whether there has been *(a)* a freeze *(b)* a slowdown in the rate of promotion of (i) officers and (ii) other ranks in the Royal Navy; and if he will make a statement. [152062]

Derek Twigg: There has not been a freeze in the rate of promotion numbers in the naval service. There is a temporary reduction in promotion, primarily officers for the period 2007-10 recovering to present levels by 2012. There has been a slight temporary reduction in overall promotion numbers for warrant officers but other senior rate promotions currently remain steady.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers received *(a)* up to £50,000, *(b)* £50,001 to £100,000, *(c)* £100,001 to £150,000, *(d)* £150,001 to £200,000, *(e)* £200,001 to £250,000, *(f)* £250,001 to £300,000, *(g)* £300,001 to £350,000, *(h)* £350,001 to £400,000, *(i)* £400,001 to £450,000 and *(j)* £450,001 to £500,000 in single payment scheme payments for 2006. [150877]

Jonathan Shaw *[holding answer 19 July 2007]:* The number of claimants who have received payments to date for the Single Payment Scheme year 2006 are as follows:

	Number
Up to £50,000	100,704
£50,001 to £100,000	4,990
£100,001 to £150,000	1,024
£150,001 to £200,000	303
£200,001 to £250,000	118
£250,001 to £300,000	52
£300,001 to £350,000	24
£350,001 to £400,000	22
£400,001 to £450,000	11
£450,001 to £500,000	9

The assessment of claims paid has been updated from my earlier response given to the hon. Gentleman on 10 July 2007, *Official Report,* column 1365W, and reflects additional payments made in the intervening period, moving certain claimants into the >£50,000 banding.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential effect of funding withheld by the EU in relation to the Single Farm Payment scheme on resources available for flood defences; and if he will make a statement. [151146]

Jonathan Shaw: There has been no effect on resources dedicated to flood defences as a result of EU penalties (disallowance) made by the EU in relation to the Single Farm Payment scheme as these payments have been met from a separate ring-fenced budget. This arrangement will continue for future years.

The Government are committed to effective management of flood risk. Over £4 billion has been invested across England on flood and coastal erosion risk management since 1996-97. Around £600 million is to be spent by DEFRA and local authorities this year compared to £307 million in 1996-97 and this is set to increase to £800 million in 2010-11.

Mr. Syms: To ask the Secretary of State for Environment, Food and Rural Affairs how many outstanding single farm payments there are from *(a)* 2005 and *(b)* 2006 to be made to farmers in the South West. [151569]

Jonathan Shaw: As of 18 July 2007, 15 claimants have not received a payment for the 2005 single payment scheme (SPS).

Under the SPS for 2006 107,279 customers have received either a full or partial payment. This represents 98.4 per cent. of the estimated total claimant population of 109,000.

We are not at this stage in a position to advise when the detailed analysis of payments made under SPS will be made available.

Air Conditioning: Energy

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the environmental impact of recent trends in the use of residential air conditioning in the UK. [150213]

Joan Ruddock: Data from the Energy Saving Trust indicates that sales of domestic air conditioners increased from 32,800 in 2005-06 to 72,300 in 2006-07.

In 2005-06, about 73 per cent. of the units sold were "B" rated under the EU Council directive 92/75/EEC, and only 0.85 per cent. were "A" rated. In 2006-07, the share of "A" rated air conditioning appliances had increased to 15 per cent., and the share of "B" rated appliances dropped to 50 per cent. However, a small number of new air conditioners, which also act as heaters, have appeared on the market. These are less efficient.

A domestic "A" rated air conditioner is expected to use around 320 kWh/year of electricity. For comparison, a three bed-roomed semi-detached house built to 2005 Building Regulations and without electric heating, is expected to use around 4,250 kWh/year of electricity. The purchase of an "A" rated air conditioner, and its associated energy consumption would therefore result in additional carbon dioxide (CO_2) emissions of around 138 kgCO_2 /year. The 72,300 domestic air conditioners purchased in 2006-07 would therefore be expected to increase CO_2 emissions by at least 9,900 tonnes CO_2 per year.

Domestic air-conditioning equipment is also likely to use fluorinated greenhouse gases as the refrigerant. If this is emitted it will contribute towards global warming. Under the EC Regulation No 842/2006 on certain fluorinated greenhouse gases, users of air-conditioning equipment must ensure that any detected leakage is repaired as soon as possible. More complex domestic equipment will need to be installed by a qualified person once further European Commission proposals currently under discussion are agreed and implemented.

Under the Waste Electrical and Electronic Equipment (WEEE) Regulations (2006), consumers are able to return their residential air conditioning units to a designated collection facility free of charge at end of life, and producers are responsible for financing their subsequent treatment and recycling.

Animal Welfare: Research

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs if he will list the research projects funded by his Department into issues related to animal health and welfare in each of the last 10 years; and how much funding was allocated to each project. [150632]

Jonathan Shaw: The number of animal health and welfare research projects funded by DEFRA in the last 10 years can be found in the following table:

Project area	*Number of R and D projects*
Animal Welfare	264
BSE and other TSEs	128
Disease Prevention	286
Endemic Disease and Zoonoses	175
Veterinary Medicines	73

A full breakdown and funding for each of these projects can be found on the DEFRA website.

Bovine Tuberculosis

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance he has issued on the measures that cattle farmers can undertake under EU Council Directive 58/98/EC of 20 July 1998 Annex paragraph 12, to prevent tuberculosis reactors originating from wildlife contaminating cattle on farms; and if he will make a statement. [150567]

Jonathan Shaw: DEFRA, in partnership with the Bovine TB Husbandry Working Group, has produced guidance for farmers to reduce the risk of TB transmission. This includes a number of measures to reduce the risk of contact between cattle and badgers, one of which is being aware of the risk areas at pasture such as badgers setts and latrines.

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle have been slaughtered as a precaution against bovine tuberculosis in the last five years; and what proportion of those cattle were confirmed to have been infected with the disease. [150625]

Jonathan Shaw: Following a bovine TB (bTB) breakdown we aim to confirm the presence of the disease at herd level by post-mortem inspection and culture of Mycobacterium bovis in the laboratory. We do not culture samples from every single animal slaughtered, and so it is not possible to identify the proportion of slaughtered animals with confirmed TB. It is also important to note that failure to confirm the disease by post-mortem examination at the slaughterhouse or by culturing the causative bacterium in the laboratory does not mean that an animal was not infected with bTB. In the early stages of this infectious disease, it is not always possible to see lesions with the naked eye, and due to the fastidious nature of the organism, it is not possible to culture it from tissue samples in every case.

The following table shows cattle TB data for Britain between 2002 and 2006.

Bovine TB in Britain

	Number of cattle slaughtered under bTB control measures[1]	*Number of cattle in which bTB confirmed*
2006	22,242	7,472
2005	30,081	8,714
2004	23,064	6,422
2003	23,821	6,308
2002[2]	23,744	6,993
Total	122,952	35,909

[1] TB reactors, inconclusive reactors and direct contacts.

[2] In 2001, the TB testing and control programme was largely suspended due to the Foot and Mouth Disease (FMD) outbreak. When testing resumed in 2002, resources were concentrated on herds with overdue TB tests which would have had a longer period in which to contract the disease. Also the proportion of high risk herds tested immediately after the FMD outbreak was greater than that prior to the outbreak. As a result, the number of confirmed TB reactors in 2002 is not comparable with other years.

Note:

The table shows provisional data, as downloaded from the Animal Health Data Warehouse. This is subject to change as more data becomes available.

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of bovine TB were recorded in each English region in each year since 2000. [151303]

Jonathan Shaw: The number of confirmed new bovine tuberculosis (bTB) incidents in each Animal Health region in England for each year since 2000 are shown in the following table:

Number of confirmed new TB incidents[1] *by Animal Health region*

	West	*North*	*East*	*England total*
1 January to 30 April 2007	500	76	17	593
2006	1,308	199	57	1,564
2005	1,440	207	31	1,678
2004	1,228	165	30	1,423
2003	1,126	159	27	1,312
2002	1,318	203	22	1,543
2001[2]	332	47	4	383
2000	840	45	9	894

[1] Table shows provisional data, as downloaded from the Animal Health Data Warehouse. This is subject to change as more data becomes available.

[2] In 2001, the TB testing and control programme was largely suspended due to the foot and mouth disease (FMD) outbreak. When testing resumed in 2002, resources were concentrated on herds with overdue TB tests which would have had a longer period in which to contract the disease. Also the proportion of high risk herds tested immediately after the FMD outbreak was greater than that prior to the outbreak. As a result, the number of confirmed TB incidents in 2001 and 2002 are not comparable with other years.

Note:

When interpreting these statistics, it is important to bear in mind that a proportion of bTB incidents remain unclassified, awaiting the results of culture tests which can take several months. Therefore the number of confirmed incidents will currently be under-recorded. For instance, 21.6 per cent. of new bTB incidents in January to April 2007 were unclassified when the data were extracted.

Bovine Tuberculosis: Disease Control

Angela Browning: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to make a decision on measures to tackle bovine tuberculosis following the final report of the Independent Scientific Group on Cattle Tuberculosis. [150761]

Jonathan Shaw *[holding answer 19 July 2007]:* There is no timetable for an announcement on this issue. We are carefully considering the issues that the Independent Scientific Group (ISG) on Cattle Tuberculosis report raises, and will continue to work with the industry, Government advisers and scientific experts in reaching a final policy decision on this issue.

Bovine Tuberculosis: South West Region

Mr. Syms: To ask the Secretary of State for Environment, Food and Rural Affairs how many new cases of bovine tuberculosis in the South West were recorded since 1997. [151567]

Jonathan Shaw: The number of confirmed new bovine tuberculosis (bTB) incidents in South West England for each year since 1997 are shown in the following table:

Confirmed new TB incidents in South West England[1]

	Number
2007 (January to April)	382
2006	971
2005	1,101
2004	958
2003	857
2002	1,047
2001[2]	252
2000	676
1999	543
1998	459
1997	326

[1] Provisional data, as downloaded from the Animal Health Data Warehouse is subject to change as more data becomes available.

[2] In 2001, the TB testing and control programme was largely suspended due to the Foot and Mouth Disease (FMD) outbreak. When testing resumed in 2002, resources were concentrated on herds with overdue TB tests which would have had a longer period in which to contract the disease. Also the proportion of high risk herds tested immediately after the FMD outbreak was greater than that prior to the outbreak. As a result, the number of confirmed TB incidents in 2001 and 2002 are not comparable with other years.

Note:
South West England comprises Avon, Cornwall, Devon, Dorset, Gloucestershire, Somerset and Wiltshire

When interpreting these statistics it is important to bear in mind that a proportion of bTB incidents remain unclassified, awaiting the results of culture tests which can take several months. Therefore the number of confirmed incidents will currently be under-recorded. For instance, 21.6 per cent. of new bTB incidents in January to April 2007 were unclassified when the data were extracted.

Bovine Tuberculosis: Vaccination

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in developing a vaccine against bovine tuberculosis for *(a)* badgers and *(b)* cows; and if he will make a statement. [150623]

Jonathan Shaw: The research programme for producing an effective vaccine against tuberculosis in *(a)* badgers and *(b)* cattle remains broadly in line with the timetable outlined in the Krebs report (1997). This estimated:

Years 1 to 5: Identification of candidate vaccines and development of differential diagnostic tests;

Years 5 to 10: Experimental investigations of vaccination protocols;

Years 10 to 15: Field trials.

The first stage started in 1999 and is ongoing. The second stage has started and work on badger vaccines includes a three and a half year vaccine field trial to gather safety data and assess efficacy on injectable Bacille Calmette-Guerin, and a project on developing oral formulations. The cattle vaccine research programme includes a natural transmission study looking at various candidate vaccines.

Carbon Emissions

Mr. Syms: To ask the Secretary of State for Environment, Food and Rural Affairs what level of carbon emissions resulted from large commercial and public sector organisations in the latest year for which figures are available. [151572]

Joan Ruddock: The Public Sector was responsible for 4 per cent.[1] of UK CO_2 emissions. Electricity consumption accounted for approximately 10.2 Mt of CO_2 emissions in 2005—about 47 per cent. of the public sector's total emission.

The energy service directives to be implemented by 17 May 2008 set a national indicative target of 9 per cent. energy savings in member states by 2017. Article 5 requires the public sector to fulfil an exemplary role in delivering the directive. In fulfilling this role the Government will implement measures relating to the procurement of energy using products and/or buildings. These will be applied across the public sector alongside published guidance on how energy efficiency and energy savings can be used as a possible assessment criterion in procurement.

Emissions from the commercial sector amounted to 9 per cent. of total UK emissions in 2005, including 39.5 Mt CO_2 from electricity use, around 76 per cent. of total emissions from this sector.

[1] All percentages and emissions are quoted on a final user basis—emissions from the energy supply (power stations, refineries, mining etc) sector are reallocated to the sector where the electricity or fuels are used. Emissions from the UK Overseas Territories are excluded from these figures.

Crops: Disease Control

Peter Luff: To ask the Secretary of State for Environment, Food and Rural Affairs what recent research he has evaluated on Tilletia Indica and Karnal Bunt disease of wheat; and if he will undertake a new pest risk analysis of the fungus. [150323]

Jonathan Shaw: Karnal Bunt disease (Tilletia Indica) is not known to be present in Europe. Originally found in south Asia, it has more recently spread to the USA and South Africa. The disease is difficult to treat and can affect grain quality.

An EU funded research project, which has drawn upon the expertise of scientific experts from a number of member states and from outside the EU, has recently completed a pest risk analysis (PRA) of the implications which the entry and establishment of this organism poses to the EU. A revised UK PRA which takes account of this work is currently subject to public consultation. Details are available on the DEFRA plant health website.

All replies received in response to the consultation process will be considered.

Departments: Common Purpose

Philip Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department paid to Common Purpose in each of the last five years; for what purpose; and what the outcome of the expenditure was. [147595]

Jonathan Shaw: Common Purpose is a leadership development organisation that aims to improve the way society works by running a variety of educational programmes for leaders of all ages, backgrounds and sectors.

Since DEFRA came into being in June 2001 and from information held centrally, the core-Department has spent £658 with Common Purpose.

Departments: Crime

Mr. Clegg: To ask the Secretary of State for Environment, Food and Rural Affairs what criminal offences have been created by primary legislation sponsored by his Department since October 2006. [149593]

Jonathan Shaw: Most of the provisions of the Animal Welfare Act 2006 came into force on 6 April 2007. The Act largely consolidates and updates predecessor legislation in the field of animal welfare and most of the offences are not "new" in this sense. The following offences in the Act have come into force:

	Offence
Section 4	Causing and allowing unnecessary suffering of animals
Section 5	Mutilation of animals
Section 6	Docking of dogs' tails
Section 7	Administration of poisons to animals
Section 8	Various offences relating to animal fighting
Section 9	Breach of duty to ensure welfare
Section 10	Improvement notices
Section 11	Selling animals or giving as prizes to children under 16
Section 13(6)	Activities which must be licensed or registered under the section (none yet provided for in secondary legislation)
Section 18(12)	Obstruction of a person exercising powers in relation to animals in distress
Section 20(7)	Obstruction of a person exercising powers relating to court orders regarding animals in distress taken into possession
Section 34(9)	Breach of disqualification order
Section 41(7)	Selling or parting with animal subject to a suspended deprivation order
Section 46(2)	Breach of disqualification order in Scotland
Section 50(1)	Selling or parting with an animal subject to a suspended deprivation or seizure order in Scotland
Section 50(2)	Obstructing a person carrying out a deprivation, seizure or interim order in Scotland
Section 56(3)	Failure to deliver documents or carry out directions pursuant to court order
Schedule 2, paragraph 16	Obstructing a person exercising various powers or failing to give assistance to a person exercising various powers where assistance is required

Departments: Databases

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the annual budget is of the open access database; how many hits it has had per month since it came into operation; and what plans he has to expand its use. [151083]

Jonathan Shaw *[holding answer 19 July 2007]:* I am not aware that an open access database exists.

However, Natural England's Open Access website is part of a service contracted out to IBM which also covers the operation and maintenance of the Open Access Restrictions Casework System and the Open Access Contact Centre. The total cost of the contract is £1,704,577 but not all of that amount relates to the website. It is not possible to break this figure down further.

The average number of hits to the website between April 2005 and January 2007 is 7,868 per month.

Natural England is currently reviewing the website's use as well as the contract with IBM.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Environment, Food and Rural Affairs how many ministerial red boxes his Department bought in each of the last five years; what the cost of each was; who the suppliers were: and what tendering process was used in selecting them. [150478]

Jonathan Shaw: During the last five years DEFRA has purchased two ministerial red boxes, both were in financial year 2005-06, at a cost of £750.00 each. They were supplied by Banner Business Supplies.

As the value of orders was below the minimum HM Treasury threshold for competition, the orders were placed on a single tender basis with Banner Business Supplies.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149044]

Jonathan Shaw: From information held centrally, the core Department spent £1,354,759 on overnight accommodation for civil servants in the last 12 months. Information on such expenditure by Defra's executive agencies and NDPBs is not held centrally, and could be provided only at disproportionate cost.

Departments: Publicity

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the cost-effectiveness of advertising commissioned by his Department in the last 12 months. [148518]

Jonathan Shaw: For details of the expenditure on advertising and marketing campaigns conducted by the Department, I refer the hon. Member to the answers given on 19 June 2007, *Official Report*, column 1665W, and on 25 June 2007, *Official Report*, column 67W.

The Department regularly carries out research and evaluation into the effectiveness of its advertising as part of the marketing process. In the last 12 months, the following research and evaluation into advertising effectiveness has been commissioned by the Department's Communication Directorate:

1. Animal Welfare Act communications—research was commissioned to test the changes in awareness of, and attitudes to, the Animal Welfare Act following a range of communications activity including press advertising. The research was conducted by BMRB.

2. Personal Food Imports campaign—research was commissioned to test the changes in awareness of legislation on importing food into the UK, and awareness and attitudes to the campaign, among BME audiences, following a range of communications activity including poster, phone booth and radio advertising. The research was conducted by IFF Research.

3. Act on CO_2 Climate Change campaign—research has been commissioned to test awareness and impact of the advertising, awareness of the branding and recall of messages. The campaign comprises a range of communications activity including TV, press and online advertising. The research will be conducted by BRMB.

In the last year DEFRA's expenditure on recruitment advertising was £332,000. In the main this was for board level appointments to DEFRA and its partner organisations and specialist posts. The contract for this work was re-tendered at the beginning of the financial year to provide better value for money and a focus on use of the most effective channels to reach potential recruits.

Disadvantaged: Rural Areas

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many of the 23 recommendations of the Commission for Rural Communities in the report Rural Disadvantage and Priorities for Action have been implemented. [152081]

Jonathan Shaw: The Commission for Rural Communities "Rural Disadvantage and Priorities for Action" report does not present a list of recommendations as such.

The report states:

"these are not detailed recommendations of how and when action is needed, nor who should take forward the work".

The report was intended to identify priorities for action to form the start of a debate on how they should be achieved and provide a foundation to help shape the future work of the Commission itself.

Many of the issues identified in the report are already the focus of significant Government attention through a range of existing mechanisms.

We welcome the lead taken by the Commission in taking stock of issues affecting rural people and communities, and in identifying priority work to pursue with a wide range of partners, including those living in rural areas.

Dogs: Animal Welfare

Tony Baldry: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has evaluated on the use of electric shock collars on dogs; when his Department will begin such research; how much this study is expected to cost; and if he will make a statement. [152334]

Jonathan Shaw *[holding answer 24 July 2007]:* DEFRA has now evaluated the single proposal received in response to the limited tender call circulated in July 2006. We very much hope that a three-year programme of research will begin in September 2007. As soon as any DEFRA research is commissioned, details, including likely costs, will be put in the public domain.

I also refer the hon. Member to the answers my predecessor the hon. Member for Exeter (Mr. Bradshaw) gave on 6 December 2006, *Official Report*, column 420W and 8 January 2007, *Official Report*, column 272W.

Flood Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason previously planned flood defence schemes for areas at risk did not go ahead in 2007. [150616]

Mr. Woolas: DEFRA and local authority spending on flood and coastal erosion risk management has increased markedly, from £307 million each year in 1996-97 to some £600 million this year, and will rise to £800 million in 2010-11.

Food: Retail Trade

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to encourage retailers to sell locally-grown food. [151079]

Jonathan Shaw *[holding answer 19 July 2007]:* The DEFRA-funded quality regional food programme is delivered on our behalf by Food From Britain (FFB).

It includes a number of initiatives aimed at encouraging retailers to stock more quality regional and local foods. These include both regional and national 'meet the buyer' events and support for a series of guides aimed at making it easier for regional and local food producers to supply both supermarkets and the food service sector. In addition, we have helped facilitate more local sourcing of food by providing funding to address issues such as distribution, marketing and the encouragement of new outlets.

Livestock Industry: Research

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs if he will list the research projects which have been funded by his Department into the impact of livestock husbandry on climate change. [150633]

Jonathan Shaw: DEFRA (and previously MAFF) has, since 1990, funded a specific programme of research on measuring and mitigating greenhouse gas emissions from agriculture—including the contribution of livestock husbandry. I have arranged for the list of all current and recently completed projects under DEFRA's existing agriculture and climate change research programme to be placed in the Library of the House. A list of projects going back to 1997 will also be placed in the Library of the House.

As an example of the work in which we are investing under this programme, we have recently commissioned a three-year project to identify nutritional strategies for ruminants that will reduce methane and nitrogen emissions.

There are other relevant projects outside the agriculture and climate change research programme that also explore the impacts of livestock on climate change. These include a study on environmental burdens and resource use in the production of agricultural and horticultural commodities '(Determining the environmental burdens and resource use in the production of agricultural and horticultural commodities. DEFRA project report IS020);' a report on the Environmental Impacts of Food Production and Consumption; and a life-cycle assessment of certain food commodities, including beef and lamb '(Comparative life-cycle assessment of food commodities procured for UK consumption through a diversity of supply chains (FO0103)).' We are also working in partnership with the dairy sector to produce a "Milk Roadmap", which will help us collectively to identify and work to reduce some of the environmental impacts associated with the production and consumption of milk.

The complete catalogue of DEFRA and MAFF-funded research on agriculture and the environment was recently summarised in the report 'DEFRA Research In Agriculture and Environmental Protection 1990-2005, Summary and Analysis (ES0127)' pages 122 to 149 of the report look specifically at research into greenhouse gas emissions from agriculture.

Natural England: Finance

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how much was allocated to Natural England for 2007-08. [151786]

Jonathan Shaw: Natural England's grant in aid funding for this financial year (2007-08) is currently £180.47 million. Some further funding remains to be finalised as part of establishing "steady state" costs following the organisational changes. The figure is exclusive of the budgets for the agri-environment programmes administered by Natural England.

Nature Conservation: EC Action

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 May 2007, *Official Report*, column 887W, on nature conservation: EC action, if he will list the information on compensatory measures supplied to the European Commission as required under Article 6(4) of the Habitats Directive. [150920]

Joan Ruddock: According to our records there have been several habitat compensation schemes secured as compensatory measures, under Article 6(4) of the EU Habitats Directive. This is to ensure that the overall coherence of the Natura 2000 network is protected. These are as follows.

Project	*Year consent given*	*Type of consent*	*European site affected*
Harwich Haven to Felixstowe approach channel deepening by dredge	1998	The Coast Protection Act, 1949 and the Food and Environment Protection (FEPA) Act 1985	Stour and Orwell SPA Hamford Water SPA
A249 Iwade to Queensborough road improvement scheme	2000	Highways Act 1980	Medway Estuary and Marshes SPA
Humber Estuary flood management scheme	2001	Planning consent under the Town and Country Planning Act 1990	Humber Flats, Marshes and Coast Phase 1 SPA
Hullbridge tidal flood scheme	2003	Planning consent under the Town and Country Planning Act 1990	Couch and Roach Estuaries SPA Essex Estuaries SPA
Pett frontage tidal defence scheme	2004	Planning consent under the Town and Country Planning Act 1990	Dungeness to Pett Levels SPA Dungeness SPA
Morecambe coastal defence works	2005	Planning consent under the Town and Country Planning Act 1990	Morecambe Bay SAC and SPA
Road improvement to A830 trunk road from Mallaig to Lochailort	2007	Highways Act	Glen Beasdale SAC

In addition, there were two consents granted subject to compensatory measures being secured as and when ongoing monitoring identified adverse effects on the European sites concerned. These are as follows:

Project	Year consent given	Type of consent	European site affected
MOD Remote Ammunitioning Facility in the Tamar Estuary Plymouth	2000	Planning consent under the Town and Country Planning Act 1990	Plymouth Sound and Estuaries SAC
Water abstraction at North Pickenham, Norfolk	2002	Water Resources Act 1991	Norfolk Valley Fens SAC

A review of the relevant records reveals some uncertainty as to the schemes in respect of which information has been sent to the Commission formally in accordance with Article 6(4) of the Habitats Directive. We are therefore in the process of sending them information on all those listed.

Nature Reserves: Gloucestershire

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when the monies for the recently opened Cranham National Nature Reserve in Gloucestershire will be paid. [151084]

Joan Ruddock *[holding answer 19 July 2007]:* I understand that this money was released by Natural England to the landowner on 17 July.

Organic Farming: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid to farmers in Yorkshire and the Humber to convert to organic farming in each year since 2003; how many acres of land were farmed organically in Yorkshire and the Humber in 2004; and how many are now. [151564]

Jonathan Shaw: Please see the following table showing the conversion aid payments made to farmers in Yorkshire and the Humber, under the Organic Farming Scheme, since 2003.

There were 9,754 hectares of land farmed organically (organic and in conversion) in 2004 and according to the latest figures available, 11,319 hectares in January 2006.

Sum of total amount paid

Calendar year paid	Holding county	Total
2003	Humberside	61,518.68
	Lincolnshire	134,911.31
	North Yorkshire	228,684.59
	South Yorkshire	11,488.40
	West Yorkshire	10,412.94
2003 total		447,015.92
2004	Humberside	44,717.41
	Lincolnshire	167,733.19
	North Yorkshire	197,270.43
	South Yorkshire	13,191.30
	West Yorkshire	2,744.15
2004 total		425,656.48
2005	Humberside	33,747.08
	Lincolnshire	75,560.48
	North Yorkshire	84,882.99
	South Yorkshire	4,298.97
	West Yorkshire	3,203.95
2005 total		201,693.47
2006	Humberside	10,015.78
	Lincolnshire	21,991.59
	North Yorkshire	35,099.85
	South Yorkshire	585.20
	West Yorkshire	702.90
2006 total		68,395.32
2007	Humberside	2,751.15
	Lincolnshire	7,697.42
	North Yorkshire	12,744.60
	South Yorkshire	370.20
2007 total		23,563.37
Grand total		1,166,324.56

Potatoes: Supermarkets

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to encourage British supermarkets to buy British potatoes. [150457]

Jonathan Shaw: The sourcing of food is a matter for the commercial judgement of retailers. It is against international trade rules for the Government to promote only British produce.

Potatoes: Weather

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much of the potato crop has been destroyed by the recent adverse weather conditions; and if he will make a statement; [150452]

(2) what provisions are in place to provide compensation for potato farmers who have suffered losses as a consequence of the recent flooding; and if he will make a statement; [150461]

(3) what discussions he has had with the British Potato Council on levy relief for potato farmers who have lost crops during the recent flooding; and if he will make a statement. [150462]

Jonathan Shaw: It is estimated that less than 1 per cent. of the national potato crop has been destroyed by the recent adverse weather conditions.

Compensation will not be available for farmers who have lost crops as a result of the recent flooding. Farmers who have taken out insurance for such damage should, of course, make a claim against their policy. We have great sympathy for those who are uninsured but there is no general right to compensation, since that would undermine the decision of those who did take out insurance and in the longer term undermine the competitive insurance market in this area that the UK currently benefits from.

I have held no discussions with the British Potato Council about levy relief for potato farmers who have lost crops during the recent flooding. I understand however that the BPC look sympathetically at situations where individual growers are suffering genuine hardship.

Research: Bovine Tuberculosis

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs if he will list the published papers resulting from research funded by his Department at Woodchester Park into aspects of *(a)* badgers and *(b)* bovine tuberculosis; in which journal each was published; and on what date. [150634]

Jonathan Shaw: DEFRA funds a range of research work with the Central Science Laboratory's (CSL) research team based at Woodchester Park. CSL have published 104 research papers following from their research into aspects of badgers and/or bovine tuberculosis. A full list of the published papers from 1979 to July 2007 has been placed in the Library of the House.

Slaughterhouses: Transport

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average distance that *(a)* pigs, *(b)* sheep, *(c)* cows and *(d)* poultry travel between farm and abattoir. [150874]

Jonathan Shaw *[holding answer 19 July 2007]:* The average 'as the crow flies' distance from an agricultural holding to an abattoir in 2006 in Britain can be found in the following table:

Animal	*Batched distance (Kilometres)*	*Individual distance (Kilometres)*
Pig	55.6	82.6
Sheep	49.5	90.8

These figures have been derived from the Animal Movements Licensing System (AMIS) which records batch movements of sheep and pigs in England and Wales.

In November 2002 and October 2003, the median estimated distance travelled by cattle from agricultural holdings to abattoirs was 55.42 km. This figure was derived from a Veterinary Laboratories Agency research project which analysed data from the Cattle Tracing System of Great Britain and represents distance travelled along the road network.

Information on poultry is not held centrally and could be provided only at disproportionate cost.

WALES

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Wales how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151979]

Mr. Hain: Nil.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Wales whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop solicitors since 1997. [151374]

Mr. Hain: There were no payments made to Flint Bishop solicitors by the Wales Office, and we do not have any agencies.

Departments: Manpower

Mr. Carmichael: To ask the Secretary of State for Wales how many people are employed in his Department to work on ministerial correspondence. [152838]

Mr. Hain: No staff are employed specifically to work on ministerial correspondence.

Due to the nature of our role, most people in the Wales Office will have some part in dealing with ministerial correspondence during the year.

Departments: Official Hospitality

David Simpson: To ask the Secretary of State for Wales how much was spent on hospitality by his Department in the financial year 2006-07. [13326]]

Mr. Hain *[pursuant to the reply, 20 April 2007, Official Report, c. 866W]:* The actual cost for hospitality in the financial year 2006-07 was £12,265. The initial figure provided included costs incurred in 2005.

Mr. Carmichael: To ask the Secretary of State for Wales how much his Department spent on hospitality events in each of the last five years. [152837]

Mr. Hain: Prior to April 2004 the Wales Office did not hold data in the format requested; it could be obtained only at a disproportionate cost

Hospitality spend in the Wales Office 2004-05 to 2006-07 is as follows:

	£
2004-05	7,383
2005-06	4,957
2006-07	12,265

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Wales how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151643]

Mr. Hain: In respect of overseas travel by Cabinet Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Where non-scheduled aircraft are used this is shown in the list. Information for 2006-07 is currently being compiled and will be published before the summer recess. Copies of the lists are available in the Library for the reference of Members.

All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Library for the reference of Members. All official travel is undertaken in accordance with the requirements of the Civil Service Management Code, a copy of which is also available in the Library for the reference of Members.

Detailed information requested in respect to the number of overseas trips and cost taken by Officials can be provided only at a disproportionate cost, for the years 1999 to 2003-04 as records not held in this format

The cost of official overseas travel since 2004 where officials accompanied Ministers was:

2004-05: £18,238 for one overseas trip.

2006-07: £8,284 for two overseas trips.

SOLICITOR-GENERAL

Price Fixing: Drugs

Mark Pritchard: To ask the Solicitor-General what the costs have been so far of the Serious Fraud Office's ongoing Operation Holbein investigation. [150722]

The Solicitor-General: The Serious Fraud Office is currently prosecuting nine individuals and five companies for conspiracy to defraud the Department of Health by fixing the prices and manipulating the supply of certain generic drugs, namely, penicillin-based antibiotics, warfarin and the branded drug, Marevan.

The total expenditure for this case up to 31 March 2007, which is the end of the last financial year is as follows:

Financial year	*Expenditure (£)*
2000-01	26,122
2001-02	417,536
2002-03	2,778,565
2003-04	3,384,928
2004-05	3,950,023
2005-06	5,448,558
2006-07	4,341,732
Total	20,347,464

Prosecutions

Mr. Gerald Howarth: To ask the Solicitor-General if she will ask the Crown Prosecution Service Inspectorate to review the decision to prosecute in R v. Payne and Others. [149569]

The Solicitor-General: The Royal Military Police, as is routine practice when defendants are acquitted following a prosecution, is currently reviewing the circumstances that led to the death of Mr. Baha Mousa and the ill-treatment of other detainees by the British Army. The review will assist the police to determine whether there should be a further investigation of the death and ill-treatment. During their review, the police, quite properly, are obtaining legal advice from the Army Prosecuting Authority (APA). It would be inappropriate to review the decision to prosecute Corporal Payne and Others at a time when the APA continues to advise the police on their review. This is in accordance with the CPS Inspectorate's standard procedure of not reviewing cases which are subject to an ongoing review.

Mr. Bone: To ask the Solicitor-General how many cases the Crown Prosecution Service has re-presented to court which had initially been dismissed due to a technical error in the last 12 months; and if she will make a statement. [150864]

The Solicitor-General: Where a case is tried summarily or on indictment and the charges are dismissed by the court, this has the effect of an acquittal. In these circumstances, the prosecution has no opportunity of re-presenting the charges to the court.

Where charges are discharged at the magistrates court in the course of committal proceedings, then the prosecution may, as a matter of law, recommence the proceedings if appropriate.

Crown Prosecution Service (CPS) records include no distinct record of the number of cases in which these circumstances arise. The information is held on individual case files, and could be retrieved by locating and examining every relevant file in each CPS office, which would only incur disproportionate cost (Code of Practice on Access to Information, part 2, clause 9).

SCOTLAND

Genetics: Databases

John Barrett: To ask the Secretary of State for Scotland how many Scottish people of 18 years and under have their DNA details retained on a national database. [146239]

David Cairns *[holding answer 28 June 2007]:* As at end June 2007 there were a total of 15,517 profiles of persons aged 18 years and under on the Scottish DNA database. This represents just over 7 per cent. of the total number of profiles on the Scottish database. Any further questions on this matter should be addressed to the Home Office.

Ministerial Duties

Mr. Rob Wilson: To ask the Secretary of State for Scotland how many meetings his predecessor had with *(a)* voluntary groups and charities, *(b)* businesses or business representatives, *(c)* Scottish parliamentary officials, *(d)* Members of the Scottish Parliament and *(e)* political party leaders in his capacity as Secretary of State for Scotland. [152292]

Des Browne: My predecessor has had a range of discussions with voluntary groups and charities, businesses or business representatives, Scottish parliamentary officials, Members of the Scottish Parliament and political party leaders.

Mr. Rob Wilson: To ask the Secretary of State for Scotland how many meetings he has had with *(a)* the First Minister of the Scottish Executive, *(b)* leaders of the Conservative, Liberal Democrats, Labour and other parties in Scotland, *(c)* members of the Scottish Parliament and *(d)* public servants in Scotland; and how many meetings his predecessor had with each between 3rd May 2005 and 27th June 2007. [152293]

Des Browne: Since my appointment I have spoken with the First Minister on two occasions and met leaders of the Scottish Conservative, Liberal Democrats and Labour parties, members of the Scottish Parliament and public servants in Scotland on at least one occasion. My predecessor had numerous discussions with the First Minister, leaders of the Scottish Conservative, Liberal Democrats and Labour parties, members of the Scottish Parliament and public servants in Scotland between 3 May 2005 and 27 June 2007.

Mr. Rob Wilson: To ask the Secretary of State for Scotland how many meetings he has had with representative organisations since his appointment [152294]

Des Browne: I have had no meetings with representative organisations since my appointment as Secretary of State for Scotland on 28 June 2007 but a range of meetings are planned during summer recess.

Mr. Rob Wilson: To ask the Secretary of State for Scotland how many times he has visited Scotland on official business since his appointment. [152295]

Des Browne: I have been in Scotland for five days on official business since my appointment as Secretary of State for Scotland.

Mr. Rob Wilson: To ask the Secretary of State for Scotland how many meetings he has had with business and business representatives in his capacity as Secretary of State since his appointment. [152296]

Des Browne: I have had no meetings with business and business representatives in my capacity of Secretary of State for Scotland since my appointment on 28 June 2007 but a range of meetings are planned during summer recess.

HOUSE OF COMMONS COMMISSION

Departments: Air Conditioning

Chris Huhne: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was spent by the House on the hire of mobile air conditioning units in each of the last five years. [151988]

Nick Harvey: Expenditure on the hire of mobile air conditioning units is only readily available for the last four years following a change in the accounting system in 2003. Expenditure was as follows:

Hire of mobile air conditioning units

	Expenditure (£)
2003-04	68,470
2004-05	98,638
2005-06	65,943
2006-07	8,140

Paint

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what the *(a)* brand and *(b)* chemical composition is of the wall primers and paints (i) usually used for routine maintenance and (ii) being used in the course of the major summer works being undertaken in the House; and what their cost is per litre. [151894]

Nick Harvey: Dulux trade paint is used during the routine maintenance of the Palace. With regards to summer works projects we do not use a standard specification, just individual specifications on each project depending on requirements. The following is a breakdown of the main paints used by maintenance.

Dulux trade high gloss price: £5.87 per litre

				Composition
EC number	*CAS number*	*Hazardous ingredients*	*Percentage*	*Classification*
265-150-3	64742-48-9	Naphtha (petroleum), Hydrated Heavy	25-50	Xn R10-65-66
265-150-3	64742-48-9	Naphtha (petroleum), Hydrated Heavy	1.0-25	Xn R65-66
202-496-6	96-29-7	Ethyl Methyl Ketoxime	<1.0	Xn R21-40-41-43 Carc. Cat 3
270-066-5	68409-81-4	Cobalt Carobxylate	<1.0	R22-38-73-51/53

Dulux trade vinyl silk price: £4.11 per litre

				Composition
EC number	*CAS number*	*Hazardous ingredients*	*Percentage*	*Classification*
202-859-9	100-51-6	Benzyl Alcohol	1.0-2.85	Xn R20/22
—	—	Fatty Alcohol, Ethoxylated	<1.0	N, Xn R22-51/53

Dulux trade vinyl matt price: £3.35 per litre (white) £3.85 per litre (magnolia)

EC number	CAS number	Hazardous ingredients	Percentage	Composition Classification
All except light base				
265-150-3	64742-48-9	Naphtha (petroleum), Hydrotreated Heavy	1.0-2.5	Xn R10-65-66
Light base				
		Fatty Alcohol, Ethoxylated	<1.0	N, Zn R22-51/53

Dulux trade quick drying wood primer undercoat price: £9.89 per litre

EC number	CAS number	Hazardous ingredients	Percentage	Composition Classification
238-877-9	14807-96-6	Talc, Magnesium Silicate	2.5-10	—
208-915-9	546-93-0	Magnesium carbonate	2.5-10	—
2002-859-9	100-51-6	Benzyl Alcohol	1.0-2.5	Xn R20/22

Waste Disposal: Electronic Equipment

Dr. Tony Wright: To ask the hon. Member for North Devon, representing the House of Commons Commission how many electronic items were disposed of by the House in each year since 2001; how many were in working order when they were disposed of; and how many were *(a)* recycled and *(b)* donated to charitable organisations. [151998]

Nick Harvey: Information is held on the disposal of *(a)* electronic desktop equipment and *(b)* telephones, including mobile telephones.

Members' IT equipment was provided centrally for the first time in 2001 and became due for disposal only from mid-2005. A total of 4,053 items of desktop equipment used by Members and staff of the House of Commons were disposed of between May 2005 and December 2006 as part of the periodic refresh programme. A further 812 items were disposed of between January and June 2007.

The disposal of all these items was managed by a third-party contractor, responsible for secure data removal and onward recycling or sale as appropriate. The House received the residual value of sales, after the deduction of costs. Information from the supplier is presented to the House in order to meet its asset management responsibilities, but this does not provide detail on whether individual items were still in working order. The contractor does not make charitable donations.

Telephone handsets are re-used within the House if possible and otherwise assigned for safe disposal. Since June 2004 redundant mobile telephones have been sent for recycling and the proceeds are donated to charity. Detailed records have been kept since May 2006 and these show that 221 items have been sent for recycling since that date.

INNOVATION, UNIVERSITIES AND SKILLS

Employment: Training

Mr. Touhig: To ask the Secretary of State for Innovation, Universities and Skills (1) what incentives are in place to encourage employers to spend money on on-the-job training; [151849]

(2) what steps the Government are taking to improve on-the-job training. [151850]

Mr. Lammy: Employers invest very substantial time and resources in the skills of their employees. In 2005 employers reported that they spent around £33 billion on training (including the wage costs of trainees). However, Lord Leitch's review of skills last year set out the major challenge ahead if the UK is truly to be a world leader in skills by 2020. The Government have recently published 'World Class Skills', setting out how we will implement the Leitch review in England. This says that achieving the change in culture that the Leitch ambitions demands, will require a major new investment of time, effort and money by employers and individuals. But it also says that Government have a responsibility to support them, and 'World Class Skills' sets out how we will meet that responsibility.

Government have a range of support in place designed to motivate employers to invest in the skills of their employees. This includes Train to Gain, Apprenticeships and Foundation Degrees. Train to Gain is a major new service that will raise skills levels and the quality of training across England.

Train to Gain offers a holistic service to employers. Independent and impartial skills brokers work with the employers to identify how skills might help them meet their business goals, including increased productivity. The Skills Brokers help the employer identify possible sources of public funding available, as well set out the employer investment, in both cash and in paid time off for employees to study for the relevant qualification. Training when appropriate is often held on the employers premises.

In its first year of operation it has already engaged more than 40,000 employers with some 70 per cent. of those defined as hard to reach (i.e. not recognised as an Investor in People and no recorded investment in training).

From 2008-09, employers will be able to access matched funding for level 3 programmes as part of the package they put together with skills brokers, and we will continue to develop the higher level skills offer in the light of the current Higher Level Skills Pathfinders. We will also support discrete Skills for Life programmes as well as those embedded within level 2 programmes for those who do not already have a level 2 qualification.

Industrial Training

Mr. Touhig: To ask the Secretary of State for Innovation, Universities and Skills what measures are in place to identify skills shortages and train workers to address any shortages. [151851]

Mr. Lammy: Sector Skills Councils are on target to complete Sector Skills Agreements by March 2008 in England. These agreements identify the priority skill needs of industry sectors and how training provision can become more responsive to employer and learner needs.

There are a range of measures to support individuals to improve their skills including Apprenticeships, Train to Gain, National Skills Academies, Foundation Degrees and Union Learning. In addition, there are targeted programmes to address skill shortages. For example the Women and Work programme helps women enter occupations where they are under-represented and where specific skills shortages exist.

Science: Recruitment

Dr. Gibson: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* recruitment procedures and *(b)* arrangements to choose members of the selection boards are in place for the appointment of (i) the Director General of Research Councils and (ii) the Chief Scientific Adviser. [150219]

Ian Pearson: Civil service recruitment is managed by individual Departments in accordance with the rules and procedures laid down by the Office of the Civil Service Commissioners. This is to ensure that all recruitment is dealt with in a fair and open manner. Recruitment processes for senior appointments are clearly set out by the Commissioners and these processes are followed at all times.

Selection boards for senior positions are chaired by a Civil Service Commissioner, and for the most senior posts such as the Government Chief Scientific Adviser the panel is always chaired by the First Civil Service Commissioner. The rest of the panel will comprise the relevant Permanent Secretary, an external representative such as someone from business or academia and usually a senior representative from another Government Department.

Skilled Workers: Foreigners

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills which 10 employment sectors employ the largest number of foreign skilled labourers in the UK; and from which 10 countries the greatest numbers of such workers come to the UK. [148205]

Bill Rammell: The following tables show estimates from the Annual Population Survey (APS), 2006, for the United Kingdom. The data relate to foreign workers employed at the time of the survey who arrived in the UK since the start of 2003, who hold some kind of qualification, and who were not full-time students at the time of the survey.

Employment by nationality

Country	*Number employed from foreign countries who have arrived in the UK since 2003 with some qualifications, excluding full-time students**
Poland	109,000
India	58,000
Former USSR etc.	30,000
South Africa	30,000
Former Czechoslovakia	23,000
USA	20,000
Australia	20,000
France	18,000
Philippines	13,000
Germany	12,000
Top 10 total	333,000
All other countries	182,000
Grand total	515,000

Employment by sector

Sector	*Number employed from foreign countries who have arrived in the UK since 2003 with some qualifications, excluding full time students**
Manufacturing	81,000
Real estate, renting and business activities	76,000
Health and social work	76,000
Hotels and restaurants	56,000
Wholesale, retail and motor trade	55,000
Transport, storage and communication	35,000
Construction	32,000
Education	26,000
Financial intermediation	25,000
Other community, social and personal	22,000
Top 10 total	484,000
All other sectors (inc. not identified)	31,000
Grand total	515,000

Notes:
The number of foreign workers presented here is likely to be understated, because the APS:
1. Excludes those who have not been a resident in the UK for 6 months
2. Excludes people in most other types of communal establishments (e.g. hotels, boarding houses, hostels, mobile home sites, etc.)
3. Is grossed to population estimates that only include migrants staying for 12 months or more
4. Is only grossed to population estimates consistent with those published in spring 2003, which are significantly lower than the latest population estimates.

Source:
Annual Population Survey, 2006

Unemployment: Poole

Mr. Syms: To ask the Secretary of State for Innovation, Universities and Skills how many 16 to 24 year olds in Poole are not in employment, education or training. [151576]

Beverley Hughes: I have been asked to reply.

We estimate from data provided by the Connexions Service that 174 16 to 18-year-olds (i.e. young people aged 16, 17 or 18) were not in education, employment or training (NEET) in the Poole local authority area at

the end of June 2007. Equivalent information is not available for 19 to 24-year-olds.

These NEET measures are those used for setting and monitoring Local Authority NEET targets. The definition differs from that used to measure the national departmental PSA NEET target. The Connexions NEET measure does not cover the entire population, for example it excludes those on gap years and those in custody. The PSA measure is for academic rather than calendar age 16-18.

Unemployment: York

Hugh Bayley: To ask the Secretary of State for Innovation, Universities and Skills what percentage of 16 to 19 year olds in York were in education, training or work in 2005-06. [151626]

Beverley Hughes: I have been asked to reply.

We estimate from data provided by the Connexions Service that 91 per cent. of 16 to 18-year-olds (i.e. those aged 16, 17 or 18) were in education, employment or training (EET) in the City of York local authority area in 2005-06.

CULTURE, MEDIA AND SPORT

Arts: North East Region

Ms Dari Taylor: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the Arts Council England North East's work in contributing to the renaissance of the North East region since 1997. [149966]

Margaret Hodge: Arts Council England North East has made a very significant contribution to the renaissance of the region since 1997. Iconic projects in which they have been involved include the Sage Gateshead, the Baltic Centre for Contemporary Art and the Angel of the North. Arts Council England North East currently provides regular funding to over 80 organisations in the region including Dance City, a national dance agency in Newcastle upon Tyne and Arc, a community arts and education centre in the Tees Valley. Arts Council England North East also supports events such as Stockton International Riverside Festival.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Culture, Media and Sport what legislative provisions introduced by his Department's predecessors since 1997 have been repealed. [149591]

Margaret Hodge: My Department has been responsible for the introduction of 15 Acts since 1997 all of which remain in force.

Digital Broadcasting

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 27 March 2007, *Official Report*, column 1428W, on digital broadcasting, whether the data released in accordance with the Digital Switchover (Disclosure of Information) Act 2007 will be available before the Whitehaven and Copeland switchover begins. [148979]

James Purnell *[holding answer 11 July 2007]:* We expect the information covered by the Digital Switchover (Disclosure of Information) Act 2007 about people who may be eligible for assistance from the Help Scheme in Whitehaven and Copeland will be released by DWP later this week.

Digital Switchover Help Scheme

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what *(a)* equipment and *(b)* upgrades people are entitled to under the programme of assistance in relation to digital switchover. [149754]

James Purnell: In most cases, people eligible for the Digital Switchover Help Scheme will be entitled to receive a digital set-top box which meets the Scheme's Core Receiver Requirements. Where digital terrestrial signals are not available, they will be provided with the most cost-effective platform available in their area.

They can also choose other types of digital terrestrial television equipment, such as an integrated digital TV or a personal video recorder (PVR), for an additional payment. Similarly, they can choose an alternative platform such as satellite, cable or TV via a telephone line, in which case the scheme will make a contribution towards their costs.

Museums and Galleries: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Culture, Media and Sport how much the national museums in *(a)* Yorkshire and the Humber and *(b)* City of York received in Government grants in each year since 1997. [152185]

Margaret Hodge: Grant in aid for the national museums which fall within *(a)* Yorkshire and Humber and *(b)* the City of York is as follows.

£000

Museum	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
National Coal Mining Museum of England[1]	n/a	n/a	n/a	1,152	1,332	2,073	2,408	2,445	2,539[2]	2,528	2,659
National Media Museum[3,4]	2,977	2,969	3,907	3,723	3,683	4,180	4,523	4,187	4,214	4,979	4,661
National Railway Museum[3]	9,126	3,647	3,758	3,932	4,708	5,664	6,759	6,967	6,598	7,753	7,605

£000

Museum	1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
Royal Armouries Leeds[5]	5,223	3,723	4,807	5,227	5,945	6,157	6,286	6,887	7,276	7,654	8,312
Total	11,515	10,036	11,599	14,000	15,568	17,967	19,150	20,179	20,479	22,057	23,863

[1] The Government started providing grant funding to the National Coal Mining Museum England through the National Museum of Science and Industry in 2000-01.
[2] This figure differs from the one given in the answer of 20 October 2004, *Official Report*, column 732W, as it includes an additional £113,000 in capital funding.
[3] Formerly the National Museum of Photography, Film and Television.
[4] The Government provide grant in aid to the National Museum of Science and Industry (NMSI) of which the National Media Museum and the National Railway Museum are branch museums. Funding to its branch museums is allocated by the NMSI. The figures shown here differ from those given in the answer of 20 October 2004, *Official Report*, column 732W, as they include capital allocations and, from 2002-03 to 2006-07, also contain outturn figures for resource grant in aid as opposed to the estimates used in the previous answer.
[5] This is the total allocation for the Royal Armouries, which includes its Leeds, Fort Nelson and the Tower of London branches. Royal Armouries in Leeds is the headquarters.

Hugh Bayley: To ask the Secretary of State for Culture, Media and Sport how many people visited each of the national museums in Yorkshire and the Humber in each year since 1997. [152200]

Margaret Hodge: Visit numbers for the national museums which fall within the Yorkshire and Humber region are as follows. Table 1 shows figures from 1997-98 to 2001-02. Table 2 covers 2002-03 to 2006-07.

Table 1

Museum	1997-98	1998-99	1999-2000	2000-01	2001-02
National Coal Mining Museum for England[1]	n/a	n/a	n/a	65,802	60,032
National Media Museum[2]	298,901	83,613	962,899	969,822	823,309
National Railway Museum	420,079	434,566	467,880	485,785	587,862
Royal Armouries Leeds	349,000	296,000	173,500	185,710	280,867
Total	1,067,980	814,179	1,604,279	1,707,119	1,752,070

Table 2

Museum	2002-03	2003-04	2004-05	2005-06	2006-07
National Coal Mining Museum for England	107,282	121,822	116,553	119,627	128,960
National Media Museum	768,161	723,273	658,991	615,431	677,029
National Railway Museum	767,299	740,217	885,406	744,472	903,188
Royal Armouries Leeds	302,527	277,105	301,809	244,469	225,417
Total	1,945,269	1,862,417	1,962,759	1,723,999	1,934,594

[1] Visit figures for National Coal Mining Museum England for years prior to 2000-01 are not available.
[2] The National Media Museum was partially closed in 1997-98 and 1998-99 for refurbishment.

National Lottery: Play

Mr. Andy Reed: To ask the Secretary of State for Culture, Media and Sport what will happen to any unallocated monies from the Big Lottery Fund funding for play projects when the September deadline for applications passes. [152089]

Mr. Sutcliffe: In March 2007, The Big Lottery Fund wrote to the Chief Executives of all local authorities asking them to inform them if they were not planning to take up their allocation for the play programme. However, none of the local authorities have informed the Big Lottery Fund of not taking up their allocation.

After the September 2007 application window, the Big Lottery Fund will ascertain any underspend and a decision on how to allocate this will be taken by the Fund's Board in due course.

Mr. Andy Reed: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effectiveness of the rules governing the application process for grants from the Big Lottery Fund for play projects. [152090]

Mr. Sutcliffe: No assessment has been made by DCMS on the effectiveness of the rules governing the application process for the play initiative. This is an internal operational matter for the Big Lottery Fund. The application process for this programme is consistent with the Fund's practices and procedures.

The Big Lottery Fund have funded Play England, an England-wide support and development infrastructure, to provide support to local authorities to develop appropriate play strategies. In addition, the Big Lottery Fund has carried out regional workshops to help local authorities with the application process.

Mr. Andy Reed: To ask the Secretary of State for Culture, Media and Sport what proportion of the money available under the Big Lottery Fund children's play initiative has been *(a)* committed and *(b)* spent. [152092]

Mr. Sutcliffe: The figures in the table reflect the proportion of money which has been committed and spent under Big Lottery Fund's children's play initiative.

£

Programme name	Current award value (committed)	Total paid to date (spent)
Play infrastructure	14,663,933	4,359,562
Playful ideas	4,884,167	310,616
Children's play	46,209,437	708,413
Total	65,757,537	5,378,591

The total money available for the Children's Play initiative is £155 million. 42 per cent. of it has been committed and 3.5 per cent. has been spent.

Planning: Broadcasting Reception

Mr. Bone: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the Secretary of State for Communities and Local Government on the account taken in planning decisions of the effect of proposed developments on existing television signals. [151423]

James Purnell: I have regular discussions with ministerial colleagues on a range of issues.

Management of the spectrum, including matters of reception and interference, is for Ofcom. Ofcom recommends that planning authorities take potential disruption to TV reception into account when considering planning applications for large structures, but has no formal role in the planning process.

Royal Opera House: Directors

Lynne Jones: To ask the Secretary of State for Culture, Media and Sport in the appointment of the *(a)* chairman and *(b)* chief executive of the Royal Opera House what account was taken of the recommendation of the 2003 Higgs review of the effectiveness of non-executive directors that the role of chairman and chief executive should be separated; and if he will make a statement. [152177]

Margaret Hodge: The roles of chair and chief executive of the Royal Opera House are separate. My Department plays no part in either of these appointments.

Tourism: Poole

Mr. Syms: To ask the Secretary of State for Culture, Media and Sport what the *(a)* purpose, *(b)* date and *(c)* location was of each tourism event attended by Ministers in his Department in the constituency of Poole in the last 12 months; which Ministers attended each event; and if he will make a statement. [151583]

Margaret Hodge: We are not aware of any tourism events in Poole attended by Ministers from the Department for Culture, Media and Sport in the last 12 months.

PRIME MINISTER

10 Downing Street: Charity Receptions

Shona McIsaac: To ask the Prime Minister if he will list the official and charity receptions held at 10 Downing street in the financial year 2006-07. [153392]

The Prime Minister: I have today published a list of official and charity receptions held at 10 Downing street for the financial year 2006-07.

The total cost of official and charity receptions held by my predecessor at 10 Downing street and Chequers for the financial year 2006-07 was £87,000.

Official and charity receptions hosted by the then Prime Minister (right hon. Tony Blair) and Mrs. Blair 2006-07

Date	*Event*	*Number*	*Host*
28 March 2007	Charity—Westminster Cathedral Building Appeal	40	Mrs. Blair
27 March 2007	Charity—Royal Court Theatre	40	Mrs. Blair
20 March 2007	Charity—Wiener Library	40	Mrs. Blair

Ministerial Gifts

Mr. Dismore: To ask the Prime Minister if he will provide a list of ministerial gifts in the financial year 2006-07. [153391]

The Prime Minister: I am today publishing lists of gifts received and given by Ministers valued at more than £140. The list of gifts received by Ministers covers the period 1 April 2006 to 31 March 2007. The list of gifts given by Ministers, which is being published for the first time, covers the period 1 June 2001 to 31 March 2007. Copies of the list have been placed in the Libraries of the House.

Ministerial Travel

Mr. Mike Hall: To ask the Prime Minister if he will list the overseas travel by Cabinet Ministers in the financial year 2006-07 [153390]

The Prime Minister: I am today publishing a list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during the period 1 April 2006 to 31 March 2007 which has been placed in the Libraries of the House. The list provides details of the date, destination and purpose of all such visits and the cost of Ministers' travel and accommodation where appropriate.

Total expenditure on ministerial overseas visits for the last three financial years is set out in the following table:

	Expenditure (£ million)
2004-05	5.1
2005-06	6.1
2006-07	6.95

UK Visits

Martin Linton: To ask the Prime Minister if he will list the UK visits made by his predecessor in the financial years 2006-07. [153393]

The Prime Minister: I have today published a list of UK visits made by my predecessor during the financial year 2006-07.

FOREIGN AND COMMONWEALTH OFFICE

Boris Berezovsky

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received from posts in the Russian Federation on threats to the life and security of Mr. Boris Berezovsky while resident in the UK. [152632]

Mr. Jim Murphy: It is Government practice not to comment on cases of individuals' safety, nor indeed on intelligence matters.

Burma: Arms Trade

Roger Berry: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the reports that the Indian Government has confirmed that negotiations are ongoing to supply military advance light helicopters to Burma/Myanmar and that such helicopters would contain significant components from EU countries, including the UK; and what steps the Government are taking to ensure that the EU arms embargo on Burma is enforced and UK components are not transferred from India to Burma. [152258]

(2) what discussions the Government have had with India on its proposed sale of military advanced light helicopters to Burma/Myanmar; and what steps the Government have taken to ensure that UK military equipment, including components, is not transferred to Myanmar as part of increasing defence co-operation between the two countries. [152260]

Meg Munn: The Indian Ministry of External Affairs has confirmed that they are not negotiating the sale of advanced light helicopters with the Burmese Government, as alleged in a report published by Amnesty International and Saferworld.

The Government consider all applications for the export of military equipment on a case by case basis against the Consolidated EU and National Arms Export Licensing Criteria. This includes an assessment of whether there is a risk that the goods in question will be diverted within the buyer country or re-exported under undesirable conditions. We would lobby India, or any other exporting country, in the event of any decision to re-export such goods to Burma.

Gaza: Christian Communities

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the status and safety of Christian communities in Gaza following the takeover of Gaza by Hamas; and if he will make a statement. [152305]

Mr. Jim Murphy: We remain concerned about the welfare, safety and security of all Gaza's residents, including its small Christian community, and our policies will continue to reflect this concern.

Middle East: Peace Negotiations

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of President Bush's proposal for an international conference on the Middle East peace process; what discussions he has with his US counterpart on the proposal; when he expects the conference to take place; which *(a)* states and *(b)* non-state parties he expects to be represented at the conference; and if he will make a statement. [152065]

Mr. Jim Murphy: I welcome any forward move on the Middle East peace process. Foreign and Commonwealth Office officials are in close contact with their US counterparts regarding the proposed conference. Details of the conference are still being discussed.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* role and *(b)* functions have been given to the quartet's special envoy Mr. Blair; and if he will make a statement. [152066]

Mr. Jim Murphy: On 27 June, the quartet (EU, US, UN and Russia) principals announced the right hon. Tony Blair's appointment as quartet representative. As set out in the quartet statement of 27 June, the former Prime Minister's mandate is to: mobilise international assistance to the Palestinians, working closely with donors and existing co-ordination bodies; help to identify, and secure appropriate international support in addressing, the institutional governance needs of the Palestinian state, focusing as a matter of urgency on the rule of law; develop plans to promote Palestinian economic development, including private-sector partnerships, building on previously agreed frameworks, especially concerning access and movement; and liaise with other countries as appropriate in support of the agreed quartet objectives.

A copy of the quartet statement will be placed in the Library of the House.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial and logistical resources the European Union is providing to the quartet's special envoy Mr. Blair; what *(a)* salary, *(b)* expenses provision and *(c)* support staff will be available to him; what share of the costs the United Kingdom is contributing; and if he will make a statement. [152067]

Mr. Jim Murphy: There has been no announcement as yet from the right hon. Tony Blair's team regarding the financial or logistical resources that will be provided to him, or Mr. Blair's salary or expenses provision. Four officials have been seconded to Mr. Blair from the Foreign and Commonwealth Office and the Department for International Development and these Government Departments will continue to pay their salaries. At present, the UK has not offered to cover any further costs.

Nuclear Non Proliferation Treaty

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what suggestions were put forward by *(a)* the US and *(b)* France at the 2007 Non-Proliferation Treaty (NPT) Preparatory Committee Meeting on the issue of withdrawal from the NPT; and if he will make a statement. [152304]

Mr. Jim Murphy: The United States and EU both tabled proposals to raise the cost for States Parties seeking to withdraw from the Nuclear Non-Proliferation Treaty (NPT) at the 2007 Preparatory Committee. France did not submit a national proposal, but assisted in drafting the EU paper.

The common elements of these proposals include referral of withdrawal notifications to the United Nations Security Council; steps to hold the withdrawing Party accountable for NPT violations prior to withdrawal; and continuing International Atomic Energy Agency safeguards for nuclear materials and equipment acquired or developed whilst an NPT signatory.

The full proposals are available at: http://www.un.org/NPT2010/documents.html. (NPT/CONF.2010/PC.1/WP.22-US proposal-and NPT/CONF.2010/PC.I/WP.25* - EU proposal).

Uganda: Politics and Government

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 4 July 2007, *Official Report*, column 1029W, on Uganda: politics and government, what recent assessment he has made of the *(a)* strength, *(b)* leadership and *(c)* political objectives of the Ugandan People's Redemption Army; how long it has been active; what reports he has received that it has attacked villages, towns and commercial or civilian infrastructures in Uganda; and if he will make a statement. [152128]

Meg Munn: There are contradictory reports about the People's Redemption Army (PRA) and its strength, leadership, activities and political objectives. The Government have not made a recent assessment of these varying reports. However we have seen no evidence that the PRA represents any significant threat to Uganda's stability.

We continue to press the Government of Uganda that there should be a free, fair and transparent legal process for those alleged to be members of the PRA currently in custody and/or on trial and that this should be completed as quickly as possible.

INTERNATIONAL DEVELOPMENT

Democratic Republic of Congo: Education

Judy Mallaber: To ask the Secretary of State for International Development what proportion of the £50 million funding for education in the Democratic Republic of Congo (DRC) announced on 5 April will go to *(a)* World Bank, *(b)* the DRC Government and *(c)* local non-governmental organisations and church bodies; and what the estimated time frame is for the release of the funding. [148755]

Mr. Thomas: We will provide funding for primary education in the Democratic Republic of Congo (DRC) over the next five years by co-financing and supporting the fee reduction components of the World Bank's Education Sector Support Project. Our support will consist of two phases. The first preparatory phase has been allocated £2.5 million, and implementation is now under way, while the second phase is expected to comprise £50 million. We hope to commence phase two funding in 2008.

The exact mechanisms for channelling phase two funding are still to be finalised. We will not provide any funds directly to the Government of DRC in this phase, although some funds may be provided indirectly via the World Bank.

Some funding is likely to go to local non-governmental organisations (NGOs), and possibly church bodies, to establish an accountability mechanism for civil society monitoring of primary education services, although the mechanism for this funding is not yet agreed.

Judy Mallaber: To ask the Secretary of State for International Development what assessment he has made of when he expects conditions in the Democratic Republic of Congo to permit the release of the £50 million funding for education announced on 5 April. [148756]

Mr. Thomas: DFID plans to co-finance the fee reduction component of the World Bank's Education Sector Support Project. Our support consists of two phases over five years. £2.5 million was recently approved for the first phase of activities, and implementation is now under way. The first phase includes a comprehensive census of teachers and mapping of schools, support for reforms to the payment systems for teachers and schools and establishing an accountability mechanism to ensure external civil society monitoring of funding to primary schools.

Once these are satisfactorily completed, we will be able to implement phase two, which will fund reduction of some of the fees parents must pay and which exclude poor children from school. While we hope to commence funding in 2008, this depends on the pace of reforms and it is not possible to give a definite timeline at this stage.

Developing Countries: Tourism

Mr. Jim Cunningham: To ask the Secretary of State for International Development what assessment he has made of ecotourism's potential to boost the economies of developing countries. [148779]

Mr. Thomas *[holding answer of 12 July 2007]:* DFID has funded work, including aspects of ecotourism, by the Pro-Poor Tourism (PPT) Partnership which focuses on tourism's potential to help reduce poverty.

The work we funded showed that pro-poor tourism can reduce poverty when tour operators forge partnerships with local business and communities. However, ecotourism has not yet reached its potential for contributing to poverty reduction. Ecotourism destinations need to be developed in the south, and the capacity of southern tourism operators needs to be strengthened. Ecotourism can better contribute to poverty reduction by bringing tourism to local communities, as in experiential holidays, which include opportunities to interact with the community; it should also help protect the local environment which often attracts visitors in the first place.

Governance and Transparency Fund

Mr. Evans: To ask the Secretary of State for International Development (1) how many bids have been received for the Governance and Transparency Fund; [148164]

(2) how many UK based organisations have bid for funding from the Governance and Transparency Fund; [148166]

(3) how many EU based organisations bid for funding from the Governance and Transparency Fund, excluding the UK; [148173]

(4) how many non-EU organisations bid for money from the Governance and Transparency Fund. [148172]

Mr. Malik: There is a two-stage application process to the Governance and Transparency Fund (GTF). The first stage is the submission of Concept Notes by interested organisations. These are vetted for compliance with GTF eligibility criteria. Organisations submitting eligible Concept Notes will then be invited to submit full proposals.

We have received 423 such Concept Notes and these are currently being assessed.

Of the 423 Concept Notes received, 132 state that the lead applicant is an organisation based in the UK, 32 that the lead applicant is based in the EU but not in the UK, and 259 state that the lead applicant is based outside of the EU.

Mr. Evans: To ask the Secretary of State for International Development (1) what the total value is of the combined bids for the Governance and Transparency Fund; [148165]

(2) what the total monetary value is of bids for the Governance and Transparency Fund made by UK-based organisations; [148170]

(3) what the total monetary value is of bids for the Governance and Transparency Fund made by EU-based organisations excluding the UK; [148167]

(4) what the total monetary value is of bids for the Governance and Transparency Fund made by non-EU organisations. [148169]

Mr. Malik: At this Concept Note stage we have only asked for a brief outline of proposed activities and an estimated budget, and are assessing applicants against eligibility. Of the Concept Notes received, none are at full proposal stage. We expect to reject around one in four Concept Notes on eligibility grounds.

The 423 Concept Notes submitted to the Governance and Transparency Fund (GTF) outline potential projects with an estimated total value of £1.144 billion.

The 132 Concept Notes submitted by UK-based organisations outline potential projects with an estimated total value of £399 million.

The 32 Concept Notes submitted by EU-based organisations (excluding the UK) outline potential projects with an estimated total value of £100 million.

The 259 Concept Notes submitted by non-EU organisations outline potential projects with an estimated total value of £645 million.

HIV infection: Drugs

James Duddridge: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the use of anti-retroviral drugs in programmes *(a)* run and *(b)* supported by his Department for the treatment of HIV/AIDS in (i) Rwanda and (ii) other developing countries. [149178]

Mr. Malik *[holding answer 23 July 2007]:* In Rwanda, DFID provides support worth £4,250,000 through non-governmental organisations towards anti-retroviral therapy and community based care to 2,500 HIV positive women genocide survivors and their families. The number of people on treatment in Rwanda has risen from 4,000 in 2003 to 37,200 in March 2007 with national incidence of the spread of HIV/AIDS stabilising at around 3 per cent.

The UK Government also fund and support the provision of anti-retroviral services through contributions to multilateral organisations. DFID has pledged £359 million to the Global Fund to fight AIDS, Tuberculosis and Malaria over the 2002-08 period. Evidence shows that anti-retroviral treatments are effective, with an estimated 250,000 to 350,000 premature deaths averted in the developing world in 2005 alone. Overall, in low- and middle-income countries the trends are upwards, from 400,000 in 2003 to more than 2 million people on treatment today.

HIV Infection: Medical Treatments

Mark Lazarowicz: To ask the Secretary of State for International Development pursuant to the answer of 14 June 2007, *Official Report*, column 1248W, on HIV infection: medical treatments, what his policy is on the public ownership of patents resulting from publicly-funded research into anti-retroviral medication for use in developing countries. [152129]

Mr. Malik: It is the UK Government's policy that patents are owned by the body carrying out the research. It is DFID's policy that any new anti-retroviral treatments developed by publicly-funded research should be made available at the lowest possible price (eg cost price) for public markets in developing countries. The organisations involved in developing the new treatments have negotiated intellectual property agreements individually with their various private sector partners. The organisations developing the new treatments also use cost per treatment as one of the criteria to determine which products to take forward in their portfolios.

Lesotho: Debts

Ian Lucas: To ask the Secretary of State for International Development what assessment he has made of the debt status of Lesotho. [149424]

Mr. Thomas: DFID has not made its own assessment as, like other agencies, it relies on the assessments made by the IMF and World Bank, which administer the HIPC initiative.

In June 2005, the International Monetary Fund conducted a Debt Sustainability Analysis and concluded that Lesotho's debt levels were sustainable. This means that Lesotho does not classify as a heavily indebted poor country (HIPC). However, the UK is committed to ensuring debt relief for all IDA-only low income countries that can use the resources effectively for poverty reduction. Lesotho would qualify for DFID's Multilateral Debt Relief Initiative once its public expenditure management systems are effective enough to ensure funds can be spent on the intended purposes of poverty reduction.

Pakistan: Overseas Aid

Mr. Crabb: To ask the Secretary of State for International Development if he will seek discussions with the Pakistani authorities on the level of UK aid to Pakistan following statements by Pakistani Ministers on the Queen's Birthday Honours. [152509]

Mr. Malik: The UK has made a long-term commitment to reducing poverty in Pakistan through a 10-Year Development Partnership Arrangement (DPA) signed in November 2006. The DPA is based on a shared commitment to pursuing poverty reduction objectives, respecting human rights obligations entered into, and improving financial management and accountability in Pakistan.

The DPA is the framework against which we provide assistance to Pakistan, and against which we hold all discussions with Pakistani Ministers about our aid programme.

Sudan: Asylum

Lynne Featherstone: To ask the Secretary of State for International Development what estimates his Department has made of the numbers of Darfuri refugees who have left Sudan for each neighbouring country; and if he will make a statement. [149401]

Mr. Thomas: The UNHCR is the agency responsible for registering refugees. DFID, like all other agencies, relies on UNHCR estimates for refugee numbers and locations. The latest figures they have provided to DFID indicate that there are 235,000 Darfuri refugees in Chad and some 10,000 refugees from Chad, Sudan and the Democratic Republic of Congo in the Central African Republic. There are not substantial numbers of registered refugees from Darfur in other neighbouring countries.

Tanzania: Overseas Aid

Mr. Gale: To ask the Secretary of State for International Development what information he has received on the shortfall in the Bank of Tanzania's external payment arrears account for 2005-06; how much Tanzania received in aid from *(a)* the World Bank and *(b)* the IMF in each of the last five years; how much Tanzania has received in unearmarked contributions from the UK; and if he will make a statement. [150176]

Mr. Thomas *[holding answer 19 July 2007]*: The International Monetary Fund (IMF) has been notified of potential irregularities with the Bank of Tanzania external payment arrears account for 2005-06. As a result the Government of Tanzania (GoT) agreed to undertake an audit of this account. We are in close contact with the IMF and GoT on this matter.

Aid flows from IMF, World Bank and DFID budget support (unearmarked)

	IMF (US$ million)	*WB (US$ million)*	*DFID (£ million)*
2002-03	27.38	250	45
2003-04	8.6	450	60
2004-05	8.6	356	65
2005-06	4.3 + [1]340	751	85
2006-07	4.3	550	90
Total	393.18	2,357	345

[1] One off debt relief

IMF statistics (SDR conversion 0.65$:1SDR) and WB CAS disbursement statistics

In July 2007, DFID disbursed a further £105 million budget support for 2007-08.

LEADER OF THE HOUSE

Departments: Air Conditioning

Chris Huhne: To ask the Leader of the House how much was spent by her Office on the hire of mobile air conditioning units in each of the last five years. [151987]

Helen Goodman: Following the recent machinery of Government changes which saw the Office of the Leader of the House of Commons transfer from the Privy Council Office to the Cabinet Office, we are currently unable to provide a substantive answer to this question.

Departments: Recruitment

Mrs. May: To ask the Leader of the House how much her Office paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151662]

Helen Goodman: The information is set out in the following table with regard to temporary staff. Data for financial years 1997-98 to 2000-01 is not held centrally and could be provided only at disproportionate cost.

Financial year	Cost (£)
2001-02	32,037.49
2002-03	0
2003-04	9,717.84
2004-05	2,665.51
2005-06	339.54
2006-07 (year to date)	0

The Office has not used recruitment agencies for permanent staff.

Draft Legislative Programme

Mr. Dai Davies: To ask the Leader of the House pursuant to the Prime Minister's statement of 11 July 2007, *Official Report*, columns 1449-51, on the draft legislative programme, which of the planned Bills will apply *(a)* fully and *(b)* in part in (i) Wales, (ii) Scotland and (iii) Northern Ireland; and, in such cases, if she will set out the form in which the legislation will apply in each respective area of the United Kingdom. [150512]

Helen Goodman: In "The Governance of Britain—The Government's Draft Legislative Programme" (CM 7175) the Government set out how the proposed Bills will apply to the Devolved Administrations of Wales, Scotland and Northern Ireland on the basis of current plans. In many cases discussions will continue to take place with the Devolved Administrations and the Government are mindful to ensure that it honours the commitments to consult and communicate with them on such matters, made in the "Memorandum of Understanding with the Devolved Administrations".

Table summarising the details published in the Draft Legislative Programme:

Bill	*The Bill will apply to*
Children in Care Bill	England and Wales.
Child Maintenance and Other Payments Bill	England and Wales; The permission of the Northern Ireland Assembly is required for a provision in Schedule 6 of the Bill. This provides for the exchange of information between the UK and Northern Ireland statutory child maintenance services.
Climate Change Bill	United Kingdom.
Constitutional Reform Bill	United Kingdom.
Coroners Bill	England and Wales; apart from amendments to the Treasure Act 1996 which will extend to Northern Ireland.
Counter Terrorism Bill	United Kingdom.
Criminal Justice and Immigration Bill	England and Wales; certain reserved and expected provisions also extend to Scotland and Northern Ireland.
Crossrail Bill	England.
Education and Skills Bill	England and Wales.
Employment Simplification Bill	Great Britain.
Energy Bill	A mixture of devolved and reserved matters so the UK Government will work with the Devolved Administrations.

Bill	*The Bill will apply to*
European Communities (Finance) Bill	United Kingdom.
Health and Social Care Bill	United Kingdom; this is a portmanteau bill so the extent of the measures will be different for each policy area.
Housing and Regeneration Bill	England and Wales.
Human Tissue and Embryo Bill	United Kingdom for assisted reproduction and embryo research. England, Wales and Northern Ireland for other human tissue and cell research.
Local Transport Bill	England and Wales; certain reserved provisions also extend to Scotland.
National Insurance Contributions Bill	United Kingdom.
Pensions Bill	Great Britain.
Planning Reform Bill	A mixture of UK, England and Wales and England only.
Planning Gain Supplement Bill	United Kingdom; PGS revenues generated in the Devolved Administrations would be returned to the country in which they were generated. The use of PGS funds in the Devolved Administrations would be determined by the relevant administration.
Regulatory Enforcement and Sanctions Bill	LBRO provisions would apply to England and Wales only; The Macrory Provisions extend to England, Wales, Scotland and Northern Ireland but are of restricted application in respect of devolved matters.
Sale of Student Loans Bill	England.
Unclaimed Assets Bill	United Kingdom--there are a mixture of reserved and devolved functions.

Mr. Allen: To ask the Leader of the House if she will make it her usual policy to subject Bills to pre-legislative scrutiny. [152865]

Helen Goodman: The Government endeavour to subject Bills to pre-legislative scrutiny, where timing and other constraints allow. As indicated in the Government's recently published Draft Legislative Programme (CM7175), 58 draft Bills have been published since 1997.

The publication of the Draft Legislative Programme is the first time public consultation has been sought before the Queen's Speech and is a further element in the exposure of legislative plans to scrutiny ahead of introduction. The Government believe this consultation will lead to better engagement between MPs, peers and the people.

UK Youth Parliament

Mr. Drew: To ask the Leader of the House whether a Minister intends to make a visit to the forthcoming session of the UK Youth Parliament; and if she will make a statement on progress on the proposal announced by the Prime Minister for a future session to be held in the House. [150943]

Helen Goodman: I understand that the Under-Secretary of State for Justice, my hon. Friend the Member for Lewisham, East (Bridget Prentice) addressed the session of the United Kingdom Youth Parliament in Glasgow which has just been completed.

Following the statement by the Prime Minister on 3 July, my right hon. Friend the Leader of the House will be raising with the Modernisation Select Committee the question of whether the Youth Parliament could be invited to the Chamber of this House once a year on a non-sitting day.

WORK AND PENSIONS

Jobcentre Plus: Argyll and Bute

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions how many full-time equivalent staff there were in post in each Jobcentre Plus office in Argyll and Bute at the end of each of the last five years. [152467]

Caroline Flint *[holding answer 24 July 2007]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 July 2007:

The Secretary of State has asked me to reply to your question asking how many full-time equivalent staff there were in post in each Jobcentre Plus office in Argyle and Bute at the end of the each of the last five years. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The following table shows the figures for each of the last four operational years in each of the offices in the Argyle and Bute area and an overall total. Unfortunately, owing to changes in the operational management of the offices and in the recording methodologies I am unable to provide the information for the year ended 2003.

Full-time equivalent staff numbers in Argyle and Bute offices by year

	As at 31 March each year			
Office	*2004*	*2005*	*2006*	*2007*
Campbeltown	24.3	20.0	14.6	11.0
Dunoon	15.4	13.3	12.5	9.5
Helensburgh	14.8	10.8	10.8	9.8
Oban	30.7	26.6	18.4	17.9
Rothesay	12.4	9.4	9.4	7.4
Total	97.6	80.1	65.7	55.6

Jobcentre Plus: Scotland

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions what the headcount target figure is for the number of employees in Jobcentre Plus in Scotland in 2007-08; and how many staff are in post, broken down by *(a)* district and *(b)* office. [149622]

Caroline Flint *[holding answer 16 July 2007]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking about the headcount target figure for the number of employees in Jobcentre Plus in Scotland in 2007-08; and how many staff are in post, broken down by district and office. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The planned level of staffing for Jobcentre Plus in Scotland at March 2008 is 7,652 full-time equivalents.

I attach two tables which show the staff in post and the full-time equivalent figures at the end of March 2007, for our Operational staff and our National Directorates, broken down by district and office. Copies of these tables have been placed in the Library.

I hope this is helpful.

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions what his target is for the number of full-time equivalent staff in each Jobcentre Plus office in Scotland at the end of 2007-08. [152052]

Caroline Flint *[holding answer 23 July 2007]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 July 2007:

The Secretary of State has asked me to reply to your question about the headcount target for the number of full-time equivalent (FTE) staff in each Jobcentre Plus office in Scotland at the end of 2007-08.This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I attach a table which shows, for Jobcentre Plus Operations, the planned FTE staff in each office in March 2008, and for national Directorates, the planned FTE staff in each District in March 2008. Copies of this table have been placed in the Library.

The difference between the target figure provided in response to your earlier question asking about the headcount figure for the number of Jobcentre Plus employees in Scotland in 2007-08 (7,652 FTE), and the total of the targets by site and district in the attached table (7,555 FTE), is because an additional allocation of FTE staff has been made for Scotland as a whole and has not yet been disaggregated to individual sites. This disaggregation will take place as part of a current revision to workforce plans.

I hope this is helpful.

Lung Diseases

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many people were diagnosed with pleural plaques in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [150557]

Ann Keen: I have been asked to reply.

Information on the number of people diagnosed with pleural plaques is not collected.

Pensioners: Disability Living Allowance

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions whether he plans to make arrangements to ensure that eligibility arrangements for *(a)* disability living allowance and *(b)* vehicle excise duty are amended in line with the pension eligibility change when pensionable age is raised to 67. [152274]

Mrs. McGuire: The age limit for claiming disability living allowance will be increased incrementally with effect from 6 April 2024 in line with the age increases to state pension age. The measure is being taken forward as part of the Pensions Bill currently passing through Parliament.

Vehicle excise duty exemption policy is a matter for my right hon. Friend, the Chancellor of the Exchequer.

Pensioners: Income

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average income of the *(a)* top and *(b)* bottom quartile of pensioners was in each year since 1997. [150058]

Mr. Mike O'Brien: The information that is shown in the following tables is based on sampling and estimates. Movement in data between single years may be due to sampling error but over a period trends are useful.

Average gross income of pensioner couples by position in the income distribution: 2005-06 prices

		£ per week
	Bottom quartile	Top quartile
1997-98	166	804
1998-99	168	839
1999-2000	174	833
2000-01	180	898
2001-02	187	949
2002-03	187	903
2003-04	199	987
2004-05	205	1,000
2005-06	208	997

Average gross income of single pensioners by position in the income distribution: 2005-06 prices

		£ per week
	Bottom quartile	Top quartile
1997-98	93	329
1998-99	95	356
1999-2000	100	365
2000-01	103	390
2001-02	107	369
2002-03	112	386
2003-04	113	396
2004-05	118	412
2005-06	117	429

Average gross income of all pensioner units by position in the income distribution: 2005-06 prices

		£ per week
	Bottom quartile	Top quartile
1997-98	106	571
1998-99	109	607
1999-2000	114	605
2000-01	118	657
2001-02	124	675
2002-03	128	664
2003-04	131	713

Average gross income of all pensioner units by position in the income distribution: 2005-06 prices

	£ per week	
	Bottom quartile	*Top quartile*
2004-05	136	733
2005-06	137	736

Notes:
1. Gross income is income from all sources received by the pensioner unit including income from social security benefits, earnings from employment, any private pension, and tax credits.
2. Gross income distribution is calculated separately for pensioner couples, single pensioners and all pensioner units.
3. Based on survey data and as such subject to a degree of sampling and non sampling error. Users should not read too much into movements in data between single years.
4. Figures are for Great Britain.
5. Figures have been rounded to the nearest £.
6. Pensioner units are either pensioner couples or single pensioners.
7. Pensioner couples are couples where one or more of the adults are state pension age or over.

Pensioners' Income Series 2005-06 (Revised)

Pensions Bill

Mr. Touhig: To ask the Secretary of State for Work and Pensions pursuant to the statement by the Minister for Pensions Reform on 17 July 2007, *Official Report*, column 194, on the Pensions Bill, how many members of the Abingdon Carpets pension scheme he expects to be affected by the commitment to match the extra funds that the Young Review identifies with the goal of moving towards 90 per cent. of expected core pension for all recipients. [151930]

Mr. Mike O'Brien: The information is not available. Abingdon Carpets is still in the process of winding up which is not expected to be completed until 31 December 2007. Until this time, and until data on all scheme members eligible for payment from the Financial Assistance Scheme (FAS) has been provided by the trustee, it will not be possible to assess how many will be eligible for assistance.

In the meantime the FAS Operational Unit (FASOU) is making initial payments at 60 per cent. of core expected pension to five members who have reached the age of 65.

Pensions Regulator

Mr. Waterson: To ask the Secretary of State for Work and Pensions in how many instances the Pensions Regulator has ordered employers to cease the accrual of further benefits by pension scheme members. [151385]

Mr. Mike O'Brien: The Regulator has not, as yet, found it necessary in respect of any recovery plan submitted to exercise its powers to modify the scheme in respect of future accrual of benefits.

Mr. Waterson: To ask the Secretary of State for Work and Pensions in how many instances the pensions regulator has offered clearance to those involved in corporate reconstructions; and if he will make a statement. [151386]

Mr. Mike O'Brien: There were 333 clearances offered as at the end of June 2007 in respect of corporate transactions or 'Type A' events.

The clearance system operated by the regulator has been very successful in helping to achieve beneficial outcomes for both schemes and members. The business community has also welcomed the risk based and proportionate approach that the regulator has adopted in this area. Recent high profile cases have demonstrated that the regulator has significant influence and is not afraid to use its powers where it is right to do so.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many trustees the Pensions Regulator has *(a)* removed and *(b)* replaced. [151387]

Mr. Mike O'Brien: The Regulator has not used its powers to remove or replace any trustees to date. It has however, caused the resignation of one trustee who was then subsequently prohibited by the Regulator's Determinations Panel.

During 2006-07 the Regulator made 46 appointments from its register of independent trustees and 506 other appointments were also made on application, to defined contribution schemes only.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many funding schedules the Pensions Regulator has imposed. [151388]

Mr. Mike O'Brien: The Regulator has not yet found it necessary to use its powers in relation to the new scheme funding regime. However, where it judges it necessary it will work with trustees and employers to ensure that any recovery plan submitted is both prudent and appropriate.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many scheme-specific funding plans agreed between the trustee and company the pensions regulator has approved. [151389]

Mr. Mike O'Brien: The regulator does not approve scheme specific plans. Plans submitted to the regulator are reviewed on a risk basis taking into account its statutory objectives and consideration of whether those plans are consistent with the principles in Part 3 of the Pensions Act 2004. Where the regulator is satisfied that trustees and employers have agreed a plan consistent with those principles it will notify the trustees or their designated advisers that it will not be seeking to exercise its statutory powers in respect of the plan.

As at 30 June 2007, there were 407 plans where trustees had been so notified.

Working Links

Mr. Weir: To ask the Secretary of State for Work and Pensions what guidance applies to engagement consultants employed by Working Links with regard to the selection of incentives offered to potential recruits under the scheme. [152346]

Caroline Flint *[holding answer 24 July 2007]:* The Department for Work and Pensions encourages providers, such as Working Links, to find innovative methods of engaging with unemployed people. The Department is not prescriptive about the types of innovation that may be used to engage with people recruited to the scheme.

Mr. Weir: To ask the Secretary of State for Work and Pensions how much has been spent on providing incentive vouchers for use by engagement consultants employed by Working Links to offer to potential recruits under the scheme *(a)* in Scotland and *(b)* throughout the UK since the commencement of the scheme. [152347]

Caroline Flint *[holding answer 24 July 2007]:* The information is not available as the Department for Work and Pensions does not provide separate funding for the provision of incentive vouchers that may be used by engagement consultants.

CHILDREN, SCHOOLS AND FAMILIES

Children: Adoption

Miss McIntosh: To ask the Secretary of State for Children, Schools and Families (1) how many children were adopted in *(a)* 1997 and *(b)* each of the last three years; [147715]

(2) what the average age was of children who were adopted in *(a)* 1997 and *(b)* each of the last three years. [147716]

Kevin Brennan: The information provided only relates to children who were looked after by local authority social services in England and not to all children who may have been adopted.

The number of looked after children who were adopted and the average age at adoption in the years ending 31 March 1997 and 2004 to 2006 are shown in the table as follows.

Children looked after who were adopted in the years ending 31 March 1997, 2004, 2005 and 2006[1,2]—England

	Year ending 31 March			
	1996-97	*2003-04*	*2004-05*	*2005-06*
Number of children looked after adopted	1,900	3,800	3,800	3,700
Average age at adoption (years:months)	5:5	4:5	4:2	4:1

[1] *Source:* SSDA903

[2] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 to the nearest 10 otherwise.

[3] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many people the Government estimate will have access to ContactPoint. [150733]

Kevin Brennan: I refer the hon. Gentleman to the answer I gave on 18 July 2007, *Official Report*, column 412W.

Children's Centres

Mr. Dai Davies: To ask the Secretary of State for Children, Schools and Families what additional resources he is providing to ensure the delivery by 2010 of the planned Sure Start children's centres; and what training programmes are in place to ensure each centre has access to sufficient trained staff to effectively run the centre. [152281]

Beverley Hughes: We have secured additional resources through the recent comprehensive spending review settlement to meet our manifesto commitment of 3,500 Sure Start Children's Centres by 2010. The Department will be advising all 150 local authorities in England of their children's centre revenue allocations for 2008-10 shortly.

Over the next few years we will train sufficient numbers of centre managers, through the National College for School Leadership, and early years professionals, through the Children's Workforce Development Council, to support the expansion of centres.

Our practice guidance encourages children's centres to work towards all staff being qualified to at least National Vocational Qualification level 2 and makes it clear that we expect all centre managers to undertake training specifically designed for their new role—the National Professional Qualification for Integrated Centre Leadership. Our Children's Workforce Strategy recommends the development of local workforce strategies as an integral part of local Children and Young People's Plans. These should set out local approaches to developing the workforce. We published in July statutory guidance on the local authority duty to secure the provision of training to the early years and childcare workforce.

National Council for Educational Excellence

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the *(a)* membership and *(b)* remit is of the new National Council for Educational Excellence; and if he will make a statement. [149865]

Jim Knight: The membership of the National Council for Educational Excellence (NCEE) is as follows:

National Council for Educational Excellence (NCEE)

Members	
Prime Minister	Chairs
Secretary of State for Children, Schools and Families	
Sir Michael Barber	Adviser to the Council
David Bell	Permanent Secretary, DCSF
Damon Buffini	Managing Partner, Permira
Julia Cleverdon	Head, Business in the Community
Ann Clynch	Principal, Loreto College, Manchester
Jo Davidson	Director of Children's Services, Gloucestershire
Bernadette Duffy	Head, Thomas Coram Centre, Camden
Jackie Fisher	Chief Executive and Principal, Newcastle College
Christine Gilbert	HM Chief Inspector, Ofsted
Edward Gould	Ex-Chairman, Independent Schools Council
Richard Lambert	Director General, CBI
Sir Terry Leahy	CEO, Tesco
Ed Mayo	Chief Executive, National Consumer Council
Felicity Martin	Head Teacher, Eggar's School, Alton

National Council for Educational Excellence (NCEE)

Members	
Stephen Munday	Principal, Comberton Village College
Howard Newby	Vice Chancellor, University of the West of England
Professor Alison Richard	Vice Chancellor, University of Cambridge
Sir John Rose	Chief Executive, Rolls-Royce
Sir Alan Steer	Head Teacher, Seven King's High School, Ilford
Professor Steve Smith	Vice Chancellor, Exeter University
Bob Wigley	Chairman (Europe, Middle East and Africa), Merrill Lynch

The Parliamentary Under-Secretary of State for Schools and Learners and I also attend Council meetings.

The Council has a remit to provide advice to the Prime Minister and Secretary of State for Children, Schools and Families about strategy and measures to achieve world-class education performance for all children and young people from birth to age 19.

The Council members will act as advocates and champions to transform expectations and aspirations for the education system, and to rally the teaching profession, businesses, the third sector, universities and colleges; schools and parents to raise standards in schools year on year.

The Council will be a standing body with priorities, terms of reference and membership to be reviewed by the Prime Minister and the Secretary of State every year.

Parents: Taxation

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what representations he has made to HM Treasury on changing the tax system to support families; and if he will make a statement. [149142]

Kevin Brennan: The Government have in place a range of policies to support families, however I can confirm that no representations have been made at the current time to HM Treasury with regard to changing the tax system in relation to the Department's policies for families.

Primary Education: Capital Investment

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the total capital spending on *(a)* primary and *(b)* secondary schools was in each year since 1996-97 in real terms; what the planned real-term figures are for each year to 2012-13; and if he will make a statement. [149967]

Jim Knight: I refer the hon. Member to the reply I gave him on 16 July 2007, *Official Report*, column 118W.

Pupil Exclusions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many fixed period exclusions were made in each year since 1994-95, broken down by local education authority (LEA); and what proportion of children were on fixed period exclusions in each LEA in the latest year for which figures are available; [150804]

(2) how many *(a)* permanent and *(b)* temporary exclusions there were in each (i) government region and (ii) local education authority in each of the last five years. [151176]

Jim Knight: I refer the hon. Member to the answer I gave to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 23 July 2007, *Official Report*, column. 871W.

Pupil Exclusions: Greater London

Tom Brake: To ask the Secretary of State for Children, Schools and Families how many exclusions per pupil from schools there were in each London borough in each year since 1997. [150377]

Jim Knight: I refer the hon. Member to the answer I gave to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 23 July 2007, *Official Report*, column 871W.

School Fruit and Vegetable Scheme

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much the Government spent on supplying free fruit and vegetables in school in each year since 1996-97; what assessment has been carried out on the effectiveness of the scheme; and if he will make a statement. [152301]

Dawn Primarolo: I have been asked to reply.

The Lottery provided £16 million towards the original pilots of the National School Fruit Scheme (NSFS) between 2000 and 2002. Lottery funding also provided £42 million to support scaling up of the original pilots across five government regions between 2002 and 2004. The Department spent £0.75 million in 2001-02 and £0.3 million in 2002-03 on administering and evaluating the NSFS pilots. The national rollout to all local education authority infant, primary and special schools across England of the scheme was completed at the end of 2004 and in the year 2004-05, the Department spent £28.5 million on the Scheme.

From April 2005, the Department has fully funded the School Fruit and Vegetable Scheme (SFVS). The cost of the Scheme in 2005-06 was £37.83 and £36.77 million in 2006-07. As the Scheme has developed, we have been able to achieve efficiencies in its overall administration and the supply and distribution of the fruit and vegetables which has resulted in spending on the scheme reducing over the last year.

An initial evaluation of the SFVS was carried out in November 2004. At that stage, the children who participated in the evaluation had only been receiving free fruit and vegetables since June 2004. The results provided a useful insight into the initial impact of the Scheme but it was recognised that further work would need to be undertaken to measure the impact of the Scheme over a longer period. In 2006, we commissioned a further evaluation of the Scheme and the report will be published shortly.

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* primary and *(b)* secondary schools in each local authority area have no on-site facilities for producing hot school lunches; [149105]

(2) what information his Department collects on the *(a)* quality, *(b)* availability and *(c)* take-up of school lunches; and if he will make a statement; [149106]

(3) whether all English schools meet the food-based and nutrient standards for lunch and non-lunch food. [149119]

Kevin Brennan: The Department does not collect data on how many *(a)* primary and *(b)* secondary schools in (i) England and (ii) each local authority area have no on-site facilities for producing hot school lunches. However, the School Food Trust (SFT) estimate that approximately 20 per cent. of primary schools and 0.2 per cent. of secondary schools have no facilities for food preparation or regeneration.

Figures from the School Food Trust's 2006 annual survey of school meals take-up in England showed that take-up of school meals in 2005-06 was 42.3 per cent. in primary schools and 42.7 per cent. in secondary schools. Findings from the 2007 survey will be available in August.

The Department does not collect data on the *(a)* quality, *(b)* availability *(c)* take-up of school lunches. However, the schools' census collects information on the number of pupils known to be eligible for free school lunches, and of those, the number of pupils who take up this entitlement. Provisional data at January 2007 reports that 659,100 (15.9 per cent.) of pupils in maintained nursery and primary schools and 429,930 (13.1 per cent.) of pupils in maintained secondary schools were known to be eligible for free school lunches with 544,340 (13.1 per cent.) pupils in nursery and primary schools and 314,680 (9.6 per cent.) pupils in secondary schools taking up their entitlement.

All schools in England are currently required to meet interim food-based standards for school lunches and will be required to meet food-based standards for other school food and drink from September 2007. They will also be required to meet nutrient-based standards for school lunches in primary schools from September 2008 and secondary schools from 2009.

Young People: Unemployed

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of 17-year-olds in England are not in education, employment or training. [150697]

Beverley Hughes: The figures provided in the table are for individuals at academic age 17[1] who were not in employment, education or training (NEET) in 2006.

[1] Academic age is the age of the individual measured at the beginning of the academic year, 31 August.

	Total NEET	*Percentage NEET of the population*	*17 year old population*
2006 (provisional)	62,700	9.5	659,500

These figures are available in the Statistical First Release published by the Department in SFR 22/2007, please see the following web link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/sfr22_2007.pdf.

COMMUNITIES AND LOCAL GOVERNMENT

Best Value

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Surrey Heath (Michael Gove), of 18 June 2007, *Official Report*, column 1524W, on best value, what estimate she has made of the number of Best Value inspections that will take place each year under the Comprehensive Area Assessment regime. [152425]

John Healey: The 2006 Budget announced a rationalisation of the number of inspectorates and proposals to significantly reduce the cost of inspection by around a third in the medium term. The Audit Commission is on target to meet this reduction as a result of a more targeted and proportionate approach to inspection and a reduction in the volume of inspections needed for CPA. In its commission to the local services inspectorates, the Government made it clear that they expected the new assessment and inspection regime as a whole to reduce the burdens on the inspected and fit with the Government's commitment to a one-third reduction in the cost of public service inspection by 2008.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Surrey Heath (Michael Gove) of 18 June 2007, *Official Report*, column 1524W, on best value, whether best value performance indicators will still be collected under the comprehensive area assessment regime. [152426]

John Healey: The Local Government and Public Involvement in Health Bill, which is currently before Parliament, will abolish Best Value Performance Indicators (except for Welsh Best Value authorities and the police). In line with our commitment in the local government White Paper "Strong and Prosperous Communities" we are developing a single set of national indicators for local government, working alone or in partnership, which will replace existing sets, including BVPIs. This set of indicators will underpin the new performance framework, including Local Area Agreements and the Comprehensive Area Assessment.

Computers: Carbon Emissions

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what funding her Department has allocated to the Green Shift cyber-warming programme. [152402]

Mr. Iain Wright: Greenshift is not a Communities and Local Government project, so no funding has been allocated to it from this Department.

Council Housing: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Communities and Local Government how many housing projects were funded by private finance initiatives in each of the last 10 years, broken down by local authority. [151528]

Mr. Iain Wright: A total of 19 schemes have signed since the Housing PFI Programme started, of which 12 have been decent homes schemes and seven have been additional social rented schemes.

There are also two combined heating and power schemes funded through the programme in Manchester and Tower Hamlets.

In addition a further 12 schemes are in procurement (six of each); and seven are developing outline business cases (four decent homes, three additional social rented).

The housing projects funded by the Department's private finance initiative since 1997 are listed, by local authority, in the following table.

Local authority	*Project name*	*Year of signature*
Ashford Borough Council	Stanhope Estate	2007-08
Coventry City Council	New Homes for Old	2005-06
Derby City Council	Inner City Regeneration	2000-01
Leeds City Council	Swarcliffe	2004-05
London Borough of Camden	Chalcots	2006-07
London Borough of Croydon	New for Old	2005-06
London Borough of Hammersmith and Fulham	Homes for Older People	2003-04
London Borough of Islington	Islington Street Properties 1	2002-03
	Islington Street Properties 2	2006-07
London Borough of Lewisham	Brockley	2007-08
London Borough of Newham	Canning Town	2005-06
Manchester City Council	Ardwick/Plymouth Grove	2002-03
	Miles Platting	2006-07
North East Derbyshire District Council	Holmewood	1998-99
Oldham Metropolitan Borough Council	Sheltered Housing	2006-07
Reading Borough Council	North Whitley	2003-04
Sandwell Metropolitan Borough Council	Hawthorns Fields	2005-06
Selby District Council	Non-HRA PFI Project One	2003-04
Warrington Borough Council	Anson and Blenheim	2004-05 phase 1/2006-07 phase 2

Council Housing: Waiting Lists

Mrs. Lait: To ask the Secretary of State for Communities and Local Government (1) how many households there were on local authority waiting lists for social housing in each Government office region in each year for which figures are available since 1986; [152513]

(2) how many households there were on local authority waiting lists for social housing in England in each year since 1986. [152514]

Mr. Iain Wright: The following tables show the number of households on local authority waiting lists for social housing in each Government office region and in England for every year since 1986.

Local authorities in England currently report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns.

Not everyone on the waiting list is necessarily in urgent housing need. The waiting list includes those who consider social housing as their preferred or one of a number of housing options, and those who decide to get onto the waiting list ladder before they need or want to move house—particularly where the priority system is heavily based on waiting time.

Number of households on waiting list for social housing, as at 1 April in 1986-2006, by Government office region and England as reported by local authorities

	1986	*1987*	*1988*	*1989*	*1990*	*1991*	*1992*
North East	105,822	97,100	81,959	79,586	86,899	93,581	103,862
North West	219,890	195,620	192,048	171,655	170,647	179,743	190,597
Yorkshire and the Humber	172,609	160,058	149,790	144,379	174,581	194,623	201,814
East Midlands	130,347	110,436	118,188	128,606	127,138	129,251	128,809
West Midlands	130,267	132,023	131,201	136,888	143,677	144,157	142,780
East of England	111,336	115,779	116,864	123,063	114,998	103,141	99,156
London	272,271	264,343	261,842	244,022	229,035	239,482	231,975
South East	124,247	127,080	132,451	131,650	121,537	114,024	111,349

Number of households on waiting list for social housing, as at 1 April in 1986-2006, by Government office region and England as reported by local authorities

	1986	1987	1988	1989	1990	1991	1992
South West	84,543	87,053	89,110	90,137	87,002	84,536	86,310

Council Tax

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment she has made of the reasons for the change in *(a)* average council tax per dwelling and *(b)* average Band D council tax in England between 1997-98 and 2007-08. [152553]

John Healey: I refer the hon. Member to the answer given by my hon. Friend the Member for Oldham, East and Saddleworth (Mr. Woolas) to the hon. Member for Newbury (Mr. Benyon) on 27 February 2007, *Official Report*, column 1272W.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Communities and Local Government how much was spent by her Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151984]

Mr. Iain Wright: The amount spent by the Department for Communities and Local Government and its predecessor the Office of the Deputy Prime Minister was:

Building	2002-03	2003-04	2004-05	2005-06	£ 2006-07
Eland House, London	—	—	—	3,920.40	—
Temple Quay, Bristol	—	—	—	—	9,340.27
Queen Elizabeth II Conference Centre, London	—	—	—	2,924.00	
Fire Service College, Morton in Marsh	—	—	—	—	3,000.00
Total	—	—	—	3,920.40	15,264.27

This answer does not include land or buildings occupied by Government offices, who carry out functions on behalf of 10 Government Departments.

It is not this Department's usual practice to hire portable air conditioning units unless exceptional business critical reasons exist.

The high spend at Temple Quay was caused by a combination of problems including local power supply issues (frequent outages), high summer temperatures and a fault developed by our HV transformer switchgear which made it run at temperatures likely to cause a very expensive failure and potentially long term disruption to power supplies to the buildings occupiers. This problem has now been resolved.

The spend in Eland House was to provide short term extra cooling in the main communications room after additional ICT equipment had been installed and before the primary cooling system had been upgraded.

Departments: Carbon Emissions

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether her Department carbon off sets foreign visits made by its staff; at what cost for visits made in the last 12 months; and what level of carbon dioxide was offset. [152404]

Mr. Iain Wright: Communities and Local Government have committed to offsetting all official domestic and foreign air travel from 1 April 2006. Departmental aviation emissions are calculated annually and subsequently offset through payments to the Government Carbon Offsetting Fund. The Fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries. The cost of air travel during the last financial year was £256,974, and 275 tonnes of carbon dioxide equivalent were offset. The figures provided do not include data from the regional Government offices or our executive agencies.

The Department does not offset foreign rail travel and is currently unable to accurately calculate this aspect of its carbon emissions.

Departments: Pay

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the salary bands are of each pay grade in her Department. [152534]

Mr. Iain Wright: The salary bands for each pay band below senior civil service from 1 August 2006 in the central Department excluding Government offices, departmental agencies and NDPBs are as follows:

£

Pay band	*Grade*	*Minimum*	*Maximum*
PBS1	Secretarial	15,294	20,469
FBI	Administrative Assistant	14,411	18,904
EM	Industrial Grade	14,027	21,958
PB2	Administrative Officer	18,278	23,122
PB3	Executive Officer	21,042	29,274
PB4	Higher Executive Officer	24,611	37,044
PB5	Senior Executive Officer	30,370	42,791
PB6	Grade 7	37,534	53,144
PB7	Grade 6	46,126	65,488

For the senior civil service the information is published on the civil service website at:

http://www.civilservice.gov.uk/management/performance/scs/pay/index.asp

Departments: Publicity

David Simpson: To ask the Secretary of State for Communities and Local Government what assessment she has made of the cost-effectiveness of advertising commissioned by her Department in the last 12 months. [148502]

Mr. Iain Wright: The Department uses its communications channels to ensure its policies are properly based in and communicated to target audiences and stakeholders. This is achieved in policy development through consultation and discussion with business, agencies and the public. During implementation, this is achieved by full and open communication to citizens affected by the policy, which can include advertising as a communications medium.

During the past 12 months we have commissioned a number of advertising campaigns, which have been assessed as a matter of course to gauge their effectiveness and cost-effectiveness. For example:

The ongoing fire safety campaign delivered a rise in recognition of the new fire prevention advertising from 27 per cent. in July/August 2006 to 45 per cent. in October/November 2006. Fire deaths are at their lowest since 1959 and this campaign is one part of the strategy that has achieved this.

Research into the local e-gov advertising campaign showed that 51 per cent. of those who recognised the campaign intended to visit their local council website in the next 12 months.

The campaign to encourage women to apply for posts in the fire and rescue service delivered a 20 per cent. increase in the number of applications from women when the campaign was running.

The campaign to inform business of their new responsibilities under the Fire Order Reform delivered a rise in recognition from 14 per cent. in April to 61 per cent. in September 2006.

The Department is committed to developing a work force that reflects the diversity of the communities we serve enjoying genuine equality of opportunity, and ensuring the Department is rigorously fair in its recruitment and development policies.

During the past 12 months all vacant posts within the Department were advertised to existing staff in the Department; 33 per cent. of vacancies were also advertised through the civil service. Just 5 per cent. of posts were advertised nationally. In addition, an assessment centre was run for senior civil service (SCS) recruitment at deputy director level, which attracted 20 applicants through this process from which seven appointments were made.

The success of the Department's recruitment advertising is assessed by the quality, appropriateness and number of applicants applying for publicly advertised posts. In the past 12 months this has resulted in 142 permanent and 17 fixed term appointments to the Department.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Communities and Local Government how many overseas visits were made by *(a)* officials and *(b)* Ministers within her responsibility, and at what cost, in each year since 1997. [151648]

Mr. Iain Wright: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the 'Civil Service Management Code' and the 'Ministerial Code'.

East of England Development Agency: Contracts

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many contracts the East of England Development Agency has with Luton-based social enterprises; and what the value is of each contract. [152267]

John Healey: As a strategic body, East of England Development Agency does not fund specific projects in the same way that many other funding organisations do and funding is delegated locally. Local projects in Luton are taken forward by the Investing in Communities (IiC) partnership there and Luton borough council is responsible for taking forward the social enterprise interventions. Information on the number of contracts and value of these would be held by Luton borough council as it would fall within the delegation levels EEDA has for the IiC partnerships.

Emergency Services

Mr. Syms: To ask the Secretary of State for Communities and Local Government if she will make a statement on the Fire and Rescue Service's preparations for responding to a chemical, biological, radioactive or nuclear incident. [151590]

Mr. Dhanda: Through the Home Office led CBRN resilience programme we are working closely with partners across Government to ensure that the Fire and Rescue Service and other emergency services have the necessary equipment and training available to fulfil their part in responding to a chemical, biological, radiological and nuclear (CBRN) incident.

Communities and Local Government's New Dimension Programme has provided the Fire and Rescue Service with 18 strategically located Detection, Identification and Monitoring Units to analyse suspected CBRN substances, 73 Incident Response Units for mass decontamination of the public, personal protection equipment to protect firefighters in a CBRN contaminated environment, and relevant training.

Fire Services

Mr. Syms: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 13 December 2006, *Official Report*, column 1139W, on Regional Fire Control, what the expected date is by which the proposed new regional fire control centres for *(a)* London and *(b)* England will be fully networked and operational; and if she will make a statement. [151551]

Mr. Dhanda: The first Regional Fire Control Centres are expected to go live in October 2009, with the entire network operational by September 2011. London is expected to join the network in November 2010.

Homelessness

Hugh Bayley: To ask the Secretary of State for Communities and Local Government what the ratio was between the number of social housing new lets and the number of households accepted as homeless in the last 12 months in each local housing authority area in England. [151352]

Mr. Iain Wright: A table has been placed in the Library which shows the ratio between the number of social housing lettings and the number of households accepted as homeless in each local housing authority area in England.

Local authorities in England report the number of lettings in their annual Housing Strategy Statistical Appendix returns. Registered social landlords record the number of lettings on their Continuous Recording of Social Lettings (CORE) lettings logs. These two data sources have been combined to give the total number of new social lettings in each local authority area, made between 1 April 2005 and 31 March 2006 (figures include transfers of existing tenants where new lettings are made).

Local authorities report the number of households accepted as homeless in their area on quarterly PI (E) housing returns. Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

The ratio has been calculated by dividing the number of households accepted as homeless by the number of new social housing lettings.

It is important to note that not all households accepted as homeless go into social housing. For example, some may go into temporary accommodation for a period of time immediately after acceptance, and others move to accommodation in the private sector or have the homelessness duty otherwise ended.

Housing

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the Valuation Office Agency's target is for increasing the number of domestic dwellings with *(a)* value significant code data and *(b)* dwellinghouse code data. [152379]

John Healey: No such targets exist.

Housing Act 2004

Mr. Hands: To ask the Secretary of State for Communities and Local Government what guidance she has issued to local authorities on the carrying out of additional licensing under the Housing Act 2004. [152920]

Mr. Iain Wright: The Department published the "Approval steps for additional and selective licensing designations in England" guidance for local authorities in November 2006.

Housing: Carbon Emissions

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment she has made of the market demand for zero-carbon homes. [152409]

Mr. Iain Wright: Demand for housing is high. That is why the Prime Minister increased the annual housebuilding target for 2016 from 200,000 to 240,000 new homes a year. As set out in the Budget, the time limited stamp duty land tax relief should help to generate interest in the market for zero carbon new homes. The Government have set a target that from 2016, all new homes will be zero carbon. Furthermore, a recent survey found that 92 per cent. of respondents want to see sustainability features offered as options on new homes.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what estimate she has made of construction costs of *(a)* a zero carbon home and *(b)* an average non-zero carbon home. [152410]

Mr. Iain Wright: The costs of zero carbon homes and non-zero carbon homes vary depending on the technologies and construction products used. A regulatory impact assessment was undertaken to support the Government's announcement that from 2016, all new homes will be zero carbon. The regulatory impact assessment sets out the estimated cost of a zero carbon new home in 2016 above the cost of a non-zero carbon home. The regulatory impact assessment can be found on the Department's website and in the Library of the House.

Housing: Combined Heat and Power

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what research her Department's Sustainable Buildings Division has carried out on the development of local heat distribution from community-scale combined heat and power plants. [152277]

Mr. Iain Wright: Communities and Local Government Sustainable Buildings Division has not conducted any direct research on the development of local heat distribution from community-scale combined heat and power plants (CHP). However, Communities and Local Government has indirect involvement in CHP research through its participation in the heat project being undertaken by the Office of Climate Change, which is looking at the carbon impact of heat generation and cooling, and the potential for this to be reduced.

Housing: Construction

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Surrey Heath of 25 June 2007, *Official Report*, column 166W, on housing: construction, how many residential sales transactions for *(a)* all properties and *(b)* new build properties were (i) flats and (ii) houses in each year since 2000. [152530]

Mr. Iain Wright: The numbers of flats and houses that were sold in England for *(a)* all properties and *(b)* new build properties since 2002 is presented in the following table. Figures prior to 2002 are not available.

Numbers of residential sales transactions for all properties (a) and new build properties (b) by dwelling type, England, 2002-06

	2002	2003	2004	2005	2006
All properties					
Flats	218,550	204,617	219,839	190,657	243,440
Houses	1,039,427	943,169	950,288	783,623	979,530
New build properties					
Flats	30,652	35,299	41,371	46,602	57,655
Houses	77,960	69,633	66,901	55,065	57,124

Source:
HM Land Registry

Housing: Cornwall

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how many households were on waiting lists for homes in Cornwall in each year since 1997. [147701]

Mr. Iain Wright: The number of households on the waiting list for social housing in Cornwall in each year since 1997, as at 1 April each year, is published on the Communities and Local Government website in Table 600. The link for this table is:

http://www.communities.gov.uk/embedded_object.asp?id=1163853

Specifically, the waiting list for social housing in Cornwall in each year since 1997 is given in the following table:

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
Cornwall and the Isles of Scilly	8,124	9,004	8,723	7,944	7,964	9,743	12,475	13,795	15,610	18,212
Caradon	1,832	2,310	2,323	1,575	1,331	1,327	1,739	1,883	2,608	3,404

Communities and Local Government Housing Strategy Statistical Appendix return (HSSA)

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Not everyone on the waiting list is necessarily in urgent housing need. The waiting list includes those who consider social housing as their preferred or one of a number of housing options, and those who decide to get onto the waiting list ladder before they need or want to move house—particularly where the priority system is heavily based on waiting time.

Andrew George: To ask the Secretary of State for Communities and Local Government what the maximum cost of housing deemed affordable in Cornwall is; and how many houses *(a)* built in Cornwall in the last 10 years and *(b)* in total in Cornwall have a value at or below that figure. [152104]

Mr. Iain Wright *[holding answer 24 July 2007]:* Whether market housing is affordable depends on a number of factors relevant to individuals looking to purchase a home. It is not possible to specify a single price for what would be affordable in Cornwall. However, the lower quartile price for new dwellings sold in Cornwall was around £135,250 in 2006 (i.e. 25 per cent. of new dwellings sold were at or below this price).

As stated in Planning Policy Statement 3 (PPS3)

> "the Government defines affordable housing as including social rented and intermediate housing"

e.g. low cost home ownership. New build figures in Cornwall for these types of housing are tabulated as follows along with the total new build.

Total new build and total affordable new build, 1996-97 to 2005-06

	Total new build	Affordable new build
1996-97	1,400	457
1997-98	1,513	429
1998-99	1,918	421
1999-2000	1,800	218
2000-01	2,094	263
2001-02	1,983	233
2002-03	1,851	278
2003-04	1,681	312
2004-05	1,688	241
2005-06	1,623	372

Source:
Statistical returns from local authorities, Housing Corporation

New build registered social landlord and council dwellings only make up part of the affordable supply; the remainder being acquired by registered social landlords. Between 1996-97 and 2005-06, acquisitions by registered social landlords numbered 917, taking the total affordable housing provision in Cornwall to 4,141 over the period.

Cornwall is defined as the local districts of Caradon, Carrick, Kerrier, North Cornwall, Penwith, Restormel and the Isles of Scilly.

Housing: Low Incomes

Andrew George: To ask the Secretary of State for Communities and Local Government what minimum standards of *(a)* quality and *(b)* availability of services apply to affordable housing provided by (i) private developers and (ii) registered social landlords. [148446]

Mr. Iain Wright *[holding answer 9 July 2007]:* Registered social landlords (RSLs) are expected to meet the Housing Corporation's Regulatory Code and guidance (available on the Corporation's website) to provide good-quality housing services for residents and prospective residents:

- By seeking to offer a choice of home, while giving reasonable preference to those in priority housing need;
- By offering the most secure form of tenure compatible with the purpose of the housing and the sustainability of the community;
- With agreements that clearly set out residents' and landlords' rights and obligations;
- By being responsive to the individual characteristics and circumstances of residents;
- By using lettings policies that are fair and reflect the diversity of their client groups, and
- By providing high standards of customer care.

RSLs are assessed by the Housing Corporation on management and are also subject to inspection by the Audit Commission on services offered.

Private developers and other unregistered bodies in receipt of social housing grant from the Housing Corporation for new affordable housing are required to meet similar standards where they retain ownership of the homes.

Andrew George: To ask the Secretary of State for Communities and Local Government whether she has placed any financial limits on her Department's definition of affordable for the purpose of the granting of planning permissions for residential development on *(a)* unfettered sites where a quota of affordable homes applies and *(b)* exceptions sites. [149478]

Mr. Iain Wright: Affordable housing is defined in "Planning Policy Statement 3: Housing". Its definition includes that such housing "should meet the needs of eligible households, including availability at a cost low enough for them to afford, determined with regard to local incomes and local house prices". We have no plans to change that definition.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which recommendations from John Hill's report on social housing she expects to be implemented by her Department. [152378]

Mr. Iain Wright: Professor John Hills' review of social housing 'Ends and means: The future role of social housing in England' sets out an objective and comprehensive platform to support the debate on social housing reform and inform policy development going forward—it does not make any specific recommendations for Government.

As the Housing Green Paper 'Homes for the future: more affordable, more Sustainable', published on 23 July 2007 announces, we will set out new proposals in response to the Hills' review in the autumn.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many *(a)* councils and *(b)* housing associations are offering Extended Open Market Homebuy schemes. [152407]

Mr. Iain Wright: Expanded Open Market HomeBuy is delivered through 23 housing associations, 'HomeBuy Agents', who provide a one stop shop for low cost home ownership opportunities in their area. The scheme is not delivered through councils, but they work with HomeBuy agents to ensure that those in priority need of social housing and existing social tenants get priority for the scheme.

Housing: Prices

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the average price of a dwelling purchased by a first time buyer in England. [152822]

Mr. Iain Wright: Communities and Local Government publish their monthly house price figures for first time buyers at:

http://www.communities.gov.uk/pub/165/Table592_id1156165.xls

In May 2007 the mix-adjusted average house price of dwellings purchased by first time buyers in England was £167,548.

Housing: Renewable Energy

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many domestic properties in England have *(a)* small-scale wind turbines and *(b)* solar panels, according to Valuation Office Agency valuation records. [152415]

John Healey: The information requested is not held centrally and could be provided only at disproportionate cost.

Housing: Repairs and Maintenance

Mr. David Anderson: To ask the Secretary of State for Communities and Local Government what support her Department provides to assist the work of home improvement agencies. [152048]

Mr. Iain Wright: Communities and Local Government's 'Supporting People' grant programme provided around £12.8 million to home improvement agencies in 2005-06. This contributes to their core costs, with additional revenue funding met from local authority housing funding and fee income from public grants, including the Department's Disabled Facilities Grant. Over half of the estimated £99.5 million annual capital funding for works for home improvement agency clients comes from the Disabled Facilities Grant.

The Department also sponsors a national co-ordinating body for home improvement agencies (foundations) to support the work of home improvement agencies in a number of ways, including capacity building within the sector.

Housing: Sales

Alistair Burt: To ask the Secretary of State for Communities and Local Government how many domestic dwellings with four or more bedrooms were sold in England in the last 12 months according to figures held by the Valuation Office Agency. [150654]

John Healey: According to the data currently held by the VOA, the number of completed sales of dwellings with four or more bedrooms in the 12 months from 1 April 2006 to 31 March 2007 was 211,284.

Judicial Review: Legal Costs

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what her Department's expenditure was on legal fees for the judicial reviews brought by *(a)* the Royal Institute of Chartered Surveyors and *(b)* Shrewsbury and Atcham borough council. [152512]

Mr. Iain Wright: The most recent figures for the expenditure incurred to date by Communities and Local Government (CLG) on legal fees for these two judicial reviews is as follows:

(a) Royal Institute of Chartered Surveyors: £19,830;

(b) Shrewsbury and Atcham borough council: £10,877.

The figures provided include both Treasury Solicitor's charges to CLG, and disbursements on fees for Treasury Counsel, who advise and represent CLG at court hearings.

Local Authorities: Contracts

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many contracts with social enterprises each council in England has; and what the total value is of such contracts. [152266]

John Healey: The information requested is not held centrally.

Local Authorities: Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what annual efficiency savings have been set for local authorities in each year from 2008 to 2011. [152391]

John Healey: The 2007 Budget set down a baseline ambition of 3 per cent. annual cashable efficiencies for local government as a whole during the period covered by the 2007 Comprehensive Spending Review. Further information on requirements for efficiency is subject to decisions to be taken as part of that Review.

Local Authorities: Standards

Mrs. Lait: To ask the Secretary of State for Communities and Local Government on which indicators her Department collects information from local authorities. [152399]

John Healey: The Department of Communities and Local Government has set 86 Best Value Performance Indicators against which local authorities must report in 2007-08. These measure performance on policy areas across Government and details can be found on the Department's website:

http://www.communities.gov.uk/index.asp?id=1136106.

Local Government Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government (1) why local authorities may not securitise their revenue streams to help finance capital projects; [152524]

(2) what powers local authorities have to issue bonds; and what authorisation is required from the Government for them to do so; [152542]

(3) which local authorities have issued municipal bonds since 1997; [152554]

(4) what authority local authorities require from the Government to borrow money through loans *(a)* from the Public Works Loans Board and *(b)* in the form of lenders option, borrowers option. [152556]

John Healey: Local authorities' borrowing powers are laid down in the Local Government Act 2003. Authorities are free to borrow without Government consent, provided that they can afford to service the debt from their own resources. Authorities would require the Government's consent to borrow other than in sterling, but apart from that may obtain their loans from any source. That includes borrowing from the Public Works Loan Board or seeking "lender's option borrower's option" loans from private sector banks. Authorities may also raise finance by issuing bonds, again without Government consent. Information on authorities' issues of bonds is not held centrally. We have no plans to give authorities a power to securitise, since they can obtain the same level of finance more simply by borrowing on the strength of their revenue streams.

Local Government: Equal Pay

Lynne Jones: To ask the Secretary of State for Communities and Local Government what resources are available to local government to meet the cost of equal pay. [151493]

John Healey: I refer my hon. Friend to the answer given to my hon. Friend the Member for Cannock Chase (Dr. Wright) on 19 July 2007, *Official Report*, columns 492-94W.

Equal pay is not a new pressure, and local authorities will need to manage any equal pay pressures within the range of resources available such as central grant and council tax, and seeking capitalisation where necessary. Many authorities have already revised their pay arrangements, and others have put aside sufficient reserves.

Local Government: Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which bodies are responsible for negotiating local government *(a)* pension and *(b)* pay settlements. [152373]

John Healey: Local Government pension scheme entitlements are not subject to negotiation. They are prescribed in secondary legislation, made by the Secretary of State, following full consultation with all relevant scheme interests as required by the Superannuation Act 1972.

Local Government pay is determined by individual local authority employers, most of whom use a national framework. The majority of the local government work force is covered by the National Joint Council (NJC) for Local Government Services.

Local Government: Inspections

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what role the *(a)* Electoral Commission, *(b)* Office for the Surveillance Commissioner, *(c)* Food Standards Agency and *(d)* Health and Safety Executive/Commission have in inspecting local authorities. [152559]

John Healey: The Electoral Commission undertakes reviews of electoral arrangements in local government in England. The Surveillance Commissioner is responsible for establishing compliance with the powers granted by Parliament to authorise and conduct covert surveillance operations carried out by all local authorities, except the intelligence services. The Health and Safety Executive's role, as an enforcing authority, includes responsibility for enforcement against local authorities as an employer under the Health and Safety (Enforcing Authority) Regulations 1998. The Health and Safety Commission also expects all local authorities to undergo an inter-authority audit of their management of health and safety enforcement at least once every five years. The Food Standards Agency audits local authorities in accordance with relevant EC guidelines, to ensure the delivery of official feed and food controls—largely enforced by local environmental health and trading standards services.

The Local Authority Better Regulation Group in the Department for Business, Enterprise and Regulatory Reform (DBERR) is leading on ensuring co-ordination between the different national bodies who have roles re local authority regulatory services (eg Food Standards Agency, Consumer and Trading Standards Agency, etc.).

Local Government: Pensions

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what changes

have been made to eligibility and entitlements under the Local Government Pension Scheme since May 2005; and on what changes to the scheme her Department is consulting. [152374]

John Healey: Since May 2005, several amendments have been made to the regulatory framework which governs the Local Government Pension Scheme in England and Wales. A full list can be found at:

http://timeline.lge.gov.uk/Amended/SI/siidx.htm.

Currently, statutory consultations are under way on proposals for added protections for older, eligible Scheme members, providing these are legal and affordable, and on proposals to provide transitional protections for existing 1997 Scheme members who will transfer to the new 2008 Scheme from 1 April next year.

Local Government: Referendums

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many local referendums have been held by local authorities under the provisions of the Local Government Act 2003. [152558]

John Healey: The information requested is not held centrally.

Non-Domestic Rates: Tax Allowances

Alistair Burt: To ask the Secretary of State for Communities and Local Government what the timetable is for the review of non-domestic rate reliefs and exemptions; and whether the Government intend to publish a consultation paper. [151315]

John Healey: Reviewing business rates reliefs and exemptions has been included in the ongoing work of Communities and Local Government, involving other Departments and stakeholders as appropriate. Any proposals emerging from the review will of course be subject to consultation in the usual way.

Planning Obligations

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the merits of a tariff system in place of Section 106 agreements and planning-gain supplement. [152375]

Mr. Iain Wright: Paragraph 3.117 of the 2006 pre-Budget report (CM 6984) indicated that the Government have considered alternative measures to capture land value uplift and that they have looked closely at these models. The predecessor Department to Communities and Local Government consulted on the introduction of a mandatory tariff in December 2001 and on an optional planning charge in November 2003. The Government continue to believe that a workable and effective planning-gain supplement (PGS) represents a fairer and more effective means of capturing land value to help finance infrastructure.

In his statement on the third session draft legislative programme on 11 July 2007, the Prime Minister said that the Planning-gain Supplement Bill is provisional within that programme because if, prior to the pre-Budget report, a better way is identified of ensuring that local communities receive significantly more of the benefit from planning gain, including to invest in necessary infrastructure and transport, and it is demonstrated that it is a better alternative, the Government will be prepared to defer next Session's legislation.

The Housing Green Paper published on 23 July 2007 says that PGS remains the Government's preferred option but lists the main alternative approaches, including those which have been raised by stakeholders. These approaches set out in the Green Paper will form the basis for discussions with key stakeholders prior to the pre-Budget report.

Rates and Rating: Aerials

Alistair Burt: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 July 2007 to the hon. Member for Guildford, *Official Report*, column 1474W, on rates and rating: aerials, how many communication masts were on the Valuation Office Agency's rating list in England on *(a)* 31 March 2003 and *(b)* 31 March 2007. [151173]

John Healey: There is no single rating list for England but one for each billing authority. On the lists for the English billing authorities there were the following number of mast sites:

(a) as at 31 March 2003, 17,227

(b) as at 31 March 2007, 26,590.

Regional Planning and Development

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effect of *(a)* PPG3 and *(b)* PPS3 on the supply of flats in the housing market; and if she will make a statement. [152385]

Mr. Iain Wright: In the period 2000 to 2006, new build dwelling completions that were flats increased from 20 per cent. to 47 per cent. nationally. It is not possible to say whether this was a direct result of PPG3, as other policies, commercial considerations and market factors will also have played a part.

The Government want to see local planning authorities providing the right types of housing to meet need and demand in areas, based on a robust evidence-based approach. This is why PPS3 asks local authorities to carry out strategic housing market assessments, which should then inform the planning process.

If assessments show that a greater number of larger homes are needed, then we would expect these to be planned for and delivered. But equally there will be areas where smaller homes, including flats, will be needed.

It is too early to assess the effect of PPS3.

Regional Planning and Development: West Midlands

Peter Luff: To ask the Secretary of State for Communities and Local Government pursuant to the oral statement of 17 July 2007, *Official Report*, columns 161-2, on economic reform, if she will direct the West Midlands Regional Assembly to defer the consultation on the revision to the regional spatial strategy to enable the strategy's integration with the regional economic strategy; and if she will make a statement. [151457]

John Healey: No. It is essential that the phase two of the regional spatial strategy revision, which will include new housing numbers, is undertaken as agreed to provide clear guidance for local authorities producing their core strategies. The Regional Assembly and the Regional Development Agency have already taken steps to ensure effective integration of the revision with the regional economic strategy revision. This includes shared evidence and joint working groups.

Regional Assemblies will continue to have a key role in taking forward Regional Spatial Strategies until new arrangements are introduced.

Rented Housing

Mr. Hancock: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 July 2007, *Official Report*, column 1280W on rented housing, what recent meetings her Department has held with stakeholder groups to discuss affordable housing; and if she will place in the Library the minutes of such meetings. [149554]

Mr. Iain Wright: My hon. Friend the Member for Pontefract and Castleford (Yvette Cooper) officials and I have routine and regular contact with a wide range of stakeholders including affordable housing providers. The Housing Green Paper which we published on 23 July provides all stakeholders with an opportunity to offer their views on how we can best increase the delivery of affordable housing. The Green Paper sets out our plans for the delivery of more affordable housing.

Small Businesses: Non-Domestic Rates

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether her Department holds records on the take-up of small business rate relief. [152526]

John Healey: Communities and Local Government does not hold records on the take-up rate of small business rate relief.

Social Sector Working Party on Housing

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what further consultation she carried out before taking decisions on the social sector working party's interim report on major works charges. [151886]

Mr. Iain Wright: No further consultation was carried out following receipt of the interim report of the Social Sector Working Party on major works Bills at the end of January 2007. The Government's statement to Parliament about high leaseholder major works Bills, on 29 March 2007, available at the following link, reported progress on its own review of these issues. This review was started in February 2006, and involved extensive consultation with stakeholders including leaseholder representatives, social landlords, the Leasehold Advisory Service, and lenders. It also took account of the Working Party's report.

http://www.publications.parliament.uk/pa/cm200607/cmhansrd/cm070329/wmstext/70329m0001.htm#07032949000022

South East England Development Agency: Official Hospitality

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how much the South East England Development Agency spent on hospitality and entertainment in each year since it was created. [152532]

John Healey: I refer the hon. Member the answer given by my right hon. Friend the Member for East Ham (Mr. Timms) to the hon. Member for Fareham (Mr. Hoban) on 18 July 2007, *Official Report*, column 360W.

Sustainable Development

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effect on communities of being designated as unsustainable as a consequence of Planning Policy Statement 1. [152667]

Mr. Iain Wright: Planning Policy Statement 1 "Delivering Sustainable Development" sets out the key role of planning in contributing to the delivery of sustainable development. In particular, the planning system should facilitate and promote sustainable and inclusive patterns of urban and rural development by:

- making suitable land available for development in line with economic, social and environmental objectives to improve people's quality of life;
- contributing to sustainable economic development;
- protecting and enhancing the natural and historic environment, the quality and character of the countryside, and existing communities;
- ensuring high quality development through good and inclusive design, and the efficient use of resources; and,
- ensuring that development supports existing communities and contributes to the creation of safe, sustainable, liveable and mixed communities with good access to jobs and key services for all members of the community.

Policies in regional and local development plans, together with national planning policies, provide the framework for decisions on future urban and rural development. In preparing development plans, planning authorities have a statutory requirement to do so in a way that contributes to the delivery of sustainable development. Part of that process will be to ensure that policies in plans seek to improve the sustainability of existing communities as well as ensuring new developments contribute towards that aim.

Thames Gateway

Harry Cohen: To ask the Secretary of State for Communities and Local Government what response she has made to the National Audit Office report "Thames Gateway: Laying the Foundations", with particular regard to the sections on performance and planning; and if she will make a statement. [147132]

Mr. Iain Wright: There was a hearing of the Committee of Public Accounts on 13 June 2007 based on the National Audit Office's report. Subsequent to the hearing the Department will receive a report from the Committee of Public Accounts with recommendations, which the Government will then respond to.

After the hearing the Department's Permanent Secretary wrote a follow-up note to the Committee in response to questions raised by hon. Members.

The Thames Gateway Executive has already implemented the majority of the recommendations in the original National Audit Office report which formed the basis of the Committee of Public Accounts hearing. In particular a cross-Government board for the Thames Gateway has been set up and will have its third meeting on 19 July. A final delivery plan for the Thames Gateway is being prepared which will be completed later this year. Finally a communications strategy for the Thames Gateway is also being prepared.

Travelling People: Regional Planning and Development

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what guidance her Department provides on the *(a)* definitions and *(b)* methodology for calculating the (i) regional, (ii) national and (iii) local need for authorised traveller site provision. [152557]

Mr. Iain Wright: Local authorities are required to undertake accommodation needs assessments for Gypsies and Travellers in their area, and Communities and Local Government has provided draft guidance on this. A final version will be published shortly. Regional assemblies are responsible for reviewing regional spatial strategies to determine regional pitch requirements and allocate them between local authorities, and Communities and Local Government has published research to assist with this process.

Both of these documents are available on our website at:

http://www.communities.gov.uk/index.asp?id=1153486

Guidance on calculating national levels of need is not produced.

Urban Areas: Cheltenham

Martin Horwood: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 June 2007, *Official Report*, column 182W, on urban areas: Cheltenham, whether the information provided is available, broken down by age bands for the period covered in the draft Regional Spatial Strategy. [148572]

Mr. Iain Wright: The information is available at Table 20: Population by sex and quinary age for all local authorities and higher areas, published by the Office for National Statistics on 12 October 2006, and can be accessed at:

http://www.statistics.gov.uk/STATBASE/ssdataset.asp?vlnk=9496

The following table is extracted from this analysis.

2004 based population projections for Cheltenham borough

Age group	*2006*	*Thousand 2026*
0-4	5.6	5.8
5-9	6.0	5.8
10-14	6.4	6.1
15-19	8.1	6.8
20-24	8.2	8.5
25-29	8.0	8.3
30-34	7.5	8.4
35-39	8.4	8.5
40-44	8.5	7.7
45-49	7.2	7.0
50-54	6.6	6.8
55-59	6.7	7.5
60-64	5.6	7.4
65-69	4.7	6.2
70-74	4.2	5.4
75-79	3.9	5.4
80-84	3.4	4.1
85+	2.9	4.5
All ages	111.9	120.1

Source:
Table 20: Population by sex and quinary age for all local authorities and higher areas published by the Office for National Statistics (12 October 2006).

Valuation Office

Mrs. Lait: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 27 June 2007, *Official Report*, column 817W, on the Valuation Office, which consultants have been commissioned to assist with the automated valuation model since September 2005. [152420]

John Healey: No consultants have been commissioned since September 2005. Some consultancy advice is still provided by the firm Cole Layer Trumble (CLT). This is part of an ongoing contractual arrangement between Capgemini, the agency's IT providers, and CLT.

JUSTICE

Coroners

Jenny Willott: To ask the Secretary of State for Justice which case in each coroner's district has been waiting the longest time for the opening of an inquest; and if he will make a statement. [152138]

Bridget Prentice: An inquest is opened to take identification evidence and to enable release of the body to the family and they are generally opened within a few days of the death. There will, however, be a longer

interval between the death and the opening where there is the possibility of a homicide offence. In these circumstances the inquest will only be opened when the police are satisfied that the body will not be needed for the purposes of an investigation. No statistics are kept on the length of time between a death and the opening of an inquest. The following table however, shows the oldest opened case in each coroner's jurisdictions as 31 December 2006 based on information supplied by coroners.

Date of oldest outstanding inquest case, as at 31 December 2006, by coroner jurisdiction

County and district	*Date of oldest case (as at 31 December 2006)*
England and Wales	1 February 1997
The Queen's Household	31 August 1997
England	
North East

[1] Estimated.
[2] Former county.
[3] None.
Notes:
1. The dates given may in some cases refer to the date of death, or the date the inquest was opened, rather than the date the death was reported to the coroner.
2. Estimated dates: the month was given but no further information, so mid-month was taken as a suitable estimate.

Courts: Nottingham

Mr. Allen: To ask the Secretary of State for Justice pursuant to the answer of 15 May 2007, *Official Report*, column 707W, on courts: Nottingham, whether the assessment of the impact of powers under section 178 of the Criminal Justice Act 2003 has been completed. [152674]

Maria Eagle: The assessment of impact of the proposed extension of review powers under section 178 to 11 new community justice areas (including Nottingham) was completed, and an affirmative order providing for the extension was laid before Parliament. The order was debated in Committee, and was duly approved by the House of Commons on 16 July and the House of Lords on 17 July.

Dangerous Driving

Mark Lazarowicz: To ask the Secretary of State for Justice when he plans to implement the section of the Road Safety Act 2006 on causing death by careless driving. [152471]

Maria Eagle: We aim to implement the new offence of causing death by careless driving in the autumn once the Sentencing Guidelines Council (SGC) has published sentencing guidelines for it.

During the passage of the Act through Parliament, concerns were expressed about how the new offences contained in that Act would be used in practice and how they should fit with the overall framework of bad driving offences. We therefore felt it essential to wait for the SGC, who are responsible for publishing definitive sentencing guidelines for all criminal offences for England and Wales, to produce guidelines to ensure consistency in sentencing. Although the guidelines will not apply to Scotland, it seemed sensible to implement the offence at the same time in all the areas concerned.

The SGC have informed us that they hope to issue guidelines on this subject in autumn 2007 following full consultation. They are treating this as a priority.

Drugs: Crime

Mr. Vara: To ask the Secretary of State for Justice how many people were cautioned for drug-related offences in each of the last 10 years; what average prison sentence was awarded for each different category of drug-related offence in each of those years; and what average prison sentence was served by those convicted of drug-related offences in each of the last 10 years, broken down by category of offence. [151993]

Mr. Hanson: The information requested on cautions and the average immediate custodial sentence length, for the years 1995 to 2005, is contained in the tables.

This is confined to offences under the Customs and Excise Management Act 1979, the Misuse of Drugs Act 1971 and the Proceeds of Crime Act 2002 etc. as it is not possible to identify from the Court Proceedings database the number of other offences committed while persons are under the influence of drugs or those committed to finance a drugs habit.

Information on the average time served for all offences, by sentence length can be found in tables 10.1 and 10.2 of the Offender Management Caseload Statistics 2005, copies of which can be found in the House of Commons Library. This information is also available at the following websites:

For 2005:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb1806section10.xls

For 2004:

http://www.homeoffice.gov.uk/rds/pdfs05/hosb1705section10.xls

For 2003:

http://www.homeoffice.gov.uk/rds/pdfs04/hosb1504section10.xls

For the years before 2003 table 3.14 in Prison statistics England and Wales 2002 (CM 5996) gives average time served in prison under sentence by prisoners discharged from 1993 to 2002. Copies of this publication can be found in the House of Commons Library.

The data, which are obtained from the prison IT system, are not shown separately by offence because the numbers at this level of detail cannot be guaranteed.

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and although shown to the last individual the figures may not be accurate to that level.

Table 1: Number of offenders cautioned for drug offences England and Wales, 1996-2005[1,2,3]

	Number cautioned
1996	47,471
1997	56,028
1998	58,733
1999	49,348
2000	41,104
2001	39,424
2002	44,921
2003	45,706
2004	32,620
2005	34,390

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Formal warnings for cannabis possession were introduced nationally from April 2004. There were 39,258 formal warnings for cannabis possession in 2004-05 and 62,586 in 2005-06.

RDS-NOMS, Ministry of Justice

Employment: Equality

Mr. Atkinson: To ask the Secretary of State for Justice pursuant to the answer of 3 July 2007, *Official Report*, column 983, on employment: equality, who conducted the review; when it *(a)* was established and *(b)* reported; and if he will publish its conclusions. [151602]

Bridget Prentice: The review mentioned in the answer of 3 July 2007 was an internal review of the policy on retirement ages of the judiciary and was intended to inform and advise the then Lord Chancellor about the retirement age policies currently in place. It was carried out by officials in the former Department for Constitutional Affairs and was timed to advise the Lord Chancellor ahead of the coming into force of the Employment Equality (Age) Regulations 2006, in October 2006. The advice was not published. Following the advice, the Lord Chancellor concluded that no changes would be made to the current policies on retirement ages of the judiciary.

Google: Doubleclick

Lynne Jones: To ask the Secretary of State for Justice pursuant to the answer of 16 July 2007, *Official Report*, columns 47-48W, on Google: Doubleclick, whether he has held discussions with the Information Commissioner on privacy and data protection in the context of Google's proposed acquisition of Doubleclick; and if he will make a statement. [152433]

Mr. Wills: I have met with the Information Commissioner but we have not discussed privacy and data protection in the context of Google's proposed acquisition of Doubleclick.

Irish Sea: Environment Protection

Mr. Dai Davies: To ask the Secretary of State for Justice what matters relating to environmental protection and control of liquid discharges to the Irish Sea were discussed at the British-Irish Council on 16 July in Belfast; and what decisions were reached. [152264]

Mr. Wills: There was a British-Irish Council (BIC) Summit in Belfast on 16 July, which was attended by the Prime Minister. The control of liquid discharge into the Irish Seas was not discussed during the BIC Summit meeting. The BIC is however continuing to intensify co-operation and exchange of information between the members on a number of important environmental areas, including unavoidable climate change, understanding extreme weather events, integrated coastal zone management and managing radioactive waste.

Judicial Appointments Commission for England and Wales: Secondment

Keith Vaz: To ask the Secretary of State for Justice how many of the staff seconded from his Department to the Judicial Appointments Commission are of *(a)* senior leadership, *(b)* policy and *(c)* administrative support grades; whether staff who have been seconded to the Judicial Appointments Commission from his Department have maintained the same line management relationships with their existing managers; whether staff who have been seconded to the Judicial Appointments Commission from his Department may receive performance-related bonuses; what assessment he has made of the performance of the Judicial Appointments Commission; and if he will make a statement. [147977]

Mr. Straw *[pursuant to the reply, 10 July 2007, Official Report, c. 1464-65W]:* My officials have advised that I was given the incorrect data. As of 10 July, 70 staff were seconded from the Ministry of Justice, of those, 37 previously worked for the Lord Chancellor in this area, and 33 have not previously worked in this area.

Lancaster Farms Young Offender Institution: Civil Disorder

David T.C. Davies: To ask the Secretary of State for Justice what estimate he has made of the cost of the damage caused during the recent outbreak of disorder at Lancaster Farm young offender institution. [152017]

Maria Eagle: On 11 July 2007 at Lancaster Farm young offender institution a fight broke out between two groups of juveniles. The incident involved 16 young people and was resolved within 20 minutes. There was no damage to prison property and no costs were incurred.

Local Government: Electorate

Mrs. Lait: To ask the Secretary of State for Justice what the average electorate is for a single member *(a)* district council ward, *(b)* county council ward, *(c)* unitary council ward, *(d)* London borough ward and *(e)* metropolitan council ward, in England. [152412]

Peter Viggers: I have been asked to reply.

The Electoral Commission informs me that there are no metropolitan councils with single member wards, and there is only one single member ward in all the London boroughs, with an electorate as at December 2006 of 3,760. The average electorate sizes for single member district council, county council, and unitary council wards are as set out in the following table. District and unitary council averages are based on December 2006 electoral registers, and that for county councils on December 2004 electoral registers.

Council type	*Average electorate for single-member electoral areas*
District council	1,713
County council	7,818
Unitary council	2,311

Note:
The Isle of Wight county council, which is a unitary county council, has been included in the county council figure.
Source: Local Government Chronicle Elections Centre, University of Plymouth.

Pornography: Children

Tim Loughton: To ask the Secretary of State for Justice (1) how many children have been *(a)* prosecuted, *(b)* given custodial sentences and *(c)* placed on the sex offenders register in each of the last five years; [150360]

(2) how many people have been prosecuted for computer-based child pornography offences in each of the last five years. [150325]

Maria Eagle: The number of children aged 10 to 17 prosecuted, at magistrates courts, sentenced and given custodial sentences for all offences (all offences include sexual, other indictable and summary offences) in England and Wales for the years 2001 to 2005 can be viewed in table 1.

The number of registered sex offenders in the community is published annually in the multi-agency public protection arrangements (MAPPA) Annual Reports. The data are not broken down by the age of the offender.

It is not possible to separately identify computer based child pornography offences from other offences related to child pornography.

The number of persons prosecuted for offences relating to child pornography in England and Wales, for the years 2001 to 2005 can be viewed in table 2.

Court proceedings data for 2006 will be available in the autumn of 2007.

Number of persons aged 10 to 17 proceeded against at magistrates court, sentenced and given custodial sentences for all offences in England and Wales for the years 2001 to 2005[1, 2]

	Age 10-17		
	Proceeded against	*Sentenced*	*Of which: immediate custody*
2001	150,067	95,485	7,596
2002	146,568	94,548	7,416
2003	140,790	92,531	6,200
2004	136,662	96,188	6,325
2005	131,731	96,203	6,015

[1] These data are provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Prisoners Transfers

Mr. Garnier: To ask the Secretary of State for Justice what *(a)* prison service orders, *(b)* prison service instructions and *(c)* other written directions have been issued to (i) police, (ii) prison, (iii) court and (iv) transporting staff directing them not to detain prisoners in prisoner transport vehicles when awaiting or following court hearings. [152348]

Maria Eagle: No written instructions or directions have been issued in regard to the use of transport vehicles to hold prisoners awaiting or following court hearings. The National Offender Management Service have to date received no reports of prisoners being held on vehicles because cells are not available in courts.

Prisoners: Mentally Ill

Mr. Vara: To ask the Secretary of State for Justice how many and what percentage of prisoners held in prisons are prescribed medication for mental health-related reasons. [152044]

Maria Eagle: The information requested is not held centrally. Individual prison prescribing records would have to be checked to provide this information, which could be done only at a disproportionate cost.

Prisoners: Rehabilitation

Mr. Vara: To ask the Secretary of State for Justice how many prisoners who underwent treatment programmes for addiction in prison were referred to outside programmes on their release from prison in each of the last five years. [152046]

Mr. Hanson: A comprehensive framework is in place to ensure the continuation of drug treatment on release from prison:

prisons are fully engaged with the Home Office-led drug interventions programme; and

for those released on licence, probation offender managers facilitate drug treatment within the sentence planning process.

Information on the numbers engaged in prison treatment subsequently referred to community programmes is not held centrally.

Mr. Vara: To ask the Secretary of State for Justice how many of the prisoners released under the Government's early release scheme were undergoing treatment for drug or alcohol-related problems; and how many of those were required to continue such treatment outside prison as part of the terms of their early release. [152047]

Mr. Hanson: Drug treatment can only be provided with consent and cannot therefore directly be made a condition of early release. Information on the number of prisoners undergoing treatment for drug problems at the time of release on end of custody licence is not held centrally. I will write to the hon. Member with the information and place a copy of the letter in the Library of the House.

Information on those undergoing treatment for an alcohol problem is not collated.

Prisons: Construction

Mr. Vara: To ask the Secretary of State for Justice what estimate he has made of the cost of providing an additional 10,000 prison places by 2012. [152045]

Mr. Hanson: A new capacity-building programme which will deliver 8,000 new prison places by 2012 was announced by the Home Secretary in June 2006. A further 1,500 places were announced by the Lord Chancellor on 19 June 2007.

Estimated capital costs for the 8,000 place programme are around £1.5 billion and estimated annual running costs are expected to be around £0.35 billion once the programme is completed. The costs of both programmes will be met using existing resources and new funds from the Treasury.

Prisons: Expenditure

David T.C. Davies: To ask the Secretary of State for Justice how much was spent on prisons in each of the last three years; and what estimate he has made of the cost for the next three years. [152036]

Mr. Hanson: The total spend on prisons is shown in the following table. This includes spending by HMPS, contracted out prisons, and prisons-related spending met directly by the National Offender Management Service (NOMS). It excludes spending on juveniles which is met by the Youth Justice Board.

	£ million
2006-07	[1]2,461
2005-06	2,250
2004-05	2,069

[1] Subject to audit

The figures include (a) HM Prison Service net cash outflow[2] as recorded in its annual accounts, (b) spending on contracted prisons excluding non-cash items, and (c) for 2005-06 and 2006-07, a detailed estimate of spending on services which transferred from the Prison Service to NOMS centre (for example property costs) excluding non-cash items.

The estimated spending in 2007-08, on the same basis, is £2,606 million. For subsequent years the budget on total prisons costs has not yet been formulated.

[2] The net cash outflow covers spending on pay and ongoing no pay items and excludes capital expenditure and non-cash accounting charges such as depreciation.

Young Offenders: Video Games

David T.C. Davies: To ask the Secretary of State for Justice how many *(a)* playstations (one or two) and *(b)* Xboxes were purchased for inmates of young offender institutions (YOIs) in each of the last three years; and how much was spent on (i) Playstations (one or two) and (ii) Xboxes for YOIs in each of the last three years. [152085]

Maria Eagle: The information requested is contained in the table below. It is possible that additional purchases of these items could have been made on a local basis by individual prisons. This information is not held centrally and can only be gathered by contacting each young offender institution's financial records and this could be done only at disproportionate cost.

The number and cost of Playstations and Xboxes purchased for Offenders in public sector Young Offender Institutions between 2005 and 2008

	2005-06	*2006-07*	*[1]2007-08*
Playstations			
Number purchased	45	84	42
Amount spent (£)	4,841	9,218	4,767
XBoxes			
Number purchased	0	15	0
Amount spent (£)	0	1,672	0

[1] Information correct as of 23 July 2007

HOME DEPARTMENT

Asylum

Mr. Clegg: To ask the Secretary of State for the Home Department what the average caseload is of an asylum case owner; and what the figure is in each regional asylum team. [147762]

Jacqui Smith: Regional asylum teams became fully operational from 5 March this year. Most started to take cases from November 2006. The caseload will include cases across the spectrum of the asylum process—including those who claimed last week and are yet to be interviewed, stretching through the appeals process to include those for whom preparations for removal are being made.

In the same time frame, the average caseload per case worker per region is:

	Caseload per case worker
Central London	23
West London	19
Liverpool	23
Leeds	23
Solihull	24
Cardiff	19
Glasgow	21

Border and Immigration Agency: Immigration and Nationality Directorate

Mr. Clegg: To ask the Secretary of State for the Home Department (1) what records *(a)* are kept of the performance of the Border and Immigration Agency and *(b)* were kept of the performance of the Immigration and Nationality Directorate, in processing incoming passengers at ports of entry; [151502]

(2) what the average time taken to process an incoming passenger through passport control at a port of entry to the UK was in each of the last five years, broken down by port of entry. [151503]

Jacqui Smith *[holding answer 23 July 2007]:* The estimated number of international arrivals from outside the common travel area was 101.9 million in 2005 of which 11.8 million were non-EEA nationals.

The Border and Immigration Agency do monitor queuing times closely. Passports of EEA nationals are checked with the minimum of delay and we aim to check passengers who are not EEA nationals within 45 minutes. Passengers using the Iris Recognition Immigration System (IRIS) can expect to cross the IRIS barrier within approximately 20 seconds. Further information on waiting times is available on:

www.ind.homeoffice.gov.uk/comingtotheuk/enteringtheuk.

Community Policing: Great Yarmouth

Mr. Anthony Wright: To ask the Secretary of State for the Home Department what assessment she has made of the impact of safer neighbourhood teams in Great Yarmouth. [151968]

Mr. McNulty: The Home Office is monitoring and evaluating the neighbourhood policing programme across England and Wales through a strategic research programme. The results will be published in due course.

The Home Office also continues to assess police performance, including the impact of neighbourhood policing, through the Police Performance Assessment Framework (PPAF). Inspections by Her Majesty's Inspectorate of Constabulary also provide a qualitative assessment of neighbourhood policing delivery.

Community Support Officers: Cambridgeshire

Mr. Paice: To ask the Secretary of State for the Home Department what the average length of employment as a police community support officer was of police community support officers employed in Cambridgeshire in each of the last three years. [150704]

Mr. McNulty: The information requested is not collected centrally in the police personnel statistics.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for the Home Department what criminal offences have been created by primary legislation sponsored by her Department since October 2006. [149598]

Jacqui Smith: Since October 2006, criminal offences were created in the following Acts sponsored by the Home Office:

(a) Police and Justice Act 2006

Making supplying or obtaining articles for use in computer misuse offences (section 37)

(b) Violent Crime Reduction Act 2006

Breach of a drinking banning order (section 11)

Persistently selling alcohol to children (section 23)

Using someone to mind a weapon (section 28)

Selling air weapons unless a registered firearms dealer (section 31)

Sale of air weapons by way of trade or business where the sale is not done face to face (section 32)

Firing an air weapon beyond premises (section 34)

Sale and purchase of primers (section 35)

Manufacture, sale, importation of realistic imitation firearms (section 36)

Non-compliance with specifications for imitation firearms (section 39)

Sale/purchase of imitation firearms to/by minors (section 40)

Sale and disposal of tickets for a designated football match by an unauthorised person (section 53)

Both Acts also amended some existing offences in certain respects.

DNA Database

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 26 April 2007 to the hon. Member for Sheffield, Hallam, *Official Report*, column 1234W, on the DNA Database, (1) on how many occasions a positive match against one of the individuals recorded in the database has been made in relation to a police investigation in each of the last five years; [149718]

(2) what records are kept of positive matches located in a search of the National DNA Database; [149759]

(3) how many searches were made of the National DNA database in each of the last five years; and how many resulted in *(a)* a match, *(b)* a familial match and *(c)* a sanction detection; [149763]

(4) how many offences were detected through a DNA match with an individual whose DNA was taken in a no further action arrest in each of the last five years. [149760]

Jacqui Smith: The purpose of the National DNA Database (NDNAD) is to hold a record of a person's DNA which can be matched against DNA taken from crime scenes. The NDNAD only reports matches between DNA profile records based on DNA profile compatibility, and sends them to police forces for the use in an investigation. It does not hold data on arrests, charges and convictions. Such information is held on the Police National Computer (PNC).

The NDNAD does not hold data on reported matches and their outcomes (sanction detections). Obtaining this information would require cross-searching of records held on the PNC against the NDNAD, and then contacting each police force that received the DNA match to ascertain the outcome. This information could be obtained only at disproportionate cost.

It is not possible to provide details of the number of searches made of the National DNA Database (NDNAD) in each of the last five years. Each time a subject or crime stain profile is loaded onto the NDNAD it is searched against all the retained profiles. No record has been kept of the number of searches but thousands of these searches are made of the NDNAD every day.

In the last five years the following matches have been recorded:

(i) Matches where a crime scene was linked with one or more subjects

	Number
2006-07	42,208
2005-06	44,611
2004-05	40,879
2003-04	39,335
2002-03	43,904

(ii) Matches where a crime scene was linked to another crime scene

	Number
2006-07	3,349
2005-06	4,237
2004-05	4,349
2003-04	2,816
2002-03	3,258

Drugs: Crime

Hugh Bayley: To ask the Secretary of State for the Home Department what quantity of illegal drugs was seized by the police in *(a)* 1997 and *(b)* the most recent year for which figures are available. [152183]

Mr. Coaker: The latest available data on drug seizures is for 2004 and can be found in the Home Office Statistical Bulletin series "Seizures of Drugs, England and Wales 2004". The quantities seized by the police in England and Wales, for 1997 and 2004, for each drug are shown in the table attached.

The quantities of LSD and ecstasy-type drugs (including MDMA) seized have been listed in thousands of doses seized rather than as a weight. In 2004 the seized LSD quantity was published in number of doses; this answer gives seized LSD quantities in thousands of doses.

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and HM Revenue and Customs. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Table S3 Quantity of seizures of Class A, B and C drugs made by police[1] by drug type and year. England and Wales, 1997 and 2004

	Quantity[2] of seizures	
Drug type	*1997*	*2004*
Class A		
Cocaine	270	1,270
Crack	30	130
Heroin	420	1,130
LSD[2]	40	6[3]
Ecstasy-type[2]	360	1,680
Methadone	110	60
Morphine	0	0
Other Class A	0	10
Class B		
Amphetamines	570	930
Barbiturates	—	—
Cannabis (herbal)[4]	8,180	*
Cannabis plants [2, 4]	77,570	*
Cannabis resin [4]	60,790	*
Other Class B	0	—
Class C		
Benzodiazepines	0	0
Cannabis (herbal))	*	2,790
Cannabis plants[2, 4]	*	88,670
Cannabis resin[4]	*	21,680
Temazepam	0	—
Anabolic steroids	10	0
GHB	*	0
Other Class C	0	0

[1] Seizures from joint operations involving HM Revenue and Customs and the police are generally recorded against HM Revenue and Customs.
[2] Drugs are seized in a variety of forms but where possible, for the purpose of this table, amounts have been converted to weights (kg), except for seizures of LSD and Ecstasy-type which are given in thousands of doses. Cannabis plants are given in thousands of plants. Seizures of unspecified quantities are not included.
[3] Published as 6190 doses
[4] From January 2004, Cannabis was reclassified from a class B to a class C drug.
Notes:
1. MDMA prior to 1996.
2. Seizures from joint operations involving HM Revenue and Customs and the police are generally recorded against HM Revenue and Customs.

Drugs: Misuse

Mr. Burrowes: To ask the Secretary of State for the Home Department what the reasons were for the reduction in the Young People Substance Misuse Grant in 2007-08; and if she will make a statement. [151542]

Mr. Coaker: In addition to mainstream funding, the Government have committed £55 million of ringfenced funding in 2007-08 to support work on reducing young people's drug use through the Young People's Substance Misuse Partnership Grant. This grant is pooled centrally across Departments, administered by the Home Office and paid to local areas. The change in the grant allocation in 2007-08 is primarily due to a reduction of £4 million in the Department of Health's Targeted Prevention Funding. The Department of Health had made a time-limited commitment to this funding, which was not renewed after the transfer of responsibility for drug education and prevention to the Department for Education and Skills. A further £2.6 million reduction was because the Home Office had increased its contribution, by way of a one-off subsidy in 2006-07, to help mitigate a similar reduction of £4 million by the Department of Health in that year.

Fraud: Credit Cards

Margaret Moran: To ask the Secretary of State for the Home Department (1) in how many cases in which credit card fraud is alleged in respect of suspects identified during Operation Ore had such suspects previously reported fraud or theft; [152167]

(2) how many suspects identified as part of Operation Ore who are claiming credit card fraud are *(a)* men and *(b)* women. [152168]

Mr. Coaker: This information is not held centrally.

Fraud: East Sussex

Mr. Waterson: To ask the Secretary of State for the Home Department how many cases of *(a)* identity and *(b)* online fraud were recorded in (i) Eastbourne and (ii) East Sussex in each of the last five years. [151366]

Mr. Coaker: The information requested is not available centrally. The use of another person's identification details (or the use of false identification details), often referred to as identity theft, is not in itself an offence in law. It is the action that is undertaken using those identification details that needs to be considered in respect of whether an offence has occurred and should be recorded.

With regard to online fraud, this is not a separately defined offence in law and such instances will be recorded under the appropriate fraud classification depending on the circumstances of the offence.

Missing Persons

Helen Southworth: To ask the Secretary of State for the Home Department what the direct financial contribution from her Department was to the Police National Missing Persons Bureau in 2006-07; and what the equivalent allocation is for 2007-08. [152316]

Mr. McNulty *[holding answer 24 July 2007]:* No contribution was made to the Police National Missing Persons Bureau in 2006-07. We are proposing to provide a financial contribution in 2008-09 and will be confirming this shortly.

Passports

Mr. Clegg: To ask the Secretary of State for the Home Department how many and what percentage of passport applications were rejected in each of the last five years, broken down by *(a)* ethnicity of applicant, *(b)* reason for rejection and *(c)* processing office. [149766]

Jacqui Smith: The percentage of passport applications rejected in each of the last five years, broken down by office and reason for rejection are set out as follows. The statistics available show only the

breakdown between thóse applications which failed on nationality grounds and those rejected for other reasons. Breakdown by ethnicity is not available.

The passport examination process is designed to confirm the nationality and identity of the intended passport holder and, where required, that consent has been provided. If the Identity and Passport Service does not receive the necessary supporting documentation to confirm the aforementioned, or is unable to verify the application details through examining procedures, it is unable to issue a passport. The 'other reasons' category covers these circumstances and also where the customer requests the application to be withdrawn.

The London office primarily handles applications submitted through its public counters, where the application is checked for completeness before being accepted for processing. Incomplete applications are not accepted. This reduces the number of rejections.

Percentage Passport rejected	0.56	0.58	0.56	0.57	0.60

Mr. Clegg: To ask the Secretary of State for the Home Department how many and what percentage of passport applications sent through the Check and Send service were rejected in each of the last five years. [149767]

Jacqui Smith: We only hold data on Check and Send (Partner) applications rejected for the last financial year.

In the financial year 2006-07, 10,900 or 0.38 per cent. of the total applications received through Check and Send services (Partner) were rejected (withdrawn and failed cases).

Passports: Biometrics

Mr. Clegg: To ask the Secretary of State for the Home Department what estimate she has made of the

time taken to verify *(a)* a biometric passport and *(b)* a non-biometric passport at passport control (i) prior to and (ii) after the introduction of biometric-capability passport readers. [151501]

Jacqui Smith *[holding answer 23 July 2007]:* The new scanners are able to automatically read more data from passports and other travel documents than the old swipe system, which means that fewer details have to be input manually and improved security and fraud checks can be undertaken. They are also able to read the new biometric chips, providing immigration officers with an additional tool to combat identity fraud.

It is critical to the security of the United Kingdom that we verify the identity of all those who seek to enter the country. While allowing most passengers into the United Kingdom quickly, thorough checks are necessary to turn away those who present a risk to the public and to prevent illegal immigration.

Police: East Sussex

Mr. Waterson: To ask the Secretary of State for the Home Department how many crime scene investigators are in post in each police force in East Sussex; and what percentage of those are civilians. [151364]

Mr. McNulty: This is a matter for the chief constable of Sussex police.

Police: Road Traffic Control

Susan Kramer: To ask the Secretary of State for the Home Department how many and what percentage of police officers were dedicated traffic police officers in each year since 1999, broken down by region. [151827]

Mr. McNulty: The available data are for the number of full-time equivalent police officers primarily employed in the function "traffic".

The data are available at police force region level from 2002-03 onwards and are given in the following table:

Police officers (FTE)[1] whose main function[2] is 'Traffic' broken down by region from 31 March 2002 to 31 March 2006

	2002-03	2003-04	2004-05	2005-06
North East	419	445	275	333
North West	1,030	1,008	966	873
Yorkshire and the Humber	775	698	776	762
East Midlands	385	497	495	494
West Midlands	829	672	661	642
Eastern	739	765	756	763
London	607	616	1,057	627
South East	882	778	881	852
South West	650	668	681	596
Wales	587	559	556	569

[1] This and other tables contain full-time equivalent figures that have been rounded to the nearest whole number. Figures include those officers on career breaks or maternity/paternity leave.
[2] Staff with multiple responsibilities (or designations) are recorded under their primary role or function. The traffic function includes staff who are predominantly employed on motorcycles or in patrol vehicles for the policing of traffic and motorway related duties. This does not include officers employed in accident investigation, vehicle examination and radar duties.

Serious Organised Crime Agency: Labour Turnover

Mr. Clegg: To ask the Secretary of State for the Home Department how many people who transferred to the Serious Organised Crime Agency as sworn constables left the agency in each month since its formation; and what proportion this is of the number of *(a)* sworn constable staff and *(b)* staff. [149768]

Jacqui Smith: Since 1 April 2006, 78 sworn constables have left SOCA. This number includes 11 who remained as secondees in SOCA rather than accept SOCA terms and conditions and who have returned to their home force on conclusion of their secondment.

The following table gives details on a monthly basis against *(a)* those holding powers of a constable, and *(b)* all staff in SOCA.

Month left	*Numbers of former police officers directly employed at 1 April 2006 leaving each month*	*Constables leaving each month as percentage of constables at start*	*Constables leaving each month as percentage of total direct employees at start (4069)*
July 2006	2	0.18	0.05
August 2006	2	0.18	0.05
September 2006	5	0.44	0.12
October 2006	3	0.26	0.07

June 2007	8	0.70	0.20
July 2007	6	0.53	0.15
August 2007	1	0.09	0.02
Total	78	6.80	1.90

Speed Limits: Fines

Mr. Vara: To ask the Secretary of State for the Home Department how many people were fined for speeding in each of the last five years, broken down by police force area. [152043]

Mr. Coaker: Information on the number of people fined for speeding from 2000 to 2004, broken down by police force area, is provided in the following table.

Data for 2005 will be available from autumn 2007.

Number of court imposed fines[1] at magistrates courts and fixed penalty notices issued[2] for speed limit offences[4], by police force area, England and Wales, 2000-04

	2000		2001		2002

[1] May include cases where fixed penalty was issued and not paid and consequently taken to court.
[2] Magistrates courts data only. Fines given at the Crown Court total nationally (England and Wales) less than 10 each year.
[3] Covers tickets paid where there is no further action.
[4] Offences under the Road Traffic Regulation Act 1984 ss. 16, 81, 84, 86, 88 & 89; Motor Vehicles (Speed Limits on Motorways) Regs. 1973; Parks Regulation (Amendment) Act 1926—byelaws made thereunder.
[5] Revised since initial publication in the annual Bulletin.

Notes:
1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete. Work is underway to ensure that the magistrates courts case management system currently being implemented by the Ministry of Justice reports all motoring offences to the Office for Criminal Justice Reform. This will enable more complete figures to be disseminated.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Support Orders

Ann Coffey: To ask the Secretary of State for the Home Department pursuant to the answer of 25 January 2007, *Official Report*, column 2029W, on support orders, if she will place in the Library the results of the three month survey of 50 respect action areas to assess the use of individual support orders. [151456]

Mr. Coaker: The survey has been extended to allow further data to be received. The results are due to be published on the Home Office website and a copy will be placed in the Library in the next few months. In the meantime, we are continuing to work with Her Majesty's Court Service and the Youth Justice Board to ensure that young people on antisocial behaviour orders receive support in addressing their antisocial behaviour.

DUCHY OF LANCASTER

Departments: Legislation

Dr. Cable: To ask the Chancellor of the Duchy of Lancaster which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151838]

Edward Miliband: No bills introduced by the Cabinet Office in the last five years contained sunset clauses. The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Written Questions

Norman Baker: To ask the Chancellor of the Duchy of Lancaster (1) what role his Department plays in providing *(a)* guidance and *(b)* assistance to other departments on the provision of answers to written parliamentary questions; [151270]

(2) where, at what point and by whom the decision is taken to recommend to Ministers that an identical answer might be provided when similar written parliamentary questions are tabled to different departments. [151276]

Edward Miliband: I refer the hon. Member to the answer that the then Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Hilary Armstrong) gave the hon. Member for Southend, West (Mr. Amess) on 11 July 2006, *Official Report*, column 1825W.

Duchy of Lancaster: Finance

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what the disbursement from the surplus of the Duchy of Lancaster to the Queen was in each year from 1979. [151281]

Edward Miliband: The information requested is available in the Libraries of the House for the reference of Members.

Ministerial Policy Advisers: Standards

Norman Baker: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 16 July 2007, *Official Report*, column 36W, on ministerial policy advisers: standards, whether the code will be published within the next two months. [151274]

Edward Miliband: It will be published as soon as possible.

Official Residences: Official Hospitality

Mr. Spring: To ask the Chancellor of the Duchy of Lancaster how much has been spent on entertainment from the public purse at *(a)* One Carlton Gardens, *(b)* Chevening, *(c)* Admiralty House, *(d)* Hillsborough Castle and *(e)* the Lord Chancellor's apartments since 27 June 2007. [152461]

Edward Miliband: Guidance relating to Ministers' use of official residences is set out in Sections 6.2 and 7.10 the "Ministerial Code". The detailed information requested is not held centrally. Expenditure on official entertainment is the responsibility of the relevant department.

Public Appointments: Pay

Mr. Spring: To ask the Chancellor of the Duchy of Lancaster who has been appointed to the board of a public body since 27 July 2007; and on what salary in each case. [152460]

Edward Miliband: Individual departments publish information annually on appointments to the public bodies for which they are responsible, including information on remuneration. Data for 2006-07 is in the process of being published by departments alongside the publication of departmental reports.

NORTHERN IRELAND

Prison Staff: Religious Affiliation

8. **Dr. Alasdair McDonnell:** To ask the Secretary of State for Northern Ireland what proportion of *(a)* prison officers and *(b)* other prison service staff in Northern Ireland are from each religion or community in Northern Ireland. [151129]

Paul Goggins: At 1 April 2007 within the NIPS the composition of prison service grades was 80.1 per cent. Protestant, 8.4 per cent. Roman Catholic and 11.5 per cent. non-determined. For non-prison service grades the composition was 75.3 per cent. Protestant, 22.9 per cent. Roman Catholic and 1.8 per cent. non-determined.

Historical Inquiries

10. **Andrew Selous:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of the ongoing historical inquiries in Northern Ireland; and if he will make a statement. [151131]

11. **Mr. Bone:** To ask the Secretary of State for Northern Ireland what estimate he has made of the total cost to the public purse of work on historical inquiries in Northern Ireland; and if he will make a statement. [151132]

Mr. Woodward: I refer the hon. Gentlemen to the answer I gave earlier to the hon. Members for Forest of Dean (Mr. Harper), Bracknell (Mr. Mackay) and for Bromley and Chislehurst (Robert Neill).

Dissident Republican Groups

12. **Philip Davies:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the security threat posed by dissident republican groups. [151133]

Mr. Woodward: As the 15th IMC report shows, dissident republicans, although isolated and few in number, continue to engage in terrorist activities and remain a threat to the security situation.

Saville Inquiry

13. **Mr. Robathan:** To ask the Secretary of State for Northern Ireland how much has been spent on the Saville inquiry. [151134]

Mr. Woodward: I refer the hon. Gentleman to the answer I gave earlier to the hon. Members for Forest of Dean (Mr. Harper), and for Bromley and Chislehurst (Robert Neill) and the right hon Member for Bracknell (Mr. Mackay).

Equality Act (Sexual Orientation) Regulations

14. **Miss McIntosh:** To ask the Secretary of State for Northern Ireland what recent representations he has received on the application of the Equality Act (Sexual Orientation) Regulations (Northern Ireland) 2006. [151135]

Paul Goggins: I have received no representations on the application of these regulations, the responsibility for which now rests with the Northern Ireland Executive.

Parades Commission

Sammy Wilson: To ask the Secretary of State for Northern Ireland if he will publish the findings of the Review of the Parades Commission. [151130]

Mr. Woodward: The work of the Strategic Review of Parading, chaired by Lord Ashdown, is under way, and is due to report in early 2008. This review aims to find a settled cross-community view on the issue of parading.

Parades

David Simpson: To ask the Secretary of State for Northern Ireland if he will make a statement on the policing of 12 July parades in 2007. [151136]

Paul Goggins: It is encouraging to note that for the second consecutive year the PSNI policed the 12 July parades without the need for soldiers to be deployed on the ground.

TREASURY

11 Downing Street: Charities

Mr. David Jones: To ask the Chancellor of the Exchequer pursuant to the answer of 25 June 2007, *Official Report*, column 361W, on 11 Downing street: charities, on how many occasions each of those charities has used 11 Downing street. [147417]

Angela Eagle *[holding answer 3 July 2007]:* Charities can apply for extended use of number 11 Downing street if they so wish and subject to availability. I refer the hon. Gentleman to the answer my hon. Friend gave on 1 February 2007, *Official Report*, column 412W, on 8 February 2007, *Official Report*, column 1133W and 16 May 2007, *Official Report*, column 758W.

Departments: Air Conditioning

Chris Huhne: To ask the Chancellor of the Exchequer how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151983]

Angela Eagle: The following table presents the costs to HMT and its agencies as can be obtained from information held centrally:

£

Department/ agency	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
HM Treasury	0	0	0	0	0
Debt Management Office	0	0	0	3,892	0
Office of Government Commerce	0	0	0	0	0

Note:
VAT is included in the figures unless stated otherwise.

Departments: Rural Areas

Mr. Paice: To ask the Chancellor of the Exchequer how many Treasury achievement targets take account of rural proofing. [152082]

Andy Burnham: The Treasury undertakes rural proofing, where applicable, in its policy development, in line with Green Book guidance (see chapter 2, paragraph 25 which states: "Rural issues—the Government is committed to ensuring that all its policies take account of specific rural circumstances. Appraisers should assess whether proposals are likely to have a different impact in rural areas from elsewhere."). HM Treasury has 10 public service agreement (PSA) targets set under the 2004 spending review. The relevant policies underlying these targets have been rural proofed.

Departments: Visits Abroad

Mrs. May: To ask the Chancellor of the Exchequer how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151650]

Angela Eagle: In 2006-07, travel and subsistence costs for the Treasury were £1,881,000. Further detail relating to the number of visits could be provided only at disproportionate cost. In respect of total costs for earlier years, I refer to the answer given by the then Financial Secretary (John Healey) to the hon. Member for Shipley (Philip Davies) on 12 June 2006, *Official Report*, column 926W.

Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the civil service management code and the ministerial code.

EC Internal Trade

Keith Vaz: To ask the Chancellor of the Exchequer what discussions representatives of HM Revenue and Customs have had with the European Commission on cross-border shopping. [151301]

Angela Eagle: HM Revenue and Customs have had no recent discussions with the European Commission on cross-border shopping. In October 2001, the European Commission launched infraction proceedings against

the UK concerning its policy in relation to seizures and sanctions for smuggling of excise goods. Between then and March 2006, when the Commission closed these infraction proceedings, a number of meetings were held between representatives of HM Revenue and Customs and Commission officials to discuss this issue.

Housing: Low Incomes

Alistair Burt: To ask the Chancellor of the Exchequer what assessment his Department has made of the case for a tariff system in place of section 106 agreements and planning gain supplement. [151316]

Angela Eagle: In his statement on the third session draft legislative programme on 11 July 2007, the Prime Minister said that the Planning-gain Supplement Bill is provisional within that programme because if, prior to the pre-Budget report, a better way is identified of ensuring that local communities receive significantly more of the benefit from planning gain, including to invest in necessary infrastructure and transport, and it is demonstrated that it is a better alternative, the Government will be prepared to defer next session's legislation.

The Housing Green Paper published on 23 July 2007 says that PCS remains the Government's preferred option but lists the main alternative approaches, including those which have been raised by stakeholders.

These approaches set out in the Green Paper will form the basis for discussions with key stakeholders prior to the pre-Budget report.

OECD: Israel

Mr. Amess: To ask the Chancellor of the Exchequer (1) if he will make it his policy to support the application of Israel to join the Organisation for Economic Co-operation and Development (OECD); what discussions he has had with the OECD about the issue; and if he will make a statement; [150996]

(2) what discussions *(a)* he and *(b)* Ministers and officials from his Department have had with the Government of Israel on its application to join the Organisation for Economic Co-operation and Development; and if he will make a statement; [150997]

(3) what discussions *(a)* he and *(b)* Ministers and officials from his Department have had with the US Administration on the application of Israel to join the Organisation for Economic Co-operation and Development; and if he will make a statement. [150998]

Kitty Ussher: The UK supported the OECD decision, taken by consensus, that Israel, along with Chile, Estonia, Russia and Slovenia, should start accession negotiations with the OECD. Roadmaps for the accession processes are being prepared by the Secretary General for the OECD Council approval. These will set out the terms and conditions that will be required of each individual candidate country before their accession can take place. The FCO leads on the OECD for Her Majesty's Government.

Treasury Ministers and officials discuss a wide range of issues with their counterparts in the OECD and accession countries as part of the process of policy analysis, development and delivery.

Revenue and Customs: ICT

Alistair Burt: To ask the Chancellor of the Exchequer what access HM Revenue and Customs has to the Valuation Office Agency's *(a)* Automated Valuation Model and *(b)* property databases to assist it in its statutory functions. [151328]

Jane Kennedy: HM Revenue and Customs staff have no direct access to the Valuation Office Agency's *(a)* Automated Valuation Model or *(b)* property databases.

Tax Allowances

Mr. Laws: To ask the Chancellor of the Exchequer (1) what his most recent estimate is of the costs of making the personal allowance transferable between couples; and if he will make a statement; [151190]

(2) what estimate he has made of the total financial effect on *(a)* married couples with children and *(b)* married couples without children of making the personal allowance transferable; and if he will make a statement; [151191]

(3) what estimate he has made of the proportion of individuals who are married who would benefit from a transferable personal tax allowance; and if he will make a statement. [151193]

Jane Kennedy: Due to the complex nature of this question the following estimates should be treated with caution. These estimates exclude any behavioural response to the change, which could be significant given the magnitude of the change.

The most recent estimate of the costs of making the personal allowance transferable between all couples, married and unmarried, is approximately £4.1 billion in 2007-08.

The cost for married couples with children of making the personal allowance transferable is estimated to be around £1.5 billion in 2007-08. The cost for married couples without children of making the personal allowance transferable is estimated to be around £1.9 billion in 2007-08. It is estimated that 38 per cent. of married couples would benefit from a transferable tax allowance in 2007-08.

The estimates were calculated using the Department's tax and benefit model (IGOTM) based on data from the Family Resources Survey.

Valuation Office: ICT

Alistair Burt: To ask the Chancellor of the Exchequer (1) how much the Valuation Office Agency has spent on *(a)* network support offices and *(b)* data capture centres; [151317]

(2) what the addresses are of the Valuation Office Agency's *(a)* network support offices and *(b)* data capture centres. [151318]

Jane Kennedy: The Valuation Office Agency has two operational units which provide dedicated general administrative support to its network of offices across England and Wales. They were originally established as data capture centres but are now network support

offices. The Agency's published annual accounts report only the total costs of its operations—attributions to individual units are not made and could not be undertaken at reasonable cost.

The addresses of the Valuation Office Agency's network support offices are:

Plymouth Network Support Office
Valuation Office Agency
190 Armada Way
Plymouth
PL1 1EG

Halifax Network Support Office
Valuation Office Agency
Crown House
60 Crown Street
Halifax
West Yorkshire
HX1 1HY

Valuation Office: Manuals

Alistair Burt: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's Referencing Manual. [151313]

Jane Kennedy: A copy of the Valuation Office Agency's Referencing Manual has been placed in the Library.

Valuation Office: Training

Alistair Burt: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's Training Events Catalogue. [151314]

Jane Kennedy: The Training and Events Catalogue is held in linked electronic formats within the Valuation Office Agency's main IT systems and can only be viewed with full functionality through the appropriate software package. To provide a copy of the catalogue and attached documents could be done only at disproportionate cost.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Bankruptcy

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment was made of the likely impact of fast-track voluntary arrangements on the level of annulled bankruptcies in preparing the regulatory impact assessment for the Enterprise Act 2002; and if he will make a statement. [152504]

Mr. McFadden: The Regulatory Impact Assessment for the Enterprise Act 2002 makes no reference to the likely impact of fast-track voluntary arrangements on the level of annulled bankruptcies.

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment has been made of the impact of fast-track voluntary arrangements for bankruptcy; and if he will make a statement. [152507]

Mr. McFadden: The Insolvency Service is undertaking a comprehensive evaluation of the Enterprise Act 2002 insolvency provisions, overseen by an evaluation group of independent stakeholders. The final evaluation report on the individual insolvency provisions of the Enterprise Act 2002 is due to be published in autumn 2007.

Bankruptcy: Fee and Charges

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints were received by the Insolvency Service in each year since 2002; how many of these complaints related to the fees charged by insolvency practitioners acting as trustees in individual bankruptcy cases; and if he will make a statement. [152508]

Mr. McFadden: The main function of the Insolvency Service is to administer individual bankruptcies and companies wound up by the court. Complaints received by the Insolvency Service mainly relate to those activities. The Insolvency Service's financial year runs from 1 April to 31 March, details of complaints received for the years 2002-03 to 2005-06 are set out as follows:

	Number
2002-03	462
2003-04	370
2004-05	372
2005-06	428

Complaints about insolvency practitioners are directed to the appropriate authorising body where the insolvency practitioner is not authorised by the Secretary of State.

The Insolvency Service does not maintain specific data for complaints relating to the fees charged by insolvency practitioners acting as trustees in individual bankruptcy cases.

The primary responsibility for agreeing an office holder's remuneration rests with the creditors and there are legislative provisions that enable the court to consider challenges to the amount of remuneration charged or allowed. As the legislation provides for such an appeal process I am unable to consider such complaints.

Business: Islwyn

Mr. Touhig: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many residents of Islwyn constituency started their own business in each of the last five years; [151728]

(2) how many VAT registrations there were in Islwyn constituency in each of the last five years. [151858]

Mr. Timms: The number of VAT registrations in the Islwyn parliamentary constituency is shown as follows for 2001 to 2005. Data for 2006 will be published in autumn 2007.

VAT registrations, Islwyn parliamentary constituency

	Number
2001	85
2002	95
2003	130
2004	115
2005	100

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994-2005. Available at http://stats.berr.gov.uk/smes/vat

Although the number of new registrations has fluctuated over the period, the total number of VAT registered businesses in Islwyn parliamentary constituency has increased from 1,005 in 2001 to 1,110 at the start of 2006, an increase of 105 (10 per cent.).

VAT registration data provides the only accurate indicator of the level of start-up activity at the constituency level.

However, VAT registrations do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Only 1.8 million out of 4.3 million UK enterprises (42 per cent.) were registered for VAT at the start of 2005.

Business: York

Hugh Bayley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many businesses there are in York; how many there were in 1997; and how many businesses have *(a)* started and *(b)* ceased trading in York since 1997. [152207]

Mr. Timms: Estimates of the total business population, which includes businesses with a turnover above and below the VAT threshold, are not produced below the regional level. However, data on the total number of VAT registered businesses, and the number of businesses registering and de-registering for VAT each year, in each UK constituency are published by BERR. Data is available at:

http://stats.berr.gov.uk/smes/vat

There were 2,085 VAT registered businesses in the City of York constituency at the start of 1997. At the start of 2006 there were 2,495 VAT registered businesses, a rise of 410 (20 per cent.) over the period.

Between 1997 and 2005 (inclusive) there were 2,125 new VAT registrations and 1,720 VAT de-registrations in the City of York constituency.

Registration and de-registration data for 2006, and stock data for the start of 2007, will be published in autumn 2007.

VAT registrations do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Similarly, businesses that de-register may not have closed. Only 1.8 million out of 4.3 million UK enterprises (42 per cent.) were registered for VAT at the start of 2005.

Children: Protection

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 17 July 2007, *Official Report*, column 264W, on children: protection, what steps the Government plan to take before the implementation of the Safeguarding Vulnerable Groups Act 2006 in autumn 2008 to prevent known paedophiles from opening a children's agency specialising in theatre, television and modelling. [152009]

Mr. McFadden: Under the Criminal Justice and Court Services Act 2000 it is an offence to knowingly offer work to or to employ a person in a child care position if they are disqualified from working with children either by virtue of being included on one of the Secretary of State for Children, Schools and Families Lists (the Protection of Children Act (PoCA) List or its equivalent in Scotland or List 99) or a disqualification order from the court. Individuals who apply or offer to work, accept work or continue to work with children in such positions will be committing a criminal offence and can face prosecution if they are disqualified from working with children.

The extent to which those running a children's agency specialising in theatre, television and modelling would be covered by the PoCA regulations would depend on the nature of their actual work. However, if a person is deemed to be caring for children under 16 in the course of the children's employment they would be in a regulated position and therefore covered by PoCA.

Departments: Sick Leave

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of sick leave taken by staff in his Department was stress-related in each of the last three years. [145982]

Mr. Thomas: The following shows the percentage of sick leave taken by staff in the former DTI which was stress-related in each of the last three years:

	Percentage
2006-07	19.8
2005-06	11.5
2004-05	5.6

The aforementioned data cover all recorded conditions related, or possibly related, to stress and do not distinguish between work and non-work related stress. These data should be considered in the context of an average sickness absence figure for 2006 of 5.4 days for the former DTI which is below the average for a civil service medium sized policy based organisation in of 6.6 days.

Our ongoing support measures for helping staff reporting stress-related sick leave include the following:

Early referral to the Department's medical adviser,

Return to work interviews,

Independent confidential,

A "Keeping in Touch" policy for those on long term sick leave,

Participation in the cross-Whitehall network on stress management.

Employment: Industrial Disputes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research he has conducted on *(a)* the average time for an employment dispute to be resolved, *(b)* the average time for an employment dispute to be resolved through an employment tribunal, *(c)* the average time for an employment dispute to be resolved if resolved through mediation and *(d)* the average time for an employment dispute to be resolved if mediation is undertaken but was unsuccessful; and if he will make a statement. [151892]

Mr. McFadden: The most recent assessment carried out by my Department of average time for employment disputes to be resolved was the 2003 Survey of Tribunal Applications. The next such survey is scheduled for the first half of 2008. Average time estimates are not available for those cases going to mediation, as the Department does not conduct research on mediation of employment disputes outside of the Employment Tribunal System.

Industrial Disputes: Arbitration

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department has conducted any research on user satisfaction in mediated employment disputes. [151295]

Mr. McFadden: No research on user satisfaction in mediated employment disputes has been conducted by my Department or the former Department of Trade and Industry in recent years.

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the average total cost of *(a)* mediating and *(b)* litigating an employment dispute. [151297]

Mr. McFadden: The Department does not collect information on private mediation in employment disputes. The Department has approved plans to undertake the next periodic Survey of Employment Tribunal Applications (SETA) in 2008. SETA assembles a broad range of data on ETs including the legal costs, costs of advice and representation, and other expenses, incurred by claimants and employers involved in employment tribunals (ET) claims. The last SETA was conducted in 2003. Results were published by the Department in 2004 as ERRS No. 33 Findings from the Survey of Employment Tribunal Applications 2003.

Industrial Disputes: Mediation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many employment dispute mediators there were in each of the last three years; and what he expects to be the trend in this figure over the next three years. [150793]

Mr. McFadden: The Government do not hold information on all types of employment dispute mediators.

The consultation "Resolving Disputes in the Workplace" covered the area of mediation, and the Government will publish its plans for the way forward in resolving disputes in the workplace in due course.

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will commission research into the effect of the practice of employment tribunals not awarding costs to employees who win their cases on the *(a)* number of cases going to tribunal and *(b)* time taken by employers in assembling their cases; and if he will make a statement. [150859]

Mr. McFadden: The Department has approved plans to undertake the next periodic Survey of Employment Tribunal Applications (SETA) in 2008. SETA assembles a broad range of data on ETs including costs incurred by claimants and employers involved in employment tribunal (ET) claims and their awareness of the cost regime and its impact on decisions to settle or withdraw claims. The survey cannot establish the effect of ETs not routinely awarding costs to successful claimants on potential claimants since these are not included in the survey. It is also not possible to test the impact of the counterfactual—tribunals routinely awarding costs to successful claimants. Findings from SETA 2008 will be published in the Employment Relations Research Series (ERRS) by the end of 2008. The last SETA was conducted in 2003. Results were published by the Department in 2004 as ERRS No. 33 Findings from the Survey of Employment Tribunal Applications 2003.

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many representations containing concerns on increasing the use of mediation in employment disputes his Department and its predecessor have received in the last five years. [150863]

Mr. McFadden: The Government do not hold this information.

The consultation "Resolving Disputes in the Workplace" covered the area of mediation, and the Government will publish their plans for the way forward in resolving disputes in the workplace in due course.

Industrial Disputes: Small Businesses

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the effect of employment disputes on small firms. [151292]

Mr. McFadden: Employment tribunal cases clearly impose additional costs on small firms, as they do on other respondents. The most recent assessment by my Department of the impact on respondents was the 2003 Survey of Tribunal Applications. The next such survey is scheduled for the first half of 2008.

Industrial Relations: Disputes Procedures

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 11 July 2007, *Official Report*, column

1545W, on industrial relations: disputes procedures, for what reasons his Department only supports mediation through the funding of the Advisory, Conciliation and Arbitration Service; whether his Department plans to support mediation through additional means in the future; and if he will make a statement. [150846]

Mr. McFadden: The review undertaken by Michael Gibbons was a far-reaching, independent review covering all aspects of resolving employment disputes in the workplace in Great Britain.

In light of this review and the responses received to the consultation "Resolving Disputes in the Workplace", the Government are currently developing their plans for the way forward on the resolution of employment disputes including the role of mediation. These plans will be published in due course.

Joint Industry Board for the Electrical Contracting Industry: Arbitration

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer to the hon. Member for North-East Hertfordshire (Mr. Heald) of 17 July 2007, *Official Report*, column 285W, on the Joint Industry Board for the Electrical Contracting Industry: Arbitration, when in the autumn he expects the response to Michael Gibbons review. [152094]

Mr. McFadden: Michael Gibbons review was published on 21 March. Alongside the Gibbons review, we published a consultation document seeking views on ways of helping resolve employment disputes successfully in the workplace. That consultation closed on 20 June 2007, and we received over 400 responses to it. We are analysing the responses received and will publish the Government response when it is ready, in the autumn.

Mediation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what factors were taken into account in deciding not *(a)* to promote and *(b)* to provide information on mediation in employment disputes in guidance issued by his Department. [151866]

Mr. McFadden: BERR does promote and provide information on methods of dispute resolution via ACAS, direct.gov and business.gov, information sources used by parties to employment disputes. It also provides funding for the Citizens Advice Bureau network, which advises clients involved in employment disputes, including on methods of alternative dispute resolution.

Mediation: Qualifications

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department has assessed the merits of introducing statutory *(a)* registration and *(b)* qualifications for mediators. [150862]

Mr. McFadden: The review undertaken by Michael Gibbons was a far-reaching, independent review covering all aspects of resolving employment disputes in the workplace in Great Britain, including mediation.

Aspects of mediation were covered in the public consultation "Resolving Disputes in the Workplace". The Government are currently assessing responses to this consultation and developing their plans for the way forward on the resolution of employment disputes. These plans will be published in due course.

Small Businesses: York

Hugh Bayley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many small businesses there were in City of York *(a)* constituency and *(b)* local authority area in each year since 1992. [151611]

Mr. Timms: Estimates of the total small business population, which includes businesses with a turnover above and below the VAT threshold, are not produced below the regional level.

However data on the total number of VAT registered businesses in each UK constituency and local authority is published by BERR. Data for City of York parliamentary constituency and York unitary authority are shown as follows for the years 1994 to 2006. Data prior to 1994 are not available. Data for the start of 2007 will be published autumn 2007.

Number of VAT registered businesses at the start of each year

	City of York PC	*York UA*
1994	2,120	4,055
1995	2,120	4,050
1996	2,110	4,065
1997	2,085	4,080
1998	2,130	4,170
1999	2,165	4,260
2000	2,200	4,335
2001	2,230	4,445
2002	2,270	4,535
2003	2,270	4,640
2004	2,355	4,775
2005	2,420	4,865
2006	2,495	4,940

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994-2005. Available at: www.dtistats.net/smes/vat/

Between 1994 and 2006 the number of VAT registered businesses increased by 18 per cent. in the City of York constituency, and by 22 per cent. in York unitary authority.

VAT registrations do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Only 1.8 million out of 4.3 million UK enterprises (42 per cent.) were registered for VAT at the start of 2005.

Wave Power

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research he has *(a)* conducted and *(b)* evaluated on the possible use of wave energy systems in the UK. [150605]

Malcolm Wicks: Since 2000 the DTI New and Renewable Energy R and D Programme, which is now part of the Technology Strategy Board's Technology Programme, has funded industry-led, shared-cost, pre-competitive research and development into wave energy. A total of 30 projects have been supported under the programme covering 10 different device concepts, as well as a number of ancillary technologies.

To date a total of 17 reports setting out the results of this research have been published (not all of the 30 projects are complete) and most are available from the BERR Publications Unit at:

www.berr.gov.uk/publications/index.html

These suggest that wave energy systems could potentially make a significant contribution towards our energy needs if a number of technical and economic barriers can be overcome.

Other research in this area has been supported by the Engineering and Physical Sciences Research Council, the Carbon Trust, the International Energy Agency and the European Commission.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health what research his Department *(a)* has undertaken and *(b)* plans to undertake into the reasons for repeat abortions; and if he will make a statement. [152783]

Dawn Primarolo: No research has been undertaken or is planned in this specific area.

Agency Nurses: East Sussex

Mr. Waterson: To ask the Secretary of State for Health how much has been spent on agency nurses providing temporary cover in *(a)* Eastbourne and *(b)* East Sussex in each of the last 10 years. [151410]

Dawn Primarolo: The information is not collected in the format requested. Data is collected by 'non national health service nursing, midwifery and health visiting staff'. This will include staff who are other than agency, for example bank nurses. Information is not collected by place but by NHS trust. The earliest data available for NHS acute trusts in the East Sussex area is 1999 and for NHS primary care trusts 2002 and is shown in the following table.

Expenditure on agency nurses in Eastbourne and East Sussex: Expenditure on non-NHS (agency etc.) nursing midwifery and health visiting staff

£000

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health (1) how many teenagers were admitted to accident and emergency in *(a)* Hampshire and *(b)* England as a result of drinking alcohol in the last (i) 12 months and (ii) five years; [150957]

(2) what treatments were most frequently administered to teenage drinkers admitted to accident and emergency departments in the last *(a)* 12 months and *(b)* five years in (i) Hampshire and (ii) England. [151007]

Dawn Primarolo: Data on the age of patients attended to or the treatments given in accident and emergency (A & E) departments is not collected centrally.

It should be noted that there is a difference between alcohol related disease and other alcohol related admissions: data on the age of patients attended to or the treatments given in A & E departments is not collected centrally. Data is also not collected on injuries sustained where alcohol has been a contributory factor.

However, the following table shows the numbers of Finished Admission Episodes (FAE) for 13 to 19-year-olds admitted to hospital via A & E departments with a primary diagnosis of alcohol related illnesses for each year for the past five years.

Count of FAE with a primary diagnosis of alcohol related Illnesses admitted via A & E for 13-19 year olds, data for NHS Hospitals, England, 2005-06

	Hampshire and Isle of Wight Strategic Health Authority of Residence	*England (inc. Hampshire)*
2005-06	191	5,575
2004-05	171	4,800
2003-04	155	4,455
2002-03	125	3,758
2001-02	102	4,102

Notes
FAE
A FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients as a person may have more than one admission within the year.
Assessing growth through time
Hospital Episode Statistics (HES) figures are available from 1989-90 onwards. During the years that these records have been collected by the national health service, there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Diagnosis (primary diagnosis)
The primary diagnosis is the first of up to 14 (7 prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.
The ICD10 Codes used to define alcohol related conditions are as follows:
T51—Toxic Effect of Alcohol
K70—Alcoholic Live Disease
F10—Mental and behavioural disorders due to alcohol
Age:
Data is for those who were between 13 and 19 years old at the start of the episode
Admission Method:
Admission method 21 and 28 were selected for A & E admissions
This data is for patients admitted to hospital as an inpatient, via A & E. This does not reflect the number of A & E attendances.

HES, The Information Centre for Health and Social Care

Assertive Outreach Services

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the *(a)* distribution and *(b)* effectiveness of assertive outreach services. [151022]

Mr. Ivan Lewis: Assertive outreach teams provide intensive support for people with severe mental illness who find it difficult to engage in more traditional mental health services. At 31 January 2006, there were 525 assertive outreach (AO) teams in England.

Assertive outreach services are effective in caring for about 18,400 people (at 31 March 2007). The table shows the distribution of AO teams across England by strategic health authority (SHA). The difference between the SHA total and the England total is due to some teams not being assigned to an SHA.

Number of AO teams in England by strategic health authority in January 2006

SHA name	*Total AO teams*
North East	18
North West	30
Yorkshire and the Humber	22
East Midlands	19
West Midlands	26
East of England	26
London	40
South East Coast	22
South Central	19
South West	29
SHA total	251
England total	525

Service mapping.

Autism

Mr. Anthony Wright: To ask the Secretary of State for Health whether he plans to collect national figures on the number of people with autism. [151951]

Ann Keen: The Department has no plans to collect national figures on the number of people with autism.

Blood Transfusions

Dr. Iddon: To ask the Secretary of State for Health what estimate his Department has made of the *(a)* direct and *(b)* indirect costs of a blood transfusion. [151995]

Dawn Primarolo: We cannot estimate the cost of an individual blood transfusion. However, the cost of a unit of red blood cell is £134.

Cancer: Anaemia

Dr. Iddon: To ask the Secretary of State for Health (1) what estimate his Department has made of the proportion of cancer patients who suffer from anaemia; [151996]

(2) what assessment his Department has made of the potential effect on costs to the NHS of using erythropoietin for the treatment of cancer-related anaemia; [152022]

(3) what treatments are *(a)* licensed, *(b)* recommended by the National Institute for Health and Clinical Excellence (NICE) and *(c)* being reviewed by NICE for the treatment of cancer-related anaemia; [152023]

(4) what estimate his Department has made of the proportion of cancer patients receiving treatment for cancer-related anaemia. [152098]

Ann Keen: Options available to address anaemia in cancer patients include blood transfusions, iron supplementation, erythropoietin and adjustments to a patient's cancer treatment regime.

On 29 June 2007 the National Institute for Health and Clinical Excellence (NICE) published its preliminary recommendations on the use of erythropoietin for the treatment of anaemia induced by cancer treatment.

These preliminary recommendations are currently with stakeholders for consultation and they have until 23 July 2007 to submit comments. Final guidance from NICE is expected later this year.

The Department has not made any estimate of the number of cancer patients who suffer from anaemia or who receive treatment for anaemia.

However, the NICE appraisal of erythropoietin sets out that a large European study of almost 15,000 cancer patients found that, at enrolment, around half of the patients had anaemia. This proportion increased during treatment, particularly with chemotherapy. Proportions also appeared to be larger in patients with lymphoma, myeloma and gynaecological cancers than in patients with other types of cancer.

The Department has not made an assessment of the potential effect on costs to the national health service of using erythropoietin. However, NICE estimates that the cost of a course of treatment with erythropoietin is approximately £2,500 to £5,000, excluding VAT.

Cancer: Medical Treatments

Dr. Gibson: To ask the Secretary of State for Health who will be responsible for implementing the cancer reform strategy. [151721]

Ann Keen: The cancer reform strategy is currently being developed and mechanisms to implement the strategy will be considered as part of this in due course. The Department aims to publish the strategy before the end of the year.

Care Homes

Mr. Waterson: To ask the Secretary of State for Health what estimate he has made of the number of *(a)* state and *(b)* privately-funded care home places in (i) Eastbourne, (ii) East Sussex and (iii) England per head of population. [151406]

Mr. Ivan Lewis: Neither the Department nor the Commission for Social Care Inspection (CSCI) collects data on population numbers. Information on the number of care and nursing homes and registered places is collected by CSCI as part of its registration and inspection activities.

The Office for National Statistics has supplied data on numbers of adults aged 18 and over in England and the East Sussex council areas. Numbers of care and nursing home places in England and East Sussex as percentages of the numbers of adults aged 18 and over are shown in the table. Data on numbers of places in Eastbourne is not available.

Care home places are not registered as state or privately funded; care is funded in a variety of ways. Depending on their circumstances, residents may fund their own care, or be partly or wholly supported by councils or the national health service, or organisations such as charities and previous employers. As a result, the same place may, at different times, be state or privately funded depending on the circumstances of the resident occupying it.

Area	*Places*[1]	*Number of adults aged 18 and over*[2]	*Number of places as a percentage of adults aged 18 and over*[3]
England	441,581	39,383,400	1.12
East Sussex	8,086	393,700	2.00

[1] Numbers include residential and nursing home places for older people and for younger adults (aged 18 to 64).
[2] Figures rounded to the nearest 100. These data are Crown copyright.
[3] Percentages rounded to two decimal places.
Sources:
1. CSCI registration and inspection database, 10 July 2007
2. Office for National Statistics mid-2005 population estimates (latest available figures)

Care Homes: East Sussex

Mr. Waterson: To ask the Secretary of State for Health how many *(a)* occupied and *(b)* available extra care housing places there are in (i) Eastbourne and (ii) East Sussex. [151407]

Mr. Ivan Lewis: This information is not collected centrally.

Chemicals: Health Hazards

Chris Huhne: To ask the Secretary of State for Health what assessment he has made of the impact on human health of man-made chemicals found in household goods, with particular reference to *(a)* perfluorinated compounds, *(b)* phthalates, *(c)* phenolic compounds and *(d)* brominated flame retardants; and what measures the Government plans to protect human health against the effects of such chemicals. [151748]

Dawn Primarolo: Regulations are in place that require the manufacturers of household goods to make risk assessments on the impact of the chemicals found in those household goods, and this would include any impacts on human health. Responsibility for these regulations lies with other Departments.

Manufacturers and suppliers of chemicals and chemical products are required under the Chemicals (Hazard Information and Packaging for Supply) Regulations 2002 to classify their products in line with an European Union-wide classification system and to label them accordingly. When appropriate, the product must carry a warning symbol and risk phrases that indicate the category of hazard. When supplied for workplace use, the products must additionally have a safety data sheet that sets out the particular risks associated with the use of the product.

Since 1993, over one hundred hazardous substances have been assessed for their risk to human health and the environment under the European Union's Existing Substances Regulation (EC/793/93). Where appropriate, control measures have been put in place including, in some cases, restrictions on the marketing and use of these substances.

Other regulations for protecting the consumer are the Department for Business, Enterprise and Regulatory Reform's General Product Safety Regulations 2005 (GPSR) which implement the European Commission (EC) General Product Safety Directive (2001/95/EC) and apply to all consumer products that are not covered (and to the same extent) by specific European safety legislation.

The GPSR requires manufacturers to ensure that products present no risk or only the minimum risk compatible with the product's use, and that they are accompanied by appropriate warnings and instructions for use.

The EC has adopted the Proposal for a Regulation of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures, and amending Directive 67/548/EEC and Regulation (EC) No. 1907/2006 (COM(2007) 355 final). This proposed act will align the EU system of classification, labelling and packaging substances and mixtures to the United Nations Globally Harmonised System (GHS). It will complement the new EU Regulation on the Registration, Evaluation and Authorisation Chemicals (REACH).

Perfluorinated compounds

The Committee on Toxicity of Chemicals in Food, Consumer Products and the Environment (COT) provided advice on the toxicity and tolerable daily intake of perfluorooctanoic acid and perfluorooctane sulfonate. The statement was published in November 2006.

Phthalates

Phthalates are a family of chemical substances with a range of properties. Extensive research into the effects of certain phthalates on both the environment and human health has been carried out at a European level, under the auspices of the EU's Existing Substances Regulation (793/93/EC). Details of the programme can be found on the European Chemicals Bureau website at:

ecb.jrc.it/existing-chemicals/.

The United Kingdom takes the view that phthalates must be considered on a case-by-case basis and that risk assessments should be based on evidence. Where the database is insufficient to complete a risk assessment, it is normally expected that the industry will carry out the required additional research. However, Government have asked its expert committee, COT, to keep the area of environmental chemicals and reproductive health under review and will consider their advice on the need for additional research in this area.

Phenolic compounds

The term used may apply to phenolic disinfectants, phenolic resins or to the vast range of chemicals which include a phenol ring, some of which will have had assessments carried out.

Brominated flame retardants

COT reviewed the toxicology of the brominated flame retardant, tetrabromobisphenol A, in relation to potential environmental contamination and their statement was published in 2004.

The UK has carried out the EC risk assessment for three (octa-, deca-, and penta-bromodiphenyl ether) of the commercially available brominated flame retardants. There was concern about the long-term effects of brominated flame retardants, which are necessarily stable in conditions of extreme heat, and in some cases are persistent. Strategies to reduce exposure are developed if an unacceptable risk is identified. For example, the brominated flame retardant Pentabromodiphenyl ether has been banned in the EU since 15 August 2004 under the EU's Marketing and Use Directive for all uses, except for a temporary derogation until March 2006 for it use in aircraft emergency evacuation slides. This ban is implemented in Great Britain by Statutory Instrument 2004/3278 and in Northern Ireland by SI 2004/509.

Children: Deviance and Behaviour Disorders

Mr. Paul Murphy: To ask the Secretary of State for Health what measures his Department has adopted to ensure that agencies working with under 18-year-olds with conditions that can cause severe behavioural problems co-ordinate their work in the best interests of those people. [150210]

Mr. Ivan Lewis: Agencies are committed to working together to help young people with severe behavioural disorders and there are local authority targets to ensure protocols are in place for those with complex needs. Multi-agency teams, such as youth offending teams, work co-operatively to ensure that needs are met. The National Service Framework for Children, Young People and Maternity Services encourages and promotes increased efforts to develop multi-agency services to promote the mental health of all children and young people. Partnership working across agencies will help to eradicate many problems.

This of course only reflects the position in England.

Mr. Paul Murphy: To ask the Secretary of State for Health (1) what facilities there are to provide support, assistance and respite care for the families of under 18-year-olds with conditions that can cause severe behavioural problems; [150211]

(2) what facilities there are for the residential care of under 18-year-olds with conditions that can cause severe behavioural problems; and where those facilities are located. [150215]

Mr. Ivan Lewis: The publication in September 2004 of the Child and Adolescent Mental Health Services (CAMHS) standard of the National Service Framework for Children, Young People and Maternity Services gives guidance on what is envisaged in a comprehensive CAMHS service. It stresses that services must also ensure support for parents or carers and other family members.

There are inpatient units for under 18s with severe mental health problems resulting in behavioural disorders run by the national health service and privately. These are commissioned as part of CAMHS commissioning. These are located all around the country. In some instances young people end up on adult wards. However, the most important change that has been made to the Mental Health Bill is that it will now require hospital managers to ensure that patients under 18 who are admitted to hospital for assessment or treatment, either under the Act or as voluntary patients, are placed in an environment that is suitable for their age.

For severe behavioural disorders that are not due to mental health disorders there are also local authority secure children's homes and secure forensic units for young offenders with mental health problems. We do not collect information on where these facilities are located. This of course only reflects the position in England.

Chlamydia Infection: Screening

Sandra Gidley: To ask the Secretary of State for Health whether the national screening programme for chlamydia has been rolled out completely in all trusts; and if he will make a statement. [152234]

Dawn Primarolo: To March 2007, 50 per cent. of primary care trusts in England were part of the national chlamydia screening programme. This covers 46 programme areas. Over 330,000 screens have been reported to the Health Protection Agency since the programme started. During this year we expect every area to start screening covering the whole of England.

Clostridium

Bob Spink: To ask the Secretary of State for Health what estimate he has made of the additional time spent in hospital by those who contracted clostridium difficile in the last 12 months. [152101]

Ann Keen *[holding answer 24 July 2007]:* No specific estimate has been made in the last 12 months. A frequently quoted figure is that Clostridium difficile infection adds 21 days[1] to length of stay but this was based on health service practice in 1996.

[1] *Source:*

Wilcox, M. H., Cunniffe, J. G., Trundle, C. & Redpath, C. (1996). Financial burden of hospital-acquired Clostridium difficile infection. Journal of Hospital Infection 34, 23-30.

Colorectal Cancer: Screening

Mr. Anthony Wright: To ask the Secretary of State for Health if he will list the hubs and centres involved in the NHS bowel cancer screening programme which are operational; and what the timeframe is for implementation of the NHS bowel cancer screening programme at new hubs and centres across England. [151965]

Ann Keen: Within the national health service bowel cancer screening programme, five programme hubs across England are inviting men and women aged 60 to 69 to participate in the programme, sending out the faecal occult blood (FOB) testing kits, analysing the returned kits and sending out results. The five programme hubs are located in Rugby (covering the west midlands and the north-west), Guildford (southern), St. Mark's Hospital (London), Gateshead (north-east) and Nottingham (eastern). All five hubs were operational by March 2007.

Around 75 local screening centres will provide endoscopy services for those people with a positive FOB test once the programme is fully rolled out by December 2009. 15 local screening centres became operational in wave 1 of the programme in 2006-07. These were: Wolverhampton; Norwich; Cheshire and Merseyside; Bolton, Wigan and Salford; South Devon; Gloucester; Solent and West Sussex; St. Mark's Hospital, London; St. George's Hospital, London; Inner North East London; University College, London; South Tyne; Tees; Hull; and Derby.

Two local screening centres have already become operational in wave 2 of the programme in 2007-08. These are Heart of England and Coventry and Warwickshire. A further 25 local screening centres are expected to open as part of wave 2 by March 2008.

Strategic health authorities will be invited to bid for their local endoscopy units to become local screening centres as part of wave 3 of the programme (2008-09) in the autumn.

Mr. Anthony Wright: To ask the Secretary of State for Health what information has been provided to *(a)* GPs and *(b)* the media on the roll-out of the national bowel cancer screening programme. [151966]

Ann Keen: When the national health service bowel cancer screening programme is rolled out to primary care trust areas, all general practitioners within the locality are sent a primary care resource pack about the programme to help them support their patients through the process. The pack, produced in collaboration with Cancer Research UK, includes: a sample faecal occult blood testing kit; an information for primary care booklet; a summary sheet of how the programme works; a publicity poster; a copy of information leaflets sent to people taking part in the programme; a sample invitation letter; and a copy of the Cancer Research UK statistics on bowel cancer.

It is for strategic health authorities, working in partnership with their primary care trusts and local stakeholders, to decide how to publicise the programme in their areas. We are aware that many have worked with the local media to publicise the launch of the programme in their areas. National information about the programme is given to the media on request.

Compulsorily Detained Mental Patients

Tim Loughton: To ask the Secretary of State for Health how many patients, subject to sectioning orders, have absconded from secure mental hospitals in each of the last five years. [150369]

Mr. Ivan Lewis: An abscond occurs when a mental health patient detained under the Mental Health Act 1983 goes missing outside the secure perimeter of a unit, e.g. when on a scheduled visit. Absconds do not occur from within secure units. If a patient managed to get out from within the secure perimeter of a unit, this would be termed an escape.

The Department does not routinely collect data on absconds centrally in regard to all mental health services, with the exception of high secure mental health hospitals.

An abscond can be either non-serious or a serious untoward incident (SUI). In relation to mental health patients detained under the Mental Health Act 1983, an abscond is treated as an SUI where a significant risk is posed to the patient or to others. An abscond would not necessarily be treated as an SUI where the abscond is unintentional, due for example to a patient missing a bus or train when returning from leave.

The reporting of SUI absconds is stringent. Individual national health service organisations are responsible for identifying SUIs and there must be clear local procedures at each NHS organisation to identify, report and investigate SUIs. Information is collected by, and is available on request from, each strategic health authority about all SUIs reported

during each calendar year by month, type and NHS organisation. There are no similar requirements in relation to collecting non-serious absconds data.

The data on absconds from high secure mental health hospitals for the last five years is in the following table.

	Rampton	Ashworth	Broadmoor	Total
2007	—	—	—	0
2006	—	—	—	0
2005	—	1	—	1
2004	—	—	1	1
2003	1	—	—	1
Total absconds in last five years from high secure	—	—	—	3

All absconds occurred while patients were on escorted leave. Escorted leave is authorised as necessary, for instance if the patient needs to visit a general hospital for treatment of a physical health problem that cannot be dealt with at the high security hospital. In all cases, the leave will be risk assessed by mental health professionals before being authorised.

There have been no escapes in the last five years by patients in high secure hospitals.

Contraceptives

Sandra Gidley: To ask the Secretary of State for Health how many women were fitted with a contraceptive implant in each of the last 10 years, broken down by *(a)* type of device and *(b)* age of patient. [150982]

Dawn Primarolo: The information available is shown in the following tables.

The table shows data on prescriptions dispensed in the community (almost all of these prescriptions are written by general practice). Data on the number of women fitted with an implant by age are not available.

	Implanon Implant 68mg	Norplant Implant[1] 38mg (6 Cap)	Total
1997	—	834	834
1998	—	689	689
1999	441	1,034	1,475
2000	5,133	7	5,140
2001	7,084	1	7,085
2002	9,714	—	9,714
2003	12,747	—	12,747
2004	15,557	—	15,557
2005	23,469	—	23,469
2006	37,951	—	37,951
Total	112,096	2,565	114,661

[1] Norplant Implant is no longer available

Source:

Prescription information is taken from the prescription cost analysis (PCA) system, supplied by the prescription pricing division (PPD) of the Business Services Authority (BSA), and is based on a full analysis of all prescriptions dispensed in the community i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. The data do not cover drugs dispensed in hospitals.

The table shows first contacts with women at community contraceptive clinics showing the number of implants fitted by age and year.

First contacts with women at community contraceptive clinics, showing the number of contraceptive implants fitted by age and year: England

Dental Services

Sir Paul Beresford: To ask the Secretary of State for Health whether his Department categorises teeth bleaching carried out by dentists as a health procedure. [152011]

Ann Keen: Yes, we share the view taken by the General Dental Council that all tooth whitening procedures, including bleach and laser treatment, constitute the practice of dentistry. Consequently the procedures may only be carried out by a dentist.

Dental Services: Waiting Lists

Sandra Gidley: To ask the Secretary of State for Health (1) what estimate he has made of the average

waiting time for NHS dental work in *(a)* Southampton, *(b)* Hampshire and *(c)* England in each year since 1997; [151025]

(2) what assessment he has made of the trends in waiting times in *(a)* Southampton, *(b)* Hampshire and *(c)* England since 1997. [151026]

Ann Keen: Information is held centrally on waiting times for dental services provided in hospital settings. The available information for the period requested has been placed in the Library.

Information on waiting times for dental treatment in primary care is not held centrally.

Dental Services: York

Hugh Bayley: To ask the Secretary of State for Health how many *(a)* adults and *(b)* children were registered with NHS general dental practices in York as at March 2007. [151620]

Ann Keen: The requested information is not collected centrally.

Hugh Bayley: To ask the Secretary of State for Health how many full-time equivalent NHS general dental practitioners there are in York. [151621]

Ann Keen: The information is not available in the requested format. As of 31 March 2007, there were a total of 342 dentists on open national health service contracts in the North Yorkshire and York Primary Care Trust area.

Doctors: Vetting

Miss McIntosh: To ask the Secretary of State for Health what *(a)* Criminal Records Bureau, *(b)* security, *(c)* health and *(d)* registration status checks are carried out on overseas doctors seeking to work in the United Kingdom. [151149]

Ann Keen: The national health service is required to undertake a wide range of pre and post employment checks, as set out in guidance issued by NHS Employers in May 2005 on safer recruitment. The guidance covers all procedures for the full range of checks to be made, before appointment of anyone in the NHS. It applies to all NHS settings. The Healthcare Commission monitor NHS trusts on their compliance with the guide. A copy of this guidance, entitled "Safer Recruitment, A Guide for NHS Employers", has been placed in the Library.

In February 2005 Ministers decided that Criminal Record Bureau (CRB) checks should be mandatory for all staff with access to patients in the normal course of their duties. However, CRB checks are limited to the United Kingdom and will not reveal anything on staff who have just entered the UK for the first time. NHS Employers guidance states that employers who recruit staff from abroad should carry out the necessary police checks in line with that country's justice system and UK requirements.

Family Planning

Sandra Gidley: To ask the Secretary of State for Health (1) how many appointments there have been *(a)* at family planning clinics and *(b)* for family planning domiciliary visits in each health trust in each of the last five years; [150972]

(2) how many attendances at family planning clinics there were in each of the last five years, broken down by *(a)* age and *(b)* trust. [150983]

Tim Loughton: To ask the Secretary of State for Health how many children and young people *(a)* under 16-years-old and *(b)* between 16 and 18 years visited a sexual health clinic in each of the last five years. [150643]

Dawn Primarolo: Data for community contraceptive services are reported by attendances rather than by appointment.

Data on attendances at community contraceptive clinics by age and trust can be provided only at disproportionate cost. However, data for England for first contacts by age are published in "NHS Contraceptive Services, England, 2005-06", copies of which have been placed in the Library; data for attendance by trust have been placed in the Library.

Data are not available for attendances at genito-urinary clinics but are available for the five major sexually transmitted infection diagnoses, chlamydia, gonorrhoea, genital warts, genital herpes and syphilis. The data are published by the Health Protection Agency in "Diagnoses of selected STIs by Strategic Health Authority, country, sex and age group, United Kingdom: 1997-2006", copies of which are available in the Library.

Genito-Urinary Medicine: Waiting Lists

Sandra Gidley: To ask the Secretary of State for Health what progress has been made and what the timetable is for future steps to be taken towards the commitment in the White Paper "Choosing Health" that everyone referred to a genito-urinary medicine clinic should be able to have an appointment within 48 hours; and if he will make a statement. [152236]

Dawn Primarolo: We are making excellent progress on our target. Data from the genito-urinary medicine monthly monitoring return showed that in May 2007, 85 per cent. of first attendances were offered an appointment to be seen within 48 hours of contacting a service.

A National Support Team is supporting those primary care trusts that are most challenged in meeting the target.

Health Services

David Taylor: To ask the Secretary of State for Health pursuant to the answer of 5 July 2007, *Official Report*, column 1148W, on health services, by what means research required by the working groups on the White Paper will be financed. [152057]

Mr. Bradshaw: The Department has put aside funding for the working groups in 2007-08, which will include funding for any research they commission. Resources for future years will be subject to the availability of funds approved by Parliament.

David Taylor: To ask the Secretary of State for Health pursuant to the answer of 5 July 2007, *Official Report*, column 1148W, on health services, whether documents made available to the working groups on the White Paper will also be made available to *(a)* stakeholder organisations (i) represented and (ii) not represented on the working groups and *(b)* the public. [152058]

Mr. Bradshaw: Wherever possible, and subject to any legal constraints, any information made available to the working groups and any subsequent documents produced as a result of consultation from working group meetings will be publicly available. However, there may be exceptional circumstances in which, after consultation with the chairs of the working groups, we may need to share information with Members on an in confidence basis.

David Taylor: To ask the Secretary of State for Health pursuant to the answer of 5 July 2007, *Official Report*, column 1148W, on health services, by what means the patient and public stakeholders on the working groups on the White Paper are being *(a)* nominated and *(b)* selected; and what expenses will be met for them in their work. [152059]

Mr. Bradshaw: On 5 June 2007, the Department held a conference for interested groups, where views were sought on taking forward the implementation of the White Paper. A number of patient and public involvement groups attended the conference and we also intend that future meetings of the National Advisory Group will include a wide regional representation. Proposals for the membership and terms of reference of the national working groups were presented and views and expressions of interest sought. The detailed membership of the groups is now being finalised by the Department, working with the chairs and taking into account views expressed by stakeholders. Each working group will include patient/public representatives. Reasonable expenses will be met for such members of the working groups.

Health Services: West Sussex Primary Care Trust

Tim Loughton: To ask the Secretary of State for Health what the cost is of West Sussex Primary Care Trust's Fit for the Future consultation exercise. [152764]

Dawn Primarolo: This information is not held centrally but can be obtained from West Sussex Primary Care Trust.

Health Services: Asylum

Lynne Jones: To ask the Secretary of State for Health if he will make a statement on the provision of NHS care for failed asylum seekers who are temporarily unable to leave the UK. [151492]

Mr. Ivan Lewis: No one in need of immediately necessary treatment to save life or prevent a condition from becoming life-threatening will ever have that treatment refused or denied, irrespective of their immigration status. However, the principle still remains that the national health service is intended primarily for those who are legally resident in this country. Under the "NHS (Charges to Overseas Visitors) Regulations 1989", as amended, anyone not ordinarily resident in the United Kingdom will be liable for charges for any NHS hospital treatment they receive unless they are exempt from charge under one of several exemption categories.

Asylum seekers whose applications are under consideration are exempt from charges but failed asylum seekers are not exempt from charges except for the continuation of a course of treatment begun before their application was ultimately rejected, or where the treatment needed is itself exempt from charge.

The Home Office document "Enforcing the rules: a strategy to ensure and enforce compliance with our immigration laws", published in March, announced that a review of access to the NHS by foreign nationals would be carried out jointly by the Home Office and the Department. The review, to be completed by October, will specifically consider the position of failed asylum seekers, including those who are temporarily unable to leave the United Kingdom for whatever reason.

Health Services: East Sussex

Mr. Waterson: To ask the Secretary of State for Health how many *(a)* out-patient appointments and *(b)* operations there were in (i) Eastbourne and (ii) East Sussex in each of the last 10 years. [151408]

Dawn Primarolo: The information is not collected in the format requested.

The number of out-patient appointments for all specialities for national health service trusts in the East Sussex area is shown in the table.

Out-patient appointments, all specialties, selected NHS trusts

	Code	Name	First attendances seen	Subsequent attendances seen	Total out-patient appointments
1997-98	RDL	Eastbourne Hospitals Trust	41,675	101,283	142,958

Department of Health form QMOP and QM08s.

The definition of operations is not clear. A count of finished consultant episodes that include an operation (for OPCS codes A01-X59 and not known) at the trusts identified for Eastbourne and East Sussex. The 'not known' operation codes occur when an entry has been made in the operation field (thus indicating an operation has occurred). However, this entry does not match the valid OPCS4 codes.

The number of finished consultant episodes is shown in the table.

Count of finished consultant episodes with an operation (OPCS-4 codes between A01-X59 or and (operation code not known)) at three selected trusts, NHS hospitals, England

	Trust	2005-06	2004-05	2003-04	2002-03
RXC	East Sussex Hospitals NHS Trust	60,010	52,566	53,067	50,037
RXD	East Sussex County Healthcare NHS Trust	64	78	52	94
RXH	Brighton and Sussex University Hospitals NHS Trust	63,290	59,271	50,954	52,661

Notes:
Finished consultant episode (FCE)
An FCE is defined as a period of admitted patient care under one consultant within one health care provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
FCE with an Operation
A count of FCEs with an operation is the number of episodes with at least one coded procedure field. More procedures are carried out than finished consultant episodes with an operation. For example, patients undergoing a cataract operation would tend to have at least two procedures—removal of the faulty lens and the fitting of a new one—counted in a single finished consultant episode.
Data Quality
Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected, in the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Health Services: Research

Dr. Gibson: To ask the Secretary of State for Health when his Department expects to publish the results of its scoping study of the burden of disease that will inform future work on health priorities; how that study has been structured; and who is leading it. [150407]

Dawn Primarolo: The Department expects to receive the final report on the scoping study by the end of August. No decision has been taken about its publication.

The study is based on a review of existing datasets and has been commissioned from Dr. Stephen Green and Dr. Rebecca Miles of Oxford Healthcare Associates.

Health Services: Tourism

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to promote travel health consultations. [150953]

Dawn Primarolo: The Department transferred the function of providing health advice to British travellers to the Health Protection Agency (HPA)/National Travel Health Network and Centre in 2003. Their responsibilities include providing evidence-based advice to travellers (including updating the 2001 Yellow Book Health Information for Overseas Travel), surveillance of imported infections and providing a telephone helpline.

The HPA are also directed under regulation 7(a) of the HPA Regulations 2005 to undertake the function of the designation of vaccinating centres in England for vaccination or revaccination against Yellow Fever for the purposes of the International Health Regulations 1969.

Travel advice for children is also contained in the booklet produced by the Department entitled 'A guide to childhood immunisations for babies up to 13 months of age', copies of which have been placed in the Library and which is also available at:

www.immunisation.nhs.uk.

Health Trainers

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* full and *(b)* part-time health trainers there are in each trust. [152228]

Dawn Primarolo: Health trainers are employed in a variety of settings and the plurality of employment models means that we do not collect data by individual primary care trust. We do not distinguish between full-time and part-time health trainers in the data we do collect. In total there are 1,200 health trainers employed across the country, with an additional 450 currently undergoing training within the British Army.

Sandra Gidley: To ask the Secretary of State for Health what estimate his Department has made of the cost of employing NHS accredited health trainers; and what estimate he has made of the number of health trainers needed to implement the scheme in all trusts. [152232]

Dawn Primarolo: The guide cost of employing a health trainer at band 3 under the "Agenda for Change" is £30,000, but this will vary considerably across trusts and depend upon the delivery models chosen, which may, for example, include volunteers. The numbers of health trainers engaged within each trust will vary, according to locally identified needs and priorities and it is not possible at this stage to estimate future total numbers.

Health: Schools

Sandra Gidley: To ask the Secretary of State for Health if he will make a statement on what progress has been made and what the timetable is for future steps towards all schools reaching healthy status by 2009 as described in the White Paper 'Choosing Health'; and if he will make a statement. [152233]

Dawn Primarolo: As at 23 July, there were 10,280 schools (46 per cent.) who had gained the national healthy schools status and 90 per cent. of all schools in England have joined the national healthy schools programme. We are on track to meet our December 2007 milestone for there to be 55 per cent. of schools achieving national healthy schools status and 65 per cent. by December 2008. We expect that all schools will have achieved or be working towards the national healthy schools status by 2009 as set out in the 'Choosing Health' White Paper.

Henderson Hospital

Tim Loughton: To ask the Secretary of State for Health how many people were *(a)* referred to and *(b)* funded for treatment at the Henderson hospital in each of the last five years. [150651]

Mr. Ivan Lewis: This information is not held centrally. However, this information can instead be obtained direct from the South West London and St. George's Mental Health NHS Trust.

Home Care Services

Sandra Gidley: To ask the Secretary of State for Health how many people received domiciliary care packages in each health trust in each of the last five years. [151010]

Mr. Ivan Lewis: The table shows the number of people aged 18 and over receiving home care services for each council with Social Services responsibilities area in England from 2001-02 to 2005-06. Information by health trust is not available centrally.

Number of clients aged 18 and over receiving home care[1] by councils with Social Services responsibilities in England from 2001-02 to 2005-06 (CSSRs)

[1] Home care covers both "home help/home care" and "overnight respite—clients home"
[2] In 2004-05 restated guidance was issued to exclude people receiving services from grant funded organisations and who had not had a community care assessment. Therefore, data for 2004-05 onwards is not comparable to previous years.
[3] Data not available.
Note:
Figures may not add up due to rounding.
Source:
RAP P2F

Mr. Rooney: To ask the Secretary of State for Health whether the guidance relating to home care to ensure that assessment of means is separate from assessment of needs has been changed. [152150]

Mr. Ivan Lewis *[holding answer 24 July 2007]:* No. On 1 January 2003, the Department issued 'Fair Access to Care Services', guidance on eligibility criteria for adult social care, to councils for implementation by April 2003. It was issued under cover of Local Authority Circular—LAC (2002)13—and is still in force.

Practice guidance in support of the policy guidance was published on 2 August 2002 and updated on 6 March 2003 to assist councils with their final preparations for implementation by 7 April 2003. The practice guidance makes it clear that the carrying out and completion of a community care assessment should not be contingent on whether or not an individual can pay for care services, be they provided in a care home or the individual's own home.

Infant Foods

Lynne Jones: To ask the Secretary of State for Health if he will make it his policy to extend the consultation on the partial regulatory impact assessment on the Infant Formula and Follow-on Formula (England) Regulations 2007 to obtain views on a third option of fully implementing the International Code of Marketing of Breastmilk Substitutes and subsequent World Health Assembly resolutions on the health, social and environmental aspects of marketing breastmilk substitutes, giving these precedence over trade considerations; and if he will make a statement. [152498]

Dawn Primarolo: The Food Standards Agency launched, on 2 July, a 12-week public consultation on draft domestic regulations which will lay down rules about the composition, labelling and advertising of formulae requesting views from stakeholders on a range of issues. Any responses received, including those that suggest alternative options, will be considered as part of the consultation exercise. The agency will consider all responses to the consultation before finalising the regulations.

Infectious Diseases: East Sussex

Mr. Waterson: To ask the Secretary of State for Health how many cases of healthcare-acquired infections there were while in *(a)* hospital and *(b)* care homes in (i) Eastbourne and (ii) East Sussex in each of the last 10 years. [151355]

Ann Keen: The data is not available as requested.

The best available information is from the mandatory surveillance systems for Meticillin resistant *staphylococcus aureus* (MRSA), Clostridium difficile infection and Glycopeptide resistant enterococci for acute national health service trusts in England rather than individual hospitals, these commenced in April 2001, January 2004 and October 2003 respectively.

Data for care homes is not collected centrally as mandatory surveillance only covers acute trusts.

Reported cases of health care associated infection for the East Sussex NHS trust in Eastbourne are shown in the following tables with reports from other NHS acute trusts in East Sussex.

Number of reported MRSA bloodstream infections (bacteraemias)

Trust	April 2001 to March 2002	April 2002 to March 2003	April 2003 to March 2004	April 2004 to March 2005	April 2005 to March 2006	April 2006 to December 2006
East Sussex Hospitals NHS Trust	67	52	60	42	59	71
Brighton and Sussex University Hospitals NHS Trust	86	74	107	129	141	80

Number of reported MRSA bloodstream infections (bacteraemias)

Trust	April 2001 to March 2002	April 2002 to March 2003	April 2003 to March 2004	April 2004 to March 2005	April 2005 to March 2006	April 2006 to December 2006
Surrey and Sussex Healthcare NHS Trust	28	47	48	35	37	17

Number of reported cases of Clostridium difficile infection

Trust	January to December 2004	January to December 2005	January to December 2006
East Sussex Hospitals NHS Trust	393	387	374
Brighton and Sussex University Hospitals NHS Trust	368	472	588
Surrey and Sussex Healthcare NHS Trust	315	283	282

Number of reported cases of glycopeptide-resistant enterococci (GRE) bacteraemia

Trust	October 2003 to September 2004	October 2004 to September 2005
East Sussex Hospitals NHS Trust	2	4
Brighton and Sussex University Hospitals NHS Trust	5	2
Surrey and Sussex Healthcare NHS Trust	3	0

Health Protection Agency

Influenza

Mr. Lansley: To ask the Secretary of State for Health what his estimate is of the number of additional call handlers in England required to maintain 24/7 access to local health services during an influenza pandemic; what role NHS Direct will have in the event of an influenza pandemic; and if he will make a statement. [152312]

Dawn Primarolo: Work is currently taking place to scope the additional numbers of call handlers required to support local health services. The Department is working closely with stakeholders such as NHS Direct and the Central Office of Information to test assumptions and inform estimations.

In the event of a pandemic, NHS Direct will continue to provide advice and information to non-flu patients (who will continue to require access to health care in a pandemic), and will provide key services to flu patients, in support of local services.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 13 September 2006, *Official Report*, columns 2284W, on influenza pandemic, which research groups have been *(a)* offered and *(b)* taken delivery of A/H5N1 vaccine from the 3.5 million stockpile; how many vaccines have been delivered to research groups; what the current size of the remaining stockpile is; what safety data his Department has received on the A/H5N1 vaccine which contribute to the stockpile; and if he will make a statement. [152242]

Dawn Primarolo: To date no research groups have requested any materials from the stockpile. Safety data were submitted as part of the tenders. The most common adverse reactions were soreness at the injection site and malaise. No serious reactions were reported.

Influenza: Disease Control

Mr. Lansley: To ask the Secretary of State for Health what further discussions he has held with *(a)* EU Health Ministers and *(b)* the European Commission on the subject of building an EU-wide stockpile of antivirals for use in the event of an influenza pandemic since the informal meeting of 25 and 26 April 2006. [152126]

Dawn Primarolo: The idea of a European Union stockpile of antivirals medicines for use in the event of an influenza pandemic was discussed by Health Ministers at the Employment, Social Policy, Health and Consumer Affairs Council on 2 June 2006. No consensus could be reached on the idea and in view of this the European Commission concluded that the idea should not be pursued.

Mr. Lansley: To ask the Secretary of State for Health what the names are of each strategic health authority's influenza lead, as described on page 13 of the Chief Medical Officer's 2006 Annual Report, On the State of Public Health. [152170]

Dawn Primarolo: The names of the strategic health authority influenza leads are as follows:

Roger Gross—London
Linda Sheridan—East of England
Hannah Wall—East Midlands
Eugene Milne—North East
Kate Ardern/Frank Whiteford—North West
Anna Taylor—South East Coast
Sally Casley—Yorkshire and Humber
Jody James—South West
Ian Cave—South Central
Gillian Smith—West Midlands

Mr. Lansley: To ask the Secretary of State for Health what the scope is of the audit of NHS pandemic preparedness described on page 13 of the Chief Medical Officer's 2006 Annual Report, On the State of Public Health; which *(a)* organisations and *(b)* other parties will be subject to audit; who will conduct the audit; when the decision was taken to conduct the audit; whether the results of the audit will be published; and if he will make a statement. [152171]

Dawn Primarolo: The audit tool is specific to national health service organisations. NHS organisations will self assess their state of preparedness and will use the results to target the areas that need additional development. Strategic health authorities will use the results to work with the NHS organisations in their area. It was decided that the audit should coincide with the formal publication of the National Framework and supporting guidance.

Information Services: Expenditure

Sandra Gidley: To ask the Secretary of State for Health how much the Government has spent on *(a)* sexual health information and *(b)* travel health awareness in (i) Hampshire and (ii) England since 1997. [150954]

Dawn Primarolo: The Department does not collect information on expenditure in Hampshire.

The Department's expenditure on sexual health campaigns, including HIV, contraception and prevention of sexually transmitted infections is set out in the following table.

	£ million
1997-98	4.700
1998-99	4.800
1999-2000	6.000
2000-01	4.600
2001-02	4.600
2002-03	6.600
2003-04	6.600
2004-05	6.600
2005-06	5.120
2006-07	11.100
2007-08	9.800

Information on expenditure on travel health awareness is not identified separately, but is undertaken as part of wider departmental work programmes. Work currently includes travel health awareness initiatives undertaken by the National Travel Health Network and Centre, based at the Health Protection Agency, the leaflet 'Travelsafe', covering HIV hepatitis C and hepatitis B and the health information for overseas travel, for general practitioners and practice nurses. The Department also produces information for travellers to Mecca as part of the Hajj campaign.

The Department is also running various summer holiday activities as part of the Condom Essential Wear campaign, and we have also funded the Terrence Higgins Trust to produce booklets on HIV prevention for gay travellers overseas.

Kidney Patients: Portsmouth

Mr. Hancock: To ask the Secretary of State for Health what plans he has *(a)* to replace, *(b)* to refurbish and *(c)* to expand renal units in Portsmouth. [151520]

Ann Keen: It is for the local national health service, in partnership with strategic health authorities and other local stakeholders to plan, develop and improve services for local people.

Medical Equipment

Mr. Lansley: To ask the Secretary of State for Health whether he has taken a decision on whether to procure and stockpile face masks centrally. [152313]

Dawn Primarolo: No decision has been taken on whether to procure and stockpile face masks centrally.

Mental Health Services

Tim Loughton: To ask the Secretary of State for Health (1) how many children are receiving cognitive behavioural therapy funded by the NHS; [150354]

(2) how many accredited child specialist mental health practitioners are working in the NHS. [150355]

Mr. Ivan Lewis: Information is not available in the format requested. The "National Child and Adolescent Mental Health Services Mapping Exercise for 2006", asked each CAMHS team whether they carry out cognitive behavioural therapy (CBT) and how often they did so. They found that 642 teams used CBT on a weekly basis, 207 less than weekly and 147 teams never.

Data from the 2006 CAMHS Mapping shows that the CAMHS teams had a total of 9,796 staff. This includes child psychotherapists, doctors, nurses and other therapists and staff in both the national health service and local authority sector dedicated to caring for children and young people who have mental health problems.

Sandra Gidley: To ask the Secretary of State for Health how many mental health beds there were in each of the last 10 years, broken down by trust. [151020]

Mr. Ivan Lewis: Information about mental health bed numbers for each trust from 2000-01 to 2005-06 has been placed in the Library.

Sandra Gidley: To ask the Secretary of State for Health how many mental health beds there were for *(a)* children and *(b)* female patients in each of the last 10 years. [151023]

Mr. Ivan Lewis: Information about the number of mental health beds available for children in the national health service in England, for each year from 1996-97 to 2005-06 is shown in the table. Data on mental health bed availability is not collected by the Department on the basis of gender.

Average daily total children's mental health bed numbers in the NHS in England: combined male and female

	Number
1996-97	538
1997-98	522
1998-99	538
1999-2000	482
2000-01	531
2001-02	484
2002-03	504
2003-04	518
2004-05	525
2005-06	509

Source:
Department of Health Hospital Activity Statistics Form KH03.

Sandra Gidley: To ask the Secretary of State for Health how many mental health beds there were in: *(a)* low, *(b)* medium and *(c)* high secure units in each of the last 10 years. [151024]

Mr. Ivan Lewis: Information is not available in the requested format. Data is available for the average daily total number of beds in all secure units for each year between 1996-97 and 2005-06, except for 2001-02 and 2002-03 when this data was not collected, and this is shown in the table. Separate data on bed numbers for each security level is not collected.

Average daily total secure unit bed numbers in the National Health Service in England: combined male and female

	Number
1996-97	1,575
1997-98	1,921
1998-99	1,747
1999-2000	1,882
2000-01	1,952
2001-02	n/a
2002-03	n/a
2003-04	2,569
2004-05	2,696
2005-06	2,807

Mental Health Services: Crimes of Violence

Sandra Gidley: To ask the Secretary of State for Health how many attacks there were on *(a)* staff and *(b)* patients (i) on mental health wards and (ii) in specialist mental health units in each of the last 10 years, broken down by sex. [151018]

Mr. Ivan Lewis: This information is not available in the requested format. The NHS Security Management Service (SMS) collects data on reported physical assaults against national health service staff in England by trusts providing mental health services. Data is available from 2004-05 to 2005-06 and is shown in the following table, but data is not available prior to this nor is it collected by gender.

	Total assaults	*Total staff*	*Assaults per 1,000 staff*
2004-05	43,097	208,488	206.71
2005-06	41,345	210,528	196.39

Source:
NHS Security Management Service.

Information about attacks on patients is collected by the National Patient Safety Agency through its national reporting and learning system. Between November 2003 to September 2005, 10,467 patient safety incidents involving disruptive or aggressive behaviour in all in-patient settings were recorded, out of a total of 44,656 patient safety incidents related to mental health. Of these 10,467 incidents, 558 were categorised as patient abuse by a third party. This included both physical and verbal incidents. Data is not available outside of this reporting period nor on a gender basis.

Mental Health Services: East Sussex

Mr. Waterson: To ask the Secretary of State for Health how many mental health patients moved on to independent living in *(a)* Eastbourne and *(b)* East Sussex in each of the last five years. [151409]

Mr. Ivan Lewis: This information is not collected centrally by the Department.

Mental Health Services: Hertfordshire

Mr. Walker: To ask the Secretary of State for Health (1) if he will take steps to increase the funding allocated to Hertfordshire's mental health services; [151684]

(2) what the total amount of NHS funding made available to the Hertfordshire Partnership Mental Health Trust was in each financial year from 2001. [151685]

Mr. Ivan Lewis: The Department allocates funding directly to primary care trusts (PCTs). It is the responsibility of PCTs to ensure that the services they commission meet the needs of the communities that they serve.

Hertfordshire Partnership Mental Health Trust's planned investment is as follows, these are the latest data available.

	Planned investment in mental health (£ million)
2002-03	39.9
2003-04	57.2
2004-05	55.2

Mr. Walker: To ask the Secretary of State for Health what steps he is taking to ensure that the Hertfordshire Partnership Mental Health Trust is not making a disproportionate financial contribution towards meeting Hertfordshire's NHS deficits. [151686]

Mr. Ivan Lewis: The East of England Strategic Health Authority (SHA) has advised that none of the Mental Health Trusts in the East of England were top sliced. The SHA is the headquarters for the national health service locally and has a statutory responsibility to ensure that the health economy achieves financial balance year on year.

Mental Health Services: Safety

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to ensure the safety of patients and staff on mental health wards. [151019]

Mr. Ivan Lewis: In line with standard 5 of the National Service Framework for Mental Health, we continue to seek ways of promoting improvements to mental health wards that enhance the safety of patients and staff and the quality of care provided. Specific steps taken recently include the investment of an extra £130 million capital in 2006-07 to update the mental health estate and to ensure that each mental health trust has access to an appropriate place of safety. Out of this sum, £100 million is being allocated to psychiatric intensive care units and places of safety between 2006-07 and 2007-08.

Last November, we announced that the remaining £30 million should focus on capital schemes in 2007-08, promoting safety in acute wards, particularly for women service users.

The Healthcare Commission (HC) and the National Institute of Mental Health in England (NIMHE), with support from the Royal College of Psychiatrists and the Mental Health Act Commission, have developed the assessment framework which underpins the HC's 2006-07 national acute in-patient service review. The review was launched in June and will assess whether admissions to acute in-patient mental health services are appropriate, purposeful, therapeutic and safe. The results will be published in the autumn.

The National Institute for Health and Clinical Excellence (NICE) published guidelines on the management of violence in health care settings in 2004 and NIMHE is now finalising specific guidance for mental health service providers in the light of NICE's recommendations.

NIMHE are currently developing joint positive practice guidance with the Association of Chief Police Officers on health and police liaison. This will include key areas around absence without leave, places of safety, patient safety and ward violence and drugs, public safety and learning the lessons from homicides. This is due for publication at the end of the year.

Mental Health Services: Young People

Tim Loughton: To ask the Secretary of State for Health what percentage of Child and Adolescent Mental Health Services cases underwent treatment which lasted under *(a)* under one month, *(b)* under three months, *(c)* under six months and *(d)* over a year in each of the last three years. [150655]

Mr. Ivan Lewis: This information is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health (1) how many strategic health authorities offer a child and adolescent mental health services specialist on 24-hour call out service; [150657]

(2) which child and adolescent mental health services facilities *(a)* closed and *(b)* experienced a reduction in services during each of the last three years. [150660]

Mr. Ivan Lewis: Information is not collected centrally on the child and adolescent mental health services (CAMHS) that may have closed or have reduced services in the last three years.

However, the latest information coming from the Department's public service agreement standard of a comprehensive CAMHS in every area shows that every primary care trust, bar two, has met the assessment of this standard. Achievement of the standard has been assessed against three proxy measures, one of which is the provision of a 24/7 emergency service.

Tim Loughton: To ask the Secretary of State for Health how much is allocated to child and adolescent mental health services for each of the next three years. [150658]

Mr. Ivan Lewis: In December 2005, the Department announced that £88.2 million would be allocated to local authorities in 2007-08 via the child and adolescent mental health services (CAMHS) grant. This grant is to be used by local authorities to improve CAMHS, in accordance with local needs and priorities, as set out in local CAMHS development strategies. In 2007-08, £50 million has been made available to strategic health authorities for CAMHS as part of a larger bundle of revenue funding for the national health service. In 2007-08, we have also made available to the NHS £31 million of capital funds for investment by providers of CAMHS. Bids for these funds have been invited and priority will be given to projects which will help to eliminate the inappropriate use of adult psychiatric wards for children and young people.

The annual CAMHS mapping exercise shows that overall expenditure on specialist CAMHS increased from £431 million in 2004-05 to a projected £513 million in 2005-06, an increase of 19 per cent.

Funding for CAMHS beyond 2007-08 is being considered as part of the comprehensive spending review (CSR). It is anticipated that details of the CSR settlement will be announced in autumn 2007.

Tim Loughton: To ask the Secretary of State for Health how many *(a)* health professionals and *(b)* administrators were employed by the child and adolescent mental health services in each of the last three years. [150659]

Mr. Ivan Lewis: Data from the 2006 child and adolescent mental health services (CAMHS) mapping shows that the CAMHS teams had a total of 9,796 staff. This includes child psychotherapists, doctors, nurses and other therapists and staff in both the national health service and local authority sector dedicated to caring for children and young people who have mental health problems. The following table gives the total number of staff for both health professionals and administrative staff for each year since 2003.

Overall CAMHS mapping work force figures 2003 to 2006

	2003	2004	2005	2006
Administration	1,230	1,393	1,552	1,559
Child psychotherapists	270	312	289	287
Doctors	866	1,008	1,019	1,064
Family therapist	—	—	274	296
Managers	120	161	227	188
Nurses	2,038	2,517	2,600	2,770
Occupational therapist	159	165	176	157
Other qualified staff	426	254	352	262
Other qualified therapist	507	522	447	396

Overall CAMHS mapping work force figures 2003 to 2006

	2003	2004	2005	2006
Other qualified staff	511	219	394	400
Primary mental health worker	—	382	506	548
Psychologists	997	1,320	1,320	1,269
Social workers	638	640	722	599
Total work force	7,761	8,894	9,876	9,796

Tim Loughton: To ask the Secretary of State for Health what the average waiting times were to see a child and adolescent mental health services specialist in each of the last five years. [150661]

Mr. Ivan Lewis: Information is not collected in the format requested. The most recent information available is from the 2006 child and adolescent mental health service (CAMHS) mapping exercise. In November 2006, there were 23,705 children and young people waiting to be seen by specialist CAMHS in England, a reduction of 2,494 from the previous year. There were 26,199 children and young people waiting in 2005, 30,716 in 2004 and 28,880 in 2003.

In November 2006 51 per cent. of new cases were seen by specialist CAMHS within four weeks, an additional 36 per cent. within 13 weeks, and a further 9 per cent. within 26 weeks.

In November 2005 52 per cent. of new cases were seen by specialist CAMHS within four weeks, an additional 33 per cent. within 13 weeks, and a further 10 per cent. within 26 weeks. 5 per cent. of children and young people waited over 26 weeks to be seen by specialist CAMHS. In 2002, only 24 per cent. of new cases were seen within four weeks and just over 50 per cent. were seen with 13 weeks.

Waits for cases still waiting to be seen by the end of the sample period

	<= 4 weeks	5 to <= 13 weeks	14 to <= 26 weeks	> 26 weeks	Total cases
2002	—	50.8	29.4	19.8	21,329
2003	28	32	22	18	28,880
2004	30	33	18	20	30,716
2005	35	32	15	18	26,199
2006	40.2	36.1	13.5	10.1	23,705

Waits for new cases

Percentage

	2002	2003	2004	2005	2006
< 4 weeks	24.10	48.10	50.62	52.26	50.72
5 to <= 13 weeks	40.90	29.20	31.13	32.26	35.72
14 to <= 26 weeks	20.20	13.70	10.69	10.08	8.79
> 26 weeks	14.80	9.00	7.55	5.40	4.77

The majority of new cases (51 per cent.) were reported as having waited less than four weeks to be seen by a CAMHS team. The wait of four weeks or less in the 2005, 2004 and 2003 mapping was experienced by 52 per cent., 51 per cent., and 48 per cent. of new cases respectively. 49.2 per cent. of new cases waited for more than four weeks in 2006, this is a higher proportion than the 47.7 per cent. in 2005, but lower than 49.4 per cent. in 2004 and 51.9 per cent. in 2003. 13.6 per cent. of new cases waited for more than 13 weeks in 2006, a lower proportion than 15.5 per cent. in 2005, 18.3 per cent. in 2004 and 22.7 per cent. in 2003. Waits over six months continued to fall, to 4.7 per cent. in 2006, from 5.4 per cent. in 2005, 7.6 per cent. in 2004 and 9.0 per cent. in 2003.

Tim Loughton: To ask the Secretary of State for Health what percentage of children treated by a Child and Adolescent Mental Health Services specialist in each of the last five years was prescribed *(a)* a talking therapy, *(b)* medication and *(c)* an alternative treatment. [150662]

Mr. Ivan Lewis: This information is not collected centrally. It is for primary care trusts to decide how best to work with local partners to obtain the best possible outcomes for patients.

Tim Loughton: To ask the Secretary of State for Health which Child and Adolescent Mental Health Services have set up projects within the last year to work jointly with *(a)* schools, *(b)* youth offending teams and *(c)* social workers. [150663]

Mr. Ivan Lewis: This information is not collected centrally.

Mentally Ill: Children

Tim Loughton: To ask the Secretary of State for Health how many children have been diagnosed with mental health disorders, broken down by type of disorder. [151000]

Mr. Ivan Lewis: We do not collect such information centrally. However, the Office for National Statistics has produced a report "Mental health of children and young people in Great Britain, 2004" based on a survey of the mental health of children. This gives the prevalence of mental disorder in children aged between five and 16 as 9.6 per cent., broken down as follows: emotional disorders 3.7 per cent.; conduct disorders 5.8 per cent.; hyperkinetic disorders 1.5 per cent.; and less common disorders 1.3 per cent.

MRSA: Medical Treatments

Mr. Jamie Reed: To ask the Secretary of State for Health what assessment his Department has made of the effectiveness of using photodynamic therapy to treat patients with MRSA within the NHS. [151347]

Ann Keen: The Department has not made any specific assessments regarding the effectiveness of photodynamic therapy to treat patients with methicillin-resistant *Staphylococcus aureus*.

Musculoskeletal Disorders: Health Services

Mr. Hands: To ask the Secretary of State for Health what steps have been taken to implement the Musculoskeletal Services Framework; and if he will make a statement. [151486]

Ann Keen: The Musculoskeletal Services Framework was published as good practice guidance, and as such the Department is not mandating its implementation. However, adopting this good practice will help organisations towards achieving the 18 weeks target.

National Institute for Health and Clinical Excellence

John Mann: To ask the Secretary of State for Health how he communicates Government health policy to the National Institute for Health and Clinical Excellence (NICE); and what requirements are placed on NICE to follow such policies. [151907]

Dawn Primarolo: The Department and national health service priorities are encapsulated in the published criteria for the selection of topics for referral to the National Institute for Health and Clinical Excellence (NICE). As part of the topic selection, proposed topics are assessed against the published criteria by one of a number of consideration panels. The panels are chaired by national clinical directors or other leading experts and are attended by relevant departmental policy officials who ensure the process is informed by Government policy.

NHS Next Stage Review

Tony Baldry: To ask the Secretary of State for Health pursuant to his oral statement of 4 July 2007, *Official Report*, columns 91-3, on NHS next stage review, if he will refer the decision of the Oxfordshire Radcliffe NHS Trust to reconfigure services at the Horton General hospital in Banbury, referred to him by the Oxfordshire Health Overview and Scrutiny Committee, to the independent reconfiguration panel. [151599]

Mr. Ivan Lewis *[holding answer 23 July 2007]*: The oral statement of 4 July clearly stated that while Lord Darzi is undertaking his wide-ranging review of the NHS, the Secretary of State will, as a matter of course, ask the Independent Reconfiguration Panel (IRP) for advice on any decisions made at a local level which have been referred by Overview and Scrutiny Committees.

As of 17 July 2007, a letter of referral from Oxfordshire Overview and Scrutiny Committee has not been received by the Department. Should such a referral be forthcoming, we would expect to seek the advice of the IRP on the case.

NHS: Carbon Emissions

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the annual carbon dioxide output of the NHS; and whether his Department is meeting its set targets to reduce carbon dioxide emissions. [151049]

Mr. Ivan Lewis: The most recent available figures show that in 2005-06 the estimated carbon dioxide output in the national health service was 3.31 million tonnes.

The NHS was set mandatory targets in respect of energy efficiency and carbon emissions in 2001. In order to maintain the progress it has been making towards meeting these targets, the then Minister of State for Health Delivery and Reform (Andy Burnham) launched a £100 million capital energy and sustainability fund in January 2007. The fund will allow improvements in electrical efficiency and reduced carbon emissions in the NHS through a combination of various schemes. These will include identifying renewable energy sources, the installation of better building insulation, installation of combined heat and power units and the replacement of inefficient boilers and distribution systems.

In respect of its own separate operational estate, the Department is currently on track to meet its target to reduce office carbon dioxide emissions by 12.5 per cent. by 2010-11, relative to 1999-2000 levels. It is also on track to meet the target to reduce its road transport emissions by 15 per cent. by 2010, relative to 2005-06 levels, including a new transport policy that will offer the opportunity to identify further savings.

NHS: Managers

Dr. Gibson: To ask the Secretary of State for Health whether his Department is considering phasing out national clinical directors. [151720]

Dawn Primarolo: The Department has no plans to phase out national clinical directors.

Osteoporosis: Medical Treatments

Mr. Hancock: To ask the Secretary of State for Health what plans he has to publish mandatory alternative treatment options for patients for whom Alendronate is unsuitable; and if he will make a statement. [152363]

Ann Keen: We have no plans to publish mandatory alternative treatment options for patients for whom Alendronate is unsuitable.

Prescriptions: Contraceptives

Sandra Gidley: To ask the Secretary of State for Health how many prescriptions were issued for emergency contraceptives in each month since January 2001. [150956]

Dawn Primarolo: The available information is shown in the following tables.

The information shown in the table is for prescriptions dispensed in the community (almost all of these prescriptions are written by general practice) for emergency hormonal contraception.

	Quarter[1]	Items (Thousand)
2001	January-March	91.3
2001	April-June	87.8
2001	July-September	88.4
2001	October-December	98.0
2002	January-March	98.1
2002	April-June	95.2
2002	July-September	96.3
2002	October-December	93.9
2003	January-March	93.4
2003	April-June	93.9
2003	July-September	95.6
2003	October-December	89.9
2004	January-March	90.1
2004	April-June	87.2
2004	July-September	85.4
2004	October-December	79.4
2005	January-March	75.9
2005	April-June	80.5
2005	July-September	83.0
2005	October-December	76.0
2006	January-March	75.1
2006	April-June	77.1
2006	July-September	76.2
2006	October-December	70.3
2007	January-March	69.9

[1] Figures are held on a quarterly not monthly basis.

Source:

Prescription information is taken from the Prescription Cost Analysis system, supplied by the Prescription Pricing Division of the Business Services Authority, and is based on a full analysis of all prescriptions dispensed in the community i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. The data do not cover drugs dispensed in hospitals.

The information on emergency contraception supplied by community contraception clinics is shown in the following table:

Occasions on which emergency contraception was supplied at community contraception clinics by type, 1995-96 to 2005-06, England

Thousand

	All ages		
Year[1]	Total occasions	Hormonal	IU Device
2001-02	198.5	193.4	5.1
2002-03	191.6	187.0	4.6
2003-04	187.4	183.2	4.2
2004-05	178.5	174.1	4.5

Occasions on which emergency contraception was supplied at community contraception clinics by type, 1995-96 to 2005-06, England

Thousand

	All ages		
Year[1]	Total occasions	Hormonal	IU Device
2005-06	169.3	164.5	4.8

[1] Data are collected annually and are therefore not available monthly.

The Information Centre for Health and Social Care KT31 return © 2007 The Information Centre. All rights reserved.

Sandra Gidley: To ask the Secretary of State for Health how many women were *(a)* given prescriptions for the oral contraceptive and *(b)* given depot contraceptive injections in each of the last 10 years, broken down by (i) age and (ii) trust. [150980]

Dawn Primarolo: The available information on prescriptions dispensed in the community (almost all of which are written by general practice) for oral and injectable contraceptives by trust has been placed in the Library. Data on prescriptions by age are not available.

Data for oral and injectable contraceptives supplied by community contraceptive clinics for the nine years preceding 2005-06 can be provided only at disproportionate cost. However, 2005-06 data for first contacts with women are available and have also been placed in the Library.

Primary Care Trusts: Redundancy Pay

Mr. Stewart Jackson: To ask the Secretary of State for Health what the cost was of redundancy payments associated with the reconfiguration of primary care trusts in the East of England in the financial year 2006-07; and if he will make a statement. [151556]

Mr. Ivan Lewis: There were 255 compulsory redundancies made in East of England strategic health authority area in the 2006-07 financial year.

The costs of early retirement and redundancy payments is not collected centrally.

Sexually Transmitted Diseases

Sandra Gidley: To ask the Secretary of State for Health how many diagnoses of sexually transmitted infections there were in *(a)* Hampshire and *(b)* England in each month since January 2001. [150936]

Dawn Primarolo: Data are not currently available for Hampshire and are not collected monthly. Hampshire is in the South Central Strategic Health Authority (SHA) and data for this SHA by quarter are given in the following table:

STI diagnoses—South Central SHA

Quarter	2001	2002	2003	2004	2005	2006
January-March	7,622	7,681	8,399	9,716	9,532	8,984
April-June	7,504	7,705	8,502	9,649	10,598	10,118
July-September	7,627	8,207	10,112	9,622	9,965	8,503
October-December	7,619	7,987	9,232	8,937	9,638	6,726

Data for England are given in the following table.

STI diagnoses—England

Quarter	2001	2002[a]	2003	2004	2005	2006
January-March	107,935	113,664	123,253	130,217	132,055	128,694
April-June	105,343	113,807	122,685	128,714	142,074	125,701
July-September	110,123	118,745	129,405	134,502	137,955	137,982
October-December	108,875	116,853	121,514	132,445	133,278	125,461

Note:
The data available from the KC60 statutory returns are for diagnoses made in genito-urinary clinics only. Diagnoses made in other clinical settings, such as general practice, are not recorded in the KC60 dataset.

Sexually Transmitted Diseases: Young People

Tim Loughton: To ask the Secretary of State for Health how many children and young people under the age of 18 years have been diagnosed with *(a)* chlamydia, *(b)* gonorrhoea, *(c)* genital herpes, *(d)* genital warts, *(e)* hepatitis B and *(f)* syphilis in each of the last 10 years. [150638]

Dawn Primarolo: Data for chlamydia, gonorrhoea, genital herpes, genital warts and syphilis are published by the Health Protection Agency in their annual report "Diagnoses of selected STIs by Strategic Health Authority, country, sex and age group, United Kingdom: 1997-2006", copies of which have been placed in the Library. Data is not collected by age for hepatitis B.

This data is available at:

www.hpa.org. uk/infections/topics_az/hiv_and_sti/epidemiology/datatables2006.htm.

Smoking: Death

Sandra Gidley: To ask the Secretary of State for Health how many deaths there were in *(a)* England, *(b)* Hampshire and *(c)* Southampton as a result of (i) the consumption of alcohol and (ii) smoking in each of the last five years. [150967]

Dawn Primarolo: The following table provides the number of deaths with an alcohol-related underlying cause in England, Hampshire, and Southampton from 2002-06 (the latest year available).

Number of deaths with an alcohol-related underlying cause of death[1], England, Hampshire and Southampton[2], 2002-06[3]

Deaths (persons)

	2002	2003	2004	2005	2006
England	5,582	5,981	6,036	6,191	6,517
Hampshire	93	139	118	128	142
Southampton	36	31	25	35	32

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The specific causes of death categorised as alcohol-related, and their corresponding ICD-10 codes, are shown as follows.
[2] Based on boundaries as of 2007.
[3] Figures are for deaths registered in each calendar year.
Source:
ONS National Statistics Online

Alcohol-related causes of death—international classification of diseases, tenth revision (ICD-10).

Cause of death	ICD-10 code(s)
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excl. Biliary cirrhosis)	K74 (excl. K74.3-K74.5)
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by and exposure to alcohol, undetermined intent	Y15

Figures on the numbers of deaths attributable to smoking among people aged 35 or over are given in the following table. Figures are only available for Hampshire and Southampton for the periods 2002-04 and 2003-05 and for England for the periods 1998-02, 2002-04 and 2003-05. The figures for 2003-05 are not directly comparable with the figures for earlier years because of a change in methodology.

Deaths attributable to smoking among people aged 35 or over[1]

	1998-2002[2]	2002-04[2]	2003-05[2]
England	86,500	86,100	87,000
Hampshire	n/a	1,873	1,931
Southampton	n/a	376	374

Note:
The figures for 2003-05 are not directly comparable with the figures for earlier years: the 2003-05 figures are based on the method developed by the United States Centers for Disease Control and Prevention, whereas the figures for earlier years are based on the method developed by the Institute for the Geography of Health at University of Portsmouth.

[2] "Community Health Profiles", APHO and Department of Health

Social Services: Manpower

David Taylor: To ask the Secretary of State for Health how many people are employed in adult social care in the *(a)* public and *(b)* private sector in (i) Leicestershire, (ii) the east midlands and (iii) England. [150882]

Mr. Ivan Lewis *[holding answer 23 July 2007]:* This information is not collected centrally. The local government annual social services work force survey, undertaken by Local Government Analysis and Research, provides figures for the public sector only. As at 30 September 2005, there were approximately 108,435 people (headcount)

employed in the public sector within the adult social care work force for England. Local and regional figures are not available.

The Wanless Social Care Review, Kings Fund 2006, is another source of data across client groups and the private and voluntary sectors, further information can be found at:

www.kingsfund.org.uk/publications.

Solvents: Misuse

Tim Loughton: To ask the Secretary of State for Health how many times the stakeholder group set up under the Volatile Substance Abuse Framework has met; and if he will place in the Library the minutes from these meetings. [150374]

Dawn Primarolo: A stakeholder group made up of key players in the field was set up in December 2004 to develop and implement the national framework for volatile substance abuse. The group was revised in December 2006 to include key departments across Government.

The stakeholder group has met five times since its conception. Minutes, where available, have been placed in the Library. However, early meetings of the group were not minuted. In addition, minutes of the last stakeholder group meeting have yet to be finalised, and therefore are not available.

Transplant Surgery

Mr. Hollobone: To ask the Secretary of State for Health in how many cases cold perfusion of body parts has been *(a)* started and *(b)* continued to transplant in each year since 2000; and what the success rate has been. [151691]

Ann Keen *[holding answer 23 July 2007]:* This information is not held centrally.

Tuberculosis

Andrew George: To ask the Secretary of State for Health how many cases of tuberculosis were diagnosed in England between 2000 and 2006. [152397]

Dawn Primarolo: Details of tuberculosis cases reported in England between 2000 and 2005 are shown as follows. Data for 2006 are expected later this year.

The following information is available on the Health Protection Agency website at:

www.hpa.org.uk/infections/topics_az/tb/epidemiology/tables.htm

Number of Tuberculosis case reports in England

2000	*2001*	*2002*	*2003*	*2004*	*2005*
6,091	6,414	6,638	6,741	7,049	7,846

Tuberculosis: Vaccination

Andrew George: To ask the Secretary of State for Health what the main limiting factors are in the timescale of the development of new tuberculosis vaccine. [152395]

Dawn Primarolo: There are several organisations globally that are developing new tuberculosis vaccines, and currently four vaccines are in clinical trial phase. One of these vaccines is being developed by the University of Oxford. These vaccines have to be tested in clinical trials to show that they are both safe and effective before they can be used widely.

Wheelchairs

Miss Begg: To ask the Secretary of State for Health (1) when he plans to publish data provided by local wheelchair services in England to inform the new model of wheelchair service delivery; [150379]

(2) when he will publish the outline model for wheelchair service as part of the Transforming Community Equipment and Wheelchair Services Programme; and whether he will consult stakeholders on the suitability of the proposed model of wheelchair services following publication; [150380]

(3) what research has been undertaken to determine the adequacy and merits of a retail market model of provision for *(a)* community equipment and *(b)* wheelchair services for children and young people with complex disabilities; [150382]

(4) whether the demand forecasting tool envisaged by the proposed retail market model for community equipment services will record the unmet needs of children and young people. [150385]

Mr. Ivan Lewis: We have agreed a further data gathering exercise to be provided by local wheelchair services and have asked the care services efficiency delivery (CSED) programme to report to me in autumn 2007. A decision to publish data, research and the outline model will be made at that time.

The outline model for community equipment services was published on the CSED website on 31 May 2007 at www.csed.csip.org.uk and has been placed in the Library. The Transforming Community Equipment and Wheelchair Services programme is a collaborative programme. CSED has worked in collaboration with over 250 stakeholders including users of services and their carers, local authority and health practitioners, current providers and suppliers, the third and private sectors, representatives of voluntary organisations, professional bodies and trade and provider associations to design a conceptual model suitable for adults and children.

The programme is currently holding nine public regional events that are designed to share information, canvass opinion and collect feedback.

The research undertaken has included determination of the adequacy and merits of a retail market model of provision for community equipment for children and young people with complex disabilities. A further validation exercise will take place in August 2007 to confirm that detailed design development is consistent with the needs of children.

CSED are looking to adapt the projecting older people population information as the demand forecasting tool to take children's needs into account.

Wheelchairs: Children

Miss Begg: To ask the Secretary of State for Health whether his Department has included additional funding to improve the stock of wheelchairs provided to young children and young people in its submission to the Comprehensive Spending Review. [150381]

Mr. Ivan Lewis: The Department has worked closely with HM Treasury in preparation for the Comprehensive Spending Review (CSR), and made clear its priorities for the CSR period. These discussions are ongoing and full details of the Department's settlement will be set out in the CSR White Paper.

Wheelchairs: Young People

Tim Loughton: To ask the Secretary of State for Health (1) how many requests for new wheelchairs for children and young people in each of the last five years were granted *(a)* within a month, *(b)* within three months and *(c)* after over six months; [150712]

(2) how many children are on a waiting list to receive *(a)* a lightweight manual wheelchair and *(b)* powered mobility equipment; [150713]

(3) how many NHS wheelchairs available for children and young people have been in service for *(a)* less than one year, *(b)* less than five years and *(c)* more than 10 years. [150714]

Mr. Ivan Lewis: The information requested is not held centrally. National health service wheelchair services are funded and managed at a local level. It is up to individual primary care trusts to determine the appropriate level of funding for their service and to assess and meet the needs of each individual using their service.

Tim Loughton: To ask the Secretary of State for Health whether the review of community equipment and wheelchair services will address the specific needs of children and young people; and if he will make a statement. [150731]

Mr. Ivan Lewis: The transforming community equipment and wheelchair services project is addressing the specific needs of children. The project scope includes all community equipment provided to children, their families and carers.

Written Answers to Questions

Thursday 26 July 2007

DEFENCE

Aircraft Carriers

Dr. Julian Lewis: To ask the Secretary of State for Defence by what means the Fleet will be protected against aerial attack prior to the advent of the Future Aircraft Carriers. [152061]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* The Fleet relies on a layered defence approach to defeat an aerial attack. The backbone of the Fleet's ability to defend itself from air attack in the outer layer of maritime air defence will continue to be provided by destroyers. At present, this is achieved using the Type 42 Destroyers equipped with the medium range Sea Dart surface to air missile system. Type 45 Destroyers will gradually replace the Type 42 destroyers. These new ships will be armed with the Principal Anti Air Missile System, enhancing the Fleet's capability to counter the most sophisticated aircraft and anti-ship missiles in the world.

In the inner layer of Maritime Air Defence the Fleet's close range air defence capability will continue to be provided by Type 22 and Type 23 Frigates equipped with the Seawolf point defence missile system. Additional air defence capability will also come from a combination of close-in weapon (gun) systems, such as Goalkeeper and Phalanx, and decoys.

Airborne Early Warning Sea King helicopters will provide the long range detection of airborne contacts.

Ammunition

Nick Harvey: To ask the Secretary of State for Defence how much his Department has spent on researching enhanced blast munitions; what orders have been made for them; and what plans there are for future procurement of the munitions. [152215]

Mr. Bob Ainsworth: The Ministry of Defence has current research programmes relevant to enhanced blast munitions valued at approximately £10 million, spread over more than five years. These are to investigate the underlying science and are aimed at the assessment of the threat to UK armed forces, what protection is appropriate, and the advantage of incorporation of such technology into weapons.

The MOD has one programme which incorporates enhanced blast technology, the Anti-Structures Munition (ASM), as announced by my predecessor on 6 February 2006, *Official Report*, column 34WS, due to enter service at the end of 2009. It will enable infantry to defeat hardened structures such as buildings or bunkers, reducing casualties to our forces while minimising collateral damage. In the interim an off the shelf system has been procured until the ASM becomes available. There are currently no plans for future procurement of enhanced blast munitions.

Armed Forces: Desertion

Nick Harvey: To ask the Secretary of State for Defence how many service personnel were reported as absent without leave in each *(a)* month and *(b)* year since January 2004. [152359]

Mr. Bob Ainsworth: The following table shows the number of Royal Navy personnel absent without leave in each month since January 2004 to June 2006.

	2004	*2005*	*2006*	*2007*
January	13	23	19	12
February	14	28	14	10
March	18	16	19	9
April	11	16	12	5
May	12	22	14	6
June	23	20	13	15
July	12	15	5	—
August	11	14	11	—
September	17	4	13	—
October	26	12	15	—
November	20	18	13	—
December	7	8	9	—

The following table shows absence without leave statistics by calendar year from January 2004:

	Navy	*Army*	*RAF*
2004	185	3,030	55
2005	195	2,715	35
2006	155	2,330	10
2007	55	1,275	15

Notes:
1. Both the Navy and the Army record AWOL statistics by the number of incidences of AWOL rather than the number of people who have gone AWOL, so there may be a number people who are represented more than once in these figures.
2. Figures are rounded to the nearest five and are as at 23 July 2007.
3. Differences in figures for individual years compared to previous answers occur because personnel may have been wrongly reported as AWOL in the first instance, or conversely they may have subsequently been found to have been AWOL and the records rectified later.

Monthly breakdowns of the figures for the Army and the Royal Air Force could be provided only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence how many service personnel classed as being absent without leave since 1997 have not yet been accounted for. [152360]

Mr. Bob Ainsworth: The numbers of personnel who have gone absent without leave from the services since 1 January 1997 and remain so are, as at 23 July 2007,

Navy: 30

Army: 1,175

RAF: 15

These figures are rounded to the nearest five. They are subject to daily changes as individuals return to their units.

There is no evidence to suggest that operational commitments or any other factors are causing a significant increase. There are a number of reasons why personnel may go AWOL but anecdotal evidence suggests that

most incidents are caused by domestic circumstances, such as family problems, rather than any wish to avoid military service.

Armed Forces: Health Services

Nick Harvey: To ask the Secretary of State for Defence what assessment he has made of the suitability of 36 Grays Lane, Headley Court for temporary service family accommodation. [152356]

Derek Twigg: The generous offer by the Soldiers, Sailors, Airmen and Families Association Forces Help (SSAFA—Forces Help) to use this property in Ashtead to provide short-term accommodation for families visiting relatives who are being treated at the Defence Medical Rehabilitation Centre (DMRC), Headley Court is very welcome. DMRC staff have advised that the accommodation, with minor alterations to facilitate access, will be entirely suitable for the proposed purpose.

Nick Harvey: To ask the Secretary of State for Defence if he will support the Sailors, Soldiers, Airmen and Families Association in its application to the local council to make alterations to its property in Ashtead, Surrey, for armed forces' families visiting Headley Court. [152357]

Derek Twigg: As I made clear on a recent visit to Headley Court, when I opened a new ward, I am most grateful for the Sailors, Soldiers, Airmen and Families Association (SSAFA) Forces Help's offer to provide a property for the short-term accommodation of families visiting relatives being treated there.

Nick Harvey: To ask the Secretary of State for Defence what steps are being taken to *(a)* support and *(b)* accommodate service families when visiting injured relatives at Headley Court. [152358]

Derek Twigg: Family visits are an integral part of the rehabilitation of injured service personnel being treated at the Defence Medical Rehabilitation Centre, Headley Court.

The staff at Headley Court welcome such visits. The unit meets appropriate travel and subsistence costs, including overnight accommodation if it is in the patient's interests to have their family close by. In addition to local hotels, accommodation currently available to visiting families includes Pigeon House, a four-bedroom house in the Headley Court grounds, and Dale View, a converted three-bedroom service married quarter.

Armed Forces: Human Rights

Harry Cohen: To ask the Secretary of State for Defence if he will place in the Library a copy of the section of the transcript of the Bulford Camp court martial relating to advice on application of the Human Rights Act 1998 and the European Convention on Human Rights. [144589]

Mr. Bob Ainsworth: The trial in question lasted some six months and the transcript comprises approximately 15,000 pages. Evidence concerning advice on the application of the Human Rights Act and the European Convention on Human Rights was given on 8 December 2006. An electronic version of the complete trial transcript of open court sessions, including that day's evidence, will be made available in the Library of the House.

Armed Forces: Mental Health Services

Mr. Harper: To ask the Secretary of State for Defence what assessment his Department made of the NHS's requirement for *(a)* psychologists, *(b)* psychiatrists, *(c)* mental health nurses and *(d)* occupational therapists in (i) 2006 and (ii) 2007. [148364]

Derek Twigg: The requirements for uniformed consultant psychiatrists and mental health nurses on 1 April 2006 and 1 April 2007 are shown as follows:

	Service consultant psychiatrists	*Service mental health nurses*
2006	26	113
2007	28	123

Source:
DMSD quarterly manning return 1 April 2006/March 2007 PPSG.

As stated in my answer of 7 March 2007, *Official Report*, columns 1985-88W, the armed forces no longer employ uniformed psychologists and mental health occupational therapists, but the MOD does employ civilian clinical psychologists, psychiatrists and mental health nurses. The required numbers for these grades are not held centrally. I will write to the hon. Member with these figures once they have been collated and place a copy of my letter in the Library of the House.

Armed Forces: Temporary Accommodation

Nick Harvey: To ask the Secretary of State for Defence how many service families have been placed by MoDern Housing Solutions in *(a)* Premier Travel Inns and *(b)* other hotels in each year since 2005; and if he will make a statement. [150026]

Derek Twigg: The Housing Prime Contract was awarded to MoDern Housing Solutions on 14 November 2005 and was rolled out in January 2006. The number of families placed in Premier Travel Inns and other hotels since 1 January 2006 is as follows:

	Premier Travel inns	*Other hotels*
2006	9	46
Up to 30 June 2007	7	23

Hotels are provided where service families need to be away, for a short period, from their SFA while repairs are carried out.

Army: Travel

Mr. Kevan Jones: To ask the Secretary of State for Defence how much was spent on travel costs for *(a)* members of the Army Board, *(b)* the Adjutant-General and *(c)* the Chief of the General Staff in 2006. [118181]

Derek Twigg: In 2006, the Army Board spent £463,010 on travel in total. Of this total, the

Adjutant-General spent £3,783 and the Chief of General Staff spent £78,814.

These figures include accommodation costs for ministerial members of the Army Board, which cannot be separated from travel costs. Totals also contain travel costs incurred by the relevant Army Board Member and their supporting staff, where appropriate, but excludes spouses. Costs relating to military flights and use of official staff cars have not been included.

Atomic Weapons Establishment: Sales

Mark Pritchard: To ask the Secretary of State for Defence what safeguards the Government have put in place to ensure that *(a)* national security and *(b)* sensitive design and manufacture systems are safeguarded from foreign powers following the auction of the Government stake in the Atomic Weapons Establishment. [150724]

Mr. Bob Ainsworth: As indicated by my right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform in his written statement to the House on 16 July 2007, *Official Report*, column 1WS, as part of the process of the sale of British Nuclear Group's share in AWE Management Ltd (AWEML), the Government will be seeking to ensure the enduring performance of AWEML in continuing to meet the requirements of its customer, the Ministry of Defence.

Such performance covers all aspects of work at the Atomic Weapons Establishment, with particular emphasis on the protection of national security and warhead design information, which are paramount considerations. We shall be applying a strict set of criteria in order to establish the acceptability of prospective purchasers before finalising an agreed shortlist of potential bidders. All factors will be taken into account in our analysis.

Bombs

Mr. Caton: To ask the Secretary of State for Defence for what reason a direct fire capability prevents a rocket with a sub-munition capability from being defined as a cluster munition, with particular reference to the CRV-7 MPSM rocket; and if he will make a statement. [152213]

Mr. Bob Ainsworth: The cluster munitions of humanitarian concern are those fired in the indirect role, whereas certain sub-munition variants are direct fire weapon systems. In the direct fire role the firing crew has line of sight from the platform to the target and has a sophisticated target identification and acquisition system to aid discrimination. In seeking the balance between humanitarian concern and military necessity the UK's definition of cluster munitions therefore excludes direct fire systems.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Defence which Bills introduced by his Department in the last five years have contained sunset clauses; and what plans he has for the future use of such clauses. [151842]

Derek Twigg: The Ministry of Defence has introduced only one Bill (which became the Armed Forces Act 2006) in the last five years that contains a time limit which may be regarded as a sunset clause. The clause continues the previous practice of making the main legislation governing the armed forces subject to a requirement for annual renewal by Order in Council approved by Parliament and for renewal by Act of Parliament every five years. This accords with the procedure which Parliament has adopted for this legislation in the past.

Dr. Cable: To ask the Secretary of State for Defence which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152485]

Derek Twigg: The Department has been responsible for the introduction of two Bills in the last five years which became:

The Armed Forces Pay and Compensation Act 2004

The Armed Forces Act 2006

The 2004 Act does not contain a sunset clause.

The 2006 Act contains a time limit which may be regarded as a form of sunset clause. The clause continues the previous practice of making the main legislation governing the armed forces subject to a requirement for annual renewal by Order in Council approved by Parliament and for renewal by Act of Parliament every five years.

Departments: Recruitment

Mrs. May: To ask the Secretary of State for Defence how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151673]

Derek Twigg: The information requested on how much the Department paid in fees to recruitment agencies for temporary workers and permanent staff in each year since 1997 is not held centrally. It could be provided only at disproportionate cost.

Departments: Sales

Dr. Murrison: To ask the Secretary of State for Defence how much was raised from the sale of departmental real estate for housing in each year since 1997. [149665]

Derek Twigg: The total accrued disposal receipts for each year since 1997 are published in the Defence Estates annual reports and accounts, copies of which are available in the Library of the House.

Departments: Written Questions

Mr. Lancaster: To ask the Secretary of State for Defence if he will publish his Department's guidance on answering written parliamentary questions. [152661]

Derek Twigg: Yes. I have placed a copy of the Department's guidance on answering written parliamentary questions in the Library of the House.

Ex-servicemen: Mental Health Services

Dr. Murrison: To ask the Secretary of State for Defence what criteria have been established for assessing the success of the Community Based Mental Health Service for Veterans pilot scheme; what the cost is for *(a)* the national roll-out of the service and *(b)* the pilots; and what alternatives for the delivery of the service have been considered. [151591]

Derek Twigg: A process and outcome evaluation of the pilots over their two-year duration is an integral part of the project. The key measures, advised on by national clinical experts, will be the assessment and treatment regimes provided, and the patient (and carer) experience and outcomes.

The costs of running the pilot scheme are not yet available as negotiations for the funding of individual sites are still continuing between the MOD, the Department of Health and NHS trusts. The cost of rolling out the scheme nationwide will depend on the outcomes of the pilots.

The proposed service is advised on by clinical and health care experts and reflects the long established intention that veterans' health care is primarily a matter for the NHS. Using NHS best practice and processes, veterans-sensitive evidence-based interventions will be delivered by public, private or charitable providers. These will be modified as necessary in the light of the pilot evaluation.

In addition, we have recently announced the expansion of our Medical Assessment Programme (MAP) based at St Thomas' Hospital, London, to include assessment of veterans with mental health symptoms with operational service from 1982 (including veterans of the Falklands campaign). The clinician in charge is a recently retired service military psychiatrist, who will provide support and advice to GPs and other civilian health professionals where the individual is concerned that the service background of their condition may not have been understood within the NHS or where the health professional is seeking expertise on the assessment or treatment of a veteran's condition.

Iraq-Kuwait Conflict: Gulf War Syndrome

Mr. Hancock: To ask the Secretary of State for Defence what recent assessment he has made of the case for establishing a public inquiry to examine illnesses resulting from the Gulf War; and if he will make a statement. [149989]

Derek Twigg: It has been the Government's policy since 1997 to be open and transparent about Gulf veterans issues, including the publication of all relevant documents. We have identified and published the lessons of the past, accepting that mistakes were made in 1990-91, particularly with regard to medical record keeping. The Government's view is that there are no substantive issues to be addressed by a public inquiry and that, in particular, it would not help to resolve the long outstanding issue of why veterans are ill; only scientific research might do this. We have funded a substantial programme of research designed to address the key candidate causes so far put forward, but recognising that it would not be sensible to duplicate work being undertaken elsewhere.

Military Bases: Germany

Nick Harvey: To ask the Secretary of State for Defence how many standard *(a)* 1, *(b)* 2, *(c)* 3 and *(d)* 4 accommodation units there are at UK bases in Germany. [151760]

Derek Twigg: Service families accommodation (SFA) and single living accommodation (SLA) in Germany is assessed by grade for charge (rather than Standard for Condition which is used in Great Britain).

On that basis, the total number of SFA and SLA by grade is as follows:

	Germany	
	SFA	*SLA*
Grade 1	2,101	1,658
Grade 2	5,376	1,354
Grade 3	4,743	3,475
Grade 4	982	9,782
Total	13,202	16,269

Grade for charge is broken down on amenities and location. Grade for charge 1 would be accommodation that is close to all amenities. Grade 4 would be properties further away. This differs from standard for conditions, which relates to the physical condition of the property.

Navy: Drug Seizures

Mr. Hancock: To ask the Secretary of State for Defence how the cocaine seized by the Royal Navy in 2006-07 was disposed of. [149480]

Mr. Bob Ainsworth: The physical seizure of cocaine on Royal Navy interdiction operations is conducted by personnel from relevant local law enforcement agencies embarked on Royal Naval vessels. Once retrieved, the cocaine becomes the responsibility of the relevant law enforcement agency.

Navy: Warships

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the *(a)* destroyers, *(b)* frigates and *(c)* attack submarines (i) currently deployed and (ii) available for short-notice deployment with the fleet. [152063]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* As at 19 July 2007, the following vessels were deployed:

Destroyers:

HMS Manchester
HMS Edinburgh
HMS Southampton
HMS York

Frigates:

HMS Cornwall
HMS Kent
HMS Monmouth
HMS Portland
HMS Richmond
HMS Montrose

Attack Submarines:

The general policy is that we do not discuss submarine operations. Fleet Attack Submarines (SSN) are on patrols in various locations.

As my predecessor made clear in his letter of 6 March 2007, a copy of which is available in the Library of the House, it is not MOD policy to publish details of the readiness states of individual RN vessels or types. I am not prepared, therefore, to provide details of vessels available for short-notice deployments.

Dr. Julian Lewis: To ask the Secretary of State for Defence what progress has been made with planning for the use of dual crews for warships; and in respect of which classes of warships it is being considered. [152064]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* The Royal Navy is conducting trials and experimentation programmes to help determine optimal manning solutions, both in the short and mid to longer term, that will maximise the contribution to defence by enabling ships to remain deployed for extended periods, while minimising the impact on personnel. These programmes include swapping ship's companies of HMS Edinburgh and HMS Exeter (Type 42 destroyers), and several Mine Counter Measure Vessels; and providing temporary relief for some personnel on the extended deployment of HMS Sutherland and HMS Monmouth (Type 23 frigates). The trials are continuing.

Peacekeeping Operations

Mr. Gray: To ask the Secretary of State for Defence how many repatriations of bodies have occurred *(a)* via RAF Brize Norton and *(b)* via RAF Lyneham in each year since 2003. [150163]

Mr. Bob Ainsworth: The information requested is shown in the following table.

	RAF Brize Norton	*RAF Lyneham*
2003	53	0
2004	38	0
2005	16	14
2006	64	0
2007 (as at 20 July)	15	36
Total	186	50

In the process of answering this question, it has become apparent that some of the figures provided in response to the hon. Member's parliamentary question of 26 March 2007, *Official Report*, column 1359W, were incorrect.

Unfortunately there were errors in the source documentation for the 2004, 2005 and 2007 figures for repatriations held by Headquarters Air Command. A figure for 2005 was inadvertently reflected in 2004. Also, the figures for 2006 did not include the 14 personnel who were killed in the Nimrod XV230 crash in September 2006. This was because the repatriation ceremony for these personnel was held at RAF Kinloss, but because their bodies were repatriated through, and returned to, RAF Brize Norton, with hindsight it is clear that they should have been included.

RAF Personnel Management Agency: Finance

Mike Penning: To ask the Secretary of State for Defence what the *(a)* initial resource provision, *(b)* in-year variation and *(c)* resource outturn was for the RAF Personnel Management Agency in each financial year since 1997. [146959]

Mr. Bob Ainsworth: The RAF Personnel Management Agency relinquished Government agency status at the start of financial year 2004-05. Therefore budgetary information for that agency is only available up to the financial year 2003-04.

The resource outturn for financial years 1997-98 to 2003-04 can be found in the RAF Personnel Management Agency annual report and accounts, which are available in the Library of the House.

The figures for initial resource provision and in-year variations are not held.

Territorial Army: Recruitment

Mr. Lancaster: To ask the Secretary of State for Defence (1) what estimate he has made of the number of Territorial Army (TA) posts which will not be filled as a result of the decision to freeze recruiting in some TA units; and what proportion of TA manpower this represents; [152662]

(2) pursuant to the answer of 19 June 2007, *Official Report*, column 1769W, on reserve forces: recruitment, which Territorial Army units have a recruitment freeze; and what the *(a)* establishment and *(b)* current manning level is of each, broken down by (i) rank and (ii) appointment. [152809]

Mr. Bob Ainsworth: It is not possible to provide the information requested, as the details of measures limiting the strength of selected Territorial Army units have not yet been finalised. However, I can assure the hon. Member that a rigorous process involving a wide range of army stakeholders is currently assessing the likely impact of these measures and ensuring that coherence and effectiveness are maintained. I will write to the hon. Member with the results of that process once it is complete and will place a copy of my letter in the Library of the House.

Trident

Mr. Llwyd: To ask the Secretary of State for Defence when he expects to make the first of the regular reports to Parliament on progress made in the Trident replacement programme, as referred to by the former Secretary of State for Foreign and Commonwealth Affairs on 14 March 2007, *Official Report*, column 309. [150280]

Des Browne: In accordance with the usual practice on major procurement projects, the first full progress report on the programme to maintain the UK's nuclear deterrent will be made after the Initial Gate for the new class of submarines, currently estimated to be in 2009. Interim reports will be provided depending on progress with the programme.

Type 45 Destroyers

Dr. Julian Lewis: To ask the Secretary of State for Defence whether there has been a change in the intention to build eight Type-45 Destroyers. [151186]

Mr. Bob Ainsworth *[holding answer 25 July 2007]:* No decision has yet been made to order the seventh and eighth Type 45 destroyers. A number of factors will be taken into account as part of the decision-making process, including affordability, value for money, and the wider context of the defence industrial strategy.

Unmanned Air Vehicles: Costs

Ann Winterton: To ask the Secretary of State for Defence what the projected costs are of the Watchkeeper UAV system programme; and if he will make a statement on progress in delivering the programme. [148568]

Mr. Bob Ainsworth: The acquisition costs for the Watchkeeper system are expected to be around £840 million. The planned in-service date is 2011.

INNOVATION, UNIVERSITIES AND SKILLS

Scientific Research

23. **David Taylor:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the adequacy of the level of public funding for scientific research. [152575]

Ian Pearson: Public investment in R and D in 2005 was £7.4 billion. It has grown by almost 30 per cent. in real terms since 1997. The CSR07 period will see the science budget continue to rise above inflation.

Adult Education

24. **Mr. Dunne:** To ask the Secretary of State for Innovation, Universities and Skills what change there has been in the number of adult learning courses in the last 12 months; and if he will make a statement. [152576]

Mr. Lammy: I refer the hon. Member to the reply I gave the hon. Member for South-West Norfolk (Mr. Fraser).

Apprenticeships

25. **Miss McIntosh:** To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeships were *(a)* started and *(b)* finished in (i) 1997 and (ii) 2006. [152577]

Mr. Lammy: In the 1996-97 academic year 70,100 apprentices started. Information on framework completions was not collected at that time. In the 2005-06 academic year, 171,300 apprentices started and 99,000 completed the full framework.

John Austin: To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to increase the number of people applying for adult apprenticeships. [152468]

Mr. Lammy: The continuing expansion of apprenticeships provision, for both young people and adults, is a priority for the Government. Currently around one third of apprentices are aged 19 to 24, and evidence from recent trials of 25+ apprenticeships suggests that they can be a useful method of learning for some people. Therefore the Learning and Skills Council (LSC) is making available £16.7 million in 2007-08 to fund 8,000 additional places for this age group.

The Government will naturally encourage and support employers, LSC and sector skills councils (SSCs) in their normal promotion practices to recruit adult apprentices to fill the 8,000 places.

The Government are also supporting the LSC in its new skills campaign 'Our future. It's in our hands' launched on 9 July. This campaign is aimed at improving the skills of the nation and will include the promotion of adult apprenticeships.

Science and Innovation

Dr. Naysmith: To ask the Secretary of State for Innovation, Universities and Skills what progress has been made on the Government's 10-year strategy on science and innovation published in 2004; and if he will make a statement. [152571]

Ian Pearson: The Government published their third annual report on the Science and Innovation Investment Framework on Monday (23 July). The report shows that over the last year there has been continued, good progress in implementing the Government's challenging vision for science and innovation.

Apprentices: Cumbria

Tim Farron: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeships there were in Westmorland and Lonsdale in *(a)* 2005-06 and *(b)* 2006-07. [152894]

Mr. Lammy: Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). There were 440 learners on apprenticeships and 250 on advanced apprenticeships in the Westmorland and Lonsdale parliamentary constituency (based on home post code of the learner) in 2005/06. Comparable figures for 2006/07 will not be available until December 2007.

Source:

Learning and Skills Council (LSC) Work Based Learning (WBL) Individualised Learner Record (ILR).

Numbers have been rounded to the nearest 10.

Basic Skills: Training

David Wright: To ask the Secretary of State for Innovation, Universities and Skills how many organisations have signed up to the Skills Pledge scheme. [152566]

Mr. Denham: More than 150 leading private and public sector employers from across England made the Skills Pledge at its launch on 14 June. This means that

over 1.7 million employees are covered by a Skills Pledge. Since 14 June an additional 146 companies have expressed an interest in the Skills Pledge through the Train to Gain website and helpline. Brokers are currently working with these employers to take their commitment forward.

Unemployment: York

Hugh Bayley: To ask the Secretary of State for Innovation, Universities and Skills what percentage of 16 to 19-year-olds in York were registered as unemployed in January 2007. [151627]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what percentage of 16 to 19 year olds in York were registered as unemployed in January 2007. (151627)

The Office for National Statistics (ONS) compiles unemployment statistics for parliamentary constituencies from the Annual Population Survey (APS) following ILO definitions.

For the 12 months ending in December 2006, the latest available data, there were 1,000 persons aged 16 to 19, resident in the City of York constituency, who were unemployed. This estimate is 16 per cent of the resident population aged 16 to 19. The unemployment rate, which is the number of unemployed expressed as a percentage of the economically active population, in that age group, was 25 per cent.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). For January 2007, there were 200 persons aged 16 to 19, resident in the City of York constituency, claiming JSA. The corresponding figure for the latest available month, June 2007, is 180.

Young People: Training

Mary Creagh: To ask the Secretary of State for Innovation, Universities and Skills what discussions he has had with ministerial colleagues on the provision of youth training opportunities in the public sector. [152569]

Mr. Lammy: Around a third of the current total of 250,000 apprenticeships are being delivered in the public sector. We want to expand apprenticeships to meet Lord Leitch's ambition for 500,000 apprentices in learning in the UK (400,000 in England) by 2020. I will be speaking to my ministerial colleagues about this over the coming weeks.

PRIME MINISTER

Parliamentary Questions

Norman Baker: To ask the Prime Minister what criteria apply in deciding which ordinary written parliamentary questions of which no previous notice has been given shall be answered on the next day. [153753]

Helen Goodman: I have been asked to reply.

All Ministers aim to answer all parliamentary questions as soon as possible.

WALES

Administration of Justice

Mr. Touhig: To ask the Secretary of State for Wales what discussions he has held with Welsh ministers on the possible devolution of responsibility for criminal justice to the National Assembly for Wales. [151855]

Mr. Hain: None.

Departments: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Wales how many receptions were held at Gwydyr House in each of the last five years. [152836]

Mr. Hain: The following is a breakdown of the number of receptions hosted year on year in Gwydyr House.

	Receptions
2003	3
2004	3
2005	6
2006	5
2007	4

Departments: Stationery

Mr. Carmichael: To ask the Secretary of State for Wales how much his Department spent on stationery in each of the last five years. [152835]

Mr. Hain: Stationery is supplied under a general office supplies contract, and its cost within the total is not identified separately.

National Assembly for Wales (Legislative Competence) Order 2007

Chris Ruane: To ask the Secretary of State for Wales when he expects the draft National Assembly for Wales (Legislative Competence) Order 2007 to be laid before the House. [152696]

Mr. Hain: The proposed draft order was placed in the Vote Office and Library of the House today, 26 July 2007. Copies can also be downloaded via the Wales Office website.

HOUSE OF COMMONS COMMISSION

Official Report: Paper

Andrew George: To ask the hon. Member for North Devon, representing the House of Commons Commission, what estimate he has made of the amount of paper required to distribute copies of the *Official Report* to all right hon. and hon. Members' Westminster and constituency offices during a sitting week. [152903]

Nick Harvey: Copies of the daily part of the *Official Report* are not distributed to all right hon. and hon. Members' offices, but 252 copies are distributed to the offices or other addresses of Members who have specifically requested such a distribution by completing a sessional demand form.

In all an average of 1,758 copies of the *Official Report* are produced daily. The total amount of paper, including run-up, waste and trimmings, used in the production of the daily part of the *Official Report* during a typical sitting week of four sitting days is approximately 3 tonnes. The 252 copies distributed on request to the Members' offices equate to an amount of paper of just under 450 kg.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Coal: Sulphur

Mark Pritchard: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will undertake research on the sulphur content of coal mined in the United Kingdom. [150716]

Malcolm Wicks: Information about the typical sulphur content of UK coal reserves is readily available in a range of technical publications. In addition, integrated pollution prevention and control regulations require regular sampling and analysis of the sulphur content of coal being used in processes within their scope, such as electricity generation, with the amalgamated reported data being published by the Environment Agency. This is in addition to any sampling carried out by UK producers and their customers to ensure that shipments comply with contract terms.

Electricity: Energy Supply

Mike Wood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations his Department has made to electricity providers on disruptions to the electricity supply in the last three years. [152734]

Malcolm Wicks: Electrical inspectors in my Department receive reports of significant interruptions to electricity supply and investigate incidents if the circumstances are warranted. For example inspectors looked into the interruptions at Hurst, London, in October 2006 (National Grid—transformer failure); Carnaby Street, London, in July 2006 (EDF—transformer and underground cable failure); in southern Scotland in March 2006 (storm impact); at Bournemouth in November 2005 (Southern Electricity—fire affecting overhead power line); at Carlisle in January 2005 (United Utilities—substation flooded); and at Birmingham in February 2004 (Aquila now Central Networks—fire in cable tunnel).

Inspectors also look into circumstances of specific localised power failures affecting individual customers, if problems remain unresolved.

My officials also liaise closely with electricity companies on an ongoing basis to ensure arrangements are in place to handle large-scale emergency situations.

Mike Wood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what records his Department keeps of disruptions to the electricity supply. [152737]

Malcolm Wicks: My Department maintains records of significant interruptions to electricity supply in GB.

These are reported to the Department in accordance with regulation 32 of the Electricity Safety, Quality and Continuity Regulations 2002 as amended. Electricity transmission and distribution companies are required to report incidents affecting 20 MW of demand or more for more than three minutes, or 5 MW of demand or more for more than one hour, or 5,000 customers or more for more than one hour.

Electricity: Meters

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will have a meeting with the gas and electricity suppliers, smart meter manufacturers and environmental stakeholders including Energywatch and the Carbon Trust to discuss the Government's plans for smart meters. [148223]

Malcolm Wicks: My Department has had and will continue to have further discussion on its proposals for smart meters with a range of interested parties, including energy suppliers, metering manufacturers and environmental stakeholders. The Government have also indicated that they will consult on the implementation of proposals in the context of their ambition to see a roll-out of smart meters within 10 years.

Electronic Equipment: Waste Disposal

Chris Huhne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department has taken to raise awareness with the public and business of obligations and responsibilities relating to the Waste Electrical and Electronic Equipment Directive. [151735]

Malcolm Wicks: The WEEE regulations place a number of obligations on producers and retailers of Electrical and Electronic Equipment (EEE) to provide information to consumers as to how best they can dispose of their WEEE to help protect the environment. From 1 July consumers are receiving information from retailers when they buy a new item of electrical equipment on how they can do this.

A number of trade associations have been helping to raise awareness among their members. The Department

has organised roadshows, seminars and mailouts as well as press and publicity in national, regional and trade publications. Further briefing events will be taking place in September across the UK for small businesses.

Energy Development Unit

Dr. Cable: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what measures are in place in the Energy Development Unit to govern gifts and hospitality provided by energy companies; and if he will make a statement; [151772]

(2) what the total value is of gifts and hospitality received by the Energy Development Unit from energy companies in each year since 1997. [151773]

Malcolm Wicks: All civil servants in the Department are required to follow the Department's guidance on the acceptance of hospitality and gifts, set out in the staff handbook.

The guidance recognises that, in the business world, hospitality is a common and well established means of maintaining working relationships and conducting business and that, in these circumstances, civil servants may accept it when the issues of propriety and possible conflicts of interest have been properly considered.

Under this guidance, a gifts and hospitality register was established in 1998, on which is registered all gifts over £10 in value and all material hospitality accepted.

The register was not set up to record the estimated value of gifts or hospitality until 2001 and the guidance does not require estimates to be entered when they may not be known or meaningful, for instance in the case of lunches or dinners. The following table shows the total of the values recorded between 2001 and 22 July 2007, and the percentage of entries where no value was given.

Value of gifts and hospitality received from energy companies: 2001-07

Year	*Value recorded (£)*	*Percentage that were not given a value*
2001	2,242	74
2002	1,741	65
2003	612	71
2004	1,442	51
2005	1,313	54
2006	3,403	32
2007[1]	1,626	38

[1] To 22 July

Export Controls

Roger Berry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans the Government have to tighten end-use controls over the re-export of UK supplies components as part of their review of export control legislation. [152259]

Malcolm Wicks: As the hon. Member is aware, I announced on 18 June 2007 a review of the export control legislation introduced in 2004 under the Export Control Act 2002. This includes a public consultation which seeks comments on the impact and effectiveness of the legislation and whether there is a need to change or enhance the controls.

In these circumstances I am unable to comment substantively on the potential for changes to the controls as this would risk prejudging the outcome of the review. However, the consultation document includes options for amending the Military End-Use Control, which currently applies in specified circumstances to components that are not controlled elsewhere in the legislation.

Where items that are being exported are licensable under current UK export control legislation, all known relevant factors, including whether the items are for incorporation into other equipment for re-export to a third country, are taken into account in the assessment of licence applications. When it is clear that military goods will be re-exported or that the equipment into which they are incorporated will be re-exported to a country covered by a full scope military arms embargo, the application for those items will be refused under the Consolidated EU and National Arms Export Licensing Criteria.

Respondents to the consultation will be able to provide their views, reasoning and evidence on this issue, as well as raising any other areas where they believe that the Government should consider changing the controls.

Housing: South East Region

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations the South East England Development Agency has made to the South East England regional assembly on the level of the yearly house building target in the Regional Spatial Strategy. [153738]

Mr. Timms: Following the South East England regional assembly's adoption of housing growth options in October 2004, SEEDA commissioned work to explore the needs of the region's economy. This established that maintaining present economic growth rates would require up to 45,000 new houses per annum, and that improvements in productivity and economic activity rates could reduce this requirement to 34,800 new houses per year while maintaining overall growth rates.

On the basis of this work (which was published by SEEDA), SEEDA's board agreed in March 2005 a response to the Regional Spatial Strategy consultation draft (published in April 2005) which made the case for a minimum average level of housing growth of 34,800 units per year 2006-26. The regional assembly adopted a proposed profile of 32,000 units per annum for 2006-11 and 36,000 units per annum for 2011-26.

Once the draft RSS was published in April 2006, SEEDA's board reconsidered the evidence at its June 2006 meeting and reaffirmed its support for the housing growth levels given above.

On this basis, SEEDA submitted written objections to the draft RSS which were considered by the Panel of Inspectors at the Examination in Public (October 2006-March 2007).

Manufacturing Industries: Balance of Trade

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the latest annual figure is for the trade deficit in manufacturing; and what steps his Department is taking to reduce it. [153307]

Mr. Timms: The Office for National Statistics estimates that the UK trade deficit in manufactures (Standard International Trade Classification sections 5 to 8) was about £51.9 billion in 2006 on a balance of payments basis.

The Government are strongly committed to the development of a high-value modern manufacturing sector which competes effectively in global markets. We have been successful in providing a stable macro-economic framework in which business can prosper and grow and are taking action through the manufacturing strategy to enable manufacturers to move to high value-added production through the application of science and innovation and the development of world class skills.

Nuclear Power Stations

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Prime Minister's oral answer of 4 July 2007, *Official Report*, columns 954-5, whether the Government have made a decision to build new nuclear power stations; and if he will make a statement. [152314]

Malcolm Wicks: Before we make a decision on nuclear, we are committed to consulting. Our nuclear consultation was published on 23 May. The Government have a preliminary view that it would be in the public interest to give energy companies the option to consider nuclear alongside other forms of low carbon electricity generation, but have not made a decision.

The Government will consider all responses as part of the consultation and will make a decision later this year after, and in the light of, the consultation.

Renewables Obligation

Mr. Anthony Wright: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect of the renewables obligation on carbon dioxide emissions. [151950]

Malcolm Wicks: Between 2002-03, when the RO was introduced, and 2005-06—the latest date for which figures are available from Ofgem—the RO was responsible for 37.9 TWh of generation from renewable sources. This amounts to a saving of 5.2 MtC.

Work by Oxera, published alongside the consultation on banding the RO on 23 May 2007, suggests that unchanged, the RO is estimated to save 90.6 MtC over its lifetime (until 2026-27).

Renewables generation assets, such as wind farms, which have been built to take advantage of the RO will continue in operation after the RO has come to an end, providing further savings beyond 2026-27.

Severn Barrage

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with *(a)* the Royal Society for the Protection of Birds, *(b)* the Wildfowl and Wetlands Trust and *(c)* the wildlife trusts on the proposal to build a Severn tidal barrage. [151704]

Malcolm Wicks *[holding answer 24 July 2007]:* There is no specific proposal at present to build a Severn barrage, so I have not had any discussions with the Royal Society for the Protection of Birds (RSPB) or any of the wildlife trusts on this issue.

However, the Sustainable Development Commission, with financial support from various parties including my Department, is undertaking a major study of tidal power in the UK. The study is looking at various options for harnessing the potential tidal energy resource that exists around the UK, including within the Severn estuary.

The study has included a programme of stakeholder and public engagement, as part of which the SDC has held discussions with the RSPB and the statutory conservation agencies. The SDC's final report is expected to be published in September and further details of the study can be seen at

www.sd-commission.org.uk/pages/tidal.html.

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will ask the Sustainable Development Commission to take evidence from right hon. and hon. Members representing constituencies in the areas around the river Severn as part of its study of tidal power in the UK. [151896]

Malcolm Wicks *[holding answer 24 July 2007]:* A central part of the Sustainable Development Commission's (SDC) work has been a public and stakeholder engagement programme. Although not aimed exclusively at Members for the Severn region constituencies, a stakeholder workshop held in Cardiff and an online forum on the SDC website have provided Members with the opportunity to contribute to the study.

Given that the study is now at an advanced stage and with the final report expected in September, I am doubtful about whether the SDC would find it reasonably practicable to accommodate such a request. However, Members are free to directly approach the SDC, with which any decision on whether or not to accept further representations rests.

It is worth pointing out that were any specific development proposal taken forward, significant public consultation would be required.

Shipping

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will *(a)* initiate and *(b)* evaluate research on the effect on the UK economy of the diminishing size of the UK merchant navy's (i) number of British-registered ships, (ii) number of UK merchant navy officers and (iii) UK maritime skills base; and if he will make a statement. [R] [152366]

Jim Fitzpatrick: I have been asked to reply.

Government reports and statistics monitor changes in the UK merchant navy and the effect of these changes on the UK economy on a regular basis. The Department for Transport's (DfT) annual "Maritime Statistics" records the size of the UK merchant fleet.

In recent years, the UK registered fleet has not been diminishing, as the hon. Member suggests. Between December 1997 and March 2007 the number of UK registered ships increased by over a quarter to over 1,900 (of which 1,459 are merchant vessels), while their deadweight capacity increased fourfold from 3.5 million tonnes to 14 million tonnes.

The DfT has commissioned London Metropolitan University to produce an annual assessment of the number of UK merchant navy officers, ratings, and new trainees, published in "United Kingdom Seafarers Analysis". The DfT has also commissioned two studies from Cardiff University in 1996 and 2003 on "The UK economy's requirements for people with experience of working at sea". In addition the Inland Revenue and the DfT produced a "Post Implementation Review of Tonnage Tax" in 2004.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health how many women aged *(a)* under 16, *(b)* 16 to 18, *(c)* 19 to 24, *(d)* 25 to 29, *(e)* 30 to 34, *(f)* 35 to 39 and *(g)* over 40 years of age in (i) Essex strategic health authority and (ii) England and Wales who had an abortion in 2006 had (A) no children, (B) one child, (C) two children, (D) three children, (E) four children and (F) five or more children. [152785]

Dawn Primarolo: The information requested is set out in the following table.

(i) Total abortions for residents of Essex PCTs[1] by number of previous births, 2006

	Total previous pregnancies that resulted in a live or still birth						
Age[2]	0	1	2	3	4	5 and more	Total
under 18	533	—	—	—	—	—	554
18 to 19	549	—	—	—	—	—	636
20 to 24	931	300	140	—	—	—	1,427
25 to 29	448	266	241	86	—	—	1,072
30 to 34	172	190	247	114	—	—	781
35 to 39	121	117	265	112	—	—	686
40 and over	34	45	116	66	—	—	283
Total all ages	2,788	1,009	1,025	424	133	60	5,439

[1] Totals shown relate to PCTs for Mid Essex, North East Essex, South East Essex, South West Essex and West Essex.
[2] Age groups are shown as published so as not to overlap ages and (for reasons of confidentiality) reveal small numbers, suppressed value or where a presented total would reveal a suppressed value.

(ii) Total abortions by number of previous births, England and Wales, 2006

	Total previous pregnancies that resulted in a live or still birth						
Age[1]	0	1	2	3	4	5 and more	Total
under 16	3,960	—	—	—	—	—	3,990
16 and 17	13,721	—	—	—	—	—	14,629
18 and 19	18,625	3,448	533	—	—	—	22,667
20 to 24	35,293	12,751	5,600	1,360	274	62	55,340
25 to 29	18,735	9,341	7,828	3,244	928	320	40,396

Total all ages	103,171	38,295	31,985	13,495	4,517	2,274	193,737

[1] Age groups are shown as publisned so as not to overlap ages and (for reasons of confidentiality) reveal small numbers, suppressed value or where a presented total would reveal a suppressed value.

Mr. Amess: To ask the Secretary of State for Health how many abortions were carried out at each week of gestation *(a)* between four and 17 weeks and *(b)* from 24 weeks in 2006; what the (i) age of mother, (ii) residency of mother, (iii) grounds for abortion, (iv) marital status of mother, (v) number of previous children and (vi) number of previous abortions were in each case; and how many and what percentage of those abortions were performed in the (A) public and (B) private sectors. [152857]

Mr. Ivan Lewis: The information requested is set out in the following tables.

(i) Abortions by age and gestation, residents, England and Wales, 2006

	Gestation										
Age	3 & 4	5	6	7	8	9	10	11	12	13	14

(iii) Abortions by grounds, residents, England and Wales, 2006

	Gestation								
Grounds	*9 and under*	*10*	*11*	*12*	*13*	*14*	*15*	*16*	*17*
Section 1(1)(a) and other[1]	131,020	20,240	12,333	8,964	4,823	3,515	2,819	1,889	1,589
Section 1(1)(d)	21	11	58	225	302	176	105	113	118
Total	131,041	20,251	12,391	9,189	5,125	3,691	2,924	2,002	1,707

	Gestation							
Grounds	*18*	*19*	*20*	*21*	*22*	*23*	*24+*	*Total*
Section 1(1)(a) and other[1]	1,242	1,021	787	573	485	398	0	191,698
Section 1(1)(d)	115	90	145	181	131	112	[1]136	2,039
Total	1,357	1,111	932	754	616	510	136	193,737

[1] Abortions 24 weeks and over and carried out under sections 1(1)(b), 1(1)(c) and 1(4) of the Abortion Act are included in total 136.
Note:
Totals are grouped where there are less than 10 (0 to 9) cases, or where a presented value would reveal a total less than 10 (0 to 9) when used with data already published.

More detail for grounds by gestation group can be found in Table 7b of Abortion Statistics, England and Wales, 2006

Section 1(1)(a): that the pregnancy has not exceeded its twenty-fourth week and that the continuance of the pregnancy would involve risk, greater than if the pregnancy were terminated, of injury to the physical or mental health of the pregnant woman or any existing children of her family.

Section 1(1)(b): that the termination is necessary to prevent grave permanent injury to the physical or mental health of the pregnant woman.

Section 1(1)(c): that the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated.

Section 1 (1)(d): that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped

Section 1(4): that the termination is immediately necessary to save the life or to prevent grave permanent injury to the physical or mental health of the pregnant woman.

(iv) Abortions by marital status and gestation, residents, England and Wales, 2006

	Gestation

Note:
Percentages are rounded and may not add up to 100.

Abortion: Children

Mr. Amess: To ask the Secretary of State for Health (1) how many children under 18 years had *(a)* a third and *(b)* fourth abortion in each of the last 10 years for which figures are available; [152782]

(2) how many women in *(a)* Essex Strategic Health Authority and *(b)* England and Wales had an abortion in 2006 who had already had (i) six and (ii) seven previous abortions. [152784]

Dawn Primarolo: Numbers of abortions to women age under 18 who have had a third or fourth abortion are not available for release for confidentiality reasons. This is because either the totals are less than 10 (between zero and nine cases) or because a presented total would reveal the value of a suppressed total already published. This is in line with the Office for National Statistics' guidance on the disclosure of abortion statistics (2005).

Numbers of women resident in the Essex Primary Care Trusts of Mid Essex, North East Essex, South East Essex, South West Essex and West Essex who had an abortion in 2006 who already had (i) six and (ii) seven previous abortions are also not available for release for the same reasons stated above. The numbers for England and Wales are published in Table 4b of the Statistical Bulletin "Abortion Statistics, England and Wales: 2006", copies of which are available in the Library.

Abortion: Private Sector

Mr. Amess: To ask the Secretary of State for Health if he will list the independent-sector places which applied to be registered with the Healthcare Commission to perform abortions in each of the last 12 months; how many applications were *(a)* accepted and *(b)* rejected; and if he will make a statement. [152858]

Mr. Ivan Lewis: The Healthcare Commission had three new applications from independent-sector places to register for the termination of pregnancy between July 2006 and the end of June 2007. The applications have yet to be determined and therefore remain commercial in confidence.

Admissions: Heart Diseases

Mr. Hands: To ask the Secretary of State for Health how many patients were admitted to hospital with congestive heart failure in each of the last five years, broken down by strategic health authority. [152919]

Ann Keen: The information requested has been placed in the Library.

Alcohol Harm Reduction Strategy

Mr. Burrowes: To ask the Secretary of State for Health pursuant to the statement by the Minister of State on 15 May 2007, *Official Report,* column

203WH, on the Alcohol Harm Reduction Strategy, whom the Minister of State has met; and which further stakeholders she plans to meet. [153372]

Dawn Primarolo: As the ministerial reshuffle occurred shortly after publication of the strategy and the recess is now imminent, no ministerial meetings with alcohol stakeholders have taken place since the strategy was published. However, early meetings are being sought by industry organisations, and Ministers would expect to meet them, as well as non-governmental organisations such as Alcohol Concern and senior medical representatives.

Alcoholic Drinks: Females

Sandra Gidley: To ask the Secretary of State for Health what assessment his Department has made of the potential impact of smoke-free pubs on levels of binge drinking by women. [153632]

Dawn Primarolo: The Department is not aware of any assessment or evidence on the potential impact of smoke-free pubs on levels of binge drinking by women.

Alcoholic Drinks: Health Services

Sandra Gidley: To ask the Secretary of State for Health what plans he has to incorporate alcohol monitoring in the Quality and Outcomes Framework. [147980]

Mr. Bradshaw: As part of the ongoing development of the Quality and Outcomes Framework (QOF), indicators and clinical areas will be reviewed in the light of the clinical evidence base. The Expert Panel which advises the QOF negotiations looks at new areas for clinical intervention by practices, in the context of value for money and the benefits to patients.

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health if he will publish regular progress reports on the Alcohol Harm Reduction Strategy. [153634]

Dawn Primarolo: The ministerial group on alcohol harm reduction, which is chaired jointly by myself and the Under-Secretary of State for the Home Department, my hon. Friend the Member for Gedling (Mr. Coaker), continue to monitor and manage the delivery of the priority actions and outcomes that are set out in 'Safe. Sensible. Social. The next steps in the National Alcohol Strategy'.

Information on progress against the priority actions that are detailed in 'Safe. Sensible. Social.', and links to statistical data assessing reductions in alcohol harm or changes in public awareness will be published regularly on a new Government website, the details of which will be announced in the near future.

Ambulance Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health which conditions are treated by ambulance trusts as Category *(a)* A and *(b)* B emergencies. [151817]

Mr. Bradshaw: Emergency 999 calls made to ambulance control centres are prioritised so that each can be responded to according to clinical need and receive a level of care appropriate to the patient(s) condition. In order to do this national health service ambulance trusts within England use a process of call categorisation.

Call categorisation means that the caller is asked a series of questions about the patient. From the responses provided, the call is allocated a code (determinant). This provides a description of the caller's injury/illness and the severity of that problem. Software products are used to help call handlers triage and categorise calls, and the code allocated will depend on the software product used.

Each determinant has been allocated a response level, by the Department, based on independent expert advice, according to the perceived severity of the determinant description. There are three response levels:

category A applies to a call where there appears to be an immediate threat to life.

category B identifies cases that appear to be serious in nature and require urgent assessment.

category C identifies cases that appear to be neither immediately serious or life-threatening.

Lists of codes for each software product, grouped by response level, are produced annually and are published on the Department of Health's website. Copies have been placed in the Library.

Ambulance Services: Manpower

Tim Farron: To ask the Secretary of State for Health how many paramedics worked for the North West Ambulance Service and its predecessors in each of the last five years; and what the projected numbers are for *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10. [152870]

Mr. Bradshaw: The number of paramedics (headcount) working in the specified organisations as at 30 September each year for the period 2002 to 2006 is shown in the table.

Specified organisation	*2002*	*2003*	*2004*	*2005*	*2006*
Cumbria Ambulance Service National Health Service Trust	121	144	148	146	[1]—

Information Centre for health and social care non-medical workforce census.

Workforce planning is a matter for individual trusts to undertake, working with their commissioners and strategic health authorities. Plans need to be, and are,

regularly reviewed as circumstances change. North West Ambulance Service NHS Trust has recently provided information to the Department on projected numbers for paramedics. I understand that the trust intends to have 1,347 whole-time equivalents in employment as paramedics in 2007-08, 1,361 in 2008-09 and 1,375 in 2009-10.

In 2006, numbers of ambulance staff were collected under new, more detailed occupation codes. This included the introduction of a code for emergency care practitioners and the North West Ambulance Service NHS Trust recorded 39 ECPs in 2006.

More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total workforce figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration by those analysing trends over time.

Anaemia: Medical Treatments

Dr. Iddon: To ask the Secretary of State for Health (1) what assessment he has made of the impact of the negative guidance by the National Institute for Health and Clinical Excellence in its final appraisal of the frequent use of erythropoietins in managing cancer-related anaemia on UK blood stocks; [152992]

(2) what guidance his Department provides to clinicians managing cancer-related anaemia on the account to be taken of *(a)* the Chief Medical Officer's advice to conserve blood stocks and *(b)* the National Institute for Health and Clinical Excellence's cost-effectiveness advice on the use of erythropoietins. [152993]

Ann Keen: We have made no such assessment. The National Institute for Health and Clinical Excellence (NICE) has not yet issued final guidance to the NHS on the clinical and cost effectiveness of erythropoietins in the management of cancer treatment-induced anaemia. NICE issued an appraisal consultation document on 29 June and its Appraisal Committee will consider the responses received. NICE expects to issue final guidance later this year.

Arthritis: Young People

Mr. Hands: To ask the Secretary of State for Health what treatment options are available to people with juvenile arthritis. [153343]

Mr. Ivan Lewis: Children living with juvenile arthritis are able to access a range of treatment options depending on the severity of their condition. Drugs that health professionals are able to prescribe include analgesics, non-steroidal anti-inflammatory drugs, disease-modifying drugs, corticosteroids, and anti-tumour necrosis inhibitors. Surgery and joint replacement are also available for those severely affected.

Asthma: Greater London

Lynne Featherstone: To ask the Secretary of State for Health how many *(a)* children and *(b)* adults were diagnosed with asthma in each London borough in each of the last five years; and if he will make a statement. [153561]

Ann Keen: Information on the number of cases of adult and childhood asthma is not collected centrally.

Autism: Greater London

Lynne Featherstone: To ask the Secretary of State for Health what services were provided for autistic children in each London borough in each of the last five years. [153639]

Ann Keen: The information requested is not held centrally. It is for primary care trusts to decide what services to provide for their local communities.

Blood Transfusions: Cancer

Dr. Iddon: To ask the Secretary of State for Health what estimate his Department has made of *(a)* the proportion and *(b)* the number of blood transfusions given to cancer patients in the latest period for which figures are available. [151997]

Ann Keen: It is estimated that at least 25 per cent. of red cells are given to patients with cancer. Not all of these units are given for direct treatment of cancer. Figures for the actual number of transfusions are not collected, but in 2006-07 the National Blood Service issued 1,864,271 units of red blood cells.

These figures are based on provisional results from the Epidemiology and Survival of Transfusion Recipients study, a National Blood Service study of patients transfused in England in 2001-02. The study is in the final stages and will be submitted for publication soon. However, it is based on data collected five years ago so it is likely that changes in blood use have occurred since then.

Breast Cancer: Screening

Bob Russell: To ask the Secretary of State for Health if he will introduce family history breast screening as part of the national breast screening programme; and if he will make a statement. [152926]

Ann Keen: The National Institute for Health and Clinical Excellence (NICE) published a clinical guideline on familial breast cancer in May 2004, partially updated in October 2006.

The clinical guideline relates to the classification and care of women at risk of familial breast cancer in primary, secondary and tertiary care. The guideline recommends that women at moderate familial risk of breast cancer or greater should receive annual mammography or magnetic resonance imaging surveillance.

NICE clinical guidelines are covered by the Department's developmental standards, standards which the national health service is expected to achieve

over time. The Healthcare Commission has responsibility for assessing progress towards achieving these standards.

As part of the development of the new Cancer Reform Strategy, we are examining the feasibility of bringing the management of surveillance of women at moderate familial risk of breast cancer or greater into the NHS breast screening programme.

Cancer: Anaemia

Dr. Iddon: To ask the Secretary of State for Health what estimate his Department has made of the economic cost of working days lost due to cancer-related anaemia and fatigue. [152021]

Ann Keen: The Department has made no estimate of the economic cost of working days lost due to cancer-related anaemia and fatigue.

Cancer: Drugs

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer of 10 July 2007, *Official Report*, columns 1437-40W, on cancer: drugs, what the date of licence in the UK was for each drug. [152435]

Dawn Primarolo: The following table shows the date on which each specific indication was authorised (information current at 24 July 2007).

Condition and Drugs	*Date of authorisation for specific indication*	*Drug substance*	*Notes*
Aggressive non-Hodgkin's lymphoma—rituximab (MabThera)	Specific indication is not licensed	Rituximab	MabThera is licensed for the treatment of patients with CD20 positive diffuse large B cell non-Hodgkin's lymphoma.
Breast cancer—docetaxel (Taxotere)	28 August 2000	Docetaxel	First line treatment for advanced or metasiatic breast cancer
Breast cancer—paclitaxel (Taxol)	27 March 2000	Paclitaxel	
Breast cancer bevacizumab (Avastin)	27 March 2007	Bevacizumab	
Breast cancer (advanced or metastatic)—lapatinib (Tyverb)	Drug substance not licensed	Lapatinib	
Breast cancer (advanced)—tratuzumab (Herceptin)	28 August 2000	Tratuzumab	
Breast cancer (advanced)—vinorelbine (Navelbine)	10 May 1996	Vinorelbine	
Breast cancer (early)—anastrozole (Arimidex)	29 October 2002	Anastrozole	
Breast cancer (early)—docetaxel (Taxotere)	Specific indication is not licensed	Docetaxel	Current licence is for advanced or metastatic breast cancer
Breast cancer (early)—exemastane (Aromasin)	26 August 2005	Exemastane	
Breast cancer (early)—letrozole (Femara)	9 September 2004	Letrozole	
Breast cancer (early)—paclitaxel (Taxol)	Specific indication is not licensed	Paclitaxel	Current licence is for advanced or metastatic breast cancer
Breast cancer (early)—trastuzumab (Herceptin)	22 May 2006	Trastuzumab	
Breast cancer (locally advanced)—capecitabine (Xeloda)	21 March 2002	Capecitabine	
Chronic lymphocytic leukaemia—fludarabine (Fludara)	11 August 1994	Fludarabine	
Chronic myeloid leukaemia—imatinib (Glivec)	7 November 2001	Imatinib	
Colon cancer (adjuvant)—capecitabine (Xeloda)	30 March 2005	Capecitabine	
Colon cancer (adjuvant)—irinotecan (Campto)	Specific indication is not licensed	Irinotecan	Not licensed for adjuvant treatment
Colon cancer (adjuvant)—oxaliplatin (Eloxatin)	18 October 2004	Oxaliplatin	
Colorectal cancer (advanced)==irinotecan (Campto)	14 July 1999	Irinotecan	
Colorectal cancer (advanced)—oxaliplatin (Eloxatin)	23 August 1999	Oxaliplatin	
Colorectal cancer (advanced)—ralitrexed (Tomudex)	11 August 1995	Ralitrexed	
Colorectal cancer (metastatic)—capecitabine (Xeloda)	2 February 2001	Capecitabine	
Colorectal cancer (metastatic)—tegafur + uracil (Uftoral)	5 January 2001	Tagafur + uracil	
Follicular lymphoma—rituximab (MabThera)	2 June 1998	Rituximab	
Gastro-intestinal stromal tumours (GIST)—imatinib (Glivec)	7 November 2001	Imatinib	
Glioblastoma multiforme (recurrent)—carmustine (Gliadel)	28 September 2000	Carmustine	

Condition and Drugs	*Date of authorisation for specific indication*	*Drug substance*	*Notes*
Glioma (newly diagnosed and high-grade)—carmustine (Gliadel)	14 December 2004	Carmustine	
Glioma (newly diagnosed and high-grade)—temozolomide (Temodal)	21 April 2005	Temozolomide	
Head & neck cancer—cetuximab (Erbitux)	29 March 2006	Cetuximab	
Lung cancer (non small cell)—bevacizumab (Avastin)	Specific indication is not licensed	Bevacizumab	Not licensed for lung cancers of any type
Lung cancer (non small cell)—erlotinib (Tarceva)	19 September 2005	Erlotinib	
Lung cancer (non small cell)—gefitinib (Iressa)	Not licensed	Gefitinib	Drug substance not licensed
Lung cancer (non small cell)—pemetrexed (Alimta)	20 September 2004	Pemetrexed	
Lung cancer (non-small cell)—paclitaxel (Taxol)	18 November 1998	Paclitaxel	
Lung cancer (non-small cell) docetaxel (Taxotere)	20 January 2000	Docetaxel	
Lung cancer (non-small cell) gemcitabine (Gemzar)	26 April 2000	Gemcitabine	
Lung cancer (non-small cell) vinorelbine (Navelbine)	10 May 1996	Vinorelbine	
Mesothelioma pemetrexed (Alimta)	20 September 2004	Pemetrexed	
Metastatic breast cancer—gemcitabine (Gemzar)	25 November 2004	Gemcitabine	
Metastatic colorectal cancer—bevacizumab (Avastin)	12 January 2005	Bevacizumab	
Metastatic colorectal cancer—cetuximab (Erbitux)	24 June 2004	Cetuximab	
Non-Hodgkin's Lymphoma—rituximab (MabThera)	21 March 2002	Rituximab	
Ovarian cancer—paclitaxel (Taxol)	11 October 1996 (for first line treatment of advanced ovarian cancer)	Paclitaxel	Original licence was for second-line treatment only
Ovarian cancer—pegylated liposomal doxorubicin (Caelyx)	24 October 2000	Doxorubicin	
Ovarian cancer (advanced)— topotecan (Hycamtin)	12 November 1996	Topotecan	
Pancreatic cancer gemcitabine (Gemzar)	30 October 1996	Gemcitabine	
Pancreatic cancer—Rubetican	Not licensed	Rubetican	Drug substance not licensed
Prostate cancer Atrasentan	Not licensed	Atrasentan	Drug substance not licensed
Prostate cancer—docetaxel (Taxotere)	6 February 2004	Docetaxel	
Recurrent malignant glioma—temozolomide (Temodal)	20 January 1999	Temozolomide	
Relapsed multiple myeloma—bortezomib (Velcade)	26 April 2004	Bortezomib	
Renal cell carcinoma—bevacizumab (Avastin)	Specific indication is not licensed	Bevacizumab	Substance not licensed for renal cancers
Renal cell carcinoma—sorafenib tosylate (Nexavar)	29 July 2004	Sorafenib tosylate	
Renal cell carcinoma—sunitinib (Sutent)	11 January 2007	Sunitinib	

Cardiovascular System: Screening

Dr. Naysmith: To ask the Secretary of State for Health what progress has been made in identifying a suitable risk assessment engine to calculate cardiovascular risk in patients in England and Wales; and what consideration has been given to the importance of including waist circumference for assessment by such a tool. [152178]

Ann Keen: Recent publications by the Scottish Intercollegiate Guidelines Network and by the QResearch group, the latter in the *British Medical Journal*, have outlined new approaches to cardiovascular risk assessment. These publications offer significant contribution to the debate that will now take place as a result of the National Institute for Health and Clinical Excellence's recent publication of draft clinical guidelines on lipid modification, which covers cardiovascular risk assessment. The Department is monitoring this debate with interest.

Dr. Naysmith: To ask the Secretary of State for Health (1) what the reasons are for the delay in his Department's Vascular Programme and guidance on vascular assessment; and when he expects this to be published; [152179]

(2) what steps he is taking to ensure that the guidance on vascular risk assessment being prepared by his Department will be implemented successfully at primary care level. [152361]

Ann Keen: The Department has made no commitment to publish guidance on vascular risk assessment. There has been no delay in the publication of such guidance.

The Department's Vascular Programme Board has been giving careful consideration to the potential benefits of a more integrated approach to vascular risk assessment and management. This is a complex area, which requires further study particularly in the light of the National Institute for Health and Clinical Excellence's recently published draft guidance on lipid modification, which covers cardiovascular risk assessment.

Chiropody: Training

Mr. Jenkins: To ask the Secretary of State for Health whether he has taken steps to protect the numbers of pre-registration training commissions for podiatrists. [149269]

Ann Keen: Within the overall resources allocated, it is a matter for each strategic health authority (SHA) to determine its own priorities including how much is spent on pre-registration training commissions for podiatrists. Under the current service level agreement with SHAs each SHA is expected to provide for investment in training commissions based on long-term work force need and local financial plans.

Chronically Sick People

Mr. Boswell: To ask the Secretary of State for Health if he will make a statement on the role of specialist nurses in the delivery of health and social care to those with long-term conditions. [152007]

Ann Keen: Specialist nurses provide a valuable additional resource in the treatment and management of many long-term conditions. They can help people to manage their condition to maintain stability, improve quality of life and prevent frequent admission to hospital and reduce length of stay

The Government remain committed to the continued development of such roles, and to ensuring that there are enough specialist nurses and other health care professionals to provide high quality services for all client groups.

The responsibility for specific staffing numbers and skill mix rests with the local national health service. We have given local NHS organisations the freedom to decide how best to use their resources, in consultation with local stakeholders, as they know the health needs of their local communities best.

CJD: Blood

Sir Paul Beresford: To ask the Secretary of State for Health if he will make it his policy to make the use of prion removal blood filters mandatory in the UK should the tests on prion removal blood filters in blood transfusions in Ireland prove successful. [153532]

Dawn Primarolo: I refer the hon. Member to the answer given to the hon. Member for Kettering (Mr. Hollobone), 14 June 2007, *Official Report*, column 1298W.

Sir Paul Beresford: To ask the Secretary of State for Health what estimate he has made of the likely number of vCJD blood transfusion transfer cases over the next two years. [153534]

Dawn Primarolo: No estimates have been made of the likely number of variant Creutzfeldt-Jakob disease (vCJD) cases arising from blood transfusion over the next two years. However the Spongiform Encephalopathy Advisory Committee (SEAC) did issue a position statement on Transmissible Spongiform Encephalopathy infectivity in blood in 2006. A copy of the statement can be found on the SEAC website at

www.seac.gov.uk/statements

Sir Paul Beresford: To ask the Secretary of State for Health what studies have been carried out on prion removal of blood filters in the UK; and if he will make a statement. [153535]

Dawn Primarolo: The United Kingdom blood services are independently evaluating the efficacy of the prion reduction filters that are currently available and which meet the qualifying criteria laid down by the Advisory Committee on the Microbiological Safety of Blood, Tissues and Organs for Transplantation.

Sir Paul Beresford: To ask the Secretary of State for Health how many cases of vCJD have been recorded in the UK as a result of blood transfusions. [153536]

Dawn Primarolo: There have been three cases of Variant Creutzfeldt-Jakob disease (vCJD) in the United Kingdom arising from blood transfusions from donors who subsequently died of vCJD. All three patients have died. A fourth patient who received a transfusion from a donor who subsequently died was also found to have abnormal prion protein in the spleen and a lymph node after dying of an unrelated illness.

Colorectal Cancer: Screening

Mr. Anthony Wright: To ask the Secretary of State for Health how many inquiries to the *(a)* NHS Direct telephone service and *(b)* NHS Direct online service on the NHS Bowel Cancer Screening Programme have been made since April 2006. [151967]

Mr. Bradshaw: The information requested is not held centrally. This is a matter for the Chief Executive of the NHS Direct Trust.

Community First Responder Groups: North West Region

Tim Farron: To ask the Secretary of State for Health how many Community First Responder groups there are in each of the five counties in the north west region. [152868]

Mr. Bradshaw: This information is not collected centrally by the Department. This would be a matter for the chair of the North West Ambulance Service.

Community Nurses: Abuse

Anne Milton: To ask the Secretary of State for Health how many community nurses experienced *(a)* physical abuse and *(b)* verbal abuse in each year since 1997; how many representations his Department has received about abuse towards community nurses; and if he will make a statement. [151469]

Ann Keen: The information requested is not collected in the format requested.

In April 2003 the NHS Security Management Service (NHS SMS) was created and assumed responsibility for the issue of tackling violence against NHS staff. Since its creation, the NHS SMS has collected data on the number of reported physical assaults against national health service staff in England for the reporting periods 2004-05 and 2005-06, broken down by NHS trust. This data has been placed in the Library.

Both the Department and the NHS SMS take the security of community nurses very seriously. The NHS SMS is in continual contact with a wide range of stakeholders representing and involved in the work of community nursing.

"Not Alone: A guide for the better protection of lone workers in the NHS" was issued by the NHS SMS in March 2005.

Compulsorily Detained Mental Patients

Sandra Gidley: To ask the Secretary of State for Health how many people were sectioned under the Mental Health Act 1983 in each of the last 10 years, broken down by *(a)* type of section and *(b)* age of patient. [151021]

Mr. Ivan Lewis: Information about the number of patients detained in England under the Mental Health Act 1983 by type of section in national health service hospitals and independent hospitals registered to detain people under the Mental Health Act 1983 between 1997 and 2006 has been obtained from the Information Centre for health and social care. This information is shown in the following table.

Information about the age of patients detained under the Mental Health Act 1983 is not held centrally.

All formal admissions to independent hospitals registered to detain patients under the Mental Health Act 1983 and other legislation, by legal status, 1996-97 to 2005-06. Includes changes in legal status from informal to formal of patients while in the hospital—England

Number of admissions

Conal Timoney

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 15 June 2007, *Official Report*, column 1383W, on Conal Timoney, from which company Mr. Timoney's services are being contracted; what the value is of that contract; and what Mr. Timoney's salary is. [148831]

Mr. Bradshaw: Mr. Timoney is no longer a contractor with the Department. He is engaged for the Department via a short-term national health service contract. The Department does not comment on employment terms negotiated with the NHS.

Dementia: Westmorland

Tim Farron: To ask the Secretary of State for Health what additional community-based services have been commissioned for people suffering dementia-related illnesses in Westmorland and Lonsdale since 2006. [152892]

Mr. Ivan Lewis: The information requested is not held centrally.

It is for primary care trusts to commission services for their local populations and to work with the local health community and other stakeholders to plan, develop and improve health services to meet the needs of the community, including people suffering dementia-related illnesses.

Dental Services

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer of 16 July 2007, *Official Report*, columns 156-7W, on dental services, what steps his Department is taking to ensure that units of dental activity which were commissioned in 2006-07 but not provided by 1 April 2007 are provided by primary care trusts in 2007-08. [152220]

Ann Keen: The Department has provided guidance for primary care trusts on managing under-delivery of commissioned services in the document 'Primary care dental contracts: Advice on managing end-year issues'. Copies have been placed in the Library and are available at

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_064321

Sandra Gidley: To ask the Secretary of State for Health what value of dental services were commissioned, expressed as units of dental activity, in *(a)* the test year of 1 October 2004 to 30 September 2005 and *(b)* the financial year immediately preceding the implementation of the new general dental services contract. [152222]

Ann Keen: Prior to April 2006, dentists providing general dental services were not subject to commissioning arrangements by primary care trusts (PCTs). Personal dental services pilot schemes were commissioned by PCTs but units of dental activity were not then available as a contract currency for setting or measuring levels of dental activity.

Sandra Gidley: To ask the Secretary of State for Health what guidance his Department issues to primary care trusts on applying the index of orthodontic treatment need. [152223]

Ann Keen: Guidance to primary care trusts on national health service orthodontic assessments and the index of orthodontic treatment need is set out in the document 'Strategic Commissioning of Primary Care Orthodontic Services', copies of which are placed in the Library and are also available at

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4139176

Tim Farron: To ask the Secretary of State for Health what proportion of people in *(a)* Westmorland and Lonsdale, *(b)* the Morecambe Bay Primary Care Trust area, *(c)* the North West Region and (d) England are registered with an NHS dentist. [152871]

Ann Keen: Since April 2006, patients no longer have to be registered with a dental practice to receive national health service care and treatment.

The closest equivalent measure to 'registration' is the number of patients receiving NHS dental services ('patients seen') in a given area over a 12-month period, expressed as a percentage, of the estimated population for that area. However, this is not directly comparable to the registration data for earlier years.

The numbers of patients seen as a per cent. of the population in the 24 month periods ending 31 March, 30 June, 30 September, 31 December 2006 and 31 March 2007 are available in Table F2 of Annex 3 of the NHS Dental Statistics for England Q4: 31 March 2007 report. Information is available at strategic health authority and primary care trust (PCT) area in England.

This report has been placed in the Library and is also available on-line at

www.ic.nhs.uk/pubs/dentalq4

Information cannot be made available at constituency level without disproportionate cost.

As from 1 October 2006, Morecambe Bay PCT was integrated into Cumbria PCT and North Lancashire PCT. Information for Cumbria PCT and North Lancashire PCT is included in the above report.

Dental Services: Greater London

Lynne Featherstone: To ask the Secretary of State for Health how many dental practices *(a)* opened and *(b)* closed in each London borough in each of the last five years. [153560]

Ann Keen: The information requested could be provided only at disproportionate cost.

Departments: Contracts

Kelvin Hopkins: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, column 235W, on Departments: contracts, how much was spent on contracts awarded to external suppliers by public bodies sponsored by his Department in each year since 2001. [151529]

Mr. Bradshaw: The Department does not regularly collect data on contracts awarded to external suppliers by public bodies sponsored by the Department, including their spend. I refer the hon. Member to the answer given on 25 June 2007, *Official Report*, column 235W.

Kelvin Hopkins: To ask the Secretary of State for Health how his Department monitors contracts issued by public bodies reporting to his Department, with particular reference to the terms and conditions applied to their workforce. [151553]

Ann Keen: There is currently no mechanism for the Department to monitor contracts awarded by individual national health service trusts.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 15 June 2007, *Official Report*, columns 1383-5W, on departments: contracts, what contractual advantage service category 27 delivered over service category 11. [152083]

Mr. Bradshaw: In terms of the procurement of the Framework for procuring External Support for Commissioners, there is no contractual advantage to the Department arising from the use of service category 27 over service category 11.

Departments: Land

Mr. Hancock: To ask the Secretary of State for Health what disposals his Department made of land in Hampshire in each year since 1997; and whether he required any of the land to be used for social housing. [149941]

Mr. Bradshaw: The table identifies the larger sites in Hampshire in the ownership of the Secretary of State for Health that have been disposed of since 1997.

	Disposal
1997	Part of Park Prewett, Basingstoke
	Part of Hazel Farm, Southampton
1998	Part of St. James' Hospital, Portsmouth
1999	Part of Hazel Farm, Southampton
	St. Paul's Hospital, Winchester
	Part of Prewett Park, Basingstoke
2000	Knowle Hospital, Fareham
2001	Part of Hazel Farm, Southampton
	Part of Lord Mayor Treloar, Alton
2002	Leigh House, Southampton
2003	Part of St. James' Hospital, Portsmouth
2004	Part of Lord Mayor Treloar, Alton
2005	Part of Park Prewett, Basingstoke
	Part of Lord Mayor Treloar
	Part of Coldeast Hospital, Fareham
	Tatchbury Hospital, Calmore
	Part Hazel Farm, Southampton

It is the responsibility of local planning authorities to identify and release land for housing as part of the planning process. This means that the requirement for the provision of social housing will need to be negotiated and agreed with the local planning authority. The Government have implemented a number of initiatives to assist with land supply for housing. A register of surplus public sector land held by central Government bodies has been established. English Partnerships reviews the sites on the register to identify those which could have the potential for housing development. As at June 2007, there were over 700 sites on the register. Sites are continually being added as they are identified as surplus by landowners and removed once expressions of interest are received after a site has been marketed.

The Department for Communities and Local Government and English Partnerships also maintain the national land use database of previously developed land (NLUD-PDL). This covers vacant and derelict land and also land in use with potential for development in public and private ownerships. Information on the sites is available from the NLUD website

www.nlud.org.uk.

In addition, English Partnerships is developing the National Brownfield Strategy which will provide a coherent vision for the future development of brownfield land to underpin national, regional and local development aspirations. The strategy will help our target for building new homes on brownfield land thereby reducing pressures on the greenbelt.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Health (1) what legislative provisions introduced by his Department since 1997 have not yet been brought into force; [149558]

(2) what legislative provisions introduced by his Department since 1997 have been repealed. [149587]

Dawn Primarolo: Seven Acts of Parliament introduced by the Department since 1997 include some sections and schedules not yet brought into force:

Acts introduced by the Department of Health since 1997	*Not yet in force*
National Health Service (Primary Care) Act 1997 (c.46)	Section 26(2)
	Schedule 2 Part I paras 46 and 64(3)
	Schedule 3 Part II
Health Act 1999 (c.8)	Section 61
Care Standards Act 2000 (c.14)	Section 64(1)(a) and (3)-(5)
	Schedule 4 para 5(7)(b), 12, 14(10)(b), (22) and (29)
	Schedule 5 paras 1 and 2
Health and Social Care Act 2001 (c.15)	Section 26(1) and (3)
	Section 55(7)
Community Care (Delayed Discharges etc.) Act 2003 (c.5)	Section 14
Health and Social Care (Community Health and Standards) Act 2003 (c.43)	Section 107
	Section 116(3)
	Schedule 14 part 6
Health Act 2006 (c.28)	Section 36(2)

18 Acts of Parliament introduced by the Department since 1997 include some sections and schedules now repealed, details as follows. Many of these were repealed as a consequence of the National Health Service Act 2006 (c.41) which consolidated much of the previous health legislation.

Acts introduced by the Department of Health since 1997	*Repealed*
National Health Service (Primary Care) Act 1997 (c.46)	Sections 1-9
	Sections 11-20
	Section 21(1)
	Section 22(1)
	Section 23(1) and (2)
	Section 24(1)
	Section 25(1)
	Section 26(1)
	Section 27(1)
	Section 28(1)
	Section 29(1)
	Section 31(1)
	Section 32
	Section 33
	Section 34(1)
	Section 36
	Section 40(1) and (3)
	Schedule 1
	Schedule 2 paras 3-31, 65, 69[1]-81
National Health Service (Private Finance) Act 1997 (c.56)	Section 1
Nurses, Midwives and Health Visitors Act 1997 (c.24)	Whole Act repealed by Health Act 1999
Pharmacists (Fitness to Practise) Act 1997 (c.19)	Whole Act repealed
Community Care (Residential Accommodation) Act 1998 (c.19)	Section 1[1]
	Section 3(2)[1]
Health Act 1999 (c.8)	Sections 2-12
	Section 13(1)-(4) and (6)-(11)
	Section 14
	Section 15
	Sections 17-42
	Section 62(2), (3), (5) and (8)
	Section 65(6)
	Section [illegible] and (4)
	Schedule 1
	Schedule 2
	Schedule 2A
	Schedule 3 paras 2(2), 8(3) and 11(3)
	Schedule 4 paras 2, 4-32, 33[1], 34-41, 70[1], 71, 75, 76-79, 81, 83, 84, 85(2)(b), 87, 88[1] and 89
Road Traffic NHS Charges Act 1999 (c.3)	Whole Act repealed
Care Standards Act 2000 (c.14)	Section 6
	Section 7
	Section 9
	Section 10(1)
	Section 22(8)(a)[1]
	Section 32(8)
	Section 44
	Section 45
	Section 46
	Section 47
	Section 49(2)
	Section 51
	Section 80[1]
	Sections 81-89[1]
	Section 89(4C)(d)
	Section 90
	Section 91-99[1]
	Section 100
	Section 101[1]
	Section 102
	Section 104

Acts introduced by the Department of Health since 1997	*Repealed*
	Schedule 1 paras 9-11, 15, 17, 27(a), 27(c) and 27(d)
	Schedule 2 para 6(5)
	Schedule 2A paras 4, 18, 21, 22, 24
	Schedule 4 paras 2, 5, 6[1], 7, 8[1], 13, 14(4)-(6), 16[1], 24, 25, 25(2)(a)[1], 26(2) and (4)[1], 27(b)
Carers and Disabled Children Act 2000 (c.16)	Section 5
	Section 9(a)
Health Service Commissioners (Amendment) Act 2000 (c.28)	Sections 1(2)(b), (3)(c) and (d)
Health and Social Care Act 2001 (c.15)	Sections 1-4
	Section 6
	Section 7(2)-(5)
	Sections 8-13
	Section 14(1) and (3)
	Sections 15-25
	Section 26[1]
	Sections 27-38
	Sections 40-43
	Sections 45-48
	Section 60
	Section 61
	Section 64(3)
	Section 68(2) and (3)
	Schedules 1-4
	Schedule 5 paras 5, 8, 11 and 12
National Health Service Reform and Health Care Professions Act 2002 (c.17)	Section 1
	Section 2(1)-(4)
	Section 3
	Section 4(1) and (2)
	Sections 5-18
	Section 19(1)-(5)
	Section 20
	Section 21
	Section 22(1)-(3), (4), (8) and (9)
	Section 23
	Section 24
	Section 35[1]
	Section 36
	Section 42(7)
	Schedule 1 paras 1-35, 37, 40-43, 46, 19-53, 55
	Schedule 2 paras 1-10, 11[1], 12-37, 54, 55, 58, 64, 67-69, 72-82
	Schedule 3 paras 1-11, 14-17
	Schedule 4
	Schedule 4 paras 4-20, 21[1], 22-24, 31-33, 36, 38, 43, 44, 45 and 49-51
	Schedule 6 paras 1-15
	Schedule 7 para 5
	Schedule 8 paras 1-12, 18, 23-37
Tobacco Advertising and Promotion Act 2002 (c.36)	Section 12(4)
Health and Social Care (Community Health and Standards) Act 2003 (c.43)	Sections 1-32
	Section 33(2)
	Sections 35-40
	Section 76(2)(f), (g)
	Section 77(3)
	Section 79(7)
	Section 80(5)
	Section 110
	Section 112
	Section 116(1)
	Sections 170-172
	Section 174
	Section 175
	Sections 177-183
	Section 187(1)-(7), (9), (10)
	Section 188
	Section 189(1)-(3) and (4)[1]
	Section 191
	Section 192
	Schedule 1
	Schedule 2 paras 23-45, 83-85, 108, 109, 115-118, 123 and 124
	Schedule 5
	Schedule 6 para 3(2), (3), (9), (10), (14) and (15)
	Schedule 7 para 3(2), (6)-(8)
	Schedule 9 paras 9, 10, 14[1], 18(2), 26, 27[1], 32
	Schedule 11 paras 7-32, 33[1], 35-45, 61(b), 62(3) and 69-74
	Schedule 12 paras 1, 2(3), 3(2) and (4) and 4-8
	Schedule 13 paras 4, 6(a) and (b)
Human Fertilisation and Embryology (Deceased Fathers) Act 2003 (c.24)	Section 2(2) and (3)
	Schedule para 11[1]
Health Protection Agency Act 2004 (c.17)	Schedule 1 para 2
	Schedule 3 para 11
Health Act 2006 (c.28)	Section 34

Acts introduced by the Department of Health since 1997	*Repealed*
	Section 35
	Section 36(1)
	Sections 37-42
	Sections 44-56
	Section 74
	Section 78(3)
	Schedule 3
	Schedule 8 paras 6, 7-11, 12(a) and (b), 13(1)-(6), 14-20, 21(a), 21(b), 22-25, 29, 34, 36, 44(5), 46-50, 51 and 54
National Health Service Act 2006 (c.41)	Section 132(9)

[1] As from a day to be appointed.

Dr. Cable: To ask the Secretary of State for Health (1) which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses; [151843]

(2) which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152486]

Mr. Ivan Lewis: The Department has not introduced any Bills containing sunset clauses in the last five years. The Department has no current plans for the future use of such clauses, but their use may be considered where appropriate.

None of the Bills introduced by the Department in the last five years have contained sunset clauses.

Departments: Members

Mr. Lansley: To ask the Secretary of State for Health what meetings that *(a)* he and *(b)* each of his Ministers has held with hon. Members in the last 12 months; and what was discussed in each case. [147569]

Dawn Primarolo: A comprehensive list of all meetings that Ministers have held with hon. Members in the last 12 months could be obtained only at disproportionate cost.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Health what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150448]

Mr. Ivan Lewis: Figures for the period 2004-07 are as follows.

Delivery services	
2004-05	
Royal Mail volume	306,700 letters
Commercial carriers	88,000 letters/packets
2005-06	
Royal Mail volume	634,627 letters
Commercial carriers	90,324 letters/packets
2006-07	
Royal Mail volume	359,600 letters
Commercial carriers	91,364 letters/packets

Figures for before 2004 can be provided only at a disproportionate cost.

Where there is a particular requirement to deliver items in a set or urgent timeframe the Department will use commercial carriers for both national and international delivery including items that require signature.

Departments: Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 19 June 2007, *Official Report*, columns 1630-4W, for what reason a recurrent budget for 2007-08 is given for the English National Board for Nursing, Midwifery and Health Visiting. [151942]

Mr. Ivan Lewis: These are the residual costs from the funding of the English National Board for Nursing, Midwifery and Health Visiting, an arm's length body which closed in March 2002.

Departments: Public Expenditure

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 14 June 2007, *Official Report*, column 1385W, to the hon. Member for Rayleigh (Mr. Francois), on Departments: public expenditure, how many such regular discussions have been held in the last 12 months. [146951]

Mr. Bradshaw: Ministers and officials regularly discuss a wide range of issues with their counterparts in the Treasury. As was the case in previous Administrations, it is not the practice of the Government to provide details of all such meetings.

Diabetes: Greater London

Sarah Teather: To ask the Secretary of State for Health how many people participated in the *(a)* dose adjustment for normal eating and *(b)* diabetes education and self-management for ongoing and newly diagnosed courses in London in each of the last five years, broken down by primary care trust. [152798]

Ann Keen: This information requested is not held centrally. It is for primary care trusts to decide what services to provide for their local communities.

Lynne Featherstone: To ask the Secretary of State for Health how many people were diagnosed with diabetes in each London borough in each of the last five years. [153558]

Ann Keen: This information is not available in the format requested.

However, the following table shows the number of patients aged over 17 years with a record of a diagnosis of diabetes for the years 2004-05 and 2005-06. Data for 2006-07 will be published in September.

Patients aged less than 17 are considered to be cared for by hospital specialists and are not included in these numbers. Any increases in the number of patients from year-to-year cannot be assumed to represent an increase in the number of patients with diabetes, as it may reflect improved levels of recording by the practices.

Total list size and register counts for people with diabetes in the London primary care trust (PCT) for 2004-05 and 2005-06

Dietary Supplements: Channel Islands

Mr. Todd: To ask the Secretary of State for Health pursuant to the answer of 10 July 2007, *Official Report*, column 1448W, on dietary supplements: Channel Islands, (1) what meetings are planned between the Food Standards Agency and the Bailiwicks of Guernsey and Jersey to discuss implementation of the food supplements directive and the Nutrition and Health Claims Regulation in the Channel Islands; [153011]

(2) whether the Food Standards Agency plans to raise at future meetings with the Bailiwicks of Guernsey and Jersey the implementation of the food supplements directive and the Nutrition and Health Claims Regulation. [153666]

Mr. Ivan Lewis: The Food Standards Agency does not have any meetings planned to date with the Bailiwicks of Guernsey and Jersey to discuss implementation of the food supplements directive and the Nutrition and Health Claims Regulation in the Channel Islands.

The Food Standards Agency is writing to the Bailiwicks of Guernsey and Jersey, regarding the implementation of the food supplements directive and the Nutrition and Health Claims Regulation.

Doctors: Private Sector

Mr. Yeo: To ask the Secretary of State for Health what assessment his Department has made of the effects of independent sector treatment centres on the availability of junior doctor training posts. [152694]

Mr. Bradshaw: The Department has made no such assessment. Training schedules for national health service staff in independent sector treatment centres (ISTCs) are agreed locally, subject to the meeting of accreditation standards. The number of junior doctor training posts available is based on local service requirements and future workforce planning needs in discussions with strategic health authorities, deaneries and trusts. When training is attached to activity, which is transferred from the NHS to a Wave 1 ISTC, junior doctors will complete the training in the ISTC.

All ISTCs in Wave 2 are required to provide training in up to 35 per cent. of clinical services that they provide for the NHS. This includes not only medical training, but also other clinical training such as nurse or Allied Health Professional training.

Doctors: Training

Mr. Hoban: To ask the Secretary of State for Health what information her Department provided to HM Treasury on the Medical Training Application Service prior to its introduction. [146406]

Ann Keen: The Medical Training Application Service project was subject to the normal business approvals process. MTAS costs fell within delegated departmental approval limits so no specific information was supplied to HM Treasury.

Peter Bottomley: To ask the Secretary of State for Health which consultancy is involved in the processing of applications and appointments for hospital doctors' training posts in the London Kent Survey and Sussex Unit of Application; when it was appointed; what the process of appointment was; and what the estimated cost of the work is. [151884]

Ann Keen: The management of the application process locally is a matter for the deanery concerned.

Drugs: Greater London

Lynne Featherstone: To ask the Secretary of State for Health how much his Department has spent on tackling *(a)* drug and *(b)* alcohol dependency in each London borough in each of the last 10 years. [153559]

Dawn Primarolo: Since 2001, the Department and the Home Office have provided for drug treatment in the form of the pooled drug treatment budget (PTB). This funding is allocated to the 149 drug action teams across the country to use, along with local mainstream funding, to provide for treatment and services according to the specific needs of each locality. We do not have information on drug treatment spend prior to 2001.

It is for primary care trusts to determine the level of expenditure on alcohol services within their area in line with local priorities. Information is not collected centrally on local spend; however the Alcohol Needs Assessment Research Project found that around £217 million was being spend on alcohol services during 2003-04. Funds from the PTB may be spent on alcohol services provided that adequate progress is being made on drugs priorities.

PTB allocations since 2001 for each London borough is shown in the following table.

	PTB channelled through PCT (£000)						*PTB channelled through PCT (£000)*

Environment Protection: Dartmoor National Park

Mr. Steen: To ask the Secretary of State for Health if the Minister for the South West will make an early visit to the Holne Common in Dartmoor National Park to see the results of the Environmental Agency's action under its obligation under the Environmentally Sensitive Agreement 1999. [153663]

Mr. Bradshaw: I am aware of the work undertaken by the Environmental Agency and others on Dartmoor. Owing to current diary pressures I am currently not able to accept the hon. Member's kind invitation, but if he has particular concerns I would welcome his raising them with me in writing.

Eyesight: Testing

Hugh Bayley: To ask the Secretary of State for Health how many pensioners in York have had free eye tests since they were reintroduced. [152198]

Ann Keen: The information is not centrally available in the format requested.

Data on the number of people aged 60 and over who have had a free national health service eye tests are collected at primary care trust (PCT) level, rather than by geographical area. Data for the former North Yorkshire health authority and York and Selby PCT are shown in the table.

Number of people aged 60 and over who have had NHS eye tests in North Yorkshire health authority and York and Selby PCT

Financial year	*North Yorkshire HA*	*York and Selby PCT*

The Information Centre for health and social care.

Gender Identity Disorder

Lynne Jones: To ask the Secretary of State for Health, pursuant to the answer of 18 July 2007, *Official Report*, column 362W, on gender identity disorder, how many *(a)* men and *(b)* women from Wales received gender reassignment surgery to treat gender dysphoria from the national health service in England in each of the last 10 years. [153709]

Mr. Ivan Lewis: Owing to the small number of treatment episodes involved and the need to protect patient confidentiality, the Department cannot disclose this information.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis was for the statement by the right hon. Member for Leigh (Andy Burnham) of 26 June 2007, *Official Report*, column 160, on GP out-of-hours services, that the GP out-of-hours service was close to collapse in 1997. [147974]

Mr. Bradshaw: It was clear from the rising number of complaints to the Health Service Commissioner that the previous model of provision by general practitioners (GPs) was not meeting patients' expectations and was not sustainable.

In addition, the responsibility for out-of-hours care was affecting the ability to recruit and retain GPs.

General Practitioners: Passports

Lorely Burt: To ask the Secretary of State for Health whether he has received reports of GPs levying a charge to countersign passports for patients; and whether his Department issues guidelines to GPs who charge fees to authenticate patients' passports for renewal applications. [151557]

Mr. Bradshaw: The countersigning of passports is not part of the work that primary medical services contractors are required to do as part of their contractual arrangements with the Primary Care Trust. Should a general practitioner countersign an application it is a private matter between the doctor and the applicant. General practitioners may make a charge for this service should they wish.

The Department does not issue guidelines on this matter.

Health Professions: Qualifications

Andrew George: To ask the Secretary of State for Health whether private-sector NHS contractors are required to ask for the same level of qualifications when recruiting staff as primary care trusts. [152902]

Mr. Bradshaw: The qualification requirements for the employment of clinical staff in Independent Sector Treatment Centres (ISTCs) are the same as those in the national health service. Surgeons must be registered with the General Medical Council and be on the specialist register in the specialty in which they are trained.

While both the NHS and ISTCs require the same level of qualifications for clinical staff, the process in which they are appointed differs.

All health practitioners employed in ISTCs are required to be registered with the relevant professional body, and providers are required to ensure that there is a programme of continuing professional development.

Health Professions: Regulation

David Taylor: To ask the Secretary of State for Health what proportion of those attending her Department's Call for Ideas event on medical and non-medical professional regulation in autumn 2005 were *(a)* from healthcare professional regulatory bodies, *(b)* lay members of healthcare professional regulatory bodies, *(c)* from public and patient representative organisations, *(d)* members of the public, *(e)* health officials, *(f)* from other health and social care regulators and *(g)* others. [146199]

Mr. Bradshaw: The Department issued two Calls for Ideas in 2005. One was the Chief Medical Officer's (CMO) "Call for Ideas" on the review of medical regulation and the other was by Andrew Foster, the then Director of Workforce, on the review of non-medical professional regulation. Neither of these were held as actual events. The CMO's was published on the Department's website, while Andrew Foster wrote to a range of stakeholders to seek their views. This included members of the non-medical review reference group, which met twice during the course of the review, in July and November 2005. The make-up of the group is as follows.

	Percentage
Healthcare professional regulatory bodies	25
Lay members of healthcare professional regulatory bodies	6 (which is included in the above)

	Percentage
Public and patient representative organisations and members of the public	4.5
Health officials	14
Other health and social care regulators	3.5
Others	53

David Taylor: To ask the Secretary of State for Health what arrangements she expects to make for *(a)* periods of pre-legislative consultation and *(b)* provision of information and technical support to consultees on (i) forthcoming primary legislation on professional healthcare regulation and (ii) Orders in Council under section 60 of the Health Act 1999. [146200]

Mr. Bradshaw: There has been extensive consultation leading up to the publication of the White Paper in February. The White Paper anticipated the need for new legislation on a number of issues. Some may require primary legislation but other changes can be made under section 60 of the Health Act 1999. The procedures for the latter require that a draft order is published and consulted upon at least three months before the amended order is laid before Parliament. Other matters requiring legislation will be considered by the stakeholder working groups which will be advising on implementation of the White Paper. We will be publishing their terms of reference and membership shortly.

Health Professions: Training

Mr. Jenkins: To ask the Secretary of State for Health what analysis his Department has carried out on the reasons for the fall in the number of pre-registration training commissions from 2004-05 to 2005-06. [148820]

Ann Keen: The numbers of pre-registration training commissions for most professions actually increased between 2004-05 and 2005-06 with the exception of nursing where numbers fell by about 1 per cent.

Workforce planning for the health service is challenging and complex and workforce needs are difficult to predict as technological advances and social changes lead to some skills becoming redundant while demand for others will suddenly increase.

Health Professions: York Hospitals NHS Trust

Hugh Bayley: To ask the Secretary of State for Health how many full-time equivalent *(a)* medical consultants, *(b)* other medical staff, *(c)* nurses, *(d)* other professional staff, *(e)* administrative and clerical staff and *(f)* auxiliary staff were employed by York NHS Trust in all areas, excluding those transferred to Selby and York Primary Care Trust, in each year since 1996-97. [151622]

Mr. Bradshaw: The information requested is set out in the following table.

NHS Hospital and Community Health Services (HCHS): Medical and dental staff and non-medical staff[1] within York Hospitals NHS Trust
Full-time equivalents at 30 September each year

	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
All HCHS staff	3,596	3,660	3,504	3,517	3,732	3,224	2,842	3,111	3,247	3,302	3,519
All medical and dental staff	215	261	274	283	281	258	237	294	320	344	370
Medical and dental consultants	72	102	98	110	109	120	113	119	131	149	155
Other medical and dental staff	143	159	176	172	171	138	124	174	189	195	215
All non-medical staff[1]	3,381	3,399	3,230	3,234	3,451	2,967	2,605	2,817	2,927	2,958	3,149
Qualified nursing, midwifery and health visiting staff	1,310	1,362	1,235	1,268	1,375	1,132	915	948	990	1,023	1,111
Clerical and administrative	552	535	532	547	571	571	565	604	644	666	795
Nursing assistant/auxiliary	422	397	357	314	337	185	99	96	89	55	49
Others	1,098	1,106	1,106	1,105	1,168	1,078	1,027	1,170	1,204	1,215	1,194

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total work force figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full time equivalents). This should be taken into consideration when analysing trends over time.

The Information Centre for health and social care Medical and Dental Workforce Census.

Health Services

David Taylor: To ask the Secretary of State for Health pursuant to the answers of 5 July 2007, *Official Report*, columns 1148-49W, on health services, what provision there is for public and patient members of the working groups on the White Paper to discuss issues distinct to the administration of health bodies in England. [153379]

Mr. Bradshaw: The working groups have been formed to perform an advisory role in the implementation of

the White Paper "Trust, assurance and safety". This includes those elements of the White Paper relating to the administration of local health bodies in England such as primary care trust and national health service trusts.

Health Services: Finance

Sandra Gidley: To ask the Secretary of State for Health (1) what steps have been taken to allocate the £1 billion funding proposed in the Public Health White Paper between *(a)* health trainers, *(b)* sexual health services, *(c)* school nurses and *(d)* other services; and if he will make a statement; [152230]

(2) how much was allocated to each primary care trust for implementing the targets in the White Paper "Choosing Health"; and whether any of this funding was ring-fenced; [152240]

(3) what progress primary care trusts are making in delivering outcomes described in the White Paper "Choosing Health"; and if he will make a statement. [152241]

Dawn Primarolo: Primary Care Trusts (PCTs) were notified of their revenue allocations for 2006-07 and 2007-08 in February 2005. The allocations separately identify funding to support the initiatives set out in the White Paper "Choosing Health: Making healthy choices easier", a copy of which is available in the Library.

There had been a move away from ring-fencing allocations to PCTs as it is for PCTs to determine how best to use the funds allocated to them to commission services to meet the needs of their local population.

The funding allocated to each PCT for implementing the targets in the White Paper "Choosing Health", for the years 2006-07 and 2007-08 is provided in the following table.

£000

A Choosing Health progress report was published earlier this year and is available at the Department's website at

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH074286

It shows that we have made significant progress over a wide range of areas and have created drivers for change through better engagement across systems and organisations, better information and new tools and techniques to support individual action to improve health. Two years through this three-year programme, examples of progress include the following:

Smokefree legislation was implemented on 1 July 2007

80 per cent. of people are now seen within 48 hours at a GUM clinic compared to 38 per cent. in 2004.

PCTs have played their part in these improvements in public health.

Health Services: Multiple Sclerosis

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the effect of changes in inspection fees for charitable multiple sclerosis treatment centres. [151072]

Mr. Bradshaw: Annual fees to cover the cost of providing assessment and registration services are approved by the Secretary of State, after consideration of proposals submitted by the Healthcare Commission (HC). Assessment of the effects of fees is therefore for the Commission in the first instance.

The HC on its 2007-08 independent healthcare sector fee proposals between 20 December 2006 and 20 February 2007. We understand from the chairman of the commission that during the consultation period it received numerous representations from providers asking that fees should be reduced for voluntarily funded establishments.

The HC revised its proposals after considering the comments it received. For 2007-08, annual fees for multiple sclerosis therapy centres have been reduced from £1,566 to £1,225, a reduction of 22 per cent. This is the first time that regulatory fees under the Care Standards Act 2000 have been reduced. Fees for first time registrations have increased from £907 to £990.

Health Services: Prisons

Mr. Bellingham: To ask the Secretary of State for Health what assessment he has made of the availability of primary care services to prison establishments during night periods; and if he will make a statement. [153681]

Mr. Ivan Lewis: Information on the coverage of health care in prisons is not collected centrally. It is for primary care trusts, working in partnership with prisons, to commission the arrangements for out of hours cover.

Local prisons do usually contain 24-hour health facilities with nursing cover. For example, all prisons in London (with the exception of HMP Latchmere House) have healthcare beds with 24-hour nursing services available.

Out-of-hours medical cover is usually provided by an on-call arrangement with local general practitioners as part of a General Medical Services contract.

Health Services: Public Appointments

Mr. Stephen O'Brien: To ask the Secretary of State for Health when the competition for selection of the new chief executive of Connecting for Health will open; who will sit on the selection panel; what the starting salary for the post will be; and how bonuses for the post will be *(a)* set, *(b)* calculated and *(c)* paid. [151938]

Mr. Bradshaw: These matters have not been decided.

Health Services: South East Region

Lyn Brown: To ask the Secretary of State for Health what steps he is taking to ensure that local primary care trusts are helped to engage with strategic planning organisations on long-term major regeneration programmes in *(a)* the Thames Gateway, *(b)* East London and *(c)* the London borough of Newham. [149777]

Mr. Bradshaw: The Department's London regional team and their London strategic health authority colleagues support the involvement of local national health service organisations in major regeneration initiatives within the Thames Gateway and East London areas, and the major developments in Newham for the Olympic and Paralympic Games.

London's primary care trusts (PCTs) jointly fund with the London Development Agency the Healthy Urban Development Unit, which offers practical help to all PCTs in London, including Newham PCT. The aim is to significantly improve the health of Londoners by developing partnerships that enable health organisations to engage early, influencing the plan-making process, and have a positive effect on the outcomes of planning applications.

Health Trainers

Sandra Gidley: To ask the Secretary of State for Health what progress has been made on the introduction of health trainers; and in which primary care trusts they have been employed. [152229]

Ann Keen: Progress on the introduction of health trainers to date has been good:

as forecast and planned, 1,200 health trainers have been trained and are in post as of 2006-07 year end;

competences have been signed off and exemplar job descriptions have been developed for tailoring by local health trainer partnerships;

a national implementation team has been put in place and now provides full regional coverage;

local training programmes have been developed and local evaluation has been put in place;

national accreditation has been developed, with support from technical advisers Skills for Health, to provide City and Guilds Level 3 and Royal Institute for Public Health Level 2 awards;

prisons have begun to introduce health trainers to the system, with around 80 health trainers now in place;

the Army expects to have trained 450 physical training instructor as health trainers by December 2007, with plans for a further 2,000 personnel to receive training in 2008;

Royal Mail plans to train some of their first aid staff as workplace health trainers;

the programme is also working with organisations such as Asda, Marks & Spencer, National Pharmacies and Football Foundation, and;

The Minister of State for Public Health (Dawn Primarolo) presented the first workplace Health Trainer certificate to Audrey Carlin, of T Allen Stockholder Ltd., on 3 July 2007.

Health trainers are employed in a variety of settings and the plurality of employment models means that we do not collect data by individual primary care trust.

Sandra Gidley: To ask the Secretary of State for Health how many health trainers there are in *(a)* Southampton primary care trust, *(b)* Hampshire primary care trust and *(c)* Portsmouth primary care trust. [152231]

Dawn Primarolo: The Department has been informed by the following primary care trusts that

Southampton primary care trust has 14 health trainers recruited and in training.

Hampshire primary care trust has 12 health trainers recruited and in training.

Portsmouth primary care trust has 11 health trainers recruited and in training.

Health: Disadvantaged

Sandra Gidley: To ask the Secretary of State for Health what progress has been made in tackling health deprivation in the spearhead primary care trusts. [152237]

Dawn Primarolo: The 2010 inequalities targets for life expectancy, cardiovascular disease and cancer are based on narrowing the gap in mortality between the population as a whole and the fifth of local authority areas with the worst health and deprivation indicators (the spearhead group), and the primary care trusts that map to them, by 2010.

Life expectancy has increased for both males and females for England as a whole but it has improved more slowly in the spearhead areas. In England, average life expectancy for males is 76.9 and for females 81.1; in the spearhead group it is 74.9 for males and 79.6 for females. The slower rate of improvement in has led to a widening of the relative gap in life expectancy between England and the spearhead group. The latest data for 2003-05 show that the average life expectancy in the spearhead group was 2.61 per cent. lower than the England average for males, and 1.91 per cent. lower than the England average for females. Therefore, the relative gap has widened by 2 per cent. for men and 8 per cent. for women since the baseline (1995-97).

However, although the 2010 target for life expectancy is a challenging one, data for 2003-05 also show that some 60 per cent. of the 70 spearhead areas are on track to narrow their own life expectancy gap with that of England by 10 per cent. by 2010, compared to baseline for either males or females or both. The information is set out in the following table, with comparison data for 2002-04.

Data for 2003-05 have also shown continued improvements in CVD and cancer mortality inequalities between spearhead areas and the national average since the 1995-97 baseline. The absolute gap from circulatory disease has narrowed by 27.9 per cent., and we are on track to meet the 2010 target of at least a 40 per cent. reduction, There has been a 12.7 per cent. reduction in the absolute cancer inequality gap.

Targeted assistance to spearhead areas is being provided through a variety of programmes such as Communities for Health, Health Trainers, Life Check and smoking cessation as well as programmes on cancer, coronary heart disease and primary care.

The following table shows whether the 70 spearhead local authorities are on or off track to narrow their share of the life expectancy gap by 10 per cent. for males or females or both by 2010 according to 2003-05 data. The table also shows a comparison to 2002-04.

Sandra Gidley: To ask the Secretary of State for Health what recent assessment he has made of the progress towards the pledge to reduce health inequalities measured by infant mortality by 2010. [152252]

Dawn Primarolo: The most recent assessment of progress against the infant mortality aspect of the 2010 health inequalities target shows a slight narrowing of the health inequalities gap between the routine and manual group and the rest of the population for 2003-05, compared to 2002-04 and 2001-03. Infant mortality rates are at an all-time low for both groups. However, at 18 per cent. the gap is still wider than the 13 per cent. at the 1997-99 target baseline.

A further update on the infant mortality gap will be available later this year in the 2007 edition of 'Tackling Health Inequalities: Status Report on the Programme for Action'.

Health: Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health what steps he is taking to tackle *(a)* overweight and obesity and *(b)* underweight in the adult population. [153404]

Mr. Ivan Lewis: Present action to tackle obesity in adults includes the care pathways for national health service primary care professionals and a self-help guide, 'Your Weight, Your Health'; the National Heart Forum's toolkit 'Lightening the Load: tackling overweight and obesity'; work on foods high in salt, fat and sugar; front-of-pack labelling as an easy-to-understand way of helping individuals and families to make healthier food choices; the General Practice Physical Activity Questionnaire; Local Exercise Action Pilots; and the National Step-0-Meter Programme.

We will also continue to work closely with the National Institute for Health and Clinical Excellence to support dissemination and implementation of its guidance on physical activity public health intervention and on the prevention, identification, assessment and management of overweight and obesity in adults and children.

Regarding steps to tackle underweight, Government advice is that people should consume a healthy balanced diet, which includes a wide variety of foods, is low in fat, and is based on plenty of fruit and vegetables and starchy foods such as potatoes, bread, and other cereals. The diet should contain moderate amounts of meat, fish, meat alternatives, milk and dairy products and sparing or infrequent amounts of foods containing fat/foods and drinks containing sugar. Eating a balanced diet in combination with physical activity should enable people to maintain a healthy weight.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the percentage of adults aged 16 years and over *(a)* in England and *(b)* in each primary care trust area who had a body mass index (i) in excess of 30 and (ii) of less than 18.5 in each year since 1997, broken down by age. [153405]

Mr. Ivan Lewis: The information is not available in the format requested. Data on prevalence of different body mass index (BMI) values among adults aged 16 and over are available from the health survey for England. Data on the percentage of men and women in England with a body BMI of over 30 and under 18.5 are presented in Table 1, copies of which have been placed in the Library. Data are shown for the years 1997 to 2005 and are broken down by age group and gender.

Hearing Impairment

Anne Milton: To ask the Secretary of State for Health (1) what the average waiting time for a hearing test was in *(a)* Surrey, *(b)* Oxfordshire and *(c)* England in (i) 1997, (ii) 1998, (iii) 1999, (iv) 2000, (v) 2001, (vi) 2002, (vii) 2003, (viii) 2004, (ix) 2005 and (x) 2006; [152996]

(2) what the average time interval between receiving a hearing test and the fitting of a hearing aid was in *(a)* Surrey, *(b)* Oxfordshire and *(c)* England in (i) 1997, (ii) 1998, (iii) 1999, (iv) 2000, (v) 2001, (vi) 2002, (vii) 2003, (viii) 2004, (ix) 2005 and (x) 2006; [152997]

(3) what assessment he has made of the effectiveness of the procurement of audiology service pathways from the private sector; and if he will make a statement; [152998]

(4) what assessment he has made of the procedures for the referral of NHS patients to the independent sector for the fitting of hearing aids; and if he will make a statement; [152999]

(5) what assessment his Department has made of the fitting of hearing aids by the independent sector

following the abolition of the Hearing Aid Council; and if he will make a statement. [153000]

Mr. Ivan Lewis: The Department does not collect data on waiting times for fitting of digital hearing aids. Since January 2006, the Department has been collecting data on the waiting times for audiology assessments. The latest figures, for May 2007, indicate that there are currently 1,322 people waiting over 13 weeks for assessments in Surrey and 13 people waiting over 13 weeks for assessments in Oxfordshire. In England as of May 2007, 73,381 people are waiting over 13 weeks for an assessment.

A National Framework Contract Public Private Partnership with David Ormerod Hearing Centres and Ultravox Holdings plc was in place from October 2003 until March 2007. It was fundamental to the National Framework Contract that the quality of service, and hearing aid, that the patient received mirrored those of the local NHS audiology department. Quality assurance was key in the initiative. Both companies demonstrated their commitment to meeting these standards and invested resources in terms of equipment, IT and staff training in order to do so.

Further independent sector capacity for audiology has been procured as part of the Phase 2 Diagnostics Procurement. Providers are subject to ongoing audit and must meet stringent key performance indicators through the delivery of the contract. Independent sector capacity is utilised at a local level alongside NHS capacity and is subject to the same standards and referral procedures.

The Hearing Aid Council, which is responsible for standards of professional practice, remains in operation and is working towards transferring its regulatory functions to other bodies in advance of its abolition.

Henderson Hospital: Finance

Tim Loughton: To ask the Secretary of State for Health what the budget for Henderson hospital is in 2007-08; and what the proposed budget for the hospital is for 2008-09. [150999]

Mr. Bradshaw: Revenue allocations are made directly to primary care trusts (PCTs), not national health service trusts or individual hospitals. NHS trusts receive most of their income through the commissioning arrangements they have with PCTs.

We understand that the Henderson hospital is managed by South West London and St George's Mental Health NHS Trust. We would advise the hon. Member to contact the chairman of the trust for information about the hospital budget. The contact details are:

John Rafferty
Chairman
South West London and St. George's Mental Health NHS Trust
Springfield University Hospital
61 Glenburnie Road
London
SW17 7DJ
Telephone: 020 8672 9911

Hip Replacements and Knee Replacements

Mr. Hands: To ask the Secretary of State for Health what the average waiting time for *(a)* hip replacements and *(b)* knee replacements on the NHS was in each of the last five years. [151485]

Mr. Bradshaw: Information on the median time waited for hip and knee replacement is set out in the following table.

Median days waited for hip and knee replacements 2001-02 to 2005-06

	Hip replacements	*Knee replacements*
2001-02	220	276
2002-03	229	280
2003-04	217	252
2004-05	182	202
2005-06	158	168

Source: Hospital Episode Statistics, The Information Centre for health and social care.

HIV Infection: Pregnancy

Harry Cohen: To ask the Secretary of State for Health what estimate he has made of levels of transmission from mother to baby of HIV/AIDS in each of the last five years; in what proportion of cases transmission took place *(a)* at birth and *(b)* subsequent to birth; what treatments are available in each case; what assessment he has made of the merits of testing all pregnant women for HIV/AIDS at an early stage of their pregnancy; and if he will make a statement. [152601]

Dawn Primarolo: Information on the number of babies born in the United Kingdom and confirmed infected with HIV from 2002 to 2006 is shown in the following table.

Number of babies born in the UK and confirmed infected with HIV, 2002-2006

Year of birth	*Maternal diagnosis before or at around time of delivery*	*Infected children born to undiagnosed women*	*Total infected*
2002	12	24	36
2003	6	19	25
2004	10	20	30
2005	13	14	27
2006	8	9	17
Total	49	86	135

Note:
Data include reports received by end of June 2007 and are subject to reporting delay.
Source:
National Study of HIV in Pregnancy and Childhood, Institute of Child Health, University College London

It is not possible to assess accurately what proportion of transmissions occurred prior to birth, at birth and after birth during this period. In utero transmission is uncommon, and most transmissions occur during labour and delivery, or through breastfeeding. Infant samples need to be taken within 48 hours of birth to make inferences about timing of transmission, and since the majority of infected infants were born to undiagnosed women, sufficient samples were not available.

If the woman is diagnosed before or during pregnancy, she can be offered:

antiretroviral therapy in pregnancy, at delivery, and for the infant after birth;

appropriate management of delivery, e.g. planned caesarean section; and

advice not to breastfeed.

If the woman is diagnosed at or shortly after delivery, the infant can still be offered antiretroviral therapy starting as soon as possible after birth, and the woman can still be advised not to breastfeed, both of which will reduce the risk of transmission if the baby was not already infected in utero.

Since the introduction of the routine recommendation of antenatal HIV testing in 2000, the majority of infected pregnant women have been diagnosed prior to delivery. In 2005, the latest year for which data are available, about 95 per cent. of infected pregnant women were diagnosed before delivery. During the 1990s, before antenatal testing was routine, the majority of infected women remained undiagnosed at delivery and therefore appropriate treatment and advice could not be offered.

Home Care Services: Oxygen

Sandra Gidley: To ask the Secretary of State for Health how many complaints Ministers received about domiciliary oxygen services in each of the last 18 months. [151016]

Dawn Primarolo: The number of items of correspondence received by the Department from hon. Members and the public concerning the home oxygen service in the last 18 months is shown in the following table. Not all were letters of complaint but to identify these separately would incur disproportionate cost.

Month and year	*Items of correspondence*
2006	
January	3
February	61
March	77
April	32
May	30
June	20
July	50
August	36
September	15
October	11
November	4
December	1
2007	
January	9
February	3
March	13
April	3
May	1
June	3
Total	372

Sandra Gidley: To ask the Secretary of State for Health how much was spent on the domiciliary oxygen service in *(a)* England, *(b)* each strategic health authority and *(c)* each health trust in the year preceding the introduction of the new domiciliary oxygen service. [152973]

Mr. Bradshaw: Expenditure on the home oxygen service prior to the introduction of the new service was not collected centrally.

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the implications of the changed arrangements for home oxygen therapy for *(a)* waiting times, *(b)* patient safety and *(c)* emergency supply; and if he will make a statement. [153628]

Mr. Bradshaw: Primary care trusts (PCTs) are responsible for managing the home oxygen service locally, including assessing how the new arrangements relate to waiting times, patient safety and emergency supply.

PCTs have access, on the home oxygen website, to a clinical assessment services commissioning framework, which outlines how these services, together with the new home oxygen service, can help reduce waiting times while supporting patients in managing their symptoms at home.

Under the terms of the contract, all suppliers are required to provide information and training on the safe and effective use of oxygen equipment provided to patients and their families. Suppliers also make clear to patients the dangers of using oxygen if they continue to smoke or use equipment close to fires or other naked flames. Suppliers are required to report any incident involving patient safety to PCTs. It is for PCTs to report all serious incidents and to take any appropriate follow-up action, whether reported by a supplier, health care professional or a patient, to strategic health authorities and the National Patient Safety Agency.

From national service data provided by suppliers, I am able to confirm that all new suppliers are meeting the response time target 99 per cent. of the time for emergency supply. This is a priority service and, under the terms of the contract, all suppliers are required to supply oxygen at home within four hours of receiving an order for emergency supply.

Homeopathy

Sarah Teather: To ask the Secretary of State for Health (1) what consultations were carried out with *(a)* the Royal London Homoeopathic Hospital, *(b)* patient representatives and *(c)* representatives of practising homoeopaths prior to the decision to change funding for the Royal London Homoeopathic Hospital; [152796]

(2) what homoeopathic services will be available to the residents of Brent following changes in funding for treatment at the Royal London Homoeopathic Hospital. [152797]

Mr. Bradshaw: This is a local matter. The homoeopathic hospitals in the United Kingdom fall under the jurisdiction of the national health service in

the area in which they are based. Any decisions on the services that any of these hospitals provide are the responsibility of those NHS healthcare organisations.

Hospital Beds

Mr. Maude: To ask the Secretary of State for Health how many beds there were per capita for *(a)* acute medicine, *(b)* general surgery, *(c)* orthopaedics, *(d)* maternity and *(e)* paediatrics in each (i) strategic health authority and (ii) primary care trust in England in each of the last 10 years; and what projections he has made of bed numbers in future years. [151464]

Ann Keen: Provider data by strategic health authority are shown in the following tables. Commissioner data are not collected centrally.

Total: Beds per capita

Notes:
1. KH03 is a provider based collection so the data are not available at PCT level.
2. The data have been mapped to the 28 SHAs created 1 April 2002 to provide a timeseries comparison.
3. Population data are mid-year population estimates based on the 2001-1991 census
4. Beds totals include beds in wards open overnight, day only beds and residential care beds.

Source:
Department of Health form KH03 and ONS for population statistics.

Hospital Beds: Heart Diseases

Mr. Hands: To ask the Secretary of State for Health what the average number of occupied bed days was for patients admitted to hospitals with congestive heart failure in each of the last five years. [152918]

Ann Keen: The information is in the following table and footnotes.

Mean and median bed days during the year for finished admissions episodes with a primary diagnosis of 150.0 Congestive Heart Failure for 2001-02 to 2005-06—NHS hospitals, England

	Mean	Median
2005-06	7	3
2004-05	7	3
2003-04	8	3
2002-03	9	4
2001-02	10	5

Notes:
1. ICD-10 Code: I50.0 Congestive Heart Failure
2. Bed Days During the Year
Bed days within the year include only those days falling between 1 April and 31 March of the data year including unfinished episodes, unless otherwise stated.
3. Diagnosis (Primary Diagnosis)
The primary diagnosis is the first of up to 14 (seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
4. Data Quality
HES are compiled from data sent by over 300 national health service trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
5. Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
6.Ungrossed Data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Source:
HES, The Information Centre for health and social care

Hospitals: Doctors

Tim Farron: To ask the Secretary of State for Health how many hospital trusts are not in compliance with the Royal College of Physicians' guidelines on consultants working at more than one hospital. [150576]

Ann Keen *[holding answer 18 July 2007]:* The information requested is not collected centrally.

Hospitals: Food

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what percentage of hospital main meals were left untouched in *(a)* England and *(b)* each NHS provider organisation in each year from 2001-02 to 2006-07; and if he will make a statement. [153406]

Ann Keen: Information on the number, and percentage, of hospital main meals left untouched in England is in the following table. Information relating to individual national health service providers has been placed in the Library. Data were not collected before 2001-02.

England	Total number untouched/unserved patient meals	Average percentage untouched/unserved patient meals
2001-02	11,473,923	8.86
2002-03	14,582,371	10.44
2003-04	16,708,212	10.71
2004-05	10,707,712	10.26
2005-06	13,053,065	9.42

Food is left untouched or unserved for a variety of reasons, but generally a combination of sufficient food being provided in order to ensure patients have a choice and changing requirements, i.e. patients being discharged or moved, being absent for treatment or changing clinical status after the food orders have been made.

Since 2004-05, the data provided have not been collected on a mandatory basis and therefore will not be complete.

Hospitals: Infectious Diseases

Tim Loughton: To ask the Secretary of State for Health how many babies have contracted hospital-acquired infections in the last 12 months, broken down by health trust. [152763]

Ann Keen: The best available data are given as follows but will include both community and healthcare-acquired infections.

Methicillin-resistant Staphylococcus aureus (MRSA)

Information on age has only been collected under the mandatory surveillance scheme by the Health Protection Agency (HPA) since October 2005 and the latest data were published on 25 July 2007. The total number of cases of MRSA bloodstream infections in the 12 months from April 2006 to March 2007 in children aged under one year in England was 35.

The small numbers involved mean that the information is not available by named trust as this could result in deductive disclosure.

Clostridium difficile

Children under two years are not included in the mandatory surveillance scheme.

The HPA's voluntary reporting scheme collects data on age and sex of cases. The scheme does not collect data on where infection was acquired (e.g. neonatal unit, or maternity unit). The following table shows the number of cases of *Clostridium difficile* for children from birth to one in England, Wales and Northern Ireland for 2005. Data for 2006 are not available yet.

Age	*2005*
Under 1 month	37
1 to 5 months	42
6 to 11 months	40

The aforementioned information is likely to be an underestimate as not all laboratories report. Furthermore, testing of children under two years of age may be limited owing to a general belief that the presence of *C. difficile* is not usually clinically significant in this age group as asymptomatic carriage, including production of toxins A and B, is common in this age group.

No other data on healthcare associated infections are available by age group.

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer of 18 July 2007, *Official Report*, column 456W, on hospitals: infectious diseases, in how many hospitals the six deaths in 2005 took place. [153633]

Ann Keen: The six deaths from methicillin resistant *Staphylococcus aureus* in persons aged under one, in 2005, occurred in five different hospitals.

Hospitals: Private Finance

Mr. Rob Wilson: To ask the Secretary of State for Health (1) how many hospitals were opened with private finance initiative funding since 1997, broken down by strategic health authority region; [151458]

(2) what the value of private finance initiative projects for which his Department is responsible was in each of the last five years, broken down by strategic health authority region; [151538]

(3) how many of the hospitals which have been opened through private finance initiative funding since 1997 have subsequently been closed, broken down by strategic health authority region. [151541]

Mr. Bradshaw: The information for PFI schemes with capital value over £10 million is shown in the following table.

£ million

		Capital value of PFI schemes opened or commenced construction in each of last five years					
Strategic health authority	*PFI schemes operational since 1997*	*2003*	*2004*	*2005*	*2006*	*2007 (to date)*	*Total*
East Midlands	1	312	19	354	0	29	714
East of England	4	15	0	0	66	412	493
London	19	224	0	443	1,541	33	2,241
North East	9	205	16	299	32	24	576
North West	4	0	512	0	478	0	990
South Central	7	30	19	365	47	207	668
South East Coast	4	29	0	0	0	36	65
South West	6	0	42	0	107	21	170
West Midlands	8	13	0	163	1,006	306	1,488
Yorkshire and the Humber	7	22	279	42	62	378	783
Totals	69	850	887	1,666	3,339	1,446	8,188

There are no instances of a PFI facility built since 1997 for the national health service that has subsequently closed.

Human Papilloma Virus: Vaccination

Sandra Gidley: To ask the Secretary of State for Health if he will take steps to ensure that clear guidance is given to primary care trusts on how girls can access human papilloma virus vaccines outside *(a)* vaccination and *(b)* catch-up programmes. [153447]

Dawn Primarolo: I refer the hon. member to the reply I gave to the hon. Member for Portsmouth, South (Mr. Hancock) on 19 July 2007, *Official Report*, columns 633-34W.

Sandra Gidley: To ask the Secretary of State for Health whether the Joint Committee on Vaccination and Immunisation expects to provide a recommendation to Ministers on a potential human papilloma virus vaccination catch-up programme for girls beyond the age of 13, following its meeting in October 2007. [153448]

Dawn Primarolo: A detailed analysis is being carried out by the Joint Committee on Vaccination and Immunisation (JCVI) regarding the benefits and costs of introducing a human papilloma virus vaccine programme. This work is being externally peer reviewed to ensure its robustness. This review has not yet been completed and therefore JCVI will not be able to make its more detailed recommendation, including whether there will be a catch-up for older girls, until after its next meeting, on October 17.

Sandra Gidley: To ask the Secretary of State for Health which body will be completing the independent peer review of the cost benefit analysis for human papilloma virus vaccination; and when this review is due to be completed. [153476]

Dawn Primarolo: A detailed analysis is being carried out by the Joint Committee on Vaccination and Immunisation (JCVI) regarding the benefits and costs of introducing a human papilloma virus (HPV) vaccine programme. This work is being externally peer reviewed by biologists working in the HPV field, mathematical modellers and economists in order to ensure its robustness.

Sandra Gidley: To ask the Secretary of State for Health how he will involve primary care trusts and strategic health authorities in planning for implementation of a human papilloma virus vaccination programme in autumn 2008. [153477]

Dawn Primarolo: The introduction of a comprehensive nationwide human papilloma virus vaccine programme will be a considerable undertaking for the national health service and many practical issues need to be discussed with stakeholders, particularly from the NHS. The Department will work with stakeholders, including primary care trusts and strategic health authorities, to plan for the introduction of the vaccine.

Influenza

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 12 March 2007, *Official Report*, column 130W, on influenza, whether he has considered the practicalities of giving short courses of antivirals as prophylaxis to members of the household of a person infected with pandemic influenza; what estimate he has made of the size of the antiviral stockpile necessary to do so; whether he plans to consider the possibility of using antivirals as prophylaxis in *(a)* schools, *(b)* healthcare settings and *(c)* other institutions; when he expects to take a final decision regarding stockpiling additional antivirals for prophylactic purposes; and if he will make a statement. [152310]

Dawn Primarolo: Prophylaxis is being considered as part of the overall countermeasures strategy for pandemic influenza. No decisions have been made on the use of prophylaxis but the policy is being kept under review including the possible size of any stockpiles and the potential options for their use.

Influenza: Disease Control

Mr. Lansley: To ask the Secretary of State for Health what guidance he has issued to *(a)* businesses and *(b)* other organisations outside the health and social care sectors on the safe use of (i) pharmacological and (ii) other clinical interventions to mitigate the impact of a potential influenza pandemic. [152169]

Dawn Primarolo: Advice to businesses and organisations that are planning to make interventions available to their employees is that distribution should be carried out under the guidance of a medical practitioner, in line with their usual occupational health arrangements. Advice on planning for a pandemic is included in the draft national framework for responding to an influenza pandemic that was issued for public discussion in March. Workplace guidance for pandemic flu is also available from the Health and Safety Executive website.

Mr. Lansley: To ask the Secretary of State for Health if he will list the main headings of the information presented to the 14 February 2007 meeting of the Joint Committee on Vaccination and Immunisation on risk groups relating to the prioritisation of vaccinations in the event of an influenza pandemic; what progress is being made in combining this information with mathematical modelling in order to present a comprehensive package of information; by which *(a)* parties and *(b)* Government Departments this comprehensive package of information will be used; and if he will make a statement. [152172]

Dawn Primarolo: The Joint Committee on Vaccination and Immunisation (JCVI) considered prioritisation issues connected with pandemic-specific vaccines and pre-pandemic vaccines which might be deployed to counter a flu pandemic. The group was presented with clinical, practical and public health considerations for the possible prioritisation of some or all of the following groups; healthcare workers, those at high risk of complications, those aged 18 years or younger to reduce disease transmission, those over 65, essential workers and enclosed communities. Another consideration was vaccination of the entire population.

The modelling subgroup of the Pandemic Influenza Scientific Advisory Group has considered the conclusions of a number of pieces of analysis (some commissioned specially for the group) on the role of both pre- and specific vaccines. This is discussed in the modelling summary published on the Department's website. The results of the analysis and the conclusions of the subgroup were presented at the June JCVI meeting and there will be further presentations and discussion at the next meeting.

The conclusions of the discussion will feed into the considerations of the Department and the Cabinet Office, including discussions with other Government Departments, on future options for pandemic preparedness.

Mr. Lansley: To ask the Secretary of State for Health what representations he has received on the effectiveness of stockpiling *(a)* oseltamivir, *(b)* zanamivir, *(c)* other antivirals and *(d)* pre-pandemic vaccines to prepare the NHS for tackling an influenza pandemic. [152173]

Dawn Primarolo: We continue to receive representations from a range of sources on the effectiveness of stockpiling both antivirals and pre-pandemic vaccine.

Mr. Lansley: To ask the Secretary of State for Health (1) when his Department will publish its response to the consultation on the national framework for responding to an influenza pandemic; [152175]

(2) pursuant to the answer of 9 March 2007, *Official Report*, column 2298W, on influenza, when he plans to publish a final framework. [152311]

Dawn Primarolo: The national framework is due to be published later in the year.

Mr. Lansley: To ask the Secretary of State for Health what assessment his Department has made of the *(a)* manufacturing capacity, *(b)* distribution capacity and *(c)* storage capacity of the pre-pandemic vaccine producers. [152176]

Dawn Primarolo: The United Kingdom policy on pre-pandemic vaccination has not yet been finalised and the appropriateness and cost-effectiveness of this countermeasure is still being assessed, along with manufacturing, distribution and storage capacity of producers.

Injuries: Children

Tim Loughton: To ask the Secretary of State for Health how many children *(a)* were admitted to hospital and *(b)* died as a result of unintentional injury in each of the last five years. [152762]

Mr. Ivan Lewis: The number of admissions of children (aged 0 to 14) to hospital as a result of unintentional injury in each of the last five years for which data are available is shown in the following table.

Count of finished admission episodes for children (ages 0-14) with unintentional injury, national health service hospitals, England

Financial year	*Number of admissions*
2001-02	102,833
2002-03	97,493
2003-04	99,915
2004-05	99,517
2005-06	100,194

Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Data are for International Classification of Diseases, Tenth Revision (ICD-10) codes V01 to X59, which cover external causes of accidental injury. Data represent a count of all episodes where this diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record.
3. HES are compiled from data sent by over 300 NHS trusts and primary care trusts in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
4. When analysing time series of HES data, the impact of improvements over time in data quality and coverage, and of changes in NHS practice need to be borne in mind. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
5. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Source:
Hospital Episode Statistics (HES), The Information Centre for health and social care.

The number of children (aged 0 to 14) who died as a result of unintentional injury in each of the last five years for which data are available is shown in the following table.

Deaths from unintentional injury, ages 0 to 14, England

	Number of deaths
2002	284
2003	274
2004	240
2005	231
2006	233

Notes:
1. Data are for deaths registered in each calendar year.
2. Cause of death is based on the final underlying cause, defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes V01 to X59.
3. Data are for usual residents of England.

Source:
Office for National Statistics death registrations

Junior Doctors: Vacancies

Peter Bottomley: To ask the Secretary of State for Health how many and what proportion of vacancies for junior doctors are expected to be filled by 1 August, broken down by *(a)* deanery and *(b)* specialty; and if he will make a statement. [153419]

Ann Keen: At the end of round one, 85 per cent. of junior doctor training posts had been filled.

The round 2 recruitment is in progress and the estimated total fill rate for 1 August is around 90 per cent. This means that national health service hospitals should have the junior doctors they need in post to ensure that services run smoothly around the annual changeover of junior doctors in early August.

A new wave of junior doctors start working in NHS hospitals across the country in August, each year. We appreciate that there are more involved this year, but hospitals are used to dealing with a new influx of junior doctors. Hospital consultants every year quietly, and very competently, plan for that process.

All applicants who are in substantive NHS employment will continue to have employment while they progress through the next round. This will help cover any remaining gaps in August.

Link Up Service

Mr. David Anderson: To ask the Secretary of State for Health what discussions he has had with colleagues in the Department for Work and Pensions on the health benefits of the Link Up service. [152049]

Mr. Ivan Lewis: The cross-Government strategy, "'Opportunity Age'—meeting the challenge of a changing society", was published by the Department for Work and Pensions (DWP) as a consultation document on 23 March 2005. The strategy outlines what can be done to meet the challenge of the changing demographics in the 21st century and looks specifically at the issues facing society as people live longer, healthier lives. It includes supporting active ageing and giving people more choice and independence in how they use the services at their disposal.

The Department was a major partner with the DWP in Opportunity Age. A specific theme of Opportunity Age was the development of LinkAge Plus pilots, which aim to build more effective links between central Government, local authorities and other organisations and deliver a fully integrated service to meet the needs of older people.

Eight LinkAge Plus pilots were established. LinkAge Plus is a two-year pilot programme, with funding available until March 2008. It was launched in September 2006 and aims to test models of partnership working and build up evidence of good practice to ensure joined up working. The Link Up service in Gateshead is one of these pilots.

Link Up offers advice and help to people in Gateshead aged 50 or over on a variety of topics, including health, benefits and how to stay healthy and active, and help with domestic tasks such as gardening and shopping.

Macular Degeneration

Mr. Bone: To ask the Secretary of State for Health if he will instruct primary care trusts to make all treatments for wet age-related macular degeneration available to patients on the national health service. [151949]

Ann Keen: All primary care trusts (PCTs) are funding photodynamic therapy treatment for patients with both the wholly classic and the predominantly classic forms of wet age-related macular degeneration, in line with guidance from the National Institute for Health and Clinical Excellence (NICE).

NICE is currently carrying out an appraisal of Lucentis and Macugen, which are now both licensed for the treatment of wet age-related macular degeneration, and final guidance is due later in the year.

Where guidance from NICE is not yet available, PCTs are expected to apply local arrangements for the managed introduction of new technologies. These arrangements should include an assessment of the available evidence.

Medical Treatments Abroad

Norman Lamb: To ask the Secretary of State for Health how many NHS patients were treated overseas in 2006, broken down by *(a)* country in which treatment was obtained and *(b)* type of treatment; and what the cost was to the NHS of these treatments, broken down by country in which treatment was obtained. [151702]

Dawn Primarolo *[holding answer 23 July 2007]:* It has been assumed that the question relates to patients being referred abroad specifically for treatment. There are a number of different routes by which patients can be sent abroad for treatment. We only hold information where the relevant authorisation has to be given by the Department. Cost information is not available as claims do not separate the different categories of treatment and this could only be done at disproportionate cost. The following table shows the number of patients treated by country and treatment type where Departmental authorisation has been given.

Country	*Type of Treatment*	*Number of cases*
Austria	Lung transplant	1
	Maternity care	5
	Removal of screws	1
	Total for country	7
Belgium	Annual check for heart transplant	1
	Atrial fibrillation	1

	Total treatments abroad	357

Medical Treatments: Heart Diseases

Mr. Hands: To ask the Secretary of State for Health what percentage of patients suffering from congestive heart failure were treated through *(a)* pharmacological management, *(b)* cardiac transplant surgery and *(c)* the use of medical devices in each of the last five years, broken down by strategic health authority. [152914]

Ann Keen: These data are not collected centrally.

Mr. Hands: To ask the Secretary of State for Health how much the NHS spent on *(a)* pharmacological management, *(b)* cardiac transplant surgery and *(c)* the use of medical devices in the treatment of congestive heart failure in each of the last five years, broken down by strategic health authority. [152915]

Ann Keen: Information is not collected in the form requested. It is possible to separate spending on medical devices and pharmacological management devices specifically for treatment for congestive heart failure from figures for such spending related to cardiac conditions generally.

On heart and lung transplants only national figures are available for procedures commissioned under the auspices of the National Specialist Commissioning Advisory Group. The following figures are for national commissioning across England, Scotland and Northern Ireland and include assessment, organ retrieval and follow-up services for both heart and lung transplant.

	£ million
2002-03	30.1
2003-04	31.4
2004-05	33.8
2005-06	35.7
2006-07	37.8

Mr. Hands: To ask the Secretary of State for Health (1) what the cost was of treating congestive heart failure in each of the last five years to the NHS, broken down by strategic health authority; [152916]

(2) what the average cost of an occupied bed day was for patients with congestive heart failure in each of the last five years, broken down by strategic health authority. [152917]

Ann Keen: These data requested are not held centrally.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Health when he will reply to the letter from the hon. Member for West Worcestershire of 21 June 2007 on Type 1 diabetes. [153492]

Ann Keen: A reply was sent to the hon. Member on 24 July 2007.

Mental Health Services: Children

Sandra Gidley: To ask the Secretary of State for Health how many specialists in child mental health were employed in the NHS in each of the last 10 years, broken down by NHS trust. [151017]

Mr. Bradshaw: Information about medical child mental health specialists has been placed in the Library. It is not possible to separately identify child mental health nurses.

Mental Health Services: Manpower

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* consultant psychiatrists, *(b)* mental health nurses and *(c)* primary care mental health workers were employed by the NHS in each of the last 10 years, broken down by (i) head count and (ii) full-time equivalents. [151009]

Mr. Bradshaw: The information requested is shown in the following tables.

	1997		*1998*		*1999*		*2000*	
	Headcount	*Full-time equivalent*	*Headcount*	*Full-time equivalent*	*Headcount*	*Full-time equivalent*	*Headcount*	*Full-time equivalent*

Other 1st level	52,668	45,965	52,299	46,009
Other 2nd level	2,635	1,909	1,570	1,348

n/a = Not applicable.

Notes:

1. Mental health nurses are those qualified nurses who work within the community psychiatry, other psychiatry, community learning disabilities and other learning disabilities areas.
2. More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total work force figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration when analysing trends over time.

1. Information Centre for health and social care non-medical workforce census
2. The Information Centre for health and social care medical and dental workforce census

Mental Health Services: Young People

Tim Loughton: To ask the Secretary of State for Health how many new cases were dealt with by child and adolescent mental health services in each of the last five years. [150656]

Mr. Ivan Lewis: The number of new cases dealt with by specialist child and adolescent mental health services (CAMHS) in England was as follows.

	Cases
2002	9,822
2003	16,632
2004	27,892
2005	31,330
2006	29,170

Source:
CAMHS mapping data 2002-06

Midwives: Manpower

Mr. Hancock: To ask the Secretary of State for Health what recent assessment he has made of the adequacy of the number of midwives working in the NHS in England. [151616]

Mr. Bradshaw: It is important that these assessments are made locally as they know their local needs best and can ensure that services are developed to meet these needs.

The 2007-08 national health service operating framework requires local NHS organisations to undertake a review of their maternity services, identify the gaps and barriers to service development and set out their local strategy for delivery of maternity matters. The review needs to include an assessment of their workforce capacity.

Between September 1997 and September 2006, the (headcount) number of midwives employed in the NHS has increased by 2,084 (9 per cent).

Midwives: Training

Mr. Hancock: To ask the Secretary of State for Health how many training places for student midwives are planned to be provided in *(a)* the 2007-08 academic year and *(b)* subsequent years; what factors are taken into account in deciding the number commissioned; which (i) individuals and (ii) organisations were consulted in that decision; and who decides how many places will be commissioned. [151613]

Mr. Bradshaw: A total of 2,116 planned student midwifery training places were commissioned for the 2007-08 academic year. Information on the number of planned training places for subsequent years is not available centrally.

When determining the number of training places needed, the existing number of midwifes, the expected number of graduates and policy priorities such as Maternity Matters are expected to be taken into account.

Strategic health authorities will have the final decision on how many places to commission. The Department has a service level agreement with local strategic health authorities (SHAs) which expects them to make decisions and plans based on long-term workforce planning using national and local data sources with support from the national workforce review team. It is for individual SHAs to decide on the appropriate organisations to consult.

Multiple Sclerosis: Drugs

Mr. Carmichael: To ask the Secretary of State for Health when the review on the use of the drug Sativex by multiple sclerosis patients will conclude; and if he will make a statement. [153485]

Mr. Ivan Lewis: The review period for Sativex concluded on 19 July 2007 when the applicant for the marketing authorisation, GW Pharmaceuticals Ltd, withdrew the application in all concerned member states (Netherland, Denmark, Spain and the United Kingdom). No further review on Sativex is possible until another application is submitted by the company.

Musculoskeletal Disorders: Health Services

Kelvin Hopkins: To ask the Secretary of State for Health how he will assess implementation of the Musculoskeletal Services Framework beyond the 18-week target. [152980]

Ann Keen: The Musculoskeletal Services Framework (MSF) was published as good practice guidance and it is for local organisations to decide how best to implement it. The Department will not be monitoring local implementation formally, but will continue to monitor indicators such as waiting times and to liaise with stakeholders such as those represented on the National Orthopaedics Co-ordinating Group.

Kelvin Hopkins: To ask the Secretary of State for Health how many submissions his Department has received on addressing musculoskeletal problems in the Quality and Outcomes Framework. [152981]

Mr. Bradshaw: The Department of Health does not receive any submissions on changes to the Quality and Outcomes Framework (QOF).

The independent expert panel which advises the negotiating parties to the general medical services contract on the evidence for changes to the QOF invited submissions for a review of QOF in 2005. The panel received two submissions in relation to falls, one in relation to osteoarthritis and seven in relation to osteoporosis. All submissions were considered and the expert panel produced reports which have been published on the University of Birmingham website.

As part of the ongoing development of the framework, indicators will be subject to continuing review in the light of emerging evidence, in the context of a value for money agreement. The expert panel again invited patient groups and professional bodies to submit evidence on current or potential future areas in QOF by 28 February this year. The panel has now concluded oral sessions with submitting groups. NHS Employers, which holds the contract with the expert panel and negotiates changes to the contract with the British Medical Association, intends to make further information available on this process soon.

NHS Direct

Sandra Gidley: To ask the Secretary of State for Health how many calls were made to NHS Direct in each of the last five years; and what progress is being made on the development and implementation of the telephone internet and digital service as recommended in the White Paper, "Choosing Health". [152239]

Mr. Bradshaw: The NHS Direct Trust has provided the following information.

Number of calls offered[1] to NHS Direct in the last five calendar years

	Calls offered
2002	7,375,970
2003	8,168,357

Number of calls offered[1] to NHS Direct in the last five calendar years

	Calls offered
2004	8,611,418
2005	8,104,166
2006	7,336,604

[1] Defined as the number of calls offered received by NHS Direct. This is the combined total of calls to NHS Direct's out-of-hours services and calls to the 08454647 telephone line.

Sources:
1. NHS Direct. The figures have not been validated by the Department
2. NHS Direct NHS Trust National Operations Centre

The "Choosing Health" White Paper commitment to develop and implement telephone, internet and digital services is being delivered through the new NHS Choices website, available at www.nhs.uk/Pages/homepage.aspx. This currently incorporates a Live Well area; a local services search facility; and personalised, national health service accredited content that reflects the interests and needs of different age groups across a spectrum of issues and factors which can impact upon length and quality of life. Further services, including testing of SMS text messaging and digital television, will be added later this year.

NHS Treatment Centres

Margaret Moran: To ask the Secretary of State for Health what the cost of operating walk-in centres was in each primary care trust in the latest year for which figures are available. [152269]

Mr. Bradshaw: The Department does not collect this information centrally. Primary Care Trusts are responsible for commissioning NHS walk-in centres.

NHS Treatment Centres: York

Hugh Bayley: To ask the Secretary of State for Health how many patients were treated at York NHS walk-in centre in each year since it opened. [151639]

Mr. Bradshaw: The information requested is contained in the following table.

Attendances at NHS Walk in Centre (WiC), North Yorkshire and York Primary Care Trust (PCT), 2003-04 to 2006-07

	Organisation	Attendances
2003-04	Selby and York PCT	39,221
2004-05	Selby and York PCT	36,194
2005-06	Selby and York PCT	28,058
2006-07	North Yorkshire and York PCT	24,338

Notes:
1. Attendances at WiCs were not collected as part of the QMAE return prior to 2003-04. Throughout this period the organisations above only reported one WiC each quarter.
2. On 1 October 2006, Selby and York PCT merged with three other PCTs to form North Yorkshire and York PCT.

Source:
Department of Health dataset QMAE.

NHS: Accountancy

Mr. Hancock: To ask the Secretary of State for Health on which dates the annual accounts of the NHS were published in each of the last five years. [151515]

Mr. Bradshaw: All national health service bodies are required to publish their accounts locally. The accounts must be presented at a public meeting held no later than 30 September following the end of the financial year (31 March).

The National Audit Office publishes the NHS summarised accounts for strategic health authorities, primary care trusts and NHS trusts. The publication dates for the last five financial years were:

2001-02: 21 March 2003
2002-03: 28 April 2004
2003-04: 24 June 2005
2004-05: 7 June 2006
2005-06: not yet published

NHS: Drugs

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether his Department put in place formal arrangements with the Department of Trade and Industry to ensure co-operation when representing the interests of the pharmaceutical industry, as stated on page 24 of the Government's response to the Health Committee's report "The Influence of the Pharmaceutical Industry", Cm 6655; whether this formal co-operation now takes place between his Department and the Department for Business, Enterprise and Regulatory Reform; whether this formal co-operation extends to representing the interests of the *(a)* nutraceutical, *(b)* food supplements and *(c)* specialist nutritional products industries; and if he will make a statement. [153398]

Dawn Primarolo: In line with the Government response to the Health Committee's report "The Influence of the Pharmaceutical Industry", the Department and the Department for Business, Enterprise and Regulatory Reform (BERR) have put in place formal arrangements to ensure close working between both Departments on issues relating to the pharmaceutical industry.

The directors of the Medicines, Pharmacy and Industry Group (MPIG) in the Department and the Business Relations Group at BERR meet regularly and work closely in taking forward this agenda. In addition, officials in the Industry Branch within MPIG and in the BioScience Unit of the Business Relations Unit meet on a quarterly basis. They also work closely on a day-to-day basis taking forward policy relating to the United Kingdom-based pharmaceutical industry. These formal relations were put in place in 2005 and continue today.

The Department sponsors the pharmaceutical and medical devices industries. It does not sponsor the nutraceutical, food supplements and specialist nutritional products industries, and similar relations with BERR are not required.

NHS: Finance

Mr. Garnier: To ask the Secretary of State for Health what the per capita funding allocated to each primary care trust in England was in each of the last five years for which figures are available; and what the national average NHS per capita funding was in each such year. [142734]

Mr. Bradshaw: A table showing the funds per capita for each primary care trust in England and the England average for the years 2003-04 to 2007-08 has been placed in the Library.

Mr. Hoban: To ask the Secretary of State for Health whether his Department's 2002 Spending Review settlement set financial limits on the negotiation of a new contract for the delivery of general medical services. [151425]

Mr. Bradshaw: The cost of the new contract for the delivery of general medical services was just one of the many components that made up the Department's 2002 Spending Review settlement.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 11 July 2007, *Official Report*, column 1487W, on NHS: finance, if he will place in the Library copies of the guidance on the introduction of Resource Accounting and Budgeting issued to the NHS by his Department in 2000 and the consolidated guidance issued in February 2001. [153486]

Mr. Bradshaw: Copies of "A guide to resource accounting and budgeting for the NHS", issued by the Department's Finance Directorate, have been placed in the Library. It can also be found on the Department's website at:

www.dh.gov.uk/en/Policyandguidance/Organisationpolicy/Financeandplanning/Allocations/DH_4000346

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 12 July 2007, *Official Report*, column 1670W, on NHS: finance, what the dates were of each meeting for which his Department holds minutes on this subject. [153487]

Mr. Bradshaw: The Department's Ministers and officials regularly discuss a wide range of issues with their counterparts in HM Treasury. As was the case in previous Administrations, it is not the practice of the Government to provide details of all such meetings.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 12 July 2007, *Official Report*, column 1670W, on NHS: finance, what form these records take other than minutes of meetings. [153488]

Mr. Bradshaw: The Department holds records of correspondence between the Department and HM Treasury.

NHS: Greater London

Alan Simpson: To ask the Secretary of State for Health how many London hospitals that have completed or committed to private finance initiative (PFI) contracts may be affected by the Darzi proposals to reorganise NHS services in London; and what estimate he has made of the potential level of PFI debt that may fall back on to the *(a)* Exchequer and *(b)* NHS in the event of closure. [152400]

Mr. Bradshaw: Changes in services are a matter for the local national health service. Specific proposals as a result of the Darzi review have not yet emerged.

Under a private finance initiative contract, trusts may terminate the contract with notice at any time, without having to prove right and regardless of any prejudice to the private sector. In these circumstances, compensation would be payable to the contractor on a trust default basis aiming to put the contractor in a position that is 'no better, no worse' than it would have been had the contract run for its full length. A value for money case for exercising this option must be made. To date no estimates have been made by the Department on the termination liabilities of any PFI scheme, costs which would be met by the individual trust involved.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what *(a)* bonuses and *(b)* pension benefits the outgoing chief executive of Connecting for Health will accrue before leaving Connecting for Health; what severance pay he will be eligible for; and when he will have completed his notice period at the agency. [151939]

Mr. Bradshaw: The outgoing director general of Connecting for Health will be stepping down from his role in the Department and he will not be eligible for severance pay. A final day of service has not been agreed between the Department and the director general and dependent upon his last day of service this will determine eligibility for bonus payments. The director general for Connecting for Health will continue to accrue pension benefits under the Principal Civil Service Pension Scheme in the usual way until his final day of service.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) whether the new Chief Executive of Connecting for Health will be empowered to renegotiate contracts with local service providers; [151940]

(2) whether responsibility for delivering Connecting for Health will lie with *(a)* Ministers and *(b)* the new Chief Executive of Connecting for Health. [151947]

Mr. Bradshaw: The Chief Executive of NHS Connecting for Health is accountable, through the national health service Chief Executive, to Ministers for the strategic direction of the national programme for information technology and for management of the contracts between the Department and local service providers. The programme contracts provide appropriate mechanisms for negotiating contract changes where that is necessary.

Responsibility for local implementation, and realising the benefits of the technology, rests with the strategic health authority (SHA) chief executives as senior responsible owners for the programme within the NHS. In this way SHAs, together with NHS trusts and primary care trusts, are able to participate in the choice of systems and services, and in the planning and timing of deployments to better match the programme to local NHS priorities.

There are no current plans to alter these arrangements.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the tenure of the outgoing Chief Executive of Connecting for Health will overlap with that of his successor. [151941]

Mr. Bradshaw: A final day of service has not yet been agreed between the Department and the Director General and it is unknown whether there will be an overlap with any successor at this stage.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what team was put on standby to take over iSoft in the case of Connecting for Health exercising its step-in-rights; and at what cost the team was put on standby. [153296]

Mr. Bradshaw: Step-in rights are one of a number of provisions in the contracts between NHS Connecting for Health and its prime contractors under the national programme for information technology whose exercise is reserved, on an exceptional basis and in the event of certain critical circumstances, for the purpose of maintaining continuity of delivery and service for the NHS.

Action was taken to exercise this provision in relation to iSoft on a contingency basis, and a joint team of appropriately experienced NHS and private sector programme managers and software engineers identified for the purpose. There have been no standby costs, but some limited expenditure has been incurred in monitoring the circumstances surrounding the recent uncertainty over the future of iSoft. However, this has not been recorded separately and could be provided only at disproportionate cost.

NHS: Information

Sandra Gidley: To ask the Secretary of State for Health in which areas he expects trials of the information prescription to take place; how many people will be involved in the trials; what funding has been allocated for the trials; and if he will make a statement. [152224]

Ann Keen: Information prescription pilots are taking place in 20 areas around England in a range of health and social care settings, and they include many different health and social need conditions and needs. A full list has been placed in the Library.

Each pilot site is involving a range of service users, professionals, carers and support staff, but there are no counts of the numbers of people involved, and more people will continue to be involved as the pilots progress. The initiative in total has a funding of £1.35 million in 2006-07, and £2.5 million in 2007-08.

Sandra Gidley: To ask the Secretary of State for Health for which conditions he expects information prescriptions to be available. [152225]

Ann Keen: Information prescriptions are being developed for everyone with a long-term condition or social care need, as described in the 2006 White Paper 'Our Health, Our Care, Our Say'.

Sandra Gidley: To ask the Secretary of State for Health when he expects to make an assessment of the information prescription trial. [152226]

Ann Keen: The 20 information prescriptions pilot sites are being assessed by an independent evaluation consortium. They will be producing a final report on the work of the pilots in February 2008, which will be used to inform the national roll-out of information prescriptions.

Sandra Gidley: To ask the Secretary of State for Health what plans he is making for the full roll-out of information prescriptions; and how much he expects the full roll-out of information prescription to cost. [152227]

Ann Keen: The information prescriptions initiative has a funding of £2.5 million in the financial year 2007-08. Plans for full roll-out will be developed based on the learning from the 20 sites which are piloting information prescriptions.

NHS: Pay

Margaret Moran: To ask the Secretary of State for Health how much was spent *(a)* in the NHS, *(b)* in each primary care trust area and *(c)* by each primary care trust on payoffs to staff in each of the last three years. [152268]

Ann Keen: This information is not collected centrally.

NHS: Sick Leave

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 14 June 2007, *Official Report*, column 1320W, on NHS: sick leave, what the average sickness absence rate for NHS staff was in each year since 2001, broken down by strategic health authority area. [147497]

Mr. Bradshaw: The national health service sickness absence rate has fallen from 4.8 per cent. in 2001 to 4.5 per cent. in 2005.

The following table shows sickness absence rates from 2001 to 2005. This is broken down by strategic health authority (SHAs) for 2003 to 2005[1]. The Information Centre for health and social care advises that the quality of data is not high enough prior to 2003 to break this information down by SHA. Sickness absence rates for 2006 are not included because a refresh exercise is being undertaken. Final 2006 figures will be available in August.

[1] For previous structure of 28 SHAs. It is not possible to reproduce this for the current structure of 10 SHAs.

Percentage

	2001	*2002*	*2003*	*2004*	*2005*

West Midlands South	n/a	n/a	5.2	4.8	4.7

n/a = Not applicable, sickness/absence data are not available by SHA area prior to 2002.

Notes:

1. Data for 2002 are of insufficient quality to produce data at a SHA level.
2. Sickness absence rate is defined as the amount of time lost through absences as a percentage of staff time available.
3. This does not cover maternity leave, carers leave or any periods of absence agreed under family friendly/flexible working policies.
4. General Practitioners and their staff are not included in the aforementioned figures.
5. Figures for strategic health authority areas are an average of all primary care trusts, other trusts and the strategic health authority organisations in that area.
6. Figures are for the calendar year.

Sources:

The Department's Sickness/Absence survey 2000-04
The Information Centre for health and social care sickness/absence survey 2005

NHS: Working Hours

Mr. Maude: To ask the Secretary of State for Health what recent assessment he has made of the impact of the European working time directive on acute hospital services. [151543]

Mr. Bradshaw: The new deal contract monitoring returns give an indication of national health service readiness for fully implementing the working time directive 48-hour week for doctors in training. Monitoring information for September 2006 is published on the NHS Employers website at

www.nhsemployers.org/pay-conditions/pay-conditions-467.cfm.

Collection of the 2007 new deal monitoring information will commence this autumn.

Nurses: Children

Sandra Gidley: To ask the Secretary of State for Health, pursuant to the answer of 18 July 2007, *Official Report*, columns 470-1W, on nurses: children, how many of the duplicate records identified paediatric nurses. [152974]

Mr. Bradshaw: In 2006 the census data reported a total of 18,634 qualified nursing staff working within the paediatric area of work. The validation process prior to publication identified and removed 135 duplicate records from the paediatric area of work.

Nurses: Manpower

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* district nurses, *(b)* nursing auxiliaries, *(c)* school nurses, *(d)* mental handicap nurses, *(e)* community psychiatric nurses, *(f)* treatment nurses, *(g)* community midwives and *(h)* health visitors were employed in the NHS in each year since 2000; and what the projected figures are for each year to 2010, broken down by health trust. [151054]

Mr. Bradshaw: This information has been placed in the Library.

The annual workforce census does not identify mental handicap nurses, treatment nurses or community midwives seperately from the rest of the nursing workforce. Comprehensive data on school nurses have only been collected centrally since 2004.

Projected figures for each year to 2010, broken down by health trust are not collected centrally.

Sandra Gidley: To ask the Secretary of State for Health how many specialist nurses were employed in the NHS in each of the last five years. [151055]

Mr. Bradshaw: The annual workforce census does not identify the number of specialist nurses.

The workforce census records the number of qualified nurses, midwives and health visitors under the several different branches of nursing which are acute, elderly and general, paediatric, maternity, psychiatry, learning disabilities, community services and education staff.

Sandra Gidley: To ask the Secretary of State for Health what plans his Department has to increase the number of specialist nurses employed in the NHS. [151056]

Mr. Bradshaw: Workforce planning is a matter for local determination. It is for local workforce planners to determine the specialist nursing needs of their local population with appropriate support from the workforce review team, national workforce projects and NHS Employers.

Nurses: Recruitment

Mr. Redwood: To ask the Secretary of State for Health if she will estimate the effect on the cost to the public purse of changing from current recruitment practices for nurses to an all-graduate intake for new nurses. [146289]

Ann Keen: As part of modernising nursing careers, the Nursing and Midwifery Council is reviewing the content and level of pre-registration education. If a graduate workforce is deemed appropriate, the costs and benefits of such a change will be taken into account.

Nutrition: Costs

Mr. Stephen O'Brien: To ask the Secretary of State for Health what recent estimate he has made of the costs to *(a)* the NHS and *(b)* society as a whole of (i) obesity and (ii) undernutrition. [153407]

Dawn Primarolo: 'Tackling Child Obesity—First Steps', a joint report from the National Audit Office, Healthcare Commission and Audit Commission published in February 2006, put the cost of obesity to the national health service at around £1 billion a year, with an additional £2.3 billion to £2.6 billion a year cost to the economy as a whole. Information on the cost of undernutrition to the NHS is not collected centrally.

Nutrition: Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans he has to incorporate indicators of nutrition and diet in the Quality and Outcomes Framework of the new General Medical Services contract. [153408]

Mr. Bradshaw: Currently there are eight points available in the quality and outcomes framework (QOF) rewarding practices for maintaining a register of patients aged 16 and over with a body mass index (BMI) greater than or equal to 30. The register includes people whose BMI has been recorded in practice as part of routine care.

There are currently no plans to incorporate indicators of nutrition and diet in the QOF. However, as part of the ongoing development of the framework, indicators will be subject to continuing review in the light of emerging evidence, in the context of a value for money agreement.

Obesity: Young People

Sandra Gidley: To ask the Secretary of State for Health what recent assessment he has made of whether the public service agreement target to halt the year on year rise in obesity among children under 11 by 2010 will be met. [152251]

Dawn Primarolo: The obesity public service agreement (PSA) will be assessed by comparing Health Survey for England figures for aggregate three-year periods, which are used to account for the limited sample size.

This is a very challenging PSA target. Progress has been made:

Ofcom and the Committee of Advertising Practice have announced restrictions to limit advertising of products high in fat, sugar and salt to children;

80 per cent. of pupils participate in at least two hours of high quality physical education and school sport a week;

new, tougher nutritional standards for school food have been announced; and

the Top Tips for Top Mums campaign helps parents tackle the four key barriers to children eating fruit and vegetables (cost, fussy eaters, limited time/cooking skills and a lack of structured meal occasions).

Internationally, our approach is regarded as good practice, informing, for example, the WHO Europe Charter on Counteracting Obesity published in November 2006.

Organs: Donors

Mr. Evans: To ask the Secretary of State for Health what strategy is in place to increase the number of organ donors. [151768]

Ann Keen: The Department launched "Saving Lives, Valuing Donors: A transplant framework for England" in 2003 and the National Service Framework for Renal Services in 2004. These set out the Department's key aims for organ and tissue transplantation over the following 10 years. Government investment in hospital-based funding has helped increase donor rates and an organ donor taskforce will report to Ministers in autumn 2007 on how organ donor rates can be further improved.

Patients

Mr. Maude: To ask the Secretary of State for Health what models are used by his Department to determine patient flows between major general hospitals; and what assessment he has made of their accuracy. [151467]

Mr. Bradshaw: The Department has not used models to determine patient flows between major general hospitals. This work is considered at a local level.

Patients: Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the average expenditure was on each patient main meal delivered in hospital in *(a)* cash terms and *(b)* current prices in each year since 1997. [153395]

Ann Keen: Information on the average expenditure on each patient main meal is in the following table. The actual amounts shown are as collected from the national health service in the financial year in question. Information on the basis of constant prices is neither collected nor calculated centrally. The data were not collected before 2001-02.

In respect of hospital food services, there is no relationship between cost and quality.

	Average amount spent per patient main meal (£)
2001-02	2.19
2002-03	2.41
2003-04	2.37
2004-05	2.60
2005-06	2.65

In-patients are expected to receive three main meals per day. The expenditure shown includes the cost of provisions and staff costs.

Since 2004-05, the data provided have not been collected on a mandatory basis and therefore may not be complete.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the average additional cost of treating a patient in hospital per episode of care if the patient is undernourished. [153396]

Dawn Primarolo: The information requested is not collected centrally.

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he intends to publish the joint departmental and stakeholder nutrition action plan; which stakeholders are involved in developing the plan; and if he will make a statement. [153399]

Mr. Ivan Lewis: The Department intends to publish the action plan, which was discussed at the second Nutrition Summit on 17 July, in the autumn. A wide range of stakeholders are involved in its development. These stakeholders are shown in the following list.

Age Concern
Association of Directors of Adult Social Services
British Medical Association
British Association for Parenteral and Enteral Nutrition
British Dietetic Association
Caroline Walker Trust
Commission for Social Care Inspection
Council of Europe Alliance
English Community Care Association
Food Standards Agency
Healthcare Commission
Help the Aged
Hospital Caterers Association
Local Government Association
National Association of Care Caterers
National Health Service Core Learning Unit
National Institute of Health & Clinical Excellence
National Nurses Nutrition Group
National Patient Safety Agency
Patients Association
People First
Purchasing and Supply Agency
Royal Institute of Public Health
Royal College of Nurses
Skills for Care
Skills for Health
Sustain
United Kingdom Home Care Association
Water UK

Physiotherapy: Manpower

David Taylor: To ask the Secretary of State for Health what the change in numbers of *(a)* junior physiotherapists and *(b)* senior physiotherapists employed in the NHS was between April 2001 and April 2007. [150895]

Mr. Bradshaw: This information is not collected centrally. The annual work force census, published by the Information Centre for health and social care, does not identify physiotherapists by grade.

The total number of physiotherapists employed in the NHS increased by 5,577 between 1997 and 2006 (the latest data we have) to 19,820.

David Taylor: To ask the Secretary of State for Health how many physiotherapy graduates are registered with NHS Jobs. [150896]

Mr. Bradshaw: There were 537 physiotherapy graduates registered on the national health service jobs talent pool as at 17 July 2007.

Pregnant Women: Alcoholic Drinks

Sandra Gidley: To ask the Secretary of State for Health (1) what plans he has to implement training programmes for health care professionals on the prevention, diagnosis and management of the full range of foetal alcohol spectrum disorders; and if he will make a statement; [148556]

(2) what assessment he has made of the training, guidance and resources available in the NHS for routine screening of alcohol consumption by pregnant women; [148557]

(3) what research he has *(a)* commissioned and *(b)* evaluated on the clinical management of individuals affected by foetal alcohol spectrum disorders; and what support systems are available to them and their carers and families. [148558]

Ann Keen: The Department is not responsible for setting curriculums for health professional training. However, the Department does share a commitment with statutory and professional bodies to ensure that all health professionals are appropriately trained, so that they have the skills and knowledge to deliver a high-quality health service to all groups of the population, whatever their condition.

The Department has funded the production of guidance to support the effective delivery of high quality training on substance misuse, including alcohol, within undergraduate medical education in the United Kingdom. Compilation of Substance Misuse in the Undergraduate Medical Curriculum was overseen by an expert steering group and published by the International Centre for Drugs Policy in April 2007.

Although the Department has not made an assessment of the training, guidance and resources available in the national health service for routine screening of alcohol consumption by pregnant women, midwives routinely ask about alcohol consumption during booked antenatal appointments. The Department has also recently reworded its advice on alcohol and pregnancy. The revised advice states that

pregnant women or women trying to conceive should avoid drinking alcohol. If they do choose to drink, to minimise the risk to the baby, they should not drink more than one to two units of alcohol once or twice a week, and should not get drunk.

The Department has not commissioned or evaluated research on the clinical management of individuals affected by foetal alcohol spectrum disorders (FASD). However, the Government welcome the British Medical Association's recently published guide for health care professionals on FASD which will serve to raise awareness of this and provide important advice for diagnosis and those caring for patients affected by this condition.

Prescriptions: Contraceptives

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* courses of contraception and *(b)* contraceptive devices were prescribed to persons (i) over 16 and (ii) in each age group under 16 in each year since 1997. [150971]

Dawn Primarolo: The information available on supply of contraception and contraceptive devices supplied by community contraceptive clinics has been placed in the Library. Data in each age group under 16 can be provided only at disproportionate cost.

The information shown as follows is for prescriptions dispensed in the community (almost all of these prescriptions are written by general practice). Data by age are not available.

	Regular methods of contraception[1]	*Thousand Contraceptive devices*[2]
1997	8,246.0	102.8
1998	8,246.1	99.4
1999	8,245.4	96.1
2000	8,241.7	89.7
2001	8,239.7	85.5
2002	8,237.1	82.3
2003	8,234.1	81.7
2004	8,231.3	81.4
2005	8,223.4	87.7
2006	8,208.9	101.9

[1] Includes tablets, injections (including depo injections) and patches.
[2] Includes implants, IUDs and IUSs.
Source:
Prescription information is taken from the Prescription Cost Analysis (PCA) system, supplied by the Prescription Pricing Division (PPD) of the Business Services Authority (BSA), and is based on a full analysis of all prescriptions dispensed in the community ie by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. The data do not cover drugs dispensed in hospitals.

Sandra Gidley: To ask the Secretary of State for Health on how many occasions the morning after pill was prescribed *(a)* in total and *(b)* to girls under 16 by (i) family planning clinics, (ii) general practitioners, (iii) hospital accident and emergency departments, (iv) school nurses and (v) pharmacists since 1997. [150979]

Dawn Primarolo: The information available on emergency hormonal contraception (EHC) supplied by community contraceptive clinics is shown in the following table.

Occasions on which emergency hormonal contraceptives were supplied at community contraceptive clinics by specified age and year—England

	All ages	*Thousand Of which: Under 16*
1997-98	205.1	22.5
1998-99	209.9	21.5
1999-2000	233.0	23.1
2000-01	228.8	25.2
2001-02	192.0	25.5
2002-03	188.0	26.9
2003-04	[1]183.2	27.0
2004-05	174.1	24.4
2005-06	164.5	22.0

[1] Data revised in 2004-05 publication.
Notes:
Data prior to 2004-05 reused with the permission of the Department of Health.
Source:
The Information Centre KT31 return.

The available data on the number of items of EHC prescribed by general practitioners are shown in the following table. Data by age are not available.

Year[1]	*General practitioners (Thousand)*
2003	368.2
2004	333.2
2005	302.9
2006	280.6

Source:
[1] ePACT system, this contains a maximum of 60 months data

Information is not available on the supply of EHC by hospital accident and emergency departments and school nurses and up until the end of 2006 no pharmacists had written prescriptions for EHC.

Sexually Transmitted Diseases

Christine Russell: To ask the Secretary of State for Health (1) what plans he has to tackle the spread of genital warts, especially among people between 16 and 25; [152439]

(2) what assessment his Department has made of the impact of the incidence of genital warts on genito-urinary medicine clinical resources. [152442]

Dawn Primarolo: Genital warts is the most frequently diagnosed viral sexually transmitted infection (STI) in genito-urinary clinics in England. In 2006, the highest rates of genital warts were in both the 16-19 and 20-24 year age groups in women and in the 20-24 year old age group in men. Most cases of genital warts are asymptomatic and resolve spontaneously in healthy individuals.

To tackle the spread of STIs we have set a target that 100 per cent. of patients attending a genito-urinary medicine service are offered an appointment to be seen within 48 hours. We are already seeing excellent progress on this. Data from the Genito-Urinary

Medicine Access Monthly Monitoring return showed that in May 2007, 85 per cent. of first attendances were offered an appointment to be seen within 48 hours of contacting a service. This compares with 58 per cent. in May 2006.

Last November we launched a new adult sexual health campaign, "Condom Essential Wear", which aims to normalise condom use among sexually active adults. The campaign focuses on STIs most prevalent in the target 18-24 year old age group.

Skills for Health

Sandra Gidley: To ask the Secretary of State for Health how many primary care trusts are running a skills for health programme; and how much this has cost. [152238]

Mr. Ivan Lewis: Skilled for Health early adopter partnerships are planned between local health and education bodies to provide local models of delivery for wider dissemination and as models of best practice to support wider rollout. Learning from these partnerships will be used to inform primary care trust (PCT) programmes.

Phase 1 of Skilled for Health was completed in 2006 and the teaching resources developed were published in November 2006 as part of the embedded learning curriculum content for the Skills for Life programme. They are available at no cost to PCTs and their partners from Prolog (0845 60 222 600). Copies are available in the Library. Information on how these materials are being used locally to establish Skilled for Health programmes in PCTs in not collected centrally.

Smoking: Health Hazards

Sandra Gidley: To ask the Secretary of State for Health what the incidence of smoking-related diseases including *(a)* lung cancer, *(b)* heart disease and *(c)* chronic obstructive pulmonary disease was in (i) Hampshire and (ii) England in each year since 1997. [151059]

Ann Keen: The information is not available in the format requested. Figures are available from Hospital Episode Statistics on the number of Finished Consultant Episodes (FCEs) in national health service hospitals in England with a primary diagnosis of diseases that can be caused by smoking. It is acknowledged that not all these FCEs which can be caused by smoking will be attributable to smoking as there are other contributory factors in these diseases. Therefore for England, the relative risks of these diseases for current and ex-smokers compared to non-smokers can be used to estimate smoking-attributable FCEs. The following tables provide either the number of FCEs that can be caused by smoking or estimates of the number of smoking-attributable FCEs.

Table 1 shows the number of FCEs in England, for people of all ages, with a primary diagnosis of various diseases which can be caused by smoking for 1996-97 through to 2005-06.

Table 2 shows the number of FCEs in England, for those aged 35 and over, with a primary diagnosis of various diseases which can be caused by smoking, and estimates of the number of these which can be attributed to smoking. Figures have been provided for 2004-05, as this is first and most recent year for which data on estimates of diseases which can be attributed to smoking are available. Figures are shown for those aged 35 and over only, because relative risks used to estimate the attributable numbers are only available for this age group.

Table 3 shows the number of FCEs in Hampshire and Isle of Wight strategic health authority (SHA), for all ages, with a primary diagnosis of various diseases which can be caused by smoking for 1996-97 through to 2005-06.

Relative risks of diseases for current and ex-smokers are not available at SHA level, so analysis estimating the numbers of smoking-attributable FCEs at SHA level cannot be provided.

Table 1 National health service[1] finished consultant episodes (FCEs)[2] in England where there was a primary diagnosis[3] of diseases that can be caused by smoking, 1996-97 to 2005-06[4,5], in England

		Finished Consultant Episodes

Spontaneous abortion	O03	41,354	43,609	43,425	44,053	46,200

[1] The data include private patients in the NHS (but not private patients in private hospitals).
[2] The data refers to Finished Consultant Episodes (FCE). An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
[3] The primary diagnosis is the first of up to 14 (7 prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
[4] The figures include people whose gender was not known or not specified.
[5] Figures shown are based on all ages.

[1] The data include private patients in the NHS (but not private patients in private hospitals).
[2] The data refers to Finished Consultant Episodes (FCE). An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
[3] The primary diagnosis is the first of up to 14 (7 prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in [4] The figures include people whose gender was not known or not specified.
[5] Figures shown are based on all ages.

Hospital Episode Statistics. The Information Centre, 2006

Smoking: Public Expenditure

Sandra Gidley: To ask the Secretary of State for Health what measures his Department has put in place to monitor the spending by local authorities of money allocated by his Department to enforce the smoking ban. [153629]

Dawn Primarolo: I refer the hon. Member to the answer given on 17 April 2007, *Official Report*, column 590W.

Surgery

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* in-patient and *(b)* day case procedures were carried out (i) in England and (ii) in each strategic health authority area (A) for both elective and non-elective procedures and (B) for elective procedures only in each year since 1997-98; and what percentage of day cases each category represented of the total case procedures delivered in each strategic health authority area in the latest year for which figures are available. [149486]

Mr. Bradshaw: Information has been placed in the Library.

Vaccination: Aluminium

Tim Loughton: To ask the Secretary of State for Health (1) what levels of aluminium are contained in each vaccine provided to children; and if he will make a statement; [152765]

(2) what assessment he has made of the safe levels of aluminium in vaccines routinely provided to *(a)* babies and *(b)* children. [152766]

Dawn Primarolo: Aluminium salts are an essential ingredient of some vaccines in enhancing the protection offered by the vaccine. The safety record of aluminium in vaccines has been demonstrated over more than 50 years of use. There are no serious health risks associated with the small quantities of aluminium in some vaccines. As with many vaccine ingredients, aluminium can cause localised reactions such as redness, swelling and/or tenderness at the injection site.

The information on levels of aluminium in childhood vaccines is in the following table.

Childhood vaccines aluminium content

			Aluminium content	
PL number	*Vaccine (disease)*	*Formulation*	*SPC (2)**	*Label*
00011/0245	Meningitec Vial (Meningitis C)	Aluminium phosphate 0.5mg per 0.5ml	0.125mg Al^{3+}	Aluminium phosphate 0.125mg Al^{3+}
00116/0351	Neisvac-C (Meningitis C)	Aluminium hydroxide 0.5mg per 0.5ml	Aluminium hydroxide hydrated 0.5mg Al^{3+}	Aluminium hydroxide hydrated 0.5mg Al^{3+}
06745/0076	M-M-R II vaccine injection (Measles, Mumps and Rubella)	None present	n/a	n/a
06745/0120	Pediacel injection (Diphtheria, tetanus, pertussis, polio and haemophilius influenzae type b (Hib))	Aluminium phosphate 1.5mg per 0.5ml	0.33±0.05mg Al^{3+} calculated	Aluminium phosphate
06745/0121	Repevax injection (Diphtheria, tetanus, pertussis, polio)	Aluminium phosphate 0.33mg per 0.5ml	0.33mg	Aluminium phosphate 0.33mg
06745/0122	Repevax injection (Diphtheria, tetanus, pertussis, polio)	Aluminium phosphate 0.33mg per 0.5ml	0.33mg	Not legible
06745/0123	Revaxis injection (Tetanus, diphtheria, polio)	Aluminium hydroxide 0.35mg per 0.5ml	Aluminium hydroxide 0.35mg	Not legible
10592/0110	Priorix vaccine injection (Measles, Mumps and Rubella)	None present	n/a	n/a
10592/0209	Infanrix IPV vaccine injection (Diphtheria, tetanus, pertussis, polio)	Aluminium oxide hydrated 0.5mg	0.5mg	Aluminium hydroxide
10592/0216	Infanrix-IPV-Hib vaccine (Diphtheria, tetanus, pertussis, polio, haemophilius influenzae type b (Hib))	Aluminium hydroxide 0.5mg per 0.5ml	Aluminium hydroxide hydrated 0.5mg Al^{3+}	Aluminium hydroxide
10592/0217	Menitorix (Haemophilius influenzae type b (Hib/(Meningitis C))	None present	n/a	n/a
13767/0013-14	Menjugate vaccine injection and aluminium hydroxide solvent (Meningitis C)	Aluminium hydroxide 1mg per 0.5ml	Not on sentinel aluminium hydroxide 0.3 to 0.4mg Al^{3+}	Not on sentinel
EU/1/../167/...	Prevenar (Pneumococcal)	Aluminium phosphate 0.5mg per 0.5ml	Aluminium phosphate 0.5mg	Aluminium phosphate 0.5mg

Taken from electronic Medicines Compendium (eMC)

Vaccination: Children

Tim Loughton: To ask the Secretary of State for Health if he will list the vaccines routinely given to *(a)* babies and *(b)* children. [152767]

Dawn Primarolo: The information required is in the following table.

Immunisation schedule

Age	*What is given*	*How it is given*
2 months old	Diphtheria, tetanus, pertussis (whooping cough), polio and *Haemophilus influenzae* type b (Hib) (DTaP/IPV/Hib)	One injection
	Pneumococcal infection (Pneumococcal conjugate vaccine, PCV)	One injection
3 months old	Diphtheria, tetanus, pertussis, polio and *Haemophilus influenzae* type b (Hib) (DTaP/IPV/Hib)	One injection
	Meningitis C (meningococcal group C) (MenC)	One injection
4 months old	Diphtheria, tetanus, pertussis, polio and *Haemophilus influenzas* type b (Hib) (DTaP/IPV/Hib)	One injection
	Meningitis C (meningococcal group C) (MenC)	One injection
	Pneumococcal infection (Pneumococcal conjugate vaccine, PCV)	One injection
Around 12 months old	*Haemophilus influenza* type b (Hib) and meningitis C (Hib/MenC)	One injection
Around 13 months old	Measles, mumps and rubella (German measles) (MMR)	One injection
	Pneumococcal infection (PCV)	One injection
3 years and 4 months to 5-years-old	Diphtheria, tetanus, pertussis (whooping cough) and polio (dTaP/IPV or DTaP/IPV)	One injection
	Measles, mumps and rubella (MMR)	One injection
13 to 18-years-old	Diphtheria, tetanus, polio (Td/IPV)	One injection

York Hospitals NHS Trust

Hugh Bayley: To ask the Secretary of State for Health pursuant to the answer of 13 December 2006, *Official Report*, column 1189W, on York Hospitals NHS Trust, how many finished consultant episodes there were in each specialty at York Hospitals NHS Trust in 2005-06; and if he will make a statement. [151618]

Mr. Bradshaw: The requested information is set out in the following table.

Count of Finished Consultant Episodes by Main Specialty for provider code RCB 'York Hospitals NHS Trust' for 2005-06

Main specialty	*Main specialty description*	*FCEs*
100	General Surgery	9,512
101	Urology	6,244
110	Trauma and Orthopaedics	5,371
120	Ear, Nose and Throat (ENT)	2,181
130	Ophthalmology	3,509
140	Oral Surgery	1,574
180	Accident and Emergency	1,693
190	Anaesthetics	2,018
300	General Medicine	20,389
303	Clinical Haematology	1,206
330	Dermatology	26
370	Medical Oncology	225
400	Neurology	468
410	Rheumatology	568
420	Paediatrics	4,835
430	Geriatric Medicine	9,193
502	Gynaecology	9,199
560	Midwife episode	2,998
810	Radiology	*
822	Chemical Pathology	376

Notes:
1. Finished Consultant Episode (FCE)
An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Main Specialty
The main specialty refers to the specialty under which the consultant is contracted.
3. Specialty
Care is needed when analysing Hospital Episode Statistics (HES) data by specialty, or by groups of specialties (such as acute). Trusts have different ways of managing specialties and attributing codes so it is better to analyse by specific diagnoses, operations or other recorded information.
4. Low Numbers
Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with '*'(an asterisk).
5. Data Quality
HES are compiled from data sent by over 300 national health service trusts and primary care trusts in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
6. Ungrossed Data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).
Source: HES, The Information Centre for Health and Social Care.

Hugh Bayley: To ask the Secretary of State for Health what the *(a)* average and *(b)* maximum waiting time for (i) in-patient and (ii) day case admissions was at York Hospitals NHS Trust for the quarters ending (1) December 2006, (2) March 2007 and (3) June 2007. [151619]

Mr. Bradshaw: The requested information is show in the following table.

	Day case/ inpatient	*Median wait*	*Maximum wait*
December 2006	Day case	8.5 weeks	25 to <26 weeks
December 2006	Inpatient	7.8 weeks	25 to <26 weeks
March 2007	Day case	6.7 weeks	19 to <20 weeks
March 2007	Inpatient	6.5 weeks	19 to <20 weeks

Source:
Department of Health, NHS Finance, Performance and Operations.

Westmoreland General Hospital

Tim Farron: To ask the Secretary of State for Health (1) if he will consider upgrading Westmorland General Hospital to full district general hospital status; [152872]

(2) if he will consider supporting the provision of full consultant-led acute admissions services at Westmorland General Hospital. [152873]

Ann Keen: It is the responsibility of primary care trusts (PCTs) locally to plan and commission services to meet the needs of its residents and in line with the resources available.

Proposals relating to the Westmorland General Hospital, which is managed by the University Hospitals of Morecambe Hospital Trust, were consulted on between June and September 2006. The preferred option has since been subject to further work and will now be taken forward as part of the Cumbria whole systems review. Consultation is due to begin in September.

Written Answers to Questions

Thursday 26 July 2007

CHILDREN, SCHOOLS AND FAMILIES

Parental Separation

6. **Mr. Harper**: To ask the Secretary of State for Children, Schools and Families what plans his Department has for ensuring the provision of information and guidance for families where parents have separated. [152583]

Kevin Brennan: In March 2006, we published the 'Parenting Plan'. This easily accessible guide for separating parents helps them work out the best possible arrangements for their children, whether or not they then make court applications. CAFCASS distributes the plans, and it provides further information and support to those families involved in family court proceedings. From September 2007, the Legal Services Commission will be testing demand for giving advice over the telephone to people experiencing relationship breakdown.

Admissions

7. **Mr. Hands:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of the school admissions code, with particular reference to places offered for academic year 2007-08. [152585]

Jim Knight: Admission arrangements for 2007-08 were determined before the School Admissions Code came into force, but those for 2008-09 will have been determined in accordance with the new code.

However, the code does require all local authorities to have protocols in place from September 2007, to ensure that all unplaced children and late applicants, including some of our most vulnerable, are offered a place at a suitable school as quickly as possible.

Youth Services

9. **John Austin:** To ask the Secretary of State for Children, Schools and Families what plans he has for expenditure on youth services in Greenwich and Bexley. [152588]

Beverley Hughes: It is for each local authority to decide how much to spend on the provision of youth services. They have the freedom to decide the best way of delivering while taking account of Government policy, local priorities and the resources available. The Government do not set a limit on the amount of funding that can be spent from the resources available.

Sure Start

10. **Dr. Kumar:** To ask the Secretary of State for Children, Schools and Families what recent progress has been made on Sure Start programmes. [152589]

Kevin Brennan: 1,355 Sure Start Children's Centres are now providing integrated services to over one million children under five. We are on track to meet our target of delivering 2,500 centres by 2008. By 2010 there will be at least 3,500 centres serving every community in England, making a vital contribution to our objective of improving outcomes for young children and bringing an end to child poverty.

School Transport: Kettering

11. **Mr. Hollobone:** To ask the Secretary of State for Children, Schools and Families if he will revise departmental guidelines to local education authorities so that the school bus service from Burton Latimer to Latimer Community Arts College in Barton Seagrave, Kettering can be maintained. [152590]

Jim Knight: There are no plans to revise the guidelines to local authorities in relation to school bus provision as the statutory requirements are set out in the Education and Inspections Act 2006. However, from September 2008 any children from low income families who wish to attend Latimer community arts college will have to have free transport provided if it is one of the three nearest qualifying schools to their home and the journey to school is between two and six miles in length.

Family Policy

13. **Ann Winterton:** To ask the Secretary of State for Children, Schools and Families what steps he plans to take to develop a cross-government strategy on families policy; and if he will make a statement. [152592]

Beverley Hughes: On 29 June 2007, this Government published "Machinery of Government: Departmental Organisation". It announced our intention to develop a cross-Government strategy on family policy covering both services that support families directly and those that deal with issues of family dysfunction and breakdown. This strategy will be led by the Department for Children, Schools and Families. Its aim will be to ensure consistent policy across Government that works together in the best interests of the child.

Children in Care

Mark Pritchard: To ask the Secretary of State for Children, Schools and Families what steps he is taking to improve the educational achievement of children in local authority care. [152591]

Kevin Brennan: 'Care Matters: Time for Change' sets out an ambitious agenda for improving the lives of children in care, with an additional investment of over £305 million. It includes proposals to improve the education of children in care through a £500 educational allowance for each child in care falling

behind at school; putting the 'designated teacher' on a statutory footing to improve provision in schools; appointing 'virtual school heads' to oversee their education; an extra £100 paid into their child trust fund for every year a child is in care; and a £2,000 university bursary.

Fathers

Miss McIntosh: To ask the Secretary of State for Children, Schools and Families if he will bring forward proposals to promote the involvement of fathers in decisions on educating their children; and if he will make a statement. [152587]

Beverley Hughes: We recognise that a father's involvement in their child's life can lead to positive educational achievement and emotional well-being. We are committed to enabling fathers and mothers (whether or not they live with the child) to be involved with their children's education—and our guidance to schools is clear on this. More widely, my Department is currently leading a drive to look at how services across Government can engage with fathers more effectively.

Academies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families, pursuant to the answer of 17 July 2007, *Official Report*, columns 288-90W, on academies, what the contribution from private investors was to each academy's capital costs; and if he will make a statement. [151946]

Jim Knight: Sponsorship in the form of contributions from private investors was provided for the first Academies in the form of a financial contribution towards the capital cost of buildings. The amount of sponsorship pledged to each Academy, as recorded in its funding agreement where one has been signed, is set out in the table below together with the actual or estimated capital cost of buildings. The following table does not include academies where a sponsor will contribute to capital costs but the funding agreement has not been signed and consequently the sponsorship amount has not been formalised.

We have now changed the sponsorship model and sponsors will now, in most cases, establish an endowment fund.

Academy with signed funding agreement	*Cost*	*£000 Total sponsorship pledged*
Manchester	19,786	2,000
Lambeth	25,445	2,000
Northampton	27,358	2,000
Paddington	31,523	1,500
[illegible]rd	16,704	1,600

Macmillan	13,035	1,250
Djanogly	23,660	0
St Matthew Lewisham	30,856	2,000
Enfield	29,296	2,000
Slough Langley	31,527	2,000
Leigh Technology	36,590	2,000
St. Mary Magdalene—Islington	40,022	2,000
Bristol—Withywood	29,200	2,000
Newcastle Excelsior	37,883	2,000
Corby City	27,109	2,000
Ashcroft Technology	12,928	960
Landau Forte College	4,600	460

[1] Costs not yet established

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 17 July 2007, *Official Report*, columns 288-90W, on academies, what the *(a)* start date for building and *(b)* opening date or expected opening date is of each academy; and if he will make a statement. [151948]

Jim Knight: Academies are run by charitable trusts. Academy trusts are responsible for managing the building projects for academies approved before 23 March 2006, when it was announced that Partnerships for Schools (PfS) would take on responsibility for the academies

buildings programme. The Department does not keep central records of the start dates for buildings where the construction was managed by academy trusts.

The start date for each building project delivered by PfS will be agreed during the contractual negotiations with the selected contractor. None of the academy building projects that PfS are delivering have yet reached this stage.

As a planning assumption, the average length of the construction period for an academy building is taken to be 18 months.

The opening dates or expected opening dates for academies are given in the following table.

Where there is an urgent educational need, some academies begin life in the predecessor school buildings. The first 47 academies on this list are open, expected opening dates are given for the rest of the academies on the list.

	Academy name	*Opening date or expected opening date*
1	Bexley Business Academy	September 2002
2	Greig City Academy	September 2002
3	Unity City Academy	September 2002
4	Walsall City Academy	September 2003
5	Capital City Academy	September 2003
6	King's Academy	September 2003
7	The West London Academy	September 2003
8	Djanogly City Academy	September 2003
9	The Academy at Peckham	September 2003

Academies: Accounts

Ms Buck: To ask the Secretary of State for Children, Schools and Families whether *(a)* members of local governing bodies and *(b)* parents are entitled to ask to inspect the financial accounts of academy schools. [151707]

Jim Knight: Academies are charitable companies, and therefore must prepare and file annual accounts with the Charity Commission. Academies are also required to prepare an annual report for the Charity Commissioners, and ensure that their accounts are independently audited. All accounts are available from the Charity Commission's website at:

http://www.charity-commission.gov.uk/

Academies: Capital Investment

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of capital investment on schools was accounted for by capital investment in academies in each year from 2001-02 to 2006-07; what proportion is planned to be so accounted for in each year from 2007-08 to 2015-16 for which plans have been made; and if he will make a statement. [151881]

Jim Knight: The following table details the capital provision for academies as a proportion of the corresponding figure for all schools, where such provision is known.

Budgets for subsequent years will depend on the final allocation of the Department's current and future Comprehensive Spending Review settlements.

	All schools	Academies (£ million)	Academies as a proportion of all schools (%)
2001-02[1]	[1]2,409.0	4.2	0.2
2002-03[1]	[1]3,483.0	61.8	1.8
2003-04[1]	[1]4,144.0	130.3	3.1
2004-05[1]	[1]4,861.0	222.1	4.6
2005-06[1]	[1]5,262.0	251.7	4.8
2006-07[2]	[1]4,984.0	385.7	7.7
2007-08[3]	[3]6,320.0	517.0	8.2

[1] Actual outturn
[2] Estimated outturn
[3] Current baseline

Academies: Curriculum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what changes there have been since 1 January 2007 in the freedoms enjoyed by academies in relation to the curriculum; and if he will make a statement. [151937]

Jim Knight: In his statement to the House of 10 July 2007, the Secretary of State for Children, Schools and Families announced that all future funding agreements will require Academies to follow the National Curriculum Programmes of Study in English, Maths, Science and ICT.

The Department will not seek to change the curriculum requirements of Academies which have Funding Agreements already, but we would welcome any move by Academy Trusts to voluntarily adopt the new clause. Five Academies which are planned to open in September 2007 have already agreed that they will either sign or amend their existing Funding Agreements to incorporate these changes.

Academies: Governing Bodies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families from what date academies were required to have one elected parent governor and one governor appointed by the local authority; and if he will make a statement. [151990]

Jim Knight: All Academy governing bodies have been required to include a parent governor and a local authority governor since the first Academies were opened in September 2002. This is incorporated in their Memorandum and Articles of Association which forms part of their Funding Agreement.

Academies: Local Authorities

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many academies have been co-sponsored by local authorities; and if he will make a statement. [149929]

Jim Knight: The Department welcomes and values the input and influence of local authorities in academy projects as partners and/or co-sponsors. 20 academies have been co-sponsored by local authorities to date.

Academies: Sponsorship

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what total sponsorship each academy *(a)* has received to date and *(b)* has had pledged; and if he will make a statement. [150910]

Jim Knight: Sponsorship for the first academies was provided in the form of a financial contribution towards the capital cost of buildings. However, we have changed the sponsorship model and sponsors will now, in most cases, establish an endowment fund. To date, only one open academy, St. Mark's Academy in Merton, has this form of sponsorship. The amount of sponsorship pledged to each academy and recorded in their funding agreement is set out in the following table. The total sponsorship contribution is broken down and

made to academy trusts in instalments to pay invoices over the lifetime of the building project. Trusts submit the invoices to the Department to confirm that sponsorship has been paid and used in accordance with funding agreements. In many instances, the invoices sent to the Department to confirm the capital contribution by the sponsor, also shown in the following table, do not keep pace with the actual payments made by the sponsor to the trust. If confirmation of the sponsor's capital contribution falls significantly behind the expected payment profile, officials approach academy trusts direct seeking explanations for apparent shortfalls, with a view to regularising the position.

£000

Academy with signed funding agreement	*Total sponsorship pledged*	*Total confirmed capital contribution from sponsor to end of June 2007*

[1] £2 million sponsorship to be invested in endowment fund as opposed to towards capital costs.
[2] None due to be paid up to end June 2007.
[3] Amount paid up to end June 2007 in accordance with the agreed pattern of instalments.
[4] Instalment plan to be revised pending re-schedule of building works.
[5] In discussion with trust with a view to agreeing payment later this year.

Adoption: Finance

Daniel Kawczynski: To ask the Secretary of State for Children, Schools and Families what plans he has to unify funding streams for the provision of post-adoptive care. [147796]

Kevin Brennan: A ring-fenced grant totalling nearly £70 million was made available to local authorities between 2003-04 and 2005-06 to help them meet their duties in relation to the provision of adoption support and special guardianship support services under the Adoption and Children Act 2002. This grant has now been mainstreamed into the Children's Services Grant.

Bishops Park College: Clacton

Mr. Carswell: To ask the Secretary of State for Children, Schools and Families (1) what his Department's involvement was in the decision to build Bishops Park College in Clacton; and if he will make a statement; [152739]

(2) whether Bishops Park College in Clacton was built as part of the Government's Building Schools for the Future programme. [152740]

Jim Knight: Building Schools for the Future (BSF) is a core part of the Department's capital strategy, providing a new approach to capital investment in secondary schools. The programme was launched in 2004 and the first school opened in 2006.

Bishops Park College, Clacton, was not built as part of BSF. The school opened in 2002 in temporary accommodation and moved to new buildings, funded through the Private Finance Initiative (PFI), in 2005.

Local authorities are responsible for planning provision in their areas. The Secretary of State had no role in deciding the proposals to establish this school. However, as with other schools PFI projects, the Department did review and approve Essex County Council's bid for this project in 2000, the outline business case in 2001, and the final business case in 2003.

The original expression of interest was assessed by officials against the published criteria at the time. These criteria included the sufficiency, condition and suitability of existing facilities, wider Departmental priorities and initiatives, and wider Government priorities and objectives. The project was prioritised for funding on this basis, but it remained the local authority's responsibility to develop the project and demonstrate its viability.

Children and Family Court Advisory and Support Service

Philip Davies: To ask the Secretary of State for Children, Schools and Families (1) what average length of time was taken for preparation of the Children and Family Court Advisory and Support Service welfare reports in each of the last five years; [150001]

(2) how many people were employed by the Children and Family Court Advisory and Support Service in each of the last five years; [150002]

(3) how many cases were dealt with by the Children and Family Court Advisory and Support Service in each of the last five years. [150003]

Kevin Brennan: These are matters for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the Chief Executive, has written to the hon. Member with this information and a copy of his letter has been placed in the House Library.

Letter from Anthony Douglas, dated 25 July 2007:

I am writing to you in response to the three Parliamentary Questions that you tabled recently:

15001—To ask the Secretary of State for Children, Schools and Families, what average length of time was taken for preparation of the Children and Family Court Advisory and Support Service welfare reports in each of the last five years.

In 2006/07 the average public law case duration was 43 weeks and the average private law report duration was 17 weeks. This was the first year CAFCASS could collect these figures, following the introduction of our national case management system. Prior to this, the pre-CAFCASS legacy systems prevented us being able to arrive at a robust national figure.

150002—To ask the Secretary of State for Children, Schools and Families, how many people were employed by the Children and Family Court Advisory and Support Service in each of the last five years.

The table below details the number of staff Cafcass has employed over the last 5 years.

	All staff		*Practitioners*	
Date	*Headcount*	*Full Time Equivalent*	*Headcount*	*Full Time Equivalent*
1 April 2002	1,720	1,488	1,136	1,022
1 April 2003	1,879	1,659	1,291	1,163
1 April 2004	1,932	1,758	1,303	1,186
1 April 2005	2,060	1,801	1,327	1,210
1 April 2006	2,051	1,724	1,243	1,137
1 April 2007	2,006	1,704	1,216	1,109

150003—To ask the Secretary of State for Children, Schools and Families, how many cases were dealt with by the Children and Family Court Advisory and Support Service in each of the last five years.

The table below details the Cafcass workload over in the last 5 years, for the major categories of referral. The table demonstrates the steady rise in public law care cases, and the steady decrease in private law reports, strongly linked to the expansion of our dispute resolution services.

	Year				
Category	*2002/03*	*2003/04*	*2004/05*	*2005/06*	*2006/07*
Public Law Care cases	6,394	6,036	6,316	6,613	6,791
Public Law Other cases	6,708	6,485	6,124	6,162	5,313
Private Law reports	35,074	31,048	28,166	26,144	23,942
Family Assistance Orders	503	522	530	645	351
Rule 9.5 cases	[1]—	526	1,078	1,035	1,206
Dispute Resolutions Hours	[1]—	35,339	34,988	43,322	57,880

[1] Scheme not yet in place

The above figures cannot be totalled as some of the categories use different measurements. The figures for Public Law Care and Public Law Other are counted as cases, Private Law figures are counted as reports (of which there can be many per case), and Dispute Resolution figures are counted in practitioner hours. Also included are counts of Family Assistance Order and Rule 9.5 cases. The figures have been grouped together in a table to provide an overview of Cafcass work for the past 5 years.

A copy of this reply will be placed in the House Library.

Children and Family Court Advisory and Support Service: Manpower

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what the ratio of staff to cases in *(a)* public and *(b)* private law is at the Children and Family Court Advisory and Support Service; [149752]

(2) by what means the Children and Family Court Advisory and Support Service monitors the effectiveness of its interventions. [149749]

Kevin Brennan: These are matters for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the chief executive, will write to the hon. Member with this information and a copy of his letter will be placed in the House Library.

Letter from Anthony Douglas, dated 20 July 2007:

I am writing to you in response to the two Parliamentary Questions that you tabled recently.

149742—To ask the Secretary of State for Children, Schools and Families, what the ratio of staff to cases in (a) public and (b) private law is at the Children and Family Court Advisory and Support Service.

Cafcass does not categorise practitioners in this way. All Cafcass practitioners are qualified to work on both public and private law cases and, because of variations in demand in any local area at any given point in time, this is essential to ensure capacity to cover all types of cases. Local demand can vary by up to 20% in any type of case in a year. We are developing new services such as duty schemes, and extending our dispute resolution (DR) schemes, evidenced by the increase in DR hours during 2006/07: a rise in 33.6%. Currently Cafcass has 1340 employed practitioners who may complete either around 55 private law cases a year, or around 12 public law cases or work on dispute resolution or extended dispute resolution which we measure in hours worked. In addition Cafcass has access to self-employed contractors and staff registered on a bank scheme. These are used as budget permits to cover peaks in referrals.

149749—To ask the Secretary of State for Children, Schools and Families, by what means the Children and Family Court Advisory and Support Service monitors the effectiveness of its interventions.

Cafcass has a quality assurance system in which we assure all aspects of our work on an ongoing basis. We have recently implemented a new electronic case management system, which will help to track cases if they return to court. We are monitoring the effectiveness of our dispute resolution work by tracking how many of our dispute resolution interventions result in partial or complete agreement being reached or are referred for section 7 reports. Based on a sample of Feb/March 2007 data, only 20.7 % of section 8 referred for dispute resolution were not resolved at least in part and referred for a section 7 report.

Feedback from Service users is part of our quality assurance system and helps us to know how effective our interventions have been. Cafcass relies on a mixture of service user (including children) feedback and external research. Over 250 children have used our online feedback system and reported very high satisfaction rates. All work is quality assured to ensure that it is of a good standard and meets Cafcass National Standards and Cafcass policies. Practitioners also receive one to one supervision from their line manager and an annual appraisal.

A copy of this reply will be placed in the House Library.

Children: Adoption

Daniel Kawczynski: To ask the Secretary of State for Children, Schools and Families what plans he has to simplify the system for the provision of care for adopted children with learning, behavioural or mental problems. [147795]

Kevin Brennan: The Adoption Support Services Regulations 2005 require local authorities to make a range of adoption support services available in their area to meet the needs of people affected by adoption.

Adoption support services include: financial support; discussion groups; assistance in relation to contact (including mediation services); therapeutic services for adoptive children; assistance to maintain the relationship between an adoptive child and his adoptive parent (including training for adoptive parents to meet any special needs of the child and respite care); assistance where disruption has occurred, or is in danger of occurring; and counselling, advice and information.

In addition, local authorities are required to appoint an Adoption Support Services Adviser (ASSA). The role of the adviser is to give advice and information to those affected by adoption regarding the services that are available within their area and how those services can be accessed.

There are no current plans to change these arrangements.

Class Sizes: York

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the average pupil-to-teacher ratio in *(a)* primary and *(b)* secondary schools in York was in each year since 2004. [152192]

Jim Knight: The following table provides pupil:teacher ratios in local authority maintained primary and secondary schools in York local authority, January 2004 to 2006.

Pupil: teacher ratios in local authority maintained primary and secondary schools in York local authority, January 2004 to 2006

As of January:	*Primary*	*Secondary*
2004	22.7	16.0
2005	23.0	15.6
2006	21.7	15.9

Note:
PTRs are calculated by dividing the total FTE number of pupils on roll in schools by the total FTE number of qualified teachers regularly employed in schools.
Source:
DCSF School Census.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families whether *(a)* his Department and its predecessor and *(b)* its agencies have made payments to Flint Bishop solicitors since 1997. [151378]

Kevin Brennan: I can confirm that the Department for Children, Schools and Families and its predecessor the Department for Education and Skills have no record of any payments to Flint Bishop solicitors during the last seven years. The Department does not hold data prior to financial year 1999-2000.

The Department does not have any Executive Agencies.

Departments: Personnel

David Simpson: To ask the Secretary of State for Children, Schools and Families how many staff in his Department did not achieve an acceptable mark in their annual report in 2006-07. [146916]

Kevin Brennan: The Department places the same key priority to managing the performance of our people as the former DfES, and have the same robust mechanisms to ensure that we do so.

In 2006-07, there were two performance categories for DfES staff whose performance was not deemed to be at an acceptable level and therefore an improvement plan or management action was required. In total, there were 111 staff who met this criteria in 2006-07, this equated to 3 per cent. of our work force.

Departments: Sick Leave

David Simpson: To ask the Secretary of State for Children, Schools and Families what percentage of sick leave taken by staff in his Department was stress-related in each of the last three years. [145973]

Kevin Brennan: The information is set out in the following table.

	Percentage stress related sick leave
2006/07	14
2005	10
2004	11

The information for 2004 and 2005 is in calendar years whereas 2006/07 is by financial year.

The Department remains committed, like the former DfES, to providing a safe working environment and has put in place a range of measures to support managers and employees on health and wellbeing issues, including the provision of professional counselling, awareness sessions and support from the Department's Employee Assistance Provider, Right Corecare. This is complemented by internal procedures aimed at ensuring consistent standards of behaviour and enabling fair and prompt mediation in the event of any grievance.

The Department will be launching a new Stress Prevention Policy, based on the Health and Safety Executive's (HSE) Management Standards in the near future. The policy has been designed to support individuals and their managers, signposting them to appropriate sources of help. In addition to this the Department has piloted the HSE Stress Questionnaire in one Division and conducted Individual Stress Risk Assessments for employees who require them.

Further Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of the *(a)* number and *(b)* proportion of (i) 17-year-olds, (ii) 18-year-olds and (iii) 16-year-olds who are not in education or training; and if he will make a statement. [151825]

Jim Knight: The figures provided in the table are for individuals at academic age 16, 17 and 18[1] who were estimated to be not in education or training (NET) in 2006.

[1] Academic age is the age of the individual measured at the beginning of the academic year, 31 August.

Age	*16*	*17*	*18*
Total NET	68,500	121,900	264,200
Proportion NET (%)	10.3	18.5	38.9
Population	662,300	659,500	679,800

These NET figures are calculated by subtracting the number of young people estimated to be in education and training from the population; here education and training covers those in full- or part-time education, work-based learning (including apprenticeships), and those on employer funded or other education and training not otherwise included in the figures.

These figures are available in the Statistical First Release published by the Department in SFR 22/2007, please see the following web link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/sfr22_2007.pdf.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what duties will be placed on *(a)* parents and *(b)* employers to ensure that all those under the age of 18 years are in education or training; and if he will make a statement. [151867]

Jim Knight: In the Green Paper Raising Expectations: staying in education and training post-16 we did not propose that any specific duties be placed on parents. Employers have an existing obligation to release employees requesting time off for training in certain circumstances. If the participation age is extended, we proposed that where employers do not want to or are unable to offer training themselves; they would be required to release their employees for a day a week to undertake training elsewhere. These proposals can be accessed at:

http://www.dfes.gov.uk/consultations/downloadableDocs/6965-DfES-Raising%20Expectations%20Green%20Paper.pdf.

We intend to publish proposals in the autumn and will of course place copies in the House Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what sanctions will be used against parents who fail to take reasonable steps to ensure that their children participate in education or training up to the age 18 years; and if he will make a statement. [151868]

Jim Knight: In the Green Paper we said that we would expect parents to encourage and facilitate their child's participation, and if there is evidence that a parent of a young person is helping them break the law (for example, by employing a 16 or 17-year-old full-time in a family business without accredited training), it should be possible to hold them accountable as well. These proposals can be accessed at:

http://www.dfes.gov.uk/consultations/downloadableDocs/6965-DfES-Raising%20Expectations%20Green%20Paper.pdf.

We intend to publish proposals in the autumn and will of course place copies in the House Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what inspection and enforcement powers will be granted in order to impose an obligation for all those aged up to 18 years to be in education or training; and if he will make a statement. [151869]

Jim Knight: In the Green Paper we proposed that, if a young person continued to refuse to participate, despite the efforts of providers and the local authority to help and support them onto a programme of

learning, they could be issued with a new type of civil order called an Attendance Order. The process of issuing an Attendance Order would be initiated by the local authority. The Attendance Order would specify exactly what was expected of a young person. We proposed two options for ensuring that if Attendance Orders are made they are followed: that criminal sanctions be pursued, or civil/administrative ones. These proposals can be accessed at:

http://www.dfes.gov.uk/consultations/downloadableDocs/6965-DfES-Raising%20Expectations%20Green%20Paper.pdf.

We intend to publish proposals in the autumn and will of course place copies in the House Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what representations he has received from business groups on raising to 18 years the minimum age at which young people can leave education or training. [151870]

Jim Knight: In response our consultation, we have received written responses from the following business groups:

Apprenticeship Ambassador Network, Association of Accounting Technicians, The British Chambers of Commerce, Confederation of British Industry, Confederation of West Midlands Chambers of Commerce and Industry, DCL Consulting Ltd, EEF, E-skills UK, Federation of Small Businesses, Four S Consultancy, Glass Training Ltd, IGEN, Ignite Futures Ltd, Institute of Directors, Institution of Mechanical Engineers, Lantra, Learning Etc, LLUK, MCCH Society Ltd, Macro, NETA Ltd, Nissan Motor Manufacturing (UK) Ltd, SEMTA, SkillsActive, Skillsmart Retail, Small Business Council, Sysco Business Skills Academy Ltd, Tesco.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the *(a)* costs and *(b)* benefits of raising to 18 years the minimum age at which young people can leave education or training; and if he will make a statement. [151871]

Jim Knight: I refer the hon. Member to the reply given on 17 July 2007, *Official Report*, column 303W.

Further Education: Great Yarmouth

Mr. Anthony Wright: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in Great Yarmouth went on to further education in *(a)* 1997 and *(b)* 2007. [151961]

Jim Knight: The data published by the Department on participation figures in education, training and employment by 16-18 year olds in England does not include details on Great Yarmouth, but does include data at a higher level of aggregation for the Norfolk local education authority. These figures are presented in the following table for individuals at academic age 16[1] who participated in education in 1997 and 2005.

[1] Academic age is the age of the individual measured at the beginning of the academic year, 31 August.

Local authority figures only contain estimates for the end of 2005 as the provisional Further Education Institution data is not robust enough at the local level to allow accurate reporting. The end of 2006 local authority data will be published in 2008.

	Full-time education							*Total*	
	Maintained schools[1]	*Independent schools*[2]	*Sixth form college*	*Other FE*[3]	*Total*	*WBL*	*Part-time education*	*Education and WBL*[4]	*Population*
Number, 1997	2,700	500	600	2,500	6,400	800	600	7,400	9,000
Percentage, 1997	30	5	7	27	69	8	6	80	—
Number, 2005 (provisional)	2,800	400	800	3,000	7,100	600	500	8,200	9,700
Percentage, 2005 (provisional)	29	5	9	31	73	6	5	85	—

[1] Includes all pupils in maintained schools and maintained special schools.
[2] Includes all pupils in independent schools, non-maintained special schools, city technology colleges, academies and pupil referral units.
[3] Includes all learners in General FE, tertiary and specialist colleges (e.g. agriculture colleges).
[4] Total of all full-time and part-time education and WBL, less WBL provision in education institutions.

These figures are available in the Statistical First Release published by the Department in SFR 22/2007, please see the following web link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/sfr22_2007.pdf.

General Certificate of Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of GCSE entries from *(a)* independent schools and *(b)* state schools scored an A* or A grade in each year since 1990-91. [150678]

Jim Knight: The information requested can be provided only at a disproportionate cost.

General Certificate of Secondary Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what average mark was necessary to secure an *(a)* A* grade, *(b)* A grade, *(c)* B grade and *(d)* C grade in GCSE (i) English, (ii) mathematics, (iii) physics, (iv) history, (v) geography, (vi) French, (vi) Latin and (vii) chemistry in each year since 1991-92. [150679]

Jim Knight: This information is not held centrally.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families in what proportion of English secondary schools less than *(a)* 50 per cent., *(b)* 40 per cent., *(c)* 30 per cent., *(d)* 20 per cent., *(e)* 10 per cent.

and *(f)* 5 per cent. of pupils received five GCSEs at A*-C in the last period for which figures are available; and if he will make a statement. [150751]

Jim Knight: The number of maintained mainstream schools where less than *(a)* 50 per cent. *(b)* 40 per cent. *(c)* 30 per cent. and *(d)* 20 per cent. of pupils received five GCSEs at grades A*-C is available in Table 7 of the Statistical First Release:

GCSE and Equivalent Examination Results in England 2005/06.

Number of maintained mainstream schools[1] by percentage of 15-year-old pupils[2] achieving 5+ A-C at GCSE and equivalents*

School type	Total number of schools	Percentage of pupils achieving 5+ A*-C grades at GCSE and 0-14	15-19	20-24	25-29	30-39	40-49
All maintained mainstream schools[1] 2005/06	3,072	7	8	32	87	353	588

[1] Including only those maintained mainstream schools with results published in the 2006 Achievement and Attainment tables.
[2] Age at start of academic year i.e. 31 August.

In 2006, there was one maintained mainstream school in which 0 per cent. of pupils achieved five or more GCSEs at grades A*-C at GCSE. This is the only school that falls into categories *(e)* less than 10 per cent. and *(f)* less than 5 per cent. This pupil only had three pupils aged 15[1].

[1] Aged 15 on the 31 August 2005.

National Council for Educational Excellence

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what the responsibilities are of the National Council for Educational Excellence; [149638]

(2) how members of the National Council for Educational Excellence were selected; [149640]

(3) what the budget is for the National Council for Educational Excellence; [149641]

(4) what steps the National Council for Educational Excellence will take to promote educational excellence. [149642]

Jim Knight: The National Council for Educational Excellence (NCEE) has a remit to provide advice to the Prime Minister and Secretary of State for Children, Schools and Families about strategy and measures to achieve world-class education performance for all children and young people from birth to age 19.

The council is focused on providing advice and mobilising all sectors to provide the support to increase standards. Council members will act as advocates and champions to transform expectations and aspirations for the education system, and to rally the teaching profession, businesses, the third sector, universities and colleges, schools, and parents to raise standards year on year.

The Government will work with the council to mobilise the nation's energies, and to consider how the council's advice could be implemented. The council currently has a team of three members of staff within the Department for Children, Schools and Families dedicated to providing secretariat support. The full monthly economic cost of those staff and other administrative costs associated with the council is approximately £26,300.

NCEE members were selected by the Prime Minister and Secretary of State on the basis of their professional experience, expertise, status and personal qualities. The council is a standing body with priorities, terms of reference and membership to be reviewed by the Prime Minister and the Secretary of State every year.

Primary Education: School Day

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what average number of hours *(a)* primary school age and *(b)* secondary school age pupils spent in school in each year since 1985-86; and what figure has been estimated for 2007-08. [150694]

Jim Knight: The information requested is not collected centrally.

Private Education: Special Educational Needs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of public spending on private education for children with special educational needs in each year since 1997-98; how much has been allocated for this purpose in 2007-08; and if he will make a statement. [150680]

Jim Knight: The requested information is provided in the following table:

	£
1999-2000	272,760,000
2000-01	287,821,000
2001-02	305,782,000
2002-03	309,646,000
2003-04	394,609,000
2004-05	441,977,000
2005-06	481,127,000
2006-07	506,920,000
2007-08[1]	552,694,000

[1] 2007-08 data is provisional and is therefore subject to change by the local authority.

Notes:

1. Includes all planned net expenditure on the payment of fees in respect of pupils with special educational needs at independent schools or non-maintained special schools. This includes any planned expenditure funded by the Learning and Skills Council (LSC) and, from 2006-07 onwards, SEN payments to Acadamies are also included within this line.
2. Figures are rounded to the nearest £1,000.

Source:

The data are drawn from local authorities Section 52 Budget Statements (Tables 1) submitted to the DfES. Data are not available prior to the inception of Section 52 for the 1999-2000 financial year.

Schools and Pupils: Offensive Weapons

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) what steps are being taken by the Government to reduce the number of students in possession of a weapon on school property; [151231]

(2) how many schools in each local education authority *(a)* have introduced and *(b)* plan to introduce metal detectors to search for weapons amongst pupils in each of the last 10 years, broken down by type of school. [151169]

Jim Knight: Knife incidents in schools in England are extremely rare. To help maintain that, we gave head teachers a power, from May 2007, to search a pupil without consent when, after screening with metal detectors or on other grounds, they suspect the presence of a weapon. This supports the efforts of the police to reduce crime by and against young people on the streets around schools and supplements initiatives by the Department for Children, Schools and Families on, for example, improving behaviour and learning about responsibility, conflict resolution and safety. We do not burden schools by asking them to report whether they do or will screen. We intend to continue taking the views of our Working Group on School Security on all aspects of screening and searching, in particular in order to review the statutory power to search after three years.

Pupils: Per Capita Funding

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the funding per pupil in *(a)* primary and *(b)* secondary schools in each English local education authority in the latest period for which figures are available. [150812]

Jim Knight: The revenue funding figures per pupil aged 3-10 and 11-15 for 2005-06 are provided in the following table. In 2006-07 the Dedicated Schools Grant (DSG) was introduced. As the DSG is a mechanism for distributing funding there is not a primary/secondary split available for 2006-07 onwards. These figures are in cash terms.

	Primary (3-10 year olds)	*Secondary (11-15 year olds)*
Barking and Dagenham	4,320	5,320
Barnet	4,230	5,190
Barnsley	3,760	4,700
Bath and North East Somerset	3,440	4,230

York	3,400	4,300

Notes:
1. Price Base: Cash
2. Figures reflect relevant sub-blocks of Standard Spending Assessment / Education Formula Spending (EFS) settlements. Figures include the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DCSF Departmental Expenditure Limits relevant to pupils aged 3-10 and 11-15 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest 10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of the average level of funding per pupil in *(a)* primary and *(b)* secondary schools; and what proportion of funding per pupil was delivered through local education authorities in each year since 1996-97. [150840]

Jim Knight: All revenue funding to pupils aged three to 19 has been delivered through local education authorities since 1996-97.

The revenue funding figures per pupil aged three to 10 and 11 to 15 for England for years 1997-98 to 2005-06 are provided in the following table. Comparable figures are not available for 1996-97.

	Primary (3 to10-year-olds)	Secondary (11 to 15-year-olds)
1997-98	2,480	3,390
1998-99	2,580	3,470
1999-2000	2,750	3,610
2000-01	2,990	3,900
2001-02	3,160	4,110
2002-03	3,250	4,210
2003-04	3,450	4,280
2004-05	3,550	4,450
2005-06	3,770	4,640

Notes:
1. Price Base: Real terms at 2005-06 prices, based on GDP deflators as at 27 September 2906.
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/ Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DCSF Departmental Expenditure Limits relevant to pupils aged three to 15 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert in figures to per pupil are those underlying the SSA/EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest 10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in the table below are taken from the Dedicated Schools Grant (DSG) which was introduced in April 2006 and are in cash terms. They are not comparable with those for the years 1997-98 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 1997-98 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable. An alternative time series is currently under development.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06; as described this does not represent the totality of 'education' funding in that year. As the DSG is just a mechanism for distributing funding there is not a primary/secondary split available. There are other grants that support the schools budget, these are not included in the provided DSG figures. The figures are for all funded pupils aged three to 15.

	Revenue per pupil[1]
DSG 2005-06	
Baseline	3,411
DSG 2006-07	3,643
DSG 2007-08	3,888

[1] In cash terms

Notes:

1. The revenue funding per pupil figures only run to 2005-06 because the Department cannot provide a consistent time series beyond that year as the introduction of the Dedicated Schools Grant (DSG) in 2006-07 fundamentally changed how local authorities are funded. The 1997-98 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In 2006-07 funding for schools changed with the introduction of the DSG which is based largely on an authority's previous spending.
2. In addition, DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. This means we have a break in our time series as the two sets of data are not comparable, an alternative time series is currently under development.
3. To provide a comparison for 2006-07 DSG, we have isolated the schools block equivalent funding in 2005-06; as described this does not represent the totality of 'education' funding in that year.
4. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

Mr. Anthony Wright: To ask the Secretary of State for Children, Schools and Families what the average amount spent on each school pupil was in (*a*) 1997 and (*b*) 2007. [151960]

Jim Knight: The requested information is contained in the following table:

School based expenditure per pupil[1, 2, 3, 4] and combined local authority and school based expenditure per pupil[5] 1997-98 and 2005-06[6, 7]

Cash terms figures[8] as reported by local authorities as at 19 July 2007.

	School based expenditure per pupil[1, 2, 3]						(6)
	Primary	*Pre-primary and primary[4]*	*Secondary*	*Special*	*Total (excluding pre-primary)[4]*	*Total (including pre-primary)[4]*	*Total combined local authority and school based expenditure per pupil[5]*
1997-98[6]	—	1,740	2,360	9,830	—	2,080	2,710
2005-06[3, 4, 7]	3,150	3,170	4,070	16,430	3,710	3,720	4,450

[1] 1999-2000 saw a change in data source when the data collection moved from the RO1 form collected by the ODPM to the Section 52 form from the DFES. 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) and the associated restructuring of the outturn tables.

[2] School based expenditure includes only expenditure incurred directly by local authority maintained schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure. The pupil data are drawn from the DFES Annual Schools Census adjusted to be on a financial year basis.

[3] The school based expenditure calculation for 2005-06 is broadly similar to the calculation in 1997-98. However, 1997-98 includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses whereas only the schools element of these categories is included in 2005-06. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002-03 onwards and hence would be excluded from the 2005-06 school based expenditure figures, though this is not quantifiable from existing sources.

[4] Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for the 1999-2000 financial year. Comparable figures for school based expenditure in local authority maintained nursery schools are not available from 2002-03 onwards and consequently direct comparisons should not be made between the pre-primary and primary figures and total (including pre-primary) figures for 1997-98 and 2005-06.

[5] Combined local authority and school based expenditure includes all expenditure on the education of children in local authority maintained establishments and pupils educated by the authority other than in maintained establishments. This includes both school based expenditure and all elements of central LA expenditure except youth and community and capital expenditure from revenue (CERA). Certain elements of central local authority expenditure cannot be attributed to a particular phase of education and consequently a sector breakdown is not available. Pupil figures include all pre-primary pupils, including those under fives funded by the authority and being educated in private settings, pupils educated in maintained mainstream schools and any other local authority maintained pupils. All pupil numbers are adjusted to be on a financial year basis.

[6] Spending in 1997-98 reflects the transfer of monies from local government to central government for the nursery vouchers scheme. These were returned to local government from 1998-99.

[7] Figures for 1999-2000 onwards reflect the return of GM schools to local authority maintenance.

[8] Figures are rounded to the nearest 10.

Pupils: Personal Records

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what information is held by *(a)* schools, *(b)* local education authorities and *(c)* the Government on the family circumstances of pupils; and if he will make a statement. [149152]

Jim Knight: It is for schools and local education authorities to decide what information they hold on the family circumstances of pupils. The Department holds information on all pupils in maintained schools on their eligibility for free school meals, and on which pupils are subject to a care order or accommodated by a local authority. There are also some research exercises which collect information on the family circumstances of a limited sample of pupils.

Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools appealed against their local education authority number on the basis of its being too *(a)* low and *(b)* high in each year since 1996-97; and what proportion of appeals was successful in each year. [150677]

Jim Knight: The information requested is not collected centrally.

Schools: Capital Expenditure

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much capital expenditure there was on schools in each local authority area in each year since 2003-04, excluding spending on academies; and if he will make a statement. [151882]

Jim Knight: Capital allocations for schools made so far in each local authority area in each year since 2003-04, excluding spending on academies, are set out in the following table.

£000

Local authority name	Local authority number	2003-04	2004-05	2005-06	2006-07	2007-08

Schools: Catering

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the proportion of school kitchens which need *(a)* rebuilding and *(b)* capital investment. [152133]

Jim Knight: The Department has not made these estimates.

In 2006, the Department and the School Food Trust worked together to identify where schools have currently no kitchen provision. In October 2006, the School Food Trust report 'School Meal Take Up in England' estimated that about 3,500 schools in England do not have a cooking kitchen, though some of these may have facilities to regenerate and serve brought-in food.

Based on returns from 19 authorities who attended a conference in London in December, targeted at authorities with high numbers of schools without any kitchen facilities, 1,959 or 62 per cent. of schools in these authorities do not have kitchens. While demonstrating that there are areas with concentrations of schools without kitchens, these figures do not represent the national picture.

Schools: Drugs

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many drug tests were administered on *(a)* teachers and *(b)* students by schools in each local education authority in each of the last 10 years; how many tested positive for drug use in each case; and what steps have been taken against teachers and students who have failed drug tests. [151218]

Kevin Brennan: Schools do not have to inform the Department if they wish to introduce drug testing for pupils and we do not collect information about those that do, the methods used or the results of their tests. However, we know of three maintained schools which have tested pupils for drugs. We do not collect any information about drug testing on teachers.

Schools: East Sussex

Mr. Waterson: To ask the Secretary of State for Children, Schools and Families how much schools funding was allocated per pupil in *(a)* Eastbourne and *(b)* East Sussex in each year since 1997, broken down by age group. [151367]

Jim Knight: The requested information is allocated to local authorities. Eastbourne is part of the East Sussex local authority and the revenue funding figures per pupil aged 3-10 and 11-15 for 1997-98 to 2005-06 are shown in the following table:

	Primary (3 to 10-year-olds)	*Secondary (11 to 15-year-olds)*
1997-98	2,520	3,360
1998-99	2,610	3,470
1999-2000	2,780	3,560
2000-01	3,020	3,850
2001-02	3,180	4,060
2002-03	3,230	4,190
2003-04	3,370	4,200
2004-05	3,490	4,410
2005-06	3,670	4,560

Notes:
1. Price Base: Real terms at 2005-06 prices, based on GDP deflators as at 27 September 2006.
2. Figures reflect relevant sub-blocks of standard spending assessment/education formula spending (EFS) settlements and exclude the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DCFS departmental expenditure limits relevant to pupils aged 3-15 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in the following table are taken from the Dedicated Schools Grant (DSG) introduced in April 2006 and are in cash terms. They are not comparable with those for the years 1997-98 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 1997-98 to 2005-06 figures are based on education formula spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable. An alternative time series is currently under development.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year. As the DSG is just a mechanism for distributing funding there is not a primary/secondary split available. There are other grants that support the schools budget, these are not included in the provided DSG figures. The figures are for all funded pupils aged 3-15.

DSG 2005-06	*Figures*
Baseline	3,371
DSG 2006-07	3,598
DSG 2007-08	3,831

Notes:
1. The revenue funding per pupil figures only run to 2005-06 because we cannot provide a consistent time series beyond that year as the introduction of the Dedicated Schools Grant (DSG) in 2006-07 fundamentally changed how local authorities are funded. The 1997-98 to 2005-06 figures are based on education formula spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In 2006-07 funding for schools changed with the introduction of the DSG which is based largely on an authority's previous spending.
2. In addition, DSG has a different coverage to EFS: EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. This means we have a break in our time series as the two sets of data are not comparable, an alternative time series is currently under development.
3. To provide a comparison for 2006-07 DSG, we have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year.
4. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how much deprivation-related funding is available to English schools in 2007-08; [152446]

(2) how much deprivation-related funding was allocated to each local education authority (LEA) in the last period for which figures are available; how much of this was passed on by LEAs on the basis of deprivation; and if he will make a statement. [152453]

Jim Knight: Funding for local authorities within the Dedicated Schools Grant (DSG) includes an element for deprivation. In 2007-08 the notional amount available to local authorities to distribute to schools

from the DSG and grants totals £3,808 million, with the amounts given to individual local authorities as part of the DSG provided in the attached annex. (This amounts to £2,730 million and excludes the additional grants to local authorities which do not currently have the deprivation element separately identified). It is not possible at present to say how much is passed on by local authorities to schools on the basis of deprivation. However, over the summer and early autumn of 2007 the Government Offices Children's Services Advisors are to discuss with their local authorities how much funding each authority is passing on to schools on the basis of deprivation and how this can be improved where necessary. As part of the process, Department officials will be collecting baseline information regarding the distribution in 2007-08 in order that change can be tracked in future years. Guidance to authorities is to be published during August 2007.

Schools: Great Yarmouth

Mr. Anthony Wright: To ask the Secretary of State for Children, Schools and Families how much was spent on upgrading teaching facilities and new build in schools in Great Yarmouth in each of the last 10 years. [151962]

Jim Knight: The Department maintains records of capital allocations to local authorities, and does not maintain records on a constituency basis. Capital allocations to Norfolk county council and schools in its area in each of the last 10 years are set out in the following table

	£ million
1998-99	10.8
1999-2000	12.1
2000-01	28.3
2001-02	25.5
2002-03	[1]130.2
2003-04	39.3
2004-05	[2]108.3
2005-06	34.5
2006-07	[3]70.5
2007-08	39.4

[1] This includes a PFI allocation of £92 million.
[2] This includes a PFI allocation of £60 million, and Targeted Capital Fund allocations of £7.1 million.
[3] This includes an allocation of £14.5 million for a new school by promoters, and Targeted Capital Fund allocations of £15.7 million.

Schools: Offensive Weapons

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) how many times assault or attempted assault with a weapon occurred in school grounds in each *(a)* local education authority and *(b)* type of school in each of the last 10 years, broken down by type of weapon; [151219]

(2) how many times police have been summoned for assistance on school grounds in each local education authority in each of the last 10 years, broken down by type of incident; [151220]

(3) how many *(a)* students and *(b)* staff members in each local education authority were killed on school premises with a weapon in each of the last 10 years; and what the type of school and type of weapon was in each case; [151232]

(4) how many times a student has been found in possession of a weapon in each local education authority in each of the last 10 years; and what the age of student and type of weapon was in each case. [151233]

Jim Knight: Numbers of persons, by age group, convicted of possession of an offensive weapon and of having a bladed article on school premises for 1999 to 2005 (the years for which figures are available) are on the following table. One pupil was killed with a weapon on school premises in the past 10 years (in a community secondary school, with a knife), and no members of staff. Neither this Department nor the Home Office collects any other relevant data. In the main, schools are very safe places: most pupils never carry a knife in school. Schools can screen for weapons if they wish, and have a statutory power to search pupils they suspect of carrying one. Safer School Partnerships, programmes to improve behaviour, curriculum opportunities for learning about responsibility, conflict, and safety, and other DCSF programmes for young people and parenting can also help.

Offence description	Year	Age group: Aged 10 to 11	Aged 12 to 14	Aged 15 to 17	Aged 18 and over	All ages
827 Having an article with blade or point on school premises[1]	1999	—	1	4	4	9
	2000	—	4	8	5	17
	2001	—	2	6	15	23
	2002	—	6	10	3	19
	2003	2	6	7	14	29
	2004	—	11	16	10	37
	2005	1	14	17	12	44
828 Possession of offensive weapons without lawful authority or reasonable excuse on school premises	1999	—	4	5	11	20
	2000	—	1	5	5	11
	2001	—	5	7	6	18
	2002	—	5	10	2	17
	2003	—	5	5	4	14
	2004	—	8	10	11	29
	2005	1	8	15	5	29

[1] Data for "having an article with blade or point on school premises" excludes convictions for West Mercia PFA; until clarification of these cases is obtained.

Notes:

1. These data are on the principal offence basis.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Office for Criminal Justice Reform
IOS: 452-05

Schools: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average cost of *(a)* building and *(b)* maintaining a school (i) under a private finance initiative contract and (ii) through the public sector. [152469]

Jim Knight: As part of the procurement process all local authorities are expected to demonstrate that PFI method of procurement provides value for money in comparison to other procurement options.

The Department, Treasury, or the National Audit Office have not undertaken any studies of average costs. However, as part of our BSF developments, benchmarking data will be available in the future which will enable us to provide information on estimate of average costs.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what proportion of estimated payments under his Department's private finance initiative contracts is projected to be spent on rebuilding of schools in each year between 2008 and 2019. [152474]

Jim Knight: Information on all signed private finance initiative contracts, including balance sheet treatment and future unitary charges, is included in HM Treasury's PFI Signed Projects List, which is available through www.hm.treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats. The information covers the unitary charge payment projections up to 2033-34. (A unitary charge can frequently include capital repayments, service provision, inflation and major refurbishment).

Announcement will be made later this year on the amount of PFI credits available for the next comprehensive spending review period from 2008 to 2011.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what the cost to the public purse was in the last 12 months of paying off contracts with private finance initiative investors for schools that have been prematurely closed. [152476]

Jim Knight: The Department is only aware of one public finance funded school which has closed prematurely in the last five years. (College of Media, Arts and Technology in Brighton and Hove). All detailed cost information regarding closure of the school, including any payment to the PFI investor is held at the local authority level.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what proportion of schools categorised as a school causing concern in each of the last 10 years was built and maintained *(a)* under private finance initiative contract and *(b)* through the public sector. [152477]

Jim Knight: Ofsted has provided the table which shows the number of schools in categories of concern for each year since 1996/97.

The Department and Ofsted do not centrally hold information specifically on schools built in the last 10 years which are categorised as causing concern.

*Number of primary and secondary schools in Ofsted categories 1996/97 to 2006/07**

End of academic year	Total primary	Total secondary
Special measures		
1996/97	226	73

2005/06	8	6
2006/07[1]	4	0

[1] Number of schools at 31 March 2007 (last published information from Ofsted).

Schools: Uniforms

Ms Buck: To ask the Secretary of State for Children, Schools and Families when he expects to issue guidance to schools on the supply of school uniforms following the Office of Fair Trading investigation; and what schools will be covered by the guidance. [151708]

Jim Knight: The Department plans to publish updated guidance on school uniforms and related policies by the end of September 2007. This guidance will be available to all schools in England and provides advice on how to develop fair and reasonable school uniform policies.

Schools: York

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the capital investment in schools in City of York was in *(a)* 2005-06 and *(b)* 2006-07. [152190]

Jim Knight: School capital allocations to the City of York in *(a)* 2005-06 were £8.7 million, including additional Targeted Capital Funding (TCP) of £3.1 million, and *(b)* in 2006-07 £28.5 million, including additional TCF funding of £22.2 million.

Investment in each year may differ from allocation figures due to (a) timing differences regarding spend (b) other resources available to the local authority and (c) priorities agreed locally. The Department does maintain records of investment centrally.

Secondary Education

John Penrose: To ask the Secretary of State for Children, Schools and Families if he will make a statement on the future of the 14 to 19 Education and Skills Agenda. [152573]

Jim Knight: 14-19 remains a key priority for the Department for Children, Schools and Families. We want to ensure that all young people are prepared by their education and training for success in life. Immediately this means that we must raise participation at 17, cut the proportion of 16 to 18-year-olds not in education, employment or training (NEET) and raise attainment at 19. We have stretching targets in all these areas and will be introducing legislation to make participation in education or training compulsory up to the age of 18. In parallel, we are reforming curriculum and qualifications to make them more engaging and more relevant to the needs of the economy; and building a system of schools, colleges and other providers working collaboratively to deliver the reformed curriculum effectively.

The new Department will give us an even stronger focus on meeting all the needs of young people and their families in a more coherent way and to give them the best possible start in life. Our 14-19 reforms are absolutely key to this ambition.

Secondary Education: Colchester

Bob Russell: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 July 2007, *Official Report*, column 124W, on which dates between 1 January and 22 May 2007 senior officials from his Department met officers from Essex County Council to discuss secondary school provision in Colchester. [152008]

Jim Knight *[holding answer 23 July 2007]:* Senior officials met officers from Essex county council on 5 January, 22 January, 12 February and 28 February. A number of issues was discussed, including secondary education in Colchester.

Secondary Education: Curriculum

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what the evidential basis was for the statement by the Chief Executive of the Qualifications and Curriculum Authority that critics of the new secondary curriculum see education as a winnowing device to sort the wheat from the chaff in his recent speech on the curriculum. [151814]

Jim Knight: The Qualifications and Curriculum Authority Chief Executive's comments were not directed specifically at 'critics' of the secondary curriculum. They were general comments on a particular view of education which he has expressed a number of times.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what evidential basis there is for the statements by the Chief Executive of the Qualifications and Curriculum Authority that the new approach to the secondary curriculum will *(a)* give every young person the best preparation for life, *(b)* maximise the achievement of each individual and *(c)* support social mobility in his recent speech on the curriculum. [151815]

Jim Knight: The Qualifications and Curriculum Authority has an ongoing remit to monitor the national curriculum and draws on a wide range of research evidence to do so. This includes research and reports produced by partner bodies such as Ofsted and specialist subject and

professional associations, as well as international work, through INCA (the International Review of Curriculum and Assessment frameworks Internet Archive).

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what international research evidence demonstrates that the new curriculum is the key to growth in educational performance as referred to by the Chief Executive of the Qualifications and Curriculum Authority in his recent speech on the curriculum; [151816]

(2) pursuant to the answer of 17 July 2007, *Official Report*, column 333W, on secondary education: curriculum, which countries were identified by the international comparisons carried out by the Qualifications and Curriculum Authority as having adopted an approach to the curriculum similar to that adopted in the new secondary curriculum; [151899]

(3) pursuant to the answer of 17 July 2007, *Official Report*, column 333W, on secondary education: curriculum, if he will place in the Library the results of the Qualifications and Curriculum Authority's international comparisons on curriculum in relation to the secondary curriculum review. [151900]

Jim Knight: The Qualifications and Curriculum Authority uses the International Review of Curriculum and Assessment frameworks Internet Archive (INCA), which it funds, in order to make its international comparisons. This provides descriptions of government policy on education in Australia, Canada, England, France, Germany, Hungary, Ireland, Italy, Japan, Korea, the Netherlands, New Zealand, Northern Ireland, Scotland, Singapore, Spain, Sweden, Switzerland, the USA and Wales.

Many countries included in the INCA review have chosen a National Curriculum which minimises the amount of prescription and maximises flexibility for teachers. These include, for example, Finland, which frequently performs best in international comparisons of educational performance.

A summary of international curriculum comparisons, made at the time of the review, where applicable, will be placed in the Library of the House.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families, pursuant to the answer of 17 July 2007, *Official Report*, column 335W, on secondary education: curriculum, for what reasons parents were not specifically consulted on the content of the new programmes of study for the National Curriculum. [151898]

Jim Knight: Parents, like all other groups, had an opportunity to comment on the content of the new programmes of study as part of the secondary curriculum consultation exercise.

A total of 10,613 people had direct contact with the Qualifications and Curriculum Authority regarding the content of the new curriculum through conferences, workshop events (including two specifically for parents), and an online questionnaire. There were 1,891 responses to the online consultation alone. Among those invited to the launch of the new curriculum were parenting groups including the National Family and Parenting Institute and Parentline Plus.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families whether assessments for the third key stage will assess factual knowledge not explicitly identified in the new programmes of study for the secondary curriculum. [151902]

Jim Knight: The national curriculum programmes of study prescribe the fundamental body of knowledge, skills and understanding which every pupil should acquire during Key Stage 3. The assessments developed by the Qualifications and Curriculum Authority—through the National Assessment Agency and its test development agencies—require pupils, through application, to demonstrate that they have acquired that knowledge, skills and understanding, as part of the range of factual knowledge that teachers will now have the flexibility to teach.

Secondary Education: Free School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of pupils at the top performing 100 secondary schools qualify for free school meals; what proportion of pupils in their catchment areas were eligible for free school meals; and if he will make a statement. [150686]

Jim Knight: In 2006, the proportion of pupils known to be eligible for free school meals in the top 100 secondary schools (excluding independent schools) based on the percentage of pupils achieving five or more A* to C (including English and maths) was 1.7 per cent. This percentage excludes pupils aged 16 and over.

The equivalent national percentage for all secondary schools (excluding independent schools) was 14.7 per cent.

Catchment areas are set locally. Data on school catchment areas are not held centrally.

Secondary Education: Rural Areas

Tim Farron: To ask the Secretary of State for Children, Schools and Families what his Department's policy is on the retention of high schools in rural and remote areas with school rolls of less than 500. [152905]

Jim Knight: Responsibility for the overall planning of school places rests with local authorities and we expect them to ensure that school places are where parents want them. As part of this they also need to promote high educational standards, ensure fair access to educational opportunity and promote the fulfilment of every child's educational potential. They must also ensure that there are sufficient schools in their area and promote diversity and increase parental choice.

The Department's statutory guidance to local authorities and the schools adjudicator, who are responsible for deciding specific proposals to reorganise schools, contains a presumption against the closure of rural schools. Although this does not mean that no rural school will ever close, the case for closure needs to be strong and clearly in the best interests of education provision in the area.

Secondary Education: Standards

Mr. Bone: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to raise standards in secondary schools. [152748]

Jim Knight: Standards in secondary schools have risen dramatically since 1997. Record numbers of 16-year-olds are now achieving five good GCSEs.

Over 86,000 more pupils achieved five good GCSEs last year compared with 1997 and 62,000 more achieved five good GCSEs including English and maths compared with 1997. In total over 375,000 more young people have gained five or more good GCSEs over the period 1997 to 2006.

This is as a result of a number of factors, as set out in my reply to PQ119851 on 19 February 2007. I would like to draw particular attention to challenge and support through the secondary National Strategy; of swift and targeted intervention to tackle school failure; more effective use of data by schools and local authorities, helping to track and monitor the progress of pupils; and a system within which schools and local authorities are setting ambitious targets for their pupils.

The new secondary curriculum, to be introduced from 2008, will raise standards further still. Less prescription will allow for more time in the school day to concentrate on English and maths, particularly where pupils are struggling with literacy and numeracy. It will also allow schools to personalise learning in order to make teaching more engaging.

Sixth-form Colleges

Paul Holmes: To ask the Secretary of State for Children, Schools and Families whether his Department has lead responsibility for sixth form colleges; what role the Learning and Skills Council has in overseeing their work; what role it will have in the future; and if he will make a statement. [152429]

Jim Knight: The Department for Children, Schools and Families has responsibility for school sixth forms and sixth-form colleges within its wider responsibility for policy and funding for the education of children and young people up to age 19. The new Department will work closely with the Department for Innovation, Universities and Skills to ensure the successful delivery of our 14-19 reform programme through schools, colleges and training providers.

The changes to planning and funding for post-16 education that were announced in June 2007 will be subject to consultation and will require new legislation. I estimate that we will not be able to give effect to the full legislative changes until the academic year 2010-11. Until then, the LSC will retain the legal responsibility for securing and funding all forms of post-16 education and training outside higher education, including sixth-form colleges. It will continue to work with the FE sector as a whole to raise standards and to ensure that it plays a full and effective part in driving forward our 14-19 reform agenda.

Government policy is to foster more sixth-form colleges; they do an outstanding job and are generally popular with students and parents. The same is true of larger school sixth forms, formed either by an individual school or a consortium. To overcome England's unacceptably low education participation rate beyond GCSE, more provision will be required of both types, working in partnership with other local providers to provide a wide range of high quality opportunities for learners aged 14-19.

Special Educational Needs

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what the average number of special educational needs pupils in class in each local education authority was in each of the last 10 years. [151241]

Jim Knight: The requested information is not collected centrally.

Special Educational Needs: Assessments

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families what the average SATS test scores of special educational needs pupils taught at *(a)* special schools and *(b)* mainstream schools were in each of the last 10 years. [151687]

Jim Knight: The information can be provided only at disproportionate cost.

Special Educational Needs: Lone Parents

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many pupils with special educational needs statements in each *(a)* local education authority and *(b)* type of school came from single parent homes in each of the last 10 years, broken down by category of special needs. [151203]

Jim Knight: The requested information is not collected centrally.

Students: Lone Parents

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families how many students in each *(a)* local education authority and *(b)* type of school came from single parent families in each of the last 10 years. [151165]

Jim Knight: The requested information is not collected centrally.

Sure Start Programme: York

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how much has been spent on Sure Start in York; and how many parents have participated. [152189]

Beverley Hughes: I refer my hon. Friend to the reply given earlier today at DCSF oral questions.

Teachers: Early Retirement

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families what research has been undertaken by his Department on the rate of and factors behind teachers retiring early from leadership positions within schools. [151994]

Jim Knight *[holding answer 23 July 2007]*: The latest figures show that in 2005-06, there were 2,870 retirement awards made to teachers whose last known employment was in the leadership group in a maintained school in England. Of these, 500 (17 per cent.) were premature retirements, 1,210 (42 per cent.) received actuarially reduced benefits, 250 (9 per cent.) were ill-health retirements and the remaining 910 (32 per cent.) were age retirements. (Source: Database of Teacher Records and the Pensioner Statistical System (PENSTATS)). These figures were published in December 2006 and can be found at

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000681/addition6.xls

For comparison, in January 2006 there were 56,800 full time equivalent teachers in the leadership group in maintained schools in England. (Source: 618G Annual Survey of Teachers in Service and Teacher Vacancies).

The leadership group encompasses head teachers, deputy heads and assistant heads.

Research commissioned by the Department and published in 2003 looked into the factors influencing teachers' decisions to leave the profession. It identified five main reasons: Workload (eg workload too heavy), New Challenge (eg attracted by another job), School (eg way school is run), Salary (eg offered higher salary elsewhere) and Personal Circumstances (eg opportunity to travel). Of these, workload was the most important factor and salary the least.

The research found that head teachers were less likely, and deputy heads more likely, than classroom teachers to cite workload as being of great importance in their decision to leave the profession.

Considering all teachers, the research found that most of those taking early retirement were doing so because they felt they had worked long enough or because they could afford to. Some wanted time to themselves, others to be with a partner who had retired. Some were prepared to leave without an immediate pension and were contemplating other employment.

The research report is available on the Department's website at

http://www.dfes.gov.uk/research/data/uploadfiles/RR430.pdf

From 1 January 2007, new provisions have been introduced into the Teachers' Pension Scheme that will provide teachers with greater choice and flexibility over the way they manage the transition from work to retirement. The new provisions will allow teachers to wind down in the years leading up to retirement, for example by moving to part time working or taking a post with less responsibility, while protecting their pension rights. New phased retirement provisions have also been introduced that will enable teachers to remain in the workplace in a reduced capacity while at the same time drawing some of their pension benefits.

The Department has commissioned research into the impact these changes to the pension scheme may have on the retirement behaviour of teachers. The fieldwork for this study has already taken place and the project is due to report early in 2008. The research will help inform the key work that the National College of School Leadership is taking forward on succession planning to ensure that we have the right quantity and quality of school leaders both now and in the future.

Teachers: Great Yarmouth

Mr. Anthony Wright: To ask the Secretary of State for Children, Schools and Families how many teachers there were in Great Yarmouth in each year since 1997. [151958]

Jim Knight: The following table provides the full-time equivalent number of teachers employed in local authority maintained schools in Great Yarmouth constituency in each January from 1997 to 2006.

Full-time equivalent number of teaching staff in local authority maintained schools in Great Yarmouth constituency, January 1997 to 2006

As at January:	*Qualified teaching staff*	*Other teaching staff*	*Total teaching staff*
1997	660	10	670
1998	660	10	670
1999	670	10	670
2000	670	10	680
2001	690	10	700
2002	680	20	700
2003	680	30	710
2004	670	40	710
2005	670	40	700
2006	700	40	740

Note:
Figures are rounded to the nearest 10.
Source:
School Census

Teachers: Manpower

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* primary and *(b)* secondary school teachers in each local education authority had their employment terminated in each of the last five years, broken down by reason for termination; [151151]

(2) how many new teachers entered the profession in each local education authority in each of the last 10 years; [151152]

(3) what the average number of school staff trained in first aid is in each local education authority; [151159]

(4) what the average tenure was of a *(a)* primary school and *(b)* secondary school head teacher in the latest period for which figures are available. [151216]

Jim Knight: The information requested is not collected centrally.

Mr. Rob Wilson: To ask the Secretary of State for Children, Schools and Families (1) what the drop-out rate is of newly qualified teachers from the profession; [151164]

(2) how many teacher vacancies there were on average in each *(a)* local education authority and *(b)* type of school in each of the last 10 years; [151167]

(3) how many *(a)* primary school and *(b)* secondary school teachers in each local education authority (i) retired, (ii) resigned and (iii) had their contract terminated in each of the last 10 years; [151189]

(4) what the ratio of male to female teachers employed by primary schools was in each of the last 10 years. [151215]

Jim Knight: The information requested could be provided only at disproportionate cost.

Information for the number of teachers who have resigned or had their contract terminated is not collected centrally.

Teachers: Pay

Mr. Anthony Wright: To ask the Secretary of State for Children, Schools and Families what the average teacher's salary was in Norfolk in each of the last 10 years. [151959]

Jim Knight: The following table provides the average salary of full-time regular teachers in service in Norfolk local authority in each March from 1996 to 2005, the latest information available.

Average salary of full-time regular teachers[1] in Norfolk local authority, March of each year

Year	£ Average salary
1996	22,000
1997	22,700
1998	23,400
1999	24,200
2000	25,300
2001	27,300
2002	28,300
2003	30,000
2004[2]	31,100
2005[2]	32,400

[1] Includes teachers of all grades.
[2] Provisional.
Note:
Figures are rounded to the nearest 100.
Source:
Database of Teachers' Records (DTR)

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families what the average full-time equivalent gross pay of teachers in York schools was *(a)* in cash terms and *(b)* at current prices in each year since 1997. [152193]

Jim Knight: The following table provides the average gross salary of full-time regular teachers in maintained sector service in York local authority in each March from 1997 to 2005, the latest information available.

Gross average salary

	Cash	£ Current prices[1]
1997	22,500	28,800
1998	23,200	28,800
1999	24,100	29,100
2000	24,900	29,600
2001	26,900	31,500
2002	27,800	31,800
2003	29,700	32,900
2004[2]	30,600	33,000
2005[2]	32,200	33,800

[1] Adjusted for inflation to 2006-07 prices using HM Treasury GDP deflator.
[2] Provisional estimates.
Figures are rounded to the nearest 100.

Database of Teachers' Records (DTR)

Teachers: Training

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many graduates entered teacher training courses in each year since 2000. [151181]

Jim Knight: The following table shows the number of trainees who were registered to commence mainstream post graduate Initial Teacher Training (ITT) courses, the number of trainees registered to commence the Graduate Teacher Programme (GTP) and the number of trainees registered to commence Teach First from 2000/01 to 2006/07.

Number of trainees registered to commence mainstream post graduate ITT training, the Graduate Teacher Programme and Teach First

Academic year	Mainstream post graduate trainees registered to commence ITT courses[1,2]	Trainees registered to commence ITT courses through the Graduate Trainee Programme[3,4]	Trainees registered to commence ITT courses through the Teach First Programme[5]
2000/01	19,620	1,510	—
2001/02	21,260	3,220	—
2002/03	23,370	3,770	—
2003/04	25,780	5,230	160
2004/05	25,860	5,470	180
2005/06	25,060	5,490	170
2006/07	24,640	4,200	220

[1] Recruitment figures for 2006/07 are provisional and are subject to change.
[2] Includes universities and other HE institutions, SCITT and OU, but excludes employment based routes.
[3] Recruitment in 2006/07 is for the autumn term only and is provisional. A further 2,130 trainees are expected to start on employment based routes during the year. Figures from 2003/04 onwards are subject to future revision.
[4] Figures prior to 2002/03 are taken from TDA records as at the end of the academic year. Figures for 2002/03 onwards are taken from the TDA EBR database as at January 2007 and are not directly comparable with previous years.
[5] 2003/04 was the first year of the Teach First Programme. Teach First data for 2003/04 and 2004/05 are at November of the academic year. Teach First data for 2005/06 and autumn term 2006/07 are at January 2007.
Note:
Recruitment figures shown are rounded to the nearest 10.
Source:
TDA Employment Based Routes Database TDA's ITT Trainee Numbers Census 2000/01 to 2006/07

Young People: Employment

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many children aged 16 and 17 are in employment, broken down by *(a)* small, *(b)* medium and *(c)* large size employers; and if he will make a statement. [152135]

Jim Knight: In 2006 there were around 585,300 young people aged 16 and 17 years in employment in England. The majority (500,100) of these employed young people were also participating in education and training.

Labour Force Survey analysis for 2006 suggests around 73 per cent. of 16 to 17 year olds worked in firms with fewer than 50 employees, 18 per cent.

worked in firms with 50 to 249 employees and 9 per cent. worked in firms with 250 or more employees.

Therefore it is estimated that of the 585,300 young people aged 16 and 17 years in employment in England in 2006, around:

(a) 429,200 worked in firms with fewer than 50 employees;

(b) 103,100 worked in firms with 50 to 249 employees;

(c) 53,000 worked in firms with 250 or more employees.

LEADER OF THE HOUSE

Departments: Aviation

Mr. Hoban: To ask the Leader of the House how much was spent by her Office on (a) first class and (b) business flights in the last 12 months. [153018]

Helen Goodman: The Office of the Leader of the House of Commons spent £12,626.21 on flights in the last 12 months.

Departments: Expenditure

Mr. Hoban: To ask the Leader of the House (1) how much was spent by her Office on flowers in the last 12 months; [153017]

(2) how much was spent by her Office on industrial tribunals in the last 12 months; [153022]

(3) how much was spent by her Office on staff away days in the last 12 months; [153024]

(4) how much was spent by her Office on redundancy payments in the last 12 months. [153025]

Helen Goodman: None.

Departments: Manpower

Mr. Hoban: To ask the Leader of the House how many people have been appointed to her Office outside civil service grades in the last 30 days. [153015]

Helen Goodman: One temporary appointment.

Mr. Hoban: To ask the Leader of the House how many press officers are employed by her Office. [153136]

Helen Goodman: None. Press office services are provided by the Cabinet Office Communication Group.

Departments: Ministerial Policy Advisers

Mr. Hoban: To ask the Leader of the House what the names are of each special adviser in her Office. [153014]

Helen Goodman: There are no special advisers currently in post.

Departments: Visits Abroad

Mrs. May: To ask the Leader of the House how many overseas visits were made by (a) officials and (b) Ministers within her responsibility, and at what cost, in each year since 1997. [151640]

Helen Goodman: The total cost for the 2006-07 financial year yet to be published by the Cabinet Office amounted to £12,862.46. The details of destinations are as follows:

Dates	*Destination*
18 to 19 April 2006	Vienna, Austria
31 August 2006	The Hague, Netherlands
3 October 2006	Brussels, Belgium
28 October to 6 November	Vietnam, Hanoi and Ho Chi Minh City (HCMC)
16 to 20 November 2006	Delhi, India

All travel is undertaken in accordance with the civil service management code and the ministerial code.

Details of overseas ministerial visits, including costs for Ministers and officials are published annually by the Cabinet Office and can be found at:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/

Draft Legislative Programme

Mr. Allen: To ask the Leader of the House pursuant to the oral statement by the Prime Minister of 11 July 2007, *Official Report*, columns 1449-51, on the draft legislative programme, what discussions she has had with the Chairs of Select Committees and the Liaison Committee on making all Bills subject to pre-legislative scrutiny. [153070]

Helen Goodman: I have had no discussions with the Liaison Committee or other select committees on this point since the Prime Minister's statement, but the subject of pre-legislative scrutiny of Bills is one which has arisen in previous exchanges with the Liaison Committee. My right hon. Friend expects to meet the Liaison Committee in the autumn.

Mr. Allen: To ask the Leader of the House pursuant to the oral statement by the Prime Minister of 11 July 2007, *Official Report*, columns 1449-51, on the draft legislative programme, how many Bills she is preparing for pre-legislative scrutiny in the new Session; and if she will make it her policy that all Bills will be subject to pre-legislative scrutiny unless a particular reason is given for a Bill not being so subject. [153073]

Helen Goodman: It is hoped to announce the planned draft Bills for next session at the beginning of the session in the normal way. Plans for draft Bills are more tentative than those for Bills expected to be introduced into the main programme and it is too soon to give an indication of a likely number of such Bills at this stage. Some indication of Bills being considered for publication in draft is given in Chapter 3 of the White Paper on the Government's Draft Legislative Programme (Cm 7175, P19).

As I indicated to the hon. Member in answer to an earlier question at *Official Report* 25 July 2007 column 1122, the Government endeavour to subject Bills to pre-legislative scrutiny, where timing and other constraints allow. Where a Bill is introduced which has not been published in draft the reasons for this will frequently be clear.

COMMUNITIES AND LOCAL GOVERNMENT

Anti-Semitism

Mr. Amess: To ask the Secretary of State for Communities and Local Government what discussions since November 2006 *(a)* Ministers and *(b)* officials in her Department have had with representatives of the Jewish community to discuss anti-Semitism in England and Wales; and if she will make a statement. [151005]

Mr. Dhanda: Ministers and officials have had a number of meetings with representatives of the Jewish community since November 2006. Discussions have been on a range of issues affecting the Jewish community, including anti-Semitism.

Coastal Areas: Flood Control

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what funding local authorities received for *(a)* coastal and *(b)* flood defences in the latest period for which figures are available. [152393]

Mr. Woolas: I have been asked to reply.

In the 2006-07 financial year, English local authorities received £65.8 million worth of capital grant from DEFRA for coast protection projects and £5.8 million for flood defence projects.

Local authorities also received funding from the Department for Communities and Local Government to support non-capital expenditure. In 2006-07, this involved:

£14 million for direct local authority expenditure on coast protection;

£21 million for direct local authority expenditure on flood risk management;

£27 million in connection with levies paid by local authorities to internal drainage boards;

£23 million for levies paid to the Environment Agency. These help to fund agency works that are of local importance but do not meet national prioritisation criteria.

Local authorities carry out works to manage flood risk on less critical watercourses and sea defences in some areas (flood defence) and are responsible for works to protect against coastal erosion (coast protection). However, the Environment Agency is the principal operating authority with responsibility for flood risk management in England from both rivers and the sea.

Council Housing: Construction

Tim Farron: To ask the Secretary of State for Communities and Local Government if her Department will make an assessment of the merits of allowing local authorities to build council houses without recourse to independent registered social landlords. [152000]

Mr. Iain Wright *[holding answer 23 July 2007]:* On 23 July we published a Housing Green Paper which sets out the Government's plans to enhance the role of local authorities in securing the supply of social housing. It includes opportunities for councils to take more of a direct role in the delivery of new affordable homes.

Departments: Contracts

Kelvin Hopkins: To ask the Secretary of State for Communities and Local Government, (1) pursuant to the answer of 25 June 2007, *Official Report*, columns 152W-3W, on Departments: contracts, if she will place in the Library the data compiled for the European Commission to which the Answer refers; [151525]

(2) pursuant to the answer of 25 June 2007, *Official Report*, columns 152W-3W, on Departments: contracts, how much was spent on contracts awarded to external suppliers by public bodies sponsored by her Department in each year since 2001. [151532]

Mr. Iain Wright: The following table displays data compiled for the European Commission for calendar years ending 31 December 2003, 2004 and 2005 by Communities and Local Government. This listing includes those contracts of an estimated value above the threshold of the procurement regulations, entered into by Communities and Local Government and its affiliated, autonomous organisations.

The data provided for the year ending 2005 also shows the type of activity contracted for, a brief description of the contract based on the Common Procurement Vocabulary (CPV) code, the type of procurement procedure adopted and the total value of the contract.

Provision of this further data for previous years could be undertaken only at disproportionate cost.

Departments: DVDs

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what DVDs have been produced by her Department and its predecessor in the last 24 months; how many copies were produced; and at what cost to the public purse for development, production and distribution. [152531]

Mr. Iain Wright: The majority of the DVDs produced by the Department are provided free to stakeholders and others to assist our communications and widen the scope and effectiveness of the Department's publicity activity.

In the last 24 months DVDs produced through the communications directorate of Communities and Local Government and its predecessors were as follows:

Title	*Number of copies*	*Overall cost (£)*
What is Community Empowerment?	5,000	1,747.00
So you want to be a Firefighter?	30,000	17,399.00
A Bigger Voice	1,000	48,997.00
Local Government White Paper presentational DVD	2,010	11,626.00
Cleaner Safer Greener	1	350.00
CIH Conference	5	400.00
Learner Framework	5,300	1,680.00
MIPIM Exhibition DVD	3,000	7,496.00
Beacon Scheme DVD	53	514.00

Derelict Land: Greater London

Mr. Evennett: To ask the Secretary of State for Communities and Local Government what assessment she has made of the *(a)* availability, *(b)* location and *(c)* size of brownfield sites in London suitable for housing development. [150249]

Mr. Iain Wright: The responsibility for carrying out such an assessment lies with the Mayor of London. This work was undertaken and published in July 2005, in the London Housing Capacity Study. This study provides a comprehensive technical analysis of London's potential for future housing growth. It was used to inform the Early Alterations to the London Plan (published December 2006) which provided a minimum target for housing provision in London from 2007-08 to 2016-17, of 30,500 additional homes per year. The study can be found at:

http://www.london.gov.uk/mayor/planning/capacity_study/index.jsp

Almost all housing development in London takes place on brownfield land (97 per cent. in 2005). From the Mayor's study, the distribution of identified housing capacity in London for the period 2007-08 to 2016-17 is shown in the following table. About half of identified capacity for housing in London over the next 10 years is located in seven boroughs: Newham, Tower Hamlets, Greenwich, Barnet, Redbridge, Southwark and Brent.

Total housing capacity by London borough, 2007-08 to 2016-17

Borough	Large site capacity	Small site allowance	Non self-contained	Vacants	Total capacity	London plan annual target
Camden	1,432	2,940	998	602	5,972	595
City of Westminster	1,713	3,890	499	950	7,051	680
Islington	4,213	5,703	1,330	0	11,246	1,160
Kensington and Chelsea	694	1,677	116	0	2,487	350
Lambeth	5,826	4,569	989	0	11,383	1,100
Southwark	3,745	7,287	5,247	0	16,279	1,630
Wandsworth	2,960	3,960	509	247	7,676	745
Barking and Dagenham	10,756	1,153	0	0	11,909	1,190
Bexley	2,419	957	54	258	3,688	345

Hounslow	2,882	1,458	30	0	4,370	445
	187,387	98,146	18,284	11,509	315,327	30,500

Note:
Discussions between the GLA and the boroughs on the identified 10-year housing capacity resulted in some changes to the study outputs. These changes are reflected in the housing targets included in the London plan (final column of the table).
Large site capacity:
Individually identified sites over 0.5 hectares.
Small site allowance:
An allowance from sites less than 0.5 hectares, based on past performance but adjusted for future identified housing opportunities and intensification.
Non self-contained:
Residential units that do not fall within the planning use class of dwelling houses.
Vacants:
Long-term vacant dwellings returning to use.
Source:
Table 18, 2004 London Housing Capacity Study (Greater London Authority (GLA), July 2005).

Empty Property: North East Region

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many homes in *(a)* private ownership and *(b)* public ownership have been empty for more than six months in each local authority in the north east of England. [152959]

Mr. Iain Wright: The information requested is presented as follows:

Number of long term dwelling vacancies (over six months) in north east local authorities by borough, 1 April 2006

		Private[1]	LA[2]	RSL[3]
35UB	Alnwick	245	16	0

2005-06 Annual returns to Communities and Local Government

Fire Services: Flood Control

Miss McIntosh: To ask the Secretary of State for Communities and Local Government what provision is being made to reimburse fire services for their costs in dealing with the recent flood emergencies; and what provision is being made to increase their reserves. [152874]

Mr. Dhanda: Two separate schemes of emergency financial assistance have been set up to assist local authorities affected by flooding in June and July. Fire and rescue authorities are eligible for grants from these schemes. Each authority claiming grant must have spent 0.2 per cent. of its revenue budget on eligible activities in the financial year to date. Above that threshold, 100 per cent. of eligible costs will be reimbursed, an increase from the normal 85 per cent. Authorities will also be able to claim grant on eligible expenditure up to six months from the beginning of the emergency. This is an increase from two months under normal Bellwin schemes.

It is for authorities to determine the level of reserves which they hold.

Floods: Tewkesbury

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what discussions she has had with Severn Vale Housing on providing help to residents who have been flooded in the Tewkesbury constituency; and if she will make a statement. [152908]

John Healey: I am answering this question as Minister for Local Government, responsible for co-ordinating the Government's contribution to recovery from the recent floods.

I understand that Severn Vale Housing have been in contact with their tenants over the last few days to find out how many are affected by the floods and what their needs are. They have been working with the local authority to secure temporary accommodation for the worst affected tenants by utilising all available bed and breakfast accommodation in the area.

Severn Vale Housing are working with the local authority and Severn Trent Water to identify all their

residents who are vulnerable in order to ensure that they get priority in the delivery of bottled water. They are arranging deliveries of bottled water to all their sheltered accommodation.

It will be several weeks before the full extent of the damage caused by the floods will become clear. My officials are working with Tewkesbury borough council, Severn Vale Housing and other local partners to support them as they assess the needs of those residents affected by the floods.

Freedom of Information

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what guidance the Audit Commission has given to local authorities in relation to the Freedom of Information Act 2000; and what research the Commission has conducted in relation to that Act. [152942]

Mr. Iain Wright: This is an operational matter for the Audit Commission and I will ask the chief executive of the Audit Commission to write to the hon. Member directly.

Letter from Steve Bundred, dated 25 July 2007:

The Department for Communities and Local Government has asked me to reply to your parliamentary question on guidance to local authorities in relation to the Freedom of Information Act 2000.

The Audit Commission has not provided general guidance to local authorities on the Freedom of Information Act 2000, as this is primarily a matter for the Information Commissioner. The Commission's auditors and inspectors may, however, have had discussions with individual local authorities as part of their work.

As part of a wider Audit Commission national study on "Making better use of information to drive improvement in public services", the Audit Commission commissioned the Constitution Unit of University College London (UCL) to undertake research into Freedom of Information. This resulted in a report "Improving access to and use of public sector information (Helping local authorities to develop good practice in the context of the Freedom of Information Act 2000)". This report is available in full on the Commission website at http://www.audit-commission.gov.uk/localgovernment/foi/index.asp?

In addition UCL has also published good practice recommendations for cost-effective compliance with the FOI Act. These are UCL's recommendations and are published on its website at the following link http://www.ucl.ac.uk/constitution-unit/foidp/local.htm

A copy of this letter will be placed in the House of Commons Library.

Housing: Flood Control

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what proportion of residential development in England was on floodplain land in the last 12 months for which figures are available. [152849]

Mr. Iain Wright: The publication 'Land Use Change in England: Residential Development to 2006 (LUCS22)' shows that, on a provisional estimate, 9 per cent. of all dwellings in 2005 were built in flood risk areas. A more robust estimate for 2004 shows that 10 per cent. of all dwellings were built in flood risk areas during that year. This is in line with levels of existing development—flood risk areas account for about 12 per cent. of land in England, including parts of major cities, and around 10 per cent. of the population already live in flood risk areas.

The definition of high flood risk areas and floodplain used by Communities and Local Government is the high risk zone mapped by the Environment Agency as being at a probability of flooding, excluding the presence of flood defences, of at least a one in one hundred years for river flooding and at least a one in two hundred years for coastal flooding. This is the basis for the definition of "high risk areas" in PPS25.

Flood risk is a major factor in the location of new development. The Government's aim is to avoid inappropriate development in areas of high flood risk. The Government published Planning Policy Statement (PPS25) in December 2006 to strengthen and clarify earlier policy on this issue.

PPS25 ensures that flood risk must be taken into account at all stages of the planning process. Development that would not be safe in the higher flood risk areas should be directed to areas of lower risk wherever this is practicable. In particular, more vulnerable development, such as housing, should not be permitted in high risk areas unless it can be clearly demonstrated that the need for the development outweighs the risk, and it will be safe, without increasing flood risk.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what statistics her Department compiles on residential development on flood plains. [152943]

Mr. Iain Wright: The Department's publication "Land Use Change in England: Residential Development to 2006 (LUCS22)" contains the most recent data on residential development on flood plains. It shows the amount and percentage of land changing to residential use, and the percentage of new dwellings built on previously-developed land, within flood risk areas, as well as the proportion of all new dwellings built on flood plains.

The publication LUCS22, published in May 2007, is available on the Communities and Local Government website at:

http://www.communities.gov.uk/embedded_object.asp?id=1510817

Housing: Greater London

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many and what proportion of domestic property sales in London in the last period for which figures are available were for a value of *(a)* £250,000 to £500,000 and *(b)* above £500,000. [152666]

Mr. Iain Wright: Using HM Land Registry data the number and proportion of all residential property sales in London for 2006 that were sold for a value of *(a)* above £250,000 up to and including £500,000 was 54,100 (32 per cent.), and for *(b)* above £500,000 was 17,100 (10 per cent.).

Housing: Low Incomes

Mike Wood: To ask the Secretary of State for Communities and Local Government what proportion of planned new housing will be social housing. [152751]

Mr. Iain Wright: The Government's Green Paper, 'Homes for the future more affordable, more sustainable' was launched on 23 July outlines the Government's plans for delivering new homes. We are taking urgent action to meet growing demand and address the serious issue of housing affordability. Our new target will deliver 240,000 additional homes a year by 2016.

We are providing £8 billion over the next three years to invest in affordable housing. This new investment will help to deliver 45,000 new social homes a year by 2010-11 with a goal to reach 50,000 in the next spending review.

Housing: Private Finance Initiative

Mr. Rob Wilson: To ask the Secretary of State for Communities and Local Government what proportion of estimated payments under her Department's private finance initiative contracts is projected to be spent on the construction of houses in each year between 2008 and 2019. [152475]

Mr. Iain Wright: Data are not available in the format requested. Of the total £3.7 billion PFI credits allocated to this Department, £2.7 billion will be used for the Housing PFI Programme: £620 million has been allocated, or set aside, for schemes that will deliver additional social rented housing. Schemes currently on the programme are projected to provide over 3,000 new social rented homes by 2013. The remaining PFI credits have been allocated to schemes that will reduce the number of non-decent homes by over 28,300.

PFI credits act as a promise of government funding and indicate the level of capital investment which will attract government support. Once a PFI scheme is operational, PFI credits entitle the local authority to on-going subsidy from the Department, over the life of the PFI contract, typically 15-30 years.

Subsidy for PFI schemes is paid on a fixed, annual basis over the life of the contract. Subsidy is calculated based on the overall capital cost of a scheme and does not reflect capital expenditure in individual years.

The following tables detail the number of additional social rented houses projected to be constructed during the years 2008-19, and includes the level of PFI credits and annual subsidy payments for schemes which have signed.

Housing PFI Programme—Schemes delivering additional social rented housing

Local authority	*Project name*	*PFI credits (£m)*	*Annual subsidy to LA (£m)*	*Total number of units*	*Construction profile*

[1] Derby city council's signed scheme is for the purchase and refurbishment of private sector non-decent units, rather than construction of new units.
[2] Derby city council's scheme in procurement includes maximum of 85 units purchased from private sector for refurbishment and minimum of 90 new build units.
[3] Total PFI credits currently allocated to schemes to deliver additional social rented units, remainder set aside for Round 5 schemes.
[4] Funded from the Decent Homes element of the Programme.

Housing: Standards

Ms Buck: To ask the Secretary of State for Communities and Local Government whether properties assessed as a category 1 hazard under the housing health and safety rating system will not meet the decent homes standard; and how many properties fell into this category in 2006-07. [151710]

Mr. Iain Wright: The Guidance, "A Decent Home: Definition and guidance for implementation (June 2006—Update)" advises that properties assessed as a Category 1 hazard under the Housing Health and Safety Rating System will be considered non-decent in failing to meet the minimum statutory standard. First estimates for the number of properties non-decent on this criterion will become available from the 2006 English House Condition Survey with headline results due to be published in January 2008. The Guidance can be found on the Communities and Local Government website at

http://www.communities.gov.uk/pub/191/ADecentHomeDefinitionandguidanceforimplementationJune2006update_id1152191.pdf

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans her Department has to introduce new *(a)* league tables and *(b)* inspection regimes for (i) council housing and (ii) social housing. [152678]

Mr. Iain Wright: In "Delivering Housing and Regeneration—Communities England and the Future of Social Housing Regulation", launched on 19 June 2007, the Government proposed accepting Professor Cave's proposals for regulatory reform and began a consultation to determine stakeholders' views. Under these proposals, the regulator would:

(a) collect information from social landlords to allow it to intervene to prevent poor performance, and to allow tenants and others to compare the performance of social landlords at a local level

(b) commission inspections of social landlords where there are indications of poor performance, but good performers will have few or no inspections

Professor Cave recommended that the reformed regulatory system should apply to all social housing, whether provided by local authorities, housing associations or other bodies, so that tenants could compare services across the social housing domain and expect the same level of minimum service standards. The Government have proposed immediately accepting the new system for housing associations, but is exploring in more detail how local authority and ALMO performance could be regulated.

Land: Databases

Mrs. Lait: To ask the Secretary of State for Communities and Local Government which organisation has been awarded the contract by English Partnerships to conduct a study of the National Land Use Database; and what the remit is of the review. [152940]

Mr. Iain Wright: Kingston university has been appointed to conduct the review of the National Land Use Database of Previously-Developed Land (NLUD-PDL). Its remit is to review the data collection and management methodology of NLUD-PDL, specifically to improve its timeliness, quality and usefulness both to central Government and to local authorities.

Local Government: Interpreters

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what guidance her Department and its agencies have given to *(a)* local authorities and *(b)* housing associations on providing interpreters and translation services for those who do not speak English. [152403]

Mr. Dhanda: The Department for Communities and Local Government has not issued any guidance to local authorities and housing associations on the provision of interpretation and translation services since its inception in May 2006.

In December 2006 the Secretary of State for Local Government asked the Commission on Integration and Cohesion to consider this issue alongside its final report. The Commission published its final report in June 2007 which includes a set of principles on translation for local authorities and recommends that the Government develops these principles into guidance. The Government will respond to the Commission on Integration and Cohesion's recommendations in the autumn.

Members: Correspondence

Mr. Clappison: To ask the Secretary of State for Communities and Local Government when she plans to reply to the letter of 20 June 2007 from the hon. Member for Hertsmere on gypsy and traveller sites in Hertfordshire. [152643]

Mr. Iain Wright: A reply was sent to the hon. Member on 28 June 2007.

Mortgages

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what estimate the Government have made of the number of mortgage lenders who offer fixed rate mortgages for terms of 10 years or longer. [152949]

Mr. Iain Wright: This data is not collected by Communities and Local Government.

Non-Domestic Rates: Agriculture

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the timetable is for her Department's review of the business rate exemptions for agricultural land and buildings. [153512]

John Healey: I refer the hon. Member to the answer I have given to the hon. Member for North-East Bedfordshire (Alistair Burt) on 25 July 2007, *Official Report*, column 1151W.

Ordnance Survey: Publications

Mrs. Lait: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the last technology tracking system report produced by Ordnance Survey. [152387]

Mr. Iain Wright: Ordnance Survey has not produced an internal technology tracking system report since January 2005. These reports were internal management documents.

However the Research and Innovation (Research Labs) division within Ordnance Survey published an annual review of foresight and trends in the development and use of geographic information in September 2006. This document is intended to introduce the work of this division to a wider and external audience.

I have today placed copies of the Ordnance Survey Research Labs Annual Review 2005-06 in the Library of the House.

Planning Inspectorate: Standards

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the effect of delays in setting start dates for appeals is on the Planning Inspectorate's performance against the ministerial targets on timeliness. [152823]

Mr. Iain Wright: None. Ministerial timeliness targets for appeals are based on the starting date and not the date when the appeal is received.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government at what point in time consideration of an appeal by the Planning Inspectorate is deemed to have commenced for the purpose of the Inspectorate's performance statistics. [152824]

Mr. Iain Wright: For statistical purposes, an appeal is deemed to have commenced from the date written notice is given by the Planning Inspectorate to the appellant and the local planning authority that all the documents required to enable the appeal to proceed have been received (the "starting date").

Planning Permission

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many planning applications have been drawn to her attention as a consequence of the provisions of section 8 of planning circular 04/06; and what her decision was on whether to call in the application in each case. [152945]

Mr. Iain Wright: Five planning applications have been referred to the Secretary of State under Circular 04/2006. One application has been called in, three have not, and one remains under consideration.

Planning Permission: Flood Control

Mrs. Lait: To ask the Secretary of State for Communities and Local Government how many planning applications in England for development on floodplains have been *(a)* refused and *(b)* approved by the Planning Inspectorate in the last 12 months. [152946]

Mr. Iain Wright: The Planning Inspectorate does not record the information centrally. It cannot be retrieved without disproportionate cost.

Planning: Appeals

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what changes the Planning Inspectorate has made to the practice of setting start dates from when an appeal is received in the last 24 months. [152700]

Mr. Iain Wright: None.

Planning: Electromagnetic Fields

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government what plans she has to implement the recommendations of the Stakeholder Advisory Group on Electro-magnetic Fields' report to ensure that magnetic fields below power lines do not exceed 0.4mT. [151473]

Malcolm Wicks: I have been asked to reply.

I am grateful to the Stakeholder Advisory Group on Extremely Low Frequency Electric and Magnetic Fields for all the hard work that has gone into the production of its report. The Government will now need to consider the implications of the report's conclusions and recommendations.

Refuges: East Sussex

Mr. Waterson: To ask the Secretary of State for Communities and Local Government how many women were recorded as being housed in refuges and safe houses in *(a)* Eastbourne and *(b)* East Sussex in each of the last 10 years. [151427]

Mr. Iain Wright: The Department does not hold a total figure centrally.

Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level. The duty owed to a household accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available the authority may secure temporary accommodation until settled accommodation is provided.

One type of temporary accommodation is women's refuges. A breakdown by local authority of reported households in women's refuges under homelessness provisions at the end of March from 1998 to 2007 has been placed in the Library of the House. The local authorities that make up East Sussex are: Eastbourne borough council, Hastings borough council, Lewes district council, Rother district council, and Wealden district council

Women may also enter refuges without going through the statutory homelessness route. Many women's refuges receive Supporting People funding, and records of new entrants to Supporting People funded services are submitted by service providers on the client record form.

Data from the client record form are published on the Centre for Housing Research's website. for financial years and at administrative authority level. This includes the number of new clients entering Supporting People funded women's refuges, for service providers in each of the administrating authorities, including East Sussex county council, from 2003-04 to 2006-07, and is available at

http://ggsrv-cold.st-andrews.ac.uk/spclientrecord/

Regional Planning and Development: South East Region

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what plans she has to amend the draft Regional Spatial Strategy for the South East by increasing the annual building target above 29,000 a year. [152677]

Mr. Dhanda: Proposed changes to the draft regional spatial strategy for the South East of England will be published following the receipt and publication of the panel's recommendations resulting from the examination in public.

The proposed changes will be consulted on and representations on the changes considered, before the final version of the RSS is approved and published.

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether she plans to amend the South East England Regional Assembly's draft Regional Spatial Strategy. [152679]

Mr. Dhanda: Proposed changes to the draft regional spatial strategy for the South East of England will be published following the receipt and publication of the panel's recommendations resulting from the examination in public.

The proposed changes will be consulted on and representations on the changes considered, before the final version of the RSS is approved and published.

Smoking: Planning Permission

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether outdoor smoking shelters require planning permission; and what guidance her Department has given to local planning authorities on them. [152854]

Mr. Iain Wright: Outdoor smoking shelters will normally require planning permission although freestanding awnings and canopies may not. While Communities and Local Government has not issued specific guidance, leaving specific matters to the discretion of local authorities and particular local considerations, the Department of Health has worked closely with the Planning Officers' Society to produce guidance for local planning authorities on this issue.

Thames Gateway

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what assessment she has made of the concerns raised about the Thames Gateway project in the evidence taken by the Public Accounts Select Committee at its meeting on 13 June 2007, HC 693-i. [152663]

Mr. Iain Wright: I refer the Hon. Member to the answer given to the hon. Member for Leyton and Wanstead (Harry Cohen) on 25 July 2007, *Official Report*, column 1155W.

Travelling People

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the *(a)* title and *(b)* date was of the European Court of Human Rights ruling which requires legislation proposed to be introduced in the forthcoming Housing and Regeneration Bill. [152939]

Mr. Iain Wright: The European Court of Human Rights ruling which the Government's draft legislative programme proposes to implement in a Housing and Regeneration Bill is that in the case of Connors v. United Kingdom, given on 27 May 2004.

Unitary Councils

Angela Browning: To ask the Secretary of State for Communities and Local Government whether it is her policy to approve unitary status only for those councils which command broad stakeholder support. [152153]

John Healey: I refer the hon. Member to my written statement of 25 July 2007, *Official Report*, column 68WS. Our Invitation to Councils makes clear proposals will proceed towards implementation only if they were judged to meet the five criteria, one of which is that proposals must be supported by a broad cross section of partners and stakeholders.

Urban Areas: Wind Power

Mike Wood: To ask the Secretary of State for Communities and Local Government (1) what her Department's policy is on siting wind turbines in urban areas; [152750]

(2) what planning guidance her Department issues to local authorities on requests for permission to site wind turbines in urban areas. [152757]

Mr. Iain Wright: We consulted earlier this year on a new Planning Policy Statement (PPS) on planning and climate change. This sets out our proposals for how planning should contribute to reducing emissions, and make a full contribution to delivering the Government's Climate Change Programme and energy policies. This includes giving greater emphasis to local renewable sources for supplying the energy needs of new developments and looking favourably on proposals for renewable energy including the use of wind turbines.

The draft PPS builds on our policies in PPS22 "Renewable Energy" which state that renewable energy developments should be capable of being accommodated throughout England in locations where the technology is viable, and environmental, economic, and social impacts can be addressed satisfactorily. PPS22 sets out the detailed considerations applicable to determining planning applications for renewable energy projects, including wind turbines. PPS22 is supported by a Companion Guide that provides practical advice for considering proposals for renewable energy.

Valuation Office: Databases

Mrs. Lait: To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency submitted a bid to the tendering process to set up and maintain the *(a)* home condition report database and *(b)* energy performance certificate database. [152547]

Mr. Iain Wright: No such bid was submitted by the Valuation Office Agency.

DUCHY OF LANCASTER

Correspondence: Cabinet Office

Mr. Carmichael: To ask the Chancellor of the Duchy of Lancaster how many items of correspondence were received by Cabinet Office Ministers from right hon. and hon. Members in *(a)* 2005 and *(b)* 2006; what the target time for replying to such correspondence is; and how many replies were sent within the target time. [153009]

Edward Miliband: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/ Peers correspondence. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. The report for 2005 was published on 30 March 2006, *Official Report*, columns 75-78WS.

Departments: Air Conditioning

Chris Huhne: To ask the Chancellor of the Duchy of Lancaster how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151981]

Phil Hope: Information on how much the Cabinet Office and its agencies has spent on air conditioning units prior to 2006-07 can be provided only at disproportionate costs.

The Cabinet Office has not spent any money on the hire of mobile air conditioning units in the financial years 2006-07 and 2007 to date.

Departments: Community Development

Margaret Moran: To ask the Chancellor of the Duchy of Lancaster (1) which social enterprises, excluding registered social landlords, have contracts awarded by his Department; and what the value is of each such contract; [152265]

(2) with which social enterprises his Department has contracts; and what the value of each contract is. [150106]

Phil Hope: Businesses that are awarded contracts by my Department are not currently required to state whether they are social enterprises and no detailed central record of contracts awarded is held. Therefore the information for my Department as a whole is only available at disproportionate cost.

However, since 1 April 2007, the Office of the Third Sector within the Cabinet Office has contracted, or provided grants to, with the following social enterprises and social enterprise representative bodies either on strategic partnerships and/or for other services at a total cost of £2,821,300:

CAN
Cats Pyjamas
Co-operatives UK
Development Trusts Association
Pack-It
Plunkett Foundation
Prowess
School for Social Entrepreneurs
Social Enterprise Coalition
Social Enterprise London
Social Firms UK

Departments: Energy

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what the energy consumption was of the Cabinet Office *(a)* in total and *(b)* per square metre of building occupied in each year from 2001 to date. [151260]

Phil Hope: The energy consumption for the Cabinet Office *(a)* in total and *(b)* per square metre of building occupied in each year from 2001 to date is shown in the table.

	Total kWh	*kWh/Sq m*
2000-01	21,849,695	335
2001-02	24,637,107	329
2002-03	23,100,770	273
2003-04	20,053,061	232
2004-05	23,901,966	245
2005-06	20,830,010	274

Departments: Official Cars

Norman Baker: To ask the Chancellor of the Duchy of Lancaster how many vehicles are *(a)* owned and *(b)* leased by (i) the Cabinet Office and (ii) the Prime Minister's Office, broken down by (A) fuel type and (B) engine cubic capacity. [151265]

Phil Hope: The Prime Minister's Office forms an integral part of the Cabinet Office. The information requested is shown in the tables.

Vehicles owned by the Department

Number of vehicles	*Fuel type*	*Engine cubic capacity*
1	Hybrid	1,497
1	Diesel	2,500

Vehicles Leased by the Department

Number of vehicles	*Fuel Type*	*Engine Cubic Capacity*
9	Hybrid	1,497
2	Petrol	2,792
1	Petrol	2,497
1	Petrol	1,999

Office of the Deputy Prime Minister: Standards

Mrs. Lait: To ask the Chancellor of the Duchy of Lancaster which public service agreement targets were *(a)* met and *(b)* missed by the Office of the Deputy Prime Minister in the 12 months prior to it being disbanded. [152676]

Edward Miliband: The Deputy Prime Minister's Office had no public service agreement targets of its own, but in its role co-ordinating Government policy made an important contribution to the delivery of PSA targets across Government.

Office of the Third Sector

Mr. Love: To ask the Chancellor of the Duchy of Lancaster (1) what process the Office of the Third Sector will adopt to ensure that funding for social enterprise research reaches the most appropriate academics; [151338]

(2) if the Office of the Third Sector will commission research into the way social enterprises operate in and impact upon markets; and if he will make a statement; [151336]

(3) how much the Office of the Third Sector is expected to spend on research into social enterprise in 2007-08; and if he will make a statement. [151335]

Phil Hope: When commissioning research the Office of the Third Sector (OTS) uses its networks and formal academic channels to ensure funding is distributed to research which is original, of value to us and the sector, and of the highest level of academic excellence. In addition it is our practice to be transparent in our commissioning, including research.

The OTS commissioned Hull University to undertake a feasibility study of developing a method for understanding the economic and impact of social enterprise (published January 2007). Other research already undertaken includes:

IFF Research (2005) "A survey of social enterprise across the UK"

GHK (2005) "Review of the Social Enterprise Strategy"

"Annual Small Business Survey 2005 (published 2006)"

"BS Household Survey of Entrepreneurship 2005 (published 2006)"

Copies of these will be placed in the Library for the reference of Members.

During 2007-08 OTS expects to deliver on the initial commitments made in the Social Enterprise Action Plan, published in November 2006, to undertake targeted "think pieces" and other ad hoc pieces of research which explore the role, innovation, value and impact of social enterprises at a cost of around £100,000. Other research commissioned in 2007-08 includes:

Two action research projects, costing £200,000 in total, to investigate ways to connect investors interested in a blended social and financial return with Social Enterprises needing finance.

A small scoping study costing £20,000 on social enterprise networks being undertaken by Rocket Science.

Olympic Games: Greater London

Sandra Gidley: To ask the Minister for the Olympics what funding has been allocated to *(a)* Hampshire and *(b)* Southampton in preparation for the 2012 Olympic Games; and what assessment she has made of the potential long-term effects on the people of Hampshire of the Olympics. [151045]

Tessa Jowell: The South East Partnership for the 2012 Games has set out clearly what it can offer and what it intends to gain from the 2012 Games in its regional plan: 'Compete, Create, Collaborate'. The South East Partnership has identified three key priorities: to build on its strengths, to showcase its 'world class' offer, and to create a sustainable legacy. In order to co-ordinate and drive forward this work the South East England Development Agency and Sport England South East have appointed a South East Co-ordinator for the 2012 Games. In addition and in order to drive forward the delivery of the Cultural Olympiad in the south-east, the Department for Culture, Media and Sport is joint funding a Creative Programmer post in the region.

We are in the process of setting up an independent charity, the Legacy Trust, with £40 million lottery and grant in aid, to ensure a UK-wide celebration of the Games. The Legacy Trust has committed to providing a fair proportion of its funding for each region.

NORTHERN IRELAND

Bloody Sunday Tribunal of Inquiry: Costs

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what the cost of the Saville inquiry has been to date; when he expects it to report; and if he will make a statement. [150935]

Mr. Woodward: The cash spend on the Bloody Sunday inquiry was £178.264 million at the end of April 2007.

The preparation of the inquiry report is a matter for the tribunal. Due to the vast amount of evidence that must be considered, it is difficult at this stage to be precise about when the report will be presented to me, although I am advised that this is unlikely before the end of this calendar year and some further time may be needed beyond that.

Department: Legislation

Mr. Clegg: To ask the Secretary of State for Northern Ireland what legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149724]

Paul Goggins: The Northern Ireland Office has introduced 25 Bills since 1997.

Commenced in full.

Northern Ireland Arms Decommissioning Act 1997
Northern Ireland (Elections) Act 1998 (this has been repealed)
Northern Ireland (Emergency Provisions) Act 1998 (this has been repealed)
Northern Ireland (Sentences) Act 1998
Public Processions (Northern Ireland) Act 1998
Northern Ireland (Location of Victims' Remains) Act 1999
Northern Ireland Act 2000 (this has been repealed)
Electoral Fraud (Northern Ireland) Act 2000
Northern Ireland Arms Decommissioning (Amendment) Act 2002
Northern Ireland Assembly Elections Act 2003
Northern Ireland Assembly (Elections and Periods of Suspension) Act 2003
Northern Ireland (Monitoring Commission etc.) Act 2003
Electoral Registration (Northern Ireland) Act 2005 (this has been repealed)
Northern Ireland Act 2006 (this has been repealed)
Terrorism (Northern Ireland) Act 2006
Northern Ireland (St. Andrews Agreement) Act 2007

Partially commenced:

Police (Northern Ireland) Act 1998
Northern Ireland Act 1998
Police (Northern Ireland) Act 2000
Justice (Northern Ireland) Act 2002
Police (Northern Ireland) Act 2003
Justice (Northern Ireland) Act 2004
Northern Ireland (Miscellaneous Provisions) Act 2006
Northern Ireland (St. Andrews Agreement) 2006
Justice and Security (Northern Ireland) Act 2007

Mr. Clegg: To ask the Secretary of State for Northern Ireland what legislative provisions introduced by his Department since 1997 have been repealed. [149725]

Paul Goggins: The Northern Ireland Office has introduced 25 Bills since 1997.

Repealed in full:

Northern Ireland (Elections) Act 1998
Northern Ireland (Emergency Provisions) Act 1998
Northern Ireland Act 2000
Electoral Registration (Northern Ireland) Act 2005
Northern Ireland Act 2006

Partially repealed:

Northern Ireland Act 1998
Police (Northern Ireland) Act 1998
Police (Northern Ireland) Act 2000
Justice (Northern Ireland) Act 2002
Northern Ireland Assembly Elections Act 2003
Northern Ireland (St. Andrews Agreement) Act 2006

Departments: Agencies

Mrs. May: To ask the Secretary of State for Northern Ireland how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151681]

Paul Goggins: The information required to enable the Northern Ireland Office to answer this question is not readily available. The collation of such information falls within the disproportionate cost threshold of £700.

Most Northern Ireland Office recruitment is carried out free of charge by Northern Ireland Recruitment Service, an Agency of the Department of Finance & Personnel. Recruitment consultants are used only where Recruitment Service competitions fail to produce suitable candidates or where executive searches are required to identify suitably skilled and experienced applicants.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Northern Ireland how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151972]

Paul Goggins: The Public Prosecution Service in Belfast hired a small number of mobile air conditioning units in May 2004 at a cost of £500. Other than this, the NIO and its agencies have not hired mobile air conditioning units in any of the last five years.

Departments: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Northern Ireland how much his Department has spent on hospitality events in each of the last five years. [152825]

Paul Goggins: The following table illustrates the amount the Northern Ireland Office (NIO), excluding its Agencies and Executive NDPBs, has spent on hospitality in each of the last five years.

Expenditure from the NIO's hospitality budgets includes general living costs for Ministers, and official visitors staying at Hillsborough Castle and Stormont House. In addition to its own use, the NIO permits a wide range of organisations to use the facilities at

Hillsborough Castle for a variety of events. These organisations include; other NI Government Departments, the Prison Service, the Police Service, the armed services, and a variety of charitable organisations. Disaggregating the overall figures would only be possible at disproportionate cost. Customers using Hillsborough Castle and Stormont House are charged for the services they receive. The table also illustrates how the recoupment offsets the expenditure.

£

	2002-03	2003-04	2004-05	2005-06	2006-07
Hospitality expenditure	363,755	319,741	258,436	299,634	404,476
Recouped from customers	63,325	67,583	64,986	88,862	141,843
Actual amount spent on NIO hospitality	300,430	252,158	193,450	210,772	262,633

Departments: Travel

Mr. Hoban: To ask the Secretary of State for Northern Ireland how much was spent by his Department on first class train tickets in the last 12 months. [153063]

Paul Goggins: £18,919 was spent on first class rail tickets in 2006-07 (this is the last 12 months for which audited expenditure figures are available).

Monuments: County Armagh

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the case for the creation of a permanent memorial in the village of Bessbrook, County Armagh to recognise the service and sacrifice of the military in the South Armagh area following the closure of the Bessbrook Mill base. [149073]

Paul Goggins: The Government recognise the service and sacrifices made by the military in South Armagh which has made a substantial contribution to the progress that has taken place in NI. Ministers have agreed to consider how best this should be recognised and I will write to the hon. Lady once this has been completed.

Prisoners Release

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many prisoners were released from each prison in Northern Ireland before completing their full sentences in each month since January. [152480]

Paul Goggins: I am not aware that any prisoner has, since January, been formally discharged from Northern Ireland prisons before completing their sentences. However, with my agreement one prisoner was temporarily released under the prison rules to enable transfer to Cheswold Park hospital, England, to receive specialised treatment, prior to completing his full sentence.

Prisoners: Proscribed Organisations

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how much was paid to prisoners in Northern Ireland who were imprisoned for scheduled offences connected to a paramilitary organisation in each year since 1998. [149806]

Paul Goggins: Prior to November 2000, prisoners were paid for being employed within the prison regime amounting to approximately £10 per week. Those listed as not employed received a basic payment of £4. In November 2000, the progressive and earned privileges scheme (PREPS) system was introduced, which is a three-tier regime designed to encourage prisoners to improve their behaviour and engage in constructive activity. Under this system, payments are currently made as follows:

Basic regime level—£6

Standard regime level—up to £11

Enhanced regime—up to £20.

The amount received by each prisoner is not held centrally and cannot be broken down for scheduled offences. This could be provided only at disproportionate cost

SCOTLAND

Departments: Agencies

Mrs. May: To ask the Secretary of State for Scotland how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151669]

David Cairns: The Scotland Office was established on 1 July 1999. Since that date, the Office has not spent any money with recruitment agencies for permanent staff; the costs for temporary staff are in the following table.

	£
1999-2000[1]	2,135
2000-01	68,404
2001-02	55,534
2002-03	60,601
2003-04	54,017
2004-05	7,098
2005-06	—
2006-07	8,190

[1] part year

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Scotland how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151978]

David Cairns: Nothing.

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Scotland what proportion of people employed by his Department are disabled. [153602]

David Cairns: This information is published in the annual report of the Scotland Office, a copy of which has been placed in the House Library.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Scotland how much was spent by his Department on flowers in the last 12 months. [153199]

David Cairns: The Scotland Office does not maintain a central record of flowers purchased.

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for Scotland how many press officers are employed by his Department. [153203]

David Cairns: This information is published in the annual report of the Scotland Office, a copy of which has been placed in the House Library.

Departments: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Scotland how much his Department has spent on alcoholic drinks for receptions in each of the last five years. [152828]

David Cairns: I refer the hon. Member to the reply given on 17 July 2007, *Official Report*, column 188W.

The Scotland Office keeps no separate record of hospitality expenditure of category of provision.

Dover House: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Scotland, pursuant to the answer of 17 July 2007, *Official Report*, column 188W, on Dover House: official hospitality, how many receptions held at Dover House in each of the last five years were organised and funded by *(a)* trade unions, *(b)* charities, *(c)* businesses and *(d)* other types of organisation; and what income his Department received from charges for the use of facilities for receptions in each of the last five years. [152010]

David Cairns: The third party receptions held at Dover House may be categorised in the following table.

	Trade unions	*Charities*	*Other types of organisation*
2006-2007	0	5	20
2005-2006	0	3	8
2004-2005	1	4	19
2003-2004	0	4	10
2002-2003	1	2	18

None of the events listed above was organised and funded by any commercial business. The Scotland Office received no income for any of these events.

Sewel Motions

Mr. Wallace: To ask the Secretary of State for Scotland what procedure the Government uses to notify the Scottish Parliament of its desire for a Sewel motion to be considered by the Parliament; and what involvement the Scottish Executive has in the process. [151259]

David Cairns: In line with Devolution Guidance Note 10, it is for the Scottish Executive to indicate the views of the Scottish Parliament in relation to a provision or provisions in UK Bills that trigger the Sewel Convention and to take whatever steps are appropriate to ascertain that view. I expect these arrangements to continue.

TREASURY

Customs: Tour de France

Bob Spink: To ask the Chancellor of the Exchequer what the customs arrangements were for the Tour de France UK leg in terms of drugs and medicines being *(a)* brought in and *(b)* taken out of the UK by teams. [150810]

Jane Kennedy: The organisers and competitors in the Tour de France and their associated personnel were subject to the normal regulatory and anti-smuggling controls both at entry into and departure from the UK.

Departments: Redundancy Pay

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on redundancy payments in the last 12 months. [153165]

Angela Eagle: I refer the hon. Member to the answer given to him on 21 June 2007, *Official Report*, column 2140W.

Employment: Yorkshire and Humberside

Hugh Bayley: To ask the Chancellor of the Exchequer how many *(a)* men and *(b)* women were in work in (i) City of York parliamentary constituency, (ii) City of York Council area and (iii) Yorkshire and the Humber in (A) May 1997 and (B) each year since. [152205]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many (a) men and (b) women were in work in (i) City of York parliamentary constituency, (ii) City of York Council area and (iii) Yorkshire and the Humber in (A) May 1997 and (B) each year since. (152205)

The Office for National Statistics (ONS) compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation (ILO) definitions.

Table 1, attached, shows the number of men and women, aged 16 and over, resident in the City of York constituency, who were in employment, for the 12 months ending in February for 1997 to 2004 from the local area LFS and for the 12 months ending in March for 2005 and 2006, from the APS. Corresponding headline employment rates, for persons of working age (males aged 16 to 64 and females aged 16 to 59), are also provided. The working-age employment rates allow changes to be seen in the context of changing population numbers. Table 2 shows corresponding data for the City of York Unitary Authority and Table 3 for Yorkshire and the Humber.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. In this case, for the City of York constituency and the City of York Unitary Authority, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over the period.

Table 1: Employment by sex: City of York parliamentary constituency

Thousand

	Men		Women		Total	
12 months ending	Level[1]	Rate[2] (percentage)	Level[1]	Rate[2] (percentage)	Level[1]	Rate[2] (percentage)

HM Revenue and Customs: Debt Collection

Julia Goldsworthy: To ask the Chancellor of the Exchequer how many HM Revenue and Customs debt recovery offices closed in each year since 2001, broken down by parliamentary constituency. [152793]

Jane Kennedy: HM Revenue and Customs has not closed any debt recovery offices since it was created in 2005.

Prior to that in 2001 a total of 12 former Customs and Excise debt recovery offices were closed in the following parliamentary constituencies:

Bristol East, Canterbury, Oxford East, Poole, Spelthorne, Woking, Maidenhead, Reading East, Portsmouth South, Plymouth Devonport, Uxbridge and Brent South

In 2002 a total of three former Customs and Excise debt recovery offices were closed in the following parliamentary constituencies:

Islington South and Finsbury, Finchley and Golders Green and Shrewsbury and Atcham

The former Inland Revenue has not closed any debt recovery offices since 2001.

HM Revenue and Customs: Manpower

Danny Alexander: To ask the Chancellor of the Exchequer how many staff of HM Revenue and Customs were employed in *(a)* call centres and *(b)* frontline offices in each of the last 10 years for which figures are available. [152811]

Jane Kennedy: The following table provides the estimated number of full-time equivalent staff (FTE) employed in HMRC's centrally managed contact centre network[1] and face to face inquiry centres. Information for earlier years is not readily available.

HMRC came into being in April 2005 and the figures shown in the table prior to this refer to the former Inland Revenue only. Figures in respect of the former HM Customs and Excise are not readily available.

As at end of	*Contact centres total FTE*	*Face to face total FTE*
Former Inland Revenue		
April 2003	4,578	n/a
April 2004	6,446	n/a

HMRC	
April 2005	8,215
April 2006	8,709
April 2007	10,120

Identity Cards: Advisory Services

Chris Grayling: To ask the Chancellor of the Exchequer what estimate he has made of the costs so far incurred on advisory services in relation to the development of the identity card scheme. [152457]

Meg Hillier: I have been asked to reply.

I refer the hon. Member to my predecessor's answer to the hon. Member for Rayleigh (Mr. Francois) on 19 June 2007, *Official Report*, column 1778W.

Office for National Statistics: Manpower

Dr. Cable: To ask the Chancellor of the Exchequer how many people work in the division of the Office for National Statistics responsible for producing consumer price index and retail prices index figures; how many of these have agreed to relocate to Newport; and if he will make a statement. [152711]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many people work in the division of the Office for National Statistics that is responsible for producing consumer price index and retail prices index figures; how many of these have agreed to relocate to Newport.(152711)

The London division responsible for producing consumer price index and retail prices index figures had a staff complement of 34. A number of staff are considering relocating, although final decisions are not required until after the summer. It is anticipated that the corresponding Newport team will include up to six people with experience of working on the CPI and RPI in London.

Planning Gain Supplement

Mrs. Lait: To ask the Chancellor of the Exchequer how revenue from planning gain supplement is planned to be allocated to local authorities in two-tier areas. [152522]

Angela Eagle: Budget 2007 stated (paragraph 3.149) that, in England, the local share of planning-gain supplement (PGS) would be paid directly to the local planning authority that granted the planning permission to which the PGS liability is attached. It added that the Government will consider whether special arrangements should be made where there exists a special purpose vehicle with planning powers (such as an urban development corporation) and for consents granted by county authorities.

Mrs. Lait: To ask the Chancellor of the Exchequer what estimate he has made of the likely cost of administering planning-gain supplement for *(a)* HM

Revenue and Customs, *(b)* the Valuation Office Agency and *(c)* local authorities in the first 12 months after it comes into effect. [152523]

Angela Eagle: The costs of administering the planning-gain supplement would be developed in the course of planning and carrying out preparatory work if the Government decide to introduce the planning-gain supplement. The PGS regime is being designed to be simple and cost-effective to administer and it is expected that the unit cost of collecting PGS would be similar to the unit costs of collecting other taxes administered by HMRC.

Further details can be found in the Explanatory Notes to the Planning-gain Supplement (Preparations) Act 2007.

Mrs. Lait: To ask the Chancellor of the Exchequer what proportion of revenues from planning gain supplement is planned to be retained by the Government. [152525]

Angela Eagle: Details of the proposed allocation of PGS revenues to regions and local authorities were most recently set out in the Housing Green Paper "Homes for the future: more affordable, more sustainable", Chapter 5, page 54. Full details may also be found in Budget 2007, paragraphs 3.149 to 3.152 and (in respect of the devolved Administrations) in the 2006 pre-Budget report paragraph 3.124.

Private Finance Initiative

Mr. Rob Wilson: To ask the Chancellor of the Exchequer how much was spent from the public purse on the Government's private finance initiative contracts in each of the last 10 years; and what proportion was for *(a)* hospitals, *(b)* schools, *(c)* road building, *(d)* housing and *(e)* other projects, broken down by category. [152473]

Angela Eagle: The Treasury's PFI signed deals list provides unitary charge (UC) payment data, broken down by sector and with project details. This is available on the Treasury's public website at: http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

It should be noted that UC payments are projections which are conditional on project performance. UC payments cover not only the repayment of capital but also service provisions, inflation uplifts, and other project specific requirements such as refurbishments.

Public Sector: Pensions

Chris Grayling: To ask the Chancellor of the Exchequer how many people are eligible to receive a public sector pension. [152616]

Andy Burnham: The Occupational Pension Schemes Survey (2006) published by the Office for National Statistics showed that there were around 1.1 million members in public sector schemes. These include active members, those whose pensions are in payment and those entitled to a deferred pension.

Public sector schemes include schemes for the civil service, the armed forces, teachers, employees of the national health service and local authorities, police officers and firefighters as well as some other smaller schemes. Details of the survey can be found at:

http://www.statistics.gov.uk/pdfdir/opss0707.pdf

Public Works Loan Board

Mrs. Lait: To ask the Chancellor of the Exchequer what controls exist on the amount of borrowing that local authorities can undertake from the Public Works Loan Board. [152664]

Angela Eagle: Loans advanced by the Public Works Loan Board are made from funds provided under section 4(1) of the National Loans Act 1968. Amended by section 130 of the Finance Act 1990, this sets an existing limit of £55 billion (nominal) on the total loans outstanding to the board at any one time, but also contains a provision to alter the limit further to a sum not exceeding £70 billion (nominal).

Mrs. Lait: To ask the Chancellor of the Exchequer what consent from central government departments local authorities require to borrow funds from the Public Works Loan Board. [152665]

Angela Eagle: The Local Government Act 2003 allows main (first and second tier) local authorities to set and keep under review their own borrowing limits. Minor (third tier) authorities in England require the specific delegated permission of the Secretary of State (Parish and Town Councils in England) or the Welsh Assembly Government (Community and Town Councils in Wales) to borrow.

Self-Employed: Working Hours

Chris Grayling: To ask the Chancellor of the Exchequer what estimate he has made of the average amount of time worked each week by self-employed people in the UK. [152618]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your parliamentary question about the average amount of time worked each week by self-employed people in the United Kingdom. (152618)

The attached table gives the average usual weekly hours worked by self-employed people, for the three month period ending March 2007. These estimates have not been seasonally adjusted.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Average usual weekly hours[1] of work of the self-employed: United Kingdom, not seasonally adjusted

Three months ending March 2007	*Average usual hours[1]*
Total	39.5
Male	43.2
Female	29.6

[1] Respondents to the LFS are asked to state the weekly hours they usually work. The figures in this table cover main jobs only and include paid and unpaid overtime.

Stamp Duties: Tax Yields

Alistair Burt: To ask the Chancellor of the Exchequer (1) how much revenue was raised on stamp duty on property in 2006-07 in *(a)* the United Kingdom and *(b)* England; [150630]

(2) how much revenue was received from stamp duty on *(a)* residential property and *(b)* business property in the United Kingdom in 1996-97; and how much is expected to be received in 2007-08. [150674]

Kitty Ussher: Estimated stamp duty receipts for 1996-97 for the United Kingdom are given in the following table.

	(£ million)
Residential	675
Non residential	383
Total	1,058

Estimated revenues for total stamp taxes in 2006-07 and projected revenues for total stamp taxes in 2007-08 were published in Table C8 of the Budget 2007 report. The breakdown between stamp taxes on land and property and stamp taxes on shares is as follows:

Stamp taxes on land and property transactions

	£ billion
2006-07	9.7
2007-08	10.6

Final figures for stamp duty land tax receipts for 2006-07, including a break down between residential and non-residential, together with national and sub-national breakdowns will be published in September 2007 for 2007-08 it will be published in September 2008.

Tax Allowances: Repairs and Maintenance

Harry Cohen: To ask the Chancellor of the Exchequer if he will give consideration to introducing tax reliefs for exterior building cleaning. [152610]

Jane Kennedy: Tax relief is already available to businesses where they incur expenditure on cleaning the exterior of their business premises.

Taxation

Dr. Cable: To ask the Chancellor of the Exchequer if he will estimate *(a)* direct and *(b)* indirect taxes as a percentage of gross income for all households by income decile; and if he will make a statement. [152710]

Jane Kennedy: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your recent question asking the Chancellor of the Exchequer, if he will estimate *(a)* direct and *(b)* indirect taxes as a percentage of gross income for all households by income decile. (152710).

Estimates of household income and related taxes are provided in the ONS analysis 'The effects of taxes and benefits on household income'. The latest analysis for 2005/06 was published on the National Statistics website on 17th May 2007 at http://www.statistics.gov.uk/taxesbenefits. The analysis is based on data from the Expenditure and Food Survey, which is a sample survey covering approximately 7,000 households in the UK.

The table below shows the average direct and indirect tax paid by households in each income decile group as a percentage of gross household income. They have been calculated from the numbers appearing in Table 14 of the taxes and benefits analysis.

Gross income includes income from wages, occupational pensions, self-employment income, investment income, and income from state benefits, all before tax. Direct taxes include income tax, national insurance contributions and council tax. The indirect taxes include VAT, duties, and a number of smaller items such as television licences. Indirect taxes also include intermediate taxes - these are indirect taxes paid by companies which are deemed to be passed onto households through the prices they pay for goods and services. A more detailed breakdown showing each of the different taxes appears in the annual article.

Indirect taxes, when expressed as a proportion of gross income appears particularly high for the bottom income decile, although this result needs to be interpreted carefully. Estimates of indirect taxes are estimated based on household expenditure. It should be remembered that measured expenditure will not necessarily balance with measured income for the year. This is especially true for the bottom income decile where average measured income is significantly lower than average expenditure. For these households, indirect taxes (which reflect expenditure) are not being met solely from current income, and so indirect taxes are very high when expressed as a proportion of gross income.

There are a number of plausible reasons why for some households, expenditure might exceed income. Households with low incomes may draw on their savings or borrow in order to finance their expenditure. In addition, the lower decile in particular includes some groups, who have, or report, very little income (for example, self-employed people starting a business or someone who has just been made redundant). In these cases, expenditure is not being met from current income. Some types of receipts are not included as income in the EPS e.g. inheritance and severance payments. In some cases, the information given on expenditure is not consistent with that on income received because of timing differences.

Taxes as a percentage of gross income, for all households by decile group, United Kingdom, 2005-06

Percentage

	Decile groups of all households[1]										
	Bottom	*2nd*	*3rd*	*4th*	*5th*	*6th*	*7th*	*8th*	*9th*	*Top*	*All households*
Indirect taxes[2]	33.6	22.6	20.3	18.1	17.1	16.2	14.8	14.1	12.5	9.8	14.5
Direct taxes[3,4]	10.6	8.8	12.3	13.7	16.6	19.1	20.9	21.5	23.6	25.4	20.6
All taxes	44.2	31.4	32.6	31.8	33.7	35.3	35.7	35.6	36.1	35.2	35.1

Notes:

1 Households are ranked by equivalised disposable income.

2 Includes VAT, Vehicle Excise duty and taxes on tobacco, alcohol and hydrocarbon oil.

3 Income tax and Employees' National contributions (Including tax relief at source on life assurance premiums).

4 Council tax and Northern Ireland rates after deducting

Taxation: Domicile

Dr. Cable: To ask the Chancellor of the Exchequer what changes have been made to residence and domicile rules relating to taxation as a consequence of the review of such rules launched in Budget 2002; and if he will make a statement. [151769]

Jane Kennedy: No changes have been made to the residence and domicile rules that govern personal taxation since the review, which was announced at Budget 2002, and is still on-going.

Dr. Cable: To ask the Chancellor of the Exchequer (1) when the last estimate of the tax foregone in the UK as a consequence of the use of the remittance basis by those not domiciled in the UK was made; and if he will make a statement; [151770]

(2) how many individuals claiming non-domicile tax status were born to parents whose parents were born in the UK; and if he will make a statement; [151909]

(3) how many individuals claiming non-domicile tax status were born to parents who were born in the UK; and if he will make a statement; [151910]

(4) how many individuals claiming non-domicile tax status were born in the UK; and if he will make a statement; [151911]

(5) if he will estimate how much was paid in *(a)* income tax, *(b)* national insurance contributions, *(c)* capital gains tax, *(d)* VAT and *(e)* council tax, by non domiciled taxpayers in each of the last three years; [151912]

(6) what estimate he has made of the number of penalties likely to arise as a result of non-disclosure of offshore bank accounts; and if he will make a statement; [151914]

(7) if he will estimate the cost of the £55,000 inheritance tax tax-free allowance for transfers of assets to a non-domiciled spouse in each of the last five years for which information is available; and if he will make a statement. [151915]

Jane Kennedy: The information is as follows.

1. No substantiated estimates have been made of the tax foregone in the UK as a consequence of the use of the remittance basis by those not domiciled in the UK, as individuals do not have to provide HM Revenue and Customs with information on overseas income and gains if this does not give rise to a tax liability in the UK. Work towards estimating tax foregone was carried out in 2003, but weakness in the supporting data made these unreliable and the exercise has not been repeated.

2, 3, and 4. This information is not available.

5. *(a)* and *(b)* The estimated tax and national insurance liabilities from self-assessment tax returns for the two latest available years are:

£ billion

Tax year	*Income tax*	*NICs*
2003-04	2.9	0.1
2004-05	3.3	0.2

No such estimate is available for 2002-03.

(c), (d) and (e) The requested information is not available.

6. Over 60,000 account holders have told HMRC they have a disclosure to make. Most of these individuals will pay a penalty of 10 per cent. of the tax they are disclosing. Higher penalties will also be required for those who HMRC hold information on but chose not to notify that they had a disclosure to make.

7. The cost of inheritance tax relief for transfers on death to non-domiciled spouses is estimated to be less than £1 million a year.

Taxation: Gambling

Harry Cohen: To ask the Chancellor of the Exchequer what the estimated turnover and profit of spread betters based in the UK was in 2006-07; how much tax was paid by them in that year; and whether any of them paid no tax in that year. [152614]

Angela Eagle: Revenues from general betting duty are published in the HM Revenue and Customs Betting, Gaming and Lottery Duties Bulletin, available at http://www.uktradeinfo.co.uk/index.cfm?task=bullbett but are not broken down by type of betting.

Unemployment

Mr. Hepburn: To ask the Chancellor of the Exchequer (1) what the rate of *(a)* youth and *(b)* adult (i) employment and (ii) unemployment was in (A) Jarrow constituency, (B) South Tyneside, *(c)* the North East and (D) the UK in each year since 1997; [151944]

(2) how many *(a)* adults, *(b)* women and *(c)* single parents were (i) in work and (ii) unemployed in (A) Jarrow constituency, (B) South Tyneside, (C) the North East and (D) the UK in each year since 1997. [151945]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking what the level of (a) youth and (b) adult (i) employment and (ii) unemployment has been in (A) Jarrow constituency, (B) South Tyneside, (c) the North East and (D) the UK in each year since 1997 and how many (a) adults, (b) women and (c) single parents were (i) in work and (ii) unemployment in (A) Jarrow constituency, (B) South Tyneside, (C) the North East and (D) the UK in each year since 1997. (151944, 151945).

The Office for National Statistics (ONS) compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation (ILO) definitions.

Table 1, attached, shows the number of males, females and people, who were (i) aged 16 and over, (ii) young persons aged 16 to 24 and (iii) persons aged 25 and over, resident in the Jarrow constituency, who were in employment, for the 12 months ending in February for 1997 to 2004 from the local area LFS and for the 12 months ending in March for 2005 and 2006, from the APS. The table also shows employment rates which allow changes to be seen in the context of changing population numbers. Tables 2 to 4 show data for South Tyneside metropolitan borough, the North East and Great Britain respectively.

For unitary and local authorities, the ONS produces estimates of total unemployment, following ILO definitions, from a statistical model. Annual estimates for other areas and breakdowns are compiled from the annual local area LFS and the APS following ILO definitions.

Table 5, attached, shows the number of males, females and people, who were (i) aged 16 and over, (ii) young persons aged 16 to 24 and (iii) persons aged 25 and over, resident in the Jarrow constituency, who were unemployed, for the 12 months ending in February for 1997 to 2004 from the local area LFS and for the 12 months ending in March for 2005 and 2006, from the APS. The table also shows unemployment rates which allow changes to be seen in the context of changing population numbers. Tables 6 to 8 show data for South Tyneside metropolitan borough, the North East and Great Britain respectively.

Table 9, attached, shows employment levels, unemployment levels and rates for lone parents aged 16 and over and employment rates for lone parents of working age, resident in the South Tyneside metropolitan borough, the North East and Great Britain, for the three months ending in June, for the years 1997 to 2006 from the LFS household datasets. Data for the Jarrow constituency are unavailable as Parliamentary Constituency markers are not held in this dataset.

The estimates in Tables 1-9 are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. In this case, the sample sizes for the Jarrow constituency and South Tyneside metropolitan borough are not sufficient to give an accurate estimate of even the direction of the change over time.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 10, attached, shows the annual average number of males, females, people, young persons aged 18 to 24 and persons aged 25 and over, resident in the Jarrow constituency, claiming JSA for 1997 to 2006. Also shown are the total numbers of claimants as percentages of the resident working age population for males, females and all people. These percentages are not readily available for ages 18 to 24 and 25 and over. Tables 11 to 13 show data for South Tyneside metropolitan borough, the North East region and the United Kingdom respectively. Data for single parents are not available in this dataset.

As the information provided is extensive, a copy of the tables has been placed in the House of Commons Library.

Mr. Clappison: To ask the Chancellor of the Exchequer what the *(a)* 20 Parliamentary constituencies and *(b)* 20 local authorities were with the lowest employment rates in the latest period for which figures are available; and what the employment rate was in each case. [152642]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what the (a) 20 Parliamentary constituencies and (b) 20 local authorities were with the lowest employment rates in the latest period for which figures are available; and what the employment rate was in each case. (152642)

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) following International Labour Organisation definitions.

Table 1, attached, lists the 20 parliamentary constituencies, in Great Britain, with the lowest employment rates, for persons of working age, for the 12 months ending December 2006 from the APS. Table 2, attached, lists the 20 local authorities, in Great Britain, with the lowest working-age employment rates for the same period.

These statistics are published each quarter for all parliamentary constituencies and local authorities in the local area labour market statistical indicators publication (accessible from http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14160) and in the Labour Market Statistics regional First Releases (accessible from http://www.statistics.gov.uk/onlineproducts/lms_regional.asp).

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

Table 1: 20 parliamentary constituencies with the lowest working-age employment rates; January 2006 to December 2006

Parliamentary constituency	*Working-age employment rate* (*Percentage*)
Birmingham, Hodge Hill	47
Birmingham, Sparkbrook and Small Heath	47
Birmingham, Ladywood	49
Glasgow Central	52
Liverpool, Riverside	52
Poplar and Canning Town	52
Bethnal Green and Bow	55
East Ham	55
Glasgow North East	57
Hackney South and Shoreditch	57
Bradford West	58
Sheffield Central	58
Bootle	58
Holborn and St. Pancras	58
Walsall North	59
Manchester, Gorton	59
Sheffield, Brightside	59
Birmingham, Erdington	60
Ilford South	60
Hackney North and Stoke Newington	60

Note:
Estimates are subject to sampling variability.

Annual Population Survey.

Unemployment: Social Rented Housing

Mr. Clappison: To ask the Chancellor of the Exchequer what proportion of tenants in social housing were *(a)* unemployed and *(b)* economically inactive in (i) 1997 and (ii) the most recent year for which figures are available. [152600]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question about the proportion of tenants in social housing who were (a) unemployed and (b) economically inactive in (i) 1997 and (ii) the most recent year for which figures are available. (152600)

The attached table shows the numbers and rates of the unemployed and inactive tenants in social housing for 1997 and 2006. The estimates cover the three month period ending December each year, and are not seasonally adjusted. Those in social housing include people in Local Authority, Scottish Homes, New Town Developments, Housing Associations, Co-operatives and Trusts.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Unemployed and economically inactive tenants in social housing[1] 1997 and 2006, United Kingdom, not seasonally adjusted

	Unemployed[2]		Inactive[3]	
Three months ending December each year	Number (000s)	Rate (Percentage)[4]	Number (000s)	Rate (Percentage)[5]
1997	733	19.8	2,400	39.9
2006	580	18.0	2,441	43.8

[1] Social housing includes local authority, Scottish homes, new town developments, housing associations, co-operatives and trusts.
[2] Includes all persons aged 16 and over.
[3] Includes men aged 16 to 64 and women age 16 to 59.
[4] Unemployed people as a percentage of all economically active people who live in social housing.
[5] Economically inactive people of working age as a percentage of all persons of working age who live in social housing.
Source:
ONS Labour Force Survey (LFS).

Unemployment: Young People

Mr. Clappison: To ask the Chancellor of the Exchequer how many 16 to 24-year-olds not in full-time education were economically inactive in each year since 1997; and what proportion of the 16 to 24-year-old age group this represented in each year. [152647]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question, about the levels and proportions of economically inactive people aged 16 to 24 who are not in full-time education for the period since 1997. (152647)

Each month the ONS publishes statistics showing both the level and the rates of employment, unemployment, and inactivity for people age 16-24 who are in full-time education and not in full-time education in the Labour Market Statistics First Release. Table 14 of the First Release has estimates of economically inactive people aged 16-24 who are not in full-time education in column 11, which is available in the attached link.

http://www.statistics.gov.uk/downloads/theme_labour/LMS_FR_HS/WebTable14SA.xls

These estimates are seasonally adjusted and include historical data back to 1992.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Welfare Tax Credits

Ms Buck: To ask the Chancellor of the Exchequer what research his Department has undertaken on the relationship between receipt of tax credits and levels of deprivation. [151706]

Jane Kennedy: HMRC undertakes a range of research about the tax credits system. Details of planned and on-going research as well as research findings are published on the Department's website at: http://www.hmrc.gov.uk/research/

Child and working tax credits provide support to around 6 million benefiting families, helping to lift approx 600,000 children out of child poverty.

Danny Alexander: To ask the Chancellor of the Exchequer what proportion of claims for *(a)* working tax credit and *(b)* child tax credit were made (i) over the telephone, (ii) using a paper form and (iii) in person in each of the last 10 years. [152810]

Jane Kennedy: This information is not available in the format requested. As there is only one form on which to claim tax credits, claims for working tax credit and child tax credit are not recorded separately. All new claims must now be completed on a paper form. The number of paper claims received is around 8,500,000 from 1 November 2002 to 23 July 2007.

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer pursuant to his answer of 3 July 2007, Official Report, column 957W, on welfare tax credits, if he will make it his practice to provide answers including full figures rather than by reference to a website. [152955]

Jane Kennedy: HMRC publish a great deal of information on tax credits and this is available on their website. Where information is already in the public domain, it is our usual practice to refer to this in providing answers to hon. Members parliamentary questions. This allows hon. Members to see for themselves the source of the information and it often contains other details which, while not pertinent to the question, could be of interest to them. In the case of official statistics the website will contain any future updated information.

Young People: Suicide

Dr. Pugh: To ask the Chancellor of the Exchequer how many young people *(a)* under the age of 18 and *(b)* aged 18 to 19 years committed suicide in each of the last five years, broken down by gender. [152718]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 July 2007:

As National Statistician I have been asked to reply to your recent question asking how many young people (a) under the age of 18 and (b) aged 18-19 years committed suicide in each of the last five years, broken down by gender. (152718)

The table below contains numbers of suicides for those aged under 20 by age group and sex in England and Wales from 2001 to 2005, the latest available year.

It is assumed that most deaths from injury/poisoning of undetermined intent at ages 15 and over are cases where the harm was self-inflicted but there was insufficient evidence to prove that the deceased deliberately intended to kill themselves. For this reason, ONS includes in its suicide statistics both those deaths from intentional self-harm, and those from 'injury or poisoning of undetermined intent.' The same cannot be assumed in deaths at ages under 15 and therefore deaths from injury or poisoning of undetermined intent are not included when examining suicide (intentional self-harm) in children. As there were no deaths in children aged under 13 with a suicide verdict

for the period requested, the table shows the number of suicides in children aged 13 to 14, and the number of suicide or injury/poisoning of undetermined intent deaths in those aged 15 to 17 and 18 to 19.

Number of deaths from suicide and injury/poisoning of undetermined intent, ages 13 to 19, England and Wales, 2001 to 2005[1]

	Ages 13 to 14		*Ages 15 to 17*		*Ages 18 to 19*	
	Suicide[2]		*Suicide and injury/poisoning of undetermined intent*[3]		*Suicide and injury/poisoning of undetermined intent*[3]	
	Male	*Female*	*Male*	*Female*	*Male*	*Female*
2001	3	2	43	11	81	17
2002	3	2	43	19	70	17
2003	0	3	34	13	57	15
2004	3	2	31	19	72	26
2005	1	0	26	11	48	17

[1] Figures are for deaths occurring in each calendar year.
[2] The cause of death for suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84.
[3] The cause of death for injury/poisoning of undetermined intent was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes Y10-Y34 excluding Y33.9 where the Coroner's verdict was pending.

FOREIGN AND COMMONWEALTH OFFICE

African Union: EU External Relations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is Government policy that the Prime Minister will not attend the EU-AU Summit in Lisbon this year if Zimbabwean President Robert Mugabe attends the summit; and if he will make a statement. [152309]

Mr. Jim Murphy: Invitations have yet to be issued to the EU-Africa Summit in Lisbon. We are continuing to work with EU colleagues for a solution in line with the EU Common Position. We believe that Robert Mugabe's attendance would be wrong.

Asylum

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when HM High Commission Islamabad received notification from the Home Office of the Asylum and Immigration Tribunal's decision in the case of Mr. M.I., sponsored by Mr. R.A. of Aylesbury (FCO reference 119381; appeal reference VA/31440/2006); and when he expects to issue a visa to Mr. M.I. [146724]

Meg Munn *[holding answer 29 June 2007]:* Following notification from the Asylum and Immigration Tribunal, the visa section at our high commission in Islamabad wrote to Mr. M. I. on 27 June asking him to submit his passport so they could issue the visa. The visa was subsequently issued on 5 July.

China: Tigers

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Chinese counterpart on *(a)* Chinese policy on tiger conservation and *(b)* the manner in which the Chinese State Forestry Administration International Workshop on Strategy for Tiger Conservation was organised; and if he will make a statement. [152026]

Meg Munn: We raise the issue of tiger conservation with our Chinese counterparts at every suitable opportunity. My hon. Friend the then Parliamentary Under-Secretary of State for the Environment, Food and Rural Affairs (Barry Gardiner) discussed illegal trade in tiger parts with the Chinese Vice Minister for Forestry in July 2006. We are aware of concerns over the organisation of the Chinese State Forestry Administration's International Workshop on Strategy for Tiger Conservation. We have noted that the International Tiger Coalition has proposed further discussions with the State Forestry Administration and would welcome such a move.

Departments: Flowers

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on flowers in the last 12 months. [153043]

Mr. Jim Murphy: This information is not held centrally and could be obtained only by examining individual invoices. This would incur disproportionate cost.

Departments: Information Officers

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many press officers are employed by his Department. [153039]

Meg Munn: The Foreign and Commonwealth Office (FCO) has 28 press officers in London working with domestic, international, foreign and foreign language media and around 300 officials based in our overseas missions (including locally-engaged staff) whose duties include, to a greater or lesser extent, press and public affairs.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151844]

Mr. Jim Murphy: No such Bills have contained sunset clauses. The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152482]

Meg Munn: None of the Bills introduced by the Foreign and Commonwealth Office during the relevant period have contained such a clause.

Departments: Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what the name is of each special adviser in his Department. [153040]

Meg Munn: The Foreign and Commonwealth Office has two special advisers, Madlin Sadler and Sarah Schaefer, who work a job-share.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs to which periodicals his Department subscribes. [153047]

Meg Munn: A current list of periodical titles to which the Foreign and Commonwealth Office subscribes will be placed in the Library of the House and a copy sent to the hon. Member.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on staff away days in the last 12 months. [153050]

Mr. Jim Murphy: This information is not held centrally, as Foreign and Commonwealth Office Departments are responsible for their own budgets. To collate the information requested by the hon. Member would incur disproportionate cost.

Departments: Travel

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on *(a)* business class and *(b)* first class flights in the last 12 months. [153044]

Meg Munn: This information is not available centrally in the Foreign and Commonwealth Office and it would incur disproportionate cost to collate the information.

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department on first class train tickets in the last 12 months. [153045]

Meg Munn: The Foreign and Commonwealth Office (FCO) spent £191,940 on claims for first-class train tickets submitted through our electronic expenses system between 1 July 2006 and 30 June 2007.

This figure includes most, but not all, first-class train travel by FCO staff. We do not hold central records of train tickets bought with corporate credit cards or for which paper claims are submitted. This information could be obtained only at disproportionate cost.

Embassies

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs which embassies had the seniority of their ambassadors downgraded in each of the last five years. [151030]

Meg Munn: We introduced our current banding system for classifying the rank of senior posts in 2004. It is therefore not straightforward to match changes in the status of posts from before 2004. However, the following Head of Mission posts have since 2002 been, or will in due course be, downgraded, while remaining in seniority terms part of the Senior Management Structure: Bandar Seri Begawan, Berne, Brasilia, Dublin, Hanoi, Havana, Kampala, Luxembourg, Lima, Lisbon, Muscat, Rome, UKDelegation to NATO Brussels, UKDelegation to the Organisation for Economic Co-operation and Development Paris, Valletta, Wellington.

The following posts are either no longer part of the Senior Management Structure or will be downgraded in due course: Abidjan (currently vacant), Belmopan, Dakar, Dushanbe, Gaborone, Georgetown, Guatemala City, the Holy See, La Paz, Lilongwe, Lusaka, Montevideo, Port Louis, Port of Spain, Pyongyang, Quito, Suva, Tashkent, UK Delegation to the Council of Europe Strasbourg, Yaounde.

A number of Consul-General or Head of Subordinate Post positions have also been downgraded or deleted.

The grading of all positions as Head of diplomatic post is kept under constant review, to reflect the responsibilities of each post.

European Reform Treaty

Mr. Redwood: To ask the Secretary of State for Foreign and Commonwealth Affairs in which areas will powers of national veto over European legislation and policy cease if the treaty agreed at the EU Council on 23 June comes into effect. [146189]

Philip Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs, if he will list *(a)* new and *(b)* existing articles that may be (i) introduced and (ii) moved to be subject to qualified majority voting under the terms of the Inter-governmental Conference Mandate; and if he will make a statement. [147729]

Mr. Jim Murphy: The Government expect the new Reform treaty to contain extensions of qualified majority voting (QMV) under 50 articles. However, the number of extensions that will apply to the UK will be significantly less than 50. We expect 13 extensions will not apply to the UK. Nine of these relate to Justice and Home Affairs (where we have secured an extension of our existing opt-in mechanism). Three relate to the euro (where our opt-out applies). One relates to social security (where we will have an emergency brake including a veto power).

Existing areas of policy activity moved from unanimity to QMV

1. Immigration and frontier controls (UK opt-in)
2. Judicial co-operation in criminal matters (UK opt-in)
3. Minimum rules for the definition of criminal offences and sanctions (UK opt-in)
4. Eurojust (structure, operation, field of action and tasks) (UK opt-in)
5. Police co-operation (data sharing and training) (UK opt-in)
6. Europol (structure, operation, field of action and tasks) (UK opt-in)
7. Social security measures to facilitate free movement of workers (emergency brake including a veto power)
8. Co-ordination of measures to facilitate self-employment in other member states
9. Measures implementing the common transport policy (removes existing limited derogation on the common transport policy)
10. Incentive measures to promote cultural awareness and diversity

Existing institutional/procedural measures moved from unanimity to QMV

11. Appointment of European Central Bank (ECB) executive board (UK opt-out)

12. The procedures for Comitology processes (rules enabling member states to oversee the Commission's exercise of its implementing powers)

13. Adoption of detailed financial rules for the establishment and implementation of the budget (including accounting and budgetary principles)

14. Specialised courts (establishment of specialised first instance courts)

15. Proposals for amending the statute of the European Court of Justice (ECJ) (the statute governs the terms of appointment, organisation and procedures of the ECJ)

16. Proposals from the Commission for amendments to certain parts of the statute of the European System of Central Banks

17. Presidency of Council configurations (arrangements for rotation)

Existing areas of policy activity where there is a new specific legal base subject to QMV

18. Measures necessary for the use of the euro (UK opt-out)

19. Measures relating to euro group co-ordination and surveillance (applicable only to eurozone members) (UK opt-out)

20. Establishment of integrated management system for external borders (UK opt-in)

21. Mechanism for peer review of member states' implementation of policies in the Justice and Home Affairs (JHA) area (UK opt-in)

22. Measures to promote crime prevention (UK opt-in)

23. Implementation of own resources decisions

24. Provisions enabling repeal of the aspects of an article related to state aids policy and the effect of the past division of Germany

25. Procedure for entry into the euro (applies only to recommendations from eurozone

members to the Council on authorising entry)

26. Provisions enabling repeal of an article on transport policy as it affects areas of Germany affected by its past division

27. Authorisation, co-ordination and supervision of EU-level intellectual property rights protection

28. Clarification of how EU rules and principles apply to services of general economic interest (broadly, public services)

29. Measures to facilitate diplomatic and consular protection

30. EU humanitarian aid operations

31. Energy (measures on energy markets, energy security and energy saving)

32. Tourism (promotion of competitiveness and best practice)

33. Civil protection (promoting co-operation among member states to prevent or protect against natural or man-made disasters)

34. Implementation of solidarity clause (assistance, if requested, in the event of a natural or man-made disaster)

35. Creation of a 'start-up fund' for urgent Common Foreign and Security Policy (CFSP) measures (for 'Petersberg' tasks)

36. Urgent EU aid to third countries

37. Definition of a general framework for implementing the existing Common Commercial Policy

New areas of EU policy activity subject to QMV

38. European Research Area (removal of barriers to free flow of research)

39. Space policy (measures to promote joint initiatives and research and development)

40. Incentive measures to promote sport

41. Administrative co-operation (capacity-building measures in new member states)

42. Membership of structured co-operation in defence (procedural issues relating to its establishment)

New institutional/procedural measures subject to QMV

43. Appointment of European Council President by the European Council

44. Appointment of High Representative of the Union for Foreign Affairs and Security Policy by the European Council

45. Council review of general rules on composition of the Committee of the Regions and European Economic and Social Committee

46. Citizens' initiatives (petition procedure)

47. Ensuring an open, efficient and independent European administration

48. Negotiation of withdrawal agreement

49. Operating rules for a consultative EU Judicial appointments panel (including

composition)

50. Role of the High Representative of the Union for Foreign Affairs and Security Policy in CFSP implementing measures (measures proposed by the High Representative following a specific request from the European Council).

European Union: Constitutions

Ann Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what definition he uses of *(a)* constitutional concept and *(b)* constitutional treaty in relation to the European Union. [151143]

Mr. Jim Murphy: As the then Prime Minister (right hon. Tony Blair) set out in his statement to Parliament on 25 June, the Reform treaty will differ fundamentally from the Constitutional treaty in both form and substance.

The Reform treaty rejects the Constitutional treaty approach. The mandate for the Reform treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called 'Constitution', is abandoned".

Guatemala: Trade Unions

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he made to the government of Guatemala on the safety of trade union activists in that country; and if he will make a statement. [153459]

Meg Munn: Our embassy in Guatemala City lobbied the government of Guatemala in conjunction with our EU partners on 20 February and bilaterally on 16 May, to carry out a full investigation into the death of a trade union activist, Pedro Zamora. We regularly encourage the government of Guatemala to improve the security situation for all Guatemalans.

Iraq: Documents

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the draft Iraq dossier written by Mr. John Williams of 9 September 2002 was requested by the chairman of the Joint Intelligence Committee; and what purpose the draft served. [152956]

Mr. Jim Murphy: As my hon. Friend the Minister for the Middle East (Dr. Howells) told the House on 13 June 2007, *Official Report*, column 293WH, John Williams's draft was prepared on his own initiative and not commissioned as part of the formal drafting process overseen by the then Joint Intelligence Committee chairman, John Scarlett.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs by what formal mechanism the final version of the Iraq dossier was agreed by the members of the Joint Intelligence Committee; and on what date agreement was reached. [152957]

Mr. Jim Murphy: John Scarlett, then chairman of the Joint Intelligence Committee (JIC), explained the process through which the Government's draft dossier was drafted and cleared with the JIC in his evidence to Lord Hutton of 23 September 2003 (www.the-hutton-inquiry.org.uk, paragraphs 76-77). In his minute to the then Prime Minister (Mr. Blair) of 4 June 2003, also available on the Hutton inquiry website, Mr. Scarlett stated that the final draft was circulated to JIC members on 19 September and subsequently agreed by them.

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a copy of the draft Iraq dossier written by Mr. John Williams dated 9 September 2002 and given to the Hutton inquiry on 12 September 2003 was given to *(a)* the BBC and *(b)* other parties to the inquiry. [152958]

Mr. Jim Murphy: The Cabinet Office provided a copy of John Williams's draft to Lord Hutton's inquiry in September 2003. Copies were not sent to either the BBC or other parties to the inquiry.

Iraq: Hezbollah

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Hezbollah activity in Iraq; and if he will make a statement. [148960]

Mr. Jim Murphy: We are analysing the extent of Hezbollah's involvement in Iraq and will take firm action against any armed groups in Iraq that attack our forces or otherwise seek to undermine the country's stability or the democratically elected government.

Iraq: Local Government

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will give support to the establishment in the Nineveh Plains and the Al-Shikhan and Al-Handaniya districts of Iraq of a province linked to the central government in Baghdad for the Chaldo Assyrians and others historically connected to that area; and if he will make a statement. [153461]

Meg Munn: Any decision regarding the establishment of new provinces in Iraq is a matter for the democratically elected Iraqi Government and the Iraqi people themselves. We remain opposed to dividing the country or creating enclaves along ethnic or sectarian lines. Many cities and areas of Iraq, including in Ninawa province, have strongly mixed ethnic and religious communities. While creating enclaves may hold superficial appeal, in practice this would be difficult to arrange and carry a significant risk of worsening, not alleviating violence.

Iraq: Religion

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will provide support to the Christian community of Iraq against attempts forcibly to Islamicise them; and if he will make a statement. [153462]

Meg Munn: We are aware of recent reports about the threats faced by Christians in the Dora area of Baghdad. We have raised this with the Iraqi Government who have told us the security force presence in the area has been increased to counter this threat. We will continue to monitor the situation closely and press, and support, the Iraqi Government in taking action to ensure all Iraqis are protected from such threats.

A sustainable improvement in security will only be possible if Iraq's political, ethnic and religious communities can work and live together in harmony. We will continue to support the Iraqi Government's efforts to promote reconciliation and national unity in this regard.

Israel: Nuclear Weapons

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 23 July 2007, *Official Report*, column 708W, on Israel: Non-Proliferation Treaty, whether Israel is a non-nuclear weapon state. [153705]

Meg Munn: The Nuclear Non Proliferation Treaty (NPT) defines a nuclear weapon state as: any state which has manufactured and exploded a nuclear weapon or other nuclear explosive device prior to 1 January 1967. This definition is exclusive to the following states party: the People's Republic of China; the French Republic; the Russian Federation; the United Kingdom of Great Britain and Northern Ireland; and the United States of America.

As the State of Israel has never signed the NPT, it is classed as neither a Nuclear Weapon State, nor a Non-Nuclear Weapon State.

NATO: Information and Communications Technology

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on steps to be taken by the UK following the content of the final communiqué of the NATO Defence Ministers meeting of 14 and 15 June 2007 relating to work needed to enhance the ability to protect information systems of critical importance to the alliance against cyber attacks. [152306]

Mr. Jim Murphy: The Government's Centre for the Protection of National Infrastructure (CPNI) is key to the UK's work on cyber defence. Since its formation on 1 February, CPNI has made an ongoing contribution to the cyber security of NATO and allies.

Pakistan: Violence

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of recent violence in north Waziristan for the security situation in Afghanistan; and if he will make a statement. [152307]

Mr. Jim Murphy: Since July 15 there has been a surge of violence in north Waziristan following the breakdown of the peace agreement negotiated between local tribal and religious leaders and the government of Pakistan in September 2006. The attacks have mostly been directed at members of the Pakistani army and security forces. Last week, President Musharraf described blocking the "rising tide of Talibanisation" as the biggest challenge facing his government and moved a further two army divisions to north and south Waziristan.

Pakistani support is central to our attempts to defeat the Taliban in Afghanistan and we recognise the significant steps Pakistan has taken, at considerable loss of life, to improve the rule of law in its border areas. We are encouraging both governments to intensify their security dialogue and to agree further measures to combat the Taliban and other insurgent groups opposing Afghanistan's peaceful reconstruction.

The security forces continue to monitor all the border areas including north and south Waziristan.

Prince Charles: Gifts and Endowments

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs on what basis Mr. Michael Fawcett was included in the process for the selection and purchase of official gifts given by HRH the Prince of Wales during his official visit to the US in 2005, as noted by Sir Michael Peat during his briefing to the press on Tuesday 26 June 2007 on the launch of the Prince of Wales's Review; and if he will make a statement. [152971]

Mr. Jim Murphy: Gifts are selected by the Royal Household under guidelines set by the Foreign and Commonwealth Office.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether official gifts presented by the Prince of Wales and the Duchess of Cornwall during their visit to the USA in 2007 were paid for by the Foreign and Commonwealth Office; to whom they were given; what the gifts were; what the value was; which of the gifts' selection or purchase was the responsibility of Mr. Michael Fawcett; and if he will make a statement. [152972]

Mr. Jim Murphy: Official gifts presented by His Royal Highness the Prince of Wales and Her Royal Highness the Duchess of Cornwall during the visit to the USA in January were paid for by the Foreign and Commonwealth Office (FCO). They were given to their hosts and those who played a major part in the organisation of the visit. The gifts consisted mainly of signed photographs of their Royal Highnesses and other mementoes.

Regarding the cost of gifts, I refer my hon. Friend to the reply my right hon. Friend the then Foreign Secretary (Margaret Beckett) gave to him on 16 April 2007, *Official Report*, columns 49-50W. A copy of the letter referred to in the reply has been placed in the Library of the House.

Gifts are selected by the Royal Household under guidelines set by the FCO.

Sudan: Peace Keeping Operations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation in Abyei County, Sudan, with particular reference to the implications of the introduction of the Comprehensive Peace Agreement in this border area. [152342]

Meg Munn: The 2005 Comprehensive Peace Agreement (CPA) established a Commission to demarcate the boundary of the disputed Abyei area. This Commission, to which the UK provided an expert, presented its final report to the presidency of Sudan in July 2005. The Misseriya tribe objected to the findings of the report, causing increased tension between it and Abyei's Dinka Ngok community. They are backed by the National Congress Party and the Sudan People's Liberation Movement respectively. The deadlock on the Commission's recommendations is unresolved but this need not delay the establishment of a civil administration in Abyei. While the parties deliberate, tensions remain and local people's access to basic services is restricted. We continue to urge the joint north/south Government of National Unity to implement the CPA in full.

Sudan: Violence

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the arrest of Mr. Oman Ibrahim, spokesperson of the Committee Against the Kajbar Dam, in northern Sudan on 20 July; and what representations he has made on the detention of lawyers and journalists following the shootings at the dam on 13 June 2007. [152814]

Meg Munn: The UN Mission in Sudan (UNMIS) Human Rights office is following Mr. Ibrahim's case closely. According to information from the Sudan Organisation Against Torture and UNMIS Human Rights, Mr. Ibrahim was arrested without a warrant and then transferred to Khartoum on 21 July. UNMIS Human Rights are expecting clarification of Mr Ibrahim's place of detention and are pressing the authorities to allow them access. UNMIS Human Rights also reported that the UN's Special Rapporteur for Human Rights, Sima Samarm, will visit Sudan soon to take this forward. UNMIS have asked her to raise the Kajbar Dam incident with her Sudanese government interlocutors.

The Greek EU presidency in Sudan plans to lead an EU démarche to the government of Sudan on the Kajbar incident. The UK is pressing the Greek presidency to take this matter forward urgently, as follow up to our earlier representations to the government of Sudan during the meeting of the EU-Sudan Dialogue on Human Rights on 21 June.

Syria

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the activities of the National Salvation Front in Syria; whether his Department has contact with this group; and if he will make a statement. [152789]

Mr. Jim Murphy: The National Salvation Front in Syria (NSF) is a coalition of exiled Syrian opposition groups. It was launched in March 2006. Foreign and Commonwealth Office officials have had occasional contact outside Syria with members of the NSF and other affiliated groups at a junior level. This is part of our routine contacts with a broad range of political groups concerned with Syria.

Uganda: Commonwealth Heads of Government Conference

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 19 July 2007, *Official Report*, column 529W, on Uganda: Commonwealth Heads of Government Conference, what advice has been given to British police officers on their actions in the event of anti-government demonstrations; and if he will make a statement. [153451]

Meg Munn: I refer the hon. Member to the answer given to him by my hon. Friend the Minister for Europe (Mr. Jim Murphy) on 19 July 2007, *Official Report*, column 529W. No specific advice has been given to British police officers who will be present to provide protection for members of the Royal Family and Government Ministers throughout the Commonwealth Heads of Government Meeting. They will take action necessary to ensure the safety of the VIPs they are protecting, including in the event of anti-government demonstrations.

USA: Terrorism

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the blanket overflight clearance for American military flights for operations against terrorism granted by the UK along with other NATO states on 12 September 2001 still applies; and if he will make a statement. [152308]

Mr. Jim Murphy: On 12 September 2001, the North Atlantic Council invoked article 5 of the Washington treaty. Following that decision NATO allies agreed to grant blanket overflight clearance to US and other allies' military flights subject to national procedures. This remains the case. Decisions of this type remain in force unless revoked by the North Atlantic Council.

Under UK procedures all flights through UK airspace must comply with UK law. We have also made clear that we expect to be consulted on any request to render a detainee through UK territory or airspace.

JUSTICE

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Justice how much was spent by his Department and its predecessors and its agencies on the hire of mobile air conditioning units in each of the last five years. [151982]

Maria Eagle: The Ministry of Justice uses mobile air conditioning units only as a last resort, for example, when plant failure or exceptionally hot weather otherwise threatens continuity of service or the health and safety of employees. The costs are met from local budgets and cannot be separated from other local expenditure except at disproportionate cost.

Departments: Consultants

Mr. Meacher: To ask the Minister of State, Ministry of Justice how much the Department spent on *(a)* management consultants and *(b)* other external consultants and advisers in each year since 2000; and which of these consultants undertook work for the Department with a total contractual value in excess of £10 million over this period. [146333]

Maria Eagle: Since the Ministry of Justice was only formed on 9 May 2007, my response refers to the former Department for Constitutional Affairs (DCA) and those bodies which were formerly part of the Home Office which are now part of the new Department.

DCA

(a) Expenditure with consultants since 2000 was as follows:

	£ million
2000-01	2.6
2001-02	6.5
2002-03	5.7
2003-04	9.0
2004-05	10.6
2005-06	15.5
2006-07	10.7

Since 2000, DCA has spent in excess of £10 million with PA Consulting on a number of consultancy contracts over a number of years.

(b) Other than consultancy, DCA bought a range of other professional services including HR and legal services. Some of those contracts included the provision of advice, however, figures for the cost of obtaining this advice is not held separately from other expenditure and could be obtained only at disproportionate cost.

Office for Criminal Justice Reform (OCJR)

(a) Expenditure records are not available prior to 2003. Since 2003, expenditure with consultants was as follows:

	£
2003-04	125,000
2004-05	1,100,000
2005-06	3,600,000
2006-07	3,400,000

Since 2003, no supplier of consultancy services received payments in excess of £10 million.

(b) Other than consultancy, OCJR bought a range of other professional services including HR and legal services. Some of those contracts included the provision of advice, however, figures for the cost of obtaining this advice is not held separately from other expenditure and could be obtained only at disproportionate cost.

National Offender Management Service (NOMS)

(a) Expenditure records are not available prior to 2005. Since 2005, expenditure with consultants was as follows:

	£ million
2005-06	1.1
2006-07	1.87

Since 2005, no supplier of consultancy services has received payments in excess of £10 million.

(b) Information relating to other expenditure with external consultants and advisers since 2005 is as follows:

	£
2005-06	787,000
2006-07	2,100,000

HM Prison Service (HMPS)

(a) Expenditure records are not available prior to 2001. Since 2001, expenditure with consultants was as follows:

	£ million
2001-02	3.7
2002-03	4.1
2003-04	2.7
2004-05	7.1
2005-06	12.7
2006-07	12

Since 2001, no supplier of consultancy services has received payments in excess of £10 million.

(b) Other than consultancy, HM Prison Service bought a range of other professional services including HR and legal services. Some of those contracts included the provision of advice, however, figures for the cost of obtaining this advice is not held separately from other expenditure and could be obtained only at disproportionate cost.

Departments: Employment Agencies

Mrs. May: To ask the Secretary of State for Justice how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151676]

Maria Eagle: The Ministry of Justice does not hold this information centrally and it is, therefore, not possible to collate this without incurring disproportionate costs.

The Ministry of Justice ensures that job vacancies are advertised in a wide range of publications, including those targeted at minority communities where it is appropriate. Details of vacancies are placed on the Civil Service Recruitment Website as the site of first choice for central government recruitment. There is no advertising cost associated with this facility.

As a part of the Civil Service reform agenda, at senior levels, applications from outside the Civil Service and from all sections of the community are encouraged. External recruitment support may be used to facilitate this.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Justice whether *(a)* his Department and its predecessor and *(b)* its agencies have made payments to Flint Bishop Solicitors since 1997. [151394]

Maria Eagle: Details of payments made by the Ministry of Justice's predecessor the Department for Constitutional Affairs (which includes Her Majesty's Court Service, Tribunals Service and Public Guardianship Office) prior to the Ministry's formation on 9 May 2007 to Flint Bishop and Barnett Solicitors in each financial year since 1997 are as follows:

	£
1997-98	Nil
1998-99	86.46
1999-2000	Nil
2000-01	105.00
2001-02	553.00
2002-03	51.00
2003-04	90.00
2004-05	180.00
2005-06	Nil
2006-07	Nil
2007 to 9 May	Nil
Total	1,065.46

Since the formation of the Ministry of Justice on 9 May 2007, no payments have been made to Flint Bishop and Barnett Solicitors.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Justice which Bills introduced by his Department and its predecessors in areas within his Department's responsibility in the last five years did not contain sunset clauses; and if he will make a statement. [152481]

Maria Eagle: The appropriateness of a sunset clause for the whole or part of any Bill proposed by the Ministry of Justice is considered on a case by case basis. It is an issue that would be considered during the preparation of the regulatory impact assessment, which should accompany any Bill.

During the last five years, none of the Bills introduced on topics that now come under the responsibility of the Ministry of Justice have included full sunset clauses.

The Gender Recognition Act 2004 contained a partial sunset clause in relation to "fast track" applications, which were permitted only in the first two years of operation of the Act. The European Parliamentary and Local Elections (Pilots) Act 2004 permitted the piloting of provisions relating to the conduct of elections on a specific occasion in 2004.

The list of the Bills introduced in the last five years coming under the responsibility of the Ministry of Justice and which did not contain sunset clauses is as follows:

Criminal Justice and Immigration Bill 2007
Legal Services Bill 2007
Offender Management Bill 2007
Tribunals, Courts and Enforcement Bill 2007
Compensation Act 2006
Electoral Administration Act 2006
Criminal Defence Service Act 2006
Fraud Act 2006
Emergency Workers (Obstruction) Act 2006
Inquiries Act 2005

Constitutional Reform Act 2005
Mental Capacity Act 2005
Domestic Violence, Crime and Victims Act 2004
Courts Act 2003
Criminal Justice Act 2003
European Parliament (Representation) Act 2003
Female Genital Mutilation Act 2003
European Parliamentary Elections Act 2002
The Commonhold and Leasehold Reform Act 2002
Land Registration Act 2002
Public Trustee (Liability and Fees) Act 2002

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Justice how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151654]

Maria Eagle: Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 was published on Wednesday 25 July 2007. All travel is undertaken in accordance with the civil service management code and the ministerial code. Providing information on the total number of visits by officials and Ministers and the costs of all visits would incur disproportionate cost.

Driving Offences: Fines

Mr. Amess: To ask the Secretary of State for Justice what the average fine has been for persons convicted of an offence under section *(a)* 14(3) and *(b)* 41D of the Road Traffic Act 1988. [152860]

Maria Eagle: Information collected centrally, and held by the Office for Criminal Justice Reform, on police action taken for motoring seat belt offences is combined and does not distinguish between the offence of driving/riding in a motor vehicle not wearing a seat belt (s14 (3) of the Road Traffic Act 1988) and that of driving a motor vehicle with child not wearing a seat belt (s15 (2) and 15 (4) of the Road Traffic Act 1988).

Section 41D of the Road Traffic Act 1988 (as inserted by the Road Safety Act 2006) came into force on 27 February 2007. Data on its operation will be available in 2009.

National Offender Management Service: Manpower

Mr. Garnier: To ask the Secretary of State for Justice by what means the manpower needs of the National Offender Management Service are assessed; and what processes are in place to ensure such needs are met. [152351]

Maria Eagle: The National Offender Management Service (NOMS) is a commissioner of services. NOMS assesses and determines its direct staffing needs by the normal budget and planning cycles with due regard to broader Government policies.

The national probation service

The 42 probation areas within the national probation service are required to supply detailed workforce information to NOMS on a quarterly basis. This information is collated and published in the form of a quarterly work force information report. This report is used to identify trends and to inform strategic decisions about future requirements.

Local probation areas are invited to bid annually for the number of centrally funded trainee probation officer places they require. This enables them to ensure that they maintain a sufficient flow of qualified probation officers in the work force. Other grades of staff are recruited locally, as required by the local area probation board.

NOMS funds probation officer training via the Diploma in Probation Studies programme and also provides materials and some funding for the training of probation services officers.

As at December 2006 (the latest figures available), the national gap against active vacancies was 3.87 per cent. (0.84 per cent. for probation officers and 3.03 per cent. for probation service officers).

HM Prison Service

Staffing requirements in the public sector Prison Service are collated centrally based on returns by each establishment and headquarters group. Recruitment is undertaken according to the needs of establishments and geographical areas. This is a flexible approach according to needs. These plans are monitored against actual staff numbers monthly by senior managers.

As at 30 June 2007, the current national gap between total staffing availability against requirement in the unified grades was 1.3 per cent. (344 staff).

Open Prisons

Nick Herbert: To ask the Secretary of State for Justice how many *(a)* very high risk and *(b)* high risk prisoners are serving sentences in open prisons. [150501]

Mr. Hanson: Only prisoners classified as category D, the lowest security category, and thus assessed as presenting a low risk, are eligible for open conditions.

In the case of offenders sentenced to indeterminate sentences, they may be placed in open conditions only on a recommendation of the Parole Board, which has been accepted by the Secretary of State.

In either case, offenders will be placed in an open prison, following an individual and rigorous risk assessment. In all cases, the protection of the public is paramount.

The National Offender Management Service now also uses the Offender Assessment System (OASys) in order to assess the risk of serious harm represented by offenders. Probation officers have been undertaking OASys assessments for offenders already placed in open prisons, following the risk assessment processes that were in place at the time.

According to the OASys assessments, as at 26 July, there were three offenders in all open prisons who had been assessed as very high risk of serious harm. At the same date, according to information provided so far by open establishments, there are around 250 offenders in all open prisons who have been assessed as high risk of serious harm.

Mr. Clifton-Brown: To ask the Secretary of State for Justice how many *(a)* high risk and *(b)* very high risk prisoners are housed at Leyhill open prison; and how many in each category are housed in open prisons nationally. [150993]

Mr. Hanson: Only prisoners classified as category D, the lowest security category, and thus assessed as presenting a low risk, are eligible for open conditions.

In the case of offenders sentenced to indeterminate sentences, they may be placed in open conditions only on a recommendation of the Parole Board, which has been accepted by the Secretary of State.

In either case, offenders will be placed in an open prison, following an individual and rigorous risk assessment. In all cases, the protection of the public is paramount.

The National Offender Management Service now also uses the Offender Assessment System (OASys) in order to assess the risk of serious harm represented by offenders. Probation officers have been undertaking OASys assessments for offenders already placed in open prisons, following the risk assessment processes that were in place at the time.

According to the OASys assessments, in Leyhill Open Prison, as at 26 July, there were two offenders who had been assessed as very high risk of serious harm and 48 offenders who had been assessed as high risk of serious harm.

According to the OASys assessments, as at 26 July, there were three offenders in all open prisons who had been assessed as very high risk of serious harm. At the same date, according to information provided so far by open establishments, there are around 250 offenders in all open prisons who have been assessed as high risk of serious harm.

Prison Accommodation

Mr. Meacher: To ask the Secretary of State for Justice how many three-bed cells are in use in each institution being used by the Prison Service in England and Wales. [152788]

Mr. Hanson: The number of three-bed cells are shown in the following table. Only 36 of these establishments have three-bed cells. The cells at Birmingham, Preston, Gloucester, Leyhill, North Sea Camp and Whatton are currently not in use as of 24 July 2007.

Number of three-bed cells in use in each prison establishment as of 24 July 2007

Establishment	*Number of cells with a maximum capacity of three*
Acklington	4
Askham Grange	7
Bedford	12
Birmingham	2
Blakenhurst	2
Bullingdon	2
East Sutton Park	5
Elmley	245
Erlestoke	2
Foston Hall	2
Glen Parva	3
Gloucester	1
Guys Marsh	9
Haslar	32
Hewell Grange	1

Winchester	23
Total	618

Prison Service: Uniforms

David T.C. Davies: To ask the Secretary of State for Justice what estimate he has made of the cost of the planned replacement of the uniform of prison officers working in young offender institutions. [152018]

Maria Eagle: Officers working in the juvenile estate wear a relaxed style of uniform consistent with the Prison Service's approach to working with this age group. Various permutations are permitted at the discretion of Governors at prisons housing more than one category of prisoner.

Implementation was organised locally and staged across a two year period. Any attempt to ascertain additional costs to the Prison Service would therefore be complex and would incur disproportionate costs.

Reoffenders

Mr. Heath: To ask the Secretary of State for Justice how many people were convicted of a crime while serving a prison term in each of the last 10 years, broken down by category of offence. [150149]

Mr. Hanson: Information is not available on the number of offences committed in prison which subsequently lead to court proceedings.

Mr. Jack: To ask the Secretary of State for Justice what the reoffending rate was of prisoners from each prison in the latest period for which figures are available. [152086]

Mr. Hanson: Re-offending rates are not available for individual prisons. Prison information is not included in the standard datasets used to calculate the national

level re-offending rates. In addition, since many prisoners serve their sentence in a number of different prisons it is not possible to relate their subsequent re-offending to a single prison.

Secure Psychiatric Units

Mr. Garnier: To ask the Secretary of State for Justice what discussions he has had with the Secretary of State for Health on the possible use of spare capacity in secure psychiatric hospitals to accommodate *(a)* male and *(b)* female adult sentenced prisoners. [152349]

Mr. Hanson: Since taking up his position my right hon. Friend the Secretary of State for Justice has had no discussions with the Secretary of State for Health on this subject.

There were discussions at ministerial and official level between the Home Office and the Department of Health prior to 9 May 2007 and the creation of the Ministry of Justice. These discussions continued at official level once responsibility for prison policy transferred to the Ministry of Justice.

HMP Kennet, which opened in June 2007, was converted from a former secure hospital. There are few unused mental health units in existence and it takes considerable time and investment to convert them meaning that building new capacity in existing prisons usually represents better value for money. Any spare mental health capacity is usually in beds within units, rather than whole units, and so is not suitable for redesignation.

If an individual is serving a prison sentence and suffers from severe mental illness, they can only be transferred to detention in mental health secure accommodation if they meet the strict criteria of the Mental Health Act 1983. Detention in secure NHS facilities other than under the Mental Health Act 1983 would be unlawful.

Future prison capacity is being considered by Lord Carter of Coles who is due to report in the autumn of 2007.

WORK AND PENSIONS

Asbestos: Industrial Health and Safety

Lembit Öpik: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of businesses in the UK which are not fully compliant with the asbestos regulations. [149890]

Mrs. McGuire: No such estimate has been made.

Inspectors from the Health and Safety Executive, local authorities, Her Majesty's Custom and Excise and the Office of the Rail Regulator monitor compliance with those asbestos regulations dealing with health and safety matters when visiting premises in Great Britain and will issue notices or undertake prosecutions in accordance with the Health and Safety Commission's enforcement policy when businesses fail to comply.

HSE also publishes research undertaken on levels of compliance with particular asbestos regulations on its website such as the recently published "Cascading messages through others—the effect on awareness of, and compliance with the duty to manage asbestos regulations" (RR559).

Lembit Öpik: To ask the Secretary of State for Work and Pensions how many prosecutions have been brought in the last five years against businesses failing to comply with asbestos regulations; and how many asbestos-related deaths have occurred during the last five years. [149891]

Mrs. McGuire: In the five-year period 2001-02 to 2005-06 there were 257 offences prosecuted by the HSE's Field Operations Directorate (FOD) and local authorities under asbestos regulations in Great Britain, of which there were 195 convictions. A yearly breakdown of offences prosecuted is provided in the following table.

	Offences prosecuted	*Convictions*	*Total fines (£)*	*Average fine (£)*
2001-02	77	63	120,800	1,917
2002-03	49	35	100,500	2,871
2003-04	57	48	116,100	2,419
2004-05	28	24	145,950	6,081
2005-06	46	25	76,750	3,070

There is no single source of data that gives the total number of asbestos-related deaths. The number of deaths from mesothelioma and asbestosis combined in Great Britain in each of the last five years for which data are available are given in the following table.

Great Britain

	Number
2000	1,819
2001	2,095
2002	2,101
2003[1]	2,120
2004[1]	2,235

[1] Provisional

Sources: HSE GB mesothelioma register
HSE GB asbestosis register

The total number of asbestos-related lung cancer deaths cannot be directly enumerated, since asbestos-related lung cancers (other than mesothelioma) are clinically indistinguishable from lung cancers due to other causes. Current evidence suggests that the number of other asbestos-related lung cancer deaths is similar to the number of deaths due to mesothelioma. Therefore, since mesothelioma deaths account for the vast majority in the above tabled, the total number of deaths due to asbestos is likely to be approximately double that given above.

Average Earnings: Elderly

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average income of those aged over 65 years *(a)* was in 1997 and *(b)* is now. [152648]

Mr. Mike O'Brien: The information that is available is shown in the following table.

Average gross income of pensioner units where the head is aged 65 or over (per week, 2005-06 prices)

	1997-98	£ 2005-06
Pensioner couples	369	445
Single pensioners	178	233

Notes

1. Gross income is income from all sources received by the pensioner unit including income from social security benefits, earnings from employment, any private pension, and tax credits.
2. Based on survey data and as such subject to a degree of sampling and non sampling error.
3. Figures are for Great Britain.
4. Figures have been rounded to the nearest £
5. Pensioner units are either pensioner couples or single pensioners.
6. Pensioner couples are couples where one or more of the adults are state pension age or over.
7. The head of the benefit unit in most cases will be the same as the head of household. Head of household is classified as the highest income householder (person in whose name the property is owned or rented) without regard to gender. For households where the pensioner benefit unit does not include the head of household, the head of benefit unit will be the first person interviewed in the benefit unit.

Source:

Pensioners' Income Series 2005-06 (Revised)

Child Maintenance and Enforcement Commission

Mr. Laws: To ask the Secretary of State for Work and Pensions what obligations will be placed on non-resident parents to report changes of *(a)* employment, *(b)* income and *(c)* address under the new Child Maintenance and Enforcement Commission; and if he will make a statement. [146140]

Mr. Plaskitt: There are no plans to require non-resident parents to report such changes in circumstances.

Maintenance will normally be based on income figures provided by Her Majesty's Revenue and Customs (HMRC) for the latest available tax year. But if the non-resident parent's income changes, and their current income is higher or lower than the HMRC figure by 25 per cent. or more, the non-resident parent or parent with care will be able to report this as a change of circumstance. The maintenance calculation would then be reviewed and based on the non-resident parent's current income.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of Child Support Agency liability orders contained inaccuracies in the most recent period for which figures are available; and if he will make a statement. [146143]

Mr. Plaskitt: I refer the hon. Member to the answer given on 25 June 2007, *Official report*, column 431W.

Mr. Kevan Jones: To ask the Secretary of State for Work and Pensions what the responsibilities are of the hon. Member for Warwick and Leamington (Mr. Plaskitt) with regard to the Child Support Agency. [152070]

Mr. Plaskitt: My noble Friend Lord McKenzie of Luton has the policy lead for the Child Support Agency. I have portfolio responsibility for the Child Support Agency in the House of Commons.

Child Support Agency: Arrears

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions whether the Child Support Agency (CSA) has authority to make advance payments of arrears in cases where the arrears are due to error on the part of the CSA; and if he will make a statement. [150572]

Mr. Plaskitt *[holding answer 18 July 2007]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 26 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions whether the Child Support Agency (CSA) has authority to make advance payments of arrears in cases where the arrears is due to error on the part of the CSA; and if he will make a statement. [150572]

An advance payment of maintenance is a discretionary lump sum payment of arrears made to a parent with care by the Agency before the money is collected from the non-resident parent. The criteria which must be met before the Agency can authorise payment are set out in the Advance Payments of Maintenance Guide, which can be found at http://intralink/2/csa/guides/apm_guide/apm_guide.htm.

Where there is a request for an advance payment of maintenance the Agency will thoroughly investigate the circumstances of a case to determine whether it is a valid request. Only those cases where maladministration is established and that satisfy all the pre-defined administrative criteria can be considered.

I hope you find this answer helpful.

Child Support Agency: Debt Collection

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the amount of Child Support Agency arrears which is recoverable; how much of that he expects to be recovered by *(a)* 2008, *(b)* 2010, *(c)* 2011, *(d)* 2012, *(e)* 2015 and *(f)* 2020; and if he will make a statement. [146168]

Mr. Plaskitt: The Agency has committed this year, under the Operational Improvement Plan, to collect £970 million in child support maintenance of which at least £120 million is arrears. The Agency has estimated £1.4 billion of existing arrears is collectable.

The Government propose in the Child Maintenance and Other Payments Bill to introduce powers to encourage ongoing compliance by extending the range of enforcement powers that are currently available to the Agency and streamlining the framework in which they are used. The Bill also proposes to introduce powers so that the new Child Maintenance and Enforcement Commission will be able to manage debt more effectively. Subject to parliamentary approval the Commission will be able to:

negotiate debt settlements; with agreement of the PWC.

recover arrears from the estate of deceased non-resident parents;

offset child maintenance liabilities; and

write off debt in very limited circumstances, typically with agreement of PWC.

Future arrears recovery targets have yet to be agreed.

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many Child Support Agency cases involved committal proceedings in each of the last five years. [147934]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty dated 26 July 2007:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many Child Support Agency cases involved committal proceedings in each of the last five years. [147934]

The information you asked for is provided in the attached table. This includes sentences passed for England, Wales and Scotland.

Commitment to prison or disqualification from holding a driving licence is the ultimate sanction available to the courts for recovery of arrears of Child Support maintenance. If the non-resident parent is found guilty of wilful refusal or culpable neglect the court will decide which of the available sanctions is the most appropriate.

I hope you find this answer helpful

Numbers of committals and driving licences disqualifications

	April 2002 to March 2003	*April 2003 to March 2004*	*April 2004 to March 2005*	*April 2005 to March 2006*	*February 2006 to January 2007*
Number of suspended prison sentences passed	36	107	[1]225	[1]390	[1]385
Number of prison service sentences passed	4	9	[1]5	[1]15	[1]40
Number of suspended driving licence disqualification sentences passed	7	9	[1]25	[1]35	[1]30
Number of driving licence disqualification sentences passed	1	1	[1]5	[1]5	[1]5

[1] Sourced from the Agency's quarterly summary statistics. Prior to April 2004, the figures given were clerically collated and are actual figures, not subject to rounding.

Notes:

1. Figures sourced from the Agency's quarterly summary statistics are rounded to the nearest five.
2. The figures for 2006-07 are from February 2006 to January 2007 and these are the latest available published figures.

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many *(a)* liability orders, *(b)* county court orders, *(c)* third party debt orders and *(d)* property charging orders were secured by the Child Support Agency in each of the last five years. [147935]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 26 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many (a) liability orders (b) county court orders (c) third party debt orders and (d) property charging orders were secured by the Child Support Agency in each of the last five years.

To enable us to provide you with as much information as possible, we are providing figures on how many orders for recovery have been granted by the County Courts with subsequent registration of the order as county court judgements, and the number of Child Support Agency orders registered by the Agency in the Register of Judgements, Orders and Fines.

The information available is displayed in the attached table. Robust information is not available in relation to the number of orders for recovery third party debt and charging orders granted prior to the introduction of the new Management Information database during 2003.

An order for recovery is required prior to undertaking any County Court actions such as third party debt orders or charging orders. The Agency does not distinguish between the number of charging orders granted in respect of property as opposed to other assets such as stock and shares or interest in trusts. The data supplied in the gable is therefore in respect of all charging orders granted.

Once a liability order has been granted, if it has been determined that actions taken via the County Court are appropriate to recover the arrears due to the Agency, the liability order will be registered in the County Court and an 'order for recovery' obtained. The County Courts have the responsibility for registering the liability order as a county court judgment.

The Agency may also enter the liability order in the Register of Judgments, Orders and Fines (for England and Wales) as a Child Support Agency order. This register is used by credit reference agencies to establish someone's credit rating and can affect membership of a professional body or employment status.

I hope you find this answer helpful.

Number of liability orders granted and Child Support Orders registered for the past five years ending March 2007

	April 2002 to March 2003	*April 2003 to March 2004*	*April 2004 to March 2005*	*April 2005 to March 2006*	*April 2006 to March 2007*
Liability Orders granted	2,383	3,885	*7,760	*11,245	*13,335
Order for Recoveries registered (county court orders)	—	—	1,965	2,947	4,037
Third Party Debt Orders secured	—	—	398	316	396
Charging Orders Secured	—	—	409	818	1,142

Number of liability orders granted and Child Support Orders registered for the past five years ending March 2007

	April 2002 to March 2003	April 2003 to March 2004	April 2004 to March 2005	April 2005 to March 2006	April 2006 to March 2007
Child Support Orders registered	284	513	1,315	2,328	1,922

Notes:
1. A liability order is a document obtained from the court showing that they legally recognise that the debt is owed. This is the same in both England and Wales and Scotland. This is required before the Agency can use litigation powers (Diligence in Scotland).
2. The figures marked with an asterix* are sourced from the Agency's Quarterly Summary Statistics. Prior to April 2004, the figures given were clerically collated and are actual figures, not subject to rounding.
3. Figures sourced from the Agency's Quarterly Summary Statistics are rounded to the nearest five.
4. The Liability Order figures for 2006-07 are from February 2006 to January 2007 and these are the latest figures are published available.
5. The registration of the liability order as a county court judgment in the Register of Judgments, Orders and Fines (for England and Wales) is the responsibility of the County Courts. The data provided therefore is the number of orders for recovery obtained and the number of Child Support orders registered by the Agency in the Register of Judgments Orders and Fines.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what projections he has made of the level of disregard for child maintenance necessary to lift 100,000 children out of poverty. [150782]

Mr. Plaskitt *[holding answer 19 July 2007]:* Around 80,000 children could be lifted out of poverty by extending the £10 disregard to existing old scheme cases, increasing the flat rate from £5 per week to £7 per week and increasing the proportion of parents with care who are in receipt of maintenance. These measures were outlined in the child maintenance White Paper 'A new system of child maintenance'.

The level of the disregard has not yet been decided. In the regulatory impact assessment which accompanied the publication of the Child Maintenance and Other Payments Bill, we published a prudent estimate, based on the assumption of a £20 disregard, that the reforms would lift an additional 100,000 children out of poverty. Clearly, a higher disregard would lead to a greater number of children being lifted out of poverty.

Mr. Kevan Jones: To ask the Secretary of State for Work and Pensions pursuant to the answer of 17 July 2007, *Official Report*, column 206W, on children: maintenance, if he will investigate the Chief Executive of the Child Support Agency's claims *(a)* that he encourages the use of the telephone as the primary means of communication between offices and *(b)* that the same administrative and procedural rules apply to all offices of the agency. [152804]

Mr. Plaskitt: I can reassure the hon. Member for North Durham that the Agency actively encourages the use of the telephone as the primary means of communication between offices to update or discuss particulars on a case. There is a local service level agreement with CSA Bolton that, in the specific circumstance of dealing with a complaint on a clerical case, we initiate communication in writing to ensure all the necessary information to progress and resolve the client's concerns is to hand.

I can also reassure the hon. Member that all Child Support Agency offices, including CSA Bolton, are subject to the same legislative and procedural rules when administering a case.

Sarah McCarthy-Fry: To ask the Secretary of State for Work and Pensions if he will assess the effectiveness of the policy of naming and shaming non-resident parents on his Department's website for not meeting Child Support Agency payments. [153472]

Mr. Plaskitt: We have carefully considered both the responses to our 'naming and shaming' policy and the initial impact that this policy has had since the first set of names were posted on the Child Support Agency website last month.

We have also listened carefully to the concerns raised by stakeholders and others around the potential impact of the current policy. The interests of children are paramount in everything we do.

Initial consideration of the impact of the first names being published has shown that the number of visits on the relevant section of the website peaked on the day the policy was launched. However it quickly returned to previous levels—suggesting low levels of patronage of this part of the website and therefore questioning its potential effectiveness.

In light of this we will not publish further names at this time whilst we would keep under consideration whether this policy has a role to play in the future. In the mean time the CSA will be focusing its expanded debt and enforcement team on a wider range of initiatives that are intended to help improve compliance. These methods include making more use of credit reference agencies and HMRC data and introducing more flexible payment methods. In the future the Child Maintenance and Enforcement Commission will be building on this, introducing further enforcement measures to maximise compliance.

Departments: Common Purpose

Philip Davies: To ask the Secretary of State for Work and Pensions how much his Department paid to Common Purpose in each of the last five years; for what purpose; and what the outcome of the expenditure was. [147601]

Mrs. McGuire: A number of DWP senior managers have attended leadership courses run by Common Purpose in the last five years. The total expenditure for each of the last five years is listed in the following table. The courses have helped improve leadership skills. Given the nature of these courses, they have also helped foster valuable partnerships in the local community which can be used to improve the service offered to our customers.

	£ Total Spend[1]
2002-03	43,452
2003-04	72,691
2004-05	48,980
2005-06	43,111
2006-07	31,161

[1] Rounded to nearest £1

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Work and Pensions whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop solicitors since 1997. [151377]

Mrs. McGuire: The Department for Work and Pensions have no records of making any payments to a company called Flint Bishop Solicitors. However it has made payments to a company called Flint Bishop and Barnett. The information shown in the following table is for payments made to Flint Bishop and Barnett solicitors.

Payments made to Flint Bishop and Barnett solicitors since 1997 to date

	£ Amount
1997	229.13
1999	4,914.73
2001	1,206.00
2003	8,591 .04
2004	45,523.22
2005	1,466.56
2006	411.56

Departments: Legislation

Dr. Cable: To ask the Secretary of State for Work and Pensions which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152490]

Mrs. McGuire: The Bills introduced by the Department for Work and Pensions (DWP) in the last five years which did not contain sunset clauses were the Bills for the State Pension Credit Act 2002, the Age-Related Payments Act 2004, the Pensions Act 2004, the Disability Discrimination Act 2005 and the Child Benefit Act 2005— and also the Child Maintenance and other Payments Bill and the Pensions Bill which are currently before Parliament.

The Bill for the Welfare Reform Act 2007 did contain such a clause: see section 31(3).

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case-by-case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Work and Pensions how many ministerial red boxes his Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150406]

Mrs. McGuire: The Department has bought a total of 12 boxes in the last five years, as detailed in the following table.

	Number of Boxes	Cost of each box (£)
2003	6	1 @ 565
		5 @ 585
2004	0	—
2005	3	1 @ [1]385
		1 @ 510
		1 @ 515
2006	2	2 @ 529
2007	1	1 @ 730

[1] Cost reduced as supplier was able to use salvaged lock in new box.

The boxes are ordered from Banner Business Supplies (formerly the Stationery Office).

The Department has not been involved in any tendering process for the supply of boxes.

Departments: Sick Leave

Mr. Clappison: To ask the Secretary of State for Work and Pensions what estimate he has made of the expenditure by his Department on managing and rehabilitating sick employees of his Department in the last 12 months. [152157]

Mrs. McGuire: Managing and rehabilitating employees is carried out in conjunction with the Department's Occupational Health provider. In the period July 2006 to June 2007 the Department spent a total of £3.147million on occupational health services.

Departments: Visits Abroad

Chris Grayling: To ask the Secretary of State for Work and Pensions how much each of the agencies of his Department spent on foreign travel in each of the last five years. [150041]

Mrs. McGuire: Details of the total departmental spend on foreign travel, including travel to European Union countries, in the 12 months since June 2006 is provided as follows. Information prior to this date or by agency is not held centrally and could be obtained only at disproportionate costs.

	£
Overseas hotels	80,354
Overseas air	638,404
Overseas rail	99,955
Total	818,713

Employment

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions if he will assess the implications for employment policy of the report by the Centre for Regional Economic and Social Research at Sheffield Hallam University on the real level of unemployment. [147942]

Mrs. McGuire: This report understates the improvement in the labour market over the last 10 years. Since 1997, the number of people in work has increased by over 2.5 million and the numbers claiming out of work benefits is down by over 900,000.

The Government have re-affirmed its commitment to employment opportunity for all—the modern definition of full employment. The long-term aim is an employment rate equivalent to 80 per cent. of the working age population.

This means that, while the 45 per cent. fall in the number claiming Jobseeker's Allowance since 1997 is an important achievement, the focus of the Government's effort to help people re-engage with work extends much more widely—particularly lone parents, those on incapacity benefits and others at a disadvantage in the labour market.

These policies are bearing fruit. Since 1997 there has been a significant improvement in reduction of unemployment, especially long-term unemployment. Over the same period the number claiming lone parent benefits is down by over 230,000 and the number on incapacity benefits, which is falling for the first time in decades, has reached a seven year low.

Employment: Absent Parents

Mr. Rooney: To ask the Secretary of State for Work and Pensions what research his Department has undertaken into the employment rate of non-resident parents. [152072]

Mr. Plaskitt *[holding answer 24 July 2007]:* In 2001 the Department conducted a large survey of the Child Support Agency caseload (DWP report 152) which profiled both persons with care and non-resident parents and most of the non-resident parents (61 per cent.) were in full-time employment at this time.

At the moment the Department is currently conducting the relationship separation survey which interviews CSA and non CSA persons with care and non-resident parents and covers employment. The results of this research will be published in January 2008.

Hazardous Substances: Storage

Bob Spink: To ask the Secretary of State for Work and Pensions what *(a)* additional and *(b)* amended advice has been issued on the separation from each type of hazardous material storage of (i) other businesses, (ii) residential homes and (iii) schools and other establishments following the Buncefield fire; and if he will make a statement. [149918]

Mrs. McGuire *[holding answer 16 July 2007]:* HSE published a consultation document (CD) 'Proposals for revised policies for HSE advice on development control around large-scale petrol storage' in February 2007. This set out a number of options:

Option 1—no change to land use planning (LUP) advice;

Option 2—change size of consultation distance and zones, based on hazard;

Option 3—change size of consultation distance (as option 2) and development sensitivity levels;

Option 4—change size of Consultation Distance informed by risk, and adopt new development proximity zone to give more restrictive advice.

The consultation period closed on 22 May and responses are being analysed.

HSE had previously written in December 2006 to all planning authorities identified as having at least one similar installation to the Buncefield depot. This letter asked planning authorities, ahead of the CD's publication, not to progress pre-application discussions with developers about any proposal within 250 metres of the site boundary which would add to the number of people in the area, or any significant public use development up to 400 metres from the boundary.

Hazards: Housing

Bob Spink: To ask the Secretary of State for Work and Pensions what discussions he has had with the Health and Safety Executive on separation distances needed between Control of Major Accident Hazard sites and residential houses, with particular reference to liquefied natural gas storage facilities; and if he will make a statement. [150806]

Malcolm Wicks: I have been asked to reply.

I have had no such discussions.

It is a matter for HSE under the Planning (Hazardous Substances) Act 1990 to set a consultation distance around major hazards sites and to notify the relevant Local Planning Authority (LPA). The Town and Country (General Development Procedure) Order 1995 requires the LPA to consult HSE about certain proposed developments within any consultation distance and on any applications for hazardous substances consent.

Incapacity Benefit

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants have transferred from claiming incapacity benefit to *(a)* pension credit and *(b)* any other benefit in each month since November 2004. [152330]

Mrs. McGuire *[holding answer 24 July 2007]:* The available information is in the following table.

Number of incapacity benefit/severe disablement allowance terminations where the claimant moved on to other benefits

Quarter ending	*Number who flowed on to pension credit*	*Number who flowed on to income support*	*Number who flowed on to jobseeker's allowance*
November 2004	1,300	34,500	22,800
February 2005	1,900	32,200	21,800
May 2005	1,700	37,100	22,600
August 2005	1,500	34,500	20,400
November 2005	1,200	34,800	19,200
February 2006	1,800	35,300	18,900
May 2006	1,900	38,100	19,000
August 2006	2,100	40,700	20,400
November 2006	[1]1,200	[1]34,100	[1]12,900

[1] Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total commencements for May 2004 increased by 18 per cent in the year following their initial release.

Notes:

1. Figures are rounded to the nearest 100.

Figures represent people who moved to pension credit, income support or jobseeker's allowance within seven days of the IB/SDA claim ending.

Source:

DWP Information Directorate 5 per cent. terminations dataset.

Mr. Clappison: To ask the Secretary of State for Work and Pensions what the *(a)* 20 Parliamentary constituencies and *(b)* 20 local authorities were with the highest number of incapacity benefit claimants in the latest period for which figures are available; and how many there were in each such constituency and local authority. [152645]

Mrs. McGuire: The available information is in the following tables.

20 parliamentary constituencies with the highest number of incapacity benefit/severe disablement Allowance claimants—November 2006

Parliamentary Constituency	*Number of claimants*
Glasgow East	10,750
Glasgow North East	10,580
Liverpool Riverside	9,960
Manchester Central	9,790
Easington	8,900
Manchester Blackley	8,890
Regents Park and Kensington North	8,870
Glasgow Central	8,800
Liverpool Walton	8,560
Merthyr Tydfil and Rhymney	8,530
Rhondda	8,470
Rutherglen and Hamilton West	8,320

Low Incomes

Mr. Gauke: To ask the Secretary of State for Work and Pensions how many people lived in households earning less than 40 per cent. of median income *(a)* in 1997 and *(b)* in 2006, broken down by region. [152027]

Caroline Flint: *[holding answer 23 July 2007]:* The information requested is not available.

Mesothelioma

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many people died from mesothelioma in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the north east and *(d)* England in each year since 1997. [150558]

Mrs. McGuire: The number of mesothelioma deaths which occurred in South Tyneside, the north east, and England is given in the following table. Death statistics for mesothelioma are not held in a form which allows data for individual UK constituencies to be readily available.

	Place of death		
	South Tyneside	*North East*	*England*
1997	15	126	1,181
1998	12	100	1,334
1999	8	119	1,406
2000	15	123	1,425
2001	18	154	1,630
2002	9	127	1,622
2003[1]	8	112	1,641
2004[1]	15	134	1,718

[1] Provisional.

HSE Great Britain Mesothelioma Register

Minimum Wage

Mr. Rooney: To ask the Secretary of State for Work and Pensions if he will link the permitted work upper earnings level to the minimum wage; and if he will make a statement. [152149]

Mrs. McGuire *[holding answer 24 July 2007]:* The permitted work upper earnings limit has been linked to the national minimum wage since it was introduced in 2002. It will be increased from £86 a week to £88.50 a week from 1 October this year to maintain this link.

Pension Funds: Divorce

Chris Grayling: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness with which pension fund trustees are carrying out their functions in relation to divorcees under the new rules on pension sharing; and if he will make a statement. [152560]

Mr. Mike O'Brien: Pension sharing on divorce became available for all new divorces commenced on or after 1 December 2000, to enable divorcing couples to achieve a fair financial settlement.

All trustees are required to have a knowledge and understanding of the law relating to pensions.

Pensioners: Income

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the average weekly income of *(a)* a pensioner couple and *(b)* a single pensioner in (i) the UK, (ii) Yorkshire and Humber and (iii) City of York constituency was in (A) real and (B) cash terms in (1) 1997 and (2) the latest date for which figures are available. [152211]

Mr. Mike O'Brien: The information that is available is shown in the following tables. Information cannot be provided at a lower level than government office region.

Average gross weekly income by family type in real terms (£ per week, 2005-06 prices)

	1997-98—1999-2000	2003-04—2005-06
Pensioner couples		
Yorkshire and Humber	380	440
Great Britain	400	482
United Kingdom	n/a	480
Single pensioners		
Yorkshire and Humber	178	217
Great Britain	191	229
United Kingdom	n/a	229

Average gross weekly income by family type in cash terms (£ per week)

	1997-98—1999-2000	2003-04—2005-06
Pensioner couples		
Yorkshire and Humber	324	428
Great Britain	341	469
United Kingdom	n/a	468
Single pensioners		
Yorkshire and Humber	152	211
Great Britain	163	224
United Kingdom	n/a	223

Notes:
1. Gross income is income from all sources received by the pensioner unit including income from social security benefits, earnings from employment, any private pension, and tax credits.
2. Based on survey data and as such subject to a degree of sampling and non sampling error.
3. Figures are based on the average of three years' data as single year estimates do not provide a robust guide to year-on-year changes. Figures in real terms represent the average of the three individual years, each shown in 2005-06 prices. For this reason, cash figures (based on the cash figures for each year) do not equal the values in real terms for the period 2003-04—2005-06.
4. Data for the United Kingdom are not available for the period 1997-98 to 1999-2000.
5. Figures have been rounded to the nearest £.
6. Pensioner units are either pensioner couples or single pensioners.
7. Pensioner couples are couples where one or more of the adults are state pension age or over.

Pensioners' Income Series 2005-06 (Revised)

Pensions: Females

Chris Grayling: To ask the Secretary of State for Work and Pensions how many women in the UK are not eligible to receive a full state pension. [152650]

Mr. Mike O'Brien: As of August 2006 there were around 3.5 million women of state pension age in Great Britain not receiving a full basic State Pension.

Notes:

Figures are rounded to the nearest 50,000.

Figures refer to women living in GB as UK data are not available.

The full rate of basic State Pension in August 2006 was £84.25 per week.

A full basic State Pension is paid to those who fully satisfy the contribution conditions either in their own right or where applicable, on the basis of their late or former spouse's contributions.

Source:

Work and Pensions Longitudinal Study. The data is available via the Tabulation Tool on the Department's website at:

http://www.dwp.gov.uk/asd/tabtool.asp

Pensions: Financial Assistance Scheme

Mr. Drew: To ask the Secretary of State for Work and Pensions (1) whether the Financial Assistance Scheme asks qualifying pension schemes to provide information which could enable it to determine whether the employer in relation to the scheme took a contributory holiday at any stage; [152340]

(2) whether he intends to undertake research on the extent to which employers in relation to qualifying schemes for the Financial Assistance Scheme took contribution holidays. [152341]

Mr. Mike O'Brien: There is no requirement on the Department to request or hold information relating to pension contribution holidays. I have no plans to undertake such research.

Pensions: Low Income

Chris Grayling: To ask the Secretary of State for Work and Pensions what proportion of pensioners in the UK receive the minimum level of weekly income in retirement as defined by the Government. [152651]

Mr. Mike O'Brien: The guarantee credit element of Pension Credit ensures people aged 60 or over have a minimum guaranteed weekly income of £119.05 for single people and £181.70 for couples. This is known as the standard minimum guarantee. There are £1.5 million beneficiaries of the standard minimum guarantee, which represents around 12 per cent. of the population aged 60 or over. This does not include people who are entitled to additional amounts within their Pension Credit for severe disabilities, caring responsibilities and housing costs.

Notes:

Figures are derived from the DWP five per cent sample data, rated to match 100 per cent totals.

Beneficiary figures are as at November 2006.

GB population figures are as at mid 2005.

Beneficiary figures are rounded to the nearest 100 and include those receiving guarantee credit only and those on guarantee credit and savings credit.

DWP Information Directorate five per cent sample and 100 per cent Work and Pensions Longitudinal Study data; and ONS, Population Estimates Unit

Poverty

Chris Grayling: To ask the Secretary of State for Work and Pensions how many *(a)* children under 16 years old, *(b)* adults and *(c)* pensioners were living in severe poverty in each year since 1997. [150063]

Caroline Flint: The information requested is not available as there is no standard definition of severe poverty.

An internationally recognised measure of low income—and the most commonly used globally—is 60 per cent. of median household income.

In the Households Below Average Income report, the Department reports on low income, and sets out the percentage of households with less than 70, 60 and 50 per cent. of equivalised median income.

The latest figures on low income for people in the UK can be found in "Households Below Average Income 1994/95-2005/06 (Revised)".

Social Security Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions what proportion of claims for *(a)* jobseeker's allowance, *(b)* incapacity benefit and *(c)* income support were made (i) over the telephone, (ii) using a paper form and (iii) in person in each of the last 10 years. [152659]

Mr. Plaskitt: The information requested is not available.

Social Security Benefits: Disabled

Roger Berry: To ask the Secretary of State for Work and Pensions what the outcome is of the disability equality impact assessment of the personal capability assessment. [152130]

Caroline Flint: A disability equality impact assessment (DEIA) of the revised personal capability assessment (PCA) has been carried out as part of the Department's overall DEIA of welfare reforms.

The mental health component of the PCA has been thoroughly reviewed in order to ensure that it reflects the type of conditions prevalent today. In particular it now reflects the needs of people with learning disability, autistic spectrum disorder, and other conditions that are not mental illnesses but that have a significant impact on mental function. We anticipate that this will lead to assessments that are more equitable between groups with different impairments.

The new element of the PCA, the work-focused, health-related assessment, explores the person's perceptions and concerns about their condition, as well as identifying health-related support and interventions that will help the person to get back into work.

Throughout the review of the PCA, stakeholder groups representing disabled people have been fully consulted and involved; and focus groups containing a number of people with mental illness, learning disability, or autistic spectrum disorder have been consulted. The work-focused, health-related assessment has been piloted with customers claiming incapacity benefit.

Unemployment Benefits: Expenditure

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the cost of unemployment benefits was *(a)* at current prices and *(b)* as a percentage of gross domestic product in each year since 1979. [152210]

Mr. Plaskitt: The information is in the following tables.

Unemployment benefits paid in Great Britain since 1978-79 (£ million 2007-08 prices)

	Unemployment benefit	*Income support for the unemployed*	*Jobseeker's allowance—contribution-based*	*Jobseeker's allowance—income-based*	*Housing benefit/council tax benefit and predecessors*	*Total*
1978-79	2,546	2,075	—	—	971	5,592
1979-80	2,251	1,803	—	—	931	4,985

2007-08	—	—	0.0	0.1	0.1	0.3

Notes:
1. Figures are consistent with Budget 2007 published expenditure and forecasts.
2. Percentage figures in Table (2) are rounded to one decimal place.
3. Unemployed benefit (UB) was replaced by Jobseeker's Allowance which was introduced in October 1996.
4. Jobseeker's Allowance (income based) figures include claimants in receipt of income-based Jobseeker's Allowance who would also be entitled to the contributory element.
5. Jobseeker's Allowance (contribution based) figures include claimants in receipt of income-based Jobseeker's Allowance who would also be entitled to the contributory element. Only the amount of income-based award above the level of contribution-based award is included in this.

DWP Expenditure tables

Allowances Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many households in *(a)* Yorkshire and Humber and *(b)* City of York received (i) winter fuel payments and (ii) free television licences in the last year for which figures are available. [152188]

Mr. Mike O'Brien: In winter 2006-07 753,890 households in the Yorkshire and Humber Government Office Region received a winter fuel payment and 14,830 households in the City of York constituency received the payment.

TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, in winter 2006-07, the number of households with at least one person aged 75 or over receiving the winter fuel payment in the Yorkshire and Humber Government Office Region was 303,160 and there were 6,620 such households in the City of York constituency. Each of these households would be eligible for a free TV licence.

Notes:

1. Figures rounded to the nearest 10.

2. Figures for 2006-07 refer only to the main payment run so they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid in late payment runs (0.8 per cent. of all payments). Since most of the payment runs are to people who are not receiving another benefit from DWP and whose claims had not been received by the qualifying week, most are men aged 60 to 64.

3. Any residence found to have four or more occupants is not included in these figures as it is assumed to be a Residential Care or Nursing Home.

4. Government office regions and parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.

Information directorate 100 per cent. data

Written Questions

Mr. Touhig: To ask the Secretary of State for Work and Pensions when he expects to answer questions *(a)* 147300 and *(b)* 147298, on the Abingdon Carpets pension fund, tabled by the hon. Member for Islwyn on 28 June. [151929]

Mr. Mike O'Brien: I replied to my hon. Friend's questions on 23 July 2007, *Official Report*, column 733W.

HOME DEPARTMENT

Antisocial Behaviour Orders

James Brokenshire: To ask the Secretary of State for the Home Department how many people have been issued with more than one antisocial behaviour order. [151723]

Mr. Coaker: From the data collected centrally, it is not possible to identify where multiple antisocial behaviour orders have been issued to the same person.

James Brokenshire: To ask the Secretary of State for the Home Department (1) what proportion of people in receipt of antisocial behaviour orders had previously received *(a)* a criminal conviction, *(b)* a police caution, *(c)* a penalty notice for disorder and *(d)* another form of antisocial behaviour intervention in each of the last three years for which figures are available; [151726]

(2) what the average number of prior convictions is of persons in receipt of antisocial behaviour orders. [151727]

Mr. Coaker: Data collected centrally on antisocial behaviour orders does not include any information on a person's criminal history.

Asylum: Zimbabwe

Mr. Andrew Smith: To ask the Secretary of State for the Home Department how many failed asylum seekers have been returned to Zimbabwe in the last six months. [152056]

Mr. Byrne *[holding answer 25 July 2007]:* Between October 2006 and March 2007, 170 asylum applicants (including dependants) were removed from the UK to Zimbabwe. This is the latest six-month period for which figures are available. Figures include persons departing voluntarily after enforcement action had been initiated against them, persons leaving under assisted voluntary return programmes run by the International Organisation for Migration and those who it is established have left the UK without informing the immigration authorities. This figure has been rounded to the nearest five and is provisional.

The figure does not include any enforced removals; in the case of Zimbabwe, on 26 September 2006 we stated in the High Court that we will not enforce the return of failed asylum seekers to Zimbabwe until ongoing country guidance litigation is concluded, and that continues to be the position.

At present, the latest figures available correspond to the first quarter of 2007. Information relating to asylum removals during the second quarter of 2007

will be published in the Asylum Statistics: 2nd Quarter 2007 bulletin (scheduled for 21 August). Copies of this publication will be available from the Library of the House and on the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Boris Berezovsky

Andrew Mackinlay: To ask the Secretary of State for the Home Department pursuant to the answer of 16 July 2007, *Official Report*, column 53W, on Boris Berezovsky, if she will take steps to enable parliamentary scrutiny of the decisions of the Border and Immigration Agency relating to political asylum via questions relating to individual cases; and if she will make a statement. [152465]

Mr. Byrne *[holding answer 24 July 2007]:* All applicants are assured at the beginning of the asylum process that details about their claim will be treated in confidence. Therefore it is not possible to comment on individual cases. The Border and Immigration Agency must meet the legal requirements placed on Government Departments by the laws of confidence, article 8 of the European Convention on Human Rights and the Data Protection Act 1998. These laws ensure that those genuinely in need of protection can feel secure in telling us the nature of their claim.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for the Home Department how much was spent by her Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151985]

Mr. Byrne: This information is not held centrally and could be obtained only at disproportionate cost.

Departments: Legal Costs

Mr. Llwyd: To ask the Secretary of State for the Home Department how much was ordered in costs against her Department in the House of Lords cases *(a)* Huang (FC) *v.* Secretary of State for the Home Department and *(b)* Kashmiri (FC) *v.* Secretary of State for the Home Department. [152099]

Mr. Byrne: This information is not available.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for the Home Department how many ministerial red boxes the Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in choosing their supplier. [150294]

Mr. Byrne: Records relating to the purchase of ministerial red boxes in the Department in the last five years are not held centrally and could be obtained only at disproportionate cost.

Departments: Official Visits

David Simpson: To ask the Secretary of State for the Home Department how much was spent on overnight accommodation by civil servants within her Department's areas of responsibilities in the last 12 months. [149047]

Mr. Byrne: When travelling on departmental business officials are expected to make efficient and cost-effective accommodation arrangements.

Expenditure figures on overnight accommodation for the Home Office includes information for the core Home Office, the Border and Immigration Agency, the Office for Criminal Justice Reform and the National Offender Management Service (the latter two are now part of the Ministry of Justice). Prior to the Machinery of Government changes, the Department employed approximately 78,000 staff with this figure reducing to approximately 25,000 once the changes were implemented. The total amount covers expenditure on hotel accommodation in the UK and overseas by these civil servants and all ministers.

The overall spend for financial year 2006-07 for hotel accommodation was £8.28 million.

Information on civil servant overnight accommodation expenditure separately could be provided only at disproportionate cost.

Deportation

Mr. Llwyd: To ask the Secretary of State for the Home Department following the judgments in *(a)* Huang (FC) *v.* Secretary of State for the Home Department and *(b)* Kashmiri (FC) *v.* Secretary of State for the Home Department, if her Department will review its policy on deportations. [152109]

Mr. Byrne *[holding answer 24 July 2007]:* The relevant policy document has been revised in light of the judgment in Huang and Kashmiri and is available on the Border and Immigration Agency website at:

http://www.bia.homeoffice.gov.uk/documents/asylumpolicyinstructions/apis/article8echr?view=Binary

Decisions to deport (or remove) foreign nationals from the UK are subject to the instructions found in that document.

Driving Offences: Insurance

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent estimate she has made of the number of deaths caused by uninsured drivers. [152754]

Jim Fitzpatrick: I have been asked to reply.

The information requested is not available.

Drug Seizures

Mr. Burrowes: To ask the Secretary of State for the Home Department pursuant to the answer of 21 June 2007, *Official Report*, columns 2073-74W, on drug seizures, what the *(a)* date and *(b)* weight was of each seizure referred to on page 22 of the Serious Organised Crime Agency's Annual Report; and which agency was responsible for each seizure. [152448]

Mr. Coaker: SOCA is tasked with reducing the harm caused to the UK by serious organised crime. To this end SOCA operations are directed against the most serious organised criminal enterprises (OCEs) causing harm to the UK regardless of their location. For the reasons that the hon. Member will now understand following his recent meeting with the chair and DG of SOCA, publication of the details the hon. Member requests would assist those OCEs to evade interdiction. Many of the seizures relate to ongoing work against the OCEs involved. It is important that SOCA can continue to hide or disguise its involvement in commodity (including Class A drugs) seizures, and that those OCEs involved in drug trafficking which affects this country remain unaware of the background to activity against them by SOCA and its national and international partners.

Drugs: Crime

Mr. Vara: To ask the Secretary of State for the Home Department what *(a)* quantity and *(b)* street value of illegal drugs was seized by (i) the Serious Organised Crime Agency, (ii) its predecessor agencies and (iii) local police forces in each of the last 10 years, broken down by type of narcotic. [152034]

Mr. Coaker: The Serious Organised Crime Agency in its first year of operation, 2006-07, was responsible with other law enforcement agencies for the seizure of 73 tonnes of cocaine, 1.5 tonnes of heroin, 4.4 million tablets of ecstasy, 260 kgs of opium and 1 million doses of LSD with a UK street market value of more than £3 billion.

The street market value of cocaine and heroin seizures from 2000 were:

	£ million	
	Cocaine	*Heroin*
2000	101	136
2001	60	169
2002	9	97
2003	105	64
2004	65	62

The latest available seizure data for police forces, including the National Crime Squad, in England and Wales from 1997 has been placed in the Library of the House.

Mr. Vara: To ask the Secretary of State for the Home Department (1) what estimate she has made of the change in the quantities of illegal drugs in the UK over the last 10 years; and what assessment she has made of the changes to the average street value of illegal drugs in that period; [152051]

(2) what estimate she has made of the total amount of illegal drugs imported into the UK in each of the last three years. [152035]

Mr. Coaker: Home Office Online Report 16/06, "Measuring aspects of problem drug use: methodological developments" provides the most recent baseline estimates of market size for 2003-04. The estimates are subject to wide margins of error and are not for methodological reasons comparable with earlier estimates.

The street price of the main drugs of misuse are estimated to have reduced since 2000.

Firearms: Greater London

Tom Brake: To ask the Secretary of State for the Home Department how many incidents of gun crime have occurred in each London borough since 1997. [150892]

Mr. Coaker: Firearms are taken to be involved in an incident if they are fired, used as a blunt instrument against a person or used as a threat. The number of offences recorded by the City of London and Metropolitan police in which firearms (excluding air weapons) were reported to have been used between 1997-98 and 2005-06 is given in the tables. Data cannot be broken down by London borough.

Table 1: Crimes recorded in which firearms (excluding air weapons) were reported to have been used: City of London and Metropolitan police forces, 1997-98 to 2001-02

	Number of firearm offences
1997-98	1,951
1998-99[1]	2,034
1999-2000	2,945
2000-01	3,036
2001-02[2]	4,197

[1] There was a change in the counting rules for recorded crime on 1 April 1998.
[2] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.

Table 2: Crimes recorded in which firearms (excluding air weapons) were reported to have been used: City of London and Metropolitan police forces, 2002-03 to 2005-06[3,4]

	Number of firearm offences
2002-03	4,202
2003-04	3,891
2004-05	3,697
2005-06	3,884

[3] Data in this table take account of the introduction of the National Crime Recording Standard in April 2002, which may have resulted in inflated figures for some crime categories. These figures are not directly comparable with those for earlier years.
[4] Data for 2006-07 will be available in January 2008.

Immigration: Bulgaria and Romania

Mr. Hands: To ask the Secretary of State for the Home Department what the target processing time is for applications for *(a)* Romanian and *(b)* Bulgarian nationals under each of the different application processes and pathways through which they can apply to work and remain in the UK; and what percentage of such applications met that target time in the last period for which figures are available. [151484]

Mr. Byrne: The published service standards are 70 per cent. of applications under the Accession (Immigration and Worker Authorisation) Regulations, cleared within 20 working days of receipt for both Romanian and Bulgarian nationals. 77 per cent. of applications made were cleared within the target time in the three month period ending on 31 March 2007.

The published service standards are 30 per cent. for applications under the European Community Association Agreement, cleared within 70 working days of receipt

for both Romanian and Bulgarian nationals. 94 per cent. of applications made were cleared within the target time in the three month period ending on 31 March 2007.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Mr. Hands: To ask the Secretary of State for the Home Department what the average *(a)* cost and *(b)* time taken to process applications for (i) Romanian and (ii) Bulgarian nationals under each of the different application processes and pathways through which they can apply to work and remain in the UK was in the most recent period for which figures are available. [151487]

Mr. Byrne: Information on the average cost to process applications for Romanian and Bulgarian nationals is not available.

For the three month period ending on 31 March 2007, 77 per cent. of applications under the Accession (Immigration and Worker Authorisation) Regulations, were cleared within 20 working days of receipt for both Romanian and Bulgarian nationals.

In the same period, 94 per cent. of applications under the European Community Association Agreement, were cleared within 70 working days of receipt for both Romanian and Bulgarian nationals.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Mr. Hands: To ask the Secretary of State for the Home Department how many different application processes and pathways there are through which Romanian and Bulgarian nationals can apply to work and remain in the UK. [151488]

Mr. Byrne: There are two main pathways within which Romanian and Bulgarian nationals can apply to work and remain in the UK.

Romanian and Bulgarian nationals can apply under the Accession (Immigration and Worker Authorisation) Regulations for a Worker Authorisation Card or a Registration Certificate to confirm they are exercising a Treaty Right in the UK as a Student, Self-employed, Self-sufficient or Highly skilled person, or are exempt from Work Authorisation.

Bulgarian and Romanian nationals who have had valid leave to remain pre-accession under the European Community Association Agreement and can meet the terms of the agreement for the remainder of the qualifying period, are able to apply for Indefinite Leave to Remain as a self-employed person.

Bulgarian and Romanian nationals can also seek Indefinite Leave to Remain under the immigration rules if they were in a category leading to settlement prior to accession.

Immigration: Detention Centres

Damian Green: To ask the Secretary of State for the Home Department if she will make a statement on the use of immigration removal centre places for non-immigration-related detainees. [152787]

Mr. Byrne: Immigration removal centres can only be used for the purpose of holding those detained solely under Immigration Act powers. Section 147 of the Immigration and Asylum Act 1999 refers.

Naturalisation

Ian Stewart: To ask the Secretary of State for the Home Department when a determination on application for naturalisation of A1079396, acknowledged by her Department on 21 December 2005, will be made. [150005]

Mr. Byrne: The application has now been determined. The applicant will be informed of the outcome in writing.

Passports: Fraud

Mr. Burstow: To ask the Secretary of State for the Home Department what steps *(a)* her Department and *(b)* the Identity and Passport Service (IPS) has taken to improve the IPS detection of passport fraud since 2001. [151505]

Meg Hillier *[holding answer 23 July 2007]:* Over the last six years the Identity and Passport Service has undertaken a range of initiatives to improve the prevention and detection of passport fraud. These include:

Significantly increased security in the passport book through the development and issue from last year of the ePassport which incorporates an RF chip and other advanced physical security features.

From 2002 the creation of a database of around 750,000 infant death records to counter frauds using dead children's identities.

The introduction of secure delivery of passports to customers from February 2004 resulting in an 80 per cent. reduction in losses of passports in the post.

From December 2003, improved arrangements for the reporting, recording and sharing of data on lost/stolen passports. This database of around 1 million records is now shared with UK border control and border control authorities worldwide via Interpol.

The establishment of fraud and intelligence units in each of its seven passport issuing offices with professional, accredited training for all investigators.

The introduction of the Passport Validation Service which enables approved government agencies to validate the status of a UK passport which has been presented to them as evidence of identity. The service is also available to organisations regulated by the Financial Services Authority that have to comply with the "Know Your Customer" statement of good practice requirements.

On an operational level, IPS are using intelligence received and data on known frauds to actively manage passport fraud identified after the issue of the passport. It is currently investigating some 2,000 cases.

IPS work collaboratively with the Border and Immigration Agency on (BIA) matters relating to

passport fraud and with the police and the Serious Organised Crime Agency on joint actions against those involved in passport fraud. The BIA's National Document Fraud Unit regularly provides training for IPS officers to assist them on detecting passport fraud, and works closely with IPS document experts to ensure the latest and most effective security measures are incorporated in UK passports. IPS and BIA exchange information and intelligence relating to document fraud and BIA accesses electronic records of issued, lost and stolen UK passports and notifies IPS when attempts are made to use UK passports fraudulently.

Going forward, IPS has developed a comprehensive counter fraud strategy to combat identity fraud in the passport issuing process. This strategy includes:

interviews for all first-time adult customers;

checking biographical information to ensure that the identity claimed on the application form is real, living, and can be linked to the customer through cross checks against a range of public and private sector databases;

the development of facial recognition systems to check applicant images against a database of images of suspected fraudsters;

checking applicants against increasingly sophisticated internal watch files including the database of passports reported lost or stolen;

strengthening its business processes for identity authentication, and training and support for passport examiners and specialist fraud units;

utilising intelligence on known fraud patterns and enhanced capability from information sharing arrangements to conduct searches of the IPS database of 50 million passport records to identify fraud committed in the past.

INTERNATIONAL DEVELOPMENT

Angola: Overseas Aid

Mr. Hancock: To ask the Secretary of State for International Development what recent assessment he has made of the *(a)* level of poverty, *(b)* access to basic health care, *(c)* access to a basic education and *(d)* level of government corruption in Angola; and what assistance he is giving to Angola. [151628]

Mr. Thomas: The last comprehensive assessment of income poverty in Angola was the Household Income and Expenditure Survey (IDR) in 2001, which was carried out by the National Institution of Statistics, financed by the World Bank. This found that 68 per cent. of the population lived below the poverty line, and 26 per cent. in extreme poverty. In 2004, Angola's Ministry of Health stated that 30 to 40 per cent. of the population had access to primary health care. In 2005 the Ministry of Education reported a primary education net enrolment of 62 per cent.

Angola rates poorly on corruption indices, although it has shown some improvement in recent years.

DFID has a bilateral programme of £3 million in 2007-08 for Angola. During this period, Angola will also benefit from other funding sources, including £1.9 million for demining, over £1 million from the Africa Conflict Prevention Pool, and major regional programmes on HIV/AIDS and reintegration of ex-combatants.

Thailand and Burma: Karen Refugees

Mr. Mullin: To ask the Secretary of State for International Development what contribution the Government are making to support the work of non-governmental organisations working with Karen refugees on the Thai-Burma border; and if he will make a statement. [152867]

Mr. Malik: DFID will provide £1.8 million in the period from July 2005 to March 2008 to support Thai based non-governmental organisations to work with refugees, the majority of whom are Karen, and provide cross-border support to internally displaced people on the Thai-Burma border. The British Embassy in Bangkok regularly speaks to the Royal Thai Government on issues affecting Burmese refugees in Thailand.

DFID considers that both in-country and cross border support is important. It will continue to review the options for reaching displaced people, and the best balance between support from inside Burma and through cross-border border groups and support to refugees. Decisions will take into account planned new work by humanitarian experts from UN OCHA, which will provide better independent analysis of the needs of displaced people, a clearer picture of what other donors are doing, and a better assessment of where there are gaps.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for International Development how much was spent by his Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151973]

Mr. Malik: The only air conditioning units hired by DFID in our UK offices over this period was during 2003-04, when the cost was £703. There are no agencies for which we are responsible.

Departments: Employment Agencies

Mrs. May: To ask the Secretary of State for International Development how much the Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151671]

Mr. Malik: DFID does not make use of recruitment agencies when recruiting permanent staff to the Home Civil Service. In accordance with the Civil Service Commissioners code external appointments are made on merit on the basis of fair and open competition.

DFID periodically engages temporary staff through recruitment agencies, mainly in administrative grades. A management fee is included in the salary costs for each person supplied by the agency but it is not possible to disaggregate the total cost of these fees without incurring disproportionate costs.

Departments: Legislation

Dr. Cable: To ask the Secretary of State for International Development which Bills introduced by his Department in the last five years contained sunset clauses; and what plans he has for the future use of such clauses. [151840]

Mr. Malik: The International Development Act received royal assent on 26 February 2002. It does not contain a sunset clause

The appropriateness of a sunset clause for the whole or part of any proposed legislation is considered on a case by case basis. It is also addressed when a regulatory impact assessment relating to legislation is being prepared.

Dr. Cable: To ask the Secretary of State for International Development which Bills introduced by his Department in the last five years did not contain sunset clauses; and if he will make a statement. [152488]

Mr. Malik: The International Development Act received royal assent on 26 February 2002. It does not contain a sunset clause

Departments: Manpower

Mr. Hoban: To ask the Secretary of State for International Development how many people have been appointed to his Department outside civil service grades in the last 30 days. [153120]

Mr. Malik: DFID has appointed two people outside civil service grades in the last 30 days.

Mr. Hoban: To ask the Secretary of State for International Development how many press officers are employed by his Department. [153122]

Mr. Malik: DFID currently employs nine press officers.

Departments: Press

Mr. Hoban: To ask the Secretary of State for International Development to which periodicals his Department subscribes. [153114]

Mr. Malik: The DFID Library has subscriptions to printed or electronic versions of the periodicals in the following list. Details of subscriptions held by individual DFID Country Offices and Divisions could be compiled only at disproportionate cost.

Departments: Redundancy Pay

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on redundancy payments in the last 12 months. [153110]

Mr. Malik: The amount spent by the Department for International Development on redundancy payments in the 12 months from June 2006 to May 2007 was £2,653,413.

Departments: Training

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on *(a)* staff training and *(b)* communication training in the last 12 months. [153112]

Mr. Malik: In financial year 2006-2007, the Department for International Development (DFID) spent £5.94 million on staff learning and development.

DFID does not have the systems to identify the full range of training activity across its UK and overseas operations that fall under the banner of "communications" training. Information is only available on some of the larger-scale initiatives to improve communications capability in the last year (2006-2007). These are (with costs):

Training to improve the DFID's capability in communicating and working with the media: £58,126 (from 6/3/06-25/7/07).

Communications training to improve customer service in the Human Resources Division: £35,000.

Effective writing skills for DFID's Policy Division: £27,000.

Foreign language training: £140,500.

Strategic communications workshops for Communications Officers across DFID: £7,620.

Departments: Tribunals

Mr. Hoban: To ask the Secretary of State for International Development how much was spent by his Department on industrial tribunals in the last 12 months. [153113]

Mr. Malik: DFID has spent no money on industrial tribunals in the last 12 months. DFID spent £1,500 in the form of compensation payments which originated from a tribunal in a previous period.

Developing Countries: Debts

Mr. Jamie Reed: To ask the Secretary of State for International Development how much developing countries' debt was written off by the UK Government in financial year 2006-07. [148432]

Mr. Malik: Final figures for debt relief expenditure in 2006-07 by the UK Government are not yet available. They will be published in the autumn in DFID's new edition of Statistics on International Development, along with other information on how the UK uses financial resources to support international development.

Developing Countries: Overseas Aid

Mr. Jamie Reed: To ask the Secretary of State for International Development what funding the UK provided for *(a)* education, *(b)* healthcare and *(c)* clean water in developing countries in financial year 2006-07. [148433]

Mr. Malik: Provisional estimates of DFID bilateral expenditure show that DFID spent £367.8 million on education, £514.7 million on health and £46.8 million on water and sanitation in financial year 2006-07. These figures do not include DFID contributions to a range of multilateral organisations, a significant proportion of which will also fund education, healthcare and clean water in developing countries.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for International Development when he will reply to the letter from the hon. Member for West Worcestershire of 21 June 2007 on the global water crisis. [153493]

Mr. Thomas: The letter of 21 June 2007 from the hon. Member for West Worcestershire about the global water crisis was received in DFID on 2 July. A reply to this was issued on 24 July.

North Korea: Overseas Aid

Lynne Featherstone: To ask the Secretary of State for International Development what discussions his Department has had with the European Aid Co-operation Office and the European Community Humanitarian Office (ECHO) about ECHO ending its humanitarian support in the Democratic People's Republic of Korea in 2008. [152803]

Mr. Malik: DFID has not had any discussions with ECHO or formally with the EuropeAid Co-operation Office this issue. The ending of the ECHO programme by May 2008 was agreed by member states in spring 2006 in the light of the relative stability of the humanitarian situation in the Democratic People's Republic of Korea. EuropeAid will take over operations from ECHO. EuropeAid's terms of reference will differ from those under which ECHO operates, although they will take over responsibility for NGOS operating in the Democratic People's Republic of Korea. The EuropeAid programme will concentrate more on food security.

Sudan: Overseas Aid

Mr. Mullin: To ask the Secretary of State for International Development what contribution the Government has made to the relief effort for those displaced by the floods in Central and Eastern Sudan; and if he will make a statement. [151032]

Mr. Thomas: DFID's has not given any direct funding to flood relief as we work through multilateral mechanisms, ensuring more effective co-ordination and response. In 2007, we have contributed £40 million to the UN's Central Emergency Response Fund (CERF) and £40 million to the Sudan Common Humanitarian Fund (CHF), a pioneering multi-donor fund that allows the UN Humanitarian Co-ordinator to direct resources to the most pressing needs. Both mechanisms have funding available and are awaiting appeals to be submitted to them by relief agencies involved in the flood response. DFID is working with the UN to ensure that these appeals will be promptly considered and, where approved, quickly processed. A multi-agency emergency response, including the Sudanese Government and co-ordinated by the UN, has created a shared mechanism to deliver food and other types of assistance to those most in need.

Vaccinations: Tuberculosis

Andrew George: To ask the Secretary of State for International Development whether the new tuberculosis vaccine developed by the Global Plan to Stop TB will be available worldwide; and what assessment he has made of whether sufficient funding will be allocated to enable developing countries access to it. [152900]

Mr. Malik: The Global Plan to Stop TB are not developing a new tuberculosis vaccine. Development of a new TB vaccine is being carried out by a number of different organisations across the globe. It is estimated that a new TB vaccine will be available between 2014 and 2018.

Decisions about allocation for funding for access will be made once a vaccine is available.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Barbecues: Carbon Emissions

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate the annual carbon emissions from barbecues based on figures for the total annual sale of charcoal and barbecue gas canisters. [151743]

Mr. Woolas: Carbon dioxide emissions from charcoal combustion are not included in the UK Greenhouse Gas inventory. This is because charcoal is a biomass fuel, rather than a fossil fuel. Emissions data on the use of barbeque gas canisters is not held.

Buildings: Carbon Emissions

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate he has made of the per capita annual carbon emissions resulting from the *(a)* space heating and *(b)* air conditioning of domestic and non-domestic buildings. [151745]

Mr. Woolas: The Government's Market Transformation Programme (MTP) estimates that in 2006 the total annual carbon emissions resulting from non-domestic buildings were approximately 10.5 million tonnes from space heating and 1.6 million tonnes from air conditioning.

Figures derived from the BREHOMES model of housing stock energy use indicate that the total annual carbon emissions in 2004 resulting from domestic buildings were approximately 20.5 million tonnes from space heating and 7,500 tonnes from domestic air conditioning.

The population of the UK in 2004 was 59.787 million so the emissions per capita for domestic space heating can be estimated as 343 kg carbon. Those for domestic air conditioning were about 0.13 kg carbon.

Conservation: Paper

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to reduce the Government's paper consumption by 2010. [152449]

Joan Ruddock: The Government have set out their vision for sustainable waste management in their "Waste Strategy for England 2007". In addition to setting the paper industry targets to reduce paper waste, Departments are required to meet cross-Government sustainable operations targets, launched June 2006, which include commitments to reduce all waste arisings, to increase recycling rates and to meet mandatory levels of recycled content in copier and printed paper. The report is available at:

http://www.sd-commission.org.uk/sdig2006/

Domestic Wastes: Environmental Health

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of *(a)* any change in incidence of vermin and *(b)* risks to public health following decisions by local authorities to move to fortnightly refuse collections. [150159]

Joan Ruddock: DEFRA has part-funded an independent study, carried out by Enviros Consulting and Cranfield university, to determine whether there are any additional risks to public health associated with the use of alternate collection systems for household waste, compared to weekly collection of refuse.

The study, which is published on the Enviros website, found no evidence of adverse health impacts or rises in vermin populations associated with fortnightly residual refuse collection, compared to weekly refuse collection. The study also included a review of other published studies.

The study found that the influence of domestic waste management arrangements on rats is likely to be insignificant in comparison to other factors, such as the age of the property, the area (urban or rural), and the adequate upkeep of drains. Where local authorities plan to change arrangements for the collection of residents' waste, it is essential that they consult local people and design schemes appropriately for local circumstances. New guidance in the form of the Waste and Resources Action Programme's recently published guidance for local authorities on the design and implementation of alternate collection services is available from their website at the following address:

http://www.wrap.org.uk/local_authorities/toolkits_good_practice/alternate week_html.

I have placed copies in the Library of the House.

Environment Agency: Equal Opportunities

David Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs how people with disabilities are being consulted in relation to the disability equality duty by the Environment Agency in the Southern Region. [149546]

Mr. Woolas: National duties are placed on the Environment Agency by the Disability Discrimination Act (DDA) 2005 that are not region specific. The Agency's national Disability Equality scheme and its associated action plan are available to the public on its website.

As required by the DDA 2005, ongoing and widespread consultation with disabled people, staff and stakeholders in the development of this scheme has taken place. This included interviews and focus groups with staff from across the organisation. The consultation included staff from a range of backgrounds and levels in the Agency, and external organisations which represent the interests of disabled people.

The Environment Agency views such consultation and engagement as essential to the development of the scheme and its continued progress.

Flood Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the case for extension to other areas of the flood alleviation scheme in Scunthorpe constituency where money from the Rural Development Fund is used to reward farmers for using their land to retain water upstream from towns to prevent flood damage. [150617]

Mr. Woolas: Environmental Stewardship, the agri-environment scheme funded through the Rural Development Programme, does not contain any measures specifically targeted at flood alleviation. Environmental Stewardship can support complimentary measures, such as the creation of water meadows, which could contribute towards flood management. Under the scheme, however, the primary objective of such measures would be the restoration of natural habitats and thereby biodiversity gain.

Decisions about the targeting of Environmental Stewardship are taken through local consultation.

Natural England takes the lead in discussions with stakeholders and delivery partners such as the Environment Agency.

Mr. Bone: To ask the Secretary of State for Environment, Food and Rural Affairs what recent meetings he has had with ministerial colleagues to discuss future flood prevention. [150865]

Mr. Woolas: DEFRA Ministers have met with their counterparts at Treasury to discuss funding, in general and for flood risk management; at Communities and Local Government (CLG) to discuss planning issues in relation to flood risk; and at Treasury, CLG and the Department for Business, Enterprise and Regulatory Reform to discuss insurance in relation to flooding with the Association of British Insurers.

Meetings continue to be held with CLG, Cabinet Office and a range of other interested Government Departments to discuss recovery from the recent floods and the lessons learned review into the causes, management and response.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on flood defence schemes announced for construction in 2006-07; and if he will make a statement. [151147]

Mr. Woolas: The overall programme of flood and coastal erosion risk management works is prioritised on an annual basis in the light of demands on the system and the budget available.

Operating authorities (the Environment Agency, local authorities and internal drainage boards) are required to produce annual Medium Term Plans (MTPs) setting out their proposed flood protection and prevention schemes for the following three years. As follows is a list of Environment Agency schemes that were shown on their 2005 MTP with a construction start in 2006-07 and with a construction spend in 2006-07 of greater than £250,000.

Information on local authority and internal drainage board schemes is not held centrally and collating this information is likely to incur a disproportionate cost.

Project name	*Environment Agency region*	*Current status*
Alconbury	Anglian (Central)	Construction on hold
St. Neots	Anglian (Central)	In appraisal—construction planned for 2008
Felixstowe Coastal Defence Units 2, 3 and 4	Anglian (Eastern)	In appraisal—construction planned for 2008
Happisburgh/ Winterton Phase 3B	Anglian (Eastern)	In appraisal—construction planned for 2008
Easton Broad	Anglian (Eastern)	In appraisal—construction planned for 2008-09
Kessingland to Benacre Sea Defences	Anglian (Eastern)	Completed
Humber East Halton Marshes/Skitter	Anglian (Northern)	In appraisal—construction on hold
Tidal Nene Stabilisation	Anglian (Northern)	In construction—planned completion October 2007
Grand Sluice Outfall	Anglian (Northern)	Completed
Wisbech Defences	Anglian (Northern)	In design—construction planned 2008 to 2010
South Ferriby Sluice Refurbishment	Anglian (Northern)	Completed
West Bridgford	Midlands	In construction—planned completion March 2008
Burton Phase 2	Midlands	In construction—planned completion March 2008
Gainsborough Frontages	Midlands	Construction to start July 2007
Keadby to Amcotts	Midlands	Completed
River Eden/Petteril Flood Defences, Carlisle	North West	In construction—planned completion October 2007
Lower Lancaster phase 2—St. George's Quay	North West	Construction planned for 2008-09
Thornton—Cleveleys	North West	In construction—planned completion 2008
River Alt	North West	In design—construction planned for 2008
Northenden Weir (River Mersey)	North West	Construction on hold subject to availability of funding
St. Ives	South West	In construction—planned completion March 2009
Boscastle—River Valency Phase 3	South West	In construction—planned completion in 2008
Padstow Harbour	South West	In construction—planned completion in 2007
Ashburton	South West	In construction—planned completion in 2009
East Suttons to Denge Interim Beach Management 2006-07	Southern	Completed
Dartford Creek Frontage	Thames	In construction—planned completion October 2007
Willowbank Bund Repair	Thames	Completed
Wandle Mills Culvert	Thames	On hold due to mapping requirements
Bruton Dam Reservoir Improvements	Wessex	In design—construction planned 2008-09
Parrett Banks (Left Bank)—the Croft	Wessex	Completed

Project name	Environment Agency region	Current status
Parrett Banks at Silveys Wharf, Bridgwater	Wessex	Completed
Ings Beck	Yorkshire	In appraisal—construction planned 2007-08
Burstwick Drain	Yorkshire	In appraisal—construction planned 2007-08

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on flood protection measures in *(a)* England, *(b)* Yorkshire and the Humber and *(c)* city of York in each year since 2003-04. [151562]

Mr. Woolas: The Environment Agency is the principal authority with responsibility for flood risk management in England. Details of their spending on flood protection measures in *(a)* England, *(b)* Yorkshire and the Humber and *(c)* city of York in each year since 2003-04 are set out in the following tables.

(a) Environment Agency spend in England.

	£ million
2003-04	355.7
2004-05	396.6
2005-06	509.7
2006-07	418.6

(b) Environment Agency spend in the area covered by the Yorkshire Regional Flood Defence Committee (YRFDC).

	£ million
2003-04	37.3
2004-05	33.4
2005-06	40.7
2006-07	34.0

Yorkshire and the Humber is predominantly dealt with by YRFDC although some areas are also covered by the Agency's Anglian and Midlands regions.

(c) Environment Agency expenditure in the city of York.

	£ million
2003-04	0.9
2004-05	0.8
2005-06	1.0
2006-07	0.8

Further smaller sums are expended by local authorities and internal drainage boards.

Flood Control: Expenditure

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the expected total expenditure was when the scheme was approved of each *(a)* capital and *(b)* resource expenditure flood defence project (i) under way and (ii) completed in the last two years, at 2007 prices; and what the final total expenditure was or expenditure to date has been on each scheme at 2007 prices; [151731]

(2) what the expected total expenditure on each coastal defence project *(a)* under way and *(b)* completed in the last two years was when the scheme was approved, at 2007 prices; and what the final total or expenditure to date has been on each scheme at 2007 prices. [151732]

Mr. Woolas: I regret that it is not possible to provide the information requested in the usual timescale given the date baseline. I shall write to you as soon as possible and a copy of my reply will be placed in the House Library.

Over recent years, total investment in flood and coastal defence has increased significantly in real terms. For example, the Environment Agency completed 220 capital improvement projects to reduce flood risk from rivers and the sea between 2003-04 and 2006-07, and 129,000 households have benefited from this work.

Flood Control: South West Region

Mr. Syms: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on flood defences in the South West region since 1997. [151570]

Mr. Woolas: The following table shows (a) gross flood risk management expenditure by the Environment Agency in the South West Region, administered through their South West and Wessex Regional Flood Defence Committees and (b) DEFRA funding for local authority capital improvement projects to reduce flood and coastal erosion risk in the same area.

(Many projects which protect against coastal erosion also provide significant benefits against flooding from the sea).

£000

Financial year	Environment Agency	Local authority
1997-98	25,018	4,833
1998-99	25,666	4,706
1999-2000	21,897	3,730
2000-01	23,670	3,164
2001-02	30,606	2,455
2002-03	39,377	8,288
2003-04	42,102	10,993
2004-05	39,093	5,607
2005-06	50,170	23,376
2006-07	48,890	20,615

Flood Control: Tewkesbury

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with *(a)* local authorities and *(b)* the Environment Agency on drawing up a list of buildings which house groups of vulnerable people to be prioritised for rescue when flooding occurs in Tewkesbury constituency; and if he will make a statement. [152885]

Mr. Woolas: Under central guidance on the requirements of the Civil Contingencies Act, 2004, it is the responsibility of all the statutorily designated Category 1 responders, including local authorities, emergency services, primary care trusts and the Environment Agency to identify and make plans to assist vulnerable people in any emergency.

Flood Control: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent *(a)* in England and *(b)* in the Ouse catchment area on flood protection and alleviation measures by (i) the Government, (ii) City of York council and (iii) North Yorkshire county council in 2006-07; and what estimate he has made of the likely expenditure in 2007-08. [151563]

Mr. Woolas: Defra funds most of the Environment Agency's flood related work and grant aids individual capital improvement projects undertaken by local authorities and, in low-lying areas, internal drainage boards (IDBs). The programme to manage risk is driven by these operating authorities. Defra does not build defences nor direct the authorities on specific projects to undertake.

Local authority non-capital expenditure (on levies to the Agency and IDBs and on their own spend on flood risk management) is largely supported by the local government funding mechanisms operated by the Department for Communities and Local Government (CLG).

Table 1 shows total central and local government expenditure on flood protection and alleviation measures in *(a)* England and *(b)* the Ouse catchment area. This includes expenditure on flood defences, flood warning, research and development etc. but excludes expenditure on measures primarily to reduce risk of coastal erosion (which can also sometimes help reduce flood risk).

Table 1

(£ million)

	(a) England		*(b) Ouse catchment*[1]
	Defra grant and other expenditure	*Local authority non-capital expenditure*	
2006-07	432.0	71.0	5.7
2007-08 (Forecast)	466.0	74.0	6.4

[1] Defined as Environment Agency expenditure within the Ouse catchment between the confluence with the River Ure and the confluence with the River Derwent. Defra grant to local authorities and/or internal drainage boards within the Ouse catchment, if any, could not be determined without incurring disproportionate cost.

Table 2 shows estimates of non-capital spend by City of York council on their own flood defence measures and on special levies to IDBs obtained from returns provided by the council to DCLG.

Table 2

(£ million)

	Flood defence revenue expenditure	*IDB special levies*
2006-07	0.1	0.5
2007-08	0.1	0.6

We have no records of spend by North Yorkshire county council in the years in question.

Floods

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 16 July 2007, *Official Report*, column 10W, how his Department defines significant flooding. [151916]

Mr. Woolas: The Common Incident Classification Scheme is the standard Environment Agency approach for the classification of all incidents, including flooding.

Significant flooding (Major Incident) is normally declared when 10 or more properties flood.

Floods: Damage

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether a full assessment is planned of the damage caused by the recent floods in England; [150613]

(2) if he will establish an independent inquiry into the recent floods in the north of England; [150614]

(3) what assistance is available to farmers to compensate for their loss of crops in flood-affected areas; [150820]

(4) what assessment he has made of the impact of the recent flooding in the East Riding of Yorkshire on farmers; and if he will make a statement; [151286]

(5) what plans he has to assist farmers in the East Riding of Yorkshire who have been affected by the recent flooding; and if he will make a statement. [151287]

Mr. Woolas: I refer the hon. Members to the statement given by the Secretary of State on 12 July 2007; *Official Report*, column 63WS, in which he announced that we are establishing a review to identify the lessons that need to be learned about how to manage and respond to this type of event in the future.

I also refer the hon. Members to the answer given by the Secretary of State of 19 July 2007, *Official Report*, column 422, in which he explained that we have lifted the rules on cross-compliance and waterlogged land until the end of this month. This will enable farmers to get on to the land and do what they can to rescue their crops. By notifying the Rural Payments Agency, they are able to use set-aside land for grazing and foraging, unless the agency says there is a difficulty, in recognition of the fact that the land they would otherwise use is currently underwater.

Compensation will not be available for farmers who have lost crops as a result of the recent flooding. Farmers who have taken out insurance for such damage should, of course, make a claim against their policy. We have great sympathy for those who are uninsured but there is no general right to compensation, since that would undermine the decision of those who did take out insurance and in the longer term undermine the competitive insurance market in this area that the UK currently benefits from. The Government are keen to help farmers manage risk more thoroughly themselves as part of establishing a more market focused farm industry.

Floods: Housing

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes there are *(a)* in designated development sites in each standard region, *(b)* in such sites that are situated in floodplains and *(c)* in such sites in significant flood risk areas; and if he will make a statement. [148955]

Mr. Iain Wright: I have been asked to reply.

I refer the hon. Member to the answer given by my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper) to the hon. Member for Shrewsbury and Atcham (Daniel Kawczynski) on 8 January 2007, *Official Report*, column 369W, and the answer I provided on 24 July 2007, *Official Report*, column 945W.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from the insurance industry on the number of homes considered to be uninsurable due to high risk of flooding; and if he will make a statement. [151883]

Mr. Woolas: The Association of British Insurers (ABI) wrote to the Secretary of State on 28 June. In their letter, the ABI stressed that insurers want to continue offering cover to nearly all households, but highlighted concerns about the level of risk for at least 400,000 homes in England. The letter reiterated calls for investment in flood management to rise to £750 million per annum by 2011 and the ABI has since welcomed the announcement that Government funding will increase beyond this level—to £800 million by 2010-11.

Along with other ministerial colleagues, I met representatives of the ABI on 10 July to discuss the implications of the flooding that occurred in June. At the meeting, the ABI stressed its commitment to the existing Statement of Principles for insurance cover and, in particular, the continuing availability of cover in high-risk locations where defences are planned. Officials are continuing to share information and work with the ABI, and we understand that ABI members are continuing to provide flood cover as standard to virtually all households.

Floods: Warnings

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the procedure is for signing up to receive flood warnings from the Environment Agency; and whether it is free to use. [150821]

Mr. Woolas: Anyone who thinks they may be at risk of flooding can call the Environment Agency's Floodline to find out if they are eligible to register for free flood warnings. Flood warnings can be received by telephone, mobile, fax or pager.

320,887 such warnings were issued by the Environment Agency between 1 June 2007 and 24 July 2007.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on recruiting voluntary wardens to distribute flood warnings in person. [150824]

Mr. Woolas: The Secretary of State for the Environment is not aware of any representations on recruiting voluntary wardens to distribute flood warnings in person. However, the Department is aware of many volunteer schemes that contribute a very important part of flood resilience activity.

While the Environment Agency encourages the recruitment of voluntary flood wardens, it does not use flood wardens to distribute flood warnings.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the reliability of automatic flood warning systems via *(a)* landline, *(b)* answer phone to a landline and *(c)* mobile phone. [150825]

Mr. Woolas: Floodline Warnings Direct (FWD) remains 100 per cent. operational. FWD sent over 50,000 messages to landlines and mobile phones between 25 June and 2 July. 84 per cent. of calls made to properties via landlines were answered. This includes calls answered by answer phones. 88 per cent. of calls made to mobile phones were answered, including calls answered by the messaging service.

Under FWD, faxes, pagers and emails are also used.

Forestry: Finance

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to increase the funding for new woodland creations and new woodland management under the English Woodland Grant Scheme. [152815]

Joan Ruddock: The Forestry Commission published its 2007 Grant Prospectus in May. This includes the allocation of £4.885 million to new Woodland Creation Grant agreements, for payment in financial year 2008-09.

Future funding for woodland creation will be largely determined by the Rural Development Plan for England 2007-13, which is still subject to EU Commission approval. In addition the outcome of CSR 07 and the delivery plan for the recently published Strategy for England's Trees, Woods and Forests, which is being prepared by the Forestry Commission and Natural England may affect funding.

Industrial Wastes

Rob Marris: To ask the Secretary of State for Environment, Food and Rural Affairs (1) on what date he expects the final version of the Quality Protocol for Pulverised Fuel Ash to be published; [151603]

(2) on what date the consultation on the draft Quality Protocol for Pulverised Fuel Ash will end; [151604]

(3) which bodies will be consulted about the draft Quality Protocol for Pulverised Fuel Ash; and if he will make a statement; [151605]

(4) on what date the consultation on the draft Quality Protocol for Pulverised Fuel Ash will begin. [151606]

Joan Ruddock: It is anticipated that a public consultation on the Quality Protocol for Pulverised

Fuel Ash will be launched by 28 September 2007. The consultation period will last 12 weeks in accordance with Cabinet Office guidance and, if released on schedule, will therefore end around 28 December 2007.

A list of consultees has not yet been drafted. However a Technical Advisory Group, which included industry members, drafted the initial Technical Report upon which the Quality Protocol will be based. The Environment Agency intend the consultation to reach widely across industry by direct invite as well as publication through the trade press.

A date for final publication of the Quality Protocol for Pulverised Fuel Ash has not been set, as it will be dependent upon the level and type of responses received from the consultation. It is anticipated that revision of the Quality Protocol, formatting and publication would take around 12 weeks. This would give a notional publication date of around 28 March 2008.

Nature Conservation: Squirrels

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what liaison there is between the Agriculture Department of the Scottish Executive and his Department's officers in England to ensure the maximum level of protection for red squirrels. [151753]

Joan Ruddock: The UK Red Squirrel Group (UKRSG), supported by the Joint Nature Conservation Committee (JNCC), is the main liaison mechanism to support delivery of the red squirrel species action plan.

Membership of the UKRSG includes representatives of the country groups (England, Scotland, Wales and Northern Ireland), the UK Government, the devolved Administrations and their relevant conservation agencies, the Forestry Commission, and representatives of the voluntary sector (The Wildlife Trusts).

The red squirrel conservation officers in Northumberland, Cumbria, Dumfries and Galloway and the Scottish Borders meet frequently and seek to co-ordinate grey squirrel control efforts either side of the Scottish border to help protect the red squirrel.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make funding available for the protection of red squirrels in England and, in selected areas, the eradication of grey squirrels. [151754]

Joan Ruddock: The Forestry Commission's English Woodland Grant Scheme (EWGS) offers support for red squirrel conservation targeted on the 16 designated red squirrel reserves. Over the last 12 months, EWGS has paid out £71,000 in the North-East with another £70,000 available for the 2008-09 period. In addition EWGS can support the control of grey squirrel in areas of 'critical threat' as defined in 'Grey Squirrel and England's Woodlands: Policy and Action', which was published on 22 January 2006. The Forestry Commission is also putting £26,000 a year into the Save our Squirrels project in Northern England. Natural England is also contributing £15,000 a year to this project.

We will keep the policy in this area under review, and assess future funding according to priorities.

Office of Climate Change

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what the terms of reference are of the Office of Climate Change; what work it has undertaken; and what further work is planned. [151740]

Mr. Woolas: The Office of Climate Change (OCC) was set up to:

- programme manage existing climate change commitments;
- consolidate analysis and provide co-ordination between Departments;
- run policy projects to tackle the most difficult cross-cutting issues; and,
- be an advocate for climate change issues across Government.

The OCC is a shared resource for Defra, BERR, DFID, FCO, DfT and CLG. It is jointly funded and governed by these Departments.

So far, the OCC has completed work on the following projects:

- an audit of UK action on climate change, and the implications of the Stern Review for the UK;
- drafting of the Climate Change Bill, which has now been passed to Defra for its passage through Parliament;
- work with Defra and DTI to develop a draft Aviation Offsetting standard, which will help consumers have greater confidence in carbon offsetting programmes; and,
- development of a UK position on how the EU emissions trading scheme should work after 2012.

The OCC has ongoing projects in the following areas:

- assessment of the "Global Carbon Finance" flows required to support developing countries in moving towards low carbon economies;
- developing policy options for reducing emissions from heating and cooling of buildings; and
- assessment of UK institutional arrangements and their ability to support our domestic goals.

Office of Climate Change: Finance

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what the budget is of the Office of Climate Change for 2007-08; and what budget is planned for future years. [151739]

Mr. Woolas: The Office of Climate Change has total spending plans of £3.5 million for the year 2007-08. The budget for future years has not yet been agreed but it is likely to remain at roughly the same level.

Pest Control: Squirrels

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what research is being undertaken by his Department on the control of grey squirrels. [151755]

Joan Ruddock: Methods to control grey squirrels are well known and have been published as Best Practice Guidance by the Forestry Commission (FC). The methods advocated are usually effective in reducing populations

if used at sufficient intensity, and where there is a high level of support for control by landowners and the public. This has been demonstrated by the successful 10 year project to control grey squirrels on Anglesey.

Alternative non-lethal methods to control wild populations of animals are being investigated, such as the use of immuno-contraception vaccines. The FC and DEFRA are collaborating on the application of this method for grey squirrel control with partnership funding from DEFRA, FC and Scottish Natural Heritage. However, it is likely that immuno-contraception will not, at least in the short to medium term, be a viable option for grey squirrels. Even if a suitable vaccine is found, there will still be a challenge to establish how to deliver it to grey squirrels without affecting other wildlife, especially the red squirrel.

Radio: Waste Disposal

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential environmental impact of a switch from analogue to digital radio in terms of the *(a)* disposal of analogue radio receivers, *(b)* the (i) manufacture and (ii) energy consumption of digital radio receivers and *(c)* energy consumption of digital radio receivers; and what recent discussions he has had with the Secretary of State for Culture, Media and Sport on these matters. [150161]

Joan Ruddock: The Government do not currently have any plans to switch off analogue radio transmissions. However, we are aware that there is a growing market for digital radio receivers.

The Government Market Transformation Programme (MTP) works with manufacturers, retailers and other stakeholders to seek to bring forward more sustainable products. We are currently working with retailers to seek voluntary commitments from them to improve the energy efficiency of the consumer electronic products they procure and sell.

The MTP has tested a limited number of digital radio receivers. The average energy needed to operate the radios tested was around 8.5 watts. A typical traditional analogue radio requires 2 watts.

The Government has made no assessment of the environmental impact of the disposal of analogue radios nor of the manufacture of digital radios. However, like most other electrical appliances both will need to be disposed of in compliance with the WEEE (Waste Electrical and Electronic Equipment) Regulations, which from 1 July require producers (or third parties acting on their behalf) to finance systems to provide for the collection, treatment, recovery and environmentally sound disposal of WEEE.

No discussions have been held with the Secretary of State for Culture Media and Sport on these matters.

Radioactive Wastes: Waste Management

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to finalise the appointment of the members of the reconstituted Committee on Radioactive Waste Management. [152286]

Mr. Woolas: It is planned that the reconstituted Committee on Radioactive Waste Management will be in place from autumn 2007.

Sponsor Ministers from the Department for Environment, Food and Rural Affairs, the Department for Business, Enterprise and Regulatory Reform and the devolved administrations appointed Professor Robert Pickard as Chair Designate of the reconstituted Committee on Wednesday 18 July.

Professor Pickard's appointment was made in accordance with the Office of the Commissioner for Public Appointments (OCPA) Code of Practice and he will become full Chair following appointment of up to 14 committee members in the early autumn. As Chair Designate, Professor Pickard will now play a part in the appointment of the members.

Recycling: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the provision of community recycling centres in Coventry. [150786]

Joan Ruddock: *[holding answer 19 July 2007]:* No specific assessment has been made by my Department on the provision of community recycling centres in Coventry.

The Environmental Protection Act 1990 places an obligation on waste disposal authorities to provide places at which residents in the area may deposit their household waste. Provision of such facilities would be a matter for the relevant local authority.

Recycling: Government Departments

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of waste from central Government buildings is recycled. [152450]

Joan Ruddock: The percentage of waste that is recycled from central Government buildings is published in the annual Sustainable Development in Government Reports. The last report, published by the Sustainable Development Commission, was for 2005-06. It reports a recycling rate across the Government estate of 50 per cent. The report is available at:

http://www.sd-commission.org.uk/sdig2006/

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to increase the percentage of waste from central Government buildings that is recycled by 2010. [152451]

Joan Ruddock: Central Government Departments are required to meet cross-Government sustainable operations targets, launched in June 2006, which include commitments to reduce waste arisings and to increase recycling rates. The report is available at:

http://www.sd-commission.org.uk/sdig2006/

Recycling: Greater London

Mrs. Lait: To ask the Secretary of State for Environment, Food and Rural Affairs what the percentage rate of *(a)* household recycling and *(b)* household composting was in each London borough in the most recent period for which figures are available. [152533]

Joan Ruddock: Household recycling and composting rates achieved by each London borough in 2005-06 are provided in the following table.

Authority	Recycling (BVa)	Composting (BVb)	Percentage Total (BVa+b)
Barking and Dagenham	12.18	4.42	16.6
Barnet	17.98	9.49	27.47
Bexley	21.5	16.21	37.71
Brent	10.89	9.12	20.01
Bromley	22.79	4.46	27.25
Camden	22.24	4.9	27.14
City of London	18.1	0	18.1
City of Westminster	17.79	0.5	18.29
Croydon	12.99	3.18	16.17
Ealing	15.36	3.92	19.28
East London WA	11.21	4.04	15.25
Enfield	16.92	10.37	27.29
Greenwich	18.16	3.5	21.66
Hackney	11.84	4.37	16.21
Hammersmith and Fulham	21	0.49	21.49
Haringey	16.08	3.15	19.23
Harrow	13.66	13.04	26.7
Havering	11.85	5.96	17.81
Hillingdon	16.3	11.4	27.7
Hounslow	15.74	3.51	19.25
Islington	15.7	2.59	18.29
Kensington and Chelsea	19.29	0.65	19.94
Kingston upon Thames	17.41	6.56	23.97
Lambeth	18.96	3.19	22.15
Lewisham	11.96	0.24	12.2
Merton	19.35	3.24	22.59
Newham	8.63	1.5	10.13
North London WA	15.27	5.62	20.89
Redbridge	12.79	4.55	17.34
Richmond upon Thames	21.06	7.53	28.59
Southwark	11.55	3.41	14.96
Sutton	20.21	8.86	29.07
Tower Hamlets	8.85	0	8.85
Waltham Forest	13.44	8.41	21.85
Wandsworth	20.63	0.33	20.96
West London WA	15.91	8.68	24.59
Western Riverside WA	20.2	1.83	22.03

Recycling: Standards

Mr. Anthony Wright: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to increase recycling rates. [151953]

Joan Ruddock: Recycling is strongly promoted by a range of Government policies. Measures to increase the levels of recycling and composting are outlined in the Waste Strategy for England 2007, published by my Department on the 24 May. Copies of the strategy can be found in the Library of the House and on the DEFRA website at:

http://www.defra.gov.uk/environment/waste/strategy/strategy07/pdf/waste07-strategy.pdf

Recycling: Toner Cartridges

Mr. Anthony Wright: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to implement measures which will increase the recycling of printer cartridges. [151954]

Joan Ruddock: DEFRA does not have any current plans to introduce measures to specifically increase printer cartridge recycling. A number of businesses and charitable organisations already collect printer cartridges for reuse and recycling. This option is often cheaper than purchasing a new unit.

Recycling: York

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of waste collected in city of York was recycled in each year since 2003-04; what financial assistance was provided by the Government to York for recycling in that period; and what steps the Government have taken to encourage local authorities to increase recycling rates. [151559]

Joan Ruddock: Recycling and composting of household waste has doubled in the past four years and more than tripled in the past eight years. Government support for, and engagement with, the poorest performing local authorities, challenging national and local targets and the escalating landfill tax are all helping authorities drive forward even higher recycling rates.

The Audit Commission's Best Value Performance Indicators show household waste recycled or composted by York city council was 15.43 per cent. in 2003-04; 17.77 per cent. in 2004-05; and 24.08 per cent. in 2005-06.

The main source of funding for local authorities' waste management services is the environmental, protective and cultural services (EPCS) block of Government grant, distributed each year. It is for the local authorities to decide what proportion of the block to invest in waste management services, including recycling. Specific funding awarded from 2003-04 onwards to York city council, available for it to use on improving its recycling services, is detailed in the following table.

Funding type	Funding amount (£)	Funding description	Start date	End date
Local Authority Support Unit Direct Consultancy Service	36,015	Partnership Development	1 April 2004	31 March 2005
National Waste Minimisation and Recycling Fund (Round 3)	350,000	Household Waste Recycling Centre Development	1 April 2004	31 March 2006

Funding type	Funding amount (£)	Funding description	Start date	End date
Grant to relieve spending pressures on waste	50,735	Share of £20 million to all local authorities in England in recognition of the need to spend on waste management	1 April 2004	31 March 2005
Waste and Performance Efficiency Grant (WPEG)	145,790	Capital: 82,006.62 Revenue: 63,782.92	1 April 2005	31 March 2006
Local Authority Support Unit Direct Consultancy Support	72,182	York and North Yorkshire Waste Management Partnership (YNYWMP) and Joint Municipal Waste Management Strategy (JMWMS)—revision and development	1 April 2005	31 March 2006
Household Incentives	23,400	Four incentive pilots for a six month period starting October 2005. All authorities run the first two pilots but can elect to undertake a third and fourth.	1 April 2005	31 March 2006
Local Authority Support Unit Direct Consultancy Support	99,832	Waste Composition Study	1 April 2006	31 March 2008
Waste and Performance Efficiency Grant (WPEG)	387,705	Capital: 193,852 Revenue: 193,852	1 April 2006	31 March 2007
Waste and Performance Efficiency Grant (WPEG)	406,075	Capital: 203,037 Revenue: 203,037	1 April 2007	31 March 2008

York city council also received free guidance and support during this time, including from the Waste and Resources Action Programme's ROTATE programme. ROTATE is a free advisory service which supports local authorities' kerbside collection and local communications and awareness programmes.

Recycling: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of waste was recycled in each local authority in Yorkshire and the Humber in each year since 2004-05. [151560]

Joan Ruddock: The Audit Commission's Best Value Performance Indicators for household recycling and composting rates for 2004-05 and 2005-06 achieved by each local authority in the Yorkshire and Humber region are shown in the following table.

	2004-05	Percentage 2005-06
East Riding of Yorkshire	18.77	24.76
Kingston upon Hull	13.28	18.05
North East Lincolnshire	21.18	23.68
North Lincolnshire	24.09	25.77
York City	17.77	24.08
Selby	14.71	26.73
Scarborough	14.87	18.67
Ryedale	25.40	42.77
Richmondshire	11.99	22.67
Harrogate	15.63	21.92
Hambleton	34.52	39.87
Craven	21.41	27.04
North Yorkshire County	21.98	30.19
Sheffield	17.14	21.17
Rotherham	21.00	22.43
Doncaster	18.24	19.55
Barnsley	17.68	19.9
Leeds	19.56	21.33
Kirklees	16.23	21.06
Wakefield City	21.27	21.99
Bradford City	16.73	18.55
Calderdale	17.05	20.35

Refrigerators: Energy

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the energy efficiency of mini-fridges; and what assessment he has made of the merits of placing restrictions on their sale in the UK. [151742]

Joan Ruddock: The Government Market Transformation Programme (MTP) works with manufacturers and other stakeholders to seek to bring forward more sustainable products and has worked with the domestic refrigeration industry in both the UK and abroad to significantly improve the energy efficiency of these appliances over the past 10 to 15 years.

While no specific assessment has been made of "mini-fridges" we are aware that an increasing number of these appliances are being purchased. However, as a member of the European Single Market the UK, nor any other member state, cannot place restrictions on the sale of appliances on the basis of their energy efficiency alone. Such actions need to be taken by member states acting together.

The Eco-Design for Energy Using Products (EUP) framework directive provides a forum for considering options and priorities for establishing energy efficiency standards for energy using products. Domestic refrigeration products have been identified as priority for action and the Commission expects to bring forward proposals in this area early next year.

Severn Barrage: Flood Control

Kelvin Hopkins: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the potential environmental impact of the proposed Severn Barrage project, with particular reference to flood protection upstream. [151917]

Mr. Woolas: A Severn Barrage scheme could make a major contribution towards the supply of renewable electricity, potentially delivering up to 5 per cent. of the UK's electricity needs.

However, construction of a barrage would have a major impact on the unique hyper-tidal nature of the estuary. Some areas of saltmarsh as well as intertidal mudflats and sandflats at the banks of the Severn would be lost. Wildlife, including waders and wildfowl, and migratory fish stocks such as salmon and sea trout would be affected.

The construction of a barrage would also have an impact on local flood management plans. The precise implications of a barrage scheme would depend on its location, the detail of its operating regimes and, in particular, the extent to which tidal water was permitted to enter the Severn.

A major study on tidal power in the UK, led by the Sustainable Development Commission (SDC), is currently under way. Part of the study is looking at the consequences of building a barrage across the Severn estuary and the social, environmental and economic impacts involved, including the implications for flood management. We will carefully consider the results of this work, which should be available at the end of September, before any decisions are taken.

Water Demand: Showers

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate the impact on per capita demand for water within households of the use of power showers. [151829]

Mr. Woolas: The Government's Market Transformation Programme (MTP) will shortly be setting out, for public consultation, the Government's current evidence and analysis on showers. This consultation is part of a wider annual review and policy development process, supporting delivery of the Government's objectives for energy, water and for sustainable consumption and production.

The paper includes indicative targets and eco-design standards for showers which are sold and used in the UK. The MTP work indicates that if no new policy actions are taken, and current underlying trends continue, water consumption by showers is expected to rise by 48 per cent. by 2020 compared to the 2006 baseline. The policy actions proposed in the document show how this projected increase can be constrained.

Water Demand: Domestic Swimming Pools

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of *(a)* the impact of trends in the numbers of swimming pools, jacuzzis and other water spa pools and decorative water features and ponds within the home and garden on per capita demand for water within individual households over the last 10 years and *(b)* the likely impact of such trends over the next 10 years. [151876]

Mr. Woolas: The Market Transformation Programme (MTP) allows us to assess the impact of a range of products on water use, including toilets, taps, showers and baths. The MTP is also undertaking a scoping study to determine which other products use significant amounts of water. This will include an assessment of the amount of water consumption associated with swimming pools, hot tubs and spa baths. There is currently no evidence to show that ornamental garden water features involve significant levels of water consumption.

Water Supply: Tewkesbury and Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions he has held with Severn Trent on restoring water supplies to households in the Tewkesbury constituency; and if he will make a statement; [152906]

(2) what discussions he has had with Severn Trent on securing extra supplies of bowsers to provide emergency water supplies to people in Gloucestershire; and if he will make a statement. [152907]

Mr. Woolas: My Department is in close contact with Severn Trent Water about the restoration of piped water supplies, the provision of alternative supplies from bowsers, street based water tanks and the distribution of bottled water. We are helping to ensure the availability of extra bowsers and tanks where necessary. Work is under way at Mythe Water Treatment Works to enable mains water to be restored to 140,000 homes in Tewkesbury, Gloucester and Cheltenham. My officials are closely monitoring the situation.

Water: Conservation

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies have spent on *(a)* advertising and other promotion, *(b)* grants for households and *(c)* research to promote more efficient use of water in the household since 1997. [151733]

Mr. Woolas: The Water Industry Act 1991 places a duty on water companies in England and Wales to promote the efficient use of water to their customers. This can include the distribution of free water saving devices and publicity and information on the efficient use of water.

Advice to customers is made available on websites and through articles in publications and the Environment Agency's Water Efficiency Awards. Efficient use of hot water also features in the current DEFRA Act on CO_2 campaign.

Since 1997 the Department and the Environment Agency have spent an estimated £2.5 million combined on research directly or indirectly related to the efficient use of water in households.

The DEFRA-led Water Saving Group is formed by the key water industry stakeholders and was established in October 2005 to develop practical ways to promote the efficient use of water in households. Its action plan includes a workstream led by the Consumer Council for Water on 'Understanding and changing customers' perceptions and raising awareness'.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the reasons for recent trends in the per capita demand for water in households. [151734]

Mr. Woolas: Ofwat publish per capita consumption (pcc) figures annually in their security of supply, leakage and water efficiency report, a copy of which is available in the library of the House. It is thought that between 1960 and 1995 pcc rose by about 1 per cent. per year. Since 1995 Ofwat report that pcc has been relatively stable. Variations occur between years, and at regional levels, which reflect influences on consumption such as climate variations, the number of metered customers and restrictions on usage.

DEFRA's Market Transformation Programme (MTP) presents scenario data on future water consumption in the domestic sector. This work includes the production of policy briefs and briefing notes on key products which include water demand forecasting models and related action plans. Actual consumption is influenced by both the standard of products and the water using behaviours of consumers.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* research his Department has undertaken into and *(b)* support his Department has given to the development of water saving products. [151932]

Mr. Woolas: DEFRA's Market Transformation Programme (MTP) presents scenario data on future water consumption in the domestic sector. This work includes the production of policy briefs and briefing notes which include water demand forecasting models and related action plans. MTP also undertakes research to support the evidence base for key water using products.

In 2003 the Government launched the Enhanced Capital Allowance (ECA) scheme for water efficient technologies, which provides accelerated tax relief to businesses investing in designated sustainable water technologies. These are listed on the ECA website and provide a list of proven water saving technologies that can be accessed by businesses and the public alike. The ECA scheme provides a financial incentive for businesses to invest in sustainable water technologies and also encourages innovation for the development of more environmentally beneficial technologies.

CULTURE, MEDIA AND SPORT

BBC: Middle East

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if he will make it his policy to request the BBC to publish the Balen report. [153650]

James Purnell: No. The decision on whether to release the Balen report is a matter for the BBC.

Commonwealth Games: Glasgow

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether there are any plans to transfer the association right if Glasgow wins the right to host the 2014 Commonwealth Games; and if he will make a statement. [152656]

Mr. Sutcliffe: I understand that the Scottish Executive is in discussion with the Department for Innovation, Universities and Skills about association rights for a Glasgow 2014 Commonwealth Games, should it win the right to host them. DCMS is not involved in this matter.

Departments: Correspondence

Mr. Bellingham: To ask the Secretary of State for Culture, Media and Sport when his Department plans to answer the letter sent to it by the Federation of Racecourse Bookmakers on 31 May. [153673]

Mr. Sutcliffe: A response has been sent today.

Departments: Ministerial Policy Advisors

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what the name is of each special adviser in his Department. [153278]

James Purnell: I have not yet appointed special advisers.

Digital Broadcasting

John Battle: To ask the Secretary of State for Culture, Media and Sport what guarantees Ofcom has given to major broadcasters on access to the digital interleaved spectrum; and if he will make a statement. [153569]

James Purnell: The matter raised is the responsibility of the Office of Communications (Ofcom), as independent regulator for the communications sector. Accordingly, I have asked the Chief Executive of Ofcom to reply directly to my right hon. Friend. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

Flags: Scotland

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport whether his exhortation to fly the Union flag over public buildings extends to public buildings in Scotland. [150390]

James Purnell: The Prime Minister's suggestion to fly the Union Flag over public buildings extends to Government buildings in Scotland. Flag flying at Scottish Executive and Scottish Parliament buildings is a matter for those bodies.

Football: World Cup

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport (1) what budget has been agreed for the new Government ambassador for the 2018 Football World Cup bid; and from which Department's budget it will come; [152653]

(2) what support will be provided from the public purse to the new Government ambassador for the 2018 Football World Cup bid. [152655]

Mr. Sutcliffe: Bidding to host a future World Cup is not a decision for Government but for the relevant football authority. The Department is committed to supporting viable bids to host major events in the UK and has made up to £50,000 available to provide staff support and travel expenses to the Prime Minister's World Cup ambassador until the end of the calendar year; the British Council has provided office space.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what discussions took place with the Football Association prior to the announcement of the new Government ambassador for the 2018 World Cup bid. [152654]

Mr. Sutcliffe: The Football Association was given prior notification of the Prime Minister's intention to make this appointment.

Leisure: Hampshire

Sandra Gidley: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on sport and culture in *(a)* Southampton and *(b)* Hampshire since 1997. [151067]

Mr. Sutcliffe: The main body of this answer deals with Exchequer funds routed via DCMS. It does not include funding for cultural or sporting activities delivered via local authorities and funded via other Government Departments. Lottery funds, awarded by Lottery distributing bodies independently of the Department, are included for completeness and addressed separately at the end of this answer.

Sport

Financial support for sport from public sources is primarily channelled through Sport England and UK Sport, the two DCMS sponsored bodies which dispense Exchequer and Lottery funds for sport from DCMS, in line with their own policies and priorities for the development of sport.

Sport England has distributed the following amounts of Exchequer funding to Southampton and Hampshire in the period since 1997 to support and promote sporting activities and projects:

Southampton: £529,600

Hampshire: £983,542

It is not possible for UK Sport to determine an amount of Exchequer funding allocated to Southampton and Hampshire as its funding is not directed to specific counties or regions.

Culture

Arts Council England has made the following awards from Exchequer funding:

£000

	2002-03	2003-04	2004-05	2005-06	2006-07
Southampton	995	1,202	1,258	1,100	982
Hampshire	712	915	923	1,294	1,007

Due to a merger between the Arts Council and Regional arts boards in 2002-03, previous figures are not readily available. As Southampton is a unitary authority, funding for the authority is excluded from the Hampshire totals.

Culture: Museums and Libraries

It is not possible to provide a complete financial breakdown at the county or District level for all aspects of expenditure by the Museums, Libraries and Archives Council. This includes the Renaissance in the Regions programme for museums, which focuses on need and impact at the regional level, where the South East Regional Hub (with Hampshire County Museums Service as lead partner) has received:

£

2002-03	2003-04	2004-05	2005-06	2006-07	2007-08
10,000	260,000	908,000	1,548,000	1,932,000	4,394,000

However to date, museums in Southampton have directly benefited from £207,144 of Renaissance investment in their collections of national significance and similarly museums within the county boundary of Hampshire, including Southampton, have received £1,351,453.

Heritage

The following grants were offered by English Heritage between 1 April 1997 to date:

1. Southampton - total of £2,651,864 offered (53 cases)

2. Hampshire - total of £296,807 offered (five cases).

The Listed Places of Worship Grant Scheme has made grants totalling £8,075,710.50 to the South East region since 2001, but further disaggregation is not possible without incurring disproportionate cost.

National Lottery funding (non-Exchequer)

The following totals have been provided by National Lottery Distributors, and are not Exchequer funds:

£

Lottery awards (total)

Region	
Southampton	£40,522,308
Hampshire	£60,921,923
Total	£101,444,231

National Lottery: via Sport England

£000

	Southampton	*Hampshire*
1996-97	513	5,780
1997-98	89	2,229
1998-99	295	1,599
1999-2000	17	251
2000-01	329	394
2001-02	6,227	937
2002-03	251	511
2003-04	64	966
2004-05	232	1,451
2005-06	291	1,416
2006-07	143	1,373

National Lottery: via Heritage Lottery Fund

Since 1997, the Heritage Lottery Fund has awarded over £13,563,664 to more than 98 heritage projects in Southampton, and awarded over £43,345,844, to more than 455 heritage projects in the county of Hampshire.

National Lottery: via the UK Film Council

The UKFC Film Council has awarded the following (up to 30 June 2007).

£

(a) Southampton (local authority area):

2001	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*Total*
—	66	9,250	1,967	10,500	2,708	—	24,491

£

(b) Hampshire (county area):

2001	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*Total*
289,242	101,377	98,386	26,329	20,150	34,317	830	570,631

Licensing Act: Greater London

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport how many licences issued under the Licensing Act 2003 have since been revoked in each London borough. [153416]

Mr. Sutcliffe: We do not hold this information centrally. The Licensing Act 2003 devolved the administration for licensing to individual licensing authorities who should hold information about licensed premises in their area.

DCMS is currently collecting information about licensed premises and applications under the Licensing Act 2003 for a new National Statistics bulletin. Data are scheduled to be released in October 2007 on the DCMS website.

Broad estimates collated by the Department in November 2006, based on a small sample of licensing authorities, suggested that following review, approximately 100 licences had been revoked across England and Wales in the first year under the new Licensing Act.

Licensing Laws

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport how many licence applications were *(a)* granted and *(b)* rejected in each local authority area for (i) late night takeaway premises, (ii) public houses and (iii) clubs between 1999 and the commencement of the Licensing Act 2003. [153334]

Mr. Sutcliffe: We do not hold this information centrally.

Information about the number of applications for liquor licenses in England and Wales under the previous licensing regime is available in the Liquor Licensing Statistical Bulletin series. The bulletins published in 2000 and 2004 are available on the DCMS website:

http://www.culture.gov.uk/Reference_library/Research/statistics_outputs/liquor_licensing_statistics

The 2004 bulletin showed that there were just over 5,000 new applications for on-licences and about 2,950 new applications for off-licences in the year to June 2004. In both cases over 19 of every 20 applications were granted.

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport how many licence applications have been *(a)* granted and *(b)* rejected in each local authority area for (i) late night takeaway premises, (ii) public houses and (iii) clubs since the commencement of the Licensing Act 2003. [153335]

Mr. Sutcliffe: We do not hold this information centrally.

The Licensing Act 2003 devolved the administration for licensing to individual licensing authorities who should hold information about licensed premises in their area.

DCMS is currently collecting information about licensed premises and applications under the Licensing Act 2003 for a new National Statistics bulletin. Data are scheduled to be released in October 2007 on the DCMS website.

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport how many and what percentage of licence applications have been granted in each local authority area for *(a)* late night takeaway premises, *(b)* public houses and *(c)* clubs against police advice since the commencement of the Licensing Act 2003. [153336]

Mr. Sutcliffe: We do not hold this information centrally.

Lilleshall National Sports Centre

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what plans he has for the future of Lilleshall National Sports Centre; and if he will make a statement. [152652]

Mr. Sutcliffe: Sport England is working with key stakeholders to develop proposals for the management of Lilleshall from April 2009, when the current management contract expires, and a strategy that offers a stronger, sustainable long-term future for the site.

Mass Media: Politics and Government

Mr. Allen: To ask the Secretary of State for Culture, Media and Sport if he will hold discussions with the BBC and other media organisations on the potential use of their public interest role to further the debate launched by the Prime Minister on democratic reform; and if he will make a statement. [150908]

James Purnell: The Government are keen to ensure that as many people as possible throughout the United Kingdom are involved in the debate on democratic renewal. Broadcasters and other media organisations are, of course, independent of Government. My right hon. Friend the Lord Chancellor and Secretary of State for Justice is considering the consultation process.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Culture, Media and Sport when he will reply to the letter from the hon. Member for West Worcestershire of 15 June 2007, DCMS ref: 72199. [153491]

James Purnell: The hon. Member's letter of 15 June was addressed to my predecessor and I replied on 23 July, reference CMS 72199.

Museums and Galleries: West Midlands and Herefordshire

Bill Wiggin: To ask the Secretary of State for Culture, Media and Sport (1) whether funding for Renaissance in the West Midlands is planned to be continued following the Comprehensive Spending Review; [152287]

(2) what assessment he has made of the effect of Renaissance funding on museums in *(a)* Hereford and *(b)* Leominster. [152291]

James Purnell: I refer the hon. Member to the answer my right hon. Friend the Minister for Culture, Creative Industries and Tourism (Margaret Hodge) gave him on 19 July 2007, *Official Report*, column 479W.

Museums in Hereford and Leominster have received support from the Renaissance programme at the regional level in respect of: making grant and lottery applications; training and skills development; conservation and environmental monitoring; audience development work; improvements to facilities; and purchase of equipment.

Future Funding for the Renaissance in the Regions Programme and all other departmental expenditure is under consideration in the context of the spending review.

National Lottery: Play

Mr. Andy Reed: To ask the Secretary of State for Culture, Media and Sport what projects have been funded under the Big Lottery Fund children's play initiative. [152091]

Mr. Sutcliffe: The projects listed have been funded under Children's Play.

Children's Play—Projects Awarded

Adur's Local Community Improvement Play Projects for Children and Young People
Play Around Alnwick District
Making Play Matter in Ashfield
Go4Play in Ashford

RAF Ibsley

Mr. Swayne: To ask the Secretary of State for Culture, Media and Sport what progress has been made on the listing of RAF Ibsley control tower; and if he will make a statement. [150873]

Margaret Hodge *[holding answer 19 July 2007]:* We are seeking further advice on this case from English Heritage before a final decision can be made.

Recreation Spaces: Floods

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the recent flooding on public and community sporting facilities; and if he will make a statement. [152879]

Mr. Sutcliffe: Sport England is working closely with those areas badly affected and has made an initial assessment of the recent flooding affecting public and community sporting facilities in the regions of Yorkshire, East Midlands and West Midlands. Initial assessments show that there is not a wide-scale problem affecting sporting facilities in Yorkshire but that some individual facilities in the worst affected areas are badly damaged. It is still too early to assess the extent of damage from flooding in the Midlands but Sport England's regional offices are monitoring the situation and will be able to make a fuller assessment when it becomes possible to do so.

Sport: Schools

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport on what date his Department agreed a new target of raising the time allocated to school sport from four hours per week to five hours. [153383]

James Purnell: The Prime Minister announced on 13 July £100 million of additional funding to support access to five hours of sport each week for all 5 to 16-year-olds in schools and three hours for all other young people aged 16 to19.

Sports: Yorkshire and Humberside

Hugh Bayley: To ask the Secretary of State for Culture, Media and Sport what assistance the Government has given to *(a)* amateur sports clubs and *(b)* sport in schools in York since 1997. [152187]

Mr. Sutcliffe: The information is as follows.

Amateur sports clubs

Sport England advise that, since 1997, Government and the national lottery funding bodies have awarded £1,925,000 to amateur sports clubs.

In addition the following clubs in York have been registered as community amateur sports clubs to access the benefits of the scheme;

Acomb Sports Club
Alne Cricket Club
Appleton Roebuck Tennis Club
Bert Keech Bowls Club
Bishopthorpe Bowling Club
Bishopthorpe Tennis Club
Boroughbridge Sports Association
Dringhouses Bowling Club
Easingwold Haxby Robinson Bowling Club
Easingwold Lawn Tennis Club
Easingwold Rifle Club
Easingwold Town Association Football Club
Fulford Tennis Club
Hamilton Panthers Association Football Club
Heworth Amateur Rugby League Club
Heworth Golf Club
Heworth Tennis Club
Huby Bowling Club
Kingston Ice Dance Club
New Earswick and District Bowling Club
Osbaldwick Sports Club
Shipton Bowls Club
Stillington Sports and Social Club
Strensall Bowling Club
White Rose Triathletes
York and District Indoor Bowling Club
York City Rowing Club
York Cricket and Rugby Union Club
York Cricket Club
York Gliding Centre
York Ladies Cricket Club
York Railway Institute
York Squash Rackets Club

School sport

As part of the National School Sport Strategy, all schools in York are part of a School Sport Partnership (a family of schools which work together to increase participation in PE and school sport). Some are part of the York High Partnership, which was established in 2003 and will have received funding of £927,488 in the five years to 2008. The other schools are in the Burnholme Partnership, which was established in 2005 and will have received £631,215 in the three years to 2008.

Lottery funding of £222,526 has been awarded for two Out of School Hours Learning/School Sports Coordinators in York at the York High School Sport Partnership and the Burnholme Community College School Sport Partnership.

Government and the national lottery funding bodies have awarded £1,461,065 for community sports facilities in schools through programmes such as Active England, New Opportunities for PE and Sport and the Community Projects Capital Fund.

Sportsgrounds: Greater London

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport how many new sporting facilities have been provided for children in each London borough in each of the last five years. [153566]

Mr. Sutcliffe: We do not hold information centrally about new sports facilities provided for use only by children. However, Sport England collects information through the Active Places database on new sports facilities that have community access, including the public and private sector. The following table provides data taken from database and shows the numbers of sports facilities known to have been built in each London borough since 2002.

	2002	*2003*	*2004*	*2005*	*2006*	*2007*	*Total by borough*
Barking and Dagenham	3	1	4	3	1	1	13

TRANSPORT

Airborne Global System for Mobile Equipment

Mrs. Dunwoody: To ask the Secretary of State for Transport when the European Aviation Safety Authority granted airworthiness certification for the Airborne Global System for Mobile Equipment; when the House was informed of this decision; what the consultation process was prior to this decision; what the dates were of the consultation; which organisations were consulted; and if she will make a statement. [152012]

Jim Fitzpatrick: This is a technical matter between a European Agency and a private company.

The European Aviation Safety Agency issued Airbus with airworthiness certification for an airborne global system for mobile equipment (GSM) system on 19 June. The certification was issued to enable trials to be carried out on a single aircraft. EASA is the competent authority in the EU with responsibility for the airworthiness certification of all aeronautical products. It did not undertake a consultation process with regards to this particular approval.

Following the outcome of the trials and the product approval granted by EASA, operators of UK airlines would be required to gain an operational approval from the CAA before mobile equipment could be used on their aircraft.

Bus Services: Concessions

Susan Kramer: To ask the Secretary of State for Transport what the estimated set-up cost is of the new concessionary bus travel schemes set up under the Concessionary Bus Travel Bill per individual smart card; and how these costs were calculated. [152180]

Ms Rosie Winterton: The cost of introducing smartcards will depend on local circumstance and will vary from authority to authority. The Department commissioned independent Consultants, Deloitte, to produce an estimate of the indicative costs of all stages of introducing a national concessionary bus pass for older and disabled people in England. Their report was received in January 2007, and estimated that the cost, per smart card, would be between £2.64 and £3.59.

The report drew upon a number of sources. Several regional and local authorities have already implemented smart card travel schemes while many more are actively planning to, and members of several such authorities were interviewed. In addition, a number of representatives from key suppliers and from transport operating companies were also approached for information for the report.

Susan Kramer: To ask the Secretary of State for Transport if she will fund the new bus schemes arising from the Concessionary Bus Travel Bill by specific grants direct to local transport authorities. [152244]

Ms Rosie Winterton: Funding for the Concessionary Bus Travel Act will either be distributed via the formula grant system—as is the case for funding of the current statutory minimum concession—or specific grant by formula. A decision on the funding route will be made in due course.

Departments: Air Conditioning

Chris Huhne: To ask the Secretary of State for Transport how much was spent by the Department and its agencies on the hire of mobile air conditioning units in each of the last five years. [151928]

Jim Fitzpatrick: The requested information is as follows:

	£
2002-03	19,000
2003-04	87,097
2004-05	117,989
2005-06	171,936
2006-07	190,692

Departments: Disabled

Mr. Harper: To ask the Secretary of State for Transport what proportion of people employed by *(a)* her Department and *(b)* its agencies are disabled. [153595]

Jim Fitzpatrick: The proportions of staff who declared that they were in the Department and its agencies disabled at 31 March 2007 was 6.1 per cent.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Transport how many people in her Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149182]

Jim Fitzpatrick: The following table shows the number of people in the Department and its Agencies that have been disciplined/dismissed for inappropriate use of the internet while at work and using work telephones to access premium rate telephone numbers in the last 12 months.

	Number disciplined	*Number dismissed*
Internet	155	20
Telephone	1	0

Almost all of these relate to one particular instance. This represents 0.84 per cent. of staff employed within the Department for Transport central and its Agencies.

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Transport whether *(a)* her Department and *(b)* its agencies have made payments to Flint Bishop solicitors since 1997. [151376]

Jim Fitzpatrick: Since the Department was formed in May 2002 of the Department's agencies, only the Highways Agency has a record of payments being made to Flint Bishop solicitors, as follows:

2002-03—£33,504

2006-07—£1,039

Departments: Information Officers

Mr. Hoban: To ask the Secretary of State for Transport how many press officers are employed by her Department. [153216]

Jim Fitzpatrick: The full time equivalent number of staff employed on press officer activities on 1 July 2007 is as follows:

	Press officers
DfT Central	14
DfT Agencies	22

Press office activities in most agencies are not carried out by staff or units solely dedicated to this purpose.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Transport how many ministerial red boxes her Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150416]

Jim Fitzpatrick: Ministerial boxes are used by successive Ministers over many years.

Since the Department was formed in May 2002, it has purchased 13 ministerial red boxes at a total cost of some £8,853.62 (inc VAT). All of the boxes were supplied by Banner Business Supplies (formerly the Stationery Office). Identifying the tendering process at this stage could be done only at disproportionate cost.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Transport what volume of correspondence her Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150459]

Jim Fitzpatrick: The Department for Transport is a federated organisation comprising seven Executive Agencies. Data on volume of correspondence sent by Royal Mail and by other commercial service providers is not recorded in all cases.

Where recorded the requested information is as follows:

	Items
(a)	
2002-02	76,720,270
2003-04	80,866,908
2004-05	110,748,308
2005-06	100,662,528
2006-07	102,671,860
(b)	
2002-02	[1]—
2003-04	[1]—
2004-05	3,905
2005-06	4,481
2006-07	7,685

[1] not recorded

Commercial delivery services are only used when it was proven more cost effective to do so, at customer's request, for non-standard sized items or if time critical.

Departments: Press

Mr. Hoban: To ask the Secretary of State for Transport to which periodicals her Department subscribes. [153208]

Jim Fitzpatrick: The Department for Transport (Central) receives a library and information service from Communities and Local Government. A list of those periodicals centrally funded has been placed in the Library of the House. Separating those titles solely held for use by the Department for Transport could be obtained only at disproportionate cost. The list also includes periodicals subscribed to outside this service by the Department's Executive agencies.

The list excludes information from the Government Car and Despatch Agency and the Driving Standards Agency which could be provided only at disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on newspapers and magazines in the last 12 months. [153209]

Jim Fitzpatrick: The Department for Transport (Central) receives a library and information service from Communities and Local Government. From 1 July 2006 to 30 June 2007, the library spent £25,064 on paper-based publications for Department for Transport and for Communities and Local Government. This included the purchase of newspapers, magazines, annuals and books. Separating out spend relating to newspapers and magazines solely held for use by Department for Transport would attract a disproportionate cost.

Expenditure outside this service, by the Department's executive agencies, was some £169,225 in 2006-07. This excludes information from the Government Car and Despatch Agency and the Driving Standards Agency which could be provided only at disproportionate cost.

Departments: Training

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on staff away days in the last 12 months. [153205]

Jim Fitzpatrick: The information is not held in the form requested and could be obtained only at disproportionate cost.

Departments: Travel

Mr. Hoban: To ask the Secretary of State for Transport how much was spent by her Department on *(a)* business class and *(b)* first class flights in the last 12 months. [153211]

Jim Fitzpatrick: Air travel expenditure is not recorded by class of ticket. The information could be provided only at disproportionate cost. All travel is undertaken in accordance with the guidelines set out in the Ministerial Code and the Civil Service Management Code.

Susan Kramer: To ask the Secretary of State for Transport what estimate she has made of the number of miles travelled by cars in the Government Car and Despatch Agency in *(a)* 2006-07 and *(b)* 2001-02; and how many miles were travelled in work conducted for each Government Department. [153368]

Jim Fitzpatrick: I refer the hon. Member to the answer given by my hon. Friend, the then Minister of State for Transport (Dr. Ladyman) on 22 February 2007, *Official Report*, column 1939W.

Driving Offences

Susan Kramer: To ask the Secretary of State for Transport what estimate she has made of the number of motor vehicles being used on the road without *(a)* road tax, *(b)* insurance and *(c)* a driving licence. [152154]

Jim Fitzpatrick *[holding answer 24 July 2007]*: *(a)* The most recent estimates of the number of vehicles evading Vehicle Excise Duty (VED) in Great Britain and Northern Ireland were published in the statistical report Vehicle Excise Duty Evasion 2006. A copy of this report, published on 25 January 2007, was placed in the House of Commons Library and is also available at:

http://www.dft.gov.uk/162259/162469/VEDEvasionSurveyReport2006

(b) Our latest estimate (2005) for uninsured driving is based on a comparison of the vehicle register, maintained by the Driver and Vehicle Licensing Agency (DVLA) and the Motor Insurance Database. It is that there are about 2.1 million vehicles (about 6.5 per cent. of the UK vehicle fleet) being driven by uninsured drivers.

(c) The most recent estimate of the number of drivers using a vehicle on the road without a valid driving licence was published in a joint DfT/DEFRA/ACPO report, Roads Policing Operation V79—National Driver and Vehicle Compliance Check. It was published on 8 September 2006, was placed in the House of Commons Library and is also available at:

http://www.dft.gov.uk/pgr/roads/vehicles/roadspolicingoperationv79/

The Government are determined to tackle the problem of unlicensed vehicles. It introduced a system of continuous registration (CR) in January 2004 to enforce VED direct from the computer record. In addition, DVLA let a new contract to wheelclamp unlicensed vehicles in May 2006. In the 12 months since then 100,442 vehicles were clamped and impounded.

The Road Safety Act 2006 gives the Government powers to introduce a system of continuous insurance enforcement. The scheme will provide a new fixed penalty for people who ignore official reminders that their insurance has expired. This will apply to vehicles that are not declared as being off the road through a Statutory Off-Road Notification (SORN) and are not insured. Continuing offenders risk having their vehicle seized and destroyed. This is expected to begin in 2008.

Driving Offences: London

Lynne Featherstone: To ask the Secretary of State for Transport how many hit and run accidents there were in each London borough in each of the last five years. [153554]

Jim Fitzpatrick: I refer the hon. Member to the answer given by the then Minister of State for Transport (Dr. Stephen Ladyman) of 24 July 2006, *Official Report*, columns 734-5W for data up to 2005. Data for 2006 are given in the table.

Reported personal injury accidents involving one or more hit and run drivers / riders by London borough: 2006

London borough	*2006*
Barking	91
Barnet	142
Bexley	73
Brent	113
Bromley	78

Reported personal injury accidents involving one or more hit and run drivers / riders by London borough: 2006

London borough	*2006*
Camden	107
City of London	53
Croydon	133
Ealing	184
Enfield	126
Greenwich	95
Hackney	162
Hammersmith	108
Haringey	134
Harrow	36
Havering	77
Hillingdon	97
Hounslow	114
Islington	99
Kensington and Chelsea	103
Kingston upon Thames	30
Lambeth	178
Lewisham	124
Merton	49
Newham	216
Redbridge	170
Richmond upon Thames	39
Southwark	177
Sutton	51
Tower Hamlets	179
Waltham Forest	159
Wandsworth	103
Westminster	222

Driving Offences: Mobile Phones

Mike Wood: To ask the Secretary of State for Transport what estimate she has made of the number of people who were stopped for using mobile telephones while driving *(a)* vans and other light goods vehicles and *(b)* heavy goods vehicles in the last period for which information is available. [152759]

Jim Fitzpatrick: No such estimate is made. However, the Department monitors the number of drivers using mobile phones while driving on a regular basis. The survey for 2007 is under way at the moment and the results will be published later this year. The survey differentiates between cars and other vehicles including vans and lorries. The most recent survey published in August 2006 is in TRL Leaflet 2100. That is available on-line at

www.trl.co.uk/store/report_list.asp?pid=211.

Driving: Age

Mr. Jim Cunningham: To ask the Secretary of State for Transport what assessment she has made of the merits of increasing the legal driving age to 18 years. [152337]

Jim Fitzpatrick: The Department most recently considered the case for increasing the legal driving age in the context of its 2002 consultation "A More Structured Approach to Learning to Drive".

At that time, we took the view the way forward was to improve the educational environment to provide access to a more consistent and better standard of training rather than to place restrictions on new drivers which we were concerned would have an impact on significant numbers of young people, especially those in rural areas. We will, however, be considering these issues further in the light of the report published on 19 July 2007 on Novice Drivers by the Transport Select Committee and are planning a further consultation later this year.

Driving: Licensing

Susan Kramer: To ask the Secretary of State for Transport how many complaints were received by *(a)* the Driver and Vehicle Licensing Agency (DVLA), *(b)* her Department and *(c)* other bodies on the process by which licence applications are processed by the DVLA in each year since 2000-01, broken down by nature of the complaint. [151862]

Jim Fitzpatrick: The figures for *(a)* The Driver and Vehicle Licensing Agency are contained in the following table

Category of Complaint	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Non receipt of driving licence	92	57	86	87	126	108	204
Errors on driving licence	192	199	195	202	174	186	203
Driving licence complaint	139	168	262	310	312	224	263
Driver's Medical complaint	174	129	141	429	200	149	288
Total	597	553	684	1,028	812	667	958

Any complaints received by the Department or other bodies on the licence process are forwarded to DVLA to deal with and would therefore be included in the above figures.

DVLA continuously strives to improve its service to customers and constantly reviews its working processes. DVLA is currently reviewing its forms and literature to ensure that they are clear and user friendly and meet customer needs.

Heathrow Airport

Justine Greening: To ask the Secretary of State for Transport (1) how many level busts where planes landing or taking off at Heathrow lost their vertical separation by deviation of 300 feet or more from the assigned level took place in each year since 2000; and if she will make a statement; [150829]

(2) how many losses of standard separation of planes were recorded by planes landing and departing at Heathrow in each year since 2000; and if she will make a statement. [150830]

Jim Fitzpatrick *[holding answer 19 July 2007]:* This is an operational matter for NATS, the air navigation services provider. I have asked the Chief Executive of NATS to respond to your questions directly.

Heathrow Airport: Passengers

Susan Kramer: To ask the Secretary of State for Transport how many overseas residents on *(a)* leisure and *(b)* business trips transferred or transited at Heathrow airport to (i) an overseas destination and (ii) another destination in the UK in 2006. [152896]

Jim Fitzpatrick: The table shows the estimated number of overseas residents on leisure and business trips who transferred at Heathrow airport to an overseas destination and another destination in the UK in 2006.

Information on the country of residence or the trip purpose of transit passengers is not available.

Transfer passengers at Heathrow (overseas residents), 2006

	Business	Leisure	thousand Total
Transfer to an overseas destination	5,300	12,607	17,908
Transfer to another destination in the UK	432	768	1,200

Source:
Civil Aviation Authority

Susan Kramer: To ask the Secretary of State for Transport how many *(a)* UK residents and *(b)* overseas residents who were transfer or transit passengers through Heathrow were (i) travelling between a UK origin and an overseas destination and (ii) travelling between two UK destinations for (A) business and (B) leisure in the latest period for which figures are available. [152897]

Jim Fitzpatrick: The following table shows the data for transfer and transit passengers at Heathrow in 2006. The detailed breakdown by destination and trip purpose is not available for transit passengers.

Transfer and transit passengers at Heathrow 2006

	UK residents		Overseas residents		thousand
	Business	Leisure	Business	Leisure	Total passengers
Transfer passengers:					
Between a UK origin and an overseas destination	880	2,713	806	1,317	5,716
of which:					
Domestic to International	491	1,454	374	549	2,868
International to Domestic	389	1,259	432	768	2,848
Between two UK destinations	0	—	—	0	1
Transit passengers	n/a	n/a	n/a	n/a	189

0 = Zero passengers.
— = Less than 500 passengers.
n/a = Not available.
Source:
Civil Aviation Authority

Susan Kramer: To ask the Secretary of State for Transport how many *(a)* transfer and *(b)* transit passengers used Heathrow airport in (i) 1976, (ii) 1986, (iii) 1996 and (iv) 2006. [152898]

Jim Fitzpatrick: The following table shows the estimated number of transfer and transit passengers at Heathrow airport in 1978, 1987, 1996 and 2006. Data are not available for 1976 or 1986.

Transfer and transit passengers at Heathrow airport

	Transfer	million Transit
1978	5.7	0.4
1987	7.8	0.4
1996	18.2	0.3
2006	22.9	0.2

Source:
Civil Aviation Authority

Susan Kramer: To ask the Secretary of State for Transport how many UK residents on *(a)* leisure and *(b)* business trips transferred or transited at Heathrow airport to (i) an overseas destination and (ii) another destination in the UK in 2006. [152899]

Jim Fitzpatrick: The following table shows the estimated number of UK residents on leisure and business trips who transferred at Heathrow airport to an overseas destination and another destination in the UK in 2006. Information on the country of residence or the trip purpose of transit passengers is not available.

Transfer passengers at Heathrow (UK residents), 2006

	Transfer to an overseas destination	thousand Transfer to another destination in the UK
Business	554	390
Leisure	1,582	1,260
Total	2,137	1,650

Civil Aviation Authority

Heathrow Airport: Security

Robert Neill: To ask the Secretary of State for Transport if she will meet London First to discuss the impact of security arrangements at Heathrow Airport on business travellers. [152148]

Jim Fitzpatrick *[holding answer 24 July 2007]:* The Department is very aware of the issues facing business and leisure travellers, resulting from the necessary current security regulations. My right hon. Friend last week hosted an Aviation Security Summit with senior aviation industry figures, to review industry's preparedness for this summer's peak traffic season, and to explore the scope for steps which might be taken to further ease the burden on passengers whilst continuing to ensure effective security. My right hon. Friend will be meeting with London First shortly.

Highways Agency: Weather

Lynne Jones: To ask the Secretary of State for Transport when the Highways Agency was notified by

the Meteorological Office of the warning of severe weather on and around 20 July; and what information was provided. [153698]

Mr. Tom Harris: The Highways Agency was first notified by the Meteorological Office of a heavy rain warning at 10.12 am on Wednesday 18 July. The warning stated that a prolonged period of heavy and thundery rain was expected to affect parts of England and Wales on Friday and into Saturday. The warning stated that there was doubt about where the highest rainfall would occur but that southern and eastern areas were most at risk and that the heavy rain could lead to flooding in some areas and cause disruption to outdoor events and transport networks.

This warning was updated at 10.39 am on Thursday 19 July to a prolonged period of heavy and thundery rain affecting southern parts of England and Wales on Friday, then moving into more northern areas overnight and into Saturday.

Lynne Jones: To ask the Secretary of State for Transport what steps the Highways Agency took in response to the recent bad weather warning and information provided by the Meteorological Office; when these were taken; and whether the Highways Agency took any steps to inform the public of possible problems with travelling because of the adverse weather conditions. [153699]

Mr. Tom Harris: The Highways Agency issued at 4.37 pm on Thursday 19 July a Press Notice warning of severe weather.

The Highways Agency had patrols of Traffic Officers and Incident Support Units operating along key routes throughout Friday to identify any problems and deal with events where possible. Updates on road conditions were regularly issued through the media, on the Agency's website and through its Information Line. The Agency issued a further 10 Press Notices and updates between Friday 20 July and Tuesday 24 July.

Lynne Jones: To ask the Secretary of State for Transport what the policy is of the Highways Agency on acting upon warnings received from the Meteorological Office on adverse weather conditions. [153700]

Mr. Tom Harris: The Highways Agency's Regional Control Centres for the regions affected implement operational plans depending on the type of warning. The Agency's National Traffic Control Centre responds at a strategic level depending on the nature and duration of the weather event and co-ordinates dissemination of information to the public, press and on strategic motorway signs.

In the most serious events the Agency has contingency plans at local, regional and national level, and these plans would provide the operational response to disruption caused by the weather.

In all cases contingency plans utilise both the Highways Agency Traffic Officer Service, and the Agency's service providers, to ensure there is both a response in the Agency's new role as a network operator, and the traditional role as the maintainer to the strategic roads network.

The contingency plans are regularly rehearsed and tested, and following all incidents there is a debrief and lesson learning process. The Agency also has a 'Severe Weather—Lessons Learnt' group which meets monthly throughout the year.

The Agency has special arrangements with the Met Office for weather forecasting, with a Met Office forecaster 'embedded' in the National Traffic Control centre from October to April, and there is a bureau arrangement with the Met Office for the remainder of the year.

For the future the Agency is working with the freight transport industry to set up a warning system, to advise transport drivers of severe weather conditions, and in particular to prevent high sided vehicles being blown over in high winds. This should be in place prior to the winter 2007-08.

Lorries: EU Law

Mr. Drew: To ask the Secretary of State for Transport what steps the Government are taking to prepare for the introduction of mandatory retro-reflective markings on all newly registered heavy goods vehicles by 10 October 2009 under European Union Directive 76/756/EEC. [152812]

Jim Fitzpatrick: UNECE Regulation 48 permits contracting parties to refuse registration of heavy goods vehicles not fitted with retro-reflective conspicuity markings from 10 October 2009 and Department officials are currently drafting the necessary amendments to the Road Vehicle Lighting Regulations to introduce requirements from this date.

However, Directive 76/756/EEC requires that we must continue to register vehicles type approved before 10 July 2008 without retro-reflective markings fitted until 10 July 2011 and derogations will be necessary for such vehicles.

Mr. Drew: To ask the Secretary of State for Transport what steps the Government are taking to prepare for the introduction of mandatory retro-reflective markings on all new types of heavy goods vehicles by 10 October 2007 under European Union Directive 76/756/EEC. [152813]

Jim Fitzpatrick: New types of heavy goods vehicles which are approved to UNECE Regulation 48 from 10 October 2007 must be fitted with retro-reflective markings.

However, type approval of heavy goods vehicles is currently optional in the UK and retro-reflective markings on all new types of heavy goods vehicles will become mandatory with the introduction of European Community Whole Vehicle Type Approval (ECWVTA) for heavy trucks and trailers which implements Directive 76/756/EEC.

We will implement the requirements of ECWVTA into national legislation in accordance with the specified timetable. It is anticipated that all complete new types of heavy goods vehicle will have to be type approved from October 2010, which will include provisions relating to retro-reflective markings.

Lorries: Health Hazards

Mr. Arbuthnot: To ask the Secretary of State for Transport what assessment she has made of *(a)* the effects on human health of increased levels of heavy goods vehicle (HGV) traffic and *(b)* the level of HGV movements per day on a public highway at which there would be an increased risk to people living (i) a quarter of a mile, (ii) half a mile, (iii) three-quarters of a mile and (iv) one mile from a public highway. [152703]

Jim Fitzpatrick: The Department for Transport does not have health expertise but relies on the advice of the Department for Health's Committee on the Medical Effects of Air Pollutants (COMEAP). COMEAP estimated that in 1996[1] airborne particulate matter and nitrogen dioxide (the two main road traffic pollutants) resulted in 19,200 hospital admissions. More recently concentrations of particulate matter in 2005 were estimated to reduce average life expectancy by eight months.

It is not possible to separate the health impacts of specific vehicle types from other sources. However, in 2001 road traffic accounted for 55-60 per cent. of particulate matter and 85-90 per cent. of nitrogen dioxide at roadside, and 20-25 per cent. of particulate matter and 65-70 per cent. of nitrogen dioxide at background locations, in London (the worst case location). In this same year heavy goods vehicles were responsible for 13 per cent. and 17 per cent. of urban road traffic emissions of particulate matter and nitrogen dioxide respectively.

The Department is committed to reducing road transport emissions. The most effective mechanism for this is via new vehicle emissions standards, often known as 'Euro' standards. These have already brought about substantial reductions in emissions, however further reductions are required if we are to meet our air quality objectives. I am pleased to report that new standards ('Euro 5' and 'Euro 6') which will give major reductions in light duty vehicle emissions were adopted by the European Council in May 2007. We are also expecting a proposal from the European Commission late this year to further tighten heavy goods vehicle emissions requirements.

For particulate matter, there is no known threshold below which there are no effects on health, this makes it impossible to identify a number of vehicle movements below which there are no health impacts. However, maps showing ambient concentrations of pollutants[2] on a one kilometre square basis relative to Air Quality targets are available from national emissions modelling. In addition the Highways Agency routinely assesses the impacts of trunk road projects on emissions and exceedences of air quality objectives.

Luggage: Airports

Mr. Carmichael: To ask the Secretary of State for Transport how many bags were reported by passengers *(a)* lost, *(b)* damaged and *(c)* delayed using Scotland's airports in each of the last five years. [153620]

Jim Fitzpatrick: The information requested is not held by this Department. Information on baggage may be held by individual airlines/airport operators.

Office of the Rail Regulator: Consultants

Susan Kramer: To ask the Secretary of State for Transport if she will list the *(a)* technical and financial contracts, *(b)* technical consultants used on a call-off basis and *(c)* financial consultants used on a call-off basis by the Office of the Rail Regulator since November 2005; what the nature was of the assignment for each consultant; and what the value was of work done by each consultant. [151828]

Mr. Tom Harris *[holding answer 23 July 2007]:* A table has been placed in the House Libraries detailing contracts which have been let since November 2005 relating to ORR's economic and technical directorates. Two contracts are on a call off basis. The values shown are the total amount estimated at the time the contract was let.

Official Cars: Ministers

Norman Baker: To ask the Secretary of State for Transport pursuant to the answer of 23 July 2007, *Official Report*, column 674W, on official cars: Ministers, which Minister was referred to in the answer. [153740]

Jim Fitzpatrick: Lord Sainsbury of Turville, Parliamentary Under-Secretary of State for Trade and Industry until November 2006 was not provided with an official car and driver by the Government Car and Despatch Agency.

Railway Stations: Security

Susan Kramer: To ask the Secretary of State for Transport how many and what proportion of railway stations in each region were accredited under the Secure Stations Scheme in each year since 1998. [151864]

Mr. Tom Harris: Stations are awarded Secure Station status for a two year period once they have met the required Scheme accreditation standards on station design, station management, crime management and passenger perceptions. After this two year period, stations can seek reaccreditation under the Scheme.

The figures requested are provided in the following table. The England figures cover overground, London Underground and Docklands Light Rail stations.

The yearly accreditation figures represent stations that have received their accreditation or reaccreditation in that year. The figures do not include those stations in the second year of their accreditation period. For example, by totalling all new accreditations with those currently in the second year of their accreditation there are at present a total of 516 accredited stations in England, Scotland and Wales. This represents 18.4 per cent. of the total stations in GB.

Currently, over 90 per cent. of all overground rail journeys, and 74 per cent. of London Underground journeys involve passengers starting or finishing their journey at a Secure Station.

	England		Scotland		Wales	
	Accreditations	Percentage	Accreditations	Percentage	Accreditations	Percentage
1998	5	0.2	—	—	—	—
1999	22	1.0	1	0.3	—	—
2000	49	2.2	1	0.3	—	—
2001	60	2.7	2	0.3	—	—
2002	75	3.3	1	0.3	1	0.5
2003	62	2.8	1	0.3	1	0.5
2004	92	4.1	2	0.3	—	—
2005	97	4.3	1	0.3	1	0.5
2006	293	13.0	2	0.6	6	2.8
2007	128	5.7	—	—	4	1.9

Railways: Tees Valley

Ms Dari Taylor: To ask the Secretary of State for Transport what assessment she has made of the case for expansion and modernisation of the local rail network that serves Tees Valley from Darlington. [153376]

Mr. Tom Harris: Network Rail has developed a programme of Route Utilisation Strategies which examine detailed options for developing the railway and producing business cases to support the options. They are currently consulting on the strategy for the East Coast Main Line and other related lines including those through Darlington and the Tees Valley. I understand that the local authorities and regional bodies in that area have been working closely with Network Rail on the development of the strategy and will be responding to the consultation exercise.

River Dart

Mr. Steen: To ask the Secretary of State for Transport when she will reply to the emails from the Secretary of the River Dart Non Beneficiary Group of 26 June, 1 July and 9 July inviting an official from the ports division to attend the meeting on Wednesday 12 September at Dittisham Parish Hall. [152808]

Jim Fitzpatrick: Officials from the Department responded on 18 July to the invitation that had been sent to them.

Roads: Accidents

Mr. Jim Cunningham: To ask the Secretary of State for Transport how many road accidents including fatal accidents there were in Coventry in each year since 1995. [152339]

Jim Fitzpatrick: The number of reported personal injury road accidents, including fatal accidents, in Coventry for each year since 1995 are given in the following table.

	Number of accidents	
	Fatal	Total[1]
1995	8	913
1996	8	919
1997	10	1,100
1998	10	1,146
1999	2	1,103
2000	12	1,208
2001	8	1,142
2002	4	1,163
2003	8	1,057
2004	7	934
2005	14	932
2006	10	927

[1] Includes fatal, serious and slight accidents.

Mr. Andrew Turner: To ask the Secretary of State for Transport how many road fatalities have occurred in *(a)* each police authority and *(b)* each operational command unit in Hampshire and the Isle of Wight in the last 12 months, broken down by age. [152799]

Jim Fitzpatrick: The number of fatalities in reported personal injury road accidents in each police authority in 2006, by fatality age band, is given in the table.

	Number of fatalities									
Police authority	0-15	16-19	20-29	30-39	40-49	50-59	60-69	70-79	80+	Total[1]

[1] Includes cases where the age of the fatality was not recorded.

2006 is the most recent year for which this information is available.

The information is not available by operational command units in Hampshire and the Isle of Wight.

Lynne Featherstone: To ask the Secretary of State for Transport how many traffic accidents involved drivers aged *(a)* 17 to 21 and *(b)* over 60 years old in each London borough in each of the last 10 years. [153552]

Jim Fitzpatrick: The number of reported personal injury road accidents involving at least one driver/rider aged *(a)* 17 to 21 and *(b)* over 60 years old in each London borough in each of the last 10 years is given in the tables.

Reported personal injury road accidents involving at least one driver/rider aged 17 to 21 by London borough: 2006
